## Highlights

### **PRUDENTIAL SHORT DURATION HIGH YIELD FUND, INC.**

Relative to the Fund's benchmark, the Barclays US High Yield Ba/B 1-5 Year 1% Issuer Constrained Index, underweight to the energy sector, which struggled for much of the period, was the largest contributor to the Fund's performance. Overweights in the gaming & lodging & leisure sectors, along with technology, building materials & home construction, and health care & pharmaceuticals sectors also turned in positive returns.

The Fund's solid security selection in the technology, paper & packaging, transportation & environmental services, upstream energy (production and exploration), and cable & satellite sectors all contributed positively to the Fund's performance.

Security selection in the retailers & restaurants, metals & mining, and industrial sectors hindered the Fund's performance.

The views expressed in this report and information about the Fund's portfolio holdings are for the period covered by this report and are subject to change thereafter.

## Letter from the President

Dear Shareholder:

We hope you find the annual report for the Prudential Short Duration High Yield Fund, Inc. informative and useful. The report covers performance for the 12-month period that ended May 31, 2016.

Since market conditions change over time, we believe it is important to maintain a diversified portfolio of funds consistent with your tolerance for risk, time horizon, and financial goals.

Your financial advisor can help you create a diversified investment plan that may include funds covering all the basic asset classes and that reflects your personal investor profile and risk tolerance. Keep in mind, however, that diversification and asset allocation strategies do not assure a profit or protect against loss in declining markets.

Prudential Investments® is dedicated to helping you solve your toughest investment challenges whether it's capital growth, reliable income, or protection from market volatility and other risks. We offer the expertise of Prudential Financial's affiliated asset managers that strive to be leaders in a broad range of funds to help you stay on course to the future you envision. They also manage money for major corporations and pension funds around the world, which means you benefit from the same expertise, innovation, and attention to risk demanded by today's most sophisticated investors.

Thank you for choosing the Prudential Investments family of funds.

Sincerely,

**Stuart S. Parker, President**

## Your Fund's Performance (unaudited)

Performance data quoted represent past performance and assume the reinvestment of all dividends. Past performance does not guarantee future results. An investor may obtain performance data as of the most recent month-end by visiting our website at [www.prudentialfunds.com](http://www.prudentialfunds.com).

### Investment Objective

The Fund seeks to provide a high level of current income by investing primarily in higher-rated, below-investment-grade fixed income instruments.\* The Fund seeks to maintain a weighted average portfolio duration of three years or less and a weighted average maturity of five years or less.

\*There can be no guarantee the Fund will achieve its objective. Higher-rated high yield bonds, commonly referred to as junk bonds, are below investment grade and are considered speculative. They are rated Ba, B by Moody's Investors Service, Inc. (Moody's); BB, B by Standard & Poor's Ratings Services (S&P) and Fitch, Inc. (Fitch); or comparably rated by another nationally recognized statistical rating organization (NRSRO), or if unrated, are considered by PGIM to be of comparable quality.

### Performance Snapshot as of 5/31/16

	Total Return For 12-Months Ended 5/31/16
<b>Price Per Share</b>	
\$16.79 (NAV)	2.00%
\$15.58 (Market Price)	8.23%

Total returns are based on changes in net asset value (NAV) or market price, respectively. NAV total return assumes the reinvestment of all distributions, including returns of capital, if any, at NAV. Market Price total return assumes the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.

## Strategy and Performance Overview

### How did the Fund perform?

For the 12-month reporting period that ended May 31, 2016, the **Prudential Short Duration High Yield Fund**'s NAV per share decreased by \$1.05 from \$17.84 to \$16.79. The Fund generated a positive NAV return of 2.00%, outperforming both the 1.10% return of the Barclays US High Yield Ba/B 1-5 Year 1% Issuer Constrained Index (the Index) and the 4.06% return of the Lipper High Current Yield Funds (Leveraged) Average. The Fund's market price decreased by \$0.17 from \$15.75 to \$15.58, and the Fund's market price total return, including the reinvestment of distributions, was 8.23% for the reporting period.

### What were conditions like in the short-term US high yield corporate bond market?

High yield bonds struggled throughout the period with the broad high yield market posting a modestly negative return. In the first half of the reporting period, concerns about the Chinese economy, renewed declines in commodity prices, and outflows from retail mutual funds troubled the market and contributed to the volatility experienced in high yield. Energy companies continued to head lower early in the first quarter of 2016 as oil prices were routed, dragging the sector down through mid-February. However, a rebound in crude oil prices subsequently lifted the sector to a positive return as the quarter ended. Not to be outdone, another 2015 laggard, the metals & mining sector also posted a double-digit return in the first quarter of 2016. Metals & mining companies strongly outperformed in 2016. However, in May those bonds underperformed the rest of the market, as iron ore prices pulled back from their highs in April.

