**PROSPECTUS SUPPLEMENT SUMMARY**

*This summary contains basic information about us and this offering. Because it is a summary, it does not contain all of the information that you should consider before investing. Before you decide to invest in our securities, you should read this entire prospectus supplement and the accompanying prospectus carefully, including the sections entitled “Risk Factors,” and our consolidated financial statements and the related notes and other documents incorporated by reference herein and in the accompanying prospectus.*

**Our Company**

**Our Business**

We are a pharmaceutical company currently engaged in the research and development of innovative pharmaceutical solutions, including an oral insulin capsule to be used for the treatment of individuals with diabetes, and the use of orally ingestible capsules or pills for delivery of other polypeptides.

**Oral Insulin:** We are seeking to revolutionize the treatment of diabetes through our proprietary flagship product, an orally ingestible insulin capsule, or ORMD-0801. In April 2018, we initiated a three-month dose-ranging Phase IIb clinical trial of ORMD-0801. This placebo controlled, randomized, 90 day treatment clinical trial is being conducted on approximately 240 type 2 diabetic patients in multiple centers throughout the United States pursuant to an Investigational New Drug application, or IND, with the U.S. Food and Drug Administration, or FDA. The primary endpoints of the trial are to assess the safety and evaluate the effect of ORMD-0801 on HbA1c levels over a 90 day treatment period. Secondary endpoints of the trial include measurements of fasting plasma glucose (FPG), post-prandial glucose (PPG levels) during a mixed-meal tolerance test (MMTT) and weight. In June 2018, we initiated a glucose clamp study which will quantify insulin absorption in type 1 diabetic patients treated with ORMD-0801. The glucose clamp is a method for quantifying insulin absorption in order to measure a patient’s insulin sensitivity and how well a patient metabolizes glucose. This exploratory, randomized, double-blind glucose clamp study is evaluating exposure-response profiles of type 1 diabetes patients dosed with ORMD-0801. Patients with HbA1c levels of 10% or below, aged 18-50, are enrolled in the study. In June 2018, we also initiated a food effect trial in the United States for ORMD-0801. This single-blind, five period, randomized, placebo-controlled crossover trial is evaluating the pharmacokinetics and pharmacodynamics of ORMD-0801 taken at different times in relation to meals in healthy volunteers and subjects with type 1 diabetes. Up to 48 subjects will be enrolled, including up to 24 healthy volunteers and 24 subjects with type 1 diabetes. We had a call with the FDA in August 2017 regarding ORMD-0801 after the completion of a Phase IIb clinical trial on 180 diabetic patients, which indicated a statistically significant blood glucose lowering effect of ORMD-0801 versus placebo. During the call, the FDA advised that the regulatory pathway for the submission of ORMD-0801 would be a Biologics License Application, or BLA. If approved, the BLA pathway would grant us 12 years of marketing exclusivity for ORMD-0801, from the approval date, and an additional six

months of exclusivity may be granted to us if the product also receives approval for use in pediatric patients. The FDA confirmed that the approach to nonclinical toxicology, chemistry manufacturing controls and qualification of excipients would be driven by their published guidance documents.

**GLP-1 Analog:** Our second pipeline product, glucagon-like peptide-1, or GLP-1, is an incretin hormone, which is a type of gastrointestinal hormone that stimulates the secretion of insulin from the pancreas. In addition to stimulating insulin release, GLP-1 was found to suppress glucagon release (a hormone involved in the regulation of glucose) from the pancreas, slow gastric emptying to reduce the rate of absorption of nutrients into the blood stream, and increase satiety. Other important beneficial attributes of GLP-1 are its effects of increasing the number of beta cells (cells that manufacture and release insulin) in the pancreas and, possibly, protection of the heart. In addition to our flagship product, the ORMD-0801 insulin capsule, we are using our technology for an orally ingestible GLP-1 capsule, or ORMD-0901. In August 2015, we began a non-FDA clinical trial outside of the United States for ORMD-0901, our oral GLP-1/exenatide capsule, on type 2 diabetic patients. The trial was completed during the second quarter of calendar year 2016 and indicated positive results as it showed ORMD-0901 to be safe and well tolerated and also demonstrated encouraging efficacy data. We completed a three-month pre-clinical toxicology study in March 2017 and the final report will be submitted to the FDA with our IND. We expect to file an IND during the third quarter of calendar year 2018 and move directly into a small pharmacokinetics study on healthy volunteers, followed by a large Phase II trial on type 2 diabetic patients in the United States under an IND.

