Mexico City (February 26, 2014), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest franchise bottler in the world, announces results for the fourth quarter and full year of 2013.

"Despite the many challenges that we faced during 2013, including a tough consumer environment—especially in Brazil and Mexico—and a volatile currency environment across our operations, our company delivered double-digit currency-neutral top-line growth. More importantly, during the year, we were pleased to integrate four Coca-Cola franchises—Coca-Cola Bottlers Philippines, Inc., Grupo Yoli in Mexico, and Fluminense and Spaipa in Brazil—reinforcing our position as the largest bottler of Coca-Cola products in the world, now serving more than 346 million consumers in 10 countries in Latin America and Southeast Asia. Our very talented management team is committed to extend the successful track record of our company through our most important asset—our people. Our growing family of more than 120,000 employees enters 2014 fully aware of the structural changes in markets like Mexico, along with the challenges that some of our other franchises present. Nevertheless, we are encouraged by the good start of the year in the volume performance of our Brazilian franchise and by the smooth integration process of the new territories, where we are confident that we can achieve the targeted synergies efficiently and effectively. We continue to successfully adjust our Mexican operation to better serve our customers and consumers in 2014 and we have the flexibility to adapt to local market conditions in the rest of our operations." said John Santa Maria Otazua, Chief Executive Officer of the Company.

All the financial information presented in this report was prepared under International Financial Reporting Standards (IFRS).

Starting on February 2013, we are incorporating our stake of the results of Coca-Cola Bottlers Philippines, Inc. through the equity method on an estimated basis.

Our reported total revenues increased 8.5% to Ps. 43,240 million in the fourth quarter of 2013, compared to the fourth quarter of 2012, driven by revenue growth due to the integration of Yoli in our Mexican territories, and Fluminense and Spaipa in our Brazilian operation⁽¹⁾⁽²⁾. Excluding the recently merged territories in Mexico and Brazil⁽¹⁾⁽²⁾, total revenues decreased 2.2%. On a currency neutral basis and excluding the recently merged territories in Mexico and Brazil⁽¹⁾⁽²⁾, total revenues grew 12.1%, mainly driven by average price per unit case growth in almost every territory and volume growth mainly in Colombia, Argentina and Central America.

Reported total sales volume increased 8.8% to reach 881.7 million unit cases in the fourth quarter of 2013 as compared to the same period in 2012. Excluding the integration of Yoli in Mexico, and Fluminense and Spaipa in Brazil⁽¹⁾⁽²⁾, volumes decreased 1.1% to 800.9 million unit cases. On the same basis, our still beverage category grew 9.8%, mainly driven by the performance of the Jugos del Valle line of business, *Powerade* and *FUZE Tea* across our territories. The bottled water category grew 9.3% mainly driven by growth of the *Ciel* brand in Mexico, the *Nevada* brand in Venezuela, *Crystal* in Brazil and *Bonaqua* in Argentina. These increases partially compensated for a volume decline in our sparkling beverage category and our bulk water business.

Our reported gross profit increased 5.9% to Ps. 19,918 million in the fourth quarter of 2013, as compared to the fourth quarter of 2012. Flattish PET and lower sugar prices in most of our territories were compensated by the depreciation of the average exchange rate of the currencies in our South America division⁽³⁾ and the Mexican peso⁽³⁾ as applied to our U.S. dollar-denominated raw material costs. Reported gross margin reached 46.1% in the fourth quarter of 2013.

Our reported operating income reached Ps. 6,609 million in the fourth quarter of 2013 and our reported operating margin was 15.3%. Excluding the integration of the new territories in Mexico and Brazil,⁽¹⁾⁽²⁾ operating income reached Ps. 6,126 million. In local currency and excluding the non-comparable effect of Yoli, Fluminense and Spaipa⁽¹⁾⁽²⁾ operating expenses increased mainly as a result of (i) higher labor and freight costs in Brazil and Venezuela, (ii) higher freight costs in Mexico and (iii) continued marketing investments across our territories to support our marketplace execution and bolster our returnable packaging base.

During the fourth quarter of 2013, the share of the profits of associates and joint ventures line recorded a gain of Ps. 81 million, mainly due to equity method gains from our participation in Coca-Cola Bottlers Philippines, Inc., Jugos del Valle in Mexico and Fountain Agua Mineral⁽⁴⁾ in Brazil.

Our comprehensive financing result in the fourth quarter of 2013 recorded an expense of Ps. 1,902 million as compared to an expense of Ps. 611 million in the same period of 2012. This increase was mainly driven by (i) a higher interest expenses due to a larger debt position resulting from the financing of the most recent acquisitions in Brazil and (ii) a foreign exchange loss mainly as a result of the depreciation of the end-of-period exchange rate of the Mexican peso⁽²⁾ during the quarter as applied to a higher US dollar-denominated net debt position.

During the fourth quarter of 2013, income tax, as a percentage of income before taxes, was 32,8% as compared to 32.5% in the same period of 2012.

