Memorandum of Understanding for the use of an FPSO for Piranema Field

(Rio de Janeiro, November 19, 2004). - PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA], a Brazilian international energy company, announces that has entered into a Memorandum of Understanding with Sevan Marine do Brasil Ltda, a subsidiary of the norwegian company Sevan Marine, for the use of Sevan Marine's SSP300 platform in the Piranema Field under a long-term contract. The Piranema field is located offshore of Sergipe State, 37 kms distance from the city of Aracaju.

The platform is a FPSO (Floating, Production, Storage and Offloading), which will be available and ready for operation in mid-2006. The final negotiations will commence shortly, with a view to entering into a definitive agreement, subject to both boards approval.

The light oil to be produced, 40 degrees API, is located in water depth of 1000-1600 m. The FPSO has production capacity of 15 thousand barrels/day. The platform chartering is in line with the objectives established in Petrobras' Strategic Plan of reaching a production of 150 thousand barrels/day of light oil by 2006.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
