Amount per Preferred Share			
<u>1</u>			

3. Percentage of net income distributed for the exercise

Management proposes the distribution of twenty-five percent (25%) of the Company’s net income, provided for in Article 36 of the Company Bylaws.

4. Overall amount and the amount per share of the dividends distributed based on income from previous fiscal years

There is no proposal for distribution of dividends based on income from previous years.

5. Inform, upon deduction of advanced dividends and interest on the Company capital already declared:

a. The gross amount of the dividend and interests on the Company capital, separately, per share of each type and class

The amount of the proposed dividends is R\$ 0.5353953451 per common share and R\$ 0.5889348796 per preferred share, upon deduction of the amount of the advanced dividends already distributed. There was no declaration of interests on the Company capital.

b. Terms and deadline for payment of dividends and interest on the Company capital

As permitted by the Bylaws, the Management proposes that the dividends proposed for the Annual Shareholders' Meeting shall be paid within up to sixty (60) days following its approval at the Meeting.

[1] For this calculation, we considered the number of preferred shares outstanding on the date hereof.

c. Possible adjustment and interests on the dividends and interests on the Company capital

The dividends shall be paid within the above mentioned deadline, without any interest between the date of its declaration and the date of its actual payment.

d. Date of declaration of payment of the dividends and interests on the Company capital considered for identification of the shareholders entitled to be paid

Legal Reserve (5% of the Net Income)	R\$ 52,624,761.02

9. If the Company has preferred shares entitled to fixed or minimum dividends

a. Describe the calculation of the fixed or minimum dividends

The owners of the Company's preferred shares have priority on the payment of an annual minimum dividend in the amount of R\$ 0.08 per one (1) share, non-cumulative. In addition, to each preferred share, a dividend ten percent (10%) higher than that granted to each common share is granted, in accordance with Section 17, Paragraph 1, of Law 6,404/76, as amended by Law 10,303/01, including, for purposes of this calculation, in the sum of the total dividend paid to the preferred shares, the amount paid as minimum annual dividend.

b. Inform whether the income for the fiscal year is sufficient for full payment of the fixed or minimum dividends

Yes, it is sufficient.

c. Inform whether an unpaid part is cumulative

There is no unpaid part of fixed or minimum dividends.

d. Identify the overall amount of the fixed or minimum dividends to be paid to each class of preferred shares

	Preferred Shares
Overall amount of the dividend paid <u>in advance</u> to the holders of preferred shares	R\$ 64,077,668.98

Overall amount of the dividend paid to the holders of preferred shares	R\$ 161,258,394.17

e. Identify the fixed or minimum dividends to be paid per preferred share of each class

	Preferred Shares
Amount of the dividend paid <u>in advance</u> to each class of preferred share	R\$ 0.39
Overall amount of the dividend <u>to be paid</u> to each class of preferred share	R\$ 0.5889348796
Overall amount of the dividend <u>to be paid</u> to each class of preferred share	R\$ 0.977852995

10. With respect to the mandatory dividend

a. Describe the calculation stipulated by the Bylaws

In accordance with Article 36, Paragraph 1 of the Company Bylaws, the shareholders shall have the right to receive, in each fiscal year, as dividends, a mandatory percentage of twenty-five percent (25%) on the net income for the fiscal year, with the following adjustments: (a) the deduction of the amounts designed for, in the fiscal year, legal reserve and contingencies reserve; and (b) the addition of the amounts resulting from reversion, in the fiscal year, of contingencies reserve previously composed.

The payment of dividend stipulated under the above mentioned terms may be limited to the amount of net income for the fiscal year in which it was realized under the law, provided that the difference be registered as reserve of income to be realized.

The earnings registered under the reserve of income to be realized, whenever realized and if they are not absorbed by losses incurred in subsequent fiscal years, shall be added to the first dividend declared following realization.

b. Inform whether it is being fully paid

The mandatory dividend is being fully paid.

c. Inform the amount occasionally retained

Not applicable.