Our reported consolidated net controlling interest income reached Ps. 3,066 million in the fourth quarter of 2013. Earnings per share (EPS) in the fourth quarter of 2013 were Ps. 1.48 (Ps. 14.79 per ADS) computed on the basis of 2,072.9 million shares (each ADS represents 10 local shares).

As of December 31, 2013, we had a cash balance of Ps. 15,306 million, including US\$ 284 million denominated in U.S. dollars, a decrease of Ps. 7,928 million compared to December 31, 2012. In May, 2013, we issued Ps. 7,500 million in 10 year *Certificados Bursátiles* at a fixed rate in Mexican pesos of 5.46%. As part of the acquisition financing of Spaipa in Brazil, during August, 2013 we assumed a US\$ 500 million bilateral loan and during October, 2013 we assumed a US\$1.5 billion syndicated loan. During November, 2013 we placed US\$ 2.15 billion of Senior Notes in the international capital markets. The proceeds of these Senior Notes were mainly used for debt refinancing purposes.

As of November, 2013 Coca-Cola FEMSA paid the second installment of the 2012 dividend in the amount of Ps. 3,006 million. During November of 2013, we prepaid US\$380 million of the August, 2013 bank loan and \$1,170 million of the October, 2013 syndicated loan. During December, 2013 we prepaid US\$ 600 million of bilateral loans.

As of December 31, 2013, total short-term debt was Ps. 3,586 million and long-term debt was Ps. 56,875 million. Total debt increased by Ps. 30,547 million, compared to year end 2012. Net debt increased Ps. 38,475 million compared to year end 2012, mainly as a consequence of the above mentioned issuances net of the cash outflows related to the acquisitions of Spaipa and Fluminense in Brazil, Coca-Cola Bottlers Philippines, Inc. and Grupo Yoli in Mexico, in addition to the payment of the 2012 dividend and partial repayment of the acquisition financing and other outstanding bank debt.

The weighted average cost of debt for the quarter was 6.79%. The following charts set forth the Company's debt profile by currency and interest rate type and by maturity date as of December 31, 2013.

Revenues

Reported total revenues were Ps. 24,909 million in the fourth quarter of 2013, an increase of 9.7% as compared to the same period of 2012, mainly as a result of the integration of Fluminense and Spaipa in Brazil⁽¹⁾ during the quarter and despite the negative translation effect as a result of the devaluation of the Venezuelan bolivar,⁽²⁾ the Argentine peso,⁽²⁾ the Brazilian real⁽²⁾ and the Colombian Peso⁽²⁾. Philippines Operation

Volume during the quarter was slightly down as compared to the previous year despite the typhoons that struck the country. Notably, in December we launched *Minute Maid Fresh* orangeade, a new low-juice content beverage tailored to the Filipino consumer tastes. Additionally, we continued to register solid performance of the single-serve one way presentation for brand Coca-Cola and the reinforcement of our 750ml returnable glass offering for brands Coca-Cola and Royal in the sparkling beverage category. Our go-to-market approach has been implemented in the Greater Manila area with continued encouraging results.

RECENT DEVELOPMENTS

On October 24, 2013, Coca-Cola FEMSA announced that its Board of Directors had appointed John Santa Maria Otazua as Chief Executive Officer, effective January, 2014.

As of November, 2013 we are incorporating the *Spaipa S.A. Industria Brasileira de Bebidas* (“Spaipa”) operation in the results of our Brazilian subsidiary, the South America division and the Consolidated Company.

On November 19, 2013, Coca-Cola FEMSA placed three tranches of 5-, 10- and 30-year U.S. dollar-denominated bonds in the international capital markets for an aggregate amount of US\$2.15 billion.

On January 13, 2014, Coca-Cola FEMSA reopened the U.S. dollar-denominated 10-year bonds and 30-year bonds that were placed on November 19, 2013 in the international capital markets for an aggregate amount of US\$350 million.

As of the end of January, 2014, the official exchange rate of the Argentine peso registered a devaluation of approximately 20% vs. the U.S. dollar. As a result of this devaluation, the balance sheet of the Company’s subsidiary could reflect a reduction in shareholders’ equity during 2014. As of December 31, 2013 our foreign direct investment in Argentina, using the official exchange rate of ARS 6.38 per U.S. dollar, was Ps. 945 million. As required by International Financial Reporting Standards (IFRS), this announcement is a subsequent event to 2013 year-end that does not require modifying the exchange rate used to translate the 2013 financial information.

In January 2014, the Venezuelan government announced that certain transactions, such as the importation of finished goods and raw materials for some product categories, would be transacted at the state-run Supplementary Currency Administration System (SICAD) currency rate. As per the most recent Government auction such currency rate is approximately 11.80 bolivars per U.S. dollar; however, the government authorities have clearly stated that the applicable exchange rate for more than 80% of the total imports of the country including food, medicines and other basic goods such as raw materials, machinery and other capital goods will continue to be the 6.30 bolivars per U.S. dollar.
