SOLECTRON CORPORATION**PROXY STATEMENT****INFORMATION CONCERNING SOLICITATION AND VOTING****General**

The enclosed Proxy is solicited on behalf of Solectron Corporation (the Company), for use at the Annual Meeting of Stockholders to be held on Wednesday, January 7, 2004, at 9:00 a.m., local time, or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting will be held at The Westin Hotel, 5101 Great America Parkway, Santa Clara, CA 95054. The Company's telephone number is (408) 957-8500.

These proxy solicitation materials were mailed on or about December 9, 2003 to all stockholders of record at the close of business on November 18, 2003 (the Record Date). A copy of the Company's Annual Report to Stockholders for the fiscal year ended August 29, 2003 (Fiscal 2003), including financial statements, was sent to the stockholders prior to or concurrently with this Proxy Statement.

Record Date; Outstanding Shares

Common Stockholders of record at the close of business on the Record Date are entitled to notice of and to vote at the Annual Meeting and any adjournment thereof. At the Record Date, 836,260,445 shares of the Company's Common Stock were issued and outstanding (including 31,090,335 shares of Solectron Global Services Canada, Inc. which are exchangeable on a one-to-one basis for the Company's common stock).

Revocability of Proxies

Any proxy given pursuant to the solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (i) filing a written notice of revocation bearing a later date than the proxy with the Secretary of the Company, Michael Grady, at or before the taking of the vote at the Annual Meeting, (ii) duly executing a later dated proxy relating to the same shares and delivering it to the Secretary of the Company at or before the taking of the vote at the Annual Meeting or (iii) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy).

Voting and Solicitation

On all matters other than the election of directors, each share has one vote. See PROPOSAL ONE ELECTION OF DIRECTORS Required Vote.

The cost of any proxy solicitation will be borne by the Company. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for expenses incurred in forwarding solicitation materials to such beneficial owners. Proxies may be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally or by telephone, telegraph or letter.

Quorum; Abstentions; Broker Non-Votes

The required quorum for the transaction of business at the Annual Meeting is a majority of shares of Common Stock issued and outstanding on the Record Date. Shares that are voted FOR, AGAINST or ABSTAIN are treated as being present at the meeting for purposes of establishing a quorum and are also treated as shares entitled to vote at the Annual Meeting (the Votes Cast) with respect to such matter.

While there is no definitive statutory or case law authority in Delaware as to the proper treatment of abstentions, the Company believes that abstentions should be counted for purposes of determining both (i) the presence or absence of a quorum for the transaction of business and (ii) the total number of Votes Cast with respect to a proposal (other than the election of directors). In the absence of a controlling precedent to the contrary, the Company intends to treat abstentions in this manner. Accordingly, abstentions will have the same effect as a vote against the proposal as to which the abstention is made.

In a 1988 Delaware case, *Berlin v. Emerald Partners*, the Delaware Supreme Court held that, while broker non-votes should be counted for purposes of determining the presence or absence of a quorum for the transaction of business, broker non-votes should not be counted for purposes of determining the number of Votes Cast with respect to the particular proposal on which the broker has expressly not voted. Accordingly, the Company intends to treat broker non-votes in this manner. Thus, a broker non-vote will not have any effect on the outcome of the voting on a proposal.

Pursuant to new regulations promulgated by the New York Stock Exchange (NYSE) that came into effect on June 30, 2003, brokers and other nominees that are NYSE member organizations are prohibited from voting in favor of proposals relating to equity compensation plans unless they receive specific instructions from the beneficial owner of the shares to vote in that manner. Therefore, for any of your shares held through a broker or other nominee who is a NYSE member organization, such shares will only be voted in favor of Proposal Two if you have provided specific voting instructions to your broker or other nominee to vote your shares in favor of that proposal.

Discretionary Voting Authority

The Company has discretionary authority to vote on any matter intended to be brought before the Annual Meeting if the Company did not receive notice of such matter by the close of business on the tenth day after the date of this Proxy Statement, in accordance with the bylaws of the Company.

Deadline for Receipt of Stockholder Proposals for Fiscal 2004

Proposals of stockholders of the Company which are to be presented by such stockholders at the Company s Annual Meeting for the fiscal year ended August 31, 2004 (Fiscal 2004) must be received by the Company no later than August 11, 2004 in order that they may be included in the Proxy Statement and form of proxy relating to that meeting. Such stockholder proposals should be submitted to Solectron Corporation at 847 Gibraltar Drive, Milpitas, CA 95035, Attention: Michael F. Grady, Secretary.

