NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

São Paulo, November 13, 2012 – GOL Linhas Aéreas Inteligentes S.A., “GLAI”, (BM&FBovespa: GOLL4 and NYSE: GOL), (S&P: B, Fitch: B+, Moody’s: B3), the largest low-cost and low-fare airline in Latin America, announces today its results for the third quarter of 2012 (3Q12). All the information herein is presented in accordance with International Financial Reporting Standards (IFRS) and in Brazilian Reais (R\$), and all comparisons are with the third quarter of 2011 and second quarter of 2012 (3Q11 and 2Q12). The results for the quarter include 100% of Webjet’s, since October 3, 2011.

MESSAGE FROM MANAGEMENT

During the quarter, GOL posted a consolidated operating loss (EBIT) of R\$200 million and a net loss of R\$309 million due to a combination of factors, including an increase of 20% in fuel over the previous year, a new exchange rate level, increase in airport fees and slow pace of Brazilian economic growth. This scenario reflects a challenging moment for the domestic aviation industry.

In response to this scenario, GOL has strengthened its strategy of adjusting domestic capacity in order to maximize load factor. Searching for more efficiency, GOL's route network has been centralized on profitable routes, while the workforce is still being reviewed by the Company. The impact of these measures will be gradual. In 3Q12, the strategy to adjust capacity continued to present results and load factor increased by 2.4 percentage points year over year. Also, was an increase of 3.4% in passenger revenue per available seat kilometer (PRASK). These figures underline GOL's efforts to adjust its operation to the current macroeconomic scenario.

Even with this challenging scenario, GOL maintained a Cash Position of R\$1.9 billion (22.9% of LTM Net Revenues) and without pressure for refinancing on the short term.

Another important move was CADE's approval for Webjet's acquisition by VRG in October, as already expected by the Company. This decision will allow GOL to keep searching for additional operational efficiencies between the Companies throughout this challenging scenario for the airline industry. After the approval, sales of both companies have been incorporated in GOL's website. Both companies continue to seek for other measures of operational integration.

The period was also marked by some important initiatives to strengthen the national aviation industry in the short and long term. In the short term, the government approved an incentive measure for the sector by reducing the airlines' taxes on their payroll, GOL's second highest expense after fuel. The country's leading airlines created the Brazilian Airline Association (ABEAR) to discuss questions of common interest with the government and the regulatory agencies, an initiative that has been adopted by many important sectors of the Brazilian economy.

GOL maintained its focus on the creation and development of an independent Smiles business unit, aiming to improve its management and explore an increasingly attractive market with enormous growth potential in the coming years. Several initiatives were implemented to strengthen the program, including flights to the United States exclusively for Smiles clients and the creation of Smiles Shopping, both of which were designed to add even more value to this business model. As a result of this positive experience, GOL announced the beginning of regular flights to Orlando, Miami and Santo Domingo.

The period also saw some important strategic decisions by the Company. In October, GOL announced an additional purchase order for 60 737 MAX aircraft from Boeing. The new aircraft, which will be delivered as of 2018, will allow GOL to continue offering the most up-to-date equipment to its passengers in South America, while further increasing the cost efficiency of its flights, since the 737 MAXs are even more fuel-efficient than the B737 NGs. GOL will be the first Company in South America, and one of the first in the world, to use the new aircraft.

Throughout the quarter, GOL strengthened its focus on the provision of air services. GOL and Webjet's combined route network achieved a punctuality ratio of around 94% and remote check-in via the web, smartphone and kiosk accounted for around 55% of period boardings (also on the combined network), versus 35% in 3Q11. The on-board sales service (buy on board), which offers passengers more options without the need to increase fares, is already present on 50% of daily flights, around four times more than in the same period last year. The Boeing 737 NG fleet closed the quarter with an average age of 7.4 years, one of the youngest in the global aviation industry. The spirit of service is an integral part of GOL's DNA. The Company would like to take this opportunity to thank its employees for their unwavering dedication and motivation, attitudes that are making GOL increasingly the best company to fly with, work for and invest in.

Paulo Sérgio Kakinoff | CEO of GOL Linhas Aéreas Inteligentes S.A.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

AVIATION MARKET - INDUSTRY

Domestic aviation industry supply remained virtually flat over 3Q11, edging up by just 0.2%, while demand increased by 7.4%, due to the reduction of flights in GOL's operational markets, a decision shared by all the key airlines, **which was a response to the industry's new cost level and the sluggish growth of Brazilian GDP**. In September, domestic supply fell by 2.1% year over year, after eight consecutive years of growth. The last time supply dropped in September was in 2003.

The domestic load factor stood at 76.0%, versus 70.9% in 3Q11 (up by 5.1 p.p.). **In the first nine months, domestic supply and demand moved up by 5.5% and 7.3%, respectively**, over 9M11, confirming the industry's trend towards more conservative supply additions and the creation of a more mature sector focused on recovering operating margins.

DOMESTIC MARKET

Supply on GOL's pro-forma domestic route network fell by 8.4% over 3Q11, chiefly due to the flight rationalization strategy adopted by the Company as of March 2012 as a result of the challenging macroeconomic scenario for the civil aviation sector in Brazil. In line with this strategy, supply (-8.4%) fell more than demand (-5.7%), leading to a 2.2 p.p. increase in the domestic load factor. **In 2012, the Company expects its domestic supply to decline by between 2.0% and 4.5% over 2011.** In the first nine months of 2012, GOL reduced its domestic supply by 1.6% year over year.

GOL's domestic demand fell by 5.7%, chiefly due to the exceptionally modest recovery of Brazil's economy in 3Q12, combined with the 8.4% period decline in ASK.

INTERNATIONAL MARKET

International supply moved up by 7.0% over 3Q11, chiefly due to the restructuring of the international route network, which added new flights from Guarulhos to Montevideo (Uruguay), Asunción (Paraguay) and Santa Cruz de La Sierra (Bolivia). There was also an increase in the number of flights that are not part of the regular route network, including those to Miami and Orlando (USA), offered exclusively to Smiles members.

International demand moved up by 8.8%, also mainly due to the same reasons that impacted international supply.

