Annual Meeting of Shareholders

May 9, 2017

This Proxy Statement is being furnished to our shareholders in connection with the solicitation of proxies by the Board of Directors for use at the 2017 Annual Meeting of Shareholders to be held on May 9, 2017, or at any adjournments or postponements thereof (the Annual Meeting). We sometimes refer to IBERIABANK Corporation in this Proxy Statement as the Company, IBKC, we, us, or our.

Your proxy will be voted in the manner you specify if you vote properly and timely by the Internet or telephone or if you complete and return the enclosed proxy card. You

may revoke your proxy by notifying our Secretary in writing, by delivering a properly executed proxy of later date (either in writing, telephonically, or via the Internet) to the Secretary at or before the Annual Meeting, or by voting in person at the Annual Meeting.

This Proxy Statement was mailed on or about April 7, 2017, to each shareholder of record at the voting record date.

Introduction

This Proxy Statement provides an overview of matters that are very important to our shareholders and the continued success of our business. As described throughout this Proxy Statement, we made great progress in improving the financial performance and strength of our Company and, based on feedback from our shareholders, we made significant improvements in our executive compensation program and corporate governance matters. These enhancements were designed and implemented with a focus on improving future shareholder returns, ensuring alignment between performance and compensation, and adopting shareholder governance best practices consistent with our successful business model and risk tolerance.

In 2016, the Company saw the full benefit from the 2015 acquisitions of Florida Bank Group, Inc., Old Florida Bancshares, Inc., and Georgia Commerce Bancshares, Inc., growing net revenues by \$74.9 million, or 9%, while also successfully containing expenses, which declined \$3.6 million, or 1%, compared to 2015. We have grown our balance sheet organically in 2016 by \$2.2 billion, or 11%, to \$21.7 billion, which included loan growth of \$737.5 million, or 5%, and deposit growth of \$1.2 billion, or 8%. Our expansion and subsequent growth into new market areas through prior period acquisitions has helped

us diversify and manage our credit risk exposure. We have strengthened our liquidity and capital positions and have seen some downward pressure on net interest margin as a result, but expect that deployment of excess liquidity and capital in 2017 into higher yielding assets will subsequently improve our profitability metrics. We returned 33% of net income available to common shareholders through dividends and generated a 17% annual increase in diluted earnings

per common share. The Compensation Discussion and Analysis section of this Proxy Statement provides a summary of our results compared to peers.

Our focus in 2016 was multi-faceted, and our accomplishments were broad-based:

Shareholder Focus

Raised cash dividends on common stock by 6%;

Announced share repurchase program of up to 950,000 common shares;

Repurchased 202,506 common shares in 2016 at a weighted average cost of \$57.61 per share;

Common stock price reached an all-time high of \$91.10 per share and improved 52% during 2016;

Efficiency ratio improved from 71% in 2015 to 64% in 2016;

Achieved strategic goal of 60% core tangible efficiency ratio (non-GAAP) during 2016;

In 2016, revenues increased \$75 million, or 9% (twice the banking industry's rate of growth), while expenses declined \$4 million, or 1% (better than the banking industry's results);

Net income available to common shareholders increased \$36 million, or 25%, and earnings per common share climbed 17%;

Book value and tangible book value per common share increased 6% and 14%, respectively;

Risk Management

Energy-related loans declined 18% in 2016, and declined as a percentage of total loans from 8.4% at June 30, 2014 to 3.7% at year-end 2016;

Reduced aggregate risk-off assets by \$797 million since year-end 2014;

Balance Sheet Strength

Liquidity increased by \$1.3 billion, or 66%, year-end 2015 to year-end 2016;

Average loans grew \$1.4 billion, or 10%, and average deposits grew \$1.1 billion, or 7%;

Very asset-sensitive balance sheet, so well-positioned for rising interest rate environment;

Issued and sold preferred stock with net proceeds of \$55 million;

Issued and sold 3.6 million shares of common stock with net proceeds of \$280 million;

Other Notable Achievements

Record level of loan originations and renewals;

Record level of customer derivative transactions and treasury management activity;

Entered Greenville, South Carolina in December 2016; and

Invested nearly \$60 million in various community development projects, up 8% compared to 2015.

Our focus on continuous improvement in financial results over the last several years is similar to our focus on corporate governance and compensation matters, as evidenced by the following actions:

2008 Adopted over-boarding restrictions, Board resignation policy, stock ownership guidelines, and director education programs;

2009 Established Board Risk Management Committee;

2011 Implemented annual voting on say-on-pay;

2012 Adopted majority voting policy for uncontested elections;

2013 Adopted compensation recovery (claw-back) policy, committed to de-clawing blank check preferred stock, and finalized our mandatory director retirement age policy;

2014 Restructured executive compensation programs to be more quantitative and less qualitative; introduced performance-based long-term incentives; modified compensation benchmarking; publicly disclosed incentive metrics; commenced investor outreach; and

2016 Adopted 2016 Stock Incentive Plan and implemented various corporate governance improvements incorporating changes based on investor feedback.

We believe well-designed compensation programs strive to tie executive pay and performance through short-term and long-term incentives that are appropriately structured to manage the overall risk of the Company. Feedback from our shareholder engagement and outreach led us to make changes in our executive compensation program in 2016, including redesigning our short-term and long-term incentive programs, improving transparency associated with these programs, and providing greater weighting toward performance-based compensation. Executive salaries and targeted incentive programs were frozen at 2015 levels for the 2016 year.

Introduction

In addition, our Board is focused on Board refreshment and enhanced committee rotation. In 2016, we implemented corporate governance policy changes including raising stock ownership guidelines, prohibiting new excise tax gross-ups, moving to double-trigger mechanisms in new change-in-control severance agreements, and restricting pledging of Company stock. We recognize the importance to our shareholders of appropriate risk management and Board independence.

This year, we are asking our common shareholders to vote on four important matters:

The election of three directors, all three of whom are incumbent directors;

The ratification of appointment of an independent registered public accounting firm;

The approval, on an advisory basis, of the compensation of our Named Executive Officers, or NEOs (also called Say-on-Pay); and

The approval, on an advisory basis, of the frequency of future shareholder advisory voting on the compensation of Name Executive Officers.

Our Corporate Governance Guidelines, Codes of Ethics, Conflicts of Interest Policies, and Board Committee charters are available on the Investor Relations portion of the Company's website at www.iberiabank.com under Resources and then Corporate Governance .

Importantly, we listen to our shareholders, we value your support, and we encourage you to share your opinions and suggestions with us. You can reach us by e-mail at investor@iberiabank.com, call us at 337-521-4012, or write to us at IBERIABANK Corporation, c/o Investor Relations, 200 West Congress Street, 12th Floor, Lafayette, LA 70501.

Questions and Answers

Who may vote?

You may vote if you were a holder of IBERIABANK Corporation (**IBKC** or the **Company**) common stock at the close of business on March 21, 2017, which is the record date of the Annual Meeting. Each share of common stock entitles its holder to one vote on each matter to be voted on at the Annual Meeting. Holders of our outstanding shares of preferred stock do not have voting rights at the Annual Meeting.

Participants in our Retirement Savings Plan (the **Plan**) will receive a Voting Authorization Form for the common stock owned through the Plan. If you hold shares as a participant in the Plan and you do not provide the Plan trustees with voting instructions on any matter (either by not returning a Voting Authorization Form or voting by phone or online or due to incomplete voting instructions) and you do not vote in person by attending the Annual Meeting, your shares will be voted in the same proportion as the shares for which voting instructions were provided by other participants. The Voting Authorization Form will serve as voting instructions for trustees of the Plan.

What may I vote on?

You may vote on:

The election of three nominees to serve as directors, for three-year terms expiring in 2020;

The ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2017;

Approval, on an advisory basis, of the compensation of our Named Executive Officers;

Approval, on an advisory basis, of the frequency of future shareholder advisory voting on the compensation of Named Executive officers; and

Such other business as may properly come before the Annual Meeting, or any adjournment or postponement thereof.

How does the Board of Directors recommend I vote?

The Board recommends that you vote:

FOR each of the nominees for director;

FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2017;

FOR the approval of the compensation of our Named Executive Officers; and

FOR a ONE YEAR advisory vote on executive compensation.

If I am a shareholder of record of IBKC shares, how do I cast my vote?

If you are a holder of record of IBKC common stock, you may vote in person at the Annual Meeting. We will give you a ballot at the Annual Meeting.

If you do not wish to vote in person or if you will not be attending the Annual Meeting, you may vote by proxy. If you received a printed copy of these proxy materials by mail, you may vote by proxy using the enclosed proxy card, vote by proxy on the Internet, or vote by proxy over the telephone. The procedures for voting by proxy are as follows:

To vote by proxy using the enclosed proxy card (if you received a printed copy of these proxy materials by mail), complete, sign and date your proxy card and return it promptly in the envelope provided;

To vote by proxy on the Internet, go to www.investorvote.com/ibkc to complete an electronic proxy card. You will need the 15-digit Control Number included on your proxy card; or

To vote by proxy over the telephone, dial 1-800-652-VOTE (8683) (the toll-free phone number listed on your proxy card under the heading "Vote by telephone") using a touch-tone phone and follow the recorded instructions. If you vote by mail, your proxy must be received by 11:00 a.m., Central Time, on May 9, 2017, to be counted.

You may vote on the Internet or by telephone any time prior to 1:00 a.m., Central Time, on May 9, 2017.

We provide Internet proxy voting to allow you to vote your shares on-line, with procedures designed to ensure the authenticity and correctness of your proxy vote instructions. However, please be aware that you must bear any costs associated with your Internet access, such as usage charges from Internet access providers and telephone companies.

Table of Contents

Questions and Answers

If I am a beneficial owner of IBKC shares held in street name, how do I vote?

If you are a beneficial owner of shares of IBKC common stock held in street name (i.e., your shares are held by a broker) and you received a printed copy of these proxy materials by mail, you should have received a voting instruction card with these proxy materials from the organization that is the record owner of your shares rather than from us. If you are a beneficial owner of shares held in street name and you received a notice by mail, you should have received the notice from the organization that is the record owner of your shares rather than from us. Beneficial owners that received a printed copy of these proxy materials by mail from the record owner may complete and mail that voting instruction card or may vote by telephone or over the Internet as instructed by that organization in the voting instruction card. Beneficial owners that received a notice by mail from the record owner should follow the instructions included in the notice to view the Proxy Statement and transmit their voting instructions. If you provide specific voting instructions, your broker or nominee will vote your shares as you direct.

