Table of Contents**UNITED CONTINENTAL HOLDINGS, INC. AND UNITED AIRLINES, INC.****COMBINED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

United Continental Holdings, Inc. (together with its consolidated subsidiaries, UAL or the Company) is a holding company and its principal, wholly-owned subsidiary is United Airlines, Inc. (together with its consolidated subsidiaries, United). This Quarterly Report on Form 10-Q is a combined report of UAL and United including their respective consolidated financial statements. As UAL consolidates United for financial statement purposes, disclosures that relate to activities of United also apply to UAL, unless otherwise noted. United's operating revenues and operating expenses comprise nearly 100% of UAL's revenues and operating expenses. In addition, United comprises approximately the entire balance of UAL's assets, liabilities and operating cash flows. When appropriate, UAL and United are named specifically for their individual contractual obligations and related disclosures and any significant differences between the operations and results of UAL and United are separately disclosed and explained. We sometimes use the words we, our, us, and the Company in this report for disclosures that relate to all of UAL and United.

The UAL and United unaudited condensed consolidated financial statements shown here have been prepared as required by the U.S. Securities and Exchange Commission (the SEC). Some information and footnote disclosures normally included in financial statements that comply with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted as permitted by the SEC. The financial statements include all adjustments, including normal recurring adjustments and other adjustments, which are considered necessary for a fair presentation of the Company's financial position and results of operations. The UAL and United financial statements should be read together with the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 (the 2013 Annual Report). The Company's quarterly financial data is subject to seasonal fluctuations and historically its second and third quarter financial results, which reflect higher travel demand, are better than its first and fourth quarter financial results.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Frequent Flyer Accounting. On March 30, 2014, US Airways exited Star Alliance. Effective with the exit date, the Company updated its estimated selling price for miles to a value based on the equivalent ticket value less fulfillment discount, which incorporates the expected redemption of miles. The equivalent ticket value used as the basis for the estimated selling price of miles is based on the prior 12 months weighted average equivalent ticket value of similar fares as those used to settle award redemptions while taking into consideration such factors as redemption pattern, cabin class, loyalty status and geographic region. This change in estimate will be applied on a prospective basis beginning April 1, 2014. The estimated impact of this change on consolidated revenue is expected to be an increase of approximately \$75 million in 2014.

Related Party Receivables. At December 31, 2013, United had receivables from two affiliates, which were wholly-owned subsidiaries of UAL, of \$232 million that were classified against stockholder's equity. UAL transferred all of its equity interest in each of the two subsidiaries to United in the first quarter of 2014, and the transfers have been reflected as reductions in paid in capital.

NOTE 2 - LOSS PER SHARE

The table below represents the computation of UAL's basic and diluted loss per share amounts and the number of securities that have been excluded from the computation of diluted loss per share amounts because they were antidilutive (in millions, except per share amounts):

	Three Months Ended March 31,	
	2014	2013
Basic and diluted loss per share:		
Loss available to common stockholders	\$ (609)	\$ (417)
Weighted average shares outstanding, basic and diluted	368	332
Loss per share, basic and diluted	\$ (1.66)	\$ (1.26)
Potentially dilutive shares excluded from diluted per share amounts:		
Restricted stock and stock options	2	4

Table of Contents

During the three months ended March 31, 2014, UAL issued approximately five million additional shares of UAL common stock in exchange for, or upon conversion of, \$46 million in aggregate principal amount of UAL's outstanding 6% convertible senior notes due 2029 held by such securityholders. The newly issued shares of UAL common stock are included in the determination of basic weighted average shares outstanding for the three months ended March 31, 2014 from the date the shares were issued. The Company retired the 6% convertible senior notes acquired in the exchange.

In the first quarter of 2014, holders of substantially all of the remaining \$156 million outstanding principal amount of the 4.5% Senior Limited-Subordination Convertible Notes due 2021 (the 4.5% Notes) exercised their right to convert such notes into approximately five million shares of UAL common stock at a conversion rate of 30.6419 shares of UAL common stock per \$1,000 principal amount of 4.5% Notes. The newly issued shares of UAL common stock are included in the determination of basic weighted average shares outstanding for the three months ended March 31, 2014 from the date the shares were issued. See Note 9 for information related to exercises of the 4.5% Notes.

NOTE 3 - ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The tables below present the components of the Company's accumulated other comprehensive income (loss), net of tax (AOCI) (in millions):

UAL (a)	Pension and Other Postretirement Liabilities	Derivative Contracts	Investments and Other	Total
Balance at December 31, 2013	\$ 584	\$ 11	\$ 13	\$ 608
Changes in value	(5)	(10)		(15)
Amounts reclassified to earnings	(16)	3		(13)
Net current-period change	(21)	(7)		(28)
Balance at March 31, 2014	\$ 563	\$ 4	\$ 13	\$ 580
Balance at December 31, 2012	\$ (1,042)	\$ (10)	\$ 6	\$ (1,046)
Changes in value		(9)	(2)	(11)
Amounts reclassified to earnings	21	9		30
Net current-period change	21		(2)	19
Balance at March 31, 2013	\$ (1,021)	\$ (10)	\$ 4	\$ (1,027)

Details about AOCI Components	Amount Reclassified from AOCI to Income Three Months Ended March 31, 2014 2013		Affected Line Item in the Statements of Consolidated Operations
Derivatives designated as cash flow hedges			
Fuel contracts-reclassifications of (gains) losses into earnings (b)	\$ 3	\$ 9	Aircraft fuel
Amortization of pension and post-retirement items			
Amortization of unrecognized (gains) losses and prior service cost (credit) (b) (c)	\$ (16)	\$ 21	Salaries and related costs

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

- (a) UAL and United amounts are substantially the same except for an additional \$6 million of income tax benefit at United in 2013 and additional (losses) gains related to investments and other of \$1 million and \$1 million in 2014 and 2013, respectively.
- (b) Income tax expense for these items was offset by the Company's valuation allowance.
- (c) This AOCI component is included in the computation of net periodic pension and other postretirement costs (see Note 5 of this report for additional details).

Table of Contents**NOTE 4 - INCOME TAXES**

Our effective tax rates are lower than the federal statutory rate of 35% primarily because of the impact of changes to existing valuation allowances. We continue to provide a valuation allowance for our deferred tax assets in excess of deferred tax liabilities because we have concluded that it is more likely than not that such deferred tax assets will ultimately not be realized.

NOTE 5 - EMPLOYEE BENEFIT PLANS

Defined Benefit Pension and Other Postretirement Benefit Plans. The Company's net periodic benefit cost includes the following components (in millions):

	Pension Benefits		Other Postretirement Benefits	
	Three Months Ended		Three Months Ended	
	March 31,		March 31,	
	2014	2013	2014	2013
Service cost	\$ 24	\$ 33	\$ 5	\$ 14
Interest cost	51	47	22	28
Expected return on plan assets	(45)	(40)	(1)	(1)
Amortization of unrecognized (gain) loss and prior service cost (credit)	3	18	(19)	3
Total	\$ 33	\$ 58	\$ 7	\$ 44

During the three months ended March 31, 2014, the Company contributed \$57 million to its tax-qualified defined benefit pension plans.

Share-Based Compensation. In February 2014, UAL granted share-based compensation awards pursuant to the United Continental Holdings, Inc. 2008 Incentive Compensation Plan. These share-based compensation awards include approximately 0.3 million shares of restricted stock and 0.5 million restricted stock units (RSUs) that vest pro-rata over three years on the anniversary of the grant date. The time-vested RSUs are cash-settled based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. In addition, the Company granted 0.6 million performance-based RSUs that will vest based on the Company's return on invested capital for the three years ending December 31, 2016. If this performance condition is achieved, cash payments will be made after the end of the performance period based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. The Company accounts for the RSUs as liability awards. The table below presents information related to share-based compensation (in millions):

	Three Months Ended March 31,	
	2014	2013
Share-based compensation expense (a)	\$ 32	\$ 27
	March 31, 2014	December 31, 2013
Unrecognized share-based compensation	\$ 90	\$ 44

(a) Includes \$3 million and \$8 million of expense recognized in merger integration-related costs for the three months ended March 31, 2014 and 2013, respectively.

