RECORD DATE

Stockholders of record at the close of business on September 1, 2016 will be entitled to receive notice of, attend and vote at the meeting.

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Why am I receiving these materials?

The Company has delivered printed versions of these materials to you by mail, in connection with the Company's solicitation of proxies for use at the Annual Meeting. These materials describe the proposals on which the Company would like you to vote and also give you information on these proposals so that you can make an informed decision.

What is included in these materials?

These materials include:

this Proxy Statement for the Annual Meeting;

the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015; and

the proxy card or vote instruction form for the Annual Meeting.

What is the proxy card?

The proxy card enables you to appoint Gerald E. Commissiong, our President and Chief Executive Officer, as your representative at the Annual Meeting. By completing and returning a proxy card, you are authorizing this individual to vote your shares at the Annual Meeting in accordance with your instructions on the proxy card. This way, your shares will be voted whether or not you attend the Annual Meeting.

What is the purpose of the Annual Meeting?

At our Annual Meeting, stockholders will act upon the matters outlined in the Notice of Annual Meeting on the cover page of this Proxy Statement, including (i) a proposal to elect five (5) members of our Board of Directors, each to serve until the 2017 Annual Meeting of Stockholders and until their successors are elected and qualified or until their earlier resignation or removal ("Proposal No. 1"), (ii) a proposal to ratify the appointment of Marcum LLP as the Company's independent auditors for the fiscal year ending December 31, 2016 ("Proposal No. 2"), and (iii) a proposal to approve an amendment to the Company's Articles of Incorporation to effect the Reverse Split of the Company's common stock by a ratio of not less than one-for-two and not more than one-for-three hundred ("Proposal No. 3"). In addition, management will report on the performance of the Company during fiscal year 2015 and respond to questions from stockholders. Pursuant to the terms of the Securities Purchase Agreement, dated April 14, 2016, and amendment to the Certificate of Designations of both the Company's Series E and Series H Convertible Preferred Stock, the Company agreed to present the Company's shareholders with proposals to increase the Company's authorized common stock and effect a reverse stock split. The Company thereby also wishes to satisfy those conditions in accordance with the terms thereof.

What constitutes a quorum?

The presence at the meeting, in person or by proxy, of the majority of the total possible votes held by the holders of the common stock, Series C Convertible Preferred Stock, Series D Convertible Preferred Stock, Series E Convertible Preferred Stock, and Series H Convertible Preferred Stock issued and outstanding on the record date will constitute a quorum permitting the meeting to conduct its business. As of the record date, there are 75,356,985 shares of our common stock, 750,000 shares of Series C Convertible Preferred Stock, 0 shares of Series D Convertible Preferred Stock, 8,791 shares of Series E Convertible Preferred Stock, 0 shares of Series G Convertible Preferred Stock and 6,085 shares of Series H Convertible Preferred Stock issued and outstanding. Series C Convertible Preferred Stock entitles its holders to 1,500,000 votes in the aggregate, Series D Convertible Preferred Stock entitles its holder to 0 votes in the aggregate, Series E Preferred Stock entitles its holders to 225,413,103 votes in the aggregate (subject to applicable beneficial ownership limitations), Series H Preferred Stock entitles its holders to 174,478,692 votes in the aggregate (subject to applicable beneficial ownership limitations) and one share of common stock entitles its holder to one vote per each share held. Holders of Series G Convertible Preferred Stock do not have the right to vote. Thus, we

anticipate that the presence of the holders of common stock, Series C Convertible Preferred Stock, Series E Convertible Preferred Stock and Series H Convertible Preferred representing at least 243,141,878 total votes (subject to applicable beneficial ownership limitations) will be required to establish a quorum. Holders of the Company's Series E and Series H Convertible Preferred Stock are entitled to a 100,000 vote multiplier per each share owned, up to a beneficial ownership limit of 4.99%. Those votes which are a result of the vote multiplier will be included in the calculation and determination of a quorum.

Voting Procedures and Vote Required

Gerald Commissiong will vote all shares represented by properly executed proxies returned in time to be counted at the Annual Meeting. The presence, in person or by proxy, of at least a majority of the issued and outstanding shares entitled to vote at the Annual Meeting is necessary to establish a quorum for the transaction of business. Shares represented by proxies which contain an abstention, as well as "broker non-vote" shares (described below) are counted as present for purposes of determining the presence or absence of a quorum for the Annual Meeting.

All properly executed proxies delivered pursuant to this solicitation and not revoked will be voted at the Annual Meeting as specified in such proxies.