11. Retained mandatory dividend as a result of the financial situation of the Company

Not applicable.

12. Designation of income for contingencies reserve

There is no designation of income for the contingencies reserve.

13. Designation of income for the reserve of income to be realized

Not applicable.

14. Designation of income for reserves stipulated by the Bylaws

a Describe the Articles contained in the Bylaws providing for the reserve

The reserve for expansion is provided for by Article 36, Paragraph 2 of the Company Bylaws, to wit:

“Article 36 – (...) Paragraph 2 – The Reserve for Expansion is created and has the purpose of ensuring funds to finance additional applications of fixed and working capital and shall be formed with up to one hundred percent (100%) of the remaining net income after the designations stipulated by letters "a" [legal reserve], "b" [contingencies reserve], and "c" [dividend] of item IV, in that the total amount of such reserve may not exceed the amount of the Company's Capital Stock.”

b. Identify the amount designated for the reserve

The Management proposes the retained earnings designated for the reserve for expansion in the amount of R\$ 674,912,560.09

c. Describe the calculation

The amount designated for the reserve for expansion is equivalent to 90% of the Adjusted Net Income for the fiscal year ended on December 31, 2013. The Adjusted Income is calculated as follows:

Net Income for the Fiscal Year	R\$1,052,495,220.41
Legal Reserve (5%)	R\$ (52,624,761.02)

Tax Base for Dividends	R\$ 999,870,459.39
Dividends (25%)	R\$ (249,967,614.85)
Adjusted Net Income	R\$ 749,902,844.54
Reserve for Expansion (90%)	R\$ 674,912,560.09

15. Retained earnings provided for by capital budgeting

a. Identify the amount of retained earnings

Management proposes that earnings be retained in the amount of R\$ 749,902,844.54, in that R\$ 674,912,560.09 for the reserve for expansion (under Article 36, Paragraph 2 of the Company Bylaws) and R\$ 74,990,284.45 based on capital budgeting under Section 196, Paragraph 2 of Law 6,404/76.

b. Provide a copy of the capital budgeting

See the proposal for Capital Budgeting on page 10.

16. Designation of the income for the tax incentives reserve

Not applicable.

São Paulo, March 5th, 2014

BOARD OF OFFICERS

Capital Budgeting

To the Shareholders: In accordance with Section 196 of Law 6,404/76, the Management of **COMPANHIA BRASILEIRA DE DISTRIBUIÇÃO** does hereby:

1. Inform the designation of the Retained Earnings for 2012 (Reserve for Expansion and Capital Budgeting) as approved at the 2013 Annual and Special Shareholders' Meeting, as follows:

(i) The Company's Investment Plan for 2013 amounted to R\$ 2,022,000,000.00. Nonetheless, the investment made by the Company totaled R\$ 1,849,856,119.00, that is R\$ 825,220,242.24 for the opening of new stores and purchase of land, R\$ 477,452,106.90 for refurbishment of stores and R\$ 547,183,769.86 for infrastructure (IT, Logistics and others); and

(ii) The Reserve for Expansion, in the amount of R\$ 674,069,284.02, and the Budgeting Capital, in the amount of R\$ 74,896,587.11, approved at the 2013 Annual and Special Shareholders' Meeting were used to support those investments. The difference was borne both with funds from the very Company, resulting from the Company's operational activity, and with funds raised from third parties.

2. Propose that retention of R\$ 749,902,844.54 from the earnings of 2013 in order to borne the Investment Plan of 2014, to be approved by the Board of Directors and by the shareholders, in that R\$ 674,912,560.09 to the Reserve for Expansion (Article 35 – Paragraph 2 of the Company Bylaws) and R\$ 74,990,284.45 to the Capital Budgeting (Section 196 of Law 6,404/76).

This is our proposal.

São Paulo, March 5th, 2014.