A beneficial owner planning to vote in person at the Annual Meeting must obtain a valid proxy from the record owner. To request the requisite proxy form, follow the instructions provided by your broker or contact your broker.

May I change my vote?

If you are a holder of record of shares of IBKC common stock, you may change your vote or revoke your proxy at any time before your shares are voted at the Annual Meeting by:

Voting again by telephone or over the Internet;

Sending us a proxy card dated later than your last vote;

Notifying the Secretary of IBKC in writing; or

Voting at the Annual Meeting.

How many votes do the proposals need in order to be approved?

Directors are elected by a plurality of the votes cast (Proposal I). Shareholders may vote **FOR** or **WITHHOLD** authority to vote for each nominee for the

Board of Directors. If you withhold authority to vote with respect to any nominee, your shares will be counted for purposes of establishing a quorum, but will have no effect on the election of that nominee.

Our Board has adopted a majority voting policy which applies to an uncontested election of directors. Under this policy, any nominee for director who receives a greater number of votes **WITHHOLD** from his or her election than

votes **FOR** such election is required to promptly tender his or her resignation following certification by the Secretary of the shareholder vote. The Nominating and Corporate Governance Committee would then consider the resignation and make a recommendation to our Board as to the action to be taken. This policy does not apply in contested elections. For more information, see **Proposal I Election of Directors Majority Voting for Directors; Director Resignation Policy**.

The affirmative vote of a majority of the votes actually cast is required for: (i) ratification of the appointment of the independent registered public accounting firm (Proposal II), (ii) approval, on an advisory basis, of the compensation of the Named Executive Officers (Proposal III), and (iii) approval, on an advisory basis, of the frequency of future shareholder advisory voting on the compensation of Named Executive Officers (Proposal IV). Shareholders may vote **FOR**, **AGAINST**, or **ABSTAIN** on Proposal II and Proposal III. Shareholders may vote **FOR** a frequency of **ONE YEAR**, **TWO YEARS**, or **THREE YEARS** or **ABSTAIN** on Proposal IV. If you abstain from voting on Proposal II, III or IV, your shares will be counted as present for purposes of establishing a quorum, but will not be counted as a vote cast for the proposal and will have no effect on the proposal.

If you are the registered holder of IBKC common stock and you sign and submit your proxy card without voting instructions, your shares will be counted for purposes of establishing a quorum, and will be voted **FOR** each director nominee and **FOR** each of Proposals II and III, and **FOR** a frequency of **ONE YEAR** with respect to Proposal IV.

Is cumulative voting permitted for the election of directors?

No. You may not accumulate your vote for the election of directors.

Table of Contents

Questions and Answers

What are broker non-votes?

A broker non-vote occurs when your broker submits a proxy for your shares but does not indicate a vote for a particular proposal because the broker does not have discretionary authority to vote and has not received specific instructions from you. Under the rules of the New York Stock Exchange, if your broker holds your shares (i.e., your shares are held in street name) and delivers this Proxy Statement to you, the broker generally has authority to vote the shares on routine matters. Proposal II is a matter we believe will be considered routine; even if the broker does not receive instructions from you, the broker is entitled to vote your shares in connection with Proposal II. The other Proposals (I, III and IV) are matters we believe will be considered non-routine; the broker is not entitled to vote your shares without instructions. Shares held in street name which have been designated by brokers as not voted (broker non-votes) will not be counted as votes cast. Broker non-votes, however, will be treated as shares present for purposes of determining a quorum. Brokers who are not members of the New York Stock Exchange may not be able to exercise discretionary authority with respect to even routine items depending on the rules of the exchange or market of which the broker is a member.

How many outstanding shares of IBKC common stock are there?

At the close of business on March 21, 2017, which is the record date for the Annual Meeting, there were 50,970,076 shares of IBKC common stock, par value \$1.00 per share, outstanding and entitled to vote.

What constitutes a quorum?

The presence, in person or by proxy, of the holders of a majority of our total voting power will constitute a quorum at the Annual Meeting. Only shareholders of record at the close of business on March 21, 2017, are entitled to notice of, and to vote at, the Annual Meeting.

Will my vote be confidential?

Proxy instructions, ballots, and voting tabulations that identify individual shareholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within the Company or to third parties, except: (1) as necessary to meet applicable legal requirements, (2) to allow for the tabulation of votes and certification of the vote, and (3) to facilitate a successful proxy solicitation.

How will voting be conducted on other matters raised at the Annual Meeting?

The form of proxy confers discretionary authority on the persons named therein to vote with respect to the election of any person as a director where the nominee is unable to serve or for good cause will not serve. It also confers discretionary authority with respect to matters incident to the conduct of the Annual Meeting and with respect to any other matter presented to the Annual Meeting if notice of such matter has not been delivered to us in accordance with our Articles of Incorporation. Except for procedural matters incident to the conduct of the Annual Meeting, we do not know of any other matters that are to come before the Annual Meeting. If any other matters are properly brought before the Annual Meeting as to which proxies in the accompanying form confer discretionary authority, the persons named in the accompanying proxy will vote the shares represented by such proxies on such matters as determined by a

majority of the Board of Directors.

Who will bear the cost of soliciting votes for the Annual Meeting?

We will pay the entire cost of preparing, assembling, printing, mailing, and distributing these proxy materials and soliciting votes. If you choose to access the proxy materials and/or vote over the Internet, you are responsible for Internet access charges you may incur. If you choose to vote by telephone, you are responsible for telephone charges you may incur. Additional solicitations of proxies or votes may be made in person, by telephone, or by electronic communication by our directors, officers, and other regular associates, who will not receive any additional compensation for such solicitation activities. We also have hired Georgeson LLC to assist us in the distribution of proxy materials. We will pay Georgeson LLC a fee of \$8,500, plus customary costs and expenses for these services, and we will indemnify Georgeson LLC against any losses arising out of Georgeson LLC's proxy solicitation services on our behalf. We will reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses for forwarding materials to the beneficial owners of shares held of record by others.

Where can I find the voting results of the Annual Meeting and the Board's decision regarding the frequency of future non-binding advisory votes on executive compensation?

We will disclose voting results in a Current Report on Form 8-K to be filed with the Securities and Exchange

Table of Contents

Questions and Answers

Commission (SEC) within four business days after the Annual Meeting, which will also be available on our website. We will also disclose in the Form 8-K how frequent the Company will hold future non-binding advisory votes on executive compensation.

When must shareholder proposals be submitted for the 2017 Annual Meeting?

Shareholder proposals submitted for inclusion in our 2017 Proxy Statement must have been received in writing by our Secretary no later than the close of business on December 5, 2016. Shareholder proposals submitted outside the process for inclusion in the Proxy Statement must have been received from shareholders of record no later than March 5, 2017.

I share an address with another shareholder, and we received only one paper copy of the proxy materials and 2016 Annual Report to Shareholders. How may I obtain an additional copy of the proxy materials and Annual Report?

A single proxy statement and 2016 Annual Report to Shareholders, along with multiple proxy cards representing each shareholder account, will be delivered

in one envelope to multiple shareholders having the same last name and address and to individuals with more than one account registered at Computershare with the same address unless contrary instructions have been received from an affected shareholder.

If you would like to enroll in this service or receive individual copies of all documents, now or in the future, please contact Computershare by calling 1-800-368-5948 or writing Computershare, P.O. Box 30170, College Station, TX 77842-3170. We will promptly deliver a separate copy of all documents to a shareholder at a shared address to which a single copy of the documents was delivered upon request to Computershare.

Proposal I Election of Directors

Directors and Nominees

Our Articles of Incorporation provide that the Board of Directors will be divided into three classes as nearly equal in number as possible, with each class elected by the shareholders for staggered three-year terms. At the Annual Meeting, shareholders will be asked to elect one class of directors, consisting of three directors, for three-year terms expiring in 2020. The nominees of the Nominating and Corporate Governance Committee of the Board of Directors are currently directors and have not been nominated pursuant to any other arrangement or understanding with any person. Shareholders are not entitled to cumulate their votes for the election of directors.

Our Bylaws currently provide for a Board of 11 persons. The eligibility-age limit under our Bylaws for the nomination and election of directors is 76 years.

Unless otherwise directed, each proxy executed and returned by a shareholder will be voted **FOR** the election of the three nominees listed below. In the

unanticipated event that any nominee is unable or unwilling to stand for election at the time of the Annual Meeting, the Bylaws provide that the number of authorized directors will be automatically reduced by the number of such nominees unless the Board determines otherwise, in which case proxies will be voted for any replacement nominee or nominees recommended by the Nominating and Corporate Governance Committee. At this time, the Nominating and Corporate Governance Committee knows of no reason why any of the nominees might be unable to serve, if elected.

Consistent with our Corporate Governance Guidelines, the Nominating and Corporate Governance Committee seeks to nominate candidates with diverse experiences and perspectives who have the ability to contribute to some aspects of our business and a willingness to make the significant commitment of time and effort required of our directors. Community involvement and leadership are important criteria for our Board members. Each of the nominees listed below possesses these attributes.

Majority Voting for Directors; Director Resignation Policy

In 2012, the Board of Directors approved an amendment to our Corporate Governance Guidelines regarding majority voting for directors. The Board reviewed corporate governance developments and an interested shareholder proposal on the subject of majority voting in the election of directors. The Board concluded that when shareholder

WITHHOLD votes exceed **FOR** votes with regard to a director nominee, the Nominating and Corporate Governance Committee and the Board should carefully consider and assess whether it would be appropriate for the director nominee to remain on the Board.

As amended, the Corporate Governance Guidelines provide that in an uncontested director election, any nominee for director who receives a greater number of votes **WITHHOLD** from his or her election than votes **FOR** such election (a Majority Withheld Vote) would promptly tender his or her resignation following certification by the Secretary of the

shareholder vote. The current plurality vote standard will be retained for contested director elections (elections in which the number of director nominees exceeds the number of Board seats).

The Nominating and Corporate Governance Committee would promptly consider the resignation offer, and a range of possible responses based on the circumstances that led to the Majority Withheld Vote, if known, and make a recommendation to the Board. The Board would act on the Committee's recommendation within 90 days following certification of the shareholder vote.