Vote Required for Election of Directors (Proposal No. 1). Our Articles of Incorporation, as amended, does not authorize cumulative voting. Nevada law and our Bylaws provide that directors are to be elected by a plurality of the votes of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the election of directors. This means that the five (5) candidates receiving the highest number of affirmative votes at the Annual Meeting will be elected as directors. Only shares that are voted in favor of a particular nominee will be counted toward that nominee's achievement of a plurality. Shares present at the Annual Meeting that are not voted for a particular nominee or shares present by proxy where the stockholder properly withheld authority to vote for such nominee will not be counted toward that nominee's achievement of a plurality.

Vote Required for Ratification of Auditors (Proposal No. 2). Nevada law and our Bylaws provide that, on all matters (other than the election of directors and except to the extent otherwise required by our Articles of Incorporation, as amended or applicable Nevada law), the affirmative vote of a majority of the shares present, in person or by proxy, and voting on the matter, will be required for approval. Accordingly, the affirmative vote of a majority of the shares present at the Annual Meeting, in person or by proxy, and voting on the matter, will be required to ratify the Board's selection of Marcum LLP as our independent auditors for the fiscal year ending December 31, 2016.

Vote Required for the Reverse Stock Split of the Company's Common Stock by a Ratio of Not Less than One-for-Two and Not More than One-for-Three Hundred (Proposal No. 3). Nevada law and our Bylaws provide that the affirmative vote of the holders holding shares of the Company entitling them to exercise at least a majority of the voting power of the Company is required to approve the amendment to our Articles of Incorporation to give effect to the Reverse Split of the Company's common stock. Abstentions with respect to Proposal 3 will be treated as shares that are present or represented at the Annual Meeting, but will not be counted in favor of Proposal 3. Accordingly, an abstention with respect to Proposal 3 will have the same effect as a vote "AGAINST" Proposal 3.

What is the difference between a stockholder of record and a beneficial owner of shares held in street name?

Most of our stockholders hold their shares in an account at a brokerage firm, bank or other nominee holder, rather than holding share certificates in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially in street name.

Stockholder of Record

If on September 1, 2016, the record date, your shares were registered directly in your name with our transfer agent, VStock Transfer, you are considered a stockholder of record with respect to those shares, and the Notice of Annual Meeting and Proxy Statement was sent directly to you by the Company. As the stockholder of record, you have the right to direct the voting of your shares by returning the proxy card to us. Whether or not you plan to attend the Annual Meeting, if you do not vote over the Internet or telephonically, please complete, date, sign and return a proxy card to ensure that your vote is counted.

Beneficial Owner of Shares Held in Street Name

If on September 1, 2016, your shares were held in an account at a brokerage firm, bank, broker-dealer, or other nominee holder, then you are considered the beneficial owner of shares held in “street name,” and the Notice of Annual Meeting and Proxy Statement was forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As the beneficial owner, you have the right to direct that organization on how to vote the shares held in your account. However, since you are not the stockholder of record, you may not vote these shares in person at the Annual Meeting unless you receive a valid proxy from the organization.

How do I vote?

Stockholders of Record. If you are a stockholder of record, you may vote by any of the following methods:

Via the Internet. You may vote by proxy via the Internet by following the instructions provided on the enclosed Proxy Card.

By Telephone. You may vote by calling the toll free number found on the proxy card.

By Mail. You may vote by completing, signing, dating and returning your proxy card in the pre-addressed, postage-paid envelope provided.

In Person. You may attend and vote at the Annual Meeting. The Company will give you a ballot when you arrive.

Beneficial Owners of Shares Held in Street Name. If you are a beneficial owner of shares held in street name, you may vote by any of the following methods:

Via the Internet. You may vote by proxy via the Internet by following the instructions provided on the enclosed proxy card.

By Telephone. You may vote by proxy by calling the toll free number found on the vote instruction form.

By Mail. You may vote by proxy by filling out the vote instruction form and returning it in the pre-addressed, postage-paid envelope provided.

In Person. If you are a beneficial owner of shares held in street name and you wish to vote in person at the Annual Meeting, you must obtain a legal proxy from the organization that holds your shares.

Abstentions and broker non-votes

While the inspectors of election will treat shares represented by Proxies that reflect abstentions or include “broker non-votes” as shares that are present and entitled to vote for purposes of determining the presence of a quorum, abstentions or “broker non-votes” do not constitute a vote “for” or “against” any matter and thus will be disregarded in any calculation of “votes cast.” However, abstentions and “broker non-votes” will have the effect of a negative vote if an item requires the approval of a majority of a quorum or of a specified proportion of all issued and outstanding shares.

