English Translation of Excerpts from Quarterly Securities Report Filed in Japan

This document is an English translation of selected information included in the Quarterly Securities Report filed by Mitsubishi UFJ Financial Group, Inc. (MUFG or we) with the Kanto Local Financial Bureau, the Ministry of Finance of Japan, on February 14, 2014 (the Quarterly Securities Report).

The Quarterly Securities Report has been prepared and filed in Japan in accordance with applicable Japanese disclosure requirements as well as Japanese accounting standards. In addition, the Quarterly Securities Report is intended to update prior disclosures filed by MUFG in Japan and discusses selected recent developments in the context of those prior disclosures. Accordingly, the Quarterly Securities Report may not contain all of the information that is important to you. For a more complete discussion of the background to information provided in the Quarterly Securities Report disclosure, please see our annual report on Form 20-F for the fiscal year ended March 31, 2013 and the other reports filed or submitted by MUFG to the U.S. Securities and Exchange Commission.

Risks Relating to Our Business

We describe below the major developments and changes during the nine months ended December 31, 2013 that we believe may have a material impact on your investment decision and that may not have been discussed as part of the disclosure of our business and other risks in the most recent annual securities report filed in Japan. The discussion below contains forward-looking statements, which unless specifically described otherwise, reflect our understanding as of the date of filing of the Quarterly Securities Report.

The numbering of the subheading of the risk disclosure below, which was the numbering provided in Risks Relating to Our Business in the Quarterly Securities Report, represents the addition of a new 12th item (and re-numbering of subsequent items) in the prior risk disclosure contained in Risks Relating to Our Business in the most recent annual securities report filed in Japan. The discussion below, however, is not otherwise intended to update the prior risk disclosure.

12. Risks relating to Bank of Ayudhya Public Company Limited (Krungsri)

Any adverse changes to the business or management of Krungsri, which became one of our major subsidiaries in December 2013, may negatively affect our financial condition and results of operations. Factors that may negatively affect Krungsri's financial condition and results of operations include:

adverse economic conditions, substantial competition in the banking industry, volatile political and social conditions, natural disasters including floods, terrorism and armed conflicts, restrictions under applicable financial systems and regulations, or significant fluctuations in interest rates, currency exchange rates, stock prices or commodity prices, in Southeast Asia, particularly in Thailand,

the business performances of companies making investments in and entering into markets in the Southeast Asian region, as well as the conditions of economies, financial systems and laws and financial markets in the countries where such companies primarily operate,

losses from legal proceedings,

credit rating downgrades and declines in stock prices of borrowers, and bankruptcies of borrowers resulting from such factors,

defaults on loans to individuals,

adverse changes in the cooperative relationship between us and the other major shareholder,

higher-than-expected costs incurred as a result of the integration of Krungsri into our group not being completed as planned, and costs incurred due to weaknesses in the internal controls and regulatory compliance systems of Krungsri or any of its subsidiaries.
