PROXY STATEMENT

FOR THE ANNUAL MEETING OF STOCKHOLDERS

May 14, 2014

INFORMATION CONCERNING SOLICITATION AND VOTING

General

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the Board of Directors or the Board) of **ELECTRONICS FOR IMAGING, INC.**, a Delaware corporation (the Company), for use at the Annual Meeting of Stockholders to be held on May 14, 2014 at 8:00 a.m., Pacific Time (the Annual Meeting), or at any adjournment or postponement thereof. The Annual Meeting will be held at the Company's corporate headquarters, 6750 Dumbarton Circle, Fremont, California 94555. The Company intends to mail this Proxy Statement and accompanying proxy card on or about April 14, 2014 to stockholders entitled to vote at the Annual Meeting.

At the Annual Meeting, the stockholders of the Company will be asked: (1) to elect six (6) directors to hold office until the next annual meeting or until their successors are duly elected and qualified; (2) to provide a non-binding advisory vote to approve the Company's executive compensation program; (3) to ratify the appointment of the Company's independent registered public accounting firm for the Company for the fiscal year ending December 31, 2014; and (4) to transact such other business as may properly come before the meeting or any adjournment or postponement thereof. All proxies that are properly completed, signed and returned to the Company or properly submitted electronically or by telephone prior to the Annual Meeting will be voted.

Voting Rights and Outstanding Shares

Only stockholders of record at the close of business on April 4, 2014 (the Record Date) are entitled to receive notice of and to vote at the Annual Meeting. As of the Record Date, the Company had outstanding and entitled to vote 46,753,728 shares of common stock. The holders of a majority of the shares outstanding and entitled to vote at the Annual Meeting constitute a quorum. Therefore, the Company will need at least 23,376,865 shares entitled to vote present in person, by telephone or by proxy at the Annual Meeting for a quorum to exist. Each holder of record of common stock on the Record Date will be entitled to one vote per share on all matters to be voted upon by the stockholders. There is no cumulative voting for the election of directors.

All votes will be tabulated by the inspector of election appointed for the Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions, withheld votes and broker non-votes. Abstentions, withheld votes and broker non-votes are counted as present for purposes of establishing a quorum for the transaction of business at the Annual Meeting. Abstentions represent a stockholder's affirmative choice to decline to vote on a proposal. Broker non-votes occur when a broker, bank or other nominee holding shares for a beneficial owner does not vote on a particular matter because such broker, bank or other nominee does not have discretionary authority to vote on that matter and has not received voting instructions from the beneficial owner. Brokers, banks and other nominees typically do not have discretionary authority to vote on non-routine matters. Under the rules of the New York Stock Exchange (the NYSE), as amended (the NYSE Rules), which apply to all NYSE-licensed brokers, brokers have discretionary authority to vote on routine matters when they have not received timely voting instructions from the beneficial owner.

Stockholders' choices for Proposal One (election of directors) are limited to for and withhold. A plurality of the shares of common stock voting in person or by proxy is required to elect each of the six (6) nominees for director under Proposal One. A plurality means that the six (6) nominees receiving the largest number of votes cast (votes for) will be elected. Because the election of directors under Proposal One is considered to be a non-routine matter under the NYSE Rules, if you do not instruct your broker, bank or other

nominee on how to vote the shares in your account for Proposal One, brokers will not be permitted to exercise their voting authority and uninstructed shares may constitute broker non-votes. Abstentions and broker non-votes will have no effect on the outcome of Proposal One because the election of directors is based on the votes actually cast. Withheld votes will be considered for purposes of the Company's majority withheld vote policy as set forth in the Company's Board of Director Guidelines (the Board of Director Guidelines). The Board of Director Guidelines can be found at the Company's website at www.efi.com.

The affirmative vote of a majority of shares entitled to vote that are present in person or by proxy is required to approve Proposal Two (advisory vote on executive compensation). Because the vote under Proposal Two is considered to be a non-routine matter under the NYSE Rules, if you do not instruct your broker, bank or other nominee on how to vote the shares in your account for Proposal Two brokers will not be permitted to exercise their voting authority and uninstructed shares may constitute broker non-votes. Abstentions will have the same effect as negative votes on this proposal because they represent votes that are present, but not cast. Although broker non-votes are considered present for quorum purposes, they are not considered entitled to vote, and so have no effect on the outcome of Proposal Two.

The affirmative vote of a majority of shares entitled to vote that are present in person or by proxy is required to ratify the selection of the independent registered public accounting firm for the fiscal year ending December 31, 2014 under Proposal Three (ratification of appointment of auditors). Abstentions will have the same effect as negative votes on this proposal because they represent votes that are present, but not cast. Proposal Three is considered to be a routine matter and, accordingly, if you do not instruct your broker, bank or other nominee on how to vote the shares in your account for Proposal Three, brokers will be permitted to exercise their discretionary authority to vote for the ratification of the appointment of auditors.

Please be advised that Proposal Two (advisory vote on executive compensation) and Proposal Three (Ratification of appointment of auditors) are advisory only and not binding on the Company. Our Board of Directors will consider the outcome of the vote on each of these proposals in considering what action, if any, should be taken in response to the advisory vote by stockholders.

Adjournment of Meeting

In the event that sufficient votes in favor of the proposals are not received by the date of the Annual Meeting, the persons named as proxies may propose one or more adjournments of the Annual Meeting to permit further solicitation of proxies. Any such adjournment will require the affirmative vote of a majority of shares entitled to vote present in person or by proxy at the Annual Meeting.

Submission of Proxies; Internet and Telephone Voting

If you hold shares as a registered stockholder in your own name, you should complete, sign and date the enclosed proxy card as promptly as possible and return it using the enclosed envelope. If your completed proxy card is received prior to or at the Annual Meeting, your shares will be voted in accordance with your voting instructions. If you sign and return your proxy card but do not give voting instructions, your shares will be voted FOR (1) the election of the Company's six (6) nominees as directors; (2) the advisory vote on executive compensation; (3) the ratification of the appointment of the independent registered public accounting firm for the Company for the fiscal year ending December 31, 2014; and (4) as the proxy holders deem advisable, in their discretion, on other matters that may properly come before the Annual Meeting. If you hold shares through a bank or brokerage firm, the bank or brokerage firm will provide you with separate voting instructions on a form you will receive from them. Many such firms make telephone or internet voting available, but the specific processes available will depend on those firms' individual arrangements.

Solicitation

The cost of preparing, assembling, printing and mailing the Proxy Statement, the Notice of Annual Meeting and the enclosed proxy, as well as the cost of soliciting proxies relating to the Company's proposals for the

Annual Meeting, will be borne by the Company. The Company will request banks, brokers, dealers and voting trustees or other nominees to solicit their customers who are beneficial owners of shares listed of record in names of nominees and will reimburse such nominees for the reasonable out-of-pocket expenses of such solicitations. The original solicitation of proxies by mail may be supplemented by telephone, facsimile, telegram, email and personal solicitation by directors, officers and regular employees of the Company or, at the Company's request, a proxy solicitation firm. No additional compensation will be paid to directors, officers or other regular employees of the Company for such services, but a proxy solicitation firm will be paid a customary fee if it renders solicitation services.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to the Secretary of the Company at the Company's principal executive office, 6750 Dumbarton Circle, Fremont, California 94555, a written notice of revocation or a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

Stockholder Proposals To Be Presented at Next Annual Meeting

The deadline for submitting a stockholder proposal for inclusion in the Company's proxy statement and form of proxy for the Company's annual meeting of stockholders to be held in 2015, pursuant to Securities and Exchange Commission (the "SEC") Rule 14a-8, is currently expected to be December 15, 2014. The Company's amended and restated bylaws (the "Bylaws") also establish a deadline with respect to discretionary voting for submission of stockholder proposals that are not intended to be included in the Company's proxy statement. For nominations of persons for election to the Board of Directors and other business to be properly brought before the 2015 annual meeting by a stockholder, notice must be delivered to or mailed and received at the principal executive offices of the Company not earlier than the close of business on January 14, 2015 and not later than the close of business on February 13, 2015 (the "Discretionary Vote Deadline"). These deadlines are subject to change if the date of the 2015 annual meeting is more than 30 calendar days before or more than 60 calendar days after the date of the Annual Meeting. If a stockholder gives notice of such proposal after the Discretionary Vote Deadline, the Company's proxy holders will be allowed to use their discretionary voting authority to vote the shares they represent as the Board of Directors may recommend, which may include a vote against the stockholder proposal when and if the proposal is raised at the Company's 2015 annual meeting.

Additional Copies

The Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 (the "Annual Report") will be mailed concurrently with the mailing of the Notice of Annual Meeting and Proxy Statement to all stockholders entitled to notice of and to vote at the Annual Meeting. Except to the extent expressly incorporated by reference into this Proxy Statement, the Annual Report does not constitute, and should not be considered, a part of this proxy solicitation material.

If you would like a copy of the Annual Report, the Company will provide one to you free of charge upon your written request to Investor Relations at Electronics For Imaging, Inc., 6750 Dumbarton Circle, Fremont, California 94555.

IMPORTANT NOTICE REGARDING INTERNET AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON May 14, 2014: The Company's Proxy Statement dated APRIL 14, 2014 and Annual Report are available electronically at <http://ir.efi.com/proxy.cfm>.

PROPOSAL ONE**ELECTION OF DIRECTORS****Nominees**

There are six (6) nominees for election at the Annual Meeting. Each nominee currently serves as a director and, was elected by stockholders at the 2013 annual meeting. Votes cannot be cast, whether in person or by proxy, for more individuals than the six (6) nominees named in this Proxy Statement. Following the Annual Meeting, the Board of Directors will consist of six (6) members. Although fewer nominees are named than the number fixed by the Bylaws, proxies cannot be voted for a greater number of persons than the number of nominees named. The Board may elect additional members in the future in accordance with the Bylaws.

Unless otherwise instructed, the proxy holders will vote the proxies received by them for the six (6) nominees named below. In the event that any Board of Director's nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for the nominee who shall be designated by the present Board of Directors to fill the vacancy. In the event that additional persons are nominated for election as directors by the present Board of Directors, the proxy holders intend to vote all proxies received by them in such a manner as will assure the election of as many of the nominees listed below as possible. Each person has been recommended for nomination by the Nominating and Governance Committee of the Board of Directors and has been nominated by the Board of Directors for election. Each person nominated for election has agreed to serve, and the Company is not aware of any nominee who will be unable or will decline to serve as a director. The term of office for each person elected as a director will continue until the next annual meeting of stockholders or until his successor has been duly elected and qualified, or until such director's earlier death, resignation or removal.

As set forth in the Company's Board of Director Guidelines and the Nominating and Governance Committee Charter, the Company has a majority voting policy for the election of directors in an uncontested election. Pursuant to this policy, in the event that a nominee for director in an uncontested election receives more withheld votes for his or her election than for votes, the director must submit a resignation to the Board of Directors. The Nominating and Governance Committee of the Board of Directors will evaluate and make a recommendation to the Board of Directors with respect to the offered resignation. The Board of Directors will take action on the recommendation within 90 days following certification of the stockholder vote. No director who tenders a resignation may participate in the Nominating and Governance Committee's or the Board of Directors' consideration of the matter. The Company will publicly disclose the Board of Directors' decision including, as applicable, the reasons for rejecting a resignation.

The names of the nominees, each of whom is currently a director of the Company elected by the stockholders or appointed by the Board of Directors, and certain information about them as of April 4, 2014 are set forth below.

A person which is Acting in Concert with another person shall be deemed to be Acting in Concert with any third party who is also acting in concert with such other person.

Reputation for integrity, strong moral character and adherence to high ethical standards.

Holds or has held a generally recognized position of leadership in the community and/or chosen field of endeavor, and has demonstrated high levels of accomplishment.

Demonstrated business acumen and experience, and ability to exercise sound business judgment and common sense in matters that relate to the current and long-term objectives of the Company.

Ability to read and understand basic financial statements and other financial information pertaining to the Company.

Commitment to understand the Company and its business, industry and strategic objectives.

Edgar Filing: ELECTRONICS FOR IMAGING INC - Form DEF 14A

Willingness to represent and act in the interests of all stockholders of the Company rather than the interests of a particular group.

Good health and ability to serve.