DEMAND (RPK) and LOAD FACTOR

As a result of the above, the **total load factor climbed by 2.0 p.p. to 73.8% (from 71.1% in 3Q11), the Company's best figure since 2007.**

(In Thousands of Reais – R\$, except when indicated otherwise)

The Company leases its fleet through a combination of financial and operational leases. Out of the total of 150 aircraft, 99 were under operational leases, 45 were under financial leases, and six are owned by the Company. GOL has purchase options on 39 of the 45 aircraft when their leasing contracts terminate. **In 2012, the Company expects a decline of between 2.0% and 4.5% in the two companies' combined seat supply over 2011.**

(1) Of three Boeing 767 aircraft in the fleet, two are in the final stage to be transferred to Delta Air Lines and the other is outside the Company's operation. Expenses related to the two Boeing 767-300 aircraft are 100% reimbursed by Delta.

(2) At the end of 3Q12, GOL had three 737-800s subleased.

On September 30, 2012, the Company had 88 firm orders, 10 purchase rights and an additional 40 purchase options with Boeing. The approximate amount of the firm orders, excluding contractual discounts,

is R\$16.6bn, to be paid in accordance with the following schedule.

On October 01, 2012, the Company announced together with Boeing a purchase order of 60 Boeing 737 NG MAX. Considering the new order, the Company will have 158 firm orders for aircraft acquisition of 737 family.

(In Thousands of Reais – R\$, except when indicated otherwise)

With the replacement of Boeing 737-300s by Boeing 737-800s, the Company will increase its average seating per aircraft, enhancing the flexibility of its operating capacity and improving aircraft efficiency in terms of fuel consumption.

CAPEX

GOL invested around R\$126.3mn in 3Q12, 63% of which in the purchase of aircraft parts and in aircraft reconfigurations and improvements, 36% in the acquisition of aircraft for delivery between 2012 and 2014 (pre-delivery deposits), and around 1% in bases, IT and the expansion of the maintenance center in Confins, Minas Gerais (construction of the Wheel and Brake Workshop).

2012 GUIDANCE

Due to the impact of the adverse macroeconomic scenario, GOL may revise its guidance on a quarterly basis to incorporate any developments in its operating and financial performance, as well as any changes in interest, FX, GDP and WTI and Brent oil price trends. 1. General Information

Gol Linhas Aéreas Inteligentes S.A. (“Company” or “GLAI”) is a publicly-listed company incorporated in accordance with Brazilian Corporate Laws, organized on March 12, 2004. The Company is engaged in, controlling of its wholly-owned subsidiary VRG Linhas Aéreas S.A. (“VRG”), and through its subsidiaries or affiliates, essentially exploring: (i) regular and non-regular air transportation services of passengers, cargo and mailbags, domestically or internationally, according to the concessions granted by the competent authorities; (ii) complementary activities of air transport service provided in its bylaws.

Additionally, GLAI is the direct parent company of the subsidiaries GAC Inc (“GAC”), Gol Finance (“Finance”), and indirect parent company of the subsidiaries SKY Finance II (“SKY II”) and Webjet Linhas Aéreas S.A. (“Webjet”).

GAC was established on March 23, 2006, according to the laws of the Cayman Islands, and its activities are related to the aircraft acquisition for its single shareholder GLAI, which provides financial support for its operating activities and settlement of obligations. Finance was incorporated on March 16, 2006, in accordance with the laws of the Cayman Islands, and its activity is related to fundraising to finance the acquisition of aircraft.

On April 9, 2007, the Company acquired VRG, a low-cost and low-fare airline company, which operates domestic and international flights using GOL and VARIG brands, and provides regular and non-regular air transportation services from/to the main destinations in Brazil, South America and the Caribbean.

On February 28, 2011, the subsidiary VRG constituted a Participation Account Company (“SCP BOB”) engaged in developing and operating on-board sales of food and beverages in domestic flights. VRG has 50% participation in the share capital of the company, which started to operate in September, 2011.

On August 1, 2011, the subsidiary VRG acquired the entire share capital of Webjet, an airline based in the city of Rio de Janeiro, which provides domestic regular air transportation and nonregular international passenger cargo and mail

transportation. The transaction was approved by the ANAC in October 3, 2011.

On April 28, 2012, the subsidiary VRG constituted a participation account company ("SCP Trip") in order to develop, produce and explore the "Gol Magazine", distributed free on flights of the Company. The participation of VRG is equivalent to 60% of the SCP.

The Company's shares are traded on the New York Stock Exchange (NYSE) and on the São Paulo Stock Exchange-BOVESPA. The Company has adopted Level 2 Differentiated Corporate Governance Practices with the São Paulo Stock Exchange-BOVESPA, and is included in the Special Corporate Governance Stock Index (IGC) and the Special Tag Along Stock Index (ITAG), which were created to identify companies committed to adopt differentiated corporate governance practices.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

2. Approval and summary of significant accounting policies applied in preparing the Interim Financial Information- ITR.

The approval and authorization of these Interim Financial Information occurred at the Board of Directors' meeting held on November 13, 2012. The Company's registered office is located at Comandante Linneu Gomes Square, entrance 3, building 24, Jardim Aeroporto, Sao Paulo, Brazil.

2.1 Basis of preparation

The consolidated Interim Financial Information- ITR was prepared for the three and/or nine months period ended on September 30, 2012 in accordance with International Accounting Standards (IAS) no. 34, related to consolidated interim financial statements, as issued by the International Accounting Standards Board (IASB) and technical pronouncement CPC 21 – *Demonstração Intermediária* (Interim Financial Reporting).

IAS 34 requires the use of certain accounting estimates by the Company Management. The consolidated interim financial information - ITR was prepared based on historical cost, except for certain financial assets and liabilities, which are measured at fair value.

The Individual Interim Financial Information - ITR of the parent company was prepared in accordance with the accounting practices adapted in Brazil, CPC 21 which deals with the Interim Finance Information.

The individual interim financial information prepared for statutory purposes, presents the valuation of investments in subsidiaries by the equity method, according to Brazilian legislation. Thus, these individual financial statements are not in accordance with IFRSs, which require the evaluation of these investments in separate financial statements of the parent at fair value or cost.