Brokers holding shares of record for customers generally are not entitled to vote on “non-routine” matters, unless they receive voting instructions from their customers. As used herein, “uninstructed shares” means shares held by a broker who has not received voting instructions from its customers on a proposal. A “broker non-vote” occurs when a nominee holding uninstructed shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that non-routine matter. In connection with the treatment of abstentions and broker non-votes, the proposed ratification of Marcum LLP as the Company’s independent registered public accounting firm for the fiscal year ending December 31, 2016 is considered a “routine” matter. Accordingly, brokers are entitled to vote uninstructed shares with respect to this proposal.

What happens if I do not give specific voting instructions?

Shareholders of Record. If you are a stockholder of record and you:

indicate when voting on the Internet or by telephone that you wish to vote as recommended by the Board of Directors, or

sign and return a proxy card without giving specific voting instructions,

then the proxy holders will vote your shares in the manner recommended by the Board of Directors on all matters presented in this proxy statement and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the Annual Meeting.

Beneficial Owners of Shares Held in Street Name. If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, under the rules of various national and regional securities exchanges, the organization that holds your shares may generally vote on routine matters, such as the ratification of Marcum LLP as the Company's independent registered public accounting firm for the year ending December 31, 2016, but cannot vote on non-routine matters, such as the election of directors or the approval of the Reverse Split.

What are the Board's recommendations?

The Board's recommendation is set forth together with the description of each item in this Proxy Statement. In summary, the Board recommends a vote:

for election of the five (5) members of our Board of Directors, each to serve until the 2017 Annual Meeting of Stockholders and until their successors are elected and qualified or until their earlier resignation or removal;

for ratification of the appointment of Marcum LLP as the Company's independent auditors for the fiscal year ending December 31, 2016;

for approval of an amendment to the Company's Articles of Incorporation to effect a reverse stock split (the "Reverse Split") of the Company's common stock by a ratio of not less than one-for-two and not more than one-for-three hundred at any time prior to October 11, 2017, with the Board of Directors having the discretion as to whether or not the Reverse Split is to be effected and with the exact ratio of any reverse stock split to be set at a whole number within the above range as determined by the Board in its discretion.

With respect to any other matter that properly comes before the meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion.

Dissenters' Right of Appraisal

Holders of shares of our common stock, Series C Convertible Preferred Stock, Series E Convertible Preferred Stock and Series H Convertible Preferred Stock do not have appraisal rights under Nevada law or under the governing documents of the Company in connection with this solicitation.

How are Proxy materials delivered to households?

Only one copy of the Company's Annual Report on Form 10-K for the fiscal year ending December 31, 2015 and this Proxy Statement will be delivered to an address where two or more stockholders reside with the same last name or who otherwise reasonably appear to be members of the same family based on the stockholders' prior express or implied consent.

We will deliver promptly upon written or oral request a separate copy of the Company's Annual Report on 10-K for the fiscal year ending December 31, 2015 and this Proxy Statement upon such request. If you share an address with at least one other stockholder, currently receive one copy of our Annual Report and Proxy Statement at your residence, and would like to receive a separate copy of our Annual Report and Proxy Statement for future stockholder meetings of the Company, please specify such request in writing and send such written request to Amaranthus BioScience Holdings, Inc., 655 Montgomery Street, Suite 900, San Francisco, CA 94111; Attention: Corporate Secretary.

The Corporate Governance and Nominating Committee shall identify and evaluate the qualifications of all candidates for nomination for election as directors. Our Board of Directors is primarily responsible for overseeing our risk management processes. The Board of Directors receives and reviews periodic reports from management, auditors, legal counsel, and others, as considered appropriate regarding our Company's assessment of risks. The Board of Directors focuses on the most significant risks facing our company and our Company's general risk management strategy, and also ensures that risks undertaken by our Company are consistent with the Board's appetite for risk. While the Board oversees our Company, our Company's management is responsible for day-to-day risk management processes. We believe this division of responsibilities is the most effective approach for addressing the risks facing our Company and that our Board leadership structure supports this approach.

AUDIT COMMITTEE REPORT**Membership and Role of Audit Committee**

The audit committee of our Board is responsible for providing independent, objective oversight and review of our accounting functions, internal controls and financial reporting process. Currently, the audit committee is comprised of Donald D. Huffman, Robert Harris and Joseph Rubinfeld, each of whom is a non-employee director. Mr. Donald Huffman is the chairperson of our audit committee. Our board of directors has adopted a written charter for our audit committee, which is available on our website at www.amarantus.com. We believe that each of the members of the audit committee is independent as defined by applicable laws and regulations.

Management has the primary responsibility for the financial statements and the reporting process, including our system of internal controls and for the preparation of the consolidated financial statements in accordance with generally accepted accounting principles. Our independent accountants are responsible for performing an independent audit of those financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The audit committee's responsibility is to monitor and oversee these processes on behalf of the Board.