For prospective non-employee directors, independence under applicable standards of the SEC and the NASDAQ Rules, and the absence of any conflict of interest (whether due to a business or personal relationship) or legal impediment to, or restriction on, the nominee serving as a director.

Willingness to accept the nomination to serve as a director of the Company.

Other Factors for Potential Consideration

The Nominating and Governance Committee will also consider the following factors in connection with its evaluation of each prospective nominee:

Whether the prospective nominee will foster a diversity of skills and experiences.

Whether the nominee possesses the requisite education, training and experience to qualify as financially literate or as an audit committee financial expert under applicable rules of the SEC and the NASDAQ Rules.

Composition of the Board of Directors and whether the prospective nominee will add to or complement the Board of Director's existing strengths.

The Nominating and Governance Committee does not have a formal policy with respect to diversity; however, the Board of Directors and the Nominating and Governance Committee believe that it is essential that our directors represent diverse viewpoints, skills, education and professional experience. In considering candidates for the Board of Directors, the Nominating and Governance Committee considers the entirety of each candidate's credentials in the context of these standards.

All of our directors bring to the Board of Directors executive leadership experience derived from their service as executives and, in most cases, chief executive officers of large corporations. As a group, they bring extensive board experience and several decades of diverse and extensive business and technical experience. The process undertaken by the Nominating and Governance Committee in identifying and evaluating qualified director candidates is described below. Certain individual qualifications and skills of our directors that contribute to the Board of Directors' effectiveness as a whole are described above, under each director's biographical information.

Identifying and Evaluating Nominees for Directors

The Nominating and Governance Committee initiates the process by preparing a slate of potential candidates who, based on their biographical information and other information available to the Nominating and Governance Committee, appear to meet the criteria specified above and/or who have specific qualities, skills or experience being sought, based on input from the full Board of Directors.

Outside Advisors. The Nominating and Governance Committee may engage a third party search firm or other advisors to assist in identifying prospective nominees.

Nomination of Incumbent Directors. The re-nomination of existing directors should not be viewed as automatic, but should be based on continuing qualification under the criteria set forth above.

For incumbent directors standing for re-election, the Nominating and Governance Committee will assess the incumbent director's performance during his or her term, including the number of meetings attended, level of participation and overall contribution to the Company, the number of other company boards on which the individual serves, composition of the Board of Directors at that time and any changed circumstances affecting the individual director which may bear on his or her ability to continue to serve on the Board of Directors.

Management Directors. The number of officers or employees of the Company serving at any time on the Board of Directors should be limited such that, at all times, a majority of the directors is independent under applicable standards of the SEC and the NASDAQ Rules.

After reviewing appropriate biographical information and qualifications, first-time candidates will be interviewed by at least one member of the Nominating and Governance Committee and by the Company's Chief Executive Officer. Upon completion of the above procedures, the Nominating and Governance Committee will

determine the list of potential candidates to be recommended to the full Board of Directors for nomination at an annual meeting or appointment to the Board of Directors between annual meetings. The Board of Directors will select the slate of nominees only from candidates identified, screened and approved by the Nominating and Governance Committee.

In accordance with the Company's majority withheld vote policy, the Nominating and Governance Committee will also consider the resignation offer of any nominee for director who, in an uncontested election, receives a greater number of votes withheld from his or her election than votes for such election, and recommend to the Board of Directors the action it deems appropriate to be taken with respect to such offered resignation.

CERTAIN RELATIONSHIPS, RELATED PARTY TRANSACTIONS, DIRECTOR INDEPENDENCE, LEADERSHIP STRUCTURE AND RISK OVERSIGHT

Indemnification of Officers and Directors

As permitted under Delaware law, and pursuant to the Bylaws, the Company's amended and restated certificate of incorporation (the "Certificate of Incorporation") and the indemnification agreements that the Company has entered into with its current and former executive officers, directors, and general counsel, the Company is required, subject to certain limited qualifications, to indemnify its executive officers, directors and general counsel for certain events or occurrences while the executive officer, director or general counsel is or was serving in such capacity at the Company's request. The indemnification period covers all pertinent events and occurrences during the executive officer's, director's, or general counsel's lifetime. The maximum potential amount of future payments the Company may be obligated to make under these indemnification agreements is unlimited; however, the Company has director and officer insurance coverage that limits its exposure and may enable the Company to recover a portion of any future amounts paid.

Related Party Transactions

The Audit Committee was responsible for reviewing and approving in advance any proposed related party transactions as defined under Item 404 of Regulation S-K during 2013. The obligation of the Audit Committee to review and approve in advance any proposed related party transaction is set forth in writing in the Charter of the

Audit Committee. Further, the Company's Code of Business Conduct and Ethics provides that the nature of all related party transactions must be fully disclosed to the Chief Financial Officer, and, if determined to be material by the Chief Financial Officer, the Audit Committee must review and approve in writing in advance such related party transactions.

The Company has previously entered into employment agreements with its named executive officers. These agreements are described below under Employment Agreements.

There were no other related party transactions as defined under Item 404 of Regulation S-K during 2013

Director Independence

The Board of Directors has determined that each of the non-employee directors is independent and that each director who serves on each of its Board Committees is independent, as the term is defined by the applicable rules of the SEC and the NASDAQ Rules.

Leadership Structure

Effective June 2007, the Board of Directors separated the roles of Chief Executive Officer and Chairman of the Board. The Board of Directors believes that the designation of an independent Chairman of the Board facilitates processes and controls that support a strong and independently functioning Board of Directors and further strengthens the effectiveness of the Board of Directors' decision-making and appropriate monitoring of both compliance and performance. The Chief Executive Officer is responsible for setting the strategic direction for the Company and the day to day leadership and performance of the Company, while the Chairman of the Board presides at all meetings of the stockholders and the Board of Directors at which he or she is present; establishes the agenda for each Board of Directors meeting; sets a schedule of an annual agenda, to the extent foreseeable; calls and prepares the agenda for and presides over separate sessions of the independent directors; acts as a liaison between the independent directors and the Company's management and performs such other powers and duties as may from time to time be assigned to him by the Board of Directors or as may be prescribed by the Company's bylaws. The independent Chairman of the Board is designated by the Board of Directors. Mr. Cogan has served as our Chairman of the Board since June 2007. Because Mr. Cogan meets the criteria for independence established by NASDAQ, he also presides over separate meetings for the independent directors. The Board of Directors regularly observes such independent directors separate meeting time. The Board of Directors will review from time to time the appropriateness of its leadership structure and implement any changes at it may deem necessary.

Risk Oversight

On behalf of the Board of Directors, the Audit Committee plays a key role in the oversight of the Company's risk management function performed by independent Business Risk Services (BRS), under the leadership of a BRS director (the BRS Director). BRS is an independent assessment function, responsible for advising management and the Board of Directors, through its Audit Committee, on the Company's system of internal controls and management of business risks. BRS assists management and the Audit Committee in fulfilling their control responsibilities by providing regular reports, based on BRS' reviews, that address: (i) compliance with laws, regulations, and internal policies and procedures; (ii) reliability of financial reporting; and (iii) efficiency and effectiveness of operations. BRS fulfills its objectives by providing analyses, assessments, recommendations, advice, and information to the management or the Audit Committee, as the case may be.

Each year, BRS develops an annual project plan based on assessed business risks and aligned with the Company's control objectives. BRS fulfills its responsibilities according to such annual project plan approved by the Audit Committee and reports on the results in the implementation of the plan at the meetings of the Audit Committee. Certain risks or policies are also discussed by the Board of Directors. While compensated by the Company, the BRS Director reports directly to the Chairman of the Company's Audit Committee.

Stock Ownership

In February 2011, the Board of Directors adopted a stock ownership policy for the Company's directors, including executive officers serving as directors. The policy was adopted to further align the interests of our stockholders and directors. According to the policy, included in the Board of Directors' Guidelines, directors are required to hold at least 10,000 shares of the Company's common stock within three years of first becoming a director, and continue holding such required minimum as long as they continue serving as directors. In determining whether the stock ownership requirements are met, the Board of Directors shall take into account a director's beneficial ownership, including shares of common stock held by the director, shares of common stock held in trust for the benefit of the director or his or her immediate family members, vested or unvested restricted stock and vested or unvested restricted stock units. The Nominating and Governance Committee may extend in its discretion the deadline for attainment of such stock ownership level. As of April 4, 2014, all of our directors have met the stock ownership requirement.

COMMUNICATION WITH THE BOARD OF DIRECTORS

Pursuant to the process established by the Board of Directors, stockholders who wish to communicate with any member (or all members) of the Board of Directors should send such communications via regular mail addressed to the Company's Secretary, at Electronics For Imaging, Inc., 6750 Dumbarton Circle, Fremont, California 94555. The Secretary will review each such communication and forward it to the appropriate member or members of the Board of Directors as he deems appropriate.

The Company encourages its directors to attend the Annual Meeting. Three directors attended the Company's last annual meeting.

PROPOSAL TWO

NON-BINDING ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

The Company is providing its stockholders with the opportunity to cast an advisory vote to approve executive compensation as described below. The Company believes that it is appropriate to seek the views of stockholders on the design and effectiveness of the Company's executive compensation program. After consideration of the stockholders' recommendations at the Company's 2011 annual meeting, the Company has decided to hold an advisory vote on the compensation of the Company's named executive officers every year until the earlier of the next statutorily required vote on frequency which shall be no later than the Company's annual meeting in 2017 or such as time as the Board of Directors determines, in its discretion, that it is appropriate to hold such votes on a less frequent basis.

The Company's goal for its executive compensation program is to attract, motivate and retain a talented and dynamic team of executives. The Company seeks to accomplish this goal in a way that rewards performance and is aligned with its stockholders' long-term interests. The Company believes that its executive compensation program, which emphasizes long-term equity awards, satisfies this goal and is strongly aligned with the long-term interests of its stockholders.

The Compensation Discussion and Analysis, beginning on page 25 of this Proxy Statement, describes the Company's executive compensation program and the decisions made by the Compensation Committee in 2013 in more detail. Highlights of the program include the following:

Our executive compensation program is designed to pay for performance. For 2013, the vast majority of the target total direct compensation for our named executive officers was in the form of incentive compensation with approximately 79% of the target total direct compensation for our Chief Executive Officer and with approximately 87% of the target total direct compensation for our former Chief Financial Officer being in the form of incentive compensation tied to the achievement of specific financial performance goals and/or the level of our stock price. For our Chief Operating Officer, who served as our Interim Chief Financial Officer for a portion of 2013, 70% of the target total direct compensation was in the form of incentive compensation. For these purposes, total direct compensation consists of the executive's base salary, annual incentive award and long-term equity awards based on the grant date fair value of the award as determined under the accounting principles used in the Company's financial reporting.

Executive compensation is allocated among base salaries and short and long-term incentive compensation. The base salaries are fixed in order to provide the executives with a stable cash income, which allows them to focus on the Company's issues and objectives as a whole, while the short and long-term incentive compensation are designed to both reward executives for the Company's overall performance and align the executives' interests with those of our stockholders. Management recommended, and the Compensation Committee agreed, that the executives' base salaries would not be increased for 2013.

Our executive annual performance-based bonus program is intended to encourage our named executive officers to focus on specific short-term goals important to our success, and which correlate to the long-term goals and strategy of the Company. Our named executive officers' annual bonus awards are determined based on a combination of objective, financial performance criteria. The awards payable under our annual bonus program are subject to a maximum payout.

Awards under the fiscal year 2013 bonus program consisted of restricted stock unit awards and a cash bonus opportunity for exceptional performance. On-target bonus amounts were made in the form of performance-based restricted stock unit awards that help further align named executive officers' interests with those of our stockholders because the ultimate value of the awards is tied to the

Company's stock price. The executive could also earn an additional cash bonus for exceptional performance under the program if the Company's performance exceeded certain targets established in the Company's 2013 operating plan approved by the Board of Directors. The performance measures used to determine the payment of awards to our named executive officers are Company-wide measures only, designed to encourage our named executive officers to make decisions that are in the best long-term interests of the Company and our stockholders.

As described in more detail below, the Compensation Committee determined that the Company's performance during 2013 exceeded the target levels for vesting of the restricted stock unit awards granted under the 2013 bonus program and was less than the target levels for full payment of the cash bonus opportunities. Consistent with our pay-for-performance philosophy, these awards vested as to the total number of restricted stock units granted under the award, and a portion of the cash bonus component of the program was also paid out.