THE BOARD OF OFFICERS

Comments of the Management about the Company's financial situation

Item 10 of the Reference Form, CVM Rule 480/2009 of December 7, 2009 ("ICVM 480")

10.1 General financial and equity conditions

general financial and equity conditions

Currently, the Group is in the pursuit of improving operational efficiency and capturing synergies among its various businesses, and it is confident that in 2014 it will find a more favorable scenario to advance its strategy of competitive pricing, strong organic growth and market share gain in all its businesses.

Despite the challenging macroeconomic environment, GPA demonstrated the capacity and agility to adjust its strategy to market conditions and deliver strong results accompanied by market share gains in its various business segments. In recent years, we have delivered growth and positive results, strengthening GPA as a group poised for sustainable and structured growth going forward, which is an important differential in the retail business.

In 2013, we consolidated our multi-format model with a diversified yet convergent business portfolio, while expanding our competitive advantages. We have definitively selected the multi-channel approach as our strategic priority. For this, we implemented a series of initiatives focused on integration, capturing synergies and creative solutions to make the buying experience increasingly more practical, convenient and attractive for our customers. As a result, we identified opportunities that enable us to act in a coordinated fashion to offer the best buying solution, while ensuring the alignment of processes, synergy gains, financial discipline and consequently lower costs.

We believe that the Company presents the financial and equity conditions required for the execution of its plans for capital expansion and investment, while also meeting all liquidity requirements and complying with

short and long-term obligations. Even so, these conditions are subject to certain events beyond our control, such as the stability and behavior of the Brazilian economy.

Our understanding of the Group's financial and equity conditions is based on the following economic and financial fundamentals, considering our consolidated financial statements for the fiscal year ended December 31, 2013:

- we recorded gross revenue of R\$64.405 billion and net sales of R\$57.730 billion, up 12.5% and 13.4%, respectively, in relation to 2012. The upturn in 2013 resulted from the Company's competitive pricing and organic growth approach, which led us to a higher growth in relation to the figure recorded in 2012, of 8.6% and 9.3% in gross revenue and net revenue, respectively, when compared to 2011;
- our gross profit was R\$15.026 billion and our gross margin stood at 26.0%, an increase of 9.2% in relation to 2012, whose gross profit totaled R\$13.757 billion, accompanied by a gross margin of 27.0%. This decrease in gross margin is due to the Group's investments in competitiveness;
- our total operating expenses accounted for 19.6% of net sales, and in absolute terms totaled R\$11.291 billion, 11.4% up over 2012, whose amount of R\$10.136 accounted for 19.9% of net revenue;

- our Adjusted EBITDA by nonrecurring expenses, classified as "Other Operating Revenue (Expenses)" came to R\$4.487 billion, with an EBITDA margin of 7.8%, an increase of 0.5 p.p. in relation to the adjusted EBITDA margin of 7.3% recorded in 2012.
- our net financial result was a negative R\$1.193 billion, remaining at the same level as in 2012, and as a ratio of net revenue it represented 2.1%, while in 2012 this ratio stood at 2.3%;
- our net income amounted to R\$1.396 billion and our net margin stood at 2.4%, 20.7% up on the R\$1.156 billion recorded in 2012;
- our net debt totaled R\$1.102 billion, a sharp reduction over the R\$3.406 billion recorded in 2012, chiefly due to higher cash flow in the period, mainly leveraged by the efforts to improve working capital. The public offer of Units composed of one (1) common share and two (2) preferred shares issued by Varejo also strengthened GPA's financial structure, helping to reduce its net debt position at year-end 2013;
- we posted shareholders' equity of R\$12.712 billion, 14.9% up in relation to the R\$11.068 billion recorded in the previous year.

(a) *capital structure and eventual redemption of shares*

Below is the Group's capital structure for the periods mentioned, considering (i) as a percentage of equity, the amount resulting from total shareholders' equity divided by total liabilities and shareholders' equity, and (ii) as a percentage of debt capital, the amount resulting from the sum of current and noncurrent liabilities divided by total liabilities and shareholders' equity:

- On December 31, 2013, the Group's capital structure was composed of 33.4% of equity and 66.6% of debt capital.

