São Paulo, Brazil, March 2, 2009 Grupo Pão de Açúcar (BOVESPA: PCAR4; NYSE: CBD) announces its results for the 4th quarter (4Q08) and full year of 2008. **The Company's operating and financial information does not include the accounting changes introduced by Law 11.638/07** and is presented on a consolidated basis and in Reais, pursuant to Brazilian Law 6.404. All comparisons are with the fourth quarter (4Q07) and full year of 2007, except where stated otherwise. The effects of Law 11.638 are reflected in the chart entitled "Reconciliation of Net Income based on Law 11.638/07" on page 13.

EBITDA and net income move up 32.5% and 41.6% in 2008, respectively

- **The Company achieved all its 2008 guidance targets, led by real sales and EBITDA growth, as well as the strong decline in operating expenses. The main highlights are listed below:**
- Fourth-quarter gross sales totaled R\$ 5,922.4 million, while net sales came to R\$ 5,142.7 million, 15.3% and 18.8% up year-on-year, respectively.
- Under the same-store concept, gross sales recorded year-on-year growth of 10.4% in 4Q08, while net sales moved up 13.7%. In the year as a whole, same-store sales growth outpaced the IPCA - General Consumer Price Index by 2.6%.
- Still under the same-store concept, sales of non-food items increased by 11.0% in the quarter, while food products recorded growth of 10.1%.
- Another 4Q08 highlight was the 170 bps year-on-year decline in total operating expenses to 18.4% of net sales.
- In 2008, total operating expenses fell significantly by 240 bps over the year before.
- EBITDA reached R\$ 398.1 million in the quarter, 22.5% up year-on-year, accompanied by an EBITDA margin of 7.7%. As a result, the annual EBITDA margin came to 7.5%, in line with our 2008 guidance.
- Sendas Distribuidora reported healthy year-on-year EBITDA growth of 24.8% in the quarter, with a margin of 7.8%.
- Assai's 4Q08 EBITDA totaled R\$ 21.0 million, with a margin of 5.1%.
- The Group posted net income of R\$ 298.6 million in 2008, 41.6% higher than the previous year. Income before income tax recorded even more substantial growth of 94.3%.
- ROIC (return on invested capital) increased from 10.3% in 2007 to 15.0% in 2008, reflecting greater investment discipline and improved operating efficiency.

Grupo Pão de Açúcar operates 597 stores, 74 gas stations and 142 drugstores in 14 states and the Federal District and recorded gross sales of R\$ 20.9 billion in 2008. The Group's multi-format structure comprises supermarkets (**Pão de Açúcar, Extra Perto, CompreBem and Sendas**), hypermarkets (**Extra**), electronics/household appliance stores (**Extra-Eleto**), convenience stores (**Extra Fácil**), atacarejo (wholesale/retail) (**Assai**), e-commerce operations (**Extra.com.br and Pão de Açúcar Delivery**), **gas stations and drugstores**, as well as an extensive distribution network. The Group maintains differentiated customer service and is strongly positioned in the country's main markets.

Message from Management

In 2008, Grupo Pão de Açúcar maintained its focus on maximizing existing resources through the pursuit of operating efficiency and increased productivity, exemplified by the development and implementation of a series of initiatives designed to make us more efficient and competitive.

The adoption of a new management model was decisive in consolidating the Group as a lean company, quick to take decisions, pursuing results and fully prepared to sell and, above all, to grow.

We integrated the Commercial, Operational and Marketing areas under a single Vice-Presidency, created an Executive Office for the regional commercial branches to strengthen business management in each of the regions where we operate, and integrated the IT and Supply Chain areas. We also simplified organizational structures and redefined the macroprocesses of each area in order to identify opportunities for gains in efficiency.

We then directed our efforts towards the sales pillars: assortment, pricing, communication and services. In practice, we followed the same strategy adopted in Rio de Janeiro, where results and profitability have improved substantially, as has customer traffic.