If each member of the Committee received a Majority Withheld Vote at the same election, then the directors who did not receive a Majority Withheld Vote would consider the resignation offers and recommend to the Board whether to accept them. If three or fewer directors failed to receive a Majority Withheld Vote, all directors may participate in the action regarding the resignation offers. Any director who tenders his or her resignation pursuant to the Guidelines would not participate in the Committee's recommendation or Board action regarding whether to accept his or her individual offer to resign. Thereafter, the Board would promptly disclose its decision-making process and decision regarding whether to accept the director's resignation offer (or the reason(s) for rejecting the resignation offer, if applicable) in a Current Report on Form 8-K furnished to the SEC.

Corporate Governance

Board of Directors and Shareholders Meetings

The Board of Directors met 13 times during the fiscal year ended December 31, 2016. All directors attended at least 75% of the total of all meetings of the Board of Directors and assigned committees in 2016. We encourage directors attendance at our annual shareholder meetings

and request that directors make reasonable efforts to attend such meetings. All of the members of the Board of Directors attended the 2016 Annual Meeting of Shareholders.

Board Leadership Structure

Pursuant to our Bylaws, at the first meeting of each newly elected Board of Directors, or at such other time when there is a vacancy, the Board solicits input and nominations from its members and elects one of its members as Chairman to serve at the Board's pleasure. The Chairman presides over each Board meeting and performs such other duties as may be incident to the office.

Although our Bylaws and Corporate Governance Guidelines would allow our Chairman to hold the position of Chief Executive Officer (CEO), it is the current policy of the Board to separate these offices. This separation allows our Chairman to maintain an independent role in management oversight. The Chairman of the Board also chairs the Nominating and Corporate Governance Committee.

Risk Management

Our Board of Directors recognizes that risk management is an enterprise wide responsibility. Our Board assumes a significant role in risk management both through its actions as a whole and through its committees.

The Board Risk Committee assists the Board in fulfilling its responsibilities with respect to oversight of the Company's enterprise risk management framework, including significant policies and practices used in managing strategic, credit, liquidity, market, operational, compliance, reputational, legal and certain other risks. The Board Risk Committee's role and its relationship and interaction with the Board and other committees regarding risk

oversight are more fully described under [Committees of the Board](#), [Board Risk Committee](#) and [Committee Interaction](#).

The Compensation Committee evaluates, with our senior officers, risks posed by our compensation programs and seeks to limit any unnecessary or excessive risks these programs may pose to us, in order to avoid programs that might encourage such risks. The Compensation Committee's role and its relationship and interaction with the Board, the Board Risk Committee and the Audit Committee are more fully described under [Committees of the Board](#), [Compensation Committee](#), [Committee Interaction](#) and [Compensation Committee Report](#).

The Audit Committee reviews our systems to manage and monitor financial risk with management and our internal audit department. The Audit Committee's role and its relationship and interaction with the Board, the Board Risk Committee and the Compensation Committee are more fully described under [Committees of the Board](#), [Audit Committee](#) and [Committee Interaction](#).

While each of these committees is responsible for evaluating certain risks and overseeing the management of these risks, the entire Board of Directors is regularly informed through committee reports about such risks.

In addition, the Board of Directors and the CEO have appointed a Chief Risk Officer, who is an executive officer of the Company, to support the risk oversight responsibilities of the Board and its committees, and to oversee the corporation's enterprise-wide risk management program, including various management committees. The Chief Risk Officer also manages a team of senior officers who are assigned responsibility for oversight of particular risks and serves as the chairman of the Management Risk Committee.

Board of Directors Independence

Each year, the Board of Directors reviews the relationships that each director has with us and with other parties. Only those directors who do not have any of the categorical relationships that preclude them from being independent within the meaning of applicable NASDAQ listing standards and who the Board of Directors affirmatively determines have no relationships that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director are considered to be independent directors. The Board of Directors has reviewed a number of factors to evaluate the independence of each of its members. These factors include its members' relationships with us and our

competitors, suppliers and clients; their relationships with management and other directors; the relationships their current and former employers have with us; and the relationships between us and other companies of which our Board members are directors or executive officers. After evaluating these factors, the Board of Directors has determined that Ms. Abell and Messrs. Barton, Breaux, Casbon, Cooper, Fenstermaker, Koerner, Maples, Shea and Welch are independent directors of IBERIABANK Corporation within the meaning of applicable NASDAQ listing standards. Independent Board members met in executive session without management present three times during the year ended December 31, 2016.

Codes of Ethics

The Board of Directors has adopted a Code of Ethics for the Chief Executive Officer and Senior Financial Officers. The Board of Directors also has adopted a Code of Ethics and Conflicts of Interest Policy that applies to all officers, other associates and directors. Links to both codes of

Preferred Stock Issuance Representation

The Board of Directors represents that it will not, without prior shareholder approval, issue any series of preferred stock for any defensive or anti-takeover purpose, for the purpose of implementing any shareholder rights plan or with features specifically intended to make any attempted acquisition of the Company more difficult or costly. Subject to these limitations, the Board of Directors may issue preferred stock in connection with capital

raising transactions, acquisitions, and joint ventures and for other corporate purposes that may have the effect of making such an acquisition more difficult or costly, as could also be the case if the Board of Directors were to issue additional shares of common stock. This representation is part of our Corporate Governance Guidelines, a link to which is in the Investor Relations portion of our website at: <http://www.iberiabank.com>.

Corporate Governance Guidelines

The Board of Directors has adopted written Corporate Governance Guidelines, which outline the Board's responsibilities and duties to our shareholders, associates and clients, and to the communities in which we do business, to ensure that we operate with the highest professional, ethical, legal and socially responsible standards. The Guidelines address a number of matters relating to our directors, including Board composition and qualifications, functions of the Board and committees of the Board.

The Guidelines also address the following matters of corporate governance:

No director of our Company may serve on more than three other public company boards. It is expected that each director will be available to attend substantially all meetings of the Board and any committees on which he or she will serve.

Corporate Governance

Directors are required to submit a letter of resignation to the Board upon a job change. There should be an opportunity for the Board through the Nominating and Corporate Governance Committee to review the appropriateness of Board membership under the circumstances.

Employee directors should offer to resign from the Board upon their resignation, removal or retirement as an officer of the Company.

Specific Company stock ownership guidelines for directors, vice chairmen and senior executive vice presidents (which include all Named Executive Officers) have been established and can be found as a part of the IBERIABANK Corporation Corporate Governance Guidelines. A link to the Corporate Governance Guidelines is on the Investor Relations portion of our website, at: <http://www.iberiabank.com>. The stock ownership guidelines for Named Executive Officers are described in this Proxy Statement under Compensation Discussion and Analysis Executive Stock Ownership Guidelines. Adoption of these guidelines was intended to ensure that the interests of directors and senior executive officers are aligned with the interests of our shareholders.

The Company supports and encourages directors periodic participation in continuing education programs to assist them in performing their corporate governance responsibilities.

In an uncontested election of directors, any nominee for director who receives a greater number of votes WITHHOLD from his or her election than votes FOR such election shall promptly tender his or her resignation following certification by the Secretary of the shareholder vote. The Nominating and Governance Committee would then consider the resignation and make a recommendation to our Board as to the action to be taken. This guideline does not apply in contested elections. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, requires each of our directors and executive officers, and each beneficial owner of more than 10% of our common stock, to file with the SEC an initial report on Form 3 of the person's beneficial ownership of our equity securities and subsequent reports on Form 4 regarding changes in ownership. On the basis of reports and representation of our directors, executive officers and greater than 10%

shareholders, we believe that each person subject to the filing requirements with respect to us satisfied all required filing requirements during 2016. In early 2017, H. Spurgeon Mackie Jr., an executive officer of the Company, became aware of his failure to file a Form 4 to report one sale of common stock in 2015. Upon recognition of his inadvertent failure to report the sale of securities, in 2017 Mr. Mackie filed a Form 5 to report the late transaction.

Committees of the Board of Directors

The Board of Directors of the Company has established six committees: the Audit Committee, the Nominating and Corporate Governance Committee, the Compensation Committee, the Board Risk Committee, the Executive Committee and the Investment Committee.

A link to the charter of each of these committees, except for the Executive Committee and the Investment Committee, can be found on the Investor Relations portion of our website, at <http://www.iberiabank.com>.

Audit Committee

The members of the Audit Committee are Mr. Barton, who serves as the chairman, and Messrs. Koerner and Maples and Ms. Abell. Each of the members of the Audit Committee is independent within the meaning of applicable NASDAQ listing standards. The Board of Directors has determined that each of the Audit Committee members has the requisite expertise generally required of an audit committee member under NASDAQ standards and that the Chairman of the Audit Committee, Mr. Barton, is an audit committee financial expert as defined in Item 407(d)(5) of SEC Regulation S-K.

The Audit Committee has oversight responsibility for the quality and integrity of our financial statements. The Audit Committee meets privately with the independent registered public accounting firm, has the sole authority to retain and dismiss the independent registered public accounting firm and reviews their performance and independence from management. The independent registered public accounting firm has unrestricted access and reports directly to the Audit Committee. The Audit Committee met nine times during 2016.

The primary functions of the Audit Committee are to oversee: (i) the audit of the financial statements of the Company provided to the SEC, the shareholders and the general public; (ii) the Company's internal financial and accounting processes; and (iii) the internal audit process. Additionally, the Audit Committee has responsibilities with respect to: (i) complaints relating to accounting, internal accounting controls or auditing matters; (ii) authority to engage advisors; and (iii) funding as determined by the Audit Committee. The Audit Committee also monitors our compliance with legal and regulatory requirements.

The Audit Committee has adopted a formal policy concerning approval of audit and non-audit services to be provided to us by our independent registered public accounting firm. The policy requires that all services to be

provided by the independent registered public accounting firm, including audit services and permitted audit-related and non-audit services, must be pre-approved by the Audit Committee. The Audit Committee pre-approved all audit and non-audit services provided by Ernst & Young LLP during 2016. The Audit Committee will also pre-approve 2017 services to be provided by Ernst & Young LLP.

Pursuant to its Charter, the Audit Committee is authorized to conduct an appropriate review of all related party transactions for potential conflict of interest situations to determine that the related party transaction is consistent with

the best interests of the Company and our shareholders. The term *related party transaction* generally means a transaction, arrangement or relationship (or any series of the same) in which we or our subsidiaries are or will be a participant and the amount involved exceeds \$120,000, and in which the related party has or will have a direct or indirect interest. A *related party* generally means a director, nominee or executive officer of the Company; a person known to be the beneficial owner of more than 5% of our common stock; and any *immediate family member* of the foregoing persons (as defined by the SEC). See *Committee Interaction*.