Awards to our named executive officers under our long-term equity incentive program in 2013 consisted of approximately two-thirds performance-based restricted stock units and approximately one-third time-based restricted stock units. The value of restricted stock units is tied directly to our stock price to help further align our executives' interests with those of our stockholders. As with the performance-based restricted stock units granted under our annual bonus program, the performance awards granted under our long-term equity program vest based on the combined achievement of Company-wide revenue and non-GAAP operating income targets over a four consecutive quarter period in addition to continued employment requirements. These awards are intended to both provide a retention incentive and enhance executives' focus on specific financial goals considered important to the Company's long-term growth. Time-based grants under the program provide an additional retention incentive for our executives as they are subject to three-year vesting schedules. Because these time-based and performance-based awards will generally remain outstanding for a period of years, they help ensure that executives always have significant value tied to delivering long-term stockholder value.

In January 2014, the Company entered into a new employment agreement with Mr. Gecht to eliminate his right under his prior employment agreement to be reimbursed by the Company for any tax liability imposed under Section 409A of the U.S. Internal Revenue Code and to update his agreement to be on the same form as the Company's other agreements with its executive officers. Mr. Gecht's new agreement does not otherwise materially change the compensation, severance benefits or other terms of his employment with the Company.

As of April 4, 2014, Mr. Gecht owned approximately 0.9% of the Company's outstanding common stock which the Company believes significantly aligns his interests with the stockholders' interests.

The Company believes the compensation program for the named executive officers is instrumental in helping the Company achieve its financial performance. In 2013, the Company achieved record revenue, growing to approximately \$728 million, which represented an increase of approximately \$76 million or 12% growth over the prior year. This was the third consecutive year of double-digit percentage revenue growth. In addition, the Company delivered significant returns for its stockholders in 2013 as its stock price increased from \$18.99 at the end of 2012 to \$38.73 at the end of 2013.

In accordance with the requirements of Section 14A of the Exchange Act (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act) and the related rules of the SEC, our Board of Directors will request your advisory vote to approve the following resolution at the Annual Meeting:

RESOLVED, that the compensation paid to the Company's named executive officers as disclosed in this Proxy Statement pursuant to the SEC's executive compensation disclosure rules (which disclosure includes the Compensation Discussion and Analysis, the compensation tables and the narrative disclosures that accompany the compensation tables), is hereby approved.

Vote Required

The approval of the executive compensation requires the affirmative vote of the holders of a majority of shares of common stock present in person or represented by proxy and entitled to vote thereon, at the Annual Meeting. As an advisory vote, this proposal is not binding on the Company. However, the Compensation Committee, which is responsible for designing and administering the Company's executive compensation program, values the opinions expressed by stockholders in their vote on this proposal and will continue to consider the outcome of the vote when making future compensation decisions for named executive officers.

Recommendation of the Board of Directors

The Company's Board of Directors recommends a vote FOR approval of the executive compensation.

PROPOSAL THREE

RATIFICATION OF APPOINTMENT OF

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

After considering proposals from several firms including PricewaterhouseCoopers, LLP (PricewaterhouseCoopers), on March 27, 2014, the Audit Committee of the Board of Directors of Electronics for Imaging, Inc. (the Company) dismissed PricewaterhouseCoopers as the Company s independent registered public accounting firm and approved the selection of Deloitte & Touche LLP (Deloitte) to serve in this role for the fiscal year ending December 31, 2014, and engaged Deloitte as of April 2, 2014.

Stockholder ratification of the appointment of Deloitte as the Company s independent registered public accounting firm for the fiscal year ending December 31, 2014 is not required by law, by the NASDAQ Rules, or by the Certificate of Incorporation or Bylaws. However, the Board of Directors is submitting the selection of Deloitte to the Company s stockholders for ratification as a matter of good corporate governance and practice. If the stockholders fail to ratify the appointment, the Board of Directors will reconsider whether to retain that firm. Even if the selection is ratified, the Company may appoint a different independent registered public accounting firm during the year if the Audit Committee determines that such a change would be in the best interests of the Company and its stockholders.

During the Company s fiscal years ended December 31, 2013 and 2012 and the subsequent interim period through April 2, 2014, neither the Company, nor anyone acting on its behalf, consulted Deloitte regarding: (1) the application of accounting principles to a specified transaction, either completed or proposed; (2) the type of audit opinion that might be rendered on the Company s financial statements, and Deloitte did not provide any written report or oral advice that Deloitte concluded was an important factor considered by the Company in reaching a decision as any such accounting, auditing, or financial reporting issue; or (3) any matter that was either the subject of a disagreement as that term is defined in Item 304(a)(1)(iv) and the related instructions to Item 304 of Regulation S-K or a reportable event as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

During the fiscal years ended December 31, 2013 and 2012, Deloitte billed the Company \$1,494,372 and \$1,293,408, respectively, for professional services primarily related to tax compliance, tax advice, and tax planning. These services include services regarding mergers and acquisitions and subsidiary management.

A representative from Deloitte will attend the 2014 Annual Meeting to respond to appropriate questions and make a statement should they desire to do so. The agreed upon fiscal 2014 audit fees are expected to be competitive with current market rates.

During the fiscal years ended December 31, 2013 and 2012 and the subsequent interim period through March 27, 2014, there were: (1) no disagreements as that term is defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K, between the Company and PricewaterhouseCoopers on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of PricewaterhouseCoopers would have caused it to make reference thereto in its reports on the Company s financial statements for such years; and (2) no reportable events as that term is defined in Item 304(a)(1)(v) of Regulation S-K. PricewaterhouseCoopers audit reports on the Company s consolidated financial statements for the fiscal years ended December 31, 2013 and 2012 did not contain an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope, or accounting principles. The audit reports of PricewaterhouseCoopers on the effectiveness of internal control over financial reporting as of December 31, 2013 and 2012 did not contain any adverse opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles, except that the audit reports on the effectiveness of internal control over financial reporting as of December 31, 2013 and December 31, 2012 contained an explanatory paragraph due to the exclusion of certain elements of the

internal control over financial reporting of all the Company s acquisitions which closed in 2013 and 2012, respectively.

The Company provided PricewaterhouseCoopers with a copy of its disclosures and requested that PricewaterhouseCoopers furnish it with a letter addressed to the Securities and Exchange Commission stating whether or not it agrees with the Company's statements and if not, stating the respects in which it does not agree. A copy of the letter dated April 2, 2014 is filed as Exhibit 16.1 to the Company's Current Report on Form 8-K filed with the SEC on April 2, 2014. A representative of PricewaterhouseCoopers is not expected to be present at the Annual Meeting.

During the fiscal years ended December 31, 2013 and 2012, PricewaterhouseCoopers provided various audit, audit related and non-audit services to the Company as follows (in thousands):

	2013	2012
Audit fees(a)	\$ 1,685	\$ 1,575
Audit-related fees(b)	392	347
Tax fees(c)		4
All other fees(d)	4	4
Total	\$ 2,081	\$ 1,930

- (a) Audit fees consist of aggregate fees incurred for professional services rendered for the audit of the Company's consolidated financial statements included in annual SEC filings and reports, review of interim consolidated financial statements, and the audit of the effectiveness of our internal controls pursuant to Section 404 of the Sarbanes-Oxley Act.
- (b) Audit-related fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees. These services primarily include due diligence services and audit procedures related to our acquisitions.
- (c) Tax fees consist of fees billed for professional services for tax compliance, tax advice, and tax planning. These services include tax assistance regarding mergers and acquisitions.
- (d) All other fees consist of services provided in connection with other services consisting primarily of accounting research tools.

The Audit Committee is responsible for pre-approving audit and non-audit services to be provided to the Company by the independent auditors (or subsequently approving non-audit services in those circumstances where a subsequent approval is necessary and permissible). COMPENSATION DISCUSSION AND ANALYSIS

The following sections of this proxy statement describe the Company's compensation arrangements with its named executive officers (below also referred to as the "executives"), who, for fiscal year 2013, included Guy Gecht, Chief Executive Officer and President; Marc Olin, Interim Chief Financial Officer, and Vincent Pilette, former Chief Financial Officer.

Executive Summary

The Company believes that compensation paid to the named executive officers should be closely aligned with the performance of the Company on both a short-term and long-term basis, and linked to specific, measurable results intended to create value for stockholders. The Compensation Committee oversees the executive compensation program and determines the compensation for the named executive officers.

The compensation of the named executive officers consists primarily of three elements – a base salary, an annual incentive program and long-term equity awards – that are designed to reward executives for performance and to promote retention among our executive team.

This Compensation Discussion and Analysis describes the Company's executive compensation program and the decisions made by the Compensation Committee in 2013 in more detail. Highlights of the program include:

Our executive compensation program is designed to pay for performance. For 2013, the vast majority of the target total direct compensation for our named executive officers was in the form of incentive compensation with approximately 79% of the target total direct compensation for our Chief Executive Officer and approximately 87% of the target total direct compensation for our former Chief Financial Officer being in the form of incentive compensation tied to the achievement of specific financial performance goals and/or the level of our stock price. For our Chief Operating Officer, who served as our Interim Chief Financial Officer for a portion of 2013, 70% of the target total direct compensation was in the form of incentive compensation. For these purposes, total direct compensation consists of the executive's base salary, annual incentive award and long-term equity awards based on the grant date fair value of the award as determined under the accounting principles used in the Company's financial reporting.

Executive compensation is allocated among base salaries and short and long-term incentive compensation. The base salaries are fixed in order to provide the executives with a stable cash income, which allows them to focus on the Company's issues and objectives as a whole, while the short and long-term incentive compensation are designed to both reward executives for the Company's overall performance and align the executives' interests with those of our stockholders. Management recommended, and the Compensation Committee agreed, that the executives' base salaries would not be increased for 2013.

Our executive annual performance-based bonus program is intended to encourage our named executive officers to focus on specific short-term goals important to our success, and which correlate to the long-term goals and strategy of the Company. Our named executive officers' annual bonus awards are determined based on a combination of objective, financial performance criteria. The awards payable under our annual bonus program are subject to a maximum payout.

Awards under the fiscal year 2013 bonus program consisted of restricted stock unit awards and a cash bonus opportunity for exceptional performance. On-target bonus amounts were made in the form of performance-based restricted stock unit awards that help further align named executive officers' interests with those of our stockholders because the ultimate value of the awards is tied to the Company's stock price. The executive could also earn an additional cash bonus for exceptional performance under the program if the Company's performance exceeded certain targets established in the Company's 2013 operating plan approved by the Board of Directors. The performance measures used to determine the payment of awards to our named executive officers are Company-wide measures only, designed to encourage our named executive officers to make decisions that are in the best long-term interests of the Company and our stockholders.

As described in more detail below, the Compensation Committee determined that the Company's performance during 2013 exceeded the target levels for vesting of the restricted stock unit awards granted under the 2013 bonus program and was less than the target levels for full payment of the cash bonus opportunities. Consistent with our pay-for-performance philosophy, these awards vested as to the total number of restricted stock units granted under the award, and a portion of the cash bonus component of the program was also paid out.

Awards to our named executive officers under our long-term equity incentive program in 2013 consisted of approximately two-thirds performance-based restricted stock units and approximately one-third time-based restricted stock units. The value of restricted stock units is tied directly to our stock price to help further align our executives' interests with those of our stockholders. As with the performance-based restricted stock units granted under our annual bonus program, the performance

awards granted under our long-term equity program vest based on the combined achievement of Company-wide revenue and non-GAAP operating income targets over a four consecutive quarter period in addition to continued employment requirements. These awards are intended to both provide a retention incentive and enhance executives' focus on specific financial goals considered important to the Company's long-term growth. Time-based grants under the program provide an additional retention incentive for our executives as they are subject to three-year vesting schedules. Because these time-based and performance-based awards will generally remain outstanding for a period of years, they help ensure that executives always have significant value tied to delivering long-term stockholder value.

The Company has no tax gross up provisions in its agreements with its executive officers. In January 2014, the Company entered into a new employment agreement with Mr. Gecht to eliminate his right under his prior employment agreement to be reimbursed by the Company for any tax liability imposed under Section 409A of the U.S. Internal Revenue Code and to update his agreement to be on the same form as the Company's other agreements with its other executive officers. Mr. Gecht's new agreement does not otherwise materially change the compensation, severance benefits or other terms of his employment with the Company.