These Interim Financial Information- ITR individual and consolidated do not include all the information and disclosure items required in the individual and consolidated annual financial statements, therefore, they must be read together with the individual and consolidated financial statements for the year ended December 31, 2011, filed on

March 26, 2012, which were prepared according to the accounting practices, as described above. There were no changes in accounting practices adopted on December 31, 2011 when compared to those of September 30, 2012. The balances of deferred income tax and social contribution assets and liabilities have been reclassified in September 30, 2012 and December 31, 2011 in order to present the net values by each taxpayer entity under CPC 32 - Income Taxes (IAS 12).

The Company has chosen to present these individual and consolidated interim financial information in one single set, side by side, because there is no difference between the individual and consolidated shareholders' equity and net income (loss).

3. Seasonality

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The Company expects that the revenues and profits from its flights reach the highest levels during the summer and winter vacation periods, January and July, respectively, and during the last two weeks of December, during the holidays season. Given the high portion of fixed costs, this seasonality tends to result in fluctuations in our operational results over the year.

4. Cash and cash equivalents

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The maintenance deposits do not exempt the Company and its subsidiaries, as lessee, neither from the contractual obligations relating to the maintenance of the aircraft nor from the risk associated with maintenance activities. The Company and its subsidiaries hold the right to select any of the maintenance service providers or to perform such services internally.

Based on the regular analysis of deposit recovery, management believes that the amounts reported in the consolidated balance sheet are recoverable and there are no indications of impairment of maintenance deposits, whose balances as of September 30, 2012 classified in current and noncurrent assets amount to R\$23,928 and R\$343,316, respectively (R\$35,082 and R\$323,062 in current and noncurrent assets as of December 31, 2011, respectively).

Deposits in guarantee for lease agreements

As required by the lease agreements, the Company and its subsidiaries hold guarantee deposits in US dollars on behalf of the leasing companies, whose full refund occurs upon the contract expiration date. As of September 30, 2012, the balance of guarantee deposits for lease agreements, classified in noncurrent assets, is R\$97,282 (R\$96,983 as of December 31, 2011).

Escrow deposits

Escrow deposits represent guarantees in legal proceedings related to tax, civil and labor claims, deposited in escrow until the resolution of the related claims, paid at *SELIC* rate. The balances of escrow deposits as of September 30, 2012, recorded in noncurrent assets totaled R\$159,232 (R\$175,472 as of December 31, 2011).

(In Thousands of Reais – R\$, except when indicated otherwise)

The subsidiary VRG holds a contract with the related party *Breda Transportes e Serviços S.A.* for passenger and luggage transportation services between airports, and transportation of employees, expiring on May 31, 2013, renewable every 12 months for additional equal terms through an amendment instrument signed by the parties, annually adjusted based on the IGP-M fluctuation (General Market Price Index) .

The subsidiary VRG also holds contracts with the related parties *Expresso União Ltda.* and *Serviços Gráficos Ltda.*, for employee transportation and graphic services, expiring on September 16, 2012 and July 18, 2012, respectively. After the end of the term, these contracts were not renewed.

The subsidiary VRG also holds contracts for the operation of the *Gollog* franchise through the related party *União Transporte de Encomendas e Comércio de Veículos Ltda.*, expiring on December 29, 2015.

The subsidiary VRG also holds contracts with the related party *Vaud Participações S.A.* to provide executive administration and management services, expiring on October 01, 2014.

During the period ended September 30, 2012, VRG recognized total expenses related to these services of R\$8,307 (R\$8,401 as of September 30, 2011). All the entities referred above belong to the same economic group.

Property lease

VRG is the lessee of the property located at Rua Tamoios, 246, São Paulo, SP, owned by *Patrimony Administradora de Bens*, controlled by *Comporte Participações S.A.*, a company owned by the same shareholder of the Company, whose contract was terminated in August 2012. During the period ended September 30, 2012 VRG recognized total expenses related to this lease of R\$329 (R\$438 as of September 30, 2011).

Contracts Account Opening UATP (Universal Air Transportation Plan) to Grant Credit Limit

On September 2011, subsidiary VRG entered into agreements with related parties *Pássaro Azul Taxi Aéreo Ltda.* e *Viação Piracicabana Ltda.* The purpose of the agreement is the issuance of UATP (Universal Air Transportation Plan) accounts. VRG issued credits to related parties in the amounts of R\$20 and R\$40, respectively, to be used in the UATP system. Such system can be used to pay domestic and international air services to all members. VRG uses the UATP system, which is operated and maintained by the international air sector, and seeks to simplify billing and facilitate the payment of air travels and other related services.

Financing contract for engine maintenance

VRG has a line of funding for maintenance of engines whose disbursement occurs through the issuance of Guaranteed Notes. The series, issued on 29 June 2012 and 27 September 2012 respectively, will mature on June 29, 2014 and 27 September 2014 aims to support the maintenance of engines, (see details in note 17). In the nine months

ended on September 30, 2012 spending on engine maintenance conducted by Delta Air Lines was R\$62,944.

Share-based payments

The Company's Board of Directors within the scope of its functions and in conformity with the Company's Stock Option Plan, approved the grant of preferred stock options to the Company's management and key senior executive officers. For grants through 2009, the options vest at a rate of 20% per year, and can be exercised within up to 10 years after the grant date.

Due to changes in the Company's Stock Option Plan, approved at the Annual Shareholders' Meeting held on April 30, 2010, for plans granted beginning 2010, 20% of the options become vested as from the first year, an additional 30% as from the second, and the remaining 50% as from the third year. The options under these plans may also be exercised within 10 years after the grant date.

The fair value of stock options was estimated on the grant date using the Black-Scholes option pricing model.

For the period ended September 30, 2012, the Company recognized in shareholders' equity an result with stock options in the amount of R\$10,973 (R\$19,999 for the period ended September 30, 2011), being the expense presented in the consolidated income statements as personnel expenses.

13. Investments

Due to the changes in Law 6404/76 introduced by Law 11,638/07, investments in foreign subsidiaries, GAC and Finance were considered as an extension of the controller GLAI and consolidated on a line by line basis, only the subsidiary VRG was considered as an investment.