While it is the responsibility of management and the Board Risk Committee to assess, manage and monitor the Company's enterprise-wide exposure to risk, the Audit Committee will review in a general manner the guidelines and policies to govern the processes used by the Board Risk Committee and the management-level risk committee with respect to enterprise-wide risk management. See *Committee Interaction*.

These and other aspects of the Audit Committee's authority are more particularly described in the Audit Committee Charter. A link to the Audit Committee Charter is on the *Investor Relations* portion of our website, at: <http://www.iberiabank.com>.

Committees of the Board of Directors

Nominating and Corporate Governance Committee

The independent members of the Board of Directors Ms. Abell and Messrs. Barton, Breaux, Casbon, Cooper, Fenstermaker, Koerner, Maples, Shea and Welch serve as our Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee is responsible for evaluating and recommending individuals for election or re-election to the Board of Directors, including those recommendations submitted by shareholders, the evaluation of the performance of the Board of Directors and its committees, and the evaluation and recommendation of corporate governance policies. In 2016, the Nominating and Corporate Governance Committee held seven meetings. A link to the Nominating and Corporate Governance Committee Charter is on the Investor Relations portion of our website, at: <http://www.iberiabank.com>.

It is a policy of the Nominating and Corporate Governance Committee that candidates for director possess the highest personal and professional integrity, have demonstrated exceptional ability and judgment and have skills and expertise appropriate for us and serving the long-term interests of our shareholders. The Committee's process for identifying and evaluating nominees is as follows:

In the case of incumbent directors whose terms of office are set to expire, the Committee reviews such directors overall service to IBERIABANK Corporation during their terms, including the number of meetings attended, level of participation, quality of performance, and any related party transactions with us during the applicable time period; and

In the case of new director candidates, the Committee first conducts any appropriate and necessary inquiries into the backgrounds and qualifications of possible candidates after considering the function and needs of the Board of Directors.

Consistent with our Corporate Governance Guidelines, the Nominating and Corporate Governance Committee seeks to nominate candidates with diverse experiences and perspectives. In evaluating candidates, the Committee considers, among other things, diverse backgrounds, professional experience, education and community involvement, as well as racial and gender diversity. The Committee has not formalized this practice into a written policy.

The Committee meets to discuss and consider these candidates' qualifications, including whether the nominee is independent within the meaning of NASDAQ listing standards, and then selects a candidate by majority vote. In seeking potential nominees, the Nominating and Corporate Governance Committee uses its management's network of contacts to compile a list of potential candidates, but may also engage, if it deems appropriate, a professional search firm. To date, the Nominating and Corporate Governance Committee has not paid a fee to any third party to assist in the process of identifying or evaluating director candidates, nor has the Committee rejected a timely director nominee from a shareholder holding more than 5% of our voting stock.

The Nominating and Corporate Governance Committee will consider director candidates recommended by shareholders, provided the shareholders follow the procedures set forth in Article 6F of our Articles of Incorporation.

The Committee does not intend to alter the manner in which it evaluates candidates, including the criteria set forth above, based on whether the candidate was recommended by a shareholder or otherwise.

Article 6F of our Articles of Incorporation governs nominations of candidates for election as director at any annual meeting of shareholders and provides that such nominations, other than those made by the Board, may be made by any shareholder entitled to vote at such meeting, if the nomination is made in accordance with the procedures set forth in Article 6F, which are summarized below.

A shareholder's notice of nomination must be delivered to, or mailed and received at, our principal executive offices not later than 60 days before the anniversary date of the immediately preceding annual meeting of shareholders and must set forth as to each person who the shareholder proposes to nominate for election as a director and as to the shareholder giving the notice:

The name, age, business address and residence address of such person;

The principal occupation or employment of such person;

The class and number of shares of our stock which are Beneficially Owned (as defined in Article 9A(e) of the Articles of Incorporation) by such person on the date of such shareholder notice; and

Table of Contents

Committees of the Board of Directors

Any other information relating to such person that is required to be disclosed in solicitations of proxies with respect to nominees for election as directors pursuant to Regulation 14A under the Securities Exchange Act of 1934; and as to the shareholder giving the notice:

The name and address, as they appear on our books, of such shareholder and any other shareholders known by such shareholder to be supporting such nominees; and

The class and number of shares of our stock which are Beneficially Owned by such shareholder on the date of such shareholder notice and, to the extent known, by any other shareholders known by such shareholder to be supporting such nominees on the date of such shareholder notice.

To be timely under the Articles of Incorporation, nominations by any shareholder eligible to vote at the 2017 Annual Meeting of Shareholders must have been received by us on or before March 5, 2017.

The Nominating and Corporate Governance Committee may reject any nomination by a shareholder not made in accordance with the requirements of Article 6F. Notwithstanding the foregoing procedures, if neither the Board of Directors nor the Committee makes a determination as to the validity of any nominations by a shareholder, the presiding officer of the annual meeting shall determine and declare at the annual meeting whether the nomination was made in accordance with the terms of Article 6F.

Compensation Committee

Our Compensation Committee has four members and is chaired by Mr. Shea; the other members of the Committee are Messrs. Maples, Fenstermaker and Casbon. Each member of the Compensation Committee has been determined by our Board of Directors to meet NASDAQ, SEC and Internal Revenue Code independence criteria. The Compensation Committee met seven times during 2016.

Compensation Committee Responsibilities and Authority. Our Compensation Committee, in consultation with our President and Chief Executive Officer, is responsible for establishing and monitoring the overall compensation and benefits philosophy and strategy of IBERIABANK Corporation and its subsidiaries. As set forth in its Charter, the responsibilities of the Compensation Committee include:

Evaluating the performance of the CEO and establishing compensation awards for the CEO;

Monitoring and reviewing performance measures and any applicable goals for measuring corporate performance, in consultation with the CEO;

Reviewing and approving the design of compensation programs for key executives; and

Providing oversight of our general compensation programs and policies.

The Compensation Committee determines the compensation for the CEO. With respect to our other senior executive officers, the CEO annually reviews performance and presents his conclusions and compensation recommendations to the Compensation

Committee. The Committee reviews and considers the CEO's recommendations when making its final compensation decisions for all executives other than the CEO. The Compensation Committee also administers our equity incentive programs and oversees risk management with respect to our material incentive compensation arrangements. In addition, the Compensation Committee recommends to the full Board compensation for directors.

The Chair of the Compensation Committee works with the Director of Human Resources to set the meeting agenda for the Compensation Committee.

Compensation Committee Charter. The Charter of the Compensation Committee describes the principles upon which the Committee was founded and operates. The Charter is reviewed and reassessed annually, and any proposed changes are recommended to the Board, to ensure that the Compensation Committee is fulfilling its duties in aligning our executive compensation programs with shareholder value creation, helping us attract and retain talented executives and managers, and being responsive to the legitimate needs of our shareholders. A current copy of the Charter of the Compensation Committee can be found on the Investor Relations portion of our website, at <http://www.iberiabank.com>.

Involvement of Compensation Consultants and Executive Management in Compensation Decisions. Among other matters, the Compensation Committee is authorized to engage outside advisors (including compensation consultants and legal counsel) to assist the Committee in achieving its mission and responsibilities. In 2016, the Committee retained FW Cook to serve as the

Table of Contents

Committees of the Board of Directors

Committee's independent advisor. The decision to retain independent advisors is at the sole discretion of the Compensation Committee, and these consultants work at the direction of the Committee. The Committee assessed the independence of FW Cook, taking into account related factors in accordance with SEC and NASDAQ rules and concluded that the work of FW Cook did not raise any conflict of interest that would prevent them from independently advising the Committee. The Committee has also retained FW Cook to serve as the Committee's independent advisor for 2017.

The Compensation Committee believes that it is important for members of management to provide input on the overall effectiveness of our executive compensation programs. The Committee believes that the advice of outside advisors must be combined with the input of senior management and the Compensation Committee's own individual experiences and best judgment to seek to achieve a proper alignment of compensation philosophies, programs and practices. The CEO, the Senior Executive Vice President of Communications, Human Resources and Facilities and the Director of Human Resources are the members of management who interact most closely with the Compensation Committee. These individuals work with the Compensation Committee to provide their perspectives on reward strategies and how to align them with our business and retention goals. They provide feedback and insights into how well our compensation programs and practices appear to be working. In addition, the CEO, the Director of Human Resources and the Chief Financial Officer attend all or portions of certain Compensation Committee meetings to participate in the presentation of materials and discussion of management's point of view regarding compensation issues.

Executive Session. At certain meetings, the Compensation Committee meets in executive session without members of management present for the purpose of discussing matters independently from management.

Compensation Risk. The Compensation Committee reviewed the relationship between our risk management and the incentive compensation provided to associates, including our Named Executive Officers and other executive and non-executive officers, and determined that our incentive compensation programs do not encourage unnecessary and excessive risk taking. These conclusions were made after consultations with senior executive officers, the Director of Human Resources, the chairman of the Board Risk Committee (who is also a member of the Compensation Committee), and representatives of the Compensation Committee's independent executive compensation advisor. See Committee Interaction.

Compensation Committee Interlocks and Insider Participation. The Compensation Committee is composed entirely of independent directors. During 2016, none of our executive officers served on the board of directors or compensation committee (or other committee serving an equivalent function) of any other entity. None of the members of the Compensation Committee was an officer or other associate of our Company or any of our subsidiaries during 2016, or is a former officer or other associate of our Company or any of our subsidiaries. Members of the Compensation Committee may, from time to time, have banking relationships in the ordinary course of business with IBERIABANK, as described under Certain Transactions.

Board Risk Committee

The Board Risk Committee is a standing committee of the Board of Directors of the Company. The purpose of the Board Risk Committee is to assist the Board in fulfilling its oversight responsibilities with respect to the Company's enterprise risk management framework, risk appetite, risk exposure, risk governance, and significant policies. The members of the Board Risk Committee are Mr. Casbon, who serves as Chairman, and Messrs. Breaux, Cooper, Koerner, Maples, Shea and Welch. The Board Risk Committee met seven times in 2016.

The Board Risk Committee has authority to conduct any investigation appropriate to fulfilling its responsibilities, and it has direct access to all persons in the organization. The Board Risk Committee may retain, at the Company's expense, such special consultants and experts as it deems necessary or appropriate to execute its duties.

At certain meetings, the Board Risk Committee meets without members of management present for the purpose of discussing matters independently from management. The Board Risk Committee meets privately at various times through the year with the Chief Risk Officer and such other officers as the Board Risk Committee deems appropriate to discuss any matters that the Board Risk Committee believes should be discussed.