Profit Sharing Plans. Substantially all employees participated in profit sharing plans, which depending on the work group, pay from 5% to 20% of total pre-tax earnings, excluding special items and share-based compensation expense, to eligible employees when pre-tax profit, excluding special items, profit sharing expense and share-based compensation program expense, exceeds \$10 million. Eligible U.S. co-workers in each participating work group received a profit sharing payout using a formula based on the ratio of each qualified co-worker's annual eligible earnings to the eligible earnings of all qualified co-workers in all domestic work groups. The international profit sharing plan paid eligible non-U.S. co-workers the same percentage of eligible pay that is calculated under the U.S. profit sharing plan for management and administrative employees. Profit sharing expense is recorded as a component of salaries and related costs in the consolidated statements of operations.

Table of Contents**NOTE 6 - FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS**

The table below presents disclosures about the financial assets and financial liabilities measured at fair value on a recurring basis in the Company's financial statements (in millions):

	Total	March 31, 2014			Total	December 31, 2013		
		Level 1	Level 2	Level 3		Level 1	Level 2	Level 3
				UAL

Available-for-sale investment maturities - The short-term investments and EETC securities shown in the table above are classified as available-for-sale. As of March 31, 2014, asset-backed securities have remaining maturities of less than one year to approximately 40 years, corporate debt securities have remaining maturities of less than one year to approximately 21 years, CDARS have maturities of less than one year, and auction rate securities have remaining maturities of approximately 18 to 32 years. U.S. government and other securities have maturities of approximately one year. The EETC securities have various maturities with the final maturity in 2019.

Table of Contents

The table below presents disclosures about the activity for Level 3 financial assets and financial liabilities (in millions):

Balance at March 31	\$ 96	\$ 59	\$ 584	\$ (352)	\$ 108	\$ 61	\$ 413	\$ (209)

United's debt-related derivatives presented in the tables above relate to (a) supplemental indenture agreements that provide that United's convertible debt is convertible into shares of UAL common stock upon the terms and conditions specified in the indentures, and (b) the embedded conversion options in United's convertible debt that are required to be separated and accounted for as though they are free-standing derivatives as a result of the United debt becoming convertible into the common stock of a different reporting entity. The derivatives described above relate to the 6% Convertible Junior Subordinated Debentures due 2030 and the 4.5% Convertible Notes due 2015. These derivatives are reported in United's separate financial statements and eliminated in consolidation for UAL.

Table of Contents

Derivative instruments and investments presented in the tables above have the same fair value as their carrying value. The table below presents the carrying values and estimated fair values of financial instruments not presented in the tables above (in millions):

	Carrying Amount	Fair Value of Debt by Fair Value Hierarchy Level							
		March 31, 2014				December 31, 2013			
		Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
UAL debt	\$ 11,276	\$ 12,536	\$ 8,684	\$ 3,852	\$ 11,539	\$ 12,695	\$ 8,829	\$ 3,866	
United debt	11,174	12,234	8,382	3,852	11,388	12,249	8,383	3,866	

Quantitative Information About Level 3 Fair Value Measurements (in millions)

Item	Fair Value at March 31, 2014	Valuation Technique	Unobservable Input	Range (Weighted Average)
Auction rate securities	\$ 96	Valuation Service / Broker Quotes	Broker quotes (a)	NA
EETC	59	Discounted Cash Flows	Structure credit risk (b)	4%
Convertible debt	584	Binomial Lattice Model	Expected volatility (c)	40% - 60% (41%)
derivative asset			Own credit risk (d)	5%
Convertible debt	(352)	Binomial Lattice Model	Expected volatility (c)	40% - 60% (42%)
option liability			Own credit risk (d)	5%

(a) Broker quotes obtained by a third-party valuation service.

(b) Represents the credit risk premium of the EETC structure above the risk-free rate that the Company has determined market participants would use when pricing the instruments.

(c) Represents the range in volatility estimates that the Company has determined market participants would use when pricing the instruments.

(d) Represents the range of Company-specific risk adjustments that the Company has determined market participants would use as a model input.

Valuation Processes - Level 3 Measurements - Depending on the instrument, the Company utilizes broker quotes obtained from third-party valuation services, discounted cash flow methods, or option pricing methods, as indicated above. Valuations using discounted cash flow methods are generally conducted by the Company. Valuations using option pricing models are generally provided to the Company by third-party valuation experts. Each reporting period, the Company reviews the unobservable inputs used by third-party valuation experts for reasonableness utilizing relevant information available to the Company from other sources.

The Company uses broker quotes obtained from a valuation service (in replacement of a discounted cash flows method) for valuing auction rate securities. This approach provides the best available information.

Sensitivity Analysis - Level 3 Measurements - Changes in the structure credit risk would be unlikely to cause material changes in the fair value of the EETCs.

The significant unobservable inputs used in the fair value measurement of the United convertible debt derivative assets and liabilities are the expected volatility in UAL common stock and the Company's own credit risk. Significant increases (decreases) in expected stock volatility would result in a higher (lower) fair value measurement. Significant increases (decreases) in the Company's own credit risk would result in a lower (higher) fair value measurement. A change in one of the inputs would not necessarily result in a directionally similar change in the other.

Table of Contents

Fair value of the financial instruments included in the tables above was determined as follows:

Description	Fair Value Methodology
<i>Cash and cash equivalents</i>	The carrying amounts approximate fair value because of the short-term maturity of these assets.
<i>Short-term investments and Restricted cash</i>	Fair value is based on (a) the trading prices of the investment or similar instruments, (b) an income approach, which uses valuation techniques to convert future amounts into a single present amount based on current market expectations about those future amounts when observable trading prices are not available, (c) internally-developed models of the expected future cash flows related to the securities, or (d) broker quotes obtained by third-party valuation services.
<i>Fuel derivatives</i>	Derivative contracts are privately negotiated contracts and are not exchange traded. Fair value measurements are estimated with option pricing models that employ observable inputs. Inputs to the valuation models include contractual terms, market prices, yield curves, fuel price curves and measures of volatility, among others.
<i>Foreign currency derivatives</i>	Fair value is determined with a formula utilizing observable inputs. Significant inputs to the valuation models include contractual terms, risk-free interest rates and forward exchange rates.
<i>Debt</i>	Fair values were based on either market prices or the discounted amount of future cash flows using our current incremental rate of borrowing for similar liabilities.
<i>Convertible debt derivative asset and option liability</i>	United used a binomial lattice model to value the conversion options and the supplemental derivative assets. Significant binomial model inputs that are not objectively determinable include volatility and the Company's credit risk component of the discount rate.

NOTE 7 - HEDGING ACTIVITIES***Fuel Derivatives***

Aircraft fuel has been the Company's single largest operating expense for the last several years. The availability and price of aircraft fuel significantly affects the Company's operations, results of operations, financial position and liquidity. Aircraft fuel prices can fluctuate based on a multitude of factors including market expectations of supply and demand balance, inventory levels, geopolitical events, economic growth expectations, fiscal/monetary policies and financial investment flows. To protect against increases in the prices of aircraft fuel, the Company routinely hedges a portion of its future fuel requirements. As of March 31, 2014, the Company had hedged approximately 22%, 16% and less than 1% of its projected fuel requirements (668 million, 650 million and six million gallons, respectively) for the remainder of 2014, 2015 and 2016, respectively, with commonly used financial hedge instruments based on aircraft fuel or closely related commodities, such as diesel fuel and crude oil. As of March 31, 2014, the Company had fuel hedges expiring through March 2016. The Company does not enter into derivative instruments for non-risk management purposes.

Accounting pronouncements pertaining to derivative instruments and hedging are complex with stringent requirements, including documentation of hedging strategy, statistical analysis to qualify a commodity for hedge accounting both on a historical and a prospective basis, and strict contemporaneous documentation that is required at the time each hedge is designated as a cash flow hedge. As required, the Company assesses the effectiveness of each of its individual hedges on a quarterly basis. The Company also examines the effectiveness of its entire hedging program on a quarterly basis utilizing statistical analysis. This analysis involves utilizing regression and other statistical analyses that compare changes in the price of aircraft fuel to changes in the prices of the commodities used for hedging purposes.