**Exploratory studies:** We have begun developing a new drug candidate, a weight loss treatment in the form of an oral leptin capsule, and plan to initiate a proof of concept study for our oral leptin drug candidate in calendar year 2018. In addition, we plan to initiate in the third quarter of calendar year 2018 an exploratory clinical study of our oral insulin capsule, ORMD-0801, in patients with nonalcoholic steatohepatitis, or NASH, to assess the effectiveness of ORMD-0801 in reducing liver fat content, inflammation and fibrosis in patients with NASH.

**RISK FACTORS**

An investment in our securities involves a high degree of risk. You should consider carefully the risk factors below, in the accompanying prospectus and in our filings with the SEC, including in our Annual Report on Form 10-K for the fiscal year ended August 31, 2017, or our Annual Report, under the heading “Risk Factors,” as well as all of the information contained in this prospectus supplement, in the accompanying prospectus and the other documents incorporated by reference herein or therein, before you decide to invest in our securities. Our business, prospects, financial condition and results of operations may be materially and adversely affected as a result of any of such risks. The value of our securities could decline as a result of any of these risks. You could lose all or part of your investment in our securities. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business, prospects, financial condition and results of operations.

**Risks Related to this Offering**

*You will experience immediate and substantial dilution in the net tangible book value per share of the common stock you purchase.*

Since the price per share of our common stock being offered as part of the units is higher than the net tangible book value per share of our common stock, you will suffer substantial dilution in the net tangible book value of the common stock you purchase in this offering as part of the units. Based on the offering price of \$6.25 per share, and after deducting the placement agent's fee and estimated offering expenses payable by us, if you purchase shares of common stock in this offering as part of the units, you will incur immediate and substantial dilution in net tangible book value of \$4.11 per each share that is part of a unit. See the section entitled “Dilution” on page S-4 in this prospectus supplement for a more detailed discussion of the dilution you will incur if you purchase shares of our common stock in this offering as part of the units.

*Our management will have broad discretion over the use of the proceeds we receive from this offering and may invest or spend the proceeds of this offering in ways with which you may not agree or in ways which may not yield a significant return, if any.*

We intend generally to use the net proceeds from this offering for expenses related to our research and product development activities, preclinical and clinical trial activities and for working capital and other general corporate purposes. Our management will have significant flexibility in applying the net proceeds from this offering. The actual amounts and timing of expenditures will vary significantly depending on a number of factors, including the amount of

cash used in our operations and our research and development efforts. Management's failure to use these funds effectively would have an adverse effect on the value of our common stock and could make it more difficult and costly to raise funds in the future.

***You may not be able to resell your warrants.***

There is no established trading market for the warrants being offered in this offering, and we do not expect such a market to develop. In addition, we do not intend to apply for listing of the warrants on any securities exchange or other nationally recognized trading system. Accordingly, you may not be able to resell your warrants. If your warrants cannot be resold, you will have to depend upon any appreciation in the value of our common stock over the exercise price of the warrants in order to realize a return on your investment in the warrants.

***Investors will have no rights as a stockholder with respect to their warrants until they exercise their warrants and acquire shares of our common stock.***

Until you acquire shares of our common stock upon exercise of your warrants, you will have no rights with respect to the shares of our common stock underlying such warrants. Upon exercise of your warrants, you will be entitled to exercise the rights of a common stockholder only as to matters for which the record date occurs after the exercise date.

***The warrants will not be immediately exercisable and may never have any value.***

The warrants comprising part of the units being sold in this offering, which have an exercise price of \$7.25 per share of common stock, will not be exercisable until six months after the date they are issued and will expire on the three and one half year anniversary of the initial issue date. In the event our common stock price does not exceed the per share exercise price of the warrants during the period when the warrants are exercisable, the warrants will not have any value.

Table of Contents

**USE OF PROCEEDS**

We estimate that our net proceeds from this offering will be approximately \$16,500,000 based on the offering price of \$6.25 per unit and after deducting the placement agent's fees and the estimated offering expenses that are payable by us. The foregoing net proceeds do not include any proceeds that we may receive from the potential exercise of the warrants offered hereby.