As the market experienced volatility, credits with healthier fundamentals outperformed, while still posting negative returns. Over the period, BB-rated bonds had a positive return while lower quality B-rated bonds and CCC-rated bonds posted negative performance. The gaming & lodging & leisure, railroads, midstream energy (refining and infrastructure), and retailers & restaurants sectors were among the best performers, returning between 2% and 3%, respectively, over the period. Upstream energy (exploration and production) was the largest laggard, posting a return of -17.8%. Transportation & environmental services and life insurance also struggled, posting negative returns during the period.

### What worked?

The Fund benefited from both strong sector and security selection during the period.

An underweight to the energy sector, which struggled for much of the period, was the largest contributor to the Fund's performance. Overweights in the gaming & lodging & leisure sector, along with technology, building materials & home construction, and health care & pharmaceuticals sectors also turned in positive returns.

6 Visit our website at [prudentialfunds.com](http://prudentialfunds.com)

The Fund's solid security selection in the technology, paper & packaging, transportation & environmental services, upstream energy, and cable & satellite sectors all contributed positively to the Fund's performance.

In individual company selection, the Fund's underweight positions in upstream energy names including **Linn Energy**, **Chesapeake Energy**, and **Energy XXI** contributed positively to performance.

Avoiding **Abengoa** (transportation and environmental services) and overweights to names in the technology sector including **Nokia**, **NXP Semiconductors**, and **Solera** all added to performance over the reporting period.

#### **What didn't work?**

Security selection in the retailers & restaurants, metals & mining, and industrial sectors hindered the Fund's performance.

The Fund's underweighting to the metals & mining, telecom, and finance & insurance sectors detracted from performance, as did an overweight position within the paper & packaging sector.

In individual company selection, an overweight to **Unifrax**, in the industrial sector, was the largest detractor from performance. The Fund held a higher weighting of debt securities in metals and mining companies **Murray Energy Holdings**, **Arcelormittal**, and **Berau Coal**, which detracted from performance, as these securities underperformed throughout the reporting period. An overweight to the retailer **Claire's** also detracted.

#### **How did the Fund's borrowing (leverage) strategy affect its performance?**

The Fund's use of leverage contributed positively to results as the returns of the securities purchased was in excess of the cost of borrowing. As of May 31, 2016, the Fund had borrowed \$205 million and was about 26.9% leveraged. During the reporting period, the average amount of leverage utilized by the Fund was about 25.5%.

#### **Current Outlook**

##### **Were there any changes to the Fund's management?**

Paul Appleby, CFA, Managing Director for Prudential Fixed Income retired in January 2016. The Fund continues to be managed by a team of seven portfolio managers, which includes Robert Cignarella, CFA, who is a Managing Director and head of Prudential Fixed Income's Global Leveraged Finance Team.

Prudential Fixed Income has a positive long-term outlook for high yield with demand for the asset class supported by a thirst for yield as interest rates fall globally due to low inflation. Default rates outside of the energy and basic materials sectors should remain manageable through 2017. Mergers and acquisitions have generally been positive for high yield credits.

## Strategy and Performance Overview (continued)

and should continue into the year. Earnings in the US are poised to rebound with the bounce in commodities and weaker US dollar.

However, many macro concerns could weigh on the market including uncertainty in China, the Middle East, and the Fed. In addition, credit metrics are slipping and defaults are increasing. Despite the recent rebound in oil, prices are still at historically low levels. Many high yield energy companies cannot survive unless oil prices move materially higher. Key positioning themes continue to be underweights in commodity-related sectors including energy and metals and mining. The Fund is also underweight the finance and insurance and banking sectors. Overweights include gaming, lodging, leisure, technology, and health care and pharmaceuticals.

The recent UK referendum to leave the European Union led to a bout of intense market volatility. Prudential Fixed Income believes the policy responses that follow the Brexit vote consist of monetary policy accommodation and rhetoric regarding political cohesion, considering that the Brexit result may embolden populist political movements in Europe and elsewhere. Policy responses will likely blunt the effect of risk-off sentiment in the short term, and the longer-term duration of the risk-off environment will depend on the overall effectiveness of these responses.

## Notes to Financial Statements

Prudential Short Duration High Yield Fund, Inc. (the Fund) is a diversified, closed-end management investment company, registered under the Investment Company Act of 1940, as amended (1940 Act). The Fund was incorporated as a Maryland corporation on November 14, 2011. The Fund's investment objective is to provide a high level of current income.