We reorganized our assortment in line with consumer demand, buying habits and purchasing power in each micro-region where our stores are installed (clustering). We also strengthened the categories that define the positioning of each of our formats and adjusted our pricing policies in order to improve competitiveness, focusing on those consumers and products that generate more store traffic. Our promotional communication ceased to be linear and began to respect the cluster of each store. Finally, we began to invest in strengthening our customer service.

These changes in 2008 were only possible thanks to the involvement of our people and the integration of the areas, who worked together in the taking of decisions, always focusing on our most important objective – the creation of value for our shareholders.

Unlike the market in general, Grupo Pão de Açúcar is confronting this crisis with a strong capital structure. Although our main goal is to maintain the Company's financial health, we also see opportunities for increasing our market share.

When the crisis first erupted at the beginning of 2008, the Company decided to raise funds and reinforce its cash by around R\$ 500 million, closing the year with a cash position of R\$ 1.6 billion. Without taking risks of potential losses with foreign-exchange or derivatives operations, our net debt/EBITDA ratio closed the year at 0.58x, less than our beginning-of-year guidance of 1.0x, giving us tranquility to overcome the challenges of 2008 and plan our future growth in a calm and disciplined manner. We also expect growth on the consumer financing front, thanks to FIC (Financeira Itaú CBD), which now has more than 6 million clients and is fully capable of meeting our customers demand for credit. In addition, we have reached an expressive reduction in inventory levels by the end of the year.

We also reduced our annual investments, not only as a precautionary measure, but also to adjust our formats for greater profitability. Processes were streamlined to make us faster and prepare us for the future scenario, especially more aggressive and sustainable growth.

Our results reflect gains in efficiency and market share. Gross sales increased by 18.2% over 2007 to R\$ 20.9 billion and same-store sales grew by 2.6% in real terms. EBITDA moved up by a substantial 32.5%, totaling R\$ 1.34 billion in 2008, while net income jumped by 41.6% .

Despite the global economic crisis, we are beginning 2009 in a stronger position and much better prepared to achieve solid growth, both in terms of sales and results.

We are extremely confident regarding the future. We believe the markets will recover and that the resulting business will be built on more solid and realistic bases. Our objective is to continue growing, always seeking a balance between sales and profitability.

We will only be making investments that generate higher profitability and greater returns. Our short and midterm objectives are to maintain the Company's financial health, take advantage of the current situation to increase sales and market share, maintain control over expenses and invest in IT and logistics, as well as in the expansion of the Assai format and the convenience stores.

Simplicity and focus will continue to be our watchwords in the years ahead, in line with the back-to-basics strategy adopted in 2008. At this special time, when it celebrated its 60th anniversary, Grupo Pão de Açúcar remains committed to providing its customers with high-quality products and services and creating value for its shareholders. And, finally, we would like to thank our shareholders, clients and suppliers for their confidence and support and, above all, our employees, for their contribution, determination and dedication.

Operating Performance

The numbers related to the Group's operating performance presented and commented on below refer to consolidated figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with Atacadista Assai in São Paulo). The 2008 results are based on consolidated pro-forma numbers, which exclude the restructuring expenses in the first quarter in order to ensure an analysis of the Company's real performance.

The 1Q08 operating results were affected by restructuring expenses totaling R\$ 23.0 million, with an R\$ 8.7 million impact on selling expenses and a R\$ 14.3 million impact on G&A expenses.

Law 11.638/07 was sanctioned on December, 2007. The purpose of this act, which amends, revokes and adds to Laws 6.404 and 6.385, is to update Brazilian corporate law in order to bring Brazilian accounting practices into line with the international practices adopted by the IASB (International Accounting Standards Board).

All the figures below do not include the accounting changes introduced by Law 11.638/07, whose effects are shown in the Reconciliation of Net Income based on Law 11.638/07 chart on page 13.