We intend to use the net proceeds from this offering for expenses related to our research and product development activities, clinical trial activities and for working capital and other general corporate purposes. Pending such application, we may invest the net proceeds in bank deposits or investment-grade and interest-bearing securities subject to any investment policies our management may determine from time to time.

We have not yet determined the amount of net proceeds to be used specifically for any of the foregoing purposes. Accordingly, our management will have significant discretion and flexibility in applying the net proceeds from this offering.

**DIVIDEND POLICY**

We have never declared or paid cash dividends on our common stock. We currently intend to retain our future earnings, if any, for use in our business and therefore do not anticipate paying cash dividends in the foreseeable future. Payment of future dividends, if any, will be at the discretion of our Board of Directors after taking into account various factors, including our financial condition, operating results, and current and anticipated cash needs.

**DILUTION**

Purchasers of common stock in this offering (either as a component of units or upon warrant exercise) will incur immediate and substantial dilution in the net tangible book value per share of common stock. Our historical net tangible book value as of February 28, 2018 was approximately \$1.42 per share of our common stock. Net tangible book value per share represents the amount of tangible assets less total liabilities, divided by 14,405,892 shares of common stock, which was the number of shares of our common stock outstanding as of February 28, 2018.

Dilution in net tangible book value per share represents the difference between the amount per share paid by purchasers in this offering and the net tangible book value per share of our common stock immediately after this offering. After giving effect to the sale of 2,892,000 shares of common stock in this offering (excluding shares of common stock issuable upon exercise of the warrants being offered in this offering) at an offering price of \$6.25 per unit, and after deducting the placement agent's fees and the estimated offering expenses payable by us, our as adjusted net tangible book value as of February 28, 2018 would have been approximately \$2.14 per share of common stock. This represents an immediate increase in net tangible book value of \$0.72 per share of common stock to our existing stockholders and an immediate dilution in net tangible book value of \$4.11 per share of common stock to investors participating in this offering. The following table illustrates this per share dilution:

Offering price per share	\$6.25
Net tangible book value per share as of February 28, 2018	\$1.42
Increase per share attributable to this offering	\$0.72
Adjusted net tangible book value per share after this offering	\$2.14
Dilution per share to new investors in this offering	\$4.11

Table of Contents

After giving effect to the sale of 5,784,000 shares of common stock in this offering (including shares of common stock issuable upon exercise of the warrants being offered in this offering (but excluding the placement agent's warrants)) at an offering price of \$6.25 per unit and assuming an exercise price of \$7.25 per warrant share, and after deducting the placement agent's fees and the estimated offering expenses payable by us, our as adjusted net tangible book value as of February 28, 2018 would have been approximately \$2.80 per share of common stock. This represents an immediate increase in net tangible book value of \$1.38 per share of common stock to our existing stockholders and an immediate dilution in net tangible book value of \$3.95 per share of common stock to investors participating in this offering. The following table illustrates this per share dilution:

Offering price per share		\$6.75
Net tangible book value per share as of February 28, 2018	\$1.42	
Increase per share attributable to this offering	\$1.38	
Adjusted net tangible book value per share after this offering		\$2.80
Dilution per share to new investors in this offering		\$3.95

The discussion and tables above are based on 14,405,892 shares outstanding as of February 28, 2018 and excludes the shares of common stock issuable upon the exercise of the warrants offered by us in this offering except as specifically disclosed above) and also excludes as of that date:

1,352,284 shares of our common stock issuable upon exercise of outstanding stock options under our stock incentive plan at a weighted average exercise price of \$7.17 per share, with 385,166 shares of common stock remaining available for future grant under such plan as of February 28, 2018;

187,536 shares of our common stock issuable upon settlement of restricted stock units; and

28,571 shares of our common stock issuable upon exercise of outstanding warrants at a weighted average exercise price of \$10.00 per share as of February 28, 2018.

Other than as specifically disclosed above, the foregoing illustrations do not reflect potential dilution from the exercise of outstanding options or warrants to purchase shares of our common stock.

**DESCRIPTION OF SECURITIES**

In this offering, we are offering units consisting of an aggregate of 2,892,000 shares of common stock and warrants to purchase up to 2,892,000 shares of our common stock. This prospectus supplement also relates to the shares of

### **Common Stock**

The material terms and provisions of our common stock are described under the caption “Description of Capital Stock” starting on page 3 of the accompanying prospectus.