Review of our Audited Financial Statements

In fulfilling its oversight responsibilities, the audit committee reviewed the audited financial statements in our Annual Report on Form 10-K with management and discussed the quality and acceptability of our accounting principles, the reasonableness of significant judgments and the clarity of disclosures in our financial statements.

The audit committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgment as to the quality and acceptability of our accounting principles and such other matters as are required to be discussed with the committee under generally accepted auditing standards, including Auditing Standard No. 16 (Communications with Audit Committees). In addition, the audit committee has discussed with the independent auditors the auditors' independence from management and us, including the matters in the written disclosures required by Independence Standards Board Standard No. 1 (Independent Discussions with Audit Committees), which were submitted to us, and considered the compatibility of non-audit services with the auditors' independence.

The audit committee discussed with our independent auditors the overall scope and plans for their audit. The audit committee met with the independent auditors, with and without management present, to discuss the results of their examination, their evaluation of our internal controls, and the overall quality of our financial reporting.

In reliance on these reviews and discussions, the audit committee recommended to our Board of Directors (and our Board has approved) that our audited financial statements for the year ended December 31, 2015 be included in the Annual Report on Form 10-K for the year ended December 31, 2015 for filing with the Securities and Exchange Commission.

The audit committee selects the Company's independent registered public accounting firm annually and has submitted such selection for the year ending December 31, 2016 for ratification by stockholders at the Company's annual meeting.

The audit committee consists of Donald D. Huffman (Chairman), Robert Harris and Joseph Rubinfeld.

The foregoing audit committee report does not constitute soliciting material and shall not be deemed filed or incorporated by reference into any other filing of our company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent we specifically incorporate this report by reference therein.

RECOMMENDATION OF THE BOARD FOR PROPOSAL NO. 2:

**THE BOARD RECOMMENDS A VOTE FOR RATIFICATION OF APPOINTMENT OF MARCUM LLP
AS OUR INDEPENDENT AUDITORS**

FOR THE YEAR ENDED DECEMBER 31, 2016.

PROPOSAL NO. 3:

Approval of an amendment to the Company's Articles of Incorporation to effect a reverse stock split of the Company's common stock by a ratio of not less than one-for-two and not more than one-for-three hundred at any time prior to October 11, 2017, which will have the effect of increasing our authorized but unissued capital stock, and with the Board of Directors having the discretion as to whether or not the reverse stock split is to be effected, and with the exact ratio of any reverse stock split to be set at a whole number within the above range as determined by the Board in its discretion

General

Our Board of Directors has approved and recommended a proposal to effect the reverse stock split of our issued and outstanding common stock, as described below.

The form of the proposed amendment to the Company's Articles of Incorporation to effect a reverse stock split of our issued and outstanding common stock will be substantially as set forth on Appendix A (subject to any changes required by applicable law). If approved by our stockholders, the reverse stock split proposal would permit (but not require) our Board to effect a reverse stock split of our issued and outstanding common stock at any time prior to October 11, 2017 by a ratio of not less than 1-for-2 and not more than 1-for-300, with the exact ratio to be set at a whole number within this range as determined by our Board in its sole discretion. We believe that enabling our Board to set the ratio within the stated range will provide us with the flexibility to implement the reverse stock split in a manner designed to maximize the anticipated benefits for our stockholders. In determining a ratio, if any, following the receipt of stockholder approval, our Board may consider, among other things, factors such as:

prevailing market conditions;

general economic and other related conditions prevailing in our industry and in the marketplace;

the historical and projected performance of our common stock;

the projected impact of the selected reverse stock split ratio on trading liquidity in our common stock

our capitalization (including the number of shares of common stock issued and outstanding);

the prevailing trading price for our common stock and the volume levels thereof; and

potential devaluation of our market capitalization as a result of a reverse stock split.

Our Board reserves the right to elect to abandon the reverse stock split, if it determines, in its sole discretion, that the reverse stock split is no longer in the best interests of the Company and its stockholders.

Depending on the ratio for the reverse stock split determined by our Board, stockholders with less than 2 shares and no more than 300 shares of our common stock, may be combined into one share of common stock. Any fractional shares will be rounded up to the next whole number. The amendment to our Articles of Incorporation to effect the reverse stock split, if any, will include only the reverse stock split ratio determined by our Board of Directors to be in the best interests of our stockholders and all of the other proposed amendments at different ratios will be abandoned.