- On December 31, 2012, the Group's capital structure was composed of 31.8% of equity and 68.2% of debt capital.

- On December 31, 2011, the Group's capital structure was composed of 30.2% of equity and 69.8% of debt capital.

VA - Vertical analysis

We understand that Company's current capital structure, mainly measured by the Net Debt/EBITDA ratio of 0.29x, presents a significant reduction in leverage when compared with the levels recorded in 2012 and 2011, as the table below shows:

(R\$ million)	GPA Consolidated		
	12.31.2013	12.31.2012	12.31.2011
Short Term Debt	(2.445)	(1.712)	(2.655)

Net Debt / EBITDA⁽¹⁾	0,29x	0,91x	1,34x

(1) Include real estate projects. EBITDA for the last 12 months.

(2) Net cash position higher than gross debt.

There is no assumption of share redemption.

(b) *ability to pay financial commitments*

The Company's executive officers believe that the cash flow and the funds currently available show that the Group is fully able to pay all its short- and long-term financial commitments.

On December 31, 2013, our EBITDA was R\$3.814 billion, and our net financial result was a negative R\$1.193 billion. Therefore, EBITDA reported an interest coverage ratio of 3.2 times in relation to Company's financial expenses, and cash exceeded gross debt.

The results presented in the paragraph above show that our cash flow and our available funds make us able to fulfill our short and long-term financial commitments, which reinforces the Group's historical capacity to meet all commitments undertaken.

(c) sources of financing for working capital and investments in non-current assets utilized by the Group

The Company raised funds in 2013, 2012 and 2011 through: (A) financial agreements that represent: (i) Brazilian reais denominated loans with obligation to payment principal and DI (interbank deposit)-pegged interest rates; (ii) foreign currency-denominated loans, which are immediately and fully “swapped,” with Brazilian reais denominated payment obligations with DI-pegged interest rates, through swap operations; and (iii) loans with the Brazilian Economic and Social Development Bank (“**BNDES**”), partially denominated in reais and partially pegged to a foreign currency basket (also “swapped” with payment obligations denominated in reais with DI-pegged interest rates), plus annual interest rates; (B) funding on capital markets, through the issue of debentures; and (C) cash generation through its operations.

In 2013, 2012 and 2011, we had no difficulties in obtaining loans or refinancing its current debt. For more information on agreements entered into by the Group and the BNDES, see “Relevant Loan and Financing Agreements,” item “f,” below.

(d) *sources of financing for working capital and investments in non-current assets that the Group plans to utilize to cover liquidity deficiencies*

In the opinion of the Company’s executive officers, the funding sources used in the fiscal years ended December 31, 2013, 2012 and 2011 are adequate, and will continue to be used by the Group as sources for raising working capital and investments in non-current assets.

(e) *debt levels and debt characteristics*

Swap contracts

In terms of foreign currency, we use swap transactions to exchange liabilities denominated in U.S. dollars and fixed interest rates for Real pegged to CDI floating interest rates. The average weighted annual CDI rate was 8.06% in 2013 (8.40% in 2012 and 11.60% in 2011).

BNDES

Our credit line with the Brazilian Development Bank (BNDES) is subject to the indexation based on the long-term interest rate - TJLP, plus spread, resulting in the final interest rate or fixed interest rate.

Financing is paid in monthly installments after a grace period, as mentioned below.

The Group cannot offer any assets as collateral for loans to other parties without the BNDES' prior consent and it must comply with certain financial debt covenants, calculated based on the consolidated balance sheet, as follows: (i) maintenance of a capitalization ratio (equity/total assets) equal to or greater than 0.30 and (ii) EBITDA/net debt equal to or greater than 0.35. The Group controls and monitors these ratios, and on December 31, 2013 it was in compliance with the established parameters.