Upon proper qualification, the Company accounts for certain fuel derivative instruments as cash flow hedges. All derivatives designated as hedges that meet certain requirements are granted hedge accounting treatment. The types of instruments the Company utilizes that qualify for special hedge accounting treatment typically include swaps, call options, collars (which consist of a purchased call option and a sold put option) and four-way collars (a collar with a higher strike sold call option and a lower strike purchased put option). Generally, utilizing hedge accounting, all periodic changes in fair value of the derivatives designated as hedges that are considered to be effective are recorded in AOCI until the underlying fuel is consumed and recorded in fuel expense. The Company is exposed to the risk that its hedges may not be effective in offsetting changes in the cost of fuel and that its hedges may not continue to qualify for hedge accounting. Hedge ineffectiveness results when the change in the fair value of the derivative instrument exceeds the change in the value of the Company's expected future cash outlay to purchase and consume fuel. To the extent that the periodic changes in the fair value of the derivatives are not effective, that ineffectiveness is classified as Nonoperating income (expense): Miscellaneous, net in the statements of consolidated operations.

Table of Contents

The Company also utilizes certain derivative instruments that are economic hedges but do not qualify for hedge accounting under U.S. GAAP. As with derivatives that qualify for hedge accounting, the purpose of these economic hedges is to mitigate the adverse financial impact of potential increases in the price of fuel. Currently, the only such economic hedges in the Company's hedging portfolio are three-way collars (a collar with a higher strike sold call option). The Company records changes in the fair value of three-way collars to Nonoperating income (expense): Miscellaneous, net in the statements of consolidated operations.

If the Company terminates a derivative prior to its contractual settlement date, then the cumulative gain or loss recognized in AOCI at the termination date remains in AOCI until the forecasted transaction occurs. In a situation where it becomes probable that a hedged forecasted transaction will not occur, any gains and/or losses that have been recorded to AOCI would be required to be immediately reclassified into earnings. All cash flows associated with purchasing and settling derivatives are classified as operating cash flows in the condensed statements of consolidated cash flows.

The Company records each derivative instrument as a derivative asset or liability (on a gross basis) in its consolidated balance sheets, and, accordingly, records any related collateral on a gross basis. The table below presents the fair value amounts of fuel derivative assets and liabilities and the location of amounts recognized in the Company's financial statements.

The Company's derivatives were reported in its consolidated balance sheets as follows (in millions):

Classification	Balance Sheet Location	March 31, 2014	December 31, 2013
<u>Derivatives designated as cash flow hedges</u>			
<i>Assets:</i>			
Fuel contracts due within one year	Receivables	\$ 9	\$ 19
Fuel contracts with maturities greater than one year	Other assets: Other, net	5	6

Derivative Credit Risk and Fair Value

The Company is exposed to credit losses in the event of nonperformance by counterparties to its derivative instruments. While the Company records derivative instruments on a gross basis, the Company monitors its net derivative position with each counterparty to monitor credit risk. Based on the fair value of our fuel derivative instruments, our counterparties may require us to post collateral when the price of the underlying commodity decreases, and we may require our counterparties to provide us with collateral when the price of the underlying commodity increases. The Company did not post or hold collateral as of March 31, 2014 and December 31, 2013.

We have master trading agreements with all of our fuel hedging counterparties that allow us to net our fuel hedge derivative positions. We have elected not to net the fair value positions recorded on our consolidated balance sheets. The following table shows the potential net fair value positions (including fuel derivatives and related collateral) had we elected to offset. The table reflects offset at the counterparty level (in millions):

	March 31, 2014	December 31, 2013
Receivables	\$ 41	\$ 89
Other assets: Other, net	7	15
Hedge derivatives, net	\$ 48	\$ 104

NOTE 8 - COMMITMENTS AND CONTINGENCIES

Commitments. As of March 31, 2014, United had firm commitments to purchase aircraft from The Boeing Company (Boeing), Embraer S.A. (Embraer) and Airbus S.A.S. (Airbus) presented in the table below:

Aircraft Type	Number of Firm Commitments (a)
Airbus A350-1000	35
Boeing 737-900ER	53
Boeing 737 MAX 9	100
Boeing 787-8/-9/-10	55
Embraer EMB175	29

(a) United also has options and purchase rights for additional aircraft.

The aircraft listed in the table above are scheduled for delivery for the remainder of 2014 through 2025. In the remainder of 2014, United expects to take delivery of 19 Boeing 737-900ER aircraft, two Boeing 787-8 aircraft, two Boeing 787-9 aircraft and 16 Embraer EMB175 aircraft.

Table of Contents

The table below summarizes United's commitments as of March 31, 2014, which primarily relate to the acquisition of aircraft and related spare engines, aircraft improvements and include other commitments primarily to acquire information technology services and assets (in billions):

Last nine months of 2014	\$	2.5
2015		2.8
2016		2.0
2017		1.5
2018		2.1
After 2018		12.5
	\$	23.4

Any incremental firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

As of April 2014, United has arranged for EETC and bank debt financing for all 2014 aircraft deliveries except for eight Embraer EMB175 aircraft. In addition, United has secured backstop financing commitments from certain of its aircraft manufacturers for a limited number of its future aircraft deliveries, subject to certain customary conditions. Financing will be necessary to satisfy the Company's capital commitments for its firm order aircraft and other related capital expenditures. The Company can provide no assurance that any financing not already in place for aircraft and spare engine deliveries will be available to the Company on acceptable terms when necessary or at all. See Note 9 of this report for additional information on aircraft financing.

Guarantees and Off-Balance Sheet Financing

Guarantees. United is the guarantor of approximately \$1.9 billion in aggregate principal amount of tax-exempt special facilities revenue bonds and interest thereon. These bonds, issued by various airport municipalities, are payable solely from rentals paid under long-term agreements with the respective governing bodies. The leasing arrangements associated with \$1.6 billion of these obligations are accounted for as operating leases with the associated expense recorded on a straight-line basis resulting in ratable accrual of the lease obligation over the expected lease term. The leasing arrangements associated with \$269 million of these obligations are accounted for as capital leases. All these bonds are due between 2015 and 2038.

In the Company's financing transactions that include loans, the Company typically agrees to reimburse lenders for any reduced returns with respect to the loans due to any change in capital requirements and, in the case of loans in which the interest rate is based on the London Interbank Offered Rate (LIBOR), for certain other increased costs that the lenders incur in carrying these loans as a result of any change in law, subject in most cases to obligations of the lenders to take certain limited steps to mitigate the requirement for, or the amount of, such increased costs. At March 31, 2014, the Company had \$2.0 billion of floating rate debt and \$264 million of fixed rate debt, with remaining terms of up to twelve years, that are subject to these increased cost provisions. In several financing transactions involving loans or leases from non-U.S. entities, with remaining terms of up to twelve years and an aggregate balance of \$2.2 billion, the Company bears the risk of any change in tax laws that would subject loan or lease payments thereunder to non-U.S. entities to withholding taxes, subject to customary exclusions.

Credit Facilities. On March 27, 2013, United and UAL entered into a Credit and Guaranty Agreement (the Credit Agreement) as the borrower and guarantor, respectively, that provides United with a \$1.0 billion revolving credit facility. As of March 31, 2014, United had its entire capacity of \$1.0 billion available under the revolving credit facility. See Note 9 of this report for more information.

Labor Negotiations. As of March 31, 2014, United had approximately 87,000 active employees, of whom approximately 80% were represented by various labor organizations. We are currently in the process of negotiating amended collective bargaining agreements with our remaining employee groups without joint collective bargaining agreements, including our technicians, flight attendants and dispatchers.

NOTE 9 - DEBT

As of March 31, 2014, a substantial portion of our assets is pledged as collateral for our debt. These assets principally consist of aircraft, route authorities and loyalty program intangible assets. As of March 31, 2014, the Company was in compliance with its debt covenants.

Table of Contents

6% Convertible Senior Notes. During the three months ended March 31, 2014, UAL issued approximately five million additional shares of UAL common stock in exchange for, or upon conversion of, \$46 million in aggregate principal amount of UAL's outstanding 6% convertible senior notes due 2029 held by such securityholders. As of March 31, 2014, the outstanding balance is \$58 million.

8% Notes Due 2024. UAL redeemed in cash at par value all \$400 million aggregate principal amount of its 8% Notes due 2024 on January 17, 2014.