Changes in investments to September 30, 2012 are as follows:

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

Balances as of December 31, 2010 - Investment	2,713,261
Equity in subsidiaries	(518,274)
Unrealized hedge losses (VRG)	(89,853)
Amortization losses, net of sale leaseback (a)	(1,809)
Balances as of December 31, 2011- Investment	2,103,325
Equity in subsidiaries	(886,837)
Unrealized hedge gains (VRG)	23,853
Deferred gains, net of sale leaseback transaction with (a)	(1,357)
Balances as of September 30, 2012- Investment	1,238,984

(a) The subsidiary GAC has net balance of deferred losses and gains on sale leaseback, whose deferral is subject to the payment of contractual installments made by its subsidiary VRG. Accordingly, as of September 30, 2012, the net balance to be deferred of R\$29,328 (R\$30,685 for the year ended December 31, 2011) is basically a part of the parent's net investment in the VRG. See explanatory note N°. 27 b.

The subsidiary VRG's shares are not traded on stock exchanges. The relevant information on VRG is summarized below:

	Total number	Interest		Shareholders'	
	of shares	%	Capital	equity (b)	Net income (loss)
12/31/11	3,002,248,156	100%	2,294,191	2,072,640	(518,274)
09/30/12	3,002,248,156	100%	2,294,191	1,209,656	(886,837)

(b) The difference between the balance of investment and equity participation in VRG corresponds to the net effect of R\$29,328 from sale leaseback, mentioned above under (a).

14. Earnings or Loss per Share

Although there are differences between common and preferred shares in terms of voting rights and priority in case of liquidation, the Company's preferred shares are not entitled to receive any fixed dividends. Rather, preferred shareholders are entitled to receive dividends per share in the same amount of the dividends per share paid to common shareholders. Therefore, the Company understands that, substantially, there is no difference between preferred shares

and common shares, and, accordingly, basic and diluted earnings or loss per share are calculated equally for both shares.

Consequently, basic earnings or loss per share are computed by dividing income or losses by the weighted average number of all classes of shares outstanding during the period. Diluted earnings or loss per share are computed including stock options granted to key management and employees using the treasury stock method when the effect is dilutive. The antidilutive effect of all potential shares is disregarded in calculating diluted earnings or loss per share.

Diluted earnings or loss per share are calculated by considering the instruments that may have a potential dilutive effect in the future, such as share-based payment transactions, discussed in note 12. However, due to the losses reported for the periods ended on September 30, 2012 and 2011, these instruments have anti-dilutive effect and, therefore, are not considered in the total number of outstanding shares.

Banco IBM II

On September 10, 2012 the Company, through its subsidiary VRG, signed a loan in the amount of R\$12,482 in domestic currency with the Banco IBM S.A., with no transaction costs. The funds designed to finance the acquisition of machinery and services of information technology. The loan has a term of 60 months maturing September 10, 2017, with semi-annual payments of principal and interest. The interest rate is calculated based on the CDI plus 2.85% pa, effective rate of 13.31% pa. On September 30, 2012 the outstanding balance in current liabilities and noncurrent liabilities was R\$4,752 and R\$20,485 respectively.

Working Capital

On September 28, 2012, Webjet raised a new line of working capital loan with Banco Industrial e Comercial S.A. in domestic currency in the amount of R\$30,000, without transaction costs, with an effective rate of 15.15% per annum and maturing in January 2013. On September 30, 2012 the balance of the transaction recorded in current liabilities was R\$30,024.

Finance leases

Future payments of US dollar-denominated finance lease installments are as follows:

Covenants

VRG has restrictive covenants ("covenants") in its financing agreements with the following financial institutions: IFC, BNDES, *Bradesco* (Debenture V) and *Banco do Brasil* (Debentures IV e V).

The restrictive covenants measures for these loans are: (i) net debt / EBITDAR, (ii) Current Assets / Current Liabilities, (iii) EBITDA / Debt Service, (iv) Short-term Debt / EBITDA, (v) Net debt/ EBITDA and (vi) Debt Coverage Ratio (ICD).

On September 30, 2012, the Company and its subsidiaries did not reach the minimum requirements established for the financing from IFC, BNDES and Debentures IV and V, associated with EBITDA and EBITDAR as a result of loss observed during this period.

VRG maintain with BNDES a letter of guarantee of R\$18.6 million, whose amount exceeds the current debt, and is not therefore subject to liquidity problems in case it is required to settle such debts.

VRG has not reached the minimum parameters set by the IFC, but received a specific consent of the IFC (waiver) that relieves the Company to perform the prepayment of this loan during the year 2012. Consequently, VRG has set a new expiration date to January 15, 2013.

On March 15, 2012, the Company obtained authorization to non declaration of acceleration and / or application of any penalty on noncompliance with its restrictive covenants for Debentures IV and V. This was deliberated in the General Meeting of Debenture Holders of the fourth and fifth issues for the period ended June 30, 2012.

The measurement of these Indices and Financial Limits is informed in biannual recurrence and therefore the next measurement will be performed on December 31, 2012. Thus it does not constitute the need to reclassify its debt to short-term as of September 30, 2012, in order to meet the Brazilian and international accounting standards.

18. Advance Ticket Sales

As of September 30, 2012, the balance of advance ticket sales in current liabilities of R\$856,457 (R\$744,743 as of December 31, 2011) is represented by 5,399,630 tickets sold and not yet used (4,245,181 as of 31 December 2011) with 95 days of average term of use (75 days as of December 31, 2011).

19. Smiles Deferred Revenue

As of September 30, 2012, the balance of Smiles deferred revenue is R\$110,958 and R\$331,658 classified in the current and non-current liabilities, respectively (R\$71,935 and R\$214,779 as of December 31, 2011). The number of outstanding miles as of September 30, 2012 amounted to 32,605,922,407 (23,004,285,890 as of December 31, 2011).

20. Advances from Customers

As of September 30, 2012, the Company recognized the amount of R\$5,479 (R\$30,252 on December 31, 2011), as detailed below:

Operating Agreement- Co-Branded

The subsidiary VRG, signed with *Banco Bradesco S.A.* and *Banco do Brasil S.A.*, in September 2009, an Operating Agreement for the sale of miles and right to use the database of the Smiles mileage program, and right of use of the Smiles brand related to the credit card issues in Co-Branded format. The agreement is effective for five years.

The mileage sales was recognized as advances from customers and as of September 30, 2012 the balance of R\$1,200 (R\$9,620 as of December 31, 2011) represents the remaining miles which were not transferred to the customers' mileage account. The right of data bank's use of Smiles mileage program was recognized on other current and noncurrent liabilities and is recognized on cargo and other revenue on a straight line basis according to the agreement's period. The right of use of the Smiles brand on credit card was recognized on cargo and other revenue as of July, 2009.