The function of the Board Risk Committee is solely oversight; management is responsible for executing the Company's risk management and credit origination processes. Each Board Risk Committee member is entitled to rely on persons and organizations within and outside the Company that provide information and advice to management and the Board Risk Committee and on the accuracy and completeness of this information and advice absent actual knowledge to the contrary.

The Board Risk Committee conducts its business pursuant to a written Board Risk Committee Charter adopted and reviewed at least annually by the Board of Directors. A link to the Board Risk Committee Charter can be found on the Investor Relations portion of our website, at <http://www.iberiabank.com>.

Committee Interaction

In connection with the responsibilities of the Board Risk Committee, with respect to the relationship between the Company's risk management and the incentive compensation provided to associates, including Named Executive Officers identified in this Proxy Statement and other executive and non-executive officers, the Compensation Committee determines whether incentive compensation programs encourage unnecessary and excessive risk taking. The Compensation Committee will seek to limit any unnecessary or excessive risks that these programs may pose to the Company, in order to avoid programs that might encourage such risks. The Board of Directors recognizes that information and

reports prepared for and reviewed by the Compensation Committee and the Board Risk Committee may each be relevant to the oversight and responsibilities of the other, and should be provided to the other, as appropriate.

In connection with the responsibilities of the Audit Committee with respect to compensation risk assessment, the Board of Directors recognizes that information and reports prepared for and reviewed by each of the Compensation Committee, the Audit Committee and the Board Risk Committee may be relevant to the oversight and responsibilities of the other committees, and should be provided to the other committees, as appropriate.

Report of the Audit Committee

The Audit Committee of the Board of Directors is composed of four non-employee directors. The Board has made a determination that the members of the Audit Committee satisfy the listing standards of NASDAQ as to independence, financial literacy and experience. The responsibilities of the Audit Committee are set forth in the Charter of the Audit Committee, as adopted by the Board of Directors of the Company. This is a report on the Committee's activities relating to fiscal year 2016.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements for fiscal year 2016 with the Company's management, including a discussion of the quality, not just the acceptability, of the accounting principles, underlying estimates and significant judgments used in the financial statements. Management has the responsibility for the preparation of the Company's financial statements. Management represented to the Audit Committee that the financial statements were prepared in accordance with generally accepted accounting principles.

The Audit Committee reviewed the audited financial statements with the independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of those statements with generally accepted accounting principles, and discussed with the independent registered public accounting firm their judgments as to the quality, not just the acceptability, of the Company's accounting principles. The Audit Committee also discussed with the independent accounting firm the matters required to be discussed by Statement on Auditing Standards No. 114, *The Auditor's Communication With Those Charged With Governance*, as currently in effect.

The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm required by Rule 3526, *Communication with Audit Committee Concerning Independence*, of the Public Company Accounting Oversight Board, as currently in effect, and the Audit Committee has discussed with the independent registered public accounting firm its independence.

The Audit Committee also considered the compatibility of non-audit services with the independent registered public accounting firm's independence. Executive Compensation Program Changes

In response to the shareholder advisory vote on the compensation of our NEOs (commonly known as "Say-on-Pay") at our 2015 Annual Meeting of Shareholders, at which 69% of the common shares voted approved our executive compensation program, we engaged in a holistic review of our executive compensation program, including continued discussions with major shareholders.

The significant changes made to our executive compensation programs in 2016 were well received by our shareholders as evidenced by overwhelming support of our 2016 Say-on-Pay vote (91% favorable support). Our Compensation Committee believes that these voting results reflect our shareholder's endorsement of the recent structural changes made to, and the current direction of, our executive compensation program, and affirm alignment of our program with shareholder interests. We continue to maintain an open and active dialogue with our shareholders to identify ways to further refine and improve our executive compensation program, and the Committee believes our current program adequately and effectively addresses shareholder concerns, promotes the Company's business strategy and aligns pay with performance and shareholder value.

PAY FOR PERFORMANCE PHILOSOPHY

Philosophy and Objectives of our Executive Compensation Program

The Compensation Committee's general philosophy is that all elements of target compensation (e.g., base salary, target annual incentive award opportunity, and target long-term incentive award opportunity) should be based on competitive market data, with incentive compensation targeted at the median of similarly situated executives among our peer group or other relevant industry benchmarks. The competitive positioning of target compensation levels for individuals may vary above or below the median based on individual, executive-specific factors such as tenure,

experience, and proficiency in role or criticality to the Company. The Compensation Committee's objective is to provide a program that:

Attracts and retains high performing executives;

Has a significant portion of pay tied to business performance;

Aligns compensation with shareholder interests while rewarding long-term value creation;

Discourages excessive risk-taking by rewarding both short-term and long-term performance;

Reinforces high ethical conduct; and

Maintains flexibility to respond to industry dynamics.

Unlike target compensation levels, which are set by the Compensation Committee near the beginning of the year, actual compensation is a function of our operational, financial, and stock price performance, as reflected through annual incentive payouts and the value of all long-term incentive awards at vesting. Actual compensation is intended to vary above or below target levels commensurate with our performance.

Compensation Mix

Our strategy for compensating our NEOs and other associates has been based on programs that emphasize performance-based variable compensation. During 2016, the Compensation Committee approved the following incentive plan designs for our NEOs, which included:

Annual Incentive Awards: a transparent and formulaic plan, rewarding achievement of profitable growth and credit quality.

Long-Term Incentive Awards: granted three types of equity based awards that in combination balance alignment with shareholder interest (stock options), retention (restricted stock) and long-term performance accountability (performance shares).

Compensation Discussion and Analysis

The Company's emphasis on performance-based compensation is best illustrated by the mix of 2016 compensation for NEOs which was as follows:

This illustrates that the majority of our NEO's total direct compensation package is variable pay. Furthermore, it also shows our emphasis on long-term incentive compensation over short-term (annual) incentive compensation.

DECISION MAKING PROCESS

Role of Compensation Committee

The Compensation Committee administers the Company's compensation program for the President and CEO and other NEOs. The Compensation Committee's authority and responsibilities are set forth in its charter and include, but are not limited to:

Reviewing and approving the compensation for the President and CEO, and other executives;

Selecting and approving the performance metrics and goals for all executive officer compensation programs and evaluating performance at the end of each performance period; and

Approving annual incentive award and long-term incentive award opportunities.

In making compensation decisions, the Compensation Committee uses multiple resources and tools, including the services of its independent compensation advisor.

Compensation Decisions for the Named Executive Officers

Individual compensation decisions (base salary adjustments and incentive awards) for all NEOs are based upon core performance, achievement of strategic initiatives and individual performance. The Committee, in its sole discretion, determines any salary adjustments and approves the annual and long-term incentive awards for the President and CEO.

Independent Compensation Consultant

The Compensation Committee has retained FW Cook as its independent consultant reporting directly to the Compensation Committee.

In its role as the Committee's independent advisor, FW Cook attends Committee meetings and advises on matters including compensation program design, competitive benchmarking and relative pay for performance. FW Cook also

provides market data, analysis and advice regarding compensation of our NEOs and other executive officers. FW Cook does not provide any services to the Company other than executive compensation consulting services to the Committee.

Competitive Benchmarking

Annually, the Compensation Committee reviews competitive data for comparable executive positions in the market. External market data is used by the Compensation Committee as a point of reference in its executive pay decisions in conjunction with financial and individual performance data.

Table of Contents

Compensation Discussion and Analysis

The Committee also considers analysis from a comprehensive total compensation study, which delineates each compensation element for NEOs, competitive benchmarking, and other analysis, as further described below.

Individual Performance

Level of responsibility

During 2016, the Compensation Committee worked with the Committee's independent compensation consultants to review and define an appropriate peer group of publicly traded commercial bank holding companies. As a result of this review and selection process, the Committee removed one bank holding company, First Merit Corporation, which was acquired in 2016 and one bank holding company was added as a peer (Synovus Financial Corp.). The bank holding companies in the peer group were as follows:

The Company's period-end total assets were 4% less than the peer average at December 31, 2016.

In addition, the Compensation Committee reviewed compensation survey data for national commercial banking companies as provided by the independent compensation consultant. All of this national survey data was size-adjusted to reflect commercial banks with approximately \$21 billion in assets, which was the approximate size of the Company at the time of the compensation review. This national industry perspective provides the Compensation Committee with both a broader view of the executive labor market and additional context from which to evaluate the competitiveness of the Company's compensation program.

Compensation Discussion and Analysis

Base Salary

We view annual base salary as an important component of compensation for attracting and retaining executive talent. Annual base salaries serve as the foundation for our employee pay structure. Executive base salaries are set after considering factors including external market competitiveness, individual performance and internal equity. Prior to determining the base salary for each NEO, the Compensation Committee evaluates the results from the comprehensive total compensation study, along with competitive benchmarking discussed in this Compensation Discussion and Analysis.

After reviewing the total compensation targets for our NEOs against market peers, the Compensation Committee decided not to increase 2016 base salaries and keep them consistent with 2015 levels.

The base salaries paid to each NEO in 2016 are disclosed in the Summary Compensation Table.

Named Executive Officer	2015 Base Salary	2016 Base Salary	% Increase
Daryl G. Byrd	\$ 1,095,150	\$ 1,095,150	0%
Anthony J. Restel	\$ 525,000	\$ 525,000	0%
Michael J. Brown	\$ 625,000	\$ 625,000	0%
John R. Davis	\$ 475,000	\$ 475,000	0%
Jefferson G. Parker	\$ 500,000	\$ 500,000	0%

Annual Incentive Awards

The annual incentive award program focuses executive officers on key core drivers of long-term success and strikes a balance between profitable growth and credit quality. The Compensation Committee approves specific targets for each performance metric and evaluates performance against these targets. All executive officers have a target award opportunity, as well as a maximum award, that may be paid under the annual incentive award program.

During the first quarter of 2016, the Compensation Committee established the target percentage of base salary for each of the NEOs. The Committee used the 2016 base salary in calculating the annual incentive award payments. The following chart shows the range of annual incentive award opportunities expressed as a percentage of base salary for the NEO. No changes were made to the NEO's 2016 target annual incentive amounts.