### Note 1. Accounting Policies

The Fund follows investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 Financial Services *Investment Companies*. The following accounting policies conform to U.S. generally accepted accounting principles. The Fund consistently follows such policies in the preparation of its financial statements.

*Securities Valuation:* The Fund holds securities and other assets that are fair valued at the close of each day (generally, 4:00 PM Eastern time) the New York Stock Exchange (NYSE) is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Directors (the Board) has adopted Valuation Procedures for security valuation under which fair valuation responsibilities have been delegated to Prudential Investments LLC (PI or Manager). Under the current Valuation Procedures, the established Valuation Committee is responsible for supervising the valuation of portfolio securities and other assets. The Valuation Procedures permit the Fund to utilize independent pricing vendor services, quotations from market makers, and alternative valuation methods when market quotations are either not readily available or not deemed representative of fair value. A record of the Valuation Committee's actions is subject to the Board's review, approval, and ratification at its next regularly-scheduled quarterly meeting.

Various inputs determine how the Fund's investments are valued, all of which are categorized according to the three broad levels (Level 1, 2, or 3) detailed in the table following the Portfolio of Investments.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their net asset values on the date of valuation.

Fixed income securities traded in the OTC market are generally valued at prices provided by approved independent pricing vendors. The pricing vendors provide these prices after evaluating observable inputs including, but not limited to yield curves, yield spreads, credit

## Notes to Financial Statements (continued)

ratings, deal terms, tranche level attributes, default rates, cash flows, prepayment speeds, broker/dealer quotations, and reported trades. Securities valued using such vendor prices are classified as Level 2 in the fair value hierarchy.

Bank loans traded in the OTC market are generally valued at prices provided by approved independent pricing vendors. The pricing vendors utilize broker/dealer quotations and provide prices based on the average of such quotations. Bank loans valued using such vendor prices are generally classified as Level 2 in the fair value hierarchy.

OTC derivative instruments are generally valued using pricing vendor services, which derive the valuation based on inputs such as underlying asset prices, indices, spreads, interest rates, and exchange rates. These instruments are categorized as Level 2 in the fair value hierarchy.

Centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange, are generally valued at the daily settlement price determined by the respective exchange. These securities are classified as Level 2 in the fair value hierarchy, as the daily settlement price is not public.

Securities and other assets that cannot be priced according to the methods described above are valued based on pricing methodologies approved by the Board. In the event that unobservable inputs are used when determining such valuations, the securities will be classified as Level 3 in the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

*Restricted and Illiquid Securities:* Subject to guidelines adopted by the Board, the Fund may invest without limit in illiquid securities, including those which are restricted as to disposition under securities law (restricted securities). Restricted securities are valued pursuant to the valuation procedures noted above. Illiquid securities are those that, because of the absence of a readily available market or due to legal or contractual restrictions on resale, cannot be sold within seven days in the ordinary course of business.

at approximately the amount at which the Fund has valued the investment. Therefore, the Fund may find it difficult to sell illiquid securities at the time considered most advantageous by its subadviser and may incur expenses that would not be incurred in the sale of securities that were freely marketable. Certain securities that would otherwise be considered illiquid because of legal restrictions on resale to the general public may be traded among qualified institutional buyers under Rule 144A of the Securities Act of 1933. These Rule 144A securities, as well as commercial paper that is sold in private placements under Section 4(a)(2) of the Securities Act, may be deemed liquid by the Fund's subadviser under the guidelines adopted by the Directors of the Fund. However, the liquidity of the Fund's investments in Rule 144A securities could be impaired if trading does not develop or declines.

*Forward Currency Contracts:* A forward currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The Fund enters into forward currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings or specific receivables and payables denominated in a foreign currency. The contracts are valued daily at current exchange rates and any unrealized gain (loss) is included in net unrealized appreciation or depreciation on foreign currencies. Gain (loss) is realized on the settlement date of the contract equal to the difference between the settlement value of the original and negotiated forward contracts. This gain (loss), if any, is included in net realized gain (loss) on foreign currency transactions. Risks may arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts. Forward currency contracts involve risks from currency exchange rate and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. The Fund's maximum risk of loss from counterparty credit risk is the net value of the cash flows to be received from the counterparty at the end of the contract's life.

*Swap Agreements:* The Fund may enter into credit default, interest rate, total return and other forms of swap agreements. A swap agreement is an agreement to exchange the return generated by one instrument for the return generated by another instrument. Swap agreements are negotiated in the OTC market and may be executed either directly with counterparty (OTC-traded) or through a central clearing facility, such as a registered commodities exchange. Swap agreements are valued daily at current market value and any change in value is included in the net unrealized appreciation or depreciation on investments. Centrally cleared swaps pay or receive an amount known as variation margin, based on daily changes in the valuation of the swap contract. Payments received or paid by the Fund are recorded as realized gains (losses) upon termination or maturity of the swap. Risk of loss may exceed amounts recognized on the Statements of Assets and Liabilities. Swap agreements outstanding at period end, if any, are listed on the Portfolio of Investments.