CVC Advance

The Company, through its indirect subsidiary Webjet, holds an advance made on October 26, 2011 in the amount of R\$25,000, related to an agreement signed with CVC, to buy tickets from Webjet. As of September 30, 2012, the Company has an outstanding amount of R\$3,505 (R\$20,632 on December 31, 2011).

Banco Patagônia S.A. Advances

The subsidiary VRG signed with Banco Patagônia S.A, on April 7, 2011, a contract of sale and granting of miles, in order to encourage the use of credit cards from Banco Patagônia by its customers for the accrual of points in its Incentive Program called Club Patagonia. The term of the contract is one year, renewable for the same period through an amendment to be signed between the parties. As of September 30, 2012 the Company holds the amount of R\$774 as an advance related to this agreement.

PIS and COFINS

With the beginning of the non-cumulative regime of PIS (Law 10637/02) and COFINS calculation (Law 10833/03), the subsidiary VRG implemented those rules and challenged in the courts the rate used to calculate these taxes until December 31, 2011. To this end, the Company had judicial deposits in an amount sufficient to ensure the suspension of the tax credit in the amount of R\$81,010 (R\$77,539 at December 31, 2011). However, on January 9, 2012, the Company filed a waiver of that lawsuit, which was approved in March 2012. On September 20, 2012 the judicial deposits were converted into final payment to the Federal Government

Provision for anticipated return of Webjet's aircraft

In 2011, according to the strategic planning of Webjet, a provision for anticipated return of aircraft was recorded. This provision was calculated based on the expected return of 14 aircraft Boeing 737-300 with operating leases contracts, as part of the Company's fleet renewal. The anticipated returns from aircraft are scheduled to occur between 2012 and 2013 and the original termination of leases are in between 2012 to 2014. In the quarter ended September 30, 2012, the

Company returned three aircraft with prefixes WJX, WJG and WJP.

Return of aircraft and engines

The return provision considers the costs that meet the contractual conditions for the return of engines maintained under operating leases, as well as the costs to reconfigure the aircraft without purchase option, as described in return conditions of lease contracts, which the counterpart is capitalized in the fixed assets (aircraft reconfigurations/overhauling), as described in note 15.

Lawsuits

As of September 30, 2012, the Company and its subsidiaries are parties to 26,739 lawsuits and administrative proceedings. The lawsuits and administrative proceedings are classified into Operation (those arising from the Company's normal course of operations), and Succession (those arising from the succession of former Varig S.A. obligations). Under this classification, the number of proceedings is as follows:

	Operation	Succession	Total
Civil lawsuits	14,979	634	15,613
Civil proceedings	1,915	15	1,930
Civil miscellaneous	164	-	164
Labor lawsuits	5,359	3,544	8,903
Labor proceedings	127	2	129
Total	22,544	4,195	26,739

The civil lawsuits are primarily related to compensation claims generally related to flight delays, flight cancellations, baggage loss and damages. The labor claims primarily consist of discussions related to overtime, hazard pay, and wage differences.

The provisions related to civil and labor suits, whose likelihood of loss is assessed as probable are as follows:

	09/30/2012	12/31/2011
Civil	37,538	34,101
Labor	49,198	41,843
	86,736	75,944

Provisions are reviewed based on the progress of the proceedings and history of losses based on the best current estimate for labor and civil lawsuits.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

There are other lawsuits assessed by management and its legal counsel as possible risks, in the estimated amount as of September 30, 2012 of R\$34,546 for civil claims and R\$13,857 for labor claims (R\$33,221 and R\$16,019 as of December 31, 2011 respectively), for which no provisions are recognized.

The Company is party to 03 (three) labor actions in France due to debts of the former Varig SA. The amount involved in discussions, not provisioned, is approximately R\$ 5,481 (equivalent to €2.1 million). On September 30, 2012, the evaluation of our legal advisers in relation to the probability of loss was amended from possible to remote and therefore no provision for such that value is required.

GLAI has been challenging in courts the taxation of PIS and COFINS over revenue associated with interest on capital in the amount of R\$ 20,140, received in the period between 2006 and 2008 from its subsidiary GTA Transportes Aéreos S.A., succeeded by VRG on September 25, 2008. According to the opinion of our legal counsel and based on the jurisprudence recently occurred, the Company classified this process as possible loss, with no provision for the amount involved.

The Company and its subsidiaries are challenging in court the ICMS levied on aircraft and engines imported under aircraft lease transactions without purchase options in transactions carried out with lessors headquartered in foreign countries. The Company's and its subsidiaries' management understands that these transactions represent simple leases in view of the contractual obligation to return the assets that are the subject matter of the contract.

Management believes there are no the evidence of goods circulation and so, there are no legal events to generate ICMS taxation. Based on the legal counsel opinion and supported by similar lawsuits with favorable decisions to taxpayers by the Superior Court of Justice (STJ) and Supreme Federal Court (STF) in the second quarter of 2007, the Company understands that the likelihood of loss is remote, and thus did not recognize provisions for these amounts. On September 30, 2012 the estimated aggregated amount of the ongoing lawsuits related to the non-levy of ICMS tax on said imports is R\$213,281 (R\$205,102 as of December 31, 2011) adjusted for inflation, not including late payment charges.

27. Commitments

As of September 30, 2012 the Company had with Boeing 88 firm orders, 10 purchase rights and 40 purchase options granted on non-onerous basis, for aircraft acquisition. These aircraft purchase commitments include estimates for contractual price increase during the construction phase. The approximate amount of firm orders, not including contractual discount is R\$16,597,033 (corresponding to US\$8,173,463 at the reporting date) and are segregated according to the following periods:

	09/30/2012	12/31/2011
2012	493,379	896,087
2013	3,181,309	2,938,786
2014	4,700,191	4,341,879
2015	4,214,876	3,740,135
2016	3,301,299	3,207,569
After 2016	705,979	655,551
	16,597,033	15,780,007

As of September 30, 2012, in addition to the firm orders mentioned above, the Company has commitments the amount of R\$1,810,472 (corresponding to US\$891,595 at the reporting date), related to advances for aircraft purchase to be disbursed in accordance with the following schedule :

	09/30/2012	12/31/2011
2012	136,469	443,909
2013	606,534	537,137
2014	527,600	501,975
2015	444,834	407,115
2016	91,445	94,634
After 2016	3,590	6,632
	1,810,472	1,991,402

The installment financed by Long-term debt, collateralized by the aircraft through the U.S. Ex-Im Bank (“Exim”) corresponds approximately to 85% of total cost of the aircraft. Other agents finance the acquisitions with equal or higher percentages, reaching up to the limit of 100%.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The Company makes payments related to the acquisition of aircraft using its own funds, short and long term debt, cash provided by operating activities, short- and medium-term credit facilities, and supplier financing.

