Item 8.01. Other Events.

As previously disclosed, in June 2014 Vanda Pharmaceuticals Inc. (the Company) filed suit against Roxane Laboratories, Inc. (Roxane) in the U.S. District Court for the District of Delaware (the Delaware District Court). The suit sought an adjudication that Roxane has infringed one or more claims of the Company's U.S. Patent No. 8,586,610 (the 610 Patent) by submitting to the FDA an Abbreviated New Drug Application (ANDA) for a generic version of Fanapt® prior to the expiration of the 610 Patent in November 2027. In addition, pursuant to the settlement agreement with Novartis Pharma AG (Novartis), the Company assumed Novartis' patent infringement action against Roxane in the Delaware District Court. That suit alleged that Roxane has infringed one or more claims of U.S. Patent RE39198 (the 198 Patent), which is licensed exclusively to the Company, by filing an ANDA for a generic version of Fanapt® prior to the expiration of the 198 Patent in November 2016. These two cases against Roxane were consolidated by agreement of the parties and were tried together in a five-day bench trial that concluded on March 4, 2016.

On August 25, 2016, the Delaware District Court ruled in favor of the Company, finding that Roxane's proposed products infringed the asserted claims of the 610 Patent and the 198 Patent. The Delaware District Court ruled that the Company is entitled to a permanent injunction against Roxane enjoining Roxane from infringing the 610 Patent, including the manufacture, use, sale, offer to sell, sale, distribution or importation of any generic iloperidone product described in the 610 Patent ANDA until the expiration of the 610 Patent in November 2027.

A press release announcing the Delaware District Court's decision is attached hereto as Exhibit 99.1 and incorporated by reference herein.