Sales Performance

Gross sales totaled R\$ 20.9 billion in 2008, 18.2% up on 2007, while net sales grew by 21.0% to R\$ 18.0 billion. In same-store terms, gross sales recorded a nominal increase of 8.5%, above the annual guidance, and a real upturn of 2.6%, when deflated by the IPCA (General Consumer Price Index). Net sales moved up by 11.0% in nominal terms and 6.3% in real terms.

The same-store performance was due to the Company's policy of maximizing existing resources, the increase in customer traffic and the higher average ticket in 2008.

Food accounted for 75.6% of the Group's annual gross sales and recorded same-store growth of 7.3%, led by grocery and perishables. Non-food items recorded same-store growth of 12.1%, led by consumer electronics, general merchandise and drugstores, all of which posted double-digit growth over the year before.

In terms of format, the annual sales highlights were Extra, Pão de Açúcar and CompreBem, especially in São Paulo, Extra-Eleto and Extra.com.br (e-commerce).

Fourth-quarter gross sales came to R\$ 5.92 billion, 15.3% up year-on-year, while net sales increased by 18.8% to R\$ 5.14 billion.

Same-store gross sales moved up 10.4% year-on-year, with real growth of 3.9%, while net sales increased by 13.7% in nominal terms. Also under the same-store concept, food and non-food items recorded respective growth of 10.1% and 11.0% .

The strong annual growth was due to the following factors: (i) the adoption of a consistent pricing policy, which increased the competitiveness of each format and region; (ii) a major assortment adjustment per region and consumer socio-economic profile through clusterization, which had a positive impact on sales; and (iii) the implementation of a more specialized marketing strategy geared towards specific consumer needs and respecting the pricing and assortment of each region. Consequently, the Group recorded sustainable growth, accompanied by higher customer traffic, leading to gains in market share.

The Group outperformed the sector, posting higher sales figures than those published by ABRAS (the Brazilian Supermarket Association) and the IBGE (Brazilian Institute of Geography and Statistics). In addition, recent numbers disclosed by the competition continue to indicate gains in market share, especially in the hypermarket segment.

⁽¹⁾ The Company has adopted as its inflation indicator, the IPCA – General Consumer Price Index, which is also used by the Brazilian Supermarket Association (ABRAS), instead of the food component of the IPCA Index, in view of: (i) product incompatibility (the food component of the IPCA basket is not representative of the Company’s entire product and brand mix (e.g. it does not include personal care and household cleaning products); (ii) family profiles (product weight in the food index is determined by the POF (Family Budget Survey), which considers families earning between one and 40 minimum wages per month (e.g. rice represents 3.61% of the food IPCA, but only 1.30% of GPA’s food sales); and (iii) the importance of channels and regions (the weight of regions/sales channels in the food component of the IPCA is out of step with GPA’s).

Annual gross profit totaled R\$ 4.75 billion, 13.8% up on 2007, accompanied by a gross margin of 26.4%, versus 28.0% the year before, thanks to the following factors:

(i) the incorporation of the Assai chain, whose margins are lower than those of the Group, contributed a negative 80 bps to the overall gross margin;

(ii) maintenance of the competitive price strategy and the increased sales participation in electronics, whose margins are narrower than those of food products, but which helped push up the average ticket. These factors helped reduce the overall margin by around 50 bps; and

(iii) the change in the way ICMS (state VAT) is collected as of the second quarter, especially in the state of São Paulo, which provoked an increase in the cost of goods sold (COGS) and in net revenue, given that ICMS was no longer booked under sales taxes, being now booked under COGS. This further reduced the gross margin by around 30 bps in 2008.

Gross profit totaled R\$ 1.35 billion in 4Q08, 12.4% up on the R\$ 1.2 billion recorded in 4Q07, while the gross margin narrowed from 27.7% to 26.2%. The margin was negatively impacted as follows:

- 30 bps from the maintenance of the competitiveness strategy and the bringing forward of promotions to the final week of December in order to increase customer traffic and end-of-year sales;
- 70 bps from the incorporation of the Assai chain; and
- 50 bps from the change in the ICMS tax regime.