*Credit Default Swaps:* Credit default swaps (CDS) involve one party (the protection buyer) making a stream of payments to another party (the protection seller) in exchange for the right to receive a specified payment in the event of a default or as a result of a default

## Notes to Financial Statements (continued)

(collectively a credit event ) for the referenced entity (typically corporate issues or sovereign issues of an emerging country) on its obligation; or in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising a credit index.

The Fund is subject to credit risk in the normal course of pursuing its investment objectives. The Fund may enter into CDS contracts to provide a measure of protection against defaults or to take an active long or short position with respect to the likelihood of a particular issuer's default or the reference entity's credit soundness. CDS contracts generally trade based on a spread which represents the cost a protection buyer has to pay the protection seller. The protection buyer is said to be short the credit as the value of the contract rises the more the credit deteriorates. The value of the CDS contract increases for the protection buyer if the spread increases. The Fund may sell protection using credit default swaps to take an active short position with respect to the likelihood of a particular issuer's default. The Fund's maximum risk of loss from counterparty credit risk for purchased credit default swaps is the inability of the counterparty to honor the contract up to the notional value due to a credit event.

As a seller of protection on credit default swap agreements, the Fund generally receives an agreed upon payment from the buyer of protection throughout the term of the swap, provided no credit event occurs. As the seller, the Fund effectively increases its investment risk because, in addition to its total net assets, the Fund may be subject to investment exposure on the notional amount of the swap.

The maximum amount of the payment that the Fund, as a seller of protection, could be required to make under a credit default swap agreement would be equal to the notional amount of the underlying security or index contract as a result of a credit event. This potential amount will be partially offset by any recovery values of the respective referenced obligations, or net amounts received from the settlement of buy protection credit default swap agreements which the Fund entered into for the same referenced entity or index. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap agreements on corporate or sovereign issues of an emerging country as of period end are disclosed in the footnotes to the Portfolio of Investments, if applicable. These spreads serve as indicators of the current status of the payment/performance risk and represent the likelihood of default risk for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to enter into the agreement. For credit default swap agreements on asset-backed securities and credit indices, the quoted

market prices and resulting values serve as indicators of the current status of the payment/performance risk. Wider credit spreads and increased market value in absolute terms, when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood of risk of default or other credit event occurring as defined under the terms of the agreement.

*Master Netting Arrangements:* The Fund is subject to various Master Agreements, or netting arrangements, with select counterparties. These are agreements which a subadviser may have negotiated and entered into on behalf of the Fund. A master netting arrangement between the Fund and the counterparty permits the Fund to offset amounts payable by the Fund to the same counterparty against amounts to be received; and by the receipt of collateral from the counterparty by the Fund to cover the Fund's exposure to the counterparty. However, there is no assurance that such mitigating factors are easily enforceable. In addition to master netting arrangements, the right to set-off exists when all the conditions are met such that each of the parties owes the other determinable amounts, the reporting party has the right to set-off the amount owed with the amount owed by the other party, the reporting party intends to set-off and the right of set-off is enforceable by law. During the reporting period, there was no intention to settle on a net basis and all amounts are presented on a gross basis on the Statement of Assets and Liabilities.

The Fund is a party to ISDA (International Swaps and Derivatives Association, Inc.) Master Agreements with certain counterparties that govern OTC derivative and foreign exchange contracts entered into from time to time. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. With respect to certain counterparties, in accordance with the terms of the Master Agreements, collateral posted to the Fund is held in a segregated account by the Fund's custodian and with respect to those amounts which can be sold or re-pledged, is presented in the Portfolio of Investments. Collateral pledged by the Fund is segregated by the Fund's custodian and identified in the Portfolio of Investments. Collateral can be in the form of cash or debt securities issued by the U.S. Government or related agencies or other securities as agreed to by the Fund and the applicable counterparty. Collateral requirements are determined based on the Fund's net position with each counterparty. Termination events applicable to the Fund may occur upon a decline in the Fund's net assets below a specified threshold over a certain period of time. Termination events applicable to counterparties may occur upon a decline in the counterparty's long-term and short term credit ratings below a specified level. In each case, upon occurrence, the other party may elect to terminate early and cause settlement of all derivative and foreign exchange contracts outstanding, including the payment of any losses and costs resulting from such early termination, as reasonably determined by the terminating party. Any decision by one or more of the Fund's counterparties to elect early termination could impact the Fund's future derivative activity.