The Company leases its entire aircraft fleet using a combination of finance and operating leases, except for 6 aircraft owned by its indirect subsidiary Webjet.

As of September 30, 2012, the total leased fleet was comprised of 144 aircraft (130 from VRG and 14 from Webjet), which 99 were operating leases and 45 were recorded as finance leases. The Company has 39 financial aircraft with purchase option. During the nine months period ended September 30, 2012, the Company received two aircraft based on operating lease contracts. In the quarter ended September 30, 2012, the Company returned five aircraft.

a) Operating leases

Future payments of non-cancelable operating lease contracts are denominated in U.S. dollars, and are as follows:

	09/30/2012	12/31/2011
2012	175,721	594,976
2013	630,914	517,326
2014	452,350	341,486
2015	307,020	205,631
2016	254,625	157,231
After 2016	903,358	452,831
Total minimum leasing payments	2,723,988	2,269,481

b) Sale-leaseback transactions

As of September 30, 2012, the Company recognized R\$7,564 and R\$10,258, as ‘Other payables’ in current and non-current liabilities, respectively (R\$7,564 and R\$15,931 as of December 31, 2011), related to gains on

sale-leaseback transactions performed by its subsidiary GAC Inc. in 2006, related to eight 737-800 Next Generation aircraft. These gains were deferred and are being amortized proportionally to the monthly payments of the related lease agreements over the contractual term of 124 months.

On the same date, the Company recorded R\$9,373 and R\$37,799, as 'Prepaid expenses', in current and non-current assets, respectively (R\$9,373 and R\$44,828 as of December 31, 2011), related to losses on sale-leaseback transactions performed by its subsidiary GAC Inc. of nine aircraft. During the years of 2007, 2008 and 2009, these losses were deferred and are amortized proportionally to the payments of the operational lease agreements over the contractual term of 120 months.

Additionally, in the period ended September 30, 2012, the Company recorded a gain of R\$11,398, recognized directly in profit and loss, since gains and losses on sale-leaseback transactions would not be compensated over lease terms.

28. Financial instruments

The Company and its subsidiaries have financial asset and financial liability transactions, which consist in part of derivative financial instruments.

The financial derivative instruments are used to hedge against the inherent risks relating to the operation. The Company and its subsidiaries consider as most relevant risks: fuel price, exchange rate and interest rate. These risks are mitigated by using exchange swap derivatives, futures and options contracts in the oil, U.S. dollar and interest markets.

Management follows a documented guideline when managing its financial instruments, set out in its Risk Management Policy, which is periodically revised by the Risk Committee (CPR), after approved by the Board of Directors. The Committee sets the guidelines and limits, monitors controls, including the mathematical models adopted for a continuous monitoring of exposures and possible financial effects and also prevents the execution of speculative financial instruments transactions.

The gains or losses on these transactions and the application of risk management controls are part of the Committee's monitoring and are satisfactory to the objectives proposed.

The fair values of financial assets and liabilities of the Company and its subsidiaries are established through information available on the market and according to valuation methodologies.

Most of the derivative financial instruments are contracted with the purpose of hedging against fuel and exchange rates risks based on scenarios with low probability of occurrence, and thus have lower costs compared to other instruments with higher probability of occurrence. Consequently, despite the high correlation between the hedged item and the derivative financial instruments contracted, a significant portion of the transactions presents ineffective for hedge accounting purposes upon settlement, which are presented in the tables below.

The description of the consolidated account balances and the categories of financial instruments included in the balance sheet as of September 30, 2012 and December 31, 2011 is as follows:

- (a) The fair value are approximately the book values, according to the short term maturity period of these assets and liabilities, except the amounts related to Perpetual Bonds and Senior Notes, as disclosed on Note 17.
- (b) The Company recorded as of September 30, 2012 the amount of R\$55,415 (R\$79,268 on December 31, 2011) in shareholders' equity as valuation adjustment to equity as a corresponding item of this assets and liability.
- (c) The Company manages its investments as held for trading to pay its operational expenses.

On September 30, 2012 and December 31, 2011 the Company had no assets available for sale.

Risks

The operating activities expose the Company and its subsidiaries to the following financial risks: market (especially currency risk, interest rate risk, and fuel price risk), credit and liquidity risks.

The Company's risk management policy aims at mitigating potential adverse effects from transactions that could affect its financial performance.

The Company's and its subsidiaries' decisions on the exposure portion to be hedged against financial risk, both for fuel consumption and currency and interest rate exposures, consider the risks and hedge costs.

The Company and its subsidiaries do not usually contract hedging instruments for its total exposure, and thus they are subject to the portion of risks resulting from market fluctuations. The portion of exposure to be hedged is determined and reviewed at least quarterly in compliance with the strategies determined in the Risk Policies Committees.

The relevant information on the main risks affecting the Company's and its subsidiaries' operations is as follows:

a) **Fuel price risk**

As of September 30, 2012, fuel expenses accounted for 43% of the costs and operating expenses of the Company and its subsidiaries. The aircraft fuel price fluctuates both in the short and in the long term, in line with crude oil and oil byproduct price fluctuations.

In order to mitigate the fuel price risk, the Company and its subsidiaries contract derivatives linked mainly to crude oil and its byproducts. As of September 30, 2012, the Company used options, collar and swap agreements.

Fuel hedge transactions, classified as cash flow hedges are contracted by the counterparties rated as investment grade, or are performed on the NYMEX.

b) Exchange rate risk

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The exchange rate risk derives from the possibility of unfavorable fluctuation of foreign currencies to which the Company's liabilities or cash flows are exposed. The exposure of the Company's and its subsidiaries' assets and liabilities to the foreign currency risk mainly derives from foreign currency-denominated leases and financing.