Financial Lease Obligations

Financial lease agreements, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are allocated between finance charges and reduction of leasing liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in the income statement. Leased assets are depreciated over their estimated useful life or lease term, whichever is shorter.

Lease agreements classified as financial lease are listed below:

Receivable Securitization Fund – Pão de Açúcar (“PAFIDC” and “Globex FIDC”)

GPA maintained, until December of 2012, an operation of transfer of part of its trade receivables of credit cards and services for two receivables securitization fund constituted for such purposes, Globex FIDC and PAFIDC.

The fund’s capital structure on December 31, 2011 was composed by 10,295 senior quotas held by third parties (“Banco Rabobank”) in the amount of R\$1,235,901, which represent 89.90% of the fund’s equity and 2,864 subordinated quotas held by the Company (CBD) and its subsidiaries in the amount of R\$138,849, which represent 10.10% of the fund’s equity.

The capital structure of Globex FIDC on December 31, 2011 was composed by 11,666 quotas held by third parties (capital markets investors) in the amount of R\$1.184.522, which represent 85.00% of the fund’s equity, and 1,910 subordinated quotas held by Via Varejo in the amount of R\$209,068, which represent 15.00% of the fund’s equity.

At the time of the transfer operation of part of receivables, the subordinated quotas had the risk to absorb possible losses on receivables transferred and losses attributed to the fund. Holders of the senior quotas had no right of indemnification against other assets of the Company and its subsidiaries in the event of default of the amounts owed by customers.

Funds Restructuring in 2012

Due to changes in the receivable discount policy, changes in the receivable funds were negotiated, as follows:

a) PAFIDC: Alteration on Regulation of PAFIDC was approved on the General Quotaholder Meeting of December 21, 2012, in which the Company no longer holds any participation or obligation in the fund. The fund had its corporate name changed, answering by the denomination of Multicredit FIDC and no longer holds, on an exclusive basis, receivable from GPA.

As GPA holds no further participation on the current MultiCredit FIDC and no further obligation of absorbing any of the risks expected on Fund's assets, the Fund are no longer consolidated since December 26, 2012.

b) Globex FIDC: The discount operations with credit cards by means of Globex FIDC were terminated on December 14, 2012, under mutual agreement between senior quotaholders.

As a result, the senior quotas were paid to Fund's quotaholders and on December 31, 2012, it remained in the Fund a cash balance amount and subordinates quotas obligations to be settled, concluding the process of Fund's settlement, during the first quarter of 2013.

ii. Other long-term relations with financial institutions

Currently, the Company has no relevant long-term relations with financial institutions referring to the fiscal years ended December 31, 2013, 2012 and 2011, in addition to those already described in item 10.1 (f) of this Reference Form.

iii. Level of subordination in Company's debt

GPA's executive officers inform that the level of subordination in the Group's debt is determined in accordance with the provisions set forth by the legislation in force.

iv. Restrictions imposed on indebtedness limits and new debt contracting, the distribution of dividends, the sale of assets, the issue of new securities and the sale of controlling interest

Agreements signed with the BNDES are subject to "Provisions Applicable to BNDES Agreements", which borrowers of the BNDES, without previous authorization from BNDES cannot: (i) give priority to other credits; (ii) amortize shares; (iii) issue debentures above the established limit; (iv) issue profit-sharing bonds; (v) taking on new debt; and (vi) sell or encumber permanent assets, in observance to the reservations expressly mentioned in the "Provisions Applicable to BNDES Agreements."

The debentures issued are not convertible into shares and hold no guarantee, exception made to subsidiaries issuance, in which the Company grants suretyship.

