HOUSTON, January 24, 2014. Prosperity Bancshares, Inc.[®] (NYSE: PB), the parent company of Prosperity Bank[®] (collectively, Prosperity), reported net income for the quarter ended December 31, 2013, of \$62.971 million or \$0.98 per diluted common share, an increase in net income of \$14.705 million or 30.5%, compared with \$48.266 million, and an increase in diluted earnings per share of 15.3%, compared with \$0.85 per diluted common share for the same period in 2012. I am very excited to announce the great results and accomplishments for the fourth quarter and full year 2013. We were again selected by Forbes magazine as the #1 Best Bank in America. All of our Associates and Directors have worked very hard and this honor recognizes them for that, said David Zalman, Prosperity s Chairman and Chief Executive Officer.

We completed the merger and operational integration of First Victoria National Bank, with assets in excess of \$2 billion and a footprint complimentary to Prosperity. We are very excited about the relationship and all of their team members have been great to work with. I know that all the associates with First Victoria will help take us to another level and share in our success going forward, continued Zalman.

We look forward to our pending merger with F&M Bancorporation and its wholly owned subsidiary (F&M Bank) headquartered in Tulsa, Oklahoma, which we hope to close at the end of the first quarter or very early in the second quarter of this year. The pending merger with F&M Bank, combined with our recent merger of Coppermark Bank in Oklahoma City will increase our market share substantially in Oklahoma and increase our ability to compete more effectively from a size standpoint, added Zalman.

We could not be more pleased with our earnings per share for 2013 increasing 13.0% to \$3.65 compared with 2012 diluted earnings per share of \$3.23. Including acquisitions, our loans increased \$2.595 billion or 50.1% and our deposits increased \$3.649 billion or 31.3% when compared with the fourth quarter of 2012. These are excellent results and this achievement could not be done without all the hard work of our Associates and Directors. I appreciate all that has been done by everyone to make us the Best Bank in America, concluded Zalman.

Prosperity's management uses certain non-GAAP (generally accepted accounting principles) financial measures to evaluate its performance. Specifically, Prosperity reviews tangible book value per share, return on average tangible common equity and the tangible equity to tangible assets ratio. In addition, due to the application of purchase accounting, Prosperity uses certain non-GAAP measures and ratios that exclude the impact of these items to evaluate its allowance for credit losses to total loans (excluding acquired loans accounted for under ASC Topics 310-20 and 310-30). Prosperity has included in this Earnings Release information relating to these non-GAAP financial measures for the applicable periods presented. Please refer to the Notes to Selected Financial Data at the end of this Earnings Release for a reconciliation of these non-GAAP financial measures.

NOTES TO SELECTED FINANCIAL DATA

Prosperity's management uses certain non-GAAP (generally accepted accounting principles) financial measures to evaluate its performance. Specifically, Prosperity reviews tangible book value per share, return on average tangible common equity and the tangible equity to tangible assets ratio for internal planning and forecasting purposes. In addition, due to the application of purchase accounting, Prosperity uses certain non-GAAP measures and ratios that exclude the impact of these items to evaluate its allowance for credit losses to total loans (excluding acquired loans accounted for under ASC Topics 310-20 and 310-30). Prosperity has included in this Earnings Release information relating to these non-GAAP financial measures for the applicable periods presented. Prosperity believes these non-GAAP financial measures provide information useful to investors in understanding Prosperity's financial results and Prosperity believes that its presentation, together with the accompanying reconciliations, provides a complete understanding of factors and trends affecting Prosperity's business and allows investors to view performance in a manner similar to management, the entire financial services sector, bank stock analysts and bank regulators. Further, Prosperity believes that these non-GAAP measures provide useful information by excluding certain items that may not be indicative of its core operating earnings and business outlook. These non-GAAP measures should not be considered a substitute for GAAP basis measures and results and Prosperity strongly encourages investors to review its consolidated financial statements in their entirety and not to rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names.