The Company's and its subsidiaries' revenues are mainly denominated in *Reais*, except for a small portion in U.S. dollars, Argentinean pesos, Bolivian bolivianos, Chilean peso, Colombian peso, Paraguay Guarani, Uruguayan peso, Venezuela bolivar, etc.

In order to mitigate the currency risk, the Company contracts the following currency derivatives: U.S. dollar futures and options settled on the BM&F-BOVESPA. These transactions may be performed using exclusive investment funds, as described in the Company's Risk Management Policy.

The Company's foreign exchange exposure as of September 30, 2012 and December 31, 2011 is as follows:

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

c) Interest rate risk

The Company and its subsidiaries are exposed to fluctuations in domestic and foreign interest rates, substantially the CDI and Libor, respectively. The highest exposure is in lease transactions, indexed to the Libor and local debt.

In the period ended September 30, 2012, for interest rate hedges, the Company and its subsidiaries held swap transactions with counterparties rated as investment grade.

d) Credit risk

The credit risk is inherent in the Company's and its subsidiaries' operating and financing activities, mainly represented by trade receivables, cash and cash equivalents, including bank deposits.

The trade receivable credit risk consists of amounts falling due of the largest credit card companies, with credit risk better than or equal to those of the Company and its subsidiaries, and receivables from travel agencies, installment sales, and government sales, with a small portion exposed to risks from individuals or other entities.

As defined in the Risk Management Policy, the Company and its subsidiaries are required to evaluate the counterparty risks in financial instruments and diversify the exposure. Financial instruments are performed with counterparties rated at least as investment grade by S&P and Moody's. The financial instruments are mostly contracted on commodities and futures exchanges (BM&FBOVESPA and NYMEX), which substantially mitigates the credit risk. The Company's and its subsidiaries' Risk Management Policy establishes a maximum limit of 20% per counterparty for short-term investments.

e) Liquidity risk

Liquidity risk takes on two distinct forms: market liquidity risk and cash flow liquidity risk. The first is related to current market prices and varies in accordance with the types of assets and the markets where they are traded. Cash flow liquidity risk, however, is related to difficulties in meeting the contracted operating obligations at the agreed dates.

As a way of managing the liquidity risk, the Company and its subsidiaries invest its funds in liquid assets (governmental bonds, CDBs, and investment funds with daily liquidity), and the Cash Management Policy establishes that the Company's and its subsidiaries' weighted average debt maturity should be higher than the weighted average maturity of the investment portfolio. As of September 30, 2012, the weighted average maturity of the Company's and its subsidiaries' financial assets was 19 days and of financial debt, excluding perpetual bonds, was 4.4 years.

f) Capital management

The table below shows the financial leverage rate as of September 30, 2012 and December 31, 2011:

	Consolidated	
	(IFRS and BRGAAP)	
	09/30/2012	12/31/2011

Net debt (a)	3,380,223	2,642,998
Total capital (b)	4,555,705	4,848,909
Leverage ratio (a) / (b)	74%	55%

The Company and its subsidiaries remain committed to maintaining high liquidity and an amortization profile without pressure in the short-term refinancing.

Derivative financial instruments

The derivative financial instruments were recognized in the following balance sheet line items:

Description	Balance sheet account	09/30/2012	12/31/2011
Rights from derivatives operation (assets)	Rights of derivative transactions	23,856	4,213
Obligation from derivatives operation (liabilities)	Liabilities from derivative transactions	68,903	115,432
Prepayment of hedge premium	Prepaid expenses	91	11,572

The Company and its subsidiaries adopt hedge accounting. On September 30, 2012, the derivatives contracted to hedge interest rate risk and fuel price risk were classified as "cash flow hedge", according to the parameters described in the Brazilian accounting standard CPC 38, and 40, technical guidance OCPC03 and International Accounting Standard IAS 39.

Classification of derivatives financial instruments

i) Cash flow hedges

The Company and its subsidiaries use cash flow hedges to hedge against future revenue or expense fluctuations resulting from changes in the exchange rates, interest rates or fuel price, and accounts for actual fluctuations of the fair value of derivative financial instruments in shareholders' equity until the hedged revenue or expense is recognized.

The Company and its subsidiaries estimates the effectiveness based on statistical correlation methods and the ratio between gains and losses on the financial instruments used as hedge, and the cost and expense fluctuation of the hedged items.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL INFORMATION FOR THE QUARTER ENDED SEPTEMBER 30, 2012

(The Individual and Consolidated Interim Financial Information as of September 30, 2012 were reviewed by Independent Auditors to the extent described in the Report on the Review of Interim Financial Information dated on November 13, 2012)

(In Thousands of Reais – R\$, except when indicated otherwise)

The instruments are considered as effective when the fluctuation in the value of derivatives offsets between 80 % to 125% the impact of the price fluctuation on the cost or expense of the hedged item.

The balance of the actual fluctuations in the fair values of the derivatives designated as cash flow hedges is transferred from shareholders' equity to profit or loss for the period in which the hedged costs or expenses impacts profit or loss. Gains or losses on effective cash flow hedges are recorded in balancing accounts of the hedged expenses, by reducing or increasing the operating cost, and the ineffective gains or losses are recognized as financial income or financial expenses for the period.

ii) Derivative financial instruments not designated as hedges

The Company and its subsidiaries contracts derivative financial instruments that are not formally designated for hedge accounting. This occurs when transactions are in the short term and the control and disclosure complexity make them unfeasible, or when the change in a derivative's fair value must be recognized in profit or loss for the same period of the effects of the hedged risk.

Designation of hedged item

a) *Fuel hedge*

Due to the low liquidity of jet fuel derivatives traded in commodities exchanges, the Company and its subsidiaries contracts crude oil derivatives (WTI, Brent) and its byproducts (Heating Oil) to hedge against fluctuations in jet fuel prices. Historically, oil prices are highly correlated with jet fuel prices.

As of September 30, 2012, the Company and its subsidiaries have derivative contracts and WTI designated as cash flow hedge fuel, traded in Nymex and OTC markets.

Oil derivative contracts, designated as fuel hedges of the Company and its subsidiaries, are summarized below:

b) *Foreign Exchange Hedge*

The Company and its subsidiaries uses derivative contracts as U.S. dollar hedges conducted with BM&FBOVESPA, using an exclusive investments fund as vehicle for contracting risk coverage.