Under the Company s bylaws, a proposal that a stockholder does not seek to include in the Company s proxy materials for Fiscal 2004 but that may still be properly brought before the Fiscal 2004 annual meeting must be delivered to or mailed and received by the Secretary of the Company not less than 90 days prior to the meeting; provided, however, that in the event that less than 100 days notice or prior public disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder to be timely must be so received not later than the close of business on the tenth day following the day on which such notice of the date of the meeting was mailed or such public disclosure was made.

Director Compensation

Directors who are not employees of the Company (Outside Directors) receive annual retainers of \$35,000.00. The Chairman of the Board receives an annual retainer of \$140,000.00. Each Outside Director (excluding the Chairman of the Board) who serves as Chairman for the Audit Committee, Compensation Committee, or Nominating and Governance Committee receives an additional annual retainer of \$13,500.00. These retainers are paid quarterly in arrears. In addition, each Outside Director is paid \$1,500.00 for each meeting of the Board attended in person, \$1,000.00 for each committee meeting attended in person, \$500.00 for each Board and committee meeting attended telephonically, and is eligible to receive reimbursement for expenses incurred in attending Board and committee meetings. Outside Directors (other than members of the Audit Committee) may also receive consulting fees for special project assignments completed at the request of Company management. Employee directors are not compensated for their service on the Board or on committees of the Board.

Options to purchase shares of the Company s common stock are granted to Outside Directors under the 2002 Stock Option Plan (the Plan) in accordance with an automatic, non-discretionary grant mechanism. However, Directors are also eligible to receive discretionary grants under the Plan. The Plan provides, with respect to Outside Directors, for an automatic, non-discretionary grant on December 1 of each year of a nonstatutory option to purchase eight thousand (8,000) shares (pro rata for the portion of the first fiscal year of service as an Outside Director) of the Company s Common Stock, with an initial equity grant for new Outside Directors to purchase fifteen thousand (15,000) shares of the Company s Common Stock at the commencement of their service as an Outside Director, at an exercise price equal to the fair market value on the date of grant.

Required Vote

Each stockholder voting in the election of directors is entitled to cumulate such stockholder s votes. Each stockholder who elects to cumulate votes shall be entitled to as many votes as equals the number of directors to be elected multiplied by the number of shares held by such stockholder, and the stockholder may cast all such votes for a single director or distribute such votes among as many candidates as the stockholder may see fit. However, no stockholder shall be entitled to cumulate votes unless the candidate s name has been placed in nomination prior to the voting and the stockholder, or any other stockholder, has given notice at the meeting to the Company s Secretary, Michael Grady, prior to the voting of the intention to cumulate the votes. The 9 nominees receiving the highest number of affirmative votes of the shares entitled to be voted for them shall be elected as directors. Votes withheld from any director are counted for purposes of determining the presence or absence of a quorum for the transaction of business, but have no other legal effect under Delaware law. Abstentions and shares held by brokers that are present but not voted, because the brokers were prohibited from exercising discretionary authority (Broker Non-Votes), will be counted as present for purposes of determining the presence or absence of a quorum.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR THE NOMINEES LISTED ABOVE.

PROPOSAL TWO

APPROVAL OF AMENDMENT TO

2002 STOCK OPTION PLAN TO PERMIT AN OPTION EXCHANGE PROGRAM

After careful consideration, the Board of Directors of the Company has determined that it would be in the best interests of the Company and its stockholders to amend the 2002 Stock Option Plan (the Plan) to permit a one-time exchange of options having an exercise price greater than a threshold amount (the Threshold Amount) for a lesser number of shares of restricted stock. We refer to this one-time exchange as the Option Exchange Program. The restricted stock will be granted promptly after the cancellation of the surrendered options.

The Threshold Amount will be determined upon the commencement of the Option Exchange Program and will be at least \$9 above the fair market value of the Company's Common Stock at such time. The Threshold Amount is currently estimated to be \$15.

The Company is seeking stockholder approval of the amendment to the Plan to allow the Option Exchange Program. The amendment would permit only the specific Option Exchange Program described below. Any other future option exchange programs under the Plan still would require additional stockholder approval.

In accordance with the terms of the Plan, we will not amend the Plan to permit the Option Exchange Program unless stockholders approve the amendment. Approval requires the affirmative vote of a majority of the outstanding shares present in person or represented by proxy and entitled to vote at our annual meeting.