Named Executive Officer	Target Bonus Opportunity	
	% of salary	\$
Daryl G. Byrd	90%	\$ 985,635
Anthony J. Restel	75%	\$ 393,750
Michael J. Brown	75%	\$ 468,750
John R. Davis	65%	\$ 308,750
Jefferson G. Parker	75%	\$ 375,000

The following formula was used to calculate the payment that could be awarded to a NEO under the 2016 annual incentive award program:

Base Salary x Target Percentage of Base Salary x Total Weighted Performance Factor (0 - 200%)

Table of Contents

Compensation Discussion and Analysis

For 2016, the Compensation Committee established the following metrics as the basis for the determination of payouts, if any, under the annual incentive plan. These financial metrics were selected to provide a holistic evaluation of Company performance with an emphasis on profitability, but not at the expense of growth or asset quality.

Metric	Weighting
Core Earnings	50%
Annual Net Charge Offs to Average Loans	25%
Legacy Non-performing Assets/Total Assets	25%

** Annual Incentive Award capped at 200% of target for each.

*** Represents actual performance compared to a pre-determined range of acceptable outcomes approved by the Compensation Committee.

Based on the core performance of the Company relative to the targets established for 2016, our NEO Total Weighted Performance Factor was 87.28%. The Compensation Committee reviewed the overall performance of the Company and concluded that no qualitative adjustments were required and that the Total Weighted Performance Factor fairly captured core performance for 2016. Accordingly, the Total Weighted Performance Factor used for the annual incentive payout was set at 87.28%, a level below the targeted payout factor of 100%. The Compensation Committee

Table of Contents

Compensation Discussion and Analysis

believes these incentive payments are aligned with the Company's philosophy, market-based compensation practices, and the contribution of each NEO.

Annual Incentive Payment Calculation for 2016

	2016		2016
	Annual		Annual
	Incentive	Total Weighted Performance	Incentive

Michael J. Brown	\$ 468,750	87.28%	\$ 409,117

2016 Long-Term Incentive (LTI) Plan

As referenced in earlier sections of this CD&A, significant changes to the LTI program occurred in 2016 such that beginning in 2016, 60% of the annual LTI award value is allocated to Performance-based RSUs that have prospective three-year performance goals of core ROTCE and relative TSR. The allocation of LTI value to stock options and restricted stock has been significantly reduced from 2015. The chart below further outlines the mix and target weighting of the LTI awards for 2016.

Type of LTI	Vesting Time Frame	Performance Metric	Percent of Total LTI Award Value
Performance-based RSUs	3 Years - cliff vesting	Core ROTCE; Relative TSR	60%
Stock Options	3 Years - 33% per year	None	10%
Restricted Stock	3 Years - 33% per year	None	30%

We consider long-term equity-based compensation to be critical to the alignment of executive compensation with shareholder value creation. Therefore, a market competitive, long-term equity-based incentive component is an integral part of our overall executive compensation program.

The total long-term incentive award in a given year is based on a multiple calculated as a percentage of base salary. The multiple is converted into an aggregate long-term incentive award. The following chart reflects the 2016 target award opportunities for each NEO:

Named Executive Officer	LTI Opportunity	
	% of salary	\$
Daryl G. Byrd	200%	\$ 2,190,300
Anthony J. Restel	110%	\$ 577,500
Michael J. Brown	120%	\$ 750,000
John R. Davis	110%	\$ 522,500
Jefferson G. Parker	110%	\$ 550,000

Target long-term incentive opportunities are established based on competitive market practices. The fair value of 2016 long-term incentive awards is reflected in the Summary Compensation Table. In 2016, our long-term equity incentive program consisted of the following components:

Performance-based RSUs (60% of LTI award): During 2016, all NEOs received performance-based RSUs on February 18, 2016. These RSUs are awards that will be earned in shares based on meeting specified three-year

Table of Contents

Compensation Discussion and Analysis

performance criteria. These RSUs are settled in shares at payout based on meeting core ROTCE and relative TSR performance goals. Relative TSR is measured against the KBW Regional Bank Index over a three year period. The Company must perform at the 50th percentile of the index in order to earn the target awards. If the Company meets or exceeds the 75th percentile relative TSR of the index and meets or exceeds the maximum ROTCE goal, participants can earn 250% of the target award. These RSUs are also eligible to receive dividends declared based on the percentage of goals achieved. Shares earned will be awarded on March 1, 2019.

Stock Options (10% of LTI award): On February 18, 2016, our NEOs were granted stock options with an exercise price of \$47.35, which was the closing market value for the common stock on the date of grant. Stock options reward NEOs for increasing the market price above the exercise price. We maintain a policy against repricing stock options without shareholder approval.

Restricted Stock (30% of LTI award): Restricted shares are awarded subject to transfer and vesting restrictions. Restricted share awards are intended to build stock ownership and foster executive retention. All of the NEOs received restricted share awards on February 18, 2016. All of these restricted share awards have dividend and voting rights.

2014-2016 Performance-based RSUs

During 2014, the NEOs received performance-based RSUs that are earned in shares based on meeting three-year core EPS and relative TSR performance goals (relative to the KBW Regional Bank Index). The final payout percentage for these awards was 110.3% of the target grant, as illustrated in the table below:

Performance Goal	Core EPS	TSR Relative to KBW Regional Bank Index
<i>Weight</i>	<i>50%</i>	<i>50%</i>
Threshold	\$ 3.75	Bottom Percentile Rank
Target	\$ 4.25	50 th Percentile Rank
Maximum	\$ 4.75	100 th Percentile Rank
Actual Performance	\$ 4.43	84.5th Percentile Rank

On March 1, 2017, the NEOs cliff vested in 110.3% of their performance-based RSU grant, settled in shares, for the 2014-2016 performance period.

Other Benefits and Limited Perquisites

We provide our NEOs with few perquisites, including club memberships, an annual physical examination, an automobile allowance and corporate aircraft flight benefits. We also provide our NEOs a non-qualified deferred compensation plan and individual long-term disability insurance coverage.

Acknowledging our expanded footprint and desire to achieve greater travel efficiencies, the Company acquired a corporate aircraft in 2014. Personal use of corporate aircraft is limited. However, any personal use will trigger imputed income to the NEO, calculated according to the IRS guidelines.

Personal use of the corporate aircraft is included under *Other Compensation* in the Summary Compensation Table.

In 2016, all trips taken by our CEO and other NEOs on corporate aircraft that were reported in the Summary Compensation Table as personal use amounted to less than \$10,000.

Post Termination and Other Employment Arrangements

The Company provides benefits to our NEOs upon certain terminations of employment from the Company. These benefits are in addition to the benefits to which the executives would be entitled upon a termination of employment generally (i.e., vested retirement benefits accrued as of the date of termination, stock awards that have vested as of the date of termination and the right to elect continued health coverage pursuant to COBRA). The incremental benefits payable to the executives are described below.

Compensation Discussion and Analysis

The Company has a three-year employment agreement with our President and CEO, Daryl G. Byrd, that automatically renews for an additional year on each anniversary of the agreement unless not earlier than 90 days before the anniversary, the Company gives notice that it will not be renewed. The purpose of this employment agreement is to help retain Mr. Byrd and to define severance benefits for various types of employment terminations. In addition to change in control payments consistent with those of the other NEOs, Mr. Byrd's employment agreement requires payment of compensation and/or benefits under various other termination of employment situations. Under the terms of this agreement, if Mr. Byrd's employment is terminated for other than Cause (as defined), disability, retirement, or death, or if Mr. Byrd terminates his employment for Good Reason (as defined), then he would be entitled to severance benefits. Under this termination, he would be entitled to cash severance payments equal to the greater of one year's base salary or his base salary for the remaining term of the agreement.

In the event that Mr. Byrd's employment is terminated for disability, we would provide continued medical insurance for his benefit and the benefit of his spouse and minor children for the remaining term of the agreement. In the event of Mr. Byrd's death during the term of the agreement, the Company would continue to provide medical insurance for his spouse and minor children for the remaining term. Also, in the event of his death, Mr. Byrd's spouse, estate, legal representative, or named beneficiaries would be entitled to receive his annual compensation (including base salary and any discretionary cash bonus the Compensation Committee would then deem appropriate) for 12 months from his date of death.

If Mr. Byrd's employment is terminated by him within 30 days of a Change in Control (as defined), or within 90 days of an event constituting Good Reason occurring within three years of a Change of Control, or within 30 days of the first anniversary of a Change in Control, or if his employment is terminated by the Company without Cause within three years of a Change of Control, then he would be entitled to receive either the greater of his salary for the remaining term of the agreement, twice his salary, or the Internal Revenue Code Section 280G ("280G Maximum") defined generally as 2.99 times his average compensation over the previous five years. If any payments to be made under the agreement are deemed to constitute "excess parachute payments" and, therefore, subject to an excise tax under Section 4999 of the Internal Revenue Code, the Company would pay him the amount of the excise tax plus an amount equal to any additional federal, state, or local taxes that may result because of such additional payment. In addition to the cash severance benefits described, Mr. Byrd would be entitled to a continuation of benefits similar to those he was receiving at the time of such termination for the period otherwise remaining under the term of the agreement or until he obtains full-time employment with another employer, whichever occurs first. Additional details concerning these benefits can be found under the "Potential Payments Upon Termination or Change in Control" heading.

We have entered into Change in Control Severance Agreements with members of senior management, including each of our NEOs other than Mr. Byrd. The agreements provide for severance pay and benefits to the individuals upon voluntary resignation within 30 days after a Change in Control of IBERIABANK Corporation, as defined, or if within three years of a Change in Control the individual resigns for Good Reason, as defined, or is terminated by the Company or its successor without Just Cause, as defined. The severance payment is equal to 100% of each individual's 280G Maximum. In addition, each will be entitled to continued medical and life insurance benefits at the Company's expense for 39 months following termination of employment. We will also make the individual whole for any excise tax imposed by the Internal Revenue Service with respect to any payments under the agreement. Each of these agreements was amended in 2008 to comply with the deferred compensation requirements of Internal Revenue Code Section 409A.

OTHER COMPENSATION PROGRAM ASPECTS**Executive Stock Ownership Guidelines**

We believe it is important for our NEOs and other senior executive officers to be significant shareholders so that their financial interests are aligned with our other shareholders. To foster executive stock ownership, we maintain executive stock ownership guidelines. We believe that these ownership guidelines as well as our total long-term incentive program have been effective in building an ownership culture. Thus, the financial interests of our executive leadership team are directly aligned with other shareholders. These ownership guidelines are stated as a multiple of base salary. NEOs have five years from the date the guideline applies to meet the target ownership level. The table below summarizes the share guidelines for NEOs expressed as a multiple of current base salary.