These debentures are amortized according to the issue. The methods of amortization are as follows: (i) payment only at maturity (including all series of Nova Pontocom and the 9th issue of CBD), (ii) payment only at maturity with annual remuneration (10th issue of CBD), (iii) payment only at maturity with semiannual remuneration (11th issue of GPA, 3rd issue of Via Varejo and 1st issue of NCB) incorporated by Via Varejo, (iv) annual installments (6th series of CBD) and semiannual payments as of the 4th anniversary of the issue, and (v) semiannual payments and remuneration as of the third anniversary of the issue (8th issue of CBD).

The 8th, 9th, 10th and 11th issues are entitled to early redemption at any time, in accordance with the terms and conditions envisaged in the indenture. The 6th and 3rd issues of Via Varejo may be redeemed after 18 months. The issues of NCB and Nova Pontocom are not eligible for early redemption.

GPA is required to maintain certain debt financial covenants in connection with the issues made, except in the case of Nova Pontocom. These ratios are calculated based on consolidated interim financial information of the Group prepared in accordance with accounting practices adopted in Brazil, as follows: (i) net debt (debt minus cash and cash equivalents and trade accounts receivable) not greater than equity and (ii) consolidated net debt/EBITDA ratio lower than or equal to 3,25 (effective at December 31, 2013 was 0.34), At December 31, 2013, GPA was in compliance with these ratios.

Additionally, some loans and financing agreements of the subsidiary Via Varejo envisage early maturity of the debt in the event of transfer of control, including:

- loan agreements signed with IBM and Itaú banks;
- issue of debentures of NCB (merged into Via Varejo on January 2, 2013)
- financing agreements (FINAME) signed with Banco do Brasil;
- Contract of Adhesion to System of Protection Against Financial Risks – Derivatives (swap, forwards and options) entered into by the Company and Santander on April 12, 2010.

The provisions applicable to BNDES contracts also forbid any changes in the effective control, whether direct or indirect, without prior express authorization from BNDES.

(f) limits on the use of the financing already contracted

The Company has a credit limit of approximately R\$900 million approved with the BNDES to partially finance the Company's expansion and renovation plan. On December 31, 2013, R\$630 million had not been used by the Company. All other loans taken out have been already released, and part of such amount were already paid.

(g) relevant changes in each item of the financial statements

The executive officers highlight that, in fiscal year 2012, the Company restructured the receivable securitization fund, aiming to change the debt structure, and started to perform the receivable sale operation through credit card operators. This change has significant impacts on the debt structure and accounts receivable of the Company.

Net sales revenues

Group's net sales revenue increased 13.4% in 2013, from R\$50.924 billion in 2012 to R\$57.730 billion in 2013.

The Group's main revenues arise from GPA foods' operations, comprised by self-service retail and wholesale, electronics transactions (bricks-and-mortar stores of Via Varejo) and e-commerce (Nova Pontocom). The Company's net revenues are shown in the table below for the years ended December 31, 2013, 2012 and 2011.

(R\$ million)	Net Revenue		
	2013	2012	2011
GPA Consolidated	57.730	50.924	46.594
GPA Food	31.688	28.078	25.578
Retail	25.414	23.439	21.676
Cash and Carry	6.273	4.639	3.902
Bricks and mortar	21.746	19.438	17.828
NovaPontocom	4.297	3.409	3.189

Net revenue growth was driven by 'same-store' sales that increased by 9.0%, 3 percentage points above the inflation measured by the IPCA (Extended Consumer Price Index), closing the year with excellent performance and growth reported in each business.

The investment in organic growth was an essential guideline that allowed us to achieve important growth in the sales area in the year. The Group entered in segments it did not operate, especially with the Assaí framework; reinforced its presence in relevant markets, such as in the Northeast, with Via Varejo and expanded the closeness format with Minimercado Extra, in the state of São Paulo. The Group closed 2013 with 128 new stores, 87 of which GPA foods and 41 Via Varejo.

As part of our strategy to expand flow and attract customers to the stores, in addition to increase the Group's results from commercial room rental revenues, GPA Malls added approximately 45,000 sq.m. of gross leasable area (GLA), closing the period with a total of 288,000 sq.m. of GLA.

