## GOL Confirms Purchase of Four New Boeing 737-800 NG

**São Paulo, January 27, 2005** GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), Brazil's low-fare, low-cost airline, confirms the exercise of four purchase options for 737-800 Next Generation, as announced in December 2004.

This transaction is part of an agreement signed in May 2004, when GOL announced the acquisition of up to 43 737-800 Next Generation aircraft. By exercising these four purchase options, the Company increases the firm orders to 21 aircraft to be delivered between 2006 and 2009. The total transaction is valued at approximately R\$3.4 billion.

The confirmation of the exercise of four purchase options follows GOL's expansion plans, which launched its first international flight last December. GOL intends to launch new destinations in 2005 and the purchase's confirmation of four new aircraft confirms the expansion of the Company, says David Barioni, GOL's Technical Vice-President. These new aircraft will have their performance optimized due to the fact that they will accommodate more travelers and also will serve certain destinations more frequently.

### About GOL Linhas Aéreas Inteligentes

GOL Linhas Aéreas Inteligentes, a low-cost, low-fare airline, is one of the most profitable and fastest growing airlines in the industry worldwide. GOL operates a simplified fleet with a single-class of service. It also has one of the youngest and most modern fleets in the industry that results in low maintenance, fuel and training costs, and therefore high aircraft utilization and efficiency ratios. In addition, safe and reliable services, which stimulate GOL's brand recognition and customer satisfaction, allow GOL to have the best cost-benefit service in the market. GOL currently offers service to 38 major business and travel destinations in Brazil and one international destination, with substantial expansion opportunities. In 2005, GOL plans to grow by increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL listed its shares on the NYSE and the Bovespa in June 2004.