4.5% Senior Limited-Subordination Convertible Notes. In June 2011, UAL repurchased at par value approximately \$570 million of the \$726 million outstanding principal amount of its 4.5% Notes with cash after notes were put to UAL by the noteholders. In the first quarter of 2014, holders of substantially all of the remaining \$156 million outstanding principal amount of the 4.5% Notes exercised their right to convert such notes into approximately five million shares of UAL common stock at a conversion rate of 30.6419 shares of UAL common stock per \$1,000 principal amount of 4.5% Notes.

2013 Credit and Guaranty Agreement. On March 27, 2013, United and UAL entered into the Credit Agreement as the borrower and guarantor, respectively. The Credit Agreement consists of a \$900 million term loan due April 1, 2019 and a \$1.0 billion revolving credit facility available for drawing until April 1, 2018. As of March 31, 2014, United had its entire capacity of \$1.0 billion available under the revolving credit facility. The obligations of United under the Credit Agreement are secured by liens on certain international route authorities between certain specified cities, certain take-off and landing rights and related assets of United. In March 2014, United amended the Credit Agreement to reduce the interest rate payable on the existing \$893 million term loan from LIBOR plus a margin of 3.0% per annum to LIBOR plus a margin of 2.75% per annum, subject to a 0.75% floor. Borrowings under the revolving credit portion of the Credit Agreement bear interest at a variable rate equal to LIBOR, plus a margin of 3.0% per annum, or another rate based on certain market interest rates, plus a margin of 2.0% per annum. The principal amount of the term loan must be repaid in consecutive quarterly installments of 0.25% of the original principal amount thereof, commencing on June 30, 2013, with any unpaid balance due on April 1, 2019. United may prepay all or a portion of the loan from time to time, at par plus accrued and unpaid interest. United pays a commitment fee equal to 0.75% per annum on the undrawn amount available under the revolving credit facility.

The Credit Agreement includes covenants that, among other things, require the Company to maintain at least \$3.0 billion of unrestricted liquidity and a minimum ratio of appraised value of collateral to the outstanding obligations under the Credit Agreement of 1.67 to 1.0, and restrict the Company's ability to incur additional indebtedness, issue preferred stock, make investments, pay dividends or repurchase UAL's common stock. The Credit Agreement contains events of default customary for this type of financing, including a cross default and cross acceleration provision to certain other material indebtedness of the Company.

Table of Contents

EETCs. In April 2014 and August 2013, United created separate EETC pass-through trusts, each of which issued pass-through certificates. The proceeds of the issuance of the pass-through certificates are used to purchase equipment notes issued by United and secured by its aircraft. The Company records the debt obligation upon issuance of the equipment notes rather than upon the initial issuance of the pass-through certificates. The pass-through certificates represent fractional undivided interests in the respective pass-through trusts and are not obligations of United. The payment obligations under the equipment notes are those of United. Proceeds received from the sale of pass-through certificates are initially held by a depository in escrow for the benefit of the certificate holders until United issues equipment notes to the trust, which purchases such notes with a portion of the escrowed funds. These escrowed funds are not guaranteed by United and are not reported as debt on our consolidated balance sheet because the proceeds held by the depository are not United's assets. United expects to receive all proceeds from the 2013 EETC pass-through trusts by the end of 2014. Certain details of the pass-through trusts are as follows (in millions, except interest rate):

EETC Date	Class	Principal	Final expected distribution date	Stated interest rate	Total debt recorded as of March 31, 2014	Proceeds received from issuance of debt in the three months ended March 31, 2014	Remaining proceeds from issuance of debt to be received in future periods
April 2014	A	\$ 736	April 2026	4.0%	\$	\$	\$ 736
April 2014	B	213	April 2022	4.75%			213
August 2013	A	720	August 2025	4.3%	548	395	172
August 2013	B	209	August 2021	5.375%	159	115	50
		\$ 1,878			\$ 707	\$ 510	\$ 1,171

The table below presents contractual principal payments at March 31, 2014 under then-outstanding long-term debt agreements in each of the next five calendar years (in millions):

	UAL	United
Last nine months of 2014	\$ 756	\$ 756
2015	2,102	2,102
2016	1,083	1,083
2017	646	646
2018	1,168	1,168
After 2018	5,682	5,624
	\$ 11,437	\$ 11,379

NOTE 10 - SPECIAL CHARGES

For the three months ended March 31, special charges consisted of the following (in millions):

	2014	2013
Integration-related costs	\$ 34	\$ 70
Severance and benefits	14	14
(Gains) losses on sale of assets and other special (gains) losses, net	4	(3)

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Additional costs associated with the temporarily grounded Boeing 787 aircraft		11
Special charges	52	92
Venezuela foreign exchange loss	21	
Income tax benefit	(1)	
Total operating and nonoperating special charges, net of income taxes	\$ 72	\$ 92

Integration-related costs include compensation costs related to systems integration and training, new uniforms, relocation for employees and severance primarily associated with administrative headcount reductions.

During the three months ended March 31, 2014, the Company recorded \$14 million of severance and benefits. We currently expect to reduce up to 470 airport operations and catering positions at Hopkins International Airport (Cleveland) as a result of the previously announced capacity reductions and an additional 238 airport positions in Canada. In addition, the Company recorded \$4 million of other charges related to asset impairments on certain intangible assets, losses on the sale of assets and other items.

During the three months ended March 31, 2014, the Company recorded \$21 million of losses due to exchange rate changes in Venezuela applicable to funds held in local currency. Approximately \$100 million of the Company's unrestricted cash balance was held as Venezuelan bolivars as of March 31, 2014. The Company is working with Venezuelan authorities regarding the timing of the repatriation of its funds held in local currency.

During the three months ended March 31, 2013, the Company recorded \$14 million associated with a voluntary program offered by United in which flight attendants took an unpaid 13-month leave of absence. The flight attendants continue to receive medical benefits and other company benefits while on leave under this program. Approximately 1,300 flight attendants opted to participate in the program. In addition, the Company recorded \$11 million associated with the temporary grounding of

Table of Contents

its Boeing 787 aircraft. The charges are comprised of aircraft depreciation expense and dedicated personnel costs that the Company continues to incur while the aircraft are grounded. Also, the Company recorded a \$5 million gain related to a contract termination and \$2 million in losses on the sale of assets.

Cleveland Capacity Reduction. In February 2014, the Company announced that it would be reducing its flying from Cleveland in stages beginning in April 2014. The Company will reduce its average daily departures from Cleveland by over 60 percent. The Company is currently evaluating its options regarding its long-term contractual commitments at Cleveland. The capacity reductions at Cleveland may result in special charges, which could be significant, related to our contractual commitments.

Accruals

The accrual for severance and medical costs was \$69 million as of March 31, 2014, compared to \$62 million as of March 31, 2013. The severance-related accrual as of March 31, 2014 is expected to be paid through 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.
Overview

United Continental Holdings, Inc. (together with its consolidated subsidiaries, UAL or the Company) is a holding company and its principal, wholly-owned subsidiary is United Airlines, Inc. (together with its consolidated subsidiaries, United). This Quarterly Report on Form 10-Q is a combined report of UAL and United including their respective consolidated financial statements. As UAL consolidates United for financial statement purposes, disclosures that relate to activities of United also apply to UAL, unless otherwise noted. United's operating revenues and operating expenses comprise nearly 100% of UAL's revenues and operating expenses. In addition, United comprises approximately the entire balance of UAL's assets, liabilities and operating cash flows. When appropriate, UAL and United are named specifically for their individual contractual obligations and related disclosures and any significant differences between the operations and results of UAL and United are separately disclosed and explained. We sometimes use the words we, our, us, and the Company in this report for disclosures that relate to all of UAL and United.

The Company transports people and cargo through its mainline operations, which utilize jet aircraft with at least 118 seats, and regional operations, which utilize smaller aircraft that are operated under contract by United Express carriers. The Company serves virtually every major market around the world, either directly or through participation in Star Alliance®, the world's largest airline alliance. The Company operates an average of more than 5,300 flights a day to more than 360 airports across six continents.

First Quarter Financial Highlights

First quarter 2014 net loss was \$489 million, or \$1.33 diluted loss per share, excluding \$72 million of operating and nonoperating special charges, and excluding \$26 million of mark-to-market losses from fuel hedges settling in future periods and adjusting for \$22 million of prior period gains on fuel contracts settled in the current period (combined, Economic Hedge Adjustments). Unadjusted first quarter 2014 net loss was \$609 million, or \$1.66 diluted loss per share.