GPA foods - Highlights

In retail, the growth of revenue sped up throughout the year for all brands, as a result of the implementation of a commercial competitive strategy in the first half of 2013, leveraged by an assertive communication both in the stores and with the media. This strategy already reflects an increased flow of clients at stores, an upturn in the average ticket and gains in market share, especially in the hypermarkets.

Retail sales also benefited from the excellent performance of the Black Friday sales, an initiative expanded to the food segment, especially perishable goods and liquid products. The non-food segment under the hypermarket format was also driven by the Black Friday sales, especially the telephony and video segments, mainly in the last quarter of the year.

Assaí's sales performance stood out in 2013. Throughout the year, we consolidated the new framework and invested in organic expansion with the inauguration of 14 stores and the penetration in other five states, which remain posting results above expected.

Nova Pontocom - Highlights

In 2013, Nova Pontocom's net revenue grew by 26.1%, in a level above the market. The strategy adopted by the Company focused on competitive prices and growth, with efficiency gains, increase in market share and positive return as of the second quarter. Additionally, we launched Extra Marketplace, the new sales model that unites offers from different stores from several segments in the same website, allowing us to increase significantly the range of products.

Via Varejo - Highlights

In 2013, sales grew by 11.9%, with same-store growth of 9.0%, driven by several factors throughout the year, such as: i) Christmas and Children's Day campaigns; ii) history record of Black Friday sales; iii) opening of 41 stores, 36 of which Casas Bahia and 5 Pontofrio; and iv) confirmation of the technology consumption cycle in Brazil, especially in the telephony and computing categories.

2012 x 2011

Net sales revenue increased by 9.3% in 2012, from R\$46.594 billion in 2011 to R\$50.924 billion in 2012.

On the retail food, the highlights were the conclusion of the process to convert Extra Fácil into Minimercado Extra, the consolidation of the changes started in 2011 at the Assaí brand, the resumption of the expansion process of the Pão de Açúcar brand and the strengthening of Extra as a nationwide player.

It was the first full year of operations of Extra Supermercado. Up to the last quarter of 2011, the brand operated only through Extra Hiper. In the last quarter of the year, Extra Delivery was launched to consolidate the Extra brand as a multichannel.

The Group closed December with 1,568 thousand sq.m. of selling area on the food retail area, with growth of 4.8%, or 72.0 thousand sq.m., for a total of 55 stores opened, with highlight for the growth of Minimercado Extra.

At Via Varejo, we highlight the repositioning and improvement of the assortment of products at Pontofrio stores, as well as the positive sales effect from the maintenance of the IPI tax reduction for home appliances. In real terms, growth was 7.9% given that we consider deflation on the electronics category and inflation in categories such as furniture and mattress on the last 12 months, as published by the Brazilian Geography and Statistics Institute (IBGE), weighted by the assortment of bricks-and-mortar stores and Nova Pontocom.

2011 x 2010

25

Net sales revenue increased by 45.2% in 2011, from R\$32.092 billion in 2010 to R\$46.594 billion.

Among the factors that contributed to increase our net sales revenue in 2011, we can highlight: (i) the consolidation of results from Novas Casas Bahia, (ii) the opening of 41 stores, (iii) the completion of the conversion of CompreBem and Sendas to Extra Supermercado (which represents higher growth compared to the previous formats), (iv) the repositioning of Assaí and Mini Mercado Extra, (v) and Nova Pontocom (with high growth levels and the inclusion of new categories into its portfolio).