### **Warrants**

The warrants to be issued in this offering as part of the units represent the right to purchase up to 2,892,000 shares of common stock at an initial exercise price of \$7.25 per share. The placement agent warrants represent the right to purchase up to 115,680 shares of common stock at an initial exercise price of \$7.8125 per share. Each warrant may be exercised at any time and from time to time, exercisable six months after the date of issuance of this offering and having a term of 3.5 years from the closing of this offering. We do not intend to apply for listing of the warrants on any securities exchange or other nationally recognized trading system and we do not expect such a market to develop. The description of the warrants in this prospectus supplement supplements the “Description of Warrants” in the accompanying prospectus.

Table of Contents

*Exercise*

Holders of the warrants may exercise their warrants to purchase shares of our common stock on or before the expiration date by delivering (1) an exercise notice, appropriately completed and duly signed and (2) if such holder is not utilizing the cashless exercise provisions, payment of the exercise price for the number of shares with respect to which the warrant is being exercised. Warrants may be exercised in whole or in part, but only for full shares of common stock, and any portion of a warrant not exercised prior to the expiration date shall be and become void and of no value.

In addition, the warrant holders are entitled to a “cashless exercise” option if, at any time of exercise, there is no effective registration statement registering, or no current prospectus available for, the issuance or resale of the shares of common stock underlying the warrants. This option entitles the warrant holder to elect to receive fewer shares of common stock without paying the cash exercise price. The number of shares to be issued would be determined by a formula based on the total number of shares with respect to which the warrant is being exercised, the volume weighted average of the prices per share of our common stock on the trading date immediately prior to the date of exercise and the applicable exercise price of the warrants.

*Delivery of Shares*

Upon the holder’s exercise of a warrant, we will promptly, issue and deliver the shares electronically through The Depository Trust Corporation through its Deposit Withdrawal Agent Commission System if we are then a participant of such system and (a) there is an effective registration statement registering the issuance and resale of the shares of common stock underlying the warrants or (b) the warrant is being exercised via cashless exercise. Otherwise, we will promptly but in no event later than two trading days after the exercise date, issue and deliver, or cause to be issued and delivered, the shares of common stock issuable upon exercise of the warrant.

*Certain Adjustments*

The exercise price and the number of shares of common stock purchasable upon the exercise of the warrants are subject to adjustment upon the occurrence of the following events:

*Subdivision or Combination of Common Stock*

If, at any time while the warrant is outstanding, we pay a dividend or a distribution of common stock or any other equity equivalent, issue by reclassification of the shares of common stock any shares of capital stock of the Company, subdivide or combine outstanding shares of common stock into a larger or smaller number of shares, the exercise price in effect immediately prior to such subdivision will be proportionately reduced or increased, as applicable, and the number of shares issuable upon exercise of the warrant shall be proportionately adjusted such that the aggregate exercise price of the warrant shall remain unchanged.

*Purchase Rights*

If, at any time while the warrant is outstanding, we issue rights, options or warrants to all holders of our common stock, then the holders shall have the right thereafter to acquire such rights, options or warrants that such holder would have been entitled to acquire if it had been, immediately prior to such issuance, the holder of the number of warrant shares then issuable upon exercise of the warrant.

*Pro Rata Distributions*

If, at any time while the warrant is outstanding, we declare a dividend or distribute our assets to holders of our common stock, then the holders shall have the right to participate in such distribution to the same extent that such holder would have been entitled to participate if it had been, immediately prior to such declaration or distribution, the holder of the number of warrant shares then issuable upon exercise of the warrant.

*Fundamental Transactions*

If, at any time while the warrant is outstanding, we (1) consolidate or merge with or into another corporation, (2) sell all or substantially all of our assets, (3) are subject to or complete a tender or exchange offer pursuant to which holders of our common stock are permitted to tender or exchange their shares for other securities, cash or property, (4) effect any reclassification of our common stock or any compulsory share exchange pursuant to which our common stock is converted into or exchanged for other securities, cash or property, or (5) we consummate a stock or share purchase agreement or other business combination pursuant with another party whereby such other party acquires more than 50% of our outstanding common stock, each, a Fundamental Transaction, then the holders shall have the right thereafter to receive, upon exercise of the warrant, the same amount and kind of securities, cash or property as it would have been entitled to receive upon the occurrence of such Fundamental Transaction if it had been, immediately prior to such Fundamental Transaction, the holder of the number of warrant shares then issuable upon exercise of the warrant, which we refer to in this prospectus supplement as Alternate Consideration. Any successor to us, surviving entity or the corporation purchasing or otherwise acquiring such assets shall assume the obligation to deliver to the holder such Alternate Consideration as the holder may be entitled to purchase, and the other obligations under the warrant.

