(Premier LP) and an equal number of shares of our Class B common stock, pursuant to certain contractual rights of the limited partners of Premier LP. Our wholly-owned subsidiary, Premier Services, LLC, is the general partner of Premier LP. This prospectus supplement is not complete without, and may not be utilized except in connection with, the Prospectus, including any amendments or supplements thereto. ## SELLING STOCKHOLDERS

The information in the table appearing under the heading **Selling Stockholders** in the Prospectus is supplemented and amended by the following information, which includes information with respect to selling stockholders not previously listed in the Prospectus and supersedes information with respect to the selling stockholders listed below as of the date of this prospectus supplement. The following updated information supplements the information in such table, is based solely upon information provided to us by the selling stockholders and is accurate, to the best of our knowledge, as of October 31, 2018.

Pursuant to the terms of the LP Agreement and the Exchange Agreement, each Class B common unit of Premier LP held by the selling stockholders is exchangeable for one share of our Class A common stock, cash or a combination of both, the form of consideration to be at the discretion of the audit and compliance committee of Premier's board of directors, subject to certain exchange timing and volume limitations. See **Certain Contractual Arrangements with Selling Stockholders** in the Prospectus for additional information. The following table sets forth the selling stockholders' beneficial ownership of our Class A common stock as of the date of this prospectus supplement. Each selling stockholder has the cumulative right to exchange a maximum of one-seventh of its initial allocation of Class B common units (as well as any additional Class B common units purchased by such selling stockholder pursuant to the right of first refusal under the Exchange Agreement) each year, commencing on October 31, 2014. The number and percentage of shares beneficially owned after this offering for each selling stockholder assumes the exchange by the selling stockholders of all Class B common units owned by them for the equivalent number of our shares of Class A common stock and sale of all such shares offered by the selling stockholders and that each selling stockholder does not acquire any additional shares or units. Information in the table below with respect to beneficial ownership has been furnished by each of the selling stockholders. Beneficial ownership is determined in accordance with the rules and regulations of the Securities and Exchange Commission.

The selling stockholders are not required to exchange their Class B common units for shares of our Class A common stock, nor are we required to issue shares of Class A common stock to any selling stockholder who elects to exchange Class B common units. Instead, we may satisfy the Class B common unit exchanges by paying cash or through a combination of cash and Class A common stock. In addition, the selling stockholders listed in the table below may have sold, transferred, otherwise disposed of or purchased, or may sell, transfer, otherwise dispose of or purchase, at any time and from time to time, Class B common units or shares of our Class A common stock in transactions exempt from the registration requirements of the Securities Act or in the open market after the date on which they provided the information set forth in the table below. The maximum number of shares of Class A common stock offered hereby assumes the selling stockholders exchange all of their Class B common units held on the date on which they provided the information set forth in the table below and we elect to satisfy all exchange requests by issuing only shares of Class A common stock. Assuming we do issue shares of our Class A common stock to a holder of Class B common units upon an exchange, such holder may offer for sale all, some or none of such shares of Class A common stock. Therefore, it is difficult to estimate with any degree of certainty the aggregate number of shares that the selling stockholders will ultimately offer pursuant to this prospectus supplement or that the selling stockholders will ultimately own upon completion of the offering to which this prospectus supplement relates. The following table does not take into effect any restrictions on ownership or transfer as described in **Description of Capital Stock** in the Prospectus.

The selling stockholders named below and their permitted transferees, pledgees, orderes or other successors may from time to time offer the shares of our Class A common stock offered by this prospectus supplement. Except as otherwise indicated in the footnote below, the beneficial owner has sole voting and investment power with respect to the indicated shares of Class A common stock.
