PROPOSALS FOR SHAREHOLDER APPROVAL

The following material sets forth one proposal. The current Board of Directors controls the voting of approximately 63,772,750 shares of Common Stock or 33% of the shares issued and outstanding and entitled to vote. The Directors intend to vote all of their shares in favor of each proposal.

1. ELECTION OF DIRECTORS

At the Annual Meeting, we will elect our new Board of Directors which will consist of our six current directors to hold office until the next annual meeting of our shareholders or until their respective successors are elected and qualified. It is intended that the proxies will be voted for the nominees set forth herein. The Board has unanimously approved the following six nominees, all of whom are members of the current Board: Stephen Parent, Robert Faber, Les Cahan, John Cook, Tony Applebaum and P.K. Rana Medhi as our directors. If any nominees decline to serve or become unavailable for any reason, or if any vacancy occurs before the election (although the Company knows of no reason that this would occur), the proxies may be voted for such substitute nominees as the Company may designate.

The following table sets forth certain information regarding each nominee for election as director of the Company:

Steve Parent Chief Executive Officer and Chairman of our Board of Directors: Steve, our founder, has worked in the mining industry for over twenty years. He has managed the exploration and development operations of several Junior Public mining companies in the United States and Canada. Steve has been responsible for leading mining projects from the conceptual stage through feasibility. Before founding GoldSpring, Inc., Steve served as CEO of Ecovery, Inc., a private company with two significant mining projects: The Big Mike Copper Project and the GoldSpring Placer Project both now included in GoldSpring, Inc. Steve served as the President of Aztech Environmental Industries, Inc., a private Arizona corporation, whose primary business was to manage exploration, environmental and permitting activities for junior mining companies, prior to founding Ecovery, Inc.

John F. Cook, P. Eng. President and Director: John is a mining engineer, with 42 years of experience that has covered all aspects of the mining industry at all levels in many parts of the world. For the past twenty years this experience has been at a very senior level, including General Management and Corporate Affairs. For the past eight years John has been involved with Junior exploration and development companies after many years of working for much larger companies. Currently, he is Chairman of Anaconda Gold Corporation and of Castlerock Resources. These are both TSX Venture exchange companies with mining development interests in Canada, USA and Mexico. He is a director of GLR

Edgar Filing: GOLDSRING - Form DEF 14A

Resources, Inc. and Wolfden Resources, Inc. both TSX companies with exploration and development interests in Canada. John runs Tormin Resources Limited (his own private company) and has recently been involved in the development of a gravity gold extraction plant in eastern Canada. Prior to getting involved with junior mining/exploration companies, John has worked in senior positions with Navan Resources, Goldcorp and Lac Minerals. This followed early mining experience in southern Africa and a stint as a consultant in UK and Canada.

Robert T. Faber, CPA, Chief Financial Officer and Director: Rob is a Financial Executive with 20 years of diverse senior financial management, business and acquisition experience, including substantial international experience. Rob previously served as Vice President of United Site Services, Inc. (Sun Services), a \$60 million privately held service company that was formed in 2000. There, he strengthened organizational structure, improved cash management, and directed the acquisition and integration process. Additionally, Rob served as the Assistant Regional Controller with Allied Waste Industries, where his team was responsible for management of a \$1.2 billion multi-state business operation. Prior to Allied, Rob spent 17 years with Waste Management, Inc., a \$12 billion publicly traded environmental services company, during which time he served in senior positions such as Director of Finance in London, England, leading a \$1.2 billion international operating group.

4

Rob has personally been involved in over 100 separate acquisitions ranging from \$500,000 to \$250 million and was responsible for directing all due diligence, financial valuations and integrations. He has extensive experience in SEC reporting, investor relations, capital acquisitions, and system development.

Les Cahan Director: Les has been directly involved, for over thirty years, in all aspects of exploration and production of mining, and oil & gas assets. Les acquired the Gold Canyon and Spring Valley mining claims, as well as carrying out the first geophysical, drilling and trenching exploration activities before it was acquired by Ecovery, Inc., and subsequently, GoldSpring, Inc. Les owned and operated Western Land and Minerals Ltd., which specialized in gas and oil production. He was also a founding partner of Nanisivic, on Baffin Island, one of the world's largest zinc mines.

Tony Applebaum, EA: Tony Applebaum is Federally licensed in IRS tax accounting and tax client representation and has had a private practice since 1997. Prior to this, Mr. Applebaum worked in the accounting and financial services industry as controller and VP Finance for several start-up and major ongoing successful corporations. He is familiar with public company reporting requirements, policies and procedures. In addition, he has extensive experience in advanced financial analysis including cash flows, projections and forecasts. Tony brings another layer of solid financial expertise and credibility to GoldSpring as a member of its Audit Committee.

P.K. Rana Medhi, Mining Engineer: P.K. Rana Medhi is a registered engineering and mining geologist with 40 years of international mining experience. Medhi is also a Principal of Mineral Evaluation Network- a worldwide cooperative of economic geologists and mining professionals that provides mineral resources expertise and investment assistance to its clients. Medhi spent 28 years with Cyprus Amax Minerals Company. While at Cyprus, Medhi was the senior operations manager for 15 years. He is established in business development and alliance, exploration and mine development, mine evaluation, as well as mine operations and permitting. Medhi's extensive international mining experience has enabled him to successfully lead projects from the exploration phase to start-up, commercial production and post closure mining activities.

The Board recommends a vote "For" giving the authority to the Board of Directors to consider and act upon such other business as may properly come before the meeting.

2. TO CONSIDER AND ACT UPON SUCH OTHER BUSINESS AS MAY PROPERLY COME BEFORE THE MEETING

Proposal #8 to give the authority to the Board of Directors to consider and act upon such other business as may properly come before the meeting. The Company believes that it is in the shareholders best interest to allow the Board of Directors to conduct normal day-to-day business decisions as they see fit.