In the event of certain Fundamental Transactions, the holders of the warrants will be entitled to receive, in lieu of our common stock and at the holders' option, cash in an amount equal to the value of the remaining unexercised portion of the warrant on the date of the transaction determined using a Black-Scholes option pricing model with an expected volatility equal to the 100 day historical price volatility obtained from Bloomberg L.P. as of the trading day immediately prior to the public announcement of the transaction, except that we are not required to pay such cash using the Black-Scholes pricing model in connection with a Fundamental Transaction that is not approved by the Board and is not within our control.

*Notice of Corporate Action*

We will provide notice to holders of the warrants to provide such holders with an opportunity to exercise their warrants and hold common stock in order to participate in or vote on the following corporate events if we (1) declare a dividend on the common stock, (2) declare a special nonrecurring cash dividend on or a redemption of the common stock, (3) authorize the granting to all holders of the common stock rights or warrants to subscribe for or purchase any shares of capital stock of any class or of any rights, (4) require the approval of any stockholders in connection with any reclassification of the common stock, any consolidation or merger to which we are a party, any sale or transfer of all or substantially all of our assets, any compulsory share exchange whereby the common stock is converted into other securities, cash or property or (5) authorize the voluntary or involuntary dissolution, liquidation or winding up of our affairs.

*Limitations on Exercise*

The number of warrant shares that may be acquired by the holder upon any exercise of the warrant shall be limited to the extent necessary to insure that, following such exercise (or other issuance), the total number of shares of common stock then beneficially owned by such holder and its affiliates and any other persons whose beneficial ownership of common stock would be aggregated with the holder's for purposes of Section 13(d) of the Exchange Act, does not exceed either 4.99% or 9.99% of the total number of issued and outstanding shares of common stock (including for such purpose the shares of common stock issuable upon such exercise), which we refer to as the Beneficial Ownership Limitation. Each holder elects either 4.99% or 9.99% as such holders Beneficial Ownership Limitation upon issuance of the warrant and any holder may elect to increase the Beneficial Ownership Limitation up to a maximum of 9.99% of the total number of issued and outstanding shares of common stock (including for such purpose the shares of common stock issuable upon such exercise) upon 61 days' prior written notice.

*Waivers and Amendments*

The warrants may be modified or amended and the provisions therein may be waived with our written consent and the consent of the holders of the warrants.

*Additional Provisions*

The above summary of certain terms and provisions of the warrants is qualified in its entirety by reference to the detailed provisions of the warrants, the form of which will be included as an exhibit to a Current Report on Form 8-K that will be filed with the SEC and that is incorporated by reference into the registration statement of which this prospectus supplement forms a part. We are not required to issue fractional shares upon the exercise of the warrants. No holders of the warrants will possess any rights as a stockholder under those warrants until the holder exercises those warrants. The warrants may be transferred independent of the common stock they were issued with, on a form of assignment, subject to all applicable laws.

**PLAN OF DISTRIBUTION**

H.C. Wainwright & Co., LLC, referred to as the placement agent, has entered into an engagement agreement with us in which they have agreed to act as our exclusive placement agent, on a reasonable best efforts basis, in connection with the issuance and sale by us of our shares of common stock and warrants in this offering. The engagement agreement does not give rise to any commitment by the placement agent to purchase any of our shares of common stock and warrants, and the placement agent will have no authority to bind us by virtue of the engagement agreement. The placement agent has no obligation to buy any of the units from us, but will use its reasonable best efforts to arrange for the sale of the units offered by this prospectus supplement. We may not sell the entire amount of our units offered pursuant to this prospectus supplement.