Except for any changes as a result of the treatment of fractional shares, each stockholder will hold the same percentage of our common stock outstanding immediately after the reverse stock split as such stockholder held immediately prior to the reverse stock split. The proposed reverse stock split will not affect the number of shares of common stock authorized in the Articles of Incorporation or the number of authorized shares. Because the number of shares of authorized common stock will not be affected, the effect of the proposed reverse stock split will be an increase in the authorized, but unissued, shares of common stock.

Reasons for the Reverse Stock Split

On April 14, 2016, the Company entered into a Securities Purchase Agreement or the April 2016 SPA with three institutional investors for the sale of an aggregate principal amount \$1,500,000 (including 10% OID) 10% Senior Secured Convertible Promissory Notes due April 17, 2017 and a warrant to purchase 1,350,000 shares of common stock (the in a private placement offering. Pursuant to the terms of the Notes SPA, the investors agreed to purchase additional aggregate principal amount of \$1,555,556 (including 10% OID) of Senior Secured Notes and Warrants to purchase 1,400,000 shares of the Company's common stock on the first trading date after the registration statement which the Company agreed to file is declared effective and an additional \$1,388,889 (including 10% OID) of Senior Secured Notes and Warrants to purchase 1,250,000 shares of the Company's common stock on the 61st day after such registration statement is declared effective or such earlier date as mutually agreed to among the investors, subject to the satisfaction of customary closing conditions. Pursuant to the terms of the SPA, the Company agreed to seek the approval of its shareholders to increase its authorized common stock and effect a reverse split. The Company and the investors agreed that an increase in its authorized common stock would not be necessary if the Company effect the reverse stock split which will have the effect of increasing the shares of common stock available for future issuance. The increase in the available authorized but unissued shares of the Company's common stock will also allow the Company to satisfy conversions of all outstanding convertible securities of the Company. The Company has over the last 12 months entered into securities purchase agreements with investors for the sale of its Series E and Series H Preferred Stock and warrants.

Implementing the reverse stock split would also have the effect of increasing the market price per share of our common stock. The Board of Directors believes that a higher price per share will improve the marketability and liquidity of our common stock and will encourage interest and trading in our common stock. Because of the trading volatility often associated with low-priced stocks, many brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. Some of those policies and practices may function to make the processing of trades in low-priced stocks economically unattractive to brokers. Additionally, because brokers' commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current average price per share of our common stock can result in individual stockholders paying transaction costs representing a higher percentage of their total stock value than would be the case if the stock price were substantially higher. It should be noted, however, that the liquidity of our common stock may in fact be adversely affected by the proposed reverse stock split given the reduced number of shares that would be outstanding after the reverse stock split is implemented.

For the above reasons, we believe the reverse stock split is in the best interests of the Company and our stockholders. However, we cannot assure you that the reverse stock split, if implemented, will have the effect of proportionately raising our common stock price over the long term, or at all. The effect of a reverse stock split upon the market price of our common stock cannot be predicted with any certainty, and the history of similar stock splits for companies in similar circumstances is varied. The market price of our common stock may vary based on other factors unrelated to the number of shares outstanding, including our future performance.

Effects of the Reverse Stock Split

Except for adjustments that may result from the treatment of fractional shares as described below, each stockholder will hold the same percentage of our outstanding common stock immediately following the implementation of the reverse stock split as that stockholder held immediately prior to the reverse stock split. On September 1, 2016, we had 75,356,985 shares of common stock issued and outstanding and 74,643,015 shares of common stock that were authorized but unissued. At September 1, 2016, we had reserved shares for future issuance, consisting of (i) 871,185 and (ii) 73,771,830 shares of common stock potentially issuable upon the conversion of outstanding Series C Convertible Preferred Stock, Series D Convertible Preferred Stock, Series E Convertible Preferred Stock and Series H Convertible Preferred Stock as well as various warrants. All of these share numbers will be adjusted in accordance with the ratio of the reverse stock split. With respect to outstanding options and warrants, the respective exercise prices of the options and warrants would increase by a factor equal to the inverse of the reverse stock split ratio.

After the reverse stock split is implemented, each stockholder will own a reduced number of shares of our common stock based on the exchange ratio selected by the Board. For example, if the Board decides to implement a 1 for 3 reverse stock split, then for every 3 shares of our common stock that a stockholder owns they will be combined and converted into a single share of our common stock. We estimate that following the implementation of the reverse stock split we would have approximately the same number of stockholders. Except for any changes as a result of the treatment of fractional shares, the completion of the reverse stock split alone would not reduce any stockholder's proportionate ownership interest in the Company. The implementation of the reverse stock split may, however, increase the number of stockholders of the Company who own "odd lots" of less than 100 shares of our common stock. Odd lots may be more difficult to sell, and brokerage commissions and other costs of transactions in odd lots are generally higher than the costs of transactions of more than 100 shares of common stock.