In addition to each instrument's primary underlying risk exposure (e.g. interest rate, credit, equity or foreign exchange, etc.), swap agreements involve, to varying degrees, elements of credit, market and documentation risk. Such risks involve the possibility that no liquid

## Notes to Financial Statements (continued)

market for these agreements will exist, the counterparty to the agreement may default on its obligation to perform or disagree on the contractual terms of the agreement, and changes in net interest rates will be unfavorable. In connection with these agreements, securities in the portfolio may be identified or received as collateral from the counterparty in accordance with the terms of the respective swap agreements to provide or receive assets of value and to serve as recourse in the event of default or bankruptcy/insolvency of either party. Such OTC derivative agreements include conditions which, when materialized, give the counterparty the right to cause an early termination of the transactions under those agreements. Any election by the counterparty for early termination of the contract(s) may impact the amounts reported on financial statements.

As of May 31, 2016, the Fund has not met conditions under such agreements which give the counterparty the right to call for an early termination.

Forward currency contracts, forward rate agreements, written options, short sales, swaps and financial futures contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Such risks may be mitigated by engaging in master netting arrangements.

*Loan Participations:* The Fund may invest in loan participations. When the Fund purchases a loan participation, the Fund typically enters into a contractual relationship with the lender or third party selling such participations ( Selling Participant ), but not the borrower. As a result, the Fund assumes the credit risk of the borrower and any other persons interpositioned between the Fund and the borrower.

The Fund may not directly benefit from the collateral supporting the senior loan in which it has purchased the loan participation.

*Payment In Kind Securities:* The Fund may invest in the open market or receive pursuant to debt restructuring, securities that pay in kind (PIK) the interest due on such debt instruments. The PIK interest, computed at the contractual rate specified, is added to the existing principal balance of the debt when issued bonds have same terms as the bond or recorded as a separate bond when terms are different from the existing debt, and is recorded as interest income.

*Cash Flow Information:* The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of stockholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

*Securities Transactions and Net Investment Income:* Securities transactions are recorded on the trade date. Realized gains (losses) from investment and currency transactions are calculated on the identified cost basis. Dividend income is recorded on the ex-date. Interest income, including amortization of premium and accretion of discount on debt securities, as required, is recorded on an accrual basis. Expenses are recorded on an accrual basis, which may require the use of certain estimates by management that may differ from actual.

*Dividends and Distributions:* The Fund intends to make a level dividend distribution each month to the holders of Common Stock. The level dividend rate may be modified by the Board from time to time, and will be based upon the past and projected performance and expenses of the Fund. The Fund intends to also make a distribution during or with respect to each calendar year (which may be combined with a regular monthly distribution), which will generally include any net investment income and net realized capital gain for the year not otherwise distributed.

PI has received an order from the Securities and Exchange Commission granting the Fund an exemption from Section 19(b) of the 1940 Act and Rule 19b-1 thereunder to permit certain closed-end funds managed by PI to include realized long-term capital gains as a part of their respective regular distributions to the holders of Common Stock more frequently than would otherwise be permitted by the 1940 Act (generally once per taxable year). The Fund intends to rely on this exemptive order. The Board may, at the request of PI, adopt a managed distribution policy.

Dividends and distributions to stockholders, which are determined in accordance with federal income tax regulations and may differ from generally accepted accounting principles, are recorded on the ex-date. Permanent book/tax differences relating to income and gains are reclassified amongst undistributed net investment income (loss), accumulated net realized gain (loss) and paid-in capital in excess of par, as appropriate.

*Taxes:* For federal income tax purposes, it is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its stockholders. Therefore, no federal income tax provision is required. However, due to the timing of when distributions are made by the Fund, the Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income for the calendar year and 98.2% of its net capital gains for a one-year period ending on October 31 exceed the distributions from such taxable income and net capital gains for the calendar year.

*Estimates:* The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

## Notes to Financial Statements (continued)

### Note 2. Agreements

The Fund has a management agreement with PI. Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser's performance of such services. PI has entered into a subadvisory agreement with Prudential Fixed Income ( PFI ), which is a business unit of PGIM, Inc. The subadvisory agreement provides that PFI will furnish investment advisory services in connection with the management of the Fund. In connection therewith, PFI is obligated to keep certain books and records of the Fund. PI pays for the services of PFI, the cost of compensation of officers of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other cost and expenses. Prior to January 4, 2016, PGIM, Inc. was known as Prudential Investment Management, Inc. ( PIM ).