	2016 Ownership Guideline
Named Executive Officer	Multiple of Salary
Daryl G. Byrd	5x Base Salary
Anthony J. Restel	3x Base Salary
Michael J. Brown	3x Base Salary
John R. Davis	3x Base Salary
Jefferson G. Parker	3x Base Salary

Currently, all NEOs are in compliance with the required stock ownership guidelines.

The Stock Ownership Guidelines are part of the IBERIABANK Corporation Corporate Governance Guidelines. A link to these guidelines is on the Investor Relations portion of our website at: <http://www.iberiabank.com>.

Equity Grant Practices

The Compensation Committee generally grants equity awards in February of each year. The Compensation Committee does not have any programs, plans, or practices of timing these awards in coordination with the release of material non-public information. We have never backdated, re-priced, or spring-loaded any of our equity awards.

Anti-Hedging Policy and Trading Restrictions

Our current policy limits the timing and types of transactions in our securities by covered persons, defined to include directors and officers of the Company and its subsidiaries and members of their immediate families. Among other restrictions, the policy:

Allows covered persons to trade Company securities only during window periods following earnings releases and, as to a pre-approval group of covered persons (generally, Section 16 filers), only after they have pre-cleared

transactions;

Prohibits covered persons from short-selling Company securities;

Prohibits covered person transactions in puts, calls, or other derivative securities regarding the Company; and

Prohibits covered persons from engaging in hedging or monetization transactions that involve Company securities.

Anti-Pledging Policy

In March 2016, the Board of Directors amended the Company's insider trading policy to prohibit directors, executive officers and other persons subject to such policy, subsequent to the date of adoption, from holding shares in margin accounts or pledging shares as collateral for a loan. These restrictions will not apply to shares of Company common stock held in a margin account or pledged as collateral for a loan prior to the date of adoption of amendments to such policy. Under certain limited circumstances, an exception to the prohibition on pledged common stock may be granted.

Compensation Recovery Policy

The Company maintains a written Compensation Recovery Policy. This policy applies to each of the NEOs and permits the recovery of incentive-based compensation paid to an officer if: (1) incentive-based compensation, bonuses, or equity awards were paid or vested during fiscal periods based on materially inaccurate financial statements, and (2) that officer engaged in fraud, willful misconduct, or a violation of Company policy that caused or otherwise contributed to the need for a material restatement of the Company's financial results. The Board, considering the best interests of shareholders and the recommendation of the Compensation Committee, has sole discretion to determine whether the applicable standard of conduct has been met and whether any such recovery should be pursued.

The Compensation Recovery Policy is part of the IBERIABANK Corporation Corporate Governance Guidelines. A link to the Corporate Governance Guidelines is on the Investor Relations portion of our website at:

<http://www.iberiabank.com>.

Risk Management Considerations

The Compensation Committee reviews risks and rewards associated with our compensation programs, which include features that we believe mitigate risks without reducing incentives. Our compensation programs are intended to both encourage and reward prudent business judgment and appropriate long-term risk-taking. The Compensation Committee seeks to identify and remediate risk-taking incentives that may exist in these programs. The Chairman of the Board Risk Committee is also a member of the Compensation Committee.

Indemnification Agreements

The Company has indemnification agreements with Daryl G. Byrd and Michael J. Brown that provide for indemnification and advancement of expenses to the fullest extent permitted by law with respect to pending or threatened claims against them in their capacities as our officers. Following a Change in Control (as defined), all determinations regarding a right to indemnity and advancement of expenses are to be made by an independent legal counsel. In the event of a potential Change in Control, we must create a trust for the benefit of the indemnified executive officers, which upon a Change in Control may not be revoked or the principal thereof invaded without the indemnities' written consent. While not requiring the maintenance of directors' and officers' liability insurance, the indemnification agreements require that the indemnities be provided with maximum coverage if there is such insurance.

Section 162(m)

Section 162(m) of the Internal Revenue Code (the Code) limits to \$1 million a public company's annual tax deduction for compensation paid to certain highly compensated executive officers. Qualified performance-based compensation is excluded from this deduction limitation if certain requirements are met. The Committee's policy is to structure compensation awards that will be deductible where doing so will further the purposes of our executive compensation programs. The Compensation Committee also considers it important to retain flexibility, to design compensation programs that recognize a full range of criteria important to our success, even where compensation payable under the programs may not be fully deductible. As such, the Compensation Committee may implement revised or additional

compensation programs in the future as it deems necessary to appropriately compensate our executive team.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors of the Company is composed entirely of non-employee directors, each of whom has been determined in the Board's business judgment to be independent. The Compensation Committee is responsible for oversight and review of the Company's compensation and benefit plans.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis as required by Item 402(b) of Regulation S-K with the management of the Company. Based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

We estimate the aggregate incremental cost of the Company aircraft to be equal to the average operating cost for the year (which includes items such as fuel, maintenance, landing fees and other direct costs) based on the number of hours flown each year. Direct incremental costs for charter flights are the amount of the charter, and direct incremental costs for the fractional interest in an aircraft are based on the additional hourly charges for the flight, fuel and other direct costs.

Grants of Plan-Based Awards

The following table provides information concerning grants of awards made to our NEOs during the year ended December 31, 2016.

The 2016 stock option grants, restricted stock, and restricted share unit awards to the NEOs were issued from our 2010 Stock Incentive Plan. Under this plan, equity-based awards vest on a change-in-control occurrence. Dividends are payable on all unvested restricted stock at the same rate paid on all other outstanding shares of our common stock. Dividend equivalent units are added to all unvested restricted share unit grants. In 2016, we declared dividends payable in the amount of \$1.40 per share.

(1) For option awards, this represents the grant date fair value based on Black Scholes model valuation of \$10.46 per share for grants on February 18, 2016. For restricted stock awards, the fair value is based on the grant date fair value of our common stock.

(2) Restricted share units were issued under our 2010 Stock Incentive Plan. Following the end of the three-year performance period, but prior to March 1, 2018, the Compensation Committee will determine the percentage of the target award value that will vest, which will be between 0% and 250% of the target award value. Payout of the vested RSUs will be effective on March 1, 2018. Any remaining unvested RSUs will be immediately forfeited. The value of the shares on the grant date of each of the RSUs was \$47.35 per share.

(3) Restricted stock awards and stock option grants were issued under our 2010 Stock Incentive Plan and vest over three years in equal increments on the anniversaries of the date of grant.

In 2016, associates, including all current officers who are not executive officers, as a group were granted restricted stock and option awards totaling 211,662 shares under the 2008, 2010 and 2016 Stock Incentive Plans. The weighted average option exercise price was \$49.89 per share. All executive officers as a group were granted restricted stock and option awards totaling 119,091 shares under the 2010 Stock Incentive Plan. The weighted average option exercise price was \$47.35 per share. The Company issued a total of 81,821 restricted share units under the 2010 Stock Incentive Plan to certain executive officers, including the named executive officers, in 2016.

Non-Qualified Deferred Compensation

We offer directors and a select group of management and highly compensated key associates the right to participate in a Non-Qualified Deferred Compensation Plan. Participants may elect to defer up to 90% of their annual base salary or incentive compensation, including incentive bonuses, service bonuses, and commissions. The Plan allows for discretionary employer contributions. The investment options available under the Non-Qualified Deferred Compensation Plan are similar to those available under the Company's 401(k) plan. Earnings are credited to the account based on the performance of the investment options selected. Participants vest immediately in their deferrals. As a general rule, payment terms of deferred amounts and investment options are determined by the participant during enrollment and are subject to a deferral of at least two years, except under certain qualifying events, including the participant's separation from service, a change in control, an unforeseeable emergency, or death. Payment shall be made in a single lump sum or, in the event of a separation from service after reaching age 65, disability, or scheduled in-service distribution, in equal annual installments over the period specified by the participant, not to exceed five years. The following table shows certain information for Named Executive Officers under the Corporation's Non-Qualified Deferred Compensation Plan. Messrs. Potential Payments Upon Termination or Change in Control

The Company provides benefits to the Named Executive Officers upon certain terminations of employment from the Company. These benefits are in addition to the benefits to which the executives would be entitled upon a termination of employment generally (i.e., vested retirement benefits accrued as of the date of termination, stock awards that have vested as of the date of termination and the right to elect continued health coverage pursuant to COBRA). The incremental benefits payable to the executives are described below.

We have entered into Change in Control Severance Agreements with members of senior management, including each of our Named Executive Officers other than Mr. Byrd. Except for these agreements, and our broad-based severance policy, none of our Named Executive Officers, other than President and CEO Byrd, have employment arrangements. Mr. Byrd's employment agreement requires payment of compensation and/or benefits under various termination of employment situations. In addition to change in control payments consistent with those of the other Named Executive Officers, if Mr. Byrd's employment had been terminated at December 31, 2016, he would have been entitled to (i) a salary of \$2,737,875 and benefits of \$73,541, in the event of termination other than for Cause, death or disability, (ii) annual compensation of \$1,095,150, benefits of \$39,742, and any appropriate bonus as determined by the Compensation Committee, in the event of termination due to death, and (iii) \$39,742 in benefits in the event of termination due to disability. These agreements are described more fully in the Compensation Discussion and Analysis section.

In 2000, we entered into separate Change in Control Severance Agreements with John R. Davis and Michael J. Brown providing for severance pay and benefits to the individual upon voluntary resignation within 30 days after a Change in Control of IBERIABANK Corporation, as defined, or if within three years of a Change in Control the individual resigns for Good Reason, as defined, or is terminated by the Company or its successor without Just Cause, as defined. In 2006, we amended and restated the 2005 Change in Control Severance Agreement with Anthony J. Restel, and in 2009, we entered into a separate Change in Control Severance Agreement with Jefferson G. Parker. The severance payment is 100% in the case of Mr. Davis, Mr. Brown, Mr. Parker and Mr. Restel, of each individual's 280G Maximum, defined generally as 2.99 times his average compensation over the previous five years. In addition, each will be entitled to

continued medical and life insurance benefits at the Company's expense for 39 months following termination of employment. We will also make the individual whole for any excise tax imposed by the Internal Revenue Code with respect to any payments under the agreement. Each of these agreements was amended in 2008 to comply with the deferred compensation requirements of Internal Revenue Code Section 409A.

(1) Amounts include monthly board member fees deferred under the Company's Non-qualified Deferred Compensation Plan. Mr. Barton deferred \$55,800 during 2016.