Passenger revenue decreased 2.3% to \$7.4 billion during the first quarter of 2014 as compared to the first quarter of 2013.

First quarter 2014 aircraft fuel cost decreased 4.4% year-over-year due mainly to a 3.6% decline in fuel prices.

Unrestricted liquidity was \$6.0 billion, including \$1.0 billion of undrawn commitments.

First Quarter Operational Highlights

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

For the quarter ended March 31, 2014, United recorded a U.S. Department of Transportation on-time arrival rate of 73.7% and a system completion factor of 97.2%.

Consolidated traffic and capacity both decreased 0.3% during the first quarter of 2014 as compared to the first quarter of 2013. The Company's load factor for the first quarter of 2014 was 81.1%.

The Company took delivery of 10 Boeing 737-900ER aircraft, two Boeing 787-8 aircraft and one Embraer EMB175 aircraft during the first quarter of 2014.

The Company's operations were significantly impacted by winter storms in the first quarter of 2014, and in total UAL canceled approximately 35,000 flights, of which approximately 30,000 were regional flights. Weather-driven cancellations reduced year-over-year capacity by approximately two percentage points in the quarter.

Table of Contents**Outlook**

In order to generate sustained profitability over the business cycle, the Company manages its capacity to balance with expected demand for travel. The Company expects full-year 2014 consolidated capacity to grow between 0.5% to 1.5% year-over-year. The Company expects full year 2014 cost per available seat mile (CASM) excluding profit sharing, third-party business expense, fuel and special charges to increase 1% to 2% year-over-year.

Over the past three years, the Company leveraged the flexibility of its combined fleet to better match capacity with market demand. United expanded its industry-leading global route network, launching nonstop flights from San Francisco to Taipei, Taiwan. The Company also announced new nonstop international flights beginning later this year to Aruba; Santiago, Dominican Republic; Nassau, Bahamas; and the airline's first scheduled international route using the new Boeing 787-9 Dreamliner from Los Angeles to Melbourne, Australia. Should fuel prices increase significantly or should the U.S. or global economic growth outlook decline substantially, we would likely adjust our capacity plans to reflect the different operating environment.

RESULTS OF OPERATIONS

The following discussion provides an analysis of results of operations and reasons for material changes therein for the three months ended March 31, 2014 as compared to the corresponding period in 2013.

First Quarter 2014 Compared to First Quarter 2013

The Company recorded net loss of \$609 million in the first quarter of 2014 as compared to net loss of \$417 million in the first quarter of 2013. Excluding operating and nonoperating special charges and with Economic Hedge Adjustments, the Company had net loss of \$489 million in the first quarter of 2014 as compared to net loss of \$358 million in the first quarter of 2013. See "Reconciliation of GAAP to non-GAAP Financial Measures" at the end of this item for additional information related to accounting principles generally accepted in the United States (GAAP) to non-GAAP financial measures. We consider a key measure of our performance to be operating income, which was a loss of \$349 million for the first quarter of 2014, as compared to a loss of \$264 million for the first quarter of 2013. Significant components of our operating results for the three months ended March 31 are as follows (in millions, except percentage changes):

	2014	2013	Increase (Decrease)	% Increase (Decrease)
Operating revenue	\$ 8,696	\$ 8,721	\$ (25)	(0.3)
Operating expense	9,045	8,985	60	0.7
Operating loss	(349)	(264)	85	32.2
Nonoperating expense	(257)	(162)	95	58.6
Income tax expense (benefit)	3	(9)	12	NM
Net loss	\$ (609)	\$ (417)	\$ 192	46.0

NM - Not meaningful

Table of Contents

Certain consolidated statistical information for the Company's operations for the three months ended March 31 are as follows:

	2014	2013	Increase (Decrease)	% Increase (Decrease)
Passengers (thousands) (a)	31,900	32,355	(455)	(1.4)
Revenue passenger miles (RPMs) (millions) (b)	46,383	46,544	(161)	(0.3)
Available seat miles (ASMs) (millions) (c)	57,216	57,372	(156)	(0.3)
Passenger load factor (d)	81.1 %	81.1 %		
Passenger revenue per available seat mile (PRASM) (cents)	12.91	13.18	(0.27)	(2.0)
Average yield per revenue passenger mile (cents) (e)	15.92	16.24	(0.32)	(2.0)
CASM (cents)	15.81	15.66	0.15	1.0
Average price per gallon of fuel, including fuel taxes	\$ 3.18	\$ 3.30	\$ (0.12)	(3.6)
Fuel gallons consumed (millions)	916	924	(8)	(0.9)
Average full-time equivalent employees	83,200	84,300	(1,100)	(1.3)

(a) The number of revenue passengers measured by each flight segment flown.

(b) The number of scheduled miles flown by revenue passengers.

(c) The number of seats available for passengers multiplied by the number of scheduled miles those seats are flown.

(d) Revenue passenger miles divided by available seat miles.

(e) The average passenger revenue received for each revenue passenger mile flown.

Operating Revenue

The table below shows year-over-year comparisons by type of operating revenue for the three months ended March 31 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Passenger Mainline	\$ 5,848	\$ 5,938	\$ (90)	(1.5)
Passenger Regional	1,536	1,621	(85)	(5.2)
Total passenger revenue	7,384	7,559	(175)	(2.3)
Cargo	209	227	(18)	(7.9)
Other operating revenue	1,103	935	168	18.0
	\$ 8,696	\$ 8,721	\$ (25)	(0.3)

The table below presents selected passenger revenue and operating data, broken out by geographic region, expressed as first quarter year-over-year changes:

Domestic	Pacific	Atlantic	Latin	Total Mainline	Regional	Consolidated
----------	---------	----------	-------	-------------------	----------	--------------

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Increase (decrease) from 2013 (a):

Passenger revenue (in millions)	\$ 7	\$ (57)	\$ (22)	\$ (18)	\$ (90)	\$ (85)	\$ (175)
Passenger revenue	0.2 %	(5.0) %	(1.9) %	(2.6) %	(1.5) %	(5.2) %	(2.3) %
Average fare per passenger	2.1 %	(3.0) %	0.6 %	(6.9) %	(0.4) %	(3.4) %	(0.9) %
Yield	0.3 %	(4.0) %	0.4 %	(3.6) %	(1.0) %	(6.0) %	(2.0) %
PRASM	1.4 %	(6.3) %	(3.4) %	(1.7) %	(1.5) %	(3.5) %	(2.0) %
Average stage length	2.7 %	1.2 %	0.1 %	(2.4) %	2.3 %	3.2 %	2.9 %
Passengers	(1.8) %	(2.1) %	(2.4) %	4.7 %	(1.2) %	(1.9) %	(1.4) %
RPMs (traffic)	(0.1) %	(1.0) %	(2.2) %	1.1 %	(0.5) %	0.8 %	(0.3) %
ASMs (capacity)	(1.0) %	1.4 %	1.5 %	(0.9) %	%	(1.8) %	(0.3) %
Passenger load factor (points)	0.8	(1.9)	(2.8)	1.6	(0.4)	2.1	

(a) See Item 6 of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for the definition of these statistics.

Consolidated passenger revenue in the first quarter of 2014 decreased 2.3% as compared to the year-ago period due to a decrease in consolidated yield of 2.0% year-over-year, a decline of 0.3% in traffic and a reduction in capacity of 0.3% year-over-year. Weather-related cancellations, particularly those of flights operated by our regional partners, were the main reason behind the reduced capacity and resulted in reduced first quarter 2014 consolidated PRASM by approximately 1.5 percentage points.

Table of Contents

Cargo revenue decreased \$18 million, or 7.9%, in the first quarter of 2014 as compared to the year-ago period due to lower yield on freight, primarily in the Domestic region, partially offset by overall higher freight volumes and an improvement in mail revenue versus the year-ago period.

Other operating revenue in the first quarter of 2014 increased \$168 million, or 18.0%, as compared to the year-ago period due primarily to the sale of aircraft fuel to a third party and an increase in MileagePlus and other ancillary revenue.