The management fee paid to PI is computed daily and payable monthly, at an annual rate of .80% of the average daily value of the Fund's investable assets. Investable assets refers to the net assets attributable to the outstanding Common Stock of the Fund plus the liquidation preference of any outstanding preferred stock issued by the Fund, the principal amount of any borrowings and the principal on any debt securities issued by the Fund.

PI and PGIM, Inc. are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. ( Prudential ).

### Note 3. Other Transactions with Affiliates

The Fund may enter into certain securities purchase or sale transactions under Board approved Rule 17a-7 procedures. Rule 17a-7 is an exemptive rule under the 1940 Act, that permits purchase and sale transactions among affiliated investment companies, or between an investment company and a person that is affiliated solely by reason of having a common (or affiliated) investment adviser, common directors, and/or common officers. Such transactions are subject to ratification by the Board.

The Fund invests in the Prudential Core Ultra Short Bond Fund, (formerly known as Prudential Core Taxable Money Market Fund), (the Core Fund ), a portfolio of the Prudential Investment Portfolios 2, registered under 1940 Act, and managed by PI. Earnings from the Core Fund are disclosed on the Statement of Operations as Affiliated dividend income .

### Note 4. Portfolio Securities

The cost of purchases and proceeds from sales of portfolio securities, other than short-term investments, for the year ended May 31, 2016, aggregated \$434,060,849 and \$422,274,226, respectively.

**Note 5. Distributions and Tax Information**

Distributions to stockholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-date. In order to present undistributed net investment income, accumulated net realized loss on investment and foreign currency transactions and paid-in capital in excess of par on the Statement of Assets and Liabilities that more closely represent their tax character, certain adjustments have been made to undistributed net investment income and accumulated net realized loss on investment and foreign currency transactions. For the year ended May 31, 2016, the adjustments were to increase undistributed net investment income and increase accumulated net realized loss on investment and foreign currency transactions by \$8,741,778 due to differences in the treatment for book and tax purposes of premium amortization and certain transactions involving foreign securities and paydowns. Net investment income, net realized gain (loss) on investment and foreign currency transactions and net assets were not affected by this change.

For the years ended May 31, 2016 and May 31, 2015, the tax character of dividends paid by the Fund were \$45,146,003 and \$52,731,862 of ordinary income, respectively.

As of May 31, 2016, the accumulated undistributed earnings on a tax basis was \$3,681,256. This differs from the amount shown on the Statement of Assets and Liabilities primarily due to cumulative timing differences between financial and tax reporting.

The United States federal income tax basis of the Fund's investments and the net unrealized depreciation as of May 31, 2016 were as follows:

			<b>Net</b>		
			<b>Unrealized</b>		<b>Total Net</b>
<b>Tax Basis</b>	<b>Appreciation</b>	<b>Depreciation</b>	<b>Depreciation</b>	<b>Other Cost Basis</b>	<b>Unrealized</b>
				<b>Adjustments</b>	<b>Depreciation</b>
\$780,994,508	\$6,024,986	\$(25,435,561)	\$(19,410,575)	\$(597)	\$(19,411,172)

The difference between book basis and tax basis was primarily attributable to deferred losses on wash sales, differences in the treatment of premium amortization for book and tax purposes and other book to tax differences.

For federal income tax purposes, the Fund had a capital loss carryforward as of May 31, 2016 of approximately \$36,008,000 which can be carried forward for an unlimited period. No capital gains distributions are expected to be paid to shareholders until net gains have been realized in excess of such losses.

In accordance with the provision of Subchapter M of the Internal Revenue Code and the excise tax requirements, the Fund elected to treat post-October capital losses of approximately \$23,670,000 as having been incurred in the following fiscal year (May 31, 2017).

## Notes to Financial Statements (continued)

Management has analyzed the Fund's tax positions taken on federal, state and local income tax returns for all open tax years and has concluded that no provision for income tax is required in the Fund's financial statements for the current reporting period. The Fund's federal, state and local income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

### Note 6. Capital

There are 1 billion shares of \$0.001 par value common stock authorized. Prior to commencement of operations on April 30, 2012, the Fund issued 5,240 shares of common stock to Prudential at an aggregate purchase price of \$100,084. As of May 31, 2016, Prudential owned 7,362 shares of the Fund.

For the year ended May 31, 2016, the Fund did not issue shares in connection with the Fund's dividend reinvestment plan.

### Note 7. Borrowings and Re-hypothecation

The Fund currently is a party to a committed credit facility (the credit facility) with a financial institution. The credit facility provides for a maximum commitment of \$300 million. Interest on any borrowings under the credit facility is payable at the negotiated rates. The Fund's obligations under the credit facility are secured by the assets of the Fund segregated for the purpose of securing the amount borrowed. The purpose of the credit facility is to provide the Fund with portfolio leverage and meet its general cash flow requirements.