Because the number of shares of authorized common stock will not be affected, the proposed reverse stock split will result in an increase in the authorized, but unissued, shares of common stock. The reverse stock split will not affect the par value of our common stock or the number of shares of preferred stock which the Company may issue, which shall remain at 10,000,000 shares. Our preferred stock is available for issuance from time to time for such purposes and consideration as the Board may approve in their discretion. There are 750,000 shares of Series C Convertible Preferred Stock issued and outstanding convertible into 5,000 shares of common stock; 0 shares of Series D Convertible Preferred Stock issued and outstanding convertible into 0 shares of common stock; 8,791 shares of Series E Convertible Preferred Stock issued and outstanding convertible into 225,413,103 shares of common stock; 0 shares of Series G Convertible Preferred Stock issued and outstanding convertible into 0 shares of common stock; and 6,085 shares of Series H Convertible Preferred Stock issued and outstanding convertible into 174,478,692 shares of common stock.

The table below illustrates the number of shares of common stock authorized for issuance following the reverse stock split, the approximate number of shares of common stock that would remain outstanding following the reverse stock split, the approximate number of shares of common stock reserved for future issuance upon exercise of outstanding options and warrants following the reverse stock split, and the number of unreserved shares of common stock available for future issuance following the reverse stock split. The information in the following table is based on 75,356,985 shares of common stock issued and outstanding as of September 1, 2016 and 74,643,105 shares reserved for future issuance as of September 1, 2016.

Proposed Ratio	Number of Common Shares Authorized	Approximate Number of Common Shares Outstanding	Approximate Number of Common Shares Reserved for Future Issuance	Approximate Number of Unreserved Common Shares Available for Future Issuance

1-for-10	150,000,000	7,535,699	7,464,311	134,999,990
1-for-20	150,000,000	3,767,849	3,732,155	142,499,996

1-for-40	150,000,000	1,883,925	1,866,078	146,249,997
1-for-50	150,000,000	1,507,140	1,492,862	146,999,998
1-for-100	150,000,000	753,570	746,431	148,499,999
1-for-150	150,000,000	502,380	497,621	148,999,999
1-for-200	150,000,000	376,785	373,216	149,249,999
1-for-250	150,000,000	301,428	298,572	149,400,000
1-for-300	150,000,000	251,190	248,810	149,500,000

As reflected in the table above, the number of authorized shares of our common stock will not be reduced by the reverse stock split. Accordingly, the reverse stock split will have the effect of creating additional unissued and unreserved shares of our common stock. While a portion of the additional authorized and unreserved shares of our common stock that would be available as a result of the proposed reverse stock split may be issued pursuant to the April 2016 SPA. Nonetheless, these additional shares may also be used by us for various purposes in the future without further stockholder approval, including, among other things: (i) raising capital necessary to fund our future operations, (ii) providing equity incentives to our employees, officers, directors and consultants, (iii) establishing strategic relationships with other companies and (iv) expanding our business through the acquisition of other businesses or products.

Although the Board expects that the reduction in outstanding shares of common stock will result in an increase in the per share price of the Company's common stock, there is no assurance that such a result will occur. Similarly there is no assurance that if the per share price of the Company's common stock increases as a result of the reverse stock split, such increase in the per share price will be permanent, which will be dependent on several factors.

Should the per share price of our common stock decline after implementation of the reverse stock split, the percentage decline may be greater than would occur in the absence of the reverse stock split.

The anticipated resulting increase in per share price of the Company's common stock due to the reverse stock split is expected to encourage interest in the Company's common stock and possibly promote greater liquidity for our stockholders. However, such liquidity could also be adversely affected by the reduced number of shares that would be outstanding after the reverse stock split.

The reverse stock split could be viewed negatively by the market and, consequently, could lead to a decrease in our overall market capitalization. It is often the case that the reverse-split adjusted stock price and market capitalization of companies that effect a reverse stock split decline.

Treatment of Fractional Shares

We do not currently intend to issue fractional shares in connection with the reverse stock split. Therefore, we will not issue certificates representing fractional shares. In lieu of issuing fractions of shares, we will round up to the next whole number.

Exchange of Stock Certificates

The combination of, and reduction in, the number of shares of our outstanding common stock as a result of the reverse stock split will occur automatically on the date that the amendment to our Articles of Incorporation is filed with the Nevada Secretary of State (the “Effective Date”), without any action on the part of our stockholders and without regard to the date that stock certificates representing the outstanding shares of our common stock prior to the Effective Date are physically surrendered for new stock certificates.