As of April 4, 2014, Mr. Gecht owned approximately 0.9% of the Company's outstanding common stock which the Company believes significantly aligns his interests with the stockholders' interests.

The Company believes the compensation program for the named executive officers is instrumental in helping the Company achieve its financial performance. In 2013, the Company achieved record revenue, growing to approximately \$728 million, which represented an increase of approximately \$76 million or 12% growth over the prior year. This was the third consecutive year of double-digit percentage revenue growth. As described below, revenue is one of the metrics used to measure the Company's performance for purposes of the executives' annual bonus program and performance-based long-term incentive awards. In addition, the Company delivered significant returns for its stockholders in 2013 as its stock price more than doubled during the year, increasing from \$18.99 at the end of 2012 to \$38.73 at the end of 2013.

Compensation Objectives and Philosophy

The Company's compensation objectives and philosophy provide the guiding principles for compensation decisions made by the Compensation Committee for the Company's named executive officers. The Compensation Committee believes that compensation paid to the named executive officers should be closely aligned with the performance of the Company on both a short-term and long-term basis, and linked to specific, measurable results intended to create value for stockholders. In establishing compensation programs for the named executive officers for fiscal year 2013, the Compensation Committee considered the following principles and objectives:

attract and retain individuals of superior ability and managerial talent;

help ensure compensation is closely aligned with the Company's corporate strategies, business and financial objectives and the long-term interests of the Company's stockholders;

create incentives to achieve key strategic and financial performance goals of the Company by linking executive incentive award opportunities to the achievement of these goals; and

help ensure that the total compensation is fair, reasonable and competitive.

The Compensation Committee of the Board of Directors

The Compensation Committee, serving under a charter adopted by the Board of Directors, is composed entirely of outside directors who have never served as officers of the Company. Under the charter, the Compensation Committee has responsibility for approving and evaluating matters relating to the overall compensation philosophy, compensation plans, policies and programs of the Company. This includes

periodically reviewing and approving the Company named executive officers' annual base salaries, incentive bonus programs, equity compensation, employment agreements, severance arrangements, change in control agreements or provisions, as well as any other benefits or compensation arrangements for the named executive officers. In certain circumstances, the Compensation Committee may solicit input from the full Board of Directors before making final decisions relating to compensation of the named executive officers (below also referred to as executive compensation). In fulfilling its responsibilities, the Compensation Committee may consider, among other things, industry and general best practices, benchmark data and marketplace developments. Messrs. Cogan and Maydan served on the Compensation Committee during 2013 and continue to serve as of the date of this Proxy Statement.

Role of Management in Assisting Compensation Decisions

Members of the executive management team of the Company, such as the named executive officers, the Vice President of Human Resources and the General Counsel (Executive Management), provide administrative assistance and support for the Compensation Committee from time to time. Members of Executive Management also may provide recommendations and information to the Compensation Committee to consider, analyze and review in connection with any compensation proposal for the named executive officers. Members of Executive Management do not have any final decision-making authority in regards to named executive officer compensation. The Compensation Committee reviews any recommendations and information provided by Executive Management and approves the final executive compensation package.

The Role of Stockholder Say-on-Pay Votes

The Company provides its stockholders with the opportunity to cast an annual advisory vote to approve its executive compensation program (referred to as a say-on-pay proposal). At the annual meeting of shareholders held in June 2013, approximately 96% of the votes actually cast on the say-on-pay proposal at that meeting were voted in favor of the proposal. The Compensation Committee believes these strong results affirm stockholders' support of the Company's approach to its executive compensation program. In general, the Compensation Committee did not change its approach in 2013 and believes the program in place, as in prior years, includes a number of features that further the goals of the Company's executive compensation program and reflect best practices in the market. The Compensation Committee will continue to consider the outcome of the Company's say-on-pay proposals when making future compensation decisions for the named executive officers.

Use of Outside Advisors

The Compensation Committee may use consultants to assist in the evaluation of compensation for the named executive officers. The Compensation Committee has the sole authority to retain and terminate any compensation consultant engaged to perform these services. The Compensation Committee also has authority to obtain advice and assistance from internal or external legal, accounting, or other advisers.

The Compensation Committee has retained Mercer (US) Inc. (Mercer) since 2007 to provide information, analyses, and advice regarding executive and director compensation, as described below. The Compensation Committee evaluates Mercer's performance on an annual basis. In 2013, Mercer advised the Compensation Committee on a variety of compensation-related issues, including:

compensation strategy;

peer group;

pay levels (base, short- and long-term incentive);

incentive plan design (short- and long-term); and

emerging compensation trends.

For 2013, Mercer also assisted the Compensation Committee in its assessment of the potential relationship between the Company's compensation program and risk-taking by management. For more information, see the Compensation Risk Assessment section on page 48 of this Proxy Statement.

In the course of conducting its activities, Mercer attended meetings of the Compensation Committee and presented its findings and recommendations for discussion. During the course of the year, Mercer worked with management to obtain and validate data, review materials and recommend potential changes. Mercer invoiced the Company for approximately \$136,000 in fees from the Company in connection with the Compensation Committee's determination of a variety of components of executive and board of director compensation during fiscal year 2013. Mercer is a subsidiary of Marsh & McLennan Companies, Inc. (MMC), a diversified conglomerate of companies that provide insurance, strategy and human resources consulting services. In 2013, other Mercer business segments received fees from the Company of approximately \$74,725, which was primarily related to health and benefits consulting services. In addition, during 2013, MMC affiliates other than Mercer received approximately \$172,500 in fees for insurance brokerage services. The decision to engage Mercer and other MMC affiliates to provide services other than assisting the Compensation Committee with executive compensation matters was made by members of management. Although the Compensation Committee did not specifically approve these engagements, the Compensation Committee has reviewed the other services provided by Mercer and other MMC affiliates and, after consideration of such services and other factors prescribed by the SEC for purposes of assessing the independence of compensation consultants, has determined that no conflicts of interest exist between the Company and Mercer (or any individuals working on the Company's account on Mercer's behalf). In reaching this determination, the Company considered the following factors, all of which were confirmed by Mercer:

Other than the services identified above, Mercer and all other affiliates of MMC provided no services to the Company during 2013;

The aggregate amount of fees paid or payable by the Company to MMC for 2013 represented (or are reasonably certain to represent) less than 1% of MMC's total revenue for 2013;

Mercer has established Global Business Standards to manage potential conflicts of interest for executive rewards consulting services, which policies and procedures were provided to the Company;

There are no business or personal relationships between our Mercer executive remuneration advisors and any member of the Compensation Committee other than in respect of (1) the services provided to the Company by Mercer as described above, or (2) work performed by Mercer for any other company, board of directors or compensation committee for which such Compensation Committee member also serves as an independent director;

Our Mercer executive remuneration advisors do not own stock in the Company; and

There are no business or personal relationships between our Mercer executive remuneration advisors, Mercer, or other MMC affiliates and any executive officer of the Company other than in respect of the services provided to the Company as described above.

Review of External Compensation Data

The Compensation Committee does not apply a formulaic approach to setting individual elements of the named executive officers' compensation or their total compensation amounts and does not set compensation levels at any specific level or percentile against the peer group data described below (i.e., the Compensation Committee does not benchmark the Company's executive compensation levels). However, the Compensation Committee periodically reviews market compensation levels to inform its decision-making process and to determine whether the total compensation opportunities for the Company's named executive officers are appropriate in light of factors such as the compensation arrangements for similarly situated executives in the market and may make adjustments when the Compensation Committee determines they are appropriate.

Historically, the Compensation Committee, with assistance from Mercer, has selected a peer group of companies to provide a basis of comparison for the Company's executive compensation programs. During 2013, the Compensation Committee, upon Mercer's recommendation, considered that certain peers included in the 2012 peer group were no longer appropriate comparators. In particular, recent M&A activity and changes in revenue levels within the 2012 peer group resulted in certain companies no longer being size-appropriate or no longer being publicly traded. The selection criteria implemented in 2013 included similar criteria used in the past:

U.S. publicly traded companies;

Companies of comparable size with revenue within a range of approximately 0.5 to 2 times the Company's projected 2013 revenue;

Companies in technology-related industries: Communications Equipment, Computer Storage & Peripherals, Computer Hardware, Office Electronics and Systems Software; and

Companies with similar business models and characteristics: business to business sales, manufacturing capabilities, software products and/or integrated solutions/services.

As a result of the reevaluation, the companies in the 2013 peer group consisted of the following:

3D Systems Corporation
Arris Group, Inc.
Avid Technology, Inc.
Commvault Systems, Inc.
Emulex Corporation
F5 Network, Inc.
Netgear, Inc.

Progress Software Corporation
QLogic Corporation
Quantum Corporation
Silicon Graphics International Corporation
Synaptics, Inc.
Zebra Technologies Corporation

Median revenue of the peer group was approximately \$622 million based on the most recent trailing four quarters of revenue as of December 31, 2013, compared to the Company's 2013 fiscal year revenue of \$728 million.

Executive Compensation Elements

For the 2013 fiscal year, the principal elements or components of compensation for the named executive officers were: (1) base salary; (2) short-term incentives; and (3) long-term incentives.

In determining each element of executive compensation, the Compensation Committee considers a number of factors, such as the executive's employment experience, performance of the executive during the year, performance of the Company during the year, achievement of Company performance targets set by the Board of Directors as identified below, potential to enhance long-term stockholder value, information relating to marketplace competitiveness, executive compensation trends, current compensation levels and types within the peer group, compensation history, prior equity awards and the economic environment.

Since there are no static or fixed policies regarding the amount and allocation for each component or element of executive compensation, the determination and composition of total compensation is up to the discretion of the Compensation Committee and is decided in its judgment on an annual basis. However, the measurement or assessment of the Company's performance for 2013 and the achievement of Company performance targets was primarily quantitative with respect to the elements of incentive-based compensation, and are addressed in greater detail below.

The difference in the levels of compensation between the named executive officers reflects consideration of the executive's roles and responsibilities, the executive's tenure with the Company as well as the other factors mentioned above. The Compensation Committee considers the value of the entire compensation package when establishing the appropriate levels of compensation for each element.

Base Salary

The Company provides the named executive officers with a fixed, annual base salary. In setting base salaries for the named executive officers, the Compensation Committee considers a number of factors, including the executive's prior salary history, current compensation levels, individual and Company performance and marketplace competitiveness for similarly situated named executive officers. The Compensation Committee considers changes to base salaries for the named executive officers on an annual basis. There are no formulaic increases; instead, the Compensation Committee exercises its judgment and discretion when determining and approving increases to the annual base salary of each named executive officer.

In February 2013, the Compensation Committee reviewed the base salary levels for Messrs. Gecht and Pilette. The executives recommended, and the Compensation Committee agreed, that no changes would be made to these levels for 2013. Accordingly, the base salaries established for Messrs. Gecht and Pilette for 2013 remained at \$620,000 and \$350,000, respectively. The Compensation Committee considered the base salary levels for these executives identified below to be appropriate in light of each executive's experience and responsibilities with the Company.

In August 2013, Mr. Pilette resigned, and Mr. Olin was appointed as Interim Chief Financial Officer effective September 3, 2013. For his period of service as Interim Chief Financial Officer, Mr. Olin's base salary rate was increased to the same level as Mr. Pilette's base salary rate at the time of his resignation (\$350,000 per year) to reflect his assumption of Mr. Pilette's duties in that position.

Short-Term Incentive Compensation

The Company believes that a significant portion of executive compensation should be directly related to the Company's overall financial performance, stock price performance and other relevant financial factors that affect stockholder value. Accordingly, the Company sets goals designed to link executive compensation to the Company's overall performance and reserves the largest potential compensation awards for incentive-based programs, which may include both cash and equity awards. The executive incentive program allows named executive officers to receive short-term incentive compensation in the event certain specified corporate performance measures are achieved. Payments under the executive incentive program are contingent upon the executive's continued employment, subject to the terms of their employment agreements, and are determined by the Compensation Committee based on performance against the pre-established goals. The Compensation Committee believes that the payment of bonuses, whether in cash or equity, provides incentives that help retain the named executive officers and reward them for short-term Company performance.