Operating Expenses

The table below includes data related to the Company's operating expenses for the three months ended March 31 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Aircraft fuel	\$ 2,917	\$ 3,050	\$ (133)	(4.4)
Salaries and related costs	2,153	2,127	26	1.2
Regional capacity purchase	559	588	(29)	(4.9)
Landing fees and other rent	572	497	75	15.1
Aircraft maintenance materials and outside repairs	458	438	20	4.6
Depreciation and amortization	409	408	1	0.2
Distribution expenses	318	328	(10)	(3.0)
Aircraft rent	224	240	(16)	(6.7)
Special charges	52	92	(40)	NM
Other operating expenses	1,383	1,217	166	13.6
	\$ 9,045	\$ 8,985	\$ 60	0.7

Aircraft fuel expense decreased \$133 million, or 4.4%, year-over-year primarily due to a 3.6% decrease in the average price per gallon of aircraft fuel and a 0.9% decrease in fuel consumption in the first quarter of 2014 compared to the year-ago period. The table below presents the significant changes in aircraft fuel cost per gallon in the three month period ended March 31, 2014 as compared to the year-ago period:

	(In millions)			Average price per gallon		
	2014	2013	% Change	2014	2013	% Change
Total aircraft fuel purchase cost excluding fuel hedge impacts	\$ 2,914	\$ 3,041	(4.2)	\$ 3.18	\$ 3.29	(3.3)
Hedge losses reported in fuel expense	(3)	(9)	NM		(0.01)	NM
Fuel expense as reported	2,917	3,050	(4.4)	3.18	3.30	(3.6)
Cash received on settled hedges that do not qualify for hedge accounting (a)	7	17	NM		0.02	NM
Fuel expense including all gains (losses) from cash-settled hedges	\$ 2,910	\$ 3,033	(4.1)	\$ 3.18	\$ 3.28	(3.0)
Total fuel consumption (gallons)	916	924	(0.9)			

(a) Includes ineffectiveness gains (losses) on cash-settled hedges and gains (losses) on cash-settled hedges that were not designated for hedge accounting.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Salaries and related costs increased \$26 million, or 1.2%, in the first quarter of 2014 as compared to the year-ago period primarily due to higher pay rates driven by new collective bargaining agreements, partially offset by lower benefit and incentive costs.

Regional capacity purchase expense decreased \$29 million, or 4.9%, in the first quarter of 2014 as compared to the year-ago period primarily due to a transition from paying regional carriers for landing fees to paying airports directly. Landing fees paid directly to airports are charged to Landing fees and other rent while payments to regional carriers are recorded to Regional capacity purchase. As a result of this change, there has been a significant shift of expense out of Regional capacity purchase

Table of Contents

into Landing fees and other rent in the first quarter of 2014 versus the year-ago period. Regional capacity expense also decreased due to a significant number of weather-driven flight cancellations in the first quarter of 2014. These benefits were partially offset by higher rates primarily due to annual escalation and higher aircraft ownership expenses related to an increase in the number of aircraft flying under capacity purchase agreements versus the year-ago period.

Landing fees and other rent increased \$75 million, or 15.1%, in the first quarter of 2014 as compared to the year-ago period primarily due to a transition from paying regional carriers for landing fees to paying airports directly. Landing fees also increased due to increased airport safety and modernization services at certain airports.

Aircraft maintenance materials and outside repairs increased \$20 million, or 4.6%, in the first quarter of 2014 as compared to the year-ago period primarily due to increased airframe maintenance visits on certain fleets offset partially by one-time maintenance credits and reduced engine flying hours and engine maintenance visits on certain fleets versus the year-ago period.

Aircraft rent decreased \$16 million, or 6.7%, in the first quarter of 2014 as compared to the year-ago period primarily due to aircraft lease expirations and terminations of certain leases resulting from the Company's purchase of the leased aircraft.

Other operating expenses increased \$166 million, or 13.6%, in the first quarter of 2014 as compared to the year-ago period primarily due to the cost of aircraft fuel sold to a third party, advertising expenses and an increase in other personnel-related expenses and purchased services.

Details of the Company's special charges include the following for the three months ended March 31 (in millions):

	2014	2013
Integration-related costs	\$ 34	\$ 70
Severance and benefits	14	14
(Gains) losses on sale of assets and other special (gains) losses, net	4	(3)
Additional costs associated with the temporarily grounded Boeing 787 aircraft		11
Special charges	\$ 52	\$ 92

See Note 10 to the financial statements included in Part I, Item 1 of this report for additional information.

Nonoperating Income (Expense). The following table illustrates the year-over-year dollar and percentage changes in the Company's nonoperating income (expense) for the three months ended March 31 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Interest expense	\$ (187)	\$ (201)	\$ (14)	(7.0)
Interest capitalized	14	11	3	27.3
Interest income	5	5		
Miscellaneous, net	(89)	23	(112)	NM
Total	\$ (257)	\$ (162)	\$ 95	58.6

Interest expense decreased \$14 million, or 7.0%, in the first quarter of 2014, compared to the year-ago period primarily due to a decrease in debt outstanding during the first quarter of 2014 as compared to debt outstanding during the year-ago period.

During the first quarter of 2014, Miscellaneous, net included losses of \$40 million from derivatives not qualifying for hedge accounting as compared to gains of \$50 million in the year-ago period. In addition, Miscellaneous, net also included \$21 million of losses due to the recent exchange rate changes implemented in Venezuela applicable to funds held in local currency.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Income Taxes. Our effective tax rates are lower than the federal statutory rate of 35% primarily because of the impact of changes to existing valuation allowances. We continue to provide a valuation allowance for our deferred tax assets in excess of deferred tax liabilities because management has concluded that it is more likely than not that such deferred tax assets will ultimately not be realized. See Note 4 to the financial statements included in Part I, Item 1 of this report.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES*****Current Liquidity***

As of March 31, 2014, the Company had \$5.0 billion in unrestricted cash, cash equivalents and short-term investments, as compared to \$5.1 billion at December 31, 2013. At March 31, 2014, the Company also had \$389 million of restricted cash and cash equivalents, which is primarily collateral for performance bonds, letters of credit, estimated future workers' compensation claims and credit card processing agreements. As of March 31, 2014, the Company had its entire commitment capacity of \$1.0 billion under the Company's Credit and Guaranty Agreement, dated as of March 27, 2013 (the "Credit Agreement"), available for letters of credit or borrowings.

Approximately \$100 million of the Company's unrestricted cash balance was held as Venezuelan bolivars as of March 31, 2014. The Company is working with Venezuelan authorities regarding the timing of the repatriation of its funds held in local currency.

As is the case with many of our principal competitors, we have a high proportion of debt compared to capital. We have a significant amount of fixed obligations, including debt, aircraft leases and financings, leases of airport property and other facilities, and pension funding obligations. At March 31, 2014, the Company had approximately \$12.1 billion of debt and capital lease obligations, including \$1.3 billion that will become due in the next 12 months. In addition, we have substantial non-cancelable commitments for capital expenditures, including the acquisition of new aircraft and related spare engines.

The Company will continue to evaluate opportunities to repurchase its debt in open market transactions to reduce its indebtedness and the amount of interest paid on its indebtedness.

As of March 31, 2014, United had firm commitments and options to purchase aircraft from The Boeing Company ("Boeing"), Embraer S.A. ("Embraer") and Airbus S.A.S. ("Airbus") presented in the table below:

Aircraft Type	Number of Firm Commitments (a)
Airbus A350-1000	35
Boeing 737-900ER	53
Boeing 737 MAX 9	100
Boeing 787-8/-9/-10	55
Embraer EMB175	29

(a) United also has options and purchase rights for additional aircraft.

The aircraft listed in the table above are scheduled for delivery for the remainder of 2014 through 2025. In the remainder of 2014, United expects to take delivery of 19 Boeing 737-900ER aircraft, two Boeing 787-8 aircraft, two Boeing 787-9 aircraft and 16 Embraer EMB175 aircraft.

As of April 2014, United has arranged for EETC and bank debt financing for all 2014 aircraft deliveries except for eight Embraer EMB175 aircraft. In addition, United has secured backstop financing commitments from certain of its aircraft manufacturers for a limited number of its future aircraft deliveries, subject to certain customary conditions. Financing will be necessary to satisfy the Company's capital commitments for its firm order aircraft and other related capital expenditures. The Company can provide no assurance that any financing not already in place for aircraft and spare engine deliveries will be available to the Company on acceptable terms when necessary or at all. See Note 9 to the financial statements included in Part I, Item 1 of this report for additional information on aircraft financing.