As soon as practicable after the Effective Date, transmittal forms will be mailed to each holder of record of certificates for our common stock to be used in forwarding such certificates for surrender and exchange for certificates representing the number of shares of our common stock such stockholder is entitled to receive as a result of the reverse stock split. Our transfer agent will act as exchange agent for purposes of implementing the exchange of the stock certificates. The transmittal forms will be accompanied by instructions specifying other details of the exchange. Upon receipt of the transmittal form, each stockholder should surrender the certificates representing our common stock prior to the reverse stock split in accordance with the applicable instructions. Each holder who surrenders certificates will receive new certificates representing the whole number of shares of our common stock that he or she holds as a result of the reverse stock split. New certificates will not be issued to a stockholder until the stockholder has surrendered his or her outstanding certificate(s) together with the properly completed and executed transmittal form to the exchange agent.

If your shares are held in an account at a brokerage firm or financial institution, which is commonly referred to as your shares being held in “street name,” then you are the beneficial owner of those shares and the brokerage firm or financial institution holding your account is considered to be the stockholder of record. We intend to treat stockholders holding common stock in street name in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding common stock in street name. However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If you hold your shares with a bank, broker or other nominee and if you have any questions in this regard, we encourage you to contact your bank, broker or nominee.

Any stockholder whose certificate has been lost, destroyed or stolen will be entitled to a new certificate only after complying with the requirements that we and our transfer agent customarily apply in connection with replacing lost, stolen or destroyed certificates.

No service charges, brokerage commissions or transfer taxes shall be payable by any holder of any old certificate, except that if any new certificate is to be issued in a name other than that in which the old certificate(s) are registered, it will be a condition of such issuance that (i) the person requesting such issuance must pay to us any applicable transfer taxes or establish to our satisfaction that such taxes have been paid or are not payable, (ii) the transfer complies with all applicable federal and state securities laws and (iii) the surrendered certificate is properly endorsed and otherwise in proper form for transfer.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATES AND SHOULD NOT SUBMIT THEIR STOCK CERTIFICATES UNTIL THEY RECEIVE A TRANSMITTAL FORM FROM OUR TRANSFER AGENT.

Accounting Consequences

The par value of our common stock will remain unchanged at \$0.001 per share after the reverse stock split. As a result, our stated capital, which consists of the par value per share of the common stock multiplied by the aggregate number of shares of the common stock issued and outstanding, will be reduced proportionately at the effective time of the reverse stock split. Correspondingly, our additional paid-in capital, which consists of the difference between our stated capital and the aggregate amount paid to us upon the issuance of all currently outstanding shares of common stock, will be increased by a number equal to the decrease in stated capital. Further, net loss per share, book value per share, net income and other per share amounts will be increased as a result of the reverse stock split because there will be fewer shares of common stock outstanding.

Potential Anti-Takeover Effect

Although in certain circumstances the increased proportion of unissued authorized shares to issued shares could have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of the Board or contemplating a tender offer or other transaction for the combination of the Company and another company), the proposed reverse stock split is not being proposed in response to any effort of which we are aware to accumulate shares of our common stock or obtain control of the Company, and it is not part of a plan by management to recommend a series of similar actions to the Board and stockholders. Other than seeking approval for the Board to amend the Articles of Incorporation to effect the reverse stock split, the Board currently does not contemplate recommending the adoption of any other actions that could be construed to affect the ability of third parties to effect a change control of the Company.

No Appraisal Rights

Under the Nevada Revised Statutes, our stockholders are not entitled to appraisal rights with respect to our proposed reverse stock split, and we will not independently provide our stockholders with any such rights.

No Going Private Transaction

Notwithstanding the decrease in the number of outstanding shares following the implementation of the reverse stock split, the Board of Directors does not intend for this transaction to be the first step in a “going private transaction” within the meaning of Rule 13e-3 of the Exchange Act and the implementation of the proposed reverse stock split will not

cause the Company to go private.

Book-Entry Shares

If the reverse stock split is effected, stockholders who hold uncertificated shares (i.e. shares held in book entry form and not represented by a physical certificate), whether as direct or beneficial owners, will have their holdings electronically adjusted by our transfer agent (and for beneficial owners by their brokers or banks that hold the shares in street name for their benefit, as the case may be) to give effect to the reverse stock split.