We have entered into securities purchase agreements directly with several investors (and we will only sell to investors who have entered into securities purchase agreements) pursuant to which, subject to certain conditions, we will sell to the investors 2,892,000 shares of common stock and warrants to purchase up to 2,892,000 shares of common stock. The shares of common stock and warrants will be sold in units, with each unit consisting of one share of common stock and one warrant, where each warrant is exercisable to purchase one share of common stock, and the shares of common stock and warrants are immediately separable upon issuance. There is no market through which the warrants may be sold and purchasers may not be able to resell the warrants purchased under this prospectus supplement.

We will deliver the shares of common stock being issued to the purchasers electronically upon receipt of purchaser funds for the purchase of the shares of our common stock and warrants offered pursuant to this prospectus supplement. The warrants will be issued in registered physical form. We expect to deliver the shares of our common stock and warrants being offered pursuant to this prospectus supplement on or about July 6, 2018.

The placement agent will be entitled to a cash fee of 7% of the aggregate gross proceeds of this offering paid to us at closing. The following table shows the per share and total placement agent fees we will pay to the placement agent in connection with the sale of the securities, assuming the purchase of all of the shares we are offering:

Per unit	\$0.4375
Total	\$1,265,250

We may pay a fee of up to 15% of the placement agent fee to an independent financial advisor designated by us and consented to by the placement agent, such consent not to be unreasonably withheld, delayed or conditioned. If we do not pay any or all of such fee to an independent financial advisor, the placement agent will receive the amount unpaid to an independent financial advisor. We also have agreed to pay the placement agent, out of the proceeds of each closing, a management fee of 1% of the gross proceeds raised and to pay up to \$50,000 for certain other expenses. We estimate the total expenses of this offering which will be payable by us, excluding the placement agent fees, will be approximately \$80,000.

In addition, we agreed to grant compensation warrants to the placement agent to purchase a number of shares of common stock equal to 4% of the number of shares sold by us in the offering (or warrants to purchase up to 115,680 shares of our common stock). The placement agent warrants will be substantially on the same terms as the warrants offered hereby, except that the placement agent warrants will have an exercise price of \$7.8125 per share, which represents 125% of the offering price per unit. Pursuant to FINRA Rule 5110(g)(1), neither the Placement Agent Warrants nor any shares of common stock issued upon exercise of the Placement Agent Warrants may be sold, transferred, assigned, pledged, or hypothecated, or be subject to any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of such securities by any person for a period of 180 days immediately following the date of effectiveness or commencement of sales of this offering, except the transfer of any security (i) by operation of law or by reason of reorganization, (ii) to any FINRA member firm participating in the offering and the officers and partners thereof, if all securities so transferred remain subject to the lock-up restriction described above for the remainder of the time period, (iii) if the aggregate amount of our securities held by the holder of the placement agent warrants or related person does not exceed 1% of the securities being offered, (iv) that is beneficially owned on a pro-rata basis by all equity owners of an investment fund, provided that no participating member manages or otherwise directs investments by the fund, and participating members in the aggregate do not own more than 10% of the equity in the fund, or (v) the exercise or conversion of any security, if all securities received remain subject to the lock-up restriction set forth above for the remainder of the time period. The Placement Agent Warrants and the shares underlying the Placement Agent Warrants are registered pursuant to this prospectus supplement and the accompanying prospectus.

We negotiated the price for the units offered in this offering with the purchasers. The factors considered in determining the price included the recent market price of our common stock, the general condition of the securities market at the time of this offering, the history of, and the prospects, for the industry in which we compete, our past and present operations, and our prospects for future revenues.

The placement agent may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act and any fees or commissions received by it and any profit realized on the resale of the securities sold by it while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As underwriter, the placement agent would be required to comply with the requirements of the Securities Act and the Securities Exchange Act of 1934, as amended, or the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act.

These rules and regulations may limit the timing of purchases and sales of our securities by the placement agent. Under these rules and regulations, the placement agent:

may not engage in any stabilization activity in connection with our securities; and

may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

We have agreed to indemnify the placement agent and certain other persons against certain liabilities, including civil liabilities under the Securities Act and the Exchange Act and to contribute to payments that the placement agent may be required to make in respect of those liabilities.

Our common stock is traded on Nasdaq and the TASE under the symbol “ORMP.”

The placement agent may distribute this prospectus supplement and the accompanying prospectus electronically.

The form of securities purchase agreement with the purchasers and the letter agreement have been included as exhibits to our Current Report on Form 8-K that was filed by us with the SEC dated July 2, 2018.