Generally, all eligible employees will be offered the opportunity to participate in the Option Exchange Program. However, members of our Board and the most senior executive officers of the Company, as set forth below (the Ineligible Officers), will not be eligible to participate in the program:

Michael R. Cannon	President and Chief Executive Officer
David A. Everett	Executive Vice President, Worldwide Sales and Account Management
Craig London	Executive Vice President, Strategy and Marketing
Kevin O'Connor	Senior Vice President, Human Resources
Marc Onetto	Executive Vice President, Worldwide Operations
Kiran Patel	Executive Vice President and Chief Financial Officer

Stock options, including the discounted options we refer to as restricted stock, encourage our employees to act as owners, which helps to align their interests with those of stockholders. The objectives of the Plan are to attract and retain the best available personnel for positions of substantial responsibility in the Company, to provide additional incentive to Company employees, directors and consultants and to promote the success of the Company's business.

Sustained adverse economic conditions have had a negative effect on the entire technology sector, including markets in which the Company operates. Consistent with many other technology companies, the price of our stock declined steeply in the last few years. As a result of the extreme volatility in the market and our stock price, approximately 26% of our stock options had exercise prices significantly higher than the current stock price as of November 25, 2003.

-7-

This means that a substantial number of our options are not effectively motivating and retaining employees. Although these options are unlikely to be exercised, they will remain outstanding for up to ten years from the grant date unless they are cancelled.

The Option Exchange Program would provide an opportunity to motivate our employees to remain with the Company and to achieve future growth. By granting restricted stock with immediate value, the Plan once again will help motivate and retain the employees that are essential to help create stockholder value.

OPTION EXCHANGE PROGRAM

Overview

Edgar Filing: SOLECTRON CORP - Form DEF 14A

Under the proposed program, participating employees would be able to surrender unexercised options with an exercise price per share greater than the Threshold Amount. Eligible employees would receive grants of a smaller number of shares of restricted stock in return for such surrender. The amount of restricted stock each participant would receive under the program generally will be based on the Black-Scholes value of the options surrendered for exchange. Participants would have thirty (30) days after the issuance of the restricted stock grant during which to pay the purchase price of \$0.001 per share. Any restricted stock not purchased during that time period would be forfeited. The restricted stock would be subject to vesting in accordance with the employee's grade level as further described below.

We believe the Option Exchange Program balances stockholder and employee interests. The program would reduce dilution of stockholders' interests by canceling a larger number of outstanding options and issuing fewer shares of restricted stock in their place. In addition, by conducting this exchange rather than granting new options to supplement the underwater options, the Company would avoid potential additional dilution to its stockholders' interests.

We are not able to predict who will participate or how many options any particular group of employees will elect to exchange. However, of the outstanding options held by eligible employees as of November 25, 2003, and assuming a Threshold Amount of \$15, the maximum number of shares of stock underlying options eligible for exchange would be approximately 14,380,000 shares. If 100% of the eligible options as of November 25, 2003 were to be exchanged and new grants made in accordance with the anticipated Black-Scholes value of the surrendered shares, the number of shares underlying all options outstanding would be reduced by approximately 12,350,000 shares, to approximately 47,680,000 shares. This means our stock option overhang would be reduced by approximately 1.5% as of such date.

The grants of restricted stock issued pursuant to the Option Exchange Program generally would be issued from the Plan. Although we refer to the grants as restricted stock they would be issued as grants of stock options at a purchase price of \$0.001 per share, which is such a deep discount to the fair market value of the Company's stock that the options are treated as restricted stock for all intents and purposes.

Background

The Plan allows the Company to grant stock options to employees, members of the Company's board of directors and consultants. Stock options encourage our employees to act as owners, which helps to align their interests with those of stockholders.

As of November 25, 2003, there were approximately 60,730,000 shares underlying options outstanding under our Plan and approximately 49,510,000 shares available for grant. Of the outstanding options, as of November 25, 2003 and assuming a Threshold Amount of \$15, options to purchase

-8-

approximately 14,380,000 shares of common stock would be eligible for exchange under the proposed Option Exchange Program. The market value of the common stock underlying the options eligible for exchange was approximately \$79.3 million as of November 25, 2003 based upon the closing price as reported in The Wall Street Journal for that date. Eligible employees Grade 10 (generally, the Company's non-executive employees) and below would hold eligible outstanding options to purchase an aggregate of approximately 8,260,000 shares of Company common stock, with a weighted average exercise price of \$30.73 and a weighted average remaining life of 3.94 years. Eligible employees Grade 11 (generally, the Company's executive employees, excluding the Ineligible Officers) and above would hold eligible outstanding options to purchase an aggregate of approximately 6,130,000 shares of Company common stock, with a weighted average exercise price of \$32.37 and a weighted average remaining life of 3.8 years.