During the year ended May 31, 2016, the Fund utilized the credit facility and had an average daily outstanding loan balance of \$192,500,000 during the 366 day period that the facility was utilized, at an average interest rate of 1.17%. The maximum amount of loan outstanding during the period was \$210,000,000. There was a balance of \$205,000,000 outstanding at May 31, 2016.

*Re-hypothecation:* The credit facility agreement permits, subject to certain conditions, the financial institution to re-hypothecate, up to the amount outstanding under the facility, portfolio securities segregated by the Fund as collateral. The Fund continues to receive interest on re-hypothecated securities. The Fund also has the right under the agreement to recall the re-hypothecated securities from the financial institution on demand. If the financial institution fails to deliver the recalled security in a timely manner, the Fund will be compensated by the financial institution for any fees or losses related to the failed delivery or, in the event a recalled security will not be returned by the financial institution, the Fund,

upon notice to the financial institution, may reduce the loan balance outstanding by the value of the recalled security failed to be returned plus accrued interest. The Fund will receive a portion of the fees earned by the financial institution in connection with the re-hypothecation of portfolio securities. Such earnings are disclosed in the statement of operations under Other Income.

#### **Note 8. Subsequent Event**

*Dividends and Distributions:* On May 26, 2016 the Fund declared monthly dividends of \$0.11 per share payable on June 30, 2016, July 29, 2016 and August 31, 2016, respectively, to shareholders of record on June 17, 2016, July 15, 2016 and August 19, 2016, respectively. The ex-dates were June 15, 2016, July 13, 2016 and August 17, 2016, respectively.

#### **Note 9. New Accounting Pronouncements**

In May 2015, the FASB issued Accounting Standards Update ( ASU ) No. 2015-07 regarding Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share . The amendments in this update are effective for the Fund for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. ASU No. 2015-07 will eliminate the requirement to categorize investments in the fair value hierarchy if their fair value is measured at net asset value ( NAV ) per share (or its equivalent) using the practical expedient in the FASB 's fair value measurement guidance. Management has evaluated the implications of ASU No. 2015-07 and has determined that there is no impact on the financial statement disclosures.

In January 2016, the FASB issued ASU No. 2016-01 regarding Recognition and Measurement of Financial Assets and Financial Liabilities . The new guidance is intended to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information and addresses certain aspects of the recognition, measurement, presentation, and disclosure of financial instruments. The new standard affects all entities that hold financial assets or owe financial liabilities. The new guidance is effective for public companies for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. At this time, management is evaluating the implications of ASU No. 2016-01 and its impact on the financial statements and disclosures has not yet been determined.

## Report of Independent Registered Public

### Accounting Firm

The Board of Directors and Shareholders

Prudential Short Duration High Yield Fund, Inc.:

We have audited the accompanying statement of assets and liabilities of Prudential Short Duration High Yield Fund, Inc. (hereafter referred to as the Fund ), including the portfolio of investments, as of May 31, 2016, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended and the financial highlights for each of the years in the four-year period then ended and for the period April 30, 2012 (commencement of operations) through May 31, 2012. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of May 31, 2016, by correspondence with the custodian, transfer agent and brokers or by other appropriate auditing procedures when replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of May 31, 2016, and the results of its operations, cash flows, changes in its net assets and the financial highlights for the periods described in the first paragraph above, in conformity with U.S. generally accepted accounting principles.

## **Tax Information** (unaudited)

For the year ended May 31, 2016, the Fund reports the maximum amount allowable but not less than 82.23% as interest related dividends in accordance with Section 871(k)(1) and 881(e)(1) of the Internal Revenue Code.

In January 2017, you will be advised on IRS Form 1099-DIV or substitute 1099-DIV as to the federal tax status of distributions received by you in calendar year 2016.

## Other Information (unaudited)

**Dividend Reinvestment Plan.** Unless a holder of Common Stock elects to receive cash by contacting Computershare Trust Company, N.A. (the Plan Administrator), all dividends declared on Common Stock will be automatically reinvested by the Plan Administrator pursuant to the Fund's Automatic Dividend Reinvestment Plan (the Plan), in additional Common Stock. The holders of Common Stock who elect not to participate in the Plan will receive all dividends and other distributions (together, a Dividend) in cash paid by check mailed directly to the stockholder of record (or, if the Common Stock is held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the Dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared Dividend. Such notice will be effective with respect to a particular Dividend. Some brokers may automatically elect to receive cash on behalf of the holders of Common Stock and may re-invest that cash in additional Common Stock.