Operating expenses (selling, general and administrative expenses) amounted to R\$ 3.28 billion in 2008, 7.6% more than in 2007 but well below sales growth in the same period. This figure was equivalent to 18.2% of net sales, 230 bps down on the 20.5% recorded the year before.

Excluding restructuring expenses of R\$ 16.4 million in 2007 (R\$ 5.9 million in selling expenses and R\$ 10.5 million in G&A expenses), operating expenses would have increased by 8.2%, also well below sales growth. In percentage-of-net-sales terms, there would be a 220 bps reduction over the pro-forma 2007 figure of 20.4%.

Total operating expenses in 2008 (including taxes and other charges) came to 18.8% of net sales, less than the annual guidance of 19.0%.

This reduction was due to the implementation of the Company's new management model, which resulted in a complete process overhaul, the rationalization of expenses and the streamlining of the organizational structure. In addition, at the beginning of the year the Company created the Expense Committees (Personnel, Marketing, Maintenance and others), which played an important role in controlling expenses. In this context, the Company believes there are further gains to be captured in 2009.

Fourth-quarter SG&A expenses totaled R\$ 917.4 million, representing 17.8% of net sales, 170 bps down on 4Q07. Selling expenses increased by 6.7% to R\$ 748.3 million, while G&A expenses climbed by 19.6% to R\$ 169.1 million. The quarterly upturn (in absolute terms) was due to the 2008 pay rise (above inflation), the adjustment of third-party contracts, and additional marketing efforts. Total operating expenses (including taxes and other charges) came to 18.4% of net sales, 170 bps less than in 4Q07.

(2) basis points

Annual pro-forma EBITDA (excluding restructuring expenses) totaled R\$ 1.36 billion, 32.5% up on the reported 2007 figure. However, if we exclude restructuring expenses in 2007, EBITDA would have moved up by 30.4%, despite the 160 bps reduction in the gross margin and thanks to improved control over operating expenses throughout the year.

The pro-forma EBITDA margin stood at 7.5% in 2008, in line with the annual guidance of between 7.5% and 8.0%, and a 60 bps improvement over the 2007 figure of 6.9%. This result was due to the strategy adopted at the beginning of the year of seeking a balance between sales growth and profitability, as well as the continuing control over expenses. If Assai is excluded, the EBITDA margin comes to 7.8%.

Fourth-quarter EBITDA totaled R\$ 398.1 million, 22.5% higher than the R\$ 325.1 million posted in 4Q07, accompanied by an EBITDA margin of 7.7%, 20 bps up year-on-year, even though Assai was operating throughout 4Q08 but only in November and December in 4Q07.

Financial revenue totaled R\$ 296.4 million in 2008, 1.1% less than the previous year. Although the Company maintained a greater average volume of cash invested than in 2007, this was offset by reduced revenue from installment sales.

Financial expenses stood at R\$ 602.1 million, up by 17.9% year-on-year, due to the period increase in the gross debt, adjustments to provisions for contingencies and the consolidation of the leasing of the Assai stores. The annual net financial result was R\$ 305.7 million negative.

At the end of 2007 and beginning of 2008, in order to prepare for a possible deterioration of the financial markets, Grupo Pão de Açúcar took some important decisions:

- Strengthening its cash position, bringing forward funding operations and extending the maturity of the FIDC (receivables fund) from 2008 to 2010;

- Investing in improved efficiency and results through a strong reduction in expenses and the stepping up of commercial initiatives, which led to increased sales and gains in market share;
- Implementing of initiatives to minimize the need for working capital, mainly through reducing slow mover inventories; and
- Reducing 2008 CAPEX, together with the introduction of a new investment decision process, which is exceptionally rigorous regarding each project's return on invested capital.