As of March 31, 2014, UAL and United have total capital commitments primarily related to the acquisition of aircraft and related spare engines, aircraft improvements and acquisition of information technology services and assets of approximately \$23.4 billion, of which approximately \$2.5 billion, \$2.8 billion, \$2.0 billion, \$1.5 billion, \$2.1 billion and \$12.5 billion are due in the last nine months of 2014 and for the full year for 2015, 2016, 2017, 2018 and thereafter, respectively.

Any incremental firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

As of March 31, 2014, a substantial portion of the Company's assets, principally aircraft, route authorities and certain other intangible assets, were pledged under various loan and other agreements. We must sustain our profitability and/or access the capital markets to meet our significant long-term debt and capital lease obligations and future commitments for capital expenditures, including the acquisition of aircraft and related spare engines.

Table of Contents

Credit Ratings. As of the filing date of this report, UAL and United had the following corporate credit ratings:

	S&P	Moody's	Fitch
UAL	B	B2	B
United	B	*	B

* The credit agency does not issue corporate credit ratings for subsidiary entities.

These credit ratings are below investment grade levels. Downgrades from these rating levels, among other things, could restrict the availability or increase the cost of future financing for the Company.

Sources and Uses of Cash

Operating Activities. Cash flow provided by operations for the three months ended March 31, 2014 was \$694 million compared to \$393 million in the same period in 2013. The increase is attributable to an increase in advance ticket sales partially offset by an increase in operating loss.

Investing Activities. Capital expenditures were \$364 million and \$375 million in the three months ended March 31, 2014 and 2013, respectively. Capital expenditures for the three months ended March 31, 2014 were primarily attributable to the purchase of aircraft, facility and fleet-related costs.

In addition to capital expenditures during the three months ended March 31, 2014, we acquired 13 aircraft through the issuance of debt. See Financing Activities below for additional information.

Financing Activities. During the three months ended March 31, 2014, the Company made debt and capital lease payments of \$0.6 billion.

During the three months ended March 31, 2014, UAL issued approximately five million additional shares of UAL common stock in exchange for, or upon conversion of, \$46 million in aggregate principal amount of UAL's outstanding 6% convertible senior notes due 2029 held by such securityholders.

UAL redeemed in cash at par value all \$400 million aggregate principal amount of its 8% Notes due 2024 on January 17, 2014.

On January 10, 2014, UAL called the 4.5% Senior Limited-Subordination Convertible Notes due 2021 (the 4.5% Notes) that remained outstanding for redemption on February 10, 2014. In the first quarter of 2014, holders of substantially all of the remaining \$156 million outstanding principal amount of the 4.5% Notes exercised their right to convert such notes into approximately five million shares of UAL common stock at a conversion rate of 30.6419 shares of UAL common stock per \$1,000 principal amount of 4.5% Notes.

On March 27, 2013, United and UAL entered into the Credit Agreement as the borrower and guarantor, respectively. The Credit Agreement consists of a \$900 million term loan due April 1, 2019 and a \$1.0 billion revolving credit facility available for drawing until April 1, 2018. As of March 31, 2014, United had its entire capacity of \$1.0 billion available under the revolving credit facility. The obligations of United under the Credit Agreement are secured by liens on certain international route authorities between certain specified cities, certain take-off and landing rights and related assets of United. In March 2014, United amended the Credit Agreement to reduce the interest rate payable on the existing \$893 million term loan from LIBOR plus a margin of 3.0% per annum to LIBOR plus a margin of 2.75% per annum, subject to a 0.75% floor. Borrowings under the revolving credit portion of the Credit Agreement bear interest at a variable rate equal to LIBOR, plus a margin of 3.0% per annum, or another rate based on certain market interest rates, plus a margin of 2.0% per annum. The principal amount of the term loan must be repaid in consecutive quarterly installments of 0.25% of the original principal amount thereof, commencing on June 30, 2013, with any unpaid balance due on April 1, 2019. United may prepay all or a portion of the loan from time to time, at par plus accrued and unpaid interest. United pays a commitment fee equal to 0.75% per annum on the undrawn amount available under the revolving credit facility. Certain covenants in the Credit Agreement and in the Company's indentures are summarized in Note 9 to the financial statements included in Part I, Item 1 of this report.

Table of Contents

EETCs. In April 2014 and August 2013, United created separate EETC pass-through trusts, each of which issued pass-through certificates. The proceeds of the issuance of the pass-through certificates are used to purchase equipment notes issued by United and secured by its aircraft. The Company records the debt obligation upon issuance of the equipment notes rather than upon the initial issuance of the pass-through certificates. The pass-through certificates represent fractional undivided interests in the respective pass-through trusts and are not obligations of United. The payment obligations under the equipment notes are those of United. Proceeds received from the sale of pass-through certificates are initially held by a depository in escrow for the benefit of the certificate holders until United issues equipment notes to the trust, which purchases such notes with a portion of the escrowed funds. These escrowed funds are not guaranteed by United and are not reported as debt on our consolidated balance sheet because the proceeds held by the depository are not United's assets. United expects to receive all proceeds from the 2013 EETC pass-through trusts by the end of 2014. Certain details of the pass-through trusts are as follows (in millions, except interest rate):

EETC Date	Class	Principal	Final expected distribution date	Stated interest rate	Total debt recorded as of March 31, 2014	Proceeds received from issuance of debt in the three months ended March 31, 2014	Remaining proceeds from issuance of debt to be received in future periods
April 2014	A	\$ 736	April 2026	4.0%	\$	\$	\$ 736
April 2014	B	213	April 2022	4.75%			213
August 2013	A	720	August 2025	4.3%	548	395	172
August 2013	B	209	August 2021	5.375%	159	115	50
		\$ 1,878			\$ 707	\$ 510	\$ 1,171

Commitments, Contingencies and Liquidity Matters

As described in the 2013 Annual Report, the Company's liquidity may be adversely impacted by a variety of factors, including, but not limited to, obligations associated with fuel hedge settlements and related collateral requirements, pension funding obligations, reserve requirements associated with credit card processing agreements, guarantees, commitments and contingencies. See the 2013 Annual Report and Notes 5, 7, 8 and 9 to the financial statements contained in Part I, Item 1 of this report for information related to these matters.

RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES

The Company evaluates its financial performance utilizing various GAAP and non-GAAP financial measures, including net income/loss and net earnings/loss per share. The non-GAAP financial measures in this report are presented because they provide management and investors the ability to measure and monitor the Company's performance on a consistent basis. The Company believes that adjusting for operating and nonoperating special charges is useful to investors because they are nonrecurring charges not indicative of UAL's ongoing performance. In addition, the Company believes that reflecting Economic Hedge Adjustments is useful because the adjustments allow investors to better understand the cash impact of settled hedges in a given period. A reconciliation of net loss and diluted loss per share to the non-GAAP financial measures of net loss and diluted loss per share, excluding operating and nonoperating special charges and reflecting Economic Hedge Adjustments, for the three months ended March 31 is as follows (in millions, except per share amounts):

	Net Loss 2014	Three Months Ended March 31, Diluted Loss per Share 2014	Net Loss 2013	Diluted Loss per Share 2013
Net loss - GAAP	\$ (609)	\$ (1.66)	\$ (417)	\$ (1.26)
Operating and nonoperating special charges, net (a)	72	0.20	92	0.28

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Mark-to-market (gains) losses from fuel hedges settling in future periods	26	0.07	(48)	(0.14)
Prior period gains on fuel contracts settled in the current period	22	0.06	15	0.04
Net loss excluding operating and nonoperating special charges, net and reflecting Economic Hedge Adjustments - non-GAAP	\$ (489)	\$ (1.33)	\$ (358)	\$ (1.08)

(a) See Note 10 to the financial statements included in Part I, Item 1 of this report for additional information related to operating and nonoperating special charges, net.

CRITICAL ACCOUNTING POLICIES

See Critical Accounting Policies in Management's Discussion and Analysis of Financial Condition and Results of Operations in the 2013 Annual Report for a discussion of the Company's critical accounting policies. See Note 1 to the financial statements included in Part I, Item 1 of this report for a discussion of changes in accounting for revenue for the Company's loyalty program.