The Plan Administrator will open an account for each common stockholder under the Plan in the same name in which such common stockholder's Common Stock is registered. Whenever the Fund declares a Dividend payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Stock. The Common Stock will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Stock from the Fund (Newly Issued Common Stock) or (ii) by purchase of outstanding Common Stock on the open market (Open-Market Purchases) on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price of the Common Stock plus per share fees (as defined below) is equal to or greater than the NAV per share of Common Stock (such condition being referred to as market premium), the Plan Administrator will invest the Dividend amount in Newly Issued Common Stock on behalf of the participants. The number of Newly Issued Common Stock to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per share of Common Stock on the payment date, provided that, if the NAV per share of Common Stock is less than or equal to 95% of the closing market price per share of Common Stock on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Stock on the payment date. If, on the payment date for any Dividend, the NAV per share of Common Stock is greater than the closing market value per share of Common Stock plus per share fees (such condition being referred to as market discount), the Plan Administrator will invest the Dividend amount in shares of Common Stock acquired on behalf of the participants in Open-Market Purchases. Per share fees include any applicable brokerage commissions the Plan Administrator is required to pay.

## Other Information (unaudited) (continued)

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Stock trades on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Stock acquired in Open-Market Purchases on behalf of participants. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per share of Common Stock exceeds the NAV per share of Common Stock, the average per share purchase price paid by the Plan Administrator for Common Stock may exceed the NAV per share of the Common Stock, resulting in the acquisition of fewer shares of Common Stock than if the Dividend had been paid in Newly Issued Common Stock on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Stock at the NAV per share of Common Stock at the close of business on the Last Purchase Date, provided that, if the NAV is less than or equal to 95% of the then current market price per share of Common Stock, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all stockholder accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by stockholders for tax records. Common Stock in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each stockholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of the holders of Common Stock such as banks, brokers or nominees that hold shares of Common Stock for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the record stockholder's name and held for the account of beneficial owners who participate in the Plan.

The Plan Administrator's service fee, if any, and expenses for administering the plan will be paid for by the Fund. If a participant elects by written, Internet or telephonic notice to the Plan Administrator to have the Plan Administrator sell part or all of the shares held by the Plan Administrator in the participant's account and remit the proceeds to the participant, the Plan Administrator is authorized to deduct a \$15.00 transaction fee plus a \$0.12 per

share fee. If a participant elects to sell his or her shares of Common Stock, the Plan

Administrator will process all sale instructions received no later than five business days after the date on which the order is received by the Plan Administrator, assuming the relevant markets are open and sufficient market liquidity exists (and except where deferral is required under applicable federal or state laws or regulations). Such sale will be made through the Plan Administrator's broker on the relevant market and the sale price will not be determined until such time as the broker completes the sale. In every case the price to the participant shall be the weighted average sale price obtained by the Plan Administrator's broker net of fees for each aggregate order placed by the participant and executed by the broker. To maximize cost savings, the Plan Administrator will seek to sell shares in round lot transactions. For this purpose the Plan Administrator may combine a participant's shares with those of other selling participants.

There will be no brokerage charges with respect to shares of Common Stock issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. Each participant will be charged a per share fee (currently \$0.05 per share) on all Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. See Tax Matters. Participants that request a sale of Common Stock through the Plan Administrator are subject to brokerage commissions.

Each participant may terminate the participant's account under the Plan by so notifying the Plan Administrator via the Plan Administrator's website at [www.computershare.com/investor](http://www.computershare.com/investor), by filling out the transaction request form located at the bottom of the participant's Statement and sending it to the Plan Administrator or by calling the Plan Administrator. Such termination will be effective immediately if the participant's notice is received by the Plan Administrator prior to any dividend or distribution record date. Upon any withdrawal or termination, the Plan Administrator will cause to be delivered to each terminating participant a statement of holdings for the appropriate number of the Fund's whole book-entry shares of Common Stock and a check for the cash adjustment of any fractional share at the market value of the Fund's shares of Common Stock as of the close of business on the date the termination is effective less any applicable fees. In the event a participant's notice of termination is on or after a record date (but before payment date) for an account whose dividends are reinvested, the Plan Administrator, in its sole discretion, may either distribute such dividends in cash or reinvest them in shares of Common Stock on behalf of the terminating participant. In the event reinvestment is made, the Plan Administrator will process the termination as soon as practicable, but in no event later than five business days after the reinvestment is completed. The Plan may be terminated by the Fund upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any dividend or distribution by the Fund.

## **Other Information** (unaudited) (continued)

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. Box 43078, Providence, RI 02940-3078 or by calling (toll free) 800-451-6788.