The target short-term incentive for each of the named executive officers is calculated as a percentage of his base salary. The Compensation Committee sets the percentage of base salary for each named executive officer's target bonus in its judgment based on its review of each executive's total compensation package and compensation at the Company's peer group or emerging executive compensation trends, as the case may be, and its assessment of the past and expected future contributions of the named executive officers.

In February 2013, the Compensation Committee approved the 2013 performance-based equity and cash bonus program (the 2013 Program) for the named executive officers and established their target short-term incentive opportunities under the program as follows:

Named Executive Officer	Target Annual Incentive (Percentage of Base Salary)
Guy Gecht	105%
Vincent Pilette	70%

For each executive, the target short-term incentive opportunity for the 2013 fiscal year remained unchanged from the prior fiscal year. The difference in short-term incentive percentages between Mr. Gecht and Mr. Pilette correlated with their roles and level of responsibility within the Company. In connection with his appointment as Interim Chief Financial Officer, Mr. Olin participated in the 2013 Program for the last four months of 2013. Prior to that, Mr. Olin served in a non-executive capacity and participated in the Company's bonus program for members of senior management below the executive level. For 2013, this program was similar to the 2013 Program for executive officers, except that the vesting of equity awards granted under the program is determined in some cases based on the performance of the participant's business unit (as opposed to the Company as a whole), and members of senior management are eligible for a discretionary cash bonus equal to his or her target equity bonus. This program is administered at the Chief Executive Officer's discretion. For 2013, Mr. Olin's bonus awards were determined on a prorated basis between these two programs, and his target bonus under each program was 70% of his base salary.

Under the 2013 Program, each of the named executive officers was eligible to receive a bonus payable in shares of the Company's common stock, subject to achievement by the Company of certain financial performance objectives established by the Compensation Committee. In execution of the program, the Compensation Committee approved grants of performance-based awards of restricted stock units in February 2013 to each of the named executive officers, with the total number of stock units subject to the executive's award determined by dividing the executive's target bonus by the Company's stock price. Fifty percent of the executive's stock units were eligible to vest based on the Company's non-GAAP operating income for 2013 relative to the performance target established by the Compensation Committee, and the remaining 50% of the executive's stock units were eligible to vest based on the Company's revenue relative to the performance target. However, in each case, the vesting of these awards was also contingent on the Company's achieving a minimum threshold for non-GAAP operating income determined by the Compensation Committee and on the executive's continued employment with the Company through the vesting date (generally, the first anniversary of the grant date of the award or, if later, the date the Compensation Committee determined the Company's performance level for 2013). In the case of Mr. Olin's award prior to September 3, 2013, the vesting of his award was determined based on the financial performance of his business unit.

The maximum number of restricted stock units that may vest under a 2013 Program award is 100% of the units subject to the award. However, each named executive officer was provided with an opportunity to receive a cash bonus if both the Company's revenue and non-GAAP operating income for 2013 exceeded the performance targets established by the Compensation Committee. If both of the performance targets were exceeded, the executive could receive a cash bonus up to the amount of the executive's target cash bonus under the 2013 Program. As with the equity bonus opportunity, the cash bonus opportunity under the 2013 Program was based 50% on the Company's non-GAAP operating income for 2013 and 50% on the Company's revenue for 2013 and was contingent on the executive's continued employment with the Company through the vesting date. The Compensation Committee believed that it was appropriate to grant this cash bonus opportunity to the executives as for any cash bonus to be payable under the 2013 Program, the Company would need to achieve levels for both performance metrics above the Company's operating plan for 2013 approved by the Board of Directors.

In determining that the 2013 Program would be structured to include awards in the form of restricted stock units, the Compensation Committee intended to provide a further link between executive incentive compensation and shareholder value. The Compensation Committee selected revenue and non-GAAP operating income as the performance measures for the equity and cash components of the 2013 Program to create further incentives for management to focus on the Company's revenue growth and profitability because the Compensation Committee believes these metrics are key to the Company's long-term growth and success. For these purposes, non-GAAP operating income is defined as operating income determined in accordance with GAAP and adjusted to remove the impact of recurring amortization of acquisition-related intangibles, stock-based compensation expense, as well as restructuring-related and non-recurring charges and gains. These adjustments are specified in Unaudited Non-GAAP Financial Information section of the Company's annual and quarterly reports filed with the SEC for

the applicable fiscal period. The Compensation Committee believes that these adjustments to operating income for this purpose produce a better measure of the executives' impact on the ongoing operating performance of the Company over the corresponding year.

The performance targets selected by the Compensation Committee for the 2013 Program represented financial goals for the Company, based on the Company's operating plan approved by the Board of Directors, and also taking into consideration the economic and industry environment at the time the 2013 Program was established. The threshold and target performance levels for each of the restricted stock unit and cash bonus components of the 2013 Program are set forth in the table below.

Goals	Weighting	RSU Threshold	RSU Target	Cash Threshold	Cash Target
Revenue (in millions)	50%	\$ 652.0	\$ 700.0	\$ 700.0	\$ 750.0
<i>(% of program component earned)</i>		50%	100%	0%	100%
Non-GAAP operating income (in millions)	50%	\$ 78.0	\$ 87.5	\$ 87.5	\$ 93.75
<i>(% of program component earned)</i>		50%	100%	0%	100%

With respect to the equity bonus component of the 2013 Program, the minimum threshold for non-GAAP operating income for 2013 established by the Compensation Committee was \$78.0 million. None of the restricted stock units granted under the 2013 Program would vest if this minimum threshold for non-GAAP operating income was not achieved, and none of the restricted stock units that were tied to revenue would vest if the minimum threshold for revenue set forth above was not achieved. If the minimum threshold level for non-GAAP operating income was achieved, the restricted stock units related to non-GAAP income would vest with respect to between 50% and 100% of the units, with 50% of the units vesting at the RSU Threshold level for non-GAAP operating income in the table above with the vesting increasing on a pro-rata basis up to 100% of the units vesting if the RSU Target level for non-GAAP operating income in the table above were met or exceeded. If the minimum threshold level for both non-GAAP operating income and revenue was achieved, the restricted stock units related to revenue would vest with respect to between 50% and 100% of the units, with 50% of the units vesting at the RSU threshold level with the vesting increasing on a pro-rata basis up to 100% of the units vesting if the RSU Target level for revenue in the table above were met or exceeded. With respect to the cash bonus component of the 2013 Program, no cash bonus would be paid unless the Company met or exceeded the Cash Threshold levels for both revenue and non-GAAP operating income set forth above. If both of these threshold levels were achieved, the executive would be entitled to a cash bonus of between 0% and 100% of his cash bonus opportunity, with the bonus amount being interpolated pro-rata on a straight-line basis up between the applicable levels of the table above. In no event would an executive be entitled to vest in more than 100% of the target number of restricted stock units subject to his award under the 2013 Program or to receive payment of a cash bonus greater than 100% of his target cash bonus amount.

During the first quarter of 2014, the Compensation Committee compared the Company's total 2013 fiscal year revenue and non-GAAP operating income to the revenue and non-GAAP operating income threshold and target amounts established by the Compensation Committee and determined that the RSU target levels were achieved for both performance measures. For purposes of the 2013 Program, the Company's revenue was \$741.9 million, and the Company's non-GAAP operating income was \$105.7 million. These amounts were determined after giving effect to certain adjustments deemed appropriate by the Compensation Committee. Specifically, the Company's revenue as determined under GAAP (which was \$727.7 million for 2013) and non-GAAP operating income (which was \$98.4 million as reflected in the Unaudited Non-GAAP Financial Information section of the Company's Form 10-K) for 2013 were each adjusted to include certain revenues with respect to orders completed during 2013 that were not recognized on a GAAP basis until early 2014 because the Company did not have the inventory to ship the orders until early 2014 or because the revenue related to the orders was required to be deferred until 2014 in accordance with GAAP (with the understanding that such revenue would not be included in determining the Company's performance for 2014 for purposes of its incentive programs) and to remove the impact of revenue from entities acquired during 2013 that were not contemplated when the targets were established.

Accordingly, the Compensation Committee determined that 100% of the restricted stock units granted to Mr. Gecht under the 2013 Program had vested and that he would be awarded 92% of his target cash bonus amount under the 2013 Program. For Mr. Olin, the Compensation Committee determined that, based on the performance during 2013 of the Productivity Software business unit for which Mr. Olin served as General Manager, 80% of the restricted stock units granted to him under the 2013 executive leadership program had vested and that the percentage vesting would be increased to 86% based on Mr. Olin's service as Interim Chief Financial Officer in 2013. In addition, the Compensation Committee determined that Mr. Olin would be eligible for a pro-rated cash bonus for his time as Interim Chief Financial Officer. Mr. Pilette was not eligible for any vesting or payment of his awards under the 2013 Program as a result of his resignation during the year.

Long-Term Equity Incentive Program

As indicated by its performance-based approach to compensation, the Company believes that equity ownership in the Company is important to closely align the interests of named executive officers with those of Company stockholders and thereby promote incentives to achieve sustained, long-term revenue growth, profitability and creation of stockholder value. The Company's named executive officers may receive awards of performance- or service-based stock options, restricted stock and/or restricted stock units at the discretion of the Compensation Committee. The number of shares subject to awards granted to each executive officer is determined and approved by the Compensation Committee in its judgment based upon several factors, including the individual's performance, the Company's performance, the value of the award at the time of grant, market compensation levels and the shares available for grant under our equity incentive plan.

To provide additional incentives for performance, the Company also grants equity awards that vest based upon the Company's achievement of pre-established financial performance. These performance-based equity awards also assist in aligning the interests of the named executive officers with those of stockholders. The Company's current practice is to grant its executive officers a combination of performance-based restricted stock units and time-based restricted stock units. In order to provide an incentive for continued employment, restricted stock units granted to named executive officers under the long-term incentive program typically have a three-year annual vesting schedule.

2013 Awards

In August 2013, the Compensation Committee approved the grant of restricted stock unit awards to each of Messrs. Gecht, Olin and Pilette under the Company's 2009 Equity Incentive Award Plan, as amended (the "2009 Equity Plan"), as set forth in the following table:

Type of Security	Type of Vesting	Vesting Schedule
Restricted Stock Unit	Performance-based	<p>This award will vest as follows:</p> <p>One-third of the award will vest if, for any period of four consecutive fiscal quarters ending no later than the third quarter of fiscal year 2014, the Company achieves revenue of \$747 million and non-GAAP operating income of \$97 million (which goals reflect increases of 10% and 12% over the Company's revenue and non-GAAP operating income for the four quarters ended June 30, 2013, respectively). If these goals are not met by the third quarter of fiscal year 2014, this one-third tranche will vest if, for the period of four consecutive fiscal quarters ending with the fourth quarter of fiscal year 2014, the Company achieves revenue of \$762 million and non-GAAP operating income of \$103 million (which goals reflect increases of 12% and 18% over the Company's revenue and non-GAAP operation income for the four quarters ended June 30, 2013, respectively).</p> <p>One-third of the award will vest if, over a period of four consecutive fiscal quarters ending no later than the second quarter of fiscal year 2016, the Company achieves revenue of \$802 million and non-GAAP operating income of \$106 million (which goals reflect increases of 18% and 22% over the Company's revenue and non-GAAP operating income for the four quarters ended June 30, 2013, respectively).</p> <p>One-third of the award will vest if, over a period of four consecutive fiscal quarters ending no later than the second quarter of fiscal year 2017, the Company achieves revenue of \$842 million and non-GAAP operating income of \$113 million (which goals reflect increases of 24% and 30% over the Company's revenue and non-GAAP operating income for the four quarters ended June 30, 2013, respectively).</p>
Restricted Stock Unit	Time-based	<p>This award will vest in annual installments over a three-year period after the date of grant.</p>

The Compensation Committee believes that each of these grants further align the interests of executives with those of our stockholders. The performance-based restricted stock units are structured to help drive growth in the revenue and profitability of the Company over both the short- and long-term. The vesting requirements described above provide incentives to sustain high levels of growth over a multi-year period. The performance-based and time-based grants also create further incentives for executives to help maintain and increase our stock price (as the value of the grant depends on the value of our stock) and provide a retention incentive as the vesting of the grant in each case is contingent on the executive's continued employment with the Company through the vesting date.