Implementing the Option Exchange Program

The Company's Board authorized the Option Exchange Program on October 8, 2003, subject to stockholder approval. If this proposal is approved, the offer to exchange options may commence at any time after the January 7, 2004 annual meeting of the stockholders at the discretion of Company management; however, management also will retain discretion not to implement the program.

If you approve the program, upon commencement of the program, eligible employees will be offered the opportunity to participate in the program under an Offer of Exchange filed with the SEC and distributed to all eligible employees. Employees will be given at least a 20 business-day election period in which to accept the offer. The surrendered options will be cancelled on the first business day following the election period. The restricted stock will be granted promptly after the surrendered options are cancelled.

Election to Participate

Under the Option Exchange Program, eligible employees may make a one-time election to cancel grants of stock options that have an exercise price per share higher than the Threshold Amount and exchange them for restricted stock.

Participation in the program will be entirely voluntary. However, once an employee elects to participate, he or she must (1) surrender all options with an exercise price per share greater than the Threshold Amount and (2) surrender all options granted to such employee in the six months preceding the date that the exchange offer is made, even if such options do not have exercise prices per share greater than the Threshold Amount. The six-month look back period of requirement (2) is necessary in order to avoid unfavorable accounting treatment for the Company as a result of the exchange.

Threshold Amount

The Threshold Amount will be determined upon the commencement of the Option Exchange Program and will be at least \$9 above the fair market value of the Company's Common Stock at such time. The Threshold Amount is currently estimated to be \$15.

-9-

Eligibility

The program will be open to all Company employees worldwide where feasible and practical under local regulations, as determined by the Company. The program will not be available to our Board or to the Ineligible Officers. The program also will not be available to any former employees or retirees. An employee who tenders his or her options for exchange must remain an eligible employee through the date of the new grant to receive the restricted stock.

Exchange Ratios

The specific exchange ratios for the program have yet to be determined and will be specified in the Option Exchange Program documents; generally, the number of shares of restricted stock an employee would be entitled to receive will be based on the Black-Scholes value of the options he or she surrendered. This valuation process and applicable exchange ratios were and will be determined in a manner intended to minimize stockholder dilution, consistent with giving substantial consideration for each surrendered option. Restricted stock grants calculated according to the exchange ratios would be rounded down to the nearest whole share on a grant-by-grant basis. Restricted stock would not be issued for fractional shares.

Purchase Price of New Options and Expiration

All new restricted stock granted under the Option Exchange Program would be granted with a purchase price equal to \$0.001, par value, per share. The purchase price must be paid within thirty (30) days of the issuance of the restricted stock. Any shares of restricted stock which were not paid for within that time period would be forfeited. The Company may choose to allow the purchase price to be paid by cash, check or through past services rendered to the Company.

Vesting of New Restricted Stock

The replacement restricted stock granted to employees Grade 10 and below would vest as to 100% of the shares six (6) months from the date of grant, subject to the employee remaining a service provider through the vesting date. The new restricted stock granted to employees Grade 11 and above would vest as to 100% of the shares two (2) years from the date of grant, subject to the relevant employee remaining a service provider on the vesting date.

Other Terms and Conditions of New Options

The other terms and conditions of the new restricted stock generally would be the same as the surrendered options they replace.

Accounting Treatment

During the election period for the Option Exchange Program, we will be subject to variable accounting compensation charges against our earnings with respect to all options that are eligible for exchange until such options are surrendered and cancelled. We will continue to incur such charges on any eligible options that are not surrendered, until such options expire, are exercised or are forfeited. We will recognize a fixed accounting charge over the applicable vesting term against our earnings with respect to the new grants of restricted stock.

U.S. Federal Income Tax Consequences

The exchange of options in the Option Exchange Program should be treated as a non-taxable exchange for the participant.

Employees of the Company who participate in the program would generally recognize ordinary income for U.S. federal income tax purposes equal to the fair market value of the shares of restricted stock as such shares vest. Employees may accelerate the timing of the recognition of ordinary income by timely filing an election under Section 83(b) of the Internal Revenue Code, in which case such employees generally would recognize ordinary income on the fair market value of the restricted stock on the date of grant.