The net debt/EBITDA ratio closed the year at 0.58x, below the beginning-of-year guidance of 1.0x. The debt profile became more extended, with no significant maturities until 2010 and onwards. Given the current operating and investment scenario, there will be no need to raise more funds in 2009, allowing the Group to endure a longer credit squeeze without incurring higher funding costs.

The Company's cash reserves are invested in fixed income with first-tier Brazilian financial institutions, with good liquidity and at higher rates (% of the CDI) than our average debt rate.

We should emphasize that our debt transactions and financial investments are not exposed to any foreign-exchange risk. Our only derivatives are hedges for 100% of the foreign-currency debt through swap transactions, in the same amounts and with the same schedule as the loans, transforming the debt into a percentage of the CDI (interbank rate) in Reais. The remaining balance of the currency basket debt with the BNDES is also swapped for a % of the CDI. The 6th issue debentures yielding of CDI+0.5% is swapped for 104.96% of the CDI.

In the fourth quarter, financial revenue totaled R\$ 95.1 million, 4.4% down year-on-year, and financial expenses came to R\$ 172.1 million, 20.4% up on 4Q07, once again due to the increase in the gross debt, adjustments to provisions for contingencies and the consolidation of the leasing of the Assai stores. Nevertheless, the net financial result was only R\$ 77.1 million negative, an improvement over the previous two quarters.

Equity Income

Result reflects FIC's strategy in private label and co-branded cards

With a 14.2% share of the Group's sales, FIC (Financeira Itaú CBD) closed 2008 with more than six million clients, 6.6% more than in 2007, and a receivables portfolio of R\$ 1.6 billion. FIC cards already represent one-third of the Group's cards.

As a result, annual equity income totaled R\$ 2.9 million, a major improvement over the previous year's R\$ 28.9 million negative. Fourth-quarter equity income stood at R\$ 530 thousand, versus a negative R\$ 2.3 million in 4Q07.

Thanks to the stringent credit granting policy, FIC's card portfolio recorded one of the lowest default ratios since its creation. Other contributory factors to the year's performance included the creation of differentials to encourage the use of private label and co-branded cards, the current business focus. The cards base grew by 16% over 2007, closing the year at 4.6 million cards.

Other 2008 highlights included:

- Greater integration with the retail operation through marketing initiatives and partnerships with the stores, allowing FIC to increase its store market share;
- Reduced costs, thanks to the elimination of manned service stands in certain stores. Service is now electronic, without affecting the stores' card sales performance; and
- Substantial growth in the share of extended warranties in consumer electronics sales.

Insurance and financial services are expected to increase their share of FIC's revenue in the coming quarters. The company also plans to introduce exclusive benefits for card users (advantage club), with special promotions for holders.

Minority Interest: Sendas Distribuidora
Annual EBITDA moves up by 110.1% over 2007

Sendas Distribuidora recorded gross sales of R\$ 3.37 billion in 2008, 4.9% up on 2007, while net sales moved up 5.2% to R\$ 2.93 billion.

The gross margin stood at 27.4%, 100 bps up on the 26.4% recorded in 2007, and gross profit moved up 9.1% to R\$ 801.5 million, mainly due to improvements to the clustering process begun in June 2007 and more advantageous negotiations with local suppliers. The consolidation of these initiatives throughout 2008 resulted in higher sales and increased profitability.

Total annual operating expenses came to R\$ 601.8 million, 5.9% down on the year before, representing 20.5% of net sales, down by 250 bps. Another highlight was the substantial reduction in G&A expenses, which fell by 35.0% to R\$ 80.1 million. Selling expenses remained flat at R\$ 489.6 million at the end of 2008.

As a result, EBITDA totaled R\$ 199.6 million in 2008, an improvement of 110.1%, accompanied by an EBITDA margin of 6.8%, versus 3.4% in 2007. Net income was negative by R\$ 19.5 million, impacted by the negative financial result of R\$ 134.7 million, and the company generated a positive minority interest of R\$ 8.4 million.