FORWARD-LOOKING INFORMATION

Certain statements throughout Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report are forward-looking and thus reflect our current expectations and beliefs with respect to certain current and future events and financial performance. Such forward-looking statements are and will be subject to many risks and uncertainties relating to our operations and business environment that may cause actual results to differ materially from any future results expressed or implied in such forward-looking statements. Words such as expects, will, plans, anticipates, indicates, believes, forecast, guidance, outlook and similar expressions are intended to identify forward-looking statements.

Additionally, forward-looking statements include statements that do not relate solely to historical facts, such as statements which identify uncertainties or trends, discuss the possible future effects of current known trends or uncertainties, or which indicate that the future effects of known trends or uncertainties cannot be predicted, guaranteed or assured. All forward-looking statements in this report are based upon information available to us on the date of this report. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as required by applicable law.

The Company's actual results could differ materially from these forward-looking statements due to numerous factors including, without limitation, the following: its ability to comply with the terms of its various financing arrangements; the costs and availability of financing; its ability to maintain adequate liquidity; its ability to execute its operational plans and revenue-generating initiatives, including optimizing its revenue; its ability to control its costs, including realizing benefits from its resource optimization efforts, cost reduction initiatives and fleet replacement programs; its ability to utilize its net operating losses; its ability to attract and retain customers; demand for transportation in the markets in which it operates; an outbreak of a disease that affects travel demand or travel behavior; demand for travel and the impact that global economic conditions have on customer travel patterns; excessive taxation and the inability to offset future taxable income; general economic conditions (including interest rates, foreign currency exchange rates, investment or credit market conditions, crude oil prices, costs of aircraft fuel and energy refining capacity in relevant markets); economic and political instability and other risks of doing business globally; its ability to cost-effectively hedge against increases in the price of aircraft fuel; any potential realized or unrealized gains or losses related to fuel or currency hedging programs; the effects of any hostilities, act of war or terrorist attack; the ability of other air carriers with whom the Company has alliances or partnerships to provide the services contemplated by the respective arrangements with such carriers; disruptions to its regional network; the costs and availability of aviation and other insurance; industry consolidation or changes in airline alliances; competitive pressures on pricing and on demand; its capacity decisions and the capacity decisions of its competitors; U.S. or foreign governmental legislation, regulation and other actions (including open skies agreements and environmental regulations); labor costs; its ability to maintain satisfactory labor relations and the results of the collective bargaining agreement process with its union groups; any disruptions to operations due to any potential actions by its labor groups; weather conditions; the possibility that expected merger synergies will not be realized or will not be realized within the expected time period; and other risks and uncertainties set forth under Part I, Item 1A., Risk Factors of the 2013 Annual Report and Part II, Item 1A., Risk Factors of this report, as well as other risks and uncertainties set forth from time to time in the reports the Company files with the U.S. Securities and Exchange Commission (the SEC).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in market risk from the information provided in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk in our 2013 Annual Report except as follows:

Aircraft Fuel. As of March 31, 2014, the Company had hedged approximately 22%, 16% and less than 1% of its projected fuel requirements (668 million, 650 million and six million gallons, respectively) for the remainder of 2014, 2015 and 2016, respectively, with commonly used financial hedge instruments based on aircraft fuel or closely related commodities, such as diesel fuel and crude oil. As of March 31, 2014, the Company had fuel hedges expiring through March 2016.

At March 31, 2014, fuel derivatives were in a net asset position of \$48 million. See Note 7 to the financial statements included in Part I, Item 1 of this report for additional information related to fuel hedges.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Control and Procedures

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

The Company maintains controls and procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted to the SEC is recorded, processed, summarized and reported, within the time periods specified by the SEC's rules and forms, and is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. The Company's management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation to conclude with reasonable assurance that UAL's and United's disclosure controls and procedures were designed and operating effectively to report the information each company is required to disclose in the reports they file with the SEC on a timely basis. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer of UAL and United have concluded that as of March 31, 2014, disclosure controls and procedures of each of UAL and United were effective.

Table of Contents

Changes in Internal Control over Financial Reporting during the Quarter Ended March 31, 2014

During the three months ended March 31, 2014, there were no changes in UAL's or United's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, their internal control over financial reporting (as defined in rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934).

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

See Part I, Item 3., Legal Proceedings of the 2013 Annual Report for a description of legal proceedings.

ITEM 1A. RISK FACTORS.

See Part I, Item 1A., Risk Factors, of the 2013 Annual Report for a detailed discussion of the risk factors affecting UAL and United. The disclosure below includes updates to certain risk factor disclosures included in the 2013 Annual Report, which are in addition to, and not in lieu of, those disclosures contained in the 2013 Annual Report.

The Company is subject to economic and political instability and other risks of doing business globally.

The Company is a global business with operations outside of the United States from which it derives approximately 40% of its operating revenues, as measured and reported in the 2013 Annual Report. The Company's operations in Asia, Europe, Latin America, Africa and the Middle East are a vital part of its worldwide airline network. Volatile economic, political and market conditions in these international regions may have a negative impact on the Company's operating results and its ability to achieve its business objectives. In addition, significant or volatile changes in exchange rates between the U.S. dollar and other currencies, and the imposition of exchange controls or other currency restrictions, may have a material adverse impact upon the Company's liquidity, revenues, costs and operating results.

Most recently, economic instability in Venezuela resulting in exchange rate changes that apply to the Company's funds held in Venezuelan bolivars have caused the Company to record \$21 million of foreign exchange losses during the three months ended March 31, 2014. In addition, the Company has approximately \$100 million of its unrestricted cash balance held in Venezuelan bolivars as of March 31, 2014. The Company has not been able to repatriate its funds from Venezuela since January 2013, and there can be no assurance that the Company will be able to repatriate any or all of the funds held in Venezuelan bolivars in the future. Additionally, the amount and exchange rate at which the balance of funds will be repatriated are not certain at this time. If economic instability and devaluation of the local currency continue for a period of time in Venezuela, such conditions may have an adverse impact on the Company's business.

Disruptions to the Company's regional network and United Express flights provided by third-party regional carriers could adversely affect the Company's operations and financial condition.

The Company has contractual relationships with various regional carriers to provide regional jet and turboprop service branded as United Express. These regional operations are an extension of the Company's mainline network and complement the Company's operations by carrying traffic that connects to mainline service and allows flights to smaller cities that cannot be provided economically with mainline aircraft. The Company's business and operations are dependent on its regional flight network, with regional flights accounting for approximately 13% of the Company's total capacity as of March 31, 2014.

Although the Company has agreements with its regional carriers that include contractually agreed performance metrics, the Company does not control the operations of these carriers. A number of factors may impact the Company's regional network, including weather-related effects and seasonality. In addition, the recent decrease in qualified pilots driven by new federal regulations has adversely impacted and could continue to affect the Company's regional flying. For example, the Federal Aviation Administration (the FAA) expansion of new minimum pilot qualification standards, including a requirement that a pilot have at least 1,500 total flight hours, as well as the FAA's recent revised pilot flight and duty time rules, effective January 2014, have contributed to an increasing need for pilots for regional carriers. The decrease in qualified pilots resulting from the new regulations as well as factors including a decreased student pilot population and a shrinking U.S. military from which to hire qualified pilots, could adversely impact the Company's operations and financial condition, and also require the Company to reduce regional partner flying.

If a significant disruption occurs to the Company's regional network or flights or the regional carriers with which the Company has relationships are unable to perform their obligations over an extended period of time, there could be a material adverse effect on the Company's business, financial condition and operations.

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

The following table presents repurchases of UAL common stock made in the first quarter of fiscal year 2014:

Period	Total number of shares purchased (a)	Average price paid per share	Total number of shares purchased as part of publicity announced	Maximum number of shares (or approximate dollar value) of shares that may yet be purchased under the plans or programs
01/01/14-01/31/14		\$		(b)
02/01/14-02/28/14	187,139	46.22		(b)
03/01/14-03/31/14				(b)
Total	187,139	46.22		

(a) Shares withheld from employees to satisfy certain tax obligations due upon the vesting of restricted stock.

(b) The United Continental Holdings, Inc. 2008 Incentive Compensation Plan provides for the withholding of shares to satisfy tax obligations due upon the vesting of restricted stock or restricted stock units. However, this plan does not specify a maximum number of shares that may be repurchased.

ITEM 6. EXHIBITS.

A list of exhibits included as part of this Form 10-Q is set forth in an Exhibit Index that immediately precedes the exhibits.