As indicated in the Grants of Plan-Based Awards Table on page 42 of this Proxy Statement, the Compensation Committee allocated approximately two-thirds of the total grant-date value (determined in accordance with generally accepted accounting principles) of each executive's equity award for 2013 to restricted stock units that vest based on the Company's achievement of the performance goals identified above and approximately one-third of the total grant-date value of each executive's equity award to restricted stock units that vest based on the executive's continued service with the Company. The Compensation Committee determined the value of each of Mr. Gecht's and Mr. Pilette's total equity award in its judgment, taking into consideration its subjective assessment of the executive's individual performance, the retention value of these grants and the executives' prior long-term equity incentive grants, certain equity award and total direct compensation ranges provided by Mercer based on comparisons against market benchmarks, the number of shares remaining under the 2009 Equity Plan and their planned use for purposes other than executive compensation, and the Company's philosophy that long-term equity incentives should constitute a substantial portion of each executive's total direct compensation. At the time, Mr. Olin received a similar award as a member of our senior management team. The Compensation Committee selected revenue and non-GAAP operating income as the performance measures for these awards for the same reasons these measures were used to measure performance under the executive annual bonus program as described above.

Vesting of 2012 Performance Awards

As described in the Company's 2013 proxy statement, the Company granted performance-based restricted stock unit awards to Mr. Gecht and Mr. Pilette in May 2012. At the time, Mr. Olin received an award as a member of our senior management team. As with the performance-based awards granted in February 2013 described above, the vesting of each of these awards is contingent on the Company's achievement of specified levels of revenue and non-GAAP operating income (as defined above under "Short-Term Incentive Compensation"). Specifically, one-third of the award vests if, for any period of four consecutive fiscal quarters ending no later than the second quarter of fiscal year 2013, the Company's revenue exceeds \$680 million and its non-GAAP operating income exceeds \$82 million (which goals reflect increases of 15% and 19% over the Company's 2011 levels of revenue and non-GAAP operating income, respectively). One-third of the award will vest if, over a period of four consecutive fiscal quarters ending no later than the second quarter of fiscal year 2014, the Company's revenue exceeds \$725 million and its non-GAAP operating income exceeds \$87 million (which goals reflect increases of 23% and 26% over the Company's 2011 levels of revenue and non-GAAP operating income, respectively). One-third of the award will vest if, over a period of four consecutive fiscal quarters ending no later than the second quarter of fiscal year 2015, the Company's revenue exceeds \$769 million and its non-GAAP operating income exceeds \$92 million (which goals reflect increases of 30% and 33% over the Company's 2011 levels of revenue and non-GAAP operating income, respectively).

In August 2013, the Compensation Committee determined that, for the period from the third quarter of fiscal 2012 through the second quarter of fiscal 2013, the Company's revenue was \$680 million and the Company's non-GAAP operating income was \$87 million. Accordingly, one-third of the units of the awards vested upon the Compensation Committee's determination. The balance of Mr. Pilette's award terminated upon his resignation at the end of August 2013. In January 2014, the Compensation Committee determined that, for the period from the first quarter of fiscal 2013 through the fourth quarter of fiscal 2013, the Company's revenue was \$728 million and the Company's non-GAAP operating income was \$98 million, in each case as described under "Short-Term Incentive Compensation" above. Accordingly, one-third of the units of the awards granted to Mr. Gecht and Mr. Olin vested upon the Compensation Committee's determination.

Vesting of 2011 Performance Awards

As described in the Company's 2012 proxy statement, the Company granted performance-based restricted stock unit awards to Mr. Gecht and Mr. Pilette in August 2011. At the time, Mr. Olin received a similar award as a member of our senior management team. As with the other performance-based awards described above, the vesting of each of these awards is contingent on the Company's achieving specified levels of revenue and non-GAAP operating income. Specifically, one-third of the award vests if, for any period of four consecutive fiscal quarters ending no later than the fourth quarter of fiscal year 2012, the Company's revenue exceeds its revenue level for 2010 by at least 21% and its non-GAAP operating income exceeds its non-GAAP operating income level for 2010 by at least 12%. One-third of the award vests if, over a period of four consecutive fiscal quarters ending no later than the second quarter of fiscal year 2013, the Company's revenue exceeds its revenue level for 2010 by at least 30% and its non-GAAP operating income exceeds its non-GAAP operating income level for 2010 by at least 13%. One-third of the award vests if, over a period of four consecutive fiscal quarters ending no later than the second quarter of fiscal year 2014, the Company's revenue exceeds its revenue level for 2010 by at least 40% and its non-GAAP operating income exceeds its non-GAAP operating income level for 2010 by at least 15%. In May 2012, the Compensation Committee determined that the first tranche of each of these awards had vested. In August 2013, the Compensation Committee determined that, for the period from the third quarter of fiscal 2012 through the second quarter of fiscal 2013, the Company's revenue was \$680 million (representing an increase of 35% over its revenue level for 2010) and the Company's non-GAAP operating income was \$87 million (representing an increase of 143% over its non-GAAP operating income level for 2010). Accordingly, one-third of the units of the awards vested upon the Compensation Committee's determination. The balance of Mr. Pilette's award terminated upon his resignation at the end of August 2013.

2009 Performance-Based Awards

As previously disclosed in the Company's 2009 proxy statement, the Company granted Mr. Gecht two performance-based option grants during 2009 that would vest based upon the achievement of performance goals established by the Compensation Committee. The vesting of one performance-based option grant is determined based on the price of the Company's common stock, as measured by the average per share closing price over a period of 20 consecutive trading days (the "average stock price"), attaining specified levels of appreciation over the per share closing stock price on the date of grant, or \$10.77 (the "grant date stock price"), according to the following schedule: 25% of these options vest when the average stock price equals or exceeds \$16.16 (150% of the grant date stock price); 25% of these options vest when the average stock price equals or exceeds \$18.85 (175% of the grant date stock price); 25% of these options will vest when the average stock price equals or exceeds \$21.54 (200% of the grant date stock price); and 25% of these options vest when the average stock price equals or exceeds \$24.23 (225% of the grant date stock price). All tranches of the option, each representing 25% of the total grant, vested and became exercisable on April 27, 2011, January 14, 2013, February 11, 2013, and March 25, 2013, respectively.

The vesting of the other performance-based option granted in 2009 is determined based on the Company's annual return on equity percentage, on a non-GAAP basis, (the "Annual ROE Percentage"), as compared with the Company's annual return on equity percentage for its 2008 fiscal year, which was 7.1% (the "2008 ROE Percentage") according to the following schedule: 20% of these options vest when the Annual ROE Percentage is equal to or greater than two percentage points more than the 2008 ROE Percentage; 20% of these options vest when the Annual ROE Percentage is equal to or greater than four percentage points more than the 2008 ROE Percentage; 20% of these options vest when the Annual ROE Percentage is equal to or greater than six percentage points more than the 2008 ROE Percentage; 20% of these options vest when the Annual ROE Percentage is equal to or greater than eight percentage points more than the 2008 ROE Percentage; and 20% of these options vest when the Annual ROE Percentage is equal to or greater than ten percentage points more than the 2008 ROE Percentage. For these purposes, non-GAAP return on equity is defined as non-GAAP net income divided by stockholders' equity. Non-GAAP net income is defined as net income determined in accordance with GAAP adjusted to remove the impact of recurring amortization of acquisition-related intangibles, stock-based compensation expense, as well as restructuring-related charges and non-recurring charges and gains, and the tax

effect of these adjustments. These adjustments are specified in the Unaudited Non-GAAP Financial Information section of the Company's annual and quarterly reports filed with the SEC for the applicable fiscal period. The first tranche of the option grant (representing 20% of the total grant) vested and was certified by the Compensation Committee in February 2012 based on the Company's Annual ROE Percentage of 9.4% for the 2011 fiscal year.

Severance Arrangements

Each of the named executive officers currently employed by the Company is a party to an employment agreement with the Company that provides for severance benefits under certain events, such as a termination without cause or the executive resigning for good reason. Because the Company believes that a resignation by an executive for good reason (or constructive termination) is conceptually the same as an actual termination by the Company without cause, the Company believes it is appropriate to provide severance benefits following such a constructive termination of the executive's employment.

The employment agreements are designed to promote stability and continuity of senior management. In addition, the Company recognizes that the possibility of a change of control may exist from time to time, and that this possibility, and the uncertainty and questions it may raise among management, may result in the departure or distraction of management personnel to the detriment of the Company and its stockholders. Accordingly, the Compensation Committee has determined that appropriate steps should be taken to encourage the continued attention and dedication of members of the Company's management to their assigned duties without the distraction that may arise from the possibility of a change of control. As a result, the employment agreements include provisions relating to the payment of severance benefits under certain circumstances in the event of a change of control. Under the change of control provisions, in order for severance benefits to be triggered, an executive must be involuntarily terminated without cause or the executive must leave for good reason within 24 months after a change of control.

Information regarding the severance benefits for each of the named executive officers under their employment agreements is provided under the headings "Employment Agreements" and "Potential Payments upon Termination or Change of Control" on pages 58 through 60 of this Proxy Statement.

Other Elements of Compensation and Perquisites

There are no other material elements of compensation that the named executive officers receive. The named executive officers may not defer any component of any annual incentive bonus earned and do not participate in another deferred compensation plan. Likewise, the Company does not maintain any defined benefit pension plans for its employees. However, named executive officers are eligible to participate in the Company's 401(k) savings plan on the same terms and conditions as other Company employees. In addition, the named executive officers are eligible to participate in the Company's group health and welfare plans on the same terms and conditions as other Company employees.

Subsequent Committee Actions

In January 2014, Mr. Olin was appointed the Company's Chief Operating Officer, and David Reeder joined the Company as its Chief Financial Officer. In connection with these appointments, the Compensation Committee approved employment agreements with each executive. Each agreement provides that the executive's employment is at-will and that the executive will be entitled to receive a base salary, an annual bonus opportunity and certain performance-based and time-based restricted stock unit awards. In connection with these appointments, the Compensation Committee approved performance-based and time-based RSU awards. For each executive, a portion of the performance-based awards will vest only if we achieve specified stock-price levels, and the balance of the performance-based awards will vest only if we meet specified targets for revenue and non-GAAP earnings by December 31, 2016. Each agreement also provides that the executive will be entitled to severance benefits on certain terminations of employment similar to the severance protections in effect for our executives in 2013 as described below under "Employment Agreements" and "Potential Payments Upon Termination or Change in Control."

In January 2014, the Compensation Committee approved the 2014 performance-based equity and cash bonus program (the 2014 Program) for Messrs. Gecht, Reeder and Olin. Each of these executives is eligible for an equity bonus up to a target percentage of the executive's current annual base salary based upon the Company's financial performance relative to targets established by the Compensation Committee. In execution of the program, the Compensation Committee approved grants of performance-based awards of restricted stock units in January 2014 to each executive, with the total number of stock units of the executive's award determined by dividing the executive's target bonus by the closing price of the Company's common stock on January 17, 2014. In addition, each executive has an opportunity to receive a cash bonus up to the executive's target cash bonus amount if the Company achieves financial results above the Company's 2014 operating plan approved by the Board of Directors. Each of Mr. Gecht's equity and cash bonus target amounts is 105% of his base salary, (the same target bonus levels for Mr. Gecht under the 2013 Program). For Messrs. Reeder and Olin each of the equity and cash target bonus is 70% of the executive's base salary.

As under the 2013 Program, the performance metrics under the 2014 Program will be the Company's revenue and non-GAAP operating income, with each metric being weighted 50% and the Compensation Committee establishing threshold and target levels for each metric for vesting of the RSU and cash components of the program. Under the 2014 Program, if the minimum non-GAAP operating income threshold is met, the RSUs in the executive's equity bonus award will vest between 0% and 100%, with 0% vesting at the applicable threshold level and increasing on a pro-rata, straight-line basis up to 100% at the applicable target level. As under the 2013 Program, the cash component is intended to reward performance above the target level, so the cash bonus threshold for each metric is equal to the RSU target level for that metric. If both cash bonus thresholds are met, the cash bonus will be determined as percentage of the executive's cash target bonus amount, with 0% of the cash bonus paid at the applicable threshold level and increasing on a pro-rata, straight-line basis up to 100% at the applicable target level.

