## Edgar Filing: Prudential Global Short Duration High Yield Fund, Inc. - Form N-Q

Various inputs are used in determining the value of the Portfolio's investments. These inputs are summarized in the three broad levels listed below.

Level 1 - quoted prices generally in active markets for identical securities.

Level 2 - other significant observable inputs including, but not limited to, quoted prices for similar securities, interest rates and yield curves, prepayment speeds, foreign currency exchange rates, and amortized cost.

Level 3 - significant unobservable inputs for securities valued in accordance with Board approved fair valuation procedures.

The following is a summary of the inputs used as of April 30, 2014 in valuing such portfolio securities:

	Level 1	Level 2	Level 3
<b>Investments in Securities</b>			
Bank Loans	\$	\$ 83,081,155	\$ 14,325,954
Corporate Bonds		537,666,521	1,096,051
Foreign Bonds		439,749,507	
Affiliated Money Market Mutual Fund	18,147,506		
<b>Other Financial Instruments*</b>			
Forward Foreign Currency Exchange Contracts		(3,399,153)	
<b>Total</b>	\$ 18,147,506	\$ 1,057,098,030	\$ 15,422,005

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Bank Loans	Corporate Bonds	Foreign Bonds
<b>Balance as of 7/31/13</b>	\$ 2,993,078	\$	\$ 1,596,424
Realized gain (loss)	150,703		
Change in unrealized appreciation (depreciation)**	1,047,206	(22,163)	
Purchases	11,312,860		
Sales	(2,884,589)		
Accrued discount/premium	3,509		
Transfers into Level 3	1,703,187	1,118,214	
Transfers out of Level 3			(1,596,424)
<b>Balance as of 4/30/14</b>	\$ 14,325,954	\$ 1,096,051	\$

\* Other financial instruments are derivative instruments not reflected in the Schedule of Investments, such as futures, forwards and swaps contracts, which are recorded at the unrealized appreciation/depreciation of the instrument.

\*\* Of which, \$1,025,043 was included in Net Assets relating to securities held at the reporting period end.

It is the Portfolio's policy to recognize transfers in and transfers out at the fair value as of the beginning of period. At the reporting period end, there was one Foreign Bond transferred out of Level 3 as a result of being priced by a vendor and one Corporate Bond and one Bank Loan transferred into level 3 as a result of being priced using a single broker quote.

Level 3 securities as presented in the table above are being fair valued using pricing methodologies approved by the Board of Directors, which contain unobservable inputs. Such methodologies include, but are not limited to, using prices provided by a single broker/dealer, the cost of the investment, and broker quotes adjusted for changes in yields of comparable U.S. Government and other securities using fixed income securities valuation models.

**Notes to Schedule of Investments (Unaudited)**

*Security Valuation:* The Fund holds securities and other assets that are fair valued at the close of each day the New York Stock Exchange ( NYSE ) is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Directors (the Board ) has adopted Valuation Procedures for security valuation under which fair valuation responsibilities have been delegated to Prudential Investments LLC ( PI or Manager ). Under the current Valuation Procedures, the established Valuation Committee is responsible for supervising the valuation of portfolio securities and other assets. The Valuation Procedures permit the Fund to utilize independent pricing vendor services, quotations from market makers, and alternative valuation methods when market quotations are either not readily available or not deemed representative of fair value. A record of the Valuation Committee's actions is subject to the Board's review, approval, and ratification at its next regularly-scheduled quarterly meeting.

Various inputs determine how the Fund's investments are valued, all of which are categorized according to the three broad levels (Level 1, 2, or 3) detailed in the table following the Schedule of Investments.

Common stocks, exchange-traded funds, and derivative instruments that are traded on a national securities exchange are valued at the last sale price as of the close of trading on the applicable exchange. Securities traded via NASDAQ are valued at the NASDAQ official closing price. To the extent these securities are valued at the last sale price or NASDAQ official closing price, they are classified as Level 1 in the fair value hierarchy except for exchange-traded and cleared swaps which are classified as Level 2 in the fair value hierarchy, as the prices marked at the official settle are not public.

In the event that no sale or official closing price on valuation date exists, these securities are generally valued at the mean between the last reported bid and asked prices, or at the last bid price in the absence of an asked price. These securities are classified as Level 2 in the fair value hierarchy, as the inputs are observable and considered to be significant to the valuation.

Common stocks traded on foreign securities exchanges are valued using pricing vendor services that provide model prices derived using adjustment factors based on information such as local closing price, relevant general and sector indices, currency fluctuations, depository receipts, and futures, as applicable. Securities valued using such model prices are classified as Level 2 in the fair value hierarchy, as the adjustment factors are observable and considered to be significant to the valuation. Securities not valued using such model prices are valued in accordance with exchange-traded common stocks discussed above.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their net asset values on the date of valuation.

Fixed income securities traded in the over-the-counter market are generally valued at prices provided by approved independent pricing vendors. The pricing vendors provide these prices after evaluating observable inputs including, but not limited to yield curves, yield spreads, credit ratings, deal terms, tranche level attributes, default rates, cash flows, prepayment speeds, broker/dealer quotations, and reported trades. Securities valued using such vendor prices are classified as Level 2 in the fair value hierarchy.

Over-the-counter derivative instruments are generally valued using pricing vendor services, which derive the valuation based on inputs such as underlying asset prices, indices, spreads, interest rates, and exchange rates. These instruments are categorized as Level 2 in the fair value hierarchy.

Securities and other assets that cannot be priced according to the methods described above are valued based on pricing methodologies approved by the Board. In the event that significant unobservable inputs are used when determining such valuations, the securities will be classified as Level 3 in the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment

adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

The Fund may invest up to 15% of its net assets in illiquid securities, including repurchase agreements which have a maturity of longer than seven days, certain securities with legal or contractual restrictions on resale (restricted securities, sometimes referred to as Private Placements) and securities that are not readily marketable. Restricted securities are valued pursuant to the valuation procedures noted above.

The Fund invests in the Prudential Core Taxable Money Market Fund, a portfolio of the Prudential Investment Portfolios 2, registered under the Investment Company Act of 1940, as amended, and managed by PI.