No Obligation to Commence Option Exchange Program

Although it is our current intention to offer the Option Exchange Program if Company stockholders approve the proposed amendment to the Plan, the Company is under no obligation to do so and reserves the unqualified right to determine not to offer the Option Exchange Program, or to offer the program at a later date.

Potential Modification to Terms to Comply with Governmental Requirements

The terms of the Option Exchange Program will be described in a Tender Offer Statement that will be filed with the SEC. Although we do not anticipate that the SEC would require us to modify the terms materially, it is possible that we will need to alter the program terms to comply with SEC comments. In addition, it is currently our intention to make the program available to our employees who are located outside of the United States, where permitted by local law and where it is practical to do so. It is possible that we may need to make modifications to the terms offered to employees in countries outside the United States to comply with local requirements, or for tax or accounting reasons. For example, in some countries we might have to pay cash consideration for the surrendered options instead of granting restricted stock.

Effect on Stockholders

We are not able to predict the impact the Option Exchange Program will have on your rights as a stockholder because we are unable to predict how many option holders will exchange their options or what the future market price of the Company's stock will be at the time of the new grant. The program was designed to benefit stockholders by removing from the Company's books those underwater options with no motivational value, thereby preventing such options' continued dilution of stockholders' interests. The program was also designed to avoid the dilution in ownership that normally results from supplemental grants of new options and to give substantial consideration for each surrendered option.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR THE PLAN AMENDMENT TO PERMIT THE OPTION EXCHANGE PROGRAM.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR RATIFICATION OF THE APPOINTMENT OF KPMG AS INDEPENDENT AUDITORS.

Section 16(a) Beneficial Ownership Reporting Compliance

Edgar Filing: SOLECTRON CORP - Form DEF 14A

Section 16(a) of the Exchange Act and regulations of the SEC thereunder require the Company's executive officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of initial ownership and changes in ownership with the SEC. Based solely on its review of copies of such forms received by the Company, or on written representations from certain reporting persons that no other reports were required for such persons, the Company believes that, during Fiscal 2003 all of the Section 16(a) filing requirements applicable to its executive officers, directors and 10% stockholders were complied with.

Certain Relationships and Related Transactions

The Company has entered into indemnification agreements with its executive officers, directors and certain significant employees containing provisions which are in some respects broader than the specific indemnification provisions contained in the Delaware General Corporation Law. These agreements provide, among other things, for indemnification of the executive officers, directors and certain significant employees in proceedings brought by third parties and in stockholder derivative suits. Each agreement also provides for advancement of expenses to the indemnified party. The form of these indemnification agreements has been previously approved by the majority vote of the disinterested stockholders of the Company. See also descriptions of arrangements between the Company and certain current and former executive officers as set forth below under Employment Agreements, Change-of-Control Agreements and Separation Agreements.

COMPENSATION COMMITTEE REPORT

Introduction

The Compensation Committee (the Committee) of the Board is charged with the responsibility of reviewing all aspects of the Company's executive compensation programs and administering the Company's stock plans. In Fiscal 2003, the members of the Committee were Dr. Kenneth E. Haughton, Charles A. Dickinson, William A. Hasler and Dr. Paul R. Low, all of whom are non-employee directors of the Company. The Committee meets at the beginning of each fiscal year to establish target base compensation levels for the Company's executive officers for the following fiscal year and to approve bonuses for the previous fiscal year.

Compensation Philosophy

The Company's executive compensation policies are designed to attract and retain qualified executives who will contribute to the Company's long-term success, to reward executives for achieving the Company's financial goals, and to link executive compensation and stockholder interests through market competitive incentives and equity-based plans. The Committee believes that strong financial performance, on a consistent, predictable basis, is the most certain avenue through which the Company can positively affect long-term stockholder return. Furthermore, the Company believes that, in order to attract and retain the most qualified executives in the industry, its compensation policies must be competitive with other companies of comparable size and in similar industries and must reinforce strategic performance objectives through the use of incentive compensation programs. In order to provide incentive to executive officers, the Company pays a significant percentage of the executives' total compensation by means of variable performance-based cash incentives and stock option awards. Determination of each component of variable compensation is based on an assessment of a combination of metrics and individual performance. The amount of incentive compensation for each person in Fiscal 2003 has been determined on the basis of several indicators of corporate performance as outlined below.