Tax Considerations

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation over \$1 million paid for any fiscal year to each of the corporation's named executive officers, other than the chief financial officer, as of the end of the fiscal year. However, Section 162(m) exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. Although the Compensation Committee considers the impact of Section 162(m) when developing and implementing executive compensation programs, the Compensation Committee believes that it is important and in the best interests of stockholders to preserve flexibility in designing compensation programs. Although a significant portion of the compensation awarded under the Company's incentive programs (including the Company's grants of stock options and performance-based restricted stock unit awards under the executive incentive programs described above) are intended to qualify as performance-based compensation exempt from Section 162(m) of the Internal Revenue Code, the Compensation Committee retains complete discretion to approve compensation arrangements for executive officers that are not fully deductible. Further, because of ambiguities and uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder, no assurance can be given, notwithstanding the Compensation Committee's efforts, that compensation intended to satisfy the requirements for deductibility under Section 162(m) does in fact do so.

Stock Ownership Policy

In February 2011, the Board of Directors adopted a Stock Ownership Policy for the Company's directors. The Stock Ownership Policy applies to Mr. Gecht in his role as director of the Company. The policy was adopted to further align the interests of our shareholders and directors. According to the policy, included in the Board of Directors' Guidelines, directors are required to hold at least 10,000 shares of the Company's common stock within three years of first becoming a director, and continue holding such required minimum as long as they continue serving as directors. In determining whether the stock ownership requirements were met, the Board of Directors shall take into account a director's beneficial ownership, including shares of common stock held by the

director, shares of common stock held in trust for the benefit of the director or his or her immediate family members, vested or unvested restricted stock and vested or unvested restricted stock units. The Nominating and Governance Committee may extend in its discretion the deadline for attainment of such stock ownership level.

Compensation Committee Interlocks and Insider Participation

None of the members of the Compensation Committee has at any time been one of the Company's executive officers or employees or had any relationships requiring disclosure by the Company under the SEC rules requiring disclosure of certain relationships and related party transactions. None of the Company's executive officers currently serves, or in the past fiscal year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on the Board of Directors or Compensation Committee.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

- Threshold, Target, and Maximum columns in the Estimated Future Payouts Under Non-Equity Incentive Plan Awards and Estimated Future Payouts Under Equity Incentive Plan Awards columns for awards granted in February 2013 represent amounts payable under our 2013 annual target bonus program. Threshold achievement results in 50% bonus payout, while Target and Maximum achievement results in 100% bonus payout, with pro rata payouts for achievement between these Threshold and Target levels.
- Grant Date Fair Value of Stock and Option Awards represents the grant date fair value of the applicable award at the target award level calculated in accordance with ASC 718. See Note 12 of the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2013 regarding assumptions underlying the valuation of equity awards.
- These RSUs vest based on achievement of 2013 revenue targets with pro rata vesting between the threshold of \$652 million (50% vesting) and the target of \$700 million (100% vesting). The Compensation Committee certified on January 24, 2014 that 100% of these RSUs would vest on that date based on actual 2013 revenue for purposes of the bonus program of \$741.9 million.
- These RSUs vest based on achievement of 2013 non-GAAP operating income targets with pro rata vesting between the threshold of \$78.0 million (50% vesting) and the target of \$87.5 million (100% vesting). The Compensation Committee certified on January 24, 2014 that 100% of these RSUs would vest on that date based on actual 2013 non-GAAP operating income for purposes of the bonus program of \$105.7 million. As described in more detail in the Compensation Discussion and Analysis, non-GAAP operating income is defined as operating income determined in accordance with GAAP, adjusted to remove the impact of certain expenses.
- The cash accelerator is payable based on a weighting of 50% toward achievement of 2013 revenue targets with pro rata vesting between the threshold of \$700 million (0% vesting) and the target of \$750 million (100% vesting) and 50% toward achievement of 2013 non-GAAP operating income targets with pro rata vesting between the threshold of \$87.5 million (50% vesting) and the target of \$93.75 million (100% vesting). The Compensation Committee certified on January 24, 2014 that 92% of the cash accelerator vested on that date based on actual 2013 revenue and non-GAAP operating income for purposes of the bonus program of \$741.9 and \$105.7 million, respectively.
- These RSUs will vest by one-third of the target number of RSUs subject to the award upon the Company's achievement of \$747 million in revenue and \$97 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2013 and the third quarter of 2014. If these

Edgar Filing: ELECTRONICS FOR IMAGING INC - Form DEF 14A

goals are not met by the third quarter of 2014, then, alternatively, this one-third tranche will vest upon the Company's achievement of \$762 million in revenue and \$103 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2013 and the fourth quarter of 2014. An additional one-third of the target RSUs will vest upon the Company's achievement of \$802 million in revenue and \$106 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2013 and the second quarter of 2016. An additional one-third of the target RSUs will vest upon the Company's achievement of \$842 million in revenue and \$113 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2013 and the second quarter of 2017.

- (7) Each RSU award vests with respect to one-third of the units on the first, second, and third anniversaries of the date of grant.
- (8) Mr. Olin was Senior Vice President and General Manager of the Productivity Software operating segment throughout 2013 in addition to his role as Interim Chief Financial Officer effective September 2013. As described in the Compensation Discussion and Analysis, these RSUs vest based on achievement of 2013 Productivity Software revenue targets with pro rata vesting between the threshold of \$113.0 million (50% vesting) and the target of \$124.4 million (100% vesting). The Compensation Committee certified on January 24, 2014 that these RSUs were 82% vested on that date based on actual 2013 revenue from the Productivity Software operating segment.
- (9) As described in the Compensation Discussion and Analysis, these RSUs vest based on achievement of Productivity Software non-GAAP operating income with pro rata vesting between the threshold of \$35.1 million (50% vesting) and the target of \$42.6 million (100% vesting). The Compensation Committee certified on January 24, 2014 that these RSUs were 77% vested on that date based on actual 2013 non-GAAP operating income for the Productivity Software segment. In recognition of Mr. Olin's role as Interim Chief Financial Officer effective September 2013, the Compensation Committee determined to increase the vesting of this award and the performance-based award described in note (8) above so that Mr. Olin vested in a total of 86% of the units subject to these two awards.
- (10) The cash accelerator is payable based on a weighting of 50% toward achievement of 2013 revenue targets with pro rata vesting between the threshold of \$700 million (0% vesting) and the target of \$750 million (100% vesting) and 50% toward achievement of 2013 non-GAAP operating income targets with pro rata vesting between the threshold of \$87.5 million (0% vesting) and the target of \$93.75 million (100% vesting). The

Compensation Committee certified on January 24, 2014 that 92% of the cash accelerator vested on that date based on actual 2013 revenue and non-GAAP operating income for purposes of the bonus program of \$741.9 and \$105.7 million, respectively. Mr. Olin's cash accelerator was pro-rated for the four months that he served as Interim Chief Financial Officer during 2013.

(11) Mr. Pilette resigned as our Chief Financial Officer in August 2013 effective as of September 3, 2013. Accordingly, he was not eligible for vesting or payment under these awards.

Description of Plan-Based Awards

Equity Incentive Plan Awards. Each of the equity incentive awards reported in the above table was granted under, and is subject to, the terms of the Company's 2009 Equity Incentive Award Plan (the "2009 Plan"). The 2009 Plan is administered by the Compensation Committee. The Compensation Committee has authority to interpret the plan provisions and make all required determinations under the 2009 Plan. Awards granted under the 2009 Plan are generally only transferable to a beneficiary of a named executive officer upon his death or, in certain cases, to family members for tax or estate planning purposes.

Under the terms of the 2009 Plan, if there is a change in control of the Company, each named executive officer's outstanding awards granted under the plan will generally become fully vested and exercisable, in the case of options, unless the Compensation Committee provides for the substitution, assumption, exchange, or other continuation of the outstanding awards. Any options that become vested in connection with a change in control generally must be exercised prior to the change in control or they will be cancelled in exchange for the right to receive a cash payment in connection with the change in control transaction.

In addition, each named executive officer may be entitled to accelerated vesting of his outstanding equity-based awards upon certain terminations of employment with the Company and/or a change in control of the Company. The terms of this accelerated vesting are described in the "Potential Payments upon Termination or Change in Control" section below.

Restricted Stock Units (RSUs). Grants of time-based RSUs made in 2013 to the named executive officers are reported in the table above under the heading "All Other Stock Awards: Number of Shares of Stock or Units." The vesting requirements applicable to each award granted to the named executive officers in 2013 are described in the footnotes to the table above and in the "Long-Term Equity Incentive Program" section of the Compensation Discussion and Analysis. RSUs are payable on vesting in an equal number of shares of the Company's common stock. The named executive officers do not have the right to vote or dispose of the RSUs and do not have any dividend rights with respect to the RSUs.

Performance Awards under Bonus Program. As described above, the named executive officers' 2013 bonus opportunities were granted in the form of RSU awards, supplemented by a cash accelerator, under our annual bonus program. These awards were granted in February 2013 and are reported in the table above under the headings "Estimated Future Payouts Under Non-Equity Incentive Plan Awards" and "Estimated Future Payouts Under Equity Incentive Plan Awards." The material terms of these awards reported in the above table are described in the Compensation Discussion and Analysis section above under the heading "Short-Term Incentive Compensation."

Other Performance Awards. As described above, the named executive officers were granted performance awards in the form of RSU awards, which vest based on long-term revenue and non-GAAP operating income targets. These awards were granted in August 2013 and are reported in the table above under the heading "Estimated Future Payouts Under Equity Incentive Plan Awards." The material terms of these awards reported in the above table are described in the Compensation Discussion and Analysis section above under the heading "Long-Term Equity Incentive Program."

- (1) One-third of the RSUs of each award vests on the first, second, and third anniversary of the date of grant.
- (2) One-third of this option grant vests on the first anniversary of the date of grant and the balance of the option vests at a rate of 2.23% of the total number of shares subject to the option per month over the next thirty months.
- (3) This option award initially covered 19,425 shares. The option vests in five equal installments when the Company's annual non-GAAP return on equity percentage exceeds non-GAAP return on equity for the year ended December 31, 2008 by 2, 4, 6, 8, and 10 percentage points, respectively. Non-GAAP return on equity is defined as non-GAAP net income divided by stockholders' equity. Non-GAAP net income is defined as net income determined in accordance with GAAP, adjusted to remove the impact of certain expenses, and the tax effects of these adjustments. The threshold performance goal requiring that non-GAAP return on equity exceed non-GAAP return on equity for the year ended December 31, 2008 by two percentage points was achieved on December 31, 2011, and certified by the Compensation Committee on February 9, 2012, resulting in the vesting of 3,885 shares. These options were exercised on January 25, 2013. The number of securities underlying unexercised options shown in column (d) above is based on achieving the next performance level, which requires that non-GAAP return on equity exceed non-GAAP return on equity for the year ended December 31, 2008 by four percentage points.
- (4) Each option vests with respect to 25% of the shares subject thereto on the first anniversary of the date of grant and then at a rate of 2.5% of the total number of shares subject to the option per month over the next thirty months.
- (5) These RSUs will vest upon the Company's achievement of 40% revenue growth and 15% non-GAAP operating income growth during four consecutive quarters between the first quarter of 2011 and the second quarter of 2014.
- (6) These RSUs will vest upon the Company's achievement of \$725 million in revenue and \$87 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2012 and the second quarter of 2014. An additional number of RSUs equal to the number of unvested RSUs

Edgar Filing: ELECTRONICS FOR IMAGING INC - Form DEF 14A

will vest upon the Company's achievement of \$769 million in revenue and \$92 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2012 and the second quarter of 2015.

- (7) These RSUs vest based on achievement of 2013 revenue targets with pro rata vesting between the threshold of \$652 million (50% vesting) and the target of \$700 million (100% vesting). The Compensation Committee certified on January 24, 2014 that these RSUs were 100% vested on that date based on actual 2013 revenue for purposes of the bonus program of \$741.9 million. Vesting of the RSUs was contingent upon the executive's continued employment with the Company through the later of the date of the Compensation Committee's determination or the first anniversary of the grant date.