In the fourth quarter, gross and net sales totaled R\$ 917.0 million and R\$ 793.2 million, respectively, while gross profit came to R\$ 219.7 million, with a gross margin of 27.7%.

Total operating expenses amounted to R\$ 157.6 million, equivalent to 19.9% of net sales, 70 bps down year-on-year.

EBITDA came to R\$ 62.2 million, 24.8% up on 4Q07, with an EBITDA margin of 7.8%, versus 6.6% in 4Q07.

Due to the deterioration of the financial result, net income was negative by R\$ 4.5 million, giving a positive minority interest of R\$ 1.9 million.

Minority Interest: Assai Atacadista
Fourth-quarter gross margin widens by 260 bps over 4Q07

Assai's annual gross and net sales totaled R\$ 1.44 billion and R\$ 1.26 billion, respectively. The gross margin stood at 15.4% and gross profit came to R\$ 194.9 million. Total operating expenses amounted to R\$ 147.3 million, or 11.7% of net sales. EBITDA totaled R\$ 47.6 million, with a margin of 3.8%, and net income came to R\$ 21.8 million, giving a negative minority interest of R\$ 8.7 million.

Fourth-quarter gross sales amounted to R\$ 464.0 million, with net sales of R\$ 408.9 million. Gross profit stood at R\$ 70.9 million, with a margin of 17.3%, benefiting from successful negotiations with suppliers due to the concentration of store openings and conversions in the quarter.

Total operating expenses came to R\$ 49.9 million, equivalent to 12.2% of net sales and EBITDA stood at R\$ 21.0 million, with a margin of 5.1%.

The net financial result was R\$ 3.4 million negative, in line with previous quarters, and net income totaled R\$ 11.2 million, giving a negative minority interest of R\$ 4.5 million.

Income before income tax grows by 94.3% in 2008

(2) basis points

Annual pro-forma income before income tax almost doubled, totaling R\$ 439.3 million, versus R\$ 226.1 million in 2007.

Fourth-quarter income before income tax stood at R\$ 154.8 million, 19.1% up year-on-year, largely due to the improved operating performance, in turn fueled by sales growth, consistent control over expenses and the continuity of the process overhaul.

Net Income

The Company posted pro-forma net income of R\$ 298.6 million in 2008, 41.6% up on the R\$ 210.9 million reported in 2007, when the figure was impacted by R\$ 16.4 million in restructuring expenses. If these are excluded, 2008 net income would have increased by 31.4%, reflecting the important operating improvement, as mentioned in the comments on income before income tax above.

Fourth-quarter net income totaled R\$ 102.3 million, versus R\$ 112.7 million in 4Q07.

It is worth noting that net income is jeopardized by non-cash expenses. If these accounts are excluded, as in the table below, net income (cash concept) would amount to R\$ 140.9 million in the quarter and R\$ 411.2 million in 2008.

Proposed Dividends

On February 26, 2009, Management proposed the payment of R\$ 61.9 million in dividends for referral to Annual General Meeting, 23.5% up on the previous year and equivalent to R\$ 0.24859 per common share and R\$ 0.27345 per preferred share.

Investments

Group invests R\$ 503.1 million in 2008

Grupo Pão de Açúcar invested R\$ 503.1 million in 2008, versus R\$ 980.6 million in 2007 (excluding the acquisition of the Assai chain). The Company's 2008 expansion strategy concentrated on adjustments to existing formats and maximizing returns from stores in operation by adapting internal processes to a new management model based on simplicity, focus, agility, integration and empowerment.