Compensation Plans

The following are the key components of the Company's executive officer compensation:

Base Compensation. The Committee establishes base salaries for executive officers based on its review of base salaries of executive officers in companies of comparable size and in similar industries. A majority of the companies used by the Committee in its review of salaries of other companies are a part of the Goldman Sachs Technology Index used in the Stock Performance Graph following.

Bonuses. The Company's executive bonus plan provides for incentive compensation to the Company's executive officers and other key employees and is determined cumulatively on a quarterly basis based principally on certain performance measures. The performance measures include worldwide corporate and individual performance. Worldwide corporate and business unit performance measures for Fiscal 2003 were initially focused on metrics which drive stockholder value creation. To provide greater clarity on specific elements of stockholder value creation, additional specific measures were adopted. These measures included Profit before Interest and Taxes, Days Sales Outstanding and Inventory Turns, terms defined in the Company's amended Annual Operating Plan and communicated to bonus plan participants. The Committee believes that these factors were indicative of overall corporate performance and stockholder value. Individual performance was measured based on goals related to each person's function within the organization. Employees accrued bonuses each quarter based on performance against year-to-date Annual Operating Plan

targets and stockholder value creation targets. However, only 10% of such accrued bonuses were vested and payable quarterly. The remaining accrued bonus balances vested at the end of Fiscal 2003 and were paid upon final determination of earned bonuses.

Long-Term Incentive Compensation. The Company's 2002 Stock Option Plan provides for long-term incentive compensation for employees of the Company, including executive officers. A significant portion of the total compensation package for the Company's executive officers is in the form of stock option awards. These awards give employees an equity interest in the Company, thereby aligning the interests of

executive officers and stockholders and providing incentive to maximize stockholder value.

Policy Regarding Tax Deduction for Compensation Under Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code (IRC) limits the Company s tax deduction to \$1 million for compensation paid to certain executive officers named in the proxy unless the compensation is performance based. The Committee s present intention is to comply with the requirements of IRC Section 162(m), unless the Committee determines that it is in the interests of the Corporation to do otherwise.

Chief Executive Officer Compensation

On January 6, 2003 Michael Cannon joined the Company as an executive officer. On January 10, 2003, Mr. Cannon assumed the position of President and Chief Executive Officer. In order to attract, motivate and retain Mr. Cannon, the Committee recommended and the Board of Directors approved a combination of cash compensation and equity incentives for Mr. Cannon. This combination of cash and equity compensation included a mix of guaranteed compensation and equity vesting and repurchase provisions. As such, the compensation Mr. Cannon received in Fiscal 2003 was not based on the performance of the Company during the fiscal year. The Committee developed the Chief Executive Officer s compensation based on practices of companies of comparable size and similar industries.

AUDIT COMMITTEE REPORT

The primary purpose of the Audit Committee is to assist the Board of Directors in its general oversight of the Company's financial reporting process. The Audit Committee has a duly adopted charter which it reviews on an annual basis.

The Audit Committee annually reviews the applicable NYSE corporate governance standards and relevant SEC rules relating to Audit Committee member independence. At its most recent review, the Audit Committee determined that each member of the Committee meets the applicable standards and rules. The Audit Committee also determined that it had fulfilled its responsibilities under the Audit Committee Charter. The Committee met a total of 18 times in Fiscal 2003.

The Audit Committee is responsible for recommending to the Board that Solectron's financial statements be included in Solectron's Annual Report on Form 10-K. The Committee took a number of steps in making this recommendation for Fiscal 2003. First, the Audit Committee discussed with KPMG, Solectron's independent auditors for Fiscal 2003, those matters KPMG is required to communicate to and discuss with the Audit Committee by Statement on Auditing Standards Board Standard No. 61, as amended (Communication with Audit Committees), including information concerning the scope and results of the audit. Second, the Audit Committee discussed KPMG's independence with KPMG and received a letter from KPMG regarding independence as required by the Independence Standards Board Standard No. 1, as amended (Independence Discussions with Audit Committees). Finally, the Audit Committee reviewed and discussed with Company management and KPMG Solectron's audited consolidated balance sheets at August 31, 2003 and 2002, and consolidated statements of income, cash flows, and stockholders' equity for the three years ended August 31, 2003. Based on these reviews and discussions, and additional matters deemed relevant and appropriate by the Audit Committee, the Audit Committee recommended to the Board that Solectron's Annual Report on Form 10-K include these financial statements.