- (8) These RSUs vest upon the Company's achievement of 2013 non-GAAP operating income targets with pro rata vesting between the threshold of \$78.0 million (50% vesting) and the target of \$87.5 million (100% vesting). The Compensation Committee certified on January 24, 2014 that these RSUs were 100% vested on that date based on actual 2013 non-GAAP operating income for purposes of the bonus program of \$105.7 million. As described in more detail in the Compensation Discussion and Analysis, non-GAAP operating income is defined as operating income determined in accordance with GAAP, adjusted to remove the impact of certain expenses. Vesting of the RSUs was contingent upon the executive's continued employment with the Company through the later of the date of the Compensation Committee's determination or the first anniversary of the grant date.
- (9) These RSUs will vest upon the Company's achievement of \$747 million in revenue and \$97 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2013 and the third quarter of 2014. If these RSUs do not vest by the third quarter of 2013, then, alternatively, these RSUs will vest upon the Company's achievement of \$762 million in revenue and \$103 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2012 and the fourth quarter of 2014. An additional number of RSUs equal to this number of unvested RSUs will vest upon the Company's achievement of \$802 million in revenue and \$106 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2013 and the second quarter of 2016. An additional number of RSUs equal to this number of RSUs will vest upon the Company's achievement of \$842 million in revenue and \$113 million in non-GAAP operating income during any four consecutive quarters between the first quarter of 2013 and the second quarter of 2017.

Option Exercises and Stock Vested in 2013

Options exercised and restricted stock awards vested by the named executive officers during the year ended December 31, 2013 were as follows:

Name	Option Awards		Stock Awards	
	Number of shares acquired on exercise (#)(b)	Value realized on exercise \$(c)(1)	Number of shares acquired on vesting (#)(d)	Value realized on vesting \$(e)(2)
Guy Gecht	263,122	\$ 3,260,468	155,774	\$ 4,468,574
Marc Olin			44,662	1,244,485
Vincent Pilette			122,739	3,009,569

- (1) The dollar amounts shown in Column (c) above for option awards are determined by multiplying (i) the number of shares to which the exercise of the option related by (ii) the difference between the per-share price of our common stock on the date of exercise and the exercise price of the options.
- (2) The dollar amounts shown in Column (e) for stock awards are determined by multiplying the number of shares or units, as applicable, that vested by the per-share price of our common stock on the vesting date.

Pension Benefits

The Company does not provide pension benefits (other than under the Company's 401(k) plan) to its employees.

Nonqualified Deferred Compensation

The Company does not provide any nonqualified deferred compensation plans to its employees.

Employment Agreements

The Company has entered into employment agreements with each of its named executive officers. As noted in the Compensation Discussion and Analysis above, Mr. Gecht entered into a new employment agreement with the Company in January 2014 to eliminate his right under his prior employment agreement to be reimbursed by the Company for any tax liability imposed under Section 409A of the U.S. Internal Revenue Code and to update his agreement to be on the same form as the Company's other agreements with its executive officers. Mr. Gecht's new agreement does not otherwise materially change the compensation, severance benefits or other terms of his employment with the Company and, consistent with his prior agreement, has a one-year term that automatically renews for additional one year periods unless terminated by either party upon sixty days written notice prior to the expiration of the agreement. The employment agreements with Messrs. Reeder and Olin were entered into in

January 2014 and each agreement has a three-year initial term with automatic one-year renewal unless terminated by either party upon sixty days written notice prior to the expiration of the agreement. Each named executive officer's employment with the Company is at-will and either party may terminate the employment relationship at any time for any reason with or without cause and with or without notice.

Each employment agreement provides, among other things, that:

the named executive officer shall be provided with a base salary and will be eligible for bonuses under the annual management bonus program as approved by the Compensation Committee;

the named executive officer is eligible to receive stock options and other equity awards based on the named executive officer's performance;

in the event that the Company terminates the named executive officer's employment without cause or the named executive officer voluntarily terminates his employment for good reason, the named executive officer is eligible for severance benefits consisting of salary continuation, a pro-rata bonus, employer subsidized health benefit continuation under COBRA, and outplacement services;

if the named executive officer becomes entitled to receive severance and except as otherwise provided in the award document, the vesting of the named executive officer's outstanding and unvested stock options and other equity awards shall be either partially or fully accelerated, performance conditions waived, and the post-termination exercise period for stock options shall be extended;

the named executive officer is subject to a non-solicitation covenant during his employment and for one year following termination of employment.

For more information on the severance provisions of these employment agreements, please see the severance tables and related footnotes in the section below.

Potential Payments upon Termination or Change of Control

Potential payments that may be made to the Company's named executive officers upon a termination of employment or a change of control, pursuant to their employment agreements or otherwise, are set forth below.

Quantitative severance benefits that would be provided to each of the Company's named executive officers employed by the Company on December 31, 2013 are estimated below. These estimates of quantitative benefits assume that the termination of employment and/or change in control triggering payment of these benefits occurred on the last business day of 2013, with benefits being valued using the closing sales price of the Company's common stock on such date (\$38.73) and determined based on each executive's employment agreement in effect on December 31, 2013. Receipt of these benefits is subject to the Company's receipt of an executed separation agreement and full release of all claims from the named executive officer. The executive's actual benefits upon a termination or change of control may be different from those described below if such event were to occur on any other date or at any other price, or if any assumption is not factually correct.

The table below sets forth potential payments to the Company's named executive officers upon termination without cause by the Company or upon termination for good reason by the named executive officer, in either case other than during the period of 24 months following a change of control, as follows:

Name	Lump sum severance payment \$(1)	Outplacement benefits \$(2)	Continued health care coverage benefits \$(3)	Value of accelerated vesting of stock options and restricted stock units \$(4)	Total (\$)

Guy Gecht	\$ 2,929,530	\$ 35,000	\$ 28,163	\$ 3,226,813	\$ 6,219,506
Marc Olin	602,260	35,000	546	660,824	1,298,630

- (1) The amounts shown are the lump sum severance payment that consists of 24 months of base salary for Mr. Gecht and six months of base salary plus 1.5 weeks for each year of service for Mr. Olin, plus an amount equal to the value of the bonus (including, as applicable, the vesting of any equity awards and/or the payment of any cash bonus opportunity awarded under the bonus program) that the named executive officer would have earned in 2013 based upon the level of performance targets applicable to the bonus that were actually attained for 2013. If the named executive officer is terminated during the year by the Company without cause or by the executive for good reason, the bonus is prorated for the portion of the year that the named executive officer was with the Company.
- (2) Messrs. Gecht and Olin would each be entitled to outplacement services up to a maximum of \$35,000.
- (3) Messrs. Gecht and Olin would each be entitled to premium reimbursement for health insurance coverage under COBRA for Mr. Gecht for up to 18 months and for Mr. Olin for up to six months plus 1.5 weeks for each year of service.
- (4) Other than RSU awards related to the 2013 executive bonus program, which would be treated as described above in Note 1, Messrs. Gecht and Olin would be entitled to accelerated vesting of options and RSUs with respect to that number of shares that would otherwise have vested during the six month period following the termination date. For time-based options and RSUs that vest on an annual basis, credit is given as if the vesting accrued monthly. Awards that are subject to performance requirements may vest to the extent the performance conditions are met within a specified period after the termination. The value of the accelerated options and RSUs is calculated based on the Company's closing stock price at December 31, 2013 of \$38.73 per share, less the exercise price with respect to accelerated options. The number of stock options and RSUs subject to acceleration for each named executive officer if a termination by the Company without cause or by the named executive officer for good reason had occurred on December 31, 2013, were as follows:

Name	Stock	Restricted
	Options (#)	Stock Units (#)
Guy Gecht	6,500	78,729
Marc Olin		17,062

The table below sets forth potential payments to the Company's named executive officers upon termination without cause by the Company or upon termination for good reason by the named executive officers, in either case within 24 months following a change of control, as follows:

Name	Lump sum severance payment \$(1)	Outplacement benefits \$(2)	Continued health care coverage benefits \$(3)	Value of accelerated vesting of stock options and restricted stock units \$(4)	Total (\$)
Guy Gecht	\$ 3,601,947	\$ 35,000	\$ 28,163	\$ 11,193,141	\$ 14,858,251
Marc Olin	905,847	35,000	546	1,987,933	2,929,326

- (1) The amounts shown are the lump sum severance payment that consists of 36 months of base salary for Mr. Gecht and 12 months of base salary for Mr. Olin, plus an amount equal to the value of the bonus (including, as applicable, the vesting of any equity awards and/or the payment of any cash bonus opportunity awarded under the bonus program) that the named executive officer would have earned in 2013 assuming that 100% of any performance targets applicable to the bonus were attained.
- (2) Messrs. Gecht and Olin would each be entitled to outplacement services up to a maximum of \$35,000.
- (3) Messrs. Gecht and Olin would each be entitled to premium reimbursement for health insurance coverage under COBRA for Mr. Gecht for up to 18 months and for Mr. Olin for up to six months plus 1.5 weeks for each year of service.

- (4) Messrs. Gecht and Olin would be entitled to accelerated vesting on 100% of all unvested options and RSUs as of their termination date without giving consideration to performance conditions, if any. The value of the accelerated options and RSUs is calculated based on the Company's closing stock price at December 31, 2013 of \$38.73 per share, less the exercise price with respect to accelerated options. The number of stock options and RSUs subject to acceleration for each named executive officer if a termination by the Company without cause or by the executive for good reason had occurred on December 31, 2013 (assuming such termination was within 24 months after a change of control) are as follows:

Name	Stock Options (#)	Restricted Stock Units (#)
Guy Gecht	22,040	301,367
Marc Olin		59,354

Compensation Risk Assessment

The Company does not believe that its compensation programs encourage unnecessary risk-taking that could have a material adverse effect on the Company as a whole. In 2013, the Compensation Committee, with the assistance of Mercer, reviewed the elements of (i) the Company's compensation programs and practices for all employees and (ii) of executive compensation for fiscal year 2012 to determine whether any portion of the program encouraged excessive risk taking. Following that review, the Compensation Committee does not believe that the Company's compensation programs and practices applicable to employees create risks that are reasonably likely to have a material adverse effect on the Company.

The Compensation Committee also believes that the mix and design of the elements of our executive compensation program do not encourage management to take excessive risks, based on the following factors:

Compensation is allocated among base salaries and short and long-term compensation. Base salaries are fixed to provide executives with a stable cash income, which allows them to focus on the Company's issues and objectives as a whole. Short- and long-term compensation are designed to both reward the named executive officers for the Company's overall performance and align interests with those of our stockholders;

Our annual bonus program is intended to balance risk and encourage our named executive officers to focus on specific short-term goals important to our success. While our annual bonus program is based on achievement of annual goals, and annual goals could encourage the taking of short-term risks at the expense of long-term results, our named executive officers' annual bonus awards are determined based on a combination of objective corporate performance criteria as described above. In addition, threshold and target levels of performance, payouts at multiple levels of performance, and evaluation of performance based on objective measures are intended to assist in mitigating excessive risk taking. Finally, the awards payable under our annual bonus program are subject to a maximum number of shares with respect to the RSU portion of the award and a maximum cash payout with respect to the cash portion of the award, which limit the overall payout potential;

Awards to our named executive officers under our annual bonus program for fiscal year 2013 for their on-target bonus amounts were made in the form of performance-based RSU awards that help further align named executive officers' interests with those of our stockholders because the ultimate value of the awards is tied to the Company's stock price. The performance measures used to determine the payment of awards to our named executive officers are Company-wide measures only, as opposed to measures linked to the performance of a particular business segment. Applying Company-wide performance measures is designed to encourage our named executive officers to make decisions that are in the best long-term interests of the Company and our stockholders;

Awards to our named executive officers under our long-term equity incentive program in 2013 consisted of approximately 67% performance-based RSUs and approximately 33% time-based RSUs. The value of RSUs is tied directly to our stock price to help further align our executives' interests with those of our stockholders. As with the performance-based RSUs granted under our annual bonus program, the performance awards granted under our long-term equity program vest based on the achievement of Company-wide performance measures in addition to continued employment requirements and are intended to both provide a retention incentive and enhance executives' focus on specific financial goals considered important to the Company's long-term growth. Because these time-based and performance-based awards will generally remain outstanding for a period of years, they help ensure that executives always have significant value tied to delivering long-term stockholder value; and

As of April 4, 2014, Mr. Gecht owns approximately 0.9% of the Company's outstanding common stock which significantly aligns his interests with the stockholders' interests.