Most of the funds went towards opening 31 new stores (one Pão de Açúcar, one Extra hypermarket, one Extra Perto, one CompreBem, 14 Extra Fácil, six Extra-Eleto and seven Assai). As a result, the Group's total sales area closed the year 2.3% up on the end of 2007. In addition, six stores were converted to the Assai format (one Pão de Açúcar, two CompreBem, two Sendas and one Extra) and one Sendas store was converted to the ABC CompreBem format.

Also, six CompreBem stores in Pernambuco, previously managed by the Pão de Açúcar format were transferred to CompreBem management; 10 Extra Perto stores were transferred to Extra Hipermercados management; and 14 ABC CompreBem stores were transferred from CompreBem to Sendas management.

The main highlights of the year were:

- R\$ 156.1 million in the opening and construction of new stores;
- R\$ 94.9 million in the acquisition of strategic sites;
- R\$ 143.0 million in store renovation;
- R\$ 109.1 million in infrastructure (technology, logistics and others).

Fourth-quarter investments totaled R\$ 172.3 million, versus R\$ 332.3 million in 4Q07. The Group opened 19 new stores (one CompreBem, five Assai, six Extra-Eleto and seven Extra Fácil) and five stores were converted to the Assai format (one CompreBem, one Pão de Açúcar, and two Sendas and one Extra, in Rio de Janeiro).

Return on Invested Capital (ROIC) Substantial growth in 2008

Thanks to greater investment discipline and improved operating efficiency in 2008, annual ROIC (return on invested capital)⁽¹⁾ reached 15.0%, more than 400 bps up on 2007.

⁽¹⁾ Company's methodology for calculating ROIC:

ROIC = [NOPLAT / (Fixed Assets + Working Capital)] * (1 - Income Tax rate), where:

i) NOPLAT = EBITDA + Employees' Profit Sharing + Depreciation

ii) Working Capital = Accounts Receivable + Inventories - Suppliers

(the receivables fund - FIDC - is not considered when calculating working capital)

Reconciliation of Net Income Law 11.638/07

On May, 2008, the CVM issued Instruction nº 469/08 which partially regulated Law 11.638/07, establishing the minimum requirements to be observed when presenting quarterly information in 2008. These minimum requirements were adopted by the Company.

The impact arising from the changes in accounting practices introduced by the new Law totaled **R\$ 20.9 million**. The main amounts impacting the financial statements of the Company and its subsidiaries for the fiscal year ended December 31, 2008, are listed below (bearing in mind that there was no impact on the Company's cash):

(i) Management and employees' stock option plan in the amount of **R\$ 19.4 million**: CPC (Accounting Pronouncements Committee) 10 determines that the effects of payment transactions from the stock option plan are reflected in the result and the balance sheet, including expenses incurred when granting such options;

(ii) Leasing in the amount of **R\$ 3.1 million**: CPC 6 determines that transactions involving the transfer of risks and benefits to the lessee can be booked under fixed assets and financings, reflecting what are essentially financed purchases;

(iii) Financial instruments, including derivatives, in the amount of **R\$ 6.6 million**: CPC 14 determines that these are booked: i) at their market value or equivalent value (investments to be sold or available for sale), and ii) at their acquisition or issue cost, whichever is the lower. The Company's financial instruments are considered as: i) fair value hedges to offset the risk of exposure to the variation in the fair value of the hedged items; and ii) financial derivative instruments, measured at their fair value;

(iv) Adjustment to present value, in the amount of **R\$ 3.5 million**: CPC 12 determines that non-current assets and liabilities should be adjusted to present value, as should significant current assets and liabilities. The Company accordingly adjusted its assets and liabilities to present value using the weighted average cost of capital (WACC);

(v) In accordance with Presidential Decree 449/08, the deferred charges group was removed and consequently written off against retained earnings on the transition date, resulting in a reversal of **R\$ 14.7 million**;

(vi) The impact on minority interests and deferred income and social contribution taxes as a result of Law 11.638/07 and Provisional Measure - RTT nº 449/08 amounted to **R\$ 2.6 million** and **R\$ 0.4 million**, respectively.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
