Actions to contain the oil spill in Espadarte field

Rio de Janeiro, January 07, 2019 – Petróleo Brasileiro S.A. – Petrobras reports the actions taken as a result of the oil leak that occurred on January 2 in one of the tanks of the FPSO Cidade de Rio de Janeiro, a unit chartered by the company and operated by Modec do Brasil in the Espadarte field in the Campos Basin, approximately 130 km from the Macaé coastline, on the north coast of Rio de Janeiro. The plant had already stopped production since July 2018 for the decommissioning process.

The Emergency Plan was immediately activated and control measures were taken, resulting in containment of the leak on January 3, upon withdrawal of the oil from the tank. It is estimated that the total volume leaked was approximately 4.9 m³.

The regulatory agencies have been duly informed and a commission of inquiry will investigate the causes of the incident in cooperation with Modec. All resources are available and the authorities (ANP, IBAMA and MARINHA - Navy) are following the actions in progress.

FORWARD-LOOKING STATEMENTS

This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are subject to risks and uncertainties. The forward-looking statements, which address the Company's expected business and financial performance, among other matters, contain words such as believe, expect, estimate, anticipate, optimistic, intend, plan, aim, will, may, should, could, would, likely, and similar expressions. We cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. There is no assurance that the expected events, trends or results will actually occur. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.

The Company's actual results could differ materially from those expressed or forecast in any forward-looking statements as a result of a variety of assumptions and factors. These factors include, but are not limited to, the following: (i) failure to comply with laws or regulations, including fraudulent activity, corruption, and bribery; (ii) the outcome of ongoing corruption investigations and any new facts or information that may arise in relation to the Lava Jato Operation; (iii) the effectiveness of the Company's risk management policies and

procedures, including operational risk; and (iv) litigation, such as class actions or proceedings brought by governmental and regulatory agencies. A description of other factors can be found in the Company's Annual Report on Form 20-F for the year ended December 31, 2017, and the Company's other filings with the U.S. Securities and Exchange Commission.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: January 7, 2019.