Certain Material U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain material U.S. federal income tax consequences of the reverse stock split to holders of our common stock. It addresses only U.S. stockholders who hold the pre-reverse stock split common stock and post-reverse stock split common stock as “capital assets” within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the “Code”). This discussion does not purport to be a complete discussion of all of the possible federal income tax consequences of the reverse stock split and does not account for or consider the federal income tax consequences to stockholders in light of their individual investment circumstances or to stockholders subject to special treatment under the federal income tax laws, including but not limited to:

banks, financial institutions, thrifts, mutual funds or trusts;

tax-exempt organizations;

insurance companies;

dealers in securities or foreign currency;

real estate investment trusts, personal holding companies, regulated investment companies, or passive foreign investment companies;

foreign or United States expatriate stockholders;

stockholders who are not “United States persons,” as defined in Section 7701 of the Internal Revenue Code;

controlled foreign corporations;

stockholders with a functional currency other than the U.S. dollar;

stockholders who hold the pre-reverse stock split common stock as part of a straddle, hedge, constructive sale, conversion transaction, or other integrated investment;

stockholders who hold the pre-reverse stock split common stock as “qualified small business stock” within the meaning of Section 1202 of the Internal Revenue Code;

common trusts;

traders, brokers, or dealers in securities who elect to apply a mark-to-market method of accounting;

partnerships or other pass-through entities or investors in such entities;

stockholders who are subject to the alternative minimum tax provisions of the Internal Revenue Code;

stockholders who acquired their pre-reverse stock split common stock pursuant to the exercise of employee stock options, through a tax-qualified retirement plan, or otherwise as compensation; or

holders of warrants or stock options.

In addition, this discussion does not address any tax considerations under state, local, gift or foreign tax laws.

This summary is based upon the Code, existing and proposed U.S. Treasury regulations promulgated thereunder, legislative history, judicial decisions, and current administrative rulings and practices, all as in effect on the date hereof and all of which are subject to differing interpretations. Any of these authorities could be repealed, overruled or modified at any time. Any such change could be retroactive and, accordingly, could cause the tax consequences of the reverse stock split to vary substantially from the consequences described herein. Further, no ruling from the Internal Revenue Service (the “IRS”) or opinion of legal or tax counsel will be obtained with respect to the matters discussed herein, and there is no assurance or guarantee that the IRS would agree with the conclusions set forth in this summary. This information is not intended as tax advice to any person and may not be relied upon to avoid penalties.

STOCKHOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF THE REVERSE STOCK SPLIT, INCLUDING THE APPLICABILITY OF ANY STATE, LOCAL, GIFT OR FOREIGN TAX LAWS, CHANGES IN APPLICABLE TAX LAWS, AND ANY PENDING OR PROPOSED LEGISLATION OR AUTHORITY.

The reverse stock split is intended to constitute a “recapitalization” within the meaning of Section 368(a)(1)(E) of the Internal Revenue Code. Certain filings with the IRS must be made by the Company and certain “significant holders” of our common stock in order for the reverse stock split to qualify as a recapitalization. The tax consequences discussed below assume that the reverse stock split is treated as a recapitalization and that the common stock is held by each stockholder as a capital asset:

A stockholder generally will not recognize gain or loss as a result of the reverse stock split, except to the extent of cash, if any, received in lieu of a fractional share interest in the post-reverse stock split common stock. A stockholder who receives cash in lieu of a fractional share interest in the post-reverse stock split common stock generally will recognize gain or loss equal to the difference, if any, between the cash received and the portion of the tax basis of the pre-reverse stock split common stock allocated to the fractional share interest. Subject to the limitations above, such gain or loss will be long-term capital gain or loss if the pre-reverse stock split common stock was held for more than one year by the stockholder at the time of the reverse stock split. If a stockholder is an individual, such gain may also be subject to an additional 3.8% Medicare tax if such stockholder attains certain income thresholds.

A stockholder’s aggregate tax basis of the post-reverse stock split common stock received in the reverse stock split will generally be equal to the aggregate tax basis of the pre-reverse stock split common stock exchanged therefore (excluding any portion of the stockholder's tax basis allocated to fractional share interests).

A stockholder’s holding period for the common stock held post-reverse stock split will include the holding period of the pre-reverse stock split common stock exchanged.

No gain or loss for federal income tax purposes will be recognized by the Company as a result of the reverse stock split.

Information returns generally will be required to be filed with the IRS with respect to the receipt of cash in lieu of a fractional share of our common stock pursuant to the reverse stock split. In addition, stockholders may be subject to backup withholding (at the current applicable rate of 28%) on the payment of such cash if they do not provide their taxpayer identification numbers in the manner required. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules generally may be refunded or allowed as a credit against the stockholder’s federal income tax liability, if any, provided the required information is timely furnished to the IRS.

The foregoing discussion is intended only as a summary of certain U.S. federal income tax consequences of the reverse stock split and does not purport to be a complete analysis or listing of all potential U.S. federal income tax consequences of the reverse stock split.