(2) Represents the grant date fair value of restricted stock awards granted in 2016.

(3) Each outside director was granted 1,200 shares of restricted stock on May 5, 2016 with a grant date fair value of \$57.77 per share. Awards become vested and non-forfeitable on the first anniversary from the date of the award. At December 31, 2016, all directors had 1,200 shares of unvested restricted stock outstanding.

Cash and Stock Payments. Each director who is not employed (referred to as outside directors or non-management directors), except the Chairman, is paid a fee of \$5,167 per month. Rick Maples joined the Board in May of 2016 and received a monthly fee of \$5,167 from May to December. The Chairman receives a fee of \$6,000 per month. Members of the Board of Directors receive no additional compensation for their participation on any committee or for other services as our directors. During 2016 Daryl G. Byrd, President and CEO, was the only director employed by the Company.

During 2016, the Compensation Committee authorized each outside director to receive 1,200 shares of restricted stock (which were valued based on the closing price of the common stock as of the date of the award of \$57.77). All of these shares of restricted stock will vest over a one-year period, and the total value of these awards will be allocated on the first anniversary from the date of the award. The Company did not issue any stock options or

non-equity incentive compensation to any member of its Board of Directors. In addition, the Company does not sponsor a defined benefit pension plan and has not paid other forms of compensation as defined in Item 402(j) of Regulation S-K to its Board of Directors during 2016.

The Compensation Committee annually reviews and makes recommendations regarding director compensation. These recommendations are based upon, among other things, the Committee's consideration of compensation paid to directors of comparable financial institutions.

Other Benefits. Our Articles of Incorporation and Bylaws require us to indemnify our directors and officers to the fullest extent permitted by law so that they will be free from undue concern about personal liability in connection with their service to the Company. We also provide our directors with customary directors and officers liability insurance coverage.

2017 Proxy Statement 59

Table of Contents**Certain Transactions**

A number of our directors, executive officers, and members of their immediate families, as well as organizations with which they are affiliated, were clients of IBERIABANK during 2016. All loans to our related persons as defined in Instruction 1 to Item 404(a) of Regulation S-K were made in the ordinary course of business, on substantially the same terms, including interest rates and collateral, as those provided at the time for comparable loans with persons not related to the lender, and did not involve more than the normal risk of collectability or present other unfavorable features.

IBERIABANK and several other financial institutions previously extended credit (the Credit Facility) under a multi-bank syndicated credit facility to Stone Energy Corporation (the Borrower). One of the Company's directors, David H. Welch, is the Chairman, President and Chief Executive Officer of the Borrower. IBERIABANK held approximately six percent of the total commitments from twelve banks under the Credit Facility. On December 14, 2016, the Borrower filed for Chapter 11 Bankruptcy with the U.S. Bankruptcy Court in the Southern District of Texas. At the time of the filing, \$341.5 million was outstanding under the Credit Facility, with approximately \$20.3 million outstanding and due to IBERIABANK. At December 31, 2016, the outstanding amount due IBERIABANK under the Credit Facility was on non-accrual status. On February 15, 2017, Borrower's Second Amended Joint Prepackaged Plan of Reorganization (the Plan) was confirmed by the U.S. Bankruptcy Court. Pursuant to the Plan, banks under the Credit Facility were allowed a claim in the aggregate principal amount of \$341.5 million, which was the principal amount outstanding under the Credit Facility at the time of the bankruptcy filing. The confirmed Plan proposed a full recovery to the banks under the Credit Facility of their prepetition claims, including IBERIABANK's prepetition claim of approximately \$20.3 million. The Plan further provided that banks under the Credit Facility were to receive, on account of their prepetition claims, (i) their respective pro rata share of commitments and obligations owing with respect to outstanding loans under a new 4-year Reserve Based Lending Facility (the Exit Facility), and (ii) their respective pro rata share of prepetition cash as a partial repayment of such outstanding loans subject to re-borrowing to the extent permitted and pursuant to the terms of the Exit Facility held by such banks. On February 28, 2017, the Plan became effective and the

Borrower satisfied the entire amount due and owing to the financial institutions on their claim of \$341.5 million, including payment to IBERIABANK of approximately \$20.3 million. On that same date, having emerged from the Chapter 11 bankruptcy, the Borrower entered into the new Exit Facility with the lenders, including IBERIABANK. The new Exit Facility, which replaces the Credit Facility, provides for a \$200 million reserve-based credit facility with a maturity date of February 21, 2021. Interest on advances under the Exit Facility is calculated using the London Interbank Offering Rate (LIBOR) or the base rate, at the election of the Borrower, plus, in each case an applicable margin. The applicable margin is determined based on borrower base utilization and ranges from 2.00% to 3.00% per annum for base rate loans and 3.00% to 4.00% per annum for LIBOR loans. IBERIABANK holds a six percent pro-rata share, or \$12 million, of the \$200 million total committed under the new facility. At this time there are no draws or outstanding amounts under the Exit Facility.

The Sarbanes-Oxley Act of 2002 generally prohibits a public company from extending or renewing credit or arranging the extension or renewal of credit to an officer or director. However, this prohibition does not apply to loans made by depository institutions such as IBERIABANK that are insured by the Federal Deposit Insurance Corporation and are subject to the insider lending restrictions of the Federal Reserve Board's Regulation O. Accordingly, we permit our directors and executive officers, their family members and their related interests, to establish and maintain banking and business relationships in the ordinary course of business with IBERIABANK. With respect to lending activities, IBERIABANK has policies governing affiliate and insider lending transactions. These policies prohibit extensions of

credit to insiders, as defined in the policies, unless the extension of credit:

is made in the ordinary course of business on substantially the same terms (including interest rates and collateral) as, and following credit underwriting procedures that are not less stringent than, those prevailing at the time for comparable transactions with members of the general public; and

does not involve more than the normal risk of repayment or present other unfavorable features.

Table of Contents

Certain Transactions

Review, Approval or Ratification of Transactions With Related Persons

Audit Committee review is required for any lending transaction that alone or together with other extensions of credit to an insider exceeds \$120,000 and does not meet the criteria noted above or which becomes a past due, nonaccrual, restructured or a potential problem loan as of year-end under applicable SEC rules. Also, in compliance with Regulation O, a majority of the Board of Directors of IBERIABANK must approve in advance any extension of credit to any director or executive officer or any of their related entities where the aggregate lending relationship exceeds \$500,000. A director with an interest in the extension of credit must abstain from voting or participating in the discussion and approval of the extension of credit.

An extension of credit covered by Regulation O to executive officers must be promptly reported to the Board of Directors of IBERIABANK; preceded by the submission of a detailed personal financial statement; and made subject to the written provision that the loan

will, at the option of IBERIABANK, be due and payable at any time that the executive officer is indebted to any other bank or banks in an amount greater than the dollar thresholds set forth above.

In order to promote compliance with applicable laws, regulations and rules pertaining to insider lending transactions discussed above, we have appointed an officer to assist in identifying and reviewing pertinent transactions with identified insiders. The officer annually receives lists of all directors and executive officers of the Company and IBERIABANK and any other subsidiaries, as well as a list of our principal shareholders, if any. The information collected from directors and executive officers includes the names of these individuals and their family members, as well as the names of their related interests, which are referred to as covered entities. The officer will promptly notify in the event the officer detects an extension of credit to an insider that appears to violate the policy.

Proposal IV Advisory Vote on Frequency of Voting on Named Executive Officer Compensation

Purpose of the Proposal

The Dodd-Frank Wall Street Reform and Consumer Protection Act requires us to submit a non-binding, advisory resolution to shareholders at least once every six years to determine whether advisory votes on executive compensation should be held every year, every two years or every three years. In satisfaction of this requirement, shareholders are being asked to vote on the following advisory resolution:

RESOLVED, that the shareholders of the Company advise that an advisory resolution with respect to Named Executive Officer compensation should be presented to the shareholders every year, every two years or every three years, as reflected by their votes for each of these alternatives in connection with this resolution.

In voting on this resolution, you should mark your proxy for one year, two years or three years based on your preference as to the frequency with which an advisory vote on executive compensation should be held. If you have no preference you should abstain.

The optimal frequency of the vote necessarily is based on a judgment about the relative benefits and burdens of each of the options. There are different views as to the best approach. The Compensation Committee and the Board of Directors recognize that there is a reasonable basis for each of the options.

Some believe that a less frequent vote would: (i) permit shareholders to focus on overall design issues rather than on the details of individual decisions, (ii) align with the

goals of our compensation arrangements which are designed to reward performance that promotes long-term shareholder value, and (iii) avoid the burdens that annual votes would impose on shareholders required to evaluate the compensation programs of a large number of companies each year.

Others believe that an annual vote affords shareholders the opportunity to react promptly to emerging trends in compensation, provides feedback before those trends become pronounced over time, and gives the Compensation Committee and the Board of Directors an opportunity to evaluate individual compensation decisions each year in light of ongoing feedback from shareholders.

Our shareholders voted on a similar proposal in 2011, and the overwhelming majority voted hold the advisory vote on executive compensation every year. The Compensation Committee and the Board of Directors continue to believe that the best corporate practice and governance favor an annual advisory vote and the Board should solicit an annual vote from our shareholders. **For these reasons, the Board of Directors recommends a vote FOR a ONE YEAR advisory vote on Named Executive Officer compensation.**

Although this advisory vote by our shareholders will be non-binding, the Compensation Committee and the Board of Directors will consider the voting results when determining the frequency of the advisory vote on Named Executive Officer compensation.

Vote Required

Pursuant to NASDAQ rules and our Bylaws, the affirmative vote of a majority of the votes actually cast is required for approval of Proposal IV.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR A FREQUENCY OF ONE YEAR FOR NON-BINDING, ADVISORY SHAREHOLDER VOTES ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.

Table of Contents

Proposal IV Advisory Vote on Frequency of Voting on Named Executive Officer Compensation

Recommendation of the Board of Directors

After careful consideration of this matter, the Compensation Committee and the Board of Directors believe that, initially, the Board should solicit an annual vote from our shareholders. **For that reason, the Board of Directors unanimously recommends a vote FOR a ONE YEAR advisory vote on Named Executive Officer compensation.** The Compensation Committee and our Board determined that approval of proposed frequency of

votes on executive compensation is appropriate and in the best interests of the Company and its shareholders.

Although this advisory vote will be non-binding, the Compensation Committee and the Board of Directors will consider the voting results when determining the frequency of the advisory vote on Named Executive Officer compensation.