In September 2011, Management, considering the future economic outlook, decided to suspend temporarily the currency hedge of the Company's cash flows. In January 2012, the Administration resumed hedging.

As of September 30, 2012, R\$47,779 financial assets of the exclusive investment fund were bank guarantee linked to margin deposits warranty on the BM&F, to cover the derivative transactions.

As of September 30, 2012, the Company and its subsidiaries held foreign exchange derivative contracts in U.S. dollar not designated as hedge accounting. Losses from hedge ineffectiveness recognized during the period ended September 30, 2012 and of 2011 are presented below:

Sensitivity analysis of derivative financial instruments

The sensitivity analysis of financial instruments was prepared according to CVM Instruction 475/08, in order to estimate the impact on the fair value of financial instruments operated by the Company, considering three scenarios considered in the risk variable: most likely scenario, the assessment of the Company; deterioration of 25% (possible adverse scenario) in the risk variable, deterioration 50% (remote adverse scenario).

The estimates presented, since they are based on simple statistics, do not necessarily reflect the amounts to be reported in the next financial statements. The use of different methodologies and /or assumptions may have a material effect on the estimates presented.

The tables below show the sensitivity analysis for market risks and financial instruments considered relevant by management, open position as of September 30, 2012 and based on the scenarios described above.

The probable scenario of the the Company is the maintaining of the market rates and therefore the impact on fair value is null.

In the tables, positive values are displayed as active exposures (assets greater than liabilities) and negative values are exposed liabilities (liabilities greater than assets).

IFRS

Besides the sensitivity analysis based on the abovementioned standards, the Company and its subsidiaries also analyze the impact of the financial instrument quotation fluctuation on the Company's and its subsidiaries' profit or loss and shareholders' equity considering:

- Increase and decrease by 10 percentage points in fuel prices, by keeping all the other variables constant;
- Increase and decrease by 10 percentage points in dollar exchange rate, by keeping all the other variables constant;
- Increase and decrease by 10 percentage points in Libor interest rate, by keeping all the other variables constant;

The sensitivity analysis includes only relevant monetary items that are material for the risks above mentioned. A positive number indicates an increase in income and equity when the risk appreciates by 10%.

The table below shows the sensitivity analysis made by the Company's management, at September 30, 2012 and 2011, based on the scenarios described above:

Measurement of the fair value of financial instruments

In order to comply with the disclosure requirements for financial instruments measured at fair value, the Company and its subsidiaries must classify its instruments in Levels 1 to 3, based on observable fair value levels:

a) Level 1: Fair value measurements are calculated based on quoted prices (without adjustment) in active market or identical liabilities;

b) Level 2: Fair value measurements are calculated based on other variables besides quoted prices included in Level 1, that are observable for the asset or liability directly (such as prices) or indirectly (derived from prices); and

c) Level 3: Fair value measurements are calculated based on valuation methods that include the asset or liability but that are not based on observable market variables (unobservable inputs).

The following table states a summary of the Company’s and its subsidiaries’ financial instruments measured at fair value, including their related classifications of the valuation method, as of September 30, 2012:

Financial Instrument	Carrying amount	Other Significant Observable Factors (Level 2)
Cash equivalents	1,050,557	1,050,557
Short-term investments	662,227	662,227
Restricted cash	166,442	166,442
Liabilities from derivative transactions	68,903	68,903
Rights on derivative transactions	23,856	23,856

29. Non-cash transactions

As of September 30, 2012, the Company and its subsidiaries increased their property, plant and equipment in the amount of R\$1,310, these transactions did not affect its cash in the period.

30. Insurance

As of September 30, 2012, the insurance coverage by nature, considering the aircraft fleet, and related to the maximum reimbursable amounts indicated in U.S. Dollars, is as follows:

Aeronautical type	In Brazilian reais	In US dollar
Guarantee – Hull/war	9,640,932	4,738,723
Civil liability per event/aircraft	1,525,875	750,000
Inventories (base and transit)	335,693	165,000

Pursuant to Law 10,744, of October 9, 2003, the Brazilian government assumed the commitment to complement any civil liability expenses related to third parties caused by war or terrorist events, in Brazil or abroad, which VRG may be required to pay, for amounts exceeding the limit of the insurance policies effective beginning September 10, 2001, limited to the amount in Brazilian reais equivalent to one billion U.S. Dollars.

31. Subsequent event

On October 1, 2012 the Board of Directors of the Company placed an incremental purchase order of 60 737 MAX aircraft with Boeing, to be delivered on or after 2018. The company will use the new aircraft primarily for the renewal of its fleet in the future.

On 10 October 2012 the Administrative Council for Economic Defense (CADE) approved the acquisition of Webjet Linhas Aéreas SA ("Webjet") by VRG Linhas Aereas SA ("VRG"), a subsidiary of Gol Linhas Aéreas Inteligentes S.A. The approval was subject to the signing of a Term Performance Commitment ("TCD") between VRG, Webjet and CADE to achieve certain operational efficiencies, specifically in regards of maintaining, by VRG and Webjet, of a minimum regularity level (85%) in the use of operating schedules (HOTRAN) at Santos Dumont airport. The Company aims to optimize the organizational structure of the Companies unifying and integrating their operations, reducing costs and taking advantage of synergies. The effects of these actions are being evaluated by management.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors and Shareholders of

Gol Linhas Aéreas Inteligentes S.A.

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Gol Linhas Aéreas Inteligentes S.A. and its subsidiaries (the “Company”), included in the Interim Financial Information Form (ITR), for the three-month period ended September 30, 2012, which comprises the statement of financial position as of September 30, 2012 and the related statement of income and statement of comprehensive income for the three-month and nine-month periods then ended and the statement of changes in equity and statement of cash flows for the nine-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual interim financial information in accordance with CPC 21 (R1) - Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Interim Financial Information (ITR) referred to above is not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Interim Financial Information (ITR) referred to above is not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the CVM.

Other matters

Interim statements of value added

We also have reviewed the interim statements of value added (“DVA”), for the nine-month period ended September 30, 2012, prepared under the responsibility of Management, the presentation of which is required by the standards issued by CVM, applicable to the preparation of Interim Financial Information (ITR), and is considered as supplemental information for International Financial Reporting Standards - IFRS that do not require the presentation of DVA. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.