Gross Profit

Gross profit moved up 9.2%, from R\$13.757 billion in 2012 to R\$15.026 billion in 2013. Gross margin stood at 26.0% in 2013, over 27.0% in 2012, chiefly due to:

- ü Food retail area (Extra and Pão de Açúcar): decrease of 1.1 p.p. in the margin in 2013, chiefly due to the implementation of the commercial competitiveness strategy, supported by the optimization of sales, general and administrative expenses.
- ü Assaí: maintenance of the margin in 2013 compared to 2012 (14.6% and 14.5%, respectively);
- ü Via Varejo and Nova Pontocom: decline of 0.6 p.p. in the margin in 2013, chiefly due to the increase in the interest of Nova Pontocom, whose business model operates with margins lower than in bricks-and-mortar store margins.

In 2012, gross profit went up 8.7%, from R\$12.659 billion in 2011 to R\$13.757 billion, in line with the growth of sales in the same period. Gross margin stood at 27.0% in 2012, 0.2 p.p. down on 2011.

In 2011, gross profit went up 61.3%, from R\$7.850 billion in 2010 to R\$12.659 billion, chiefly due to: (i) better negotiations with suppliers, in line with a business strategy that applies specific IT systems, thus enabling improved business management; (ii) the consolidation of Nova Casas Bahia's results which, together with Pontofrio and Nova Pontocom operations, allowed scale gains with suppliers and access to a wider range of products.

Operating Revenue (Expenses)

Total operating expenses came to R\$11.291 billion in 2013, 11.4% up on the R\$10.136 billion reported in 2012. Selling expenses as percentage of net sales declined from 16.4% in 2012 to 15.9% in 2013, while general and administrative expenses moved down from 3.4% in 2012 to 2.6% in 2013.

ü Food retail area (Extra and Pão de Açúcar): selling, general and administrative expenses decrease by 1.0 p.p. as a result of the discipline to control expenses, with highlight to efficiency gains in the stores and decline of marketing expenses, in addition to the optimization of corporate expenses, such as consulting services and projects;

ü Assaí: selling, general and administrative expenses increased by 0.2 p.p. in 2013 over 2012 (10.6% and 10.4%, respectively), due to the aggressive plan to open stores in 2013;

ü Via Varejo and Nova Pontocom: selling, general and administrative expenses decreased by 1.7 p.p. in 2013, chiefly due to the efficiency gain of processes at the stores, optimization in the hiring of outside services, increased logistics efficiency and the rationalization of administrative, IT and marketing expenses.

In 2012, total operating expenses came to R\$10.136 billion, 3.0% up on the R\$9.844 billion posted in 2011, increasing in a percentage lower than the growth of net sales. Selling expenses declined from 17% of net sales in 2011 to 16.4% in 2012, and general and administrative expenses reduced from 3.6% of net sales in 2011 to 3.4% in 2012.

In 2011, total operating expenses came to R\$9.844 billion, up 66.5% on the R\$5.911 billion recorded in 2010, mainly due to the consolidation of Nova Casas Bahia's results that contributed to an increase in operating expenses as percentage of net sales compared to other brands.

Other Operating Revenue (Expenses)

Other operating revenue (expenses) came to R\$673,106 million in 2013, 1.939% up on 2012, to R\$33,014 million, chiefly due to the provisions for tax and labor claims totaling R\$392,308 million, the indemnity paid to Via Varejo, totaling R\$147,233 million, and restructuring expenses of R\$104,636 million.

Depreciation and Amortization

Depreciation and amortization totaled R\$787 million in 2013, 4.8% up on the R\$752 million posted in 2012, chiefly due to the depreciation and amortization of new the investments made in 2013.

In 2012, depreciation and amortization totaled R\$752 million, 10.8% up on the R\$678 million posted in 2011, chiefly due to the depreciation and amortization of the new investments made in 2012.

In 2011, depreciation and amortization came to R\$678 million, 52.1% up on the R\$ 446 million recorded in 2010, mainly due to: (i) the amortization of intangible assets deriving from the business combination with Nova Casas Bahia; (ii) the consolidation of Novas Casas Bahia's results.

Net Financial Result

Net financial result came to R\$1.193 billion in 2013, the same amount reported in 2012. As a percentage of net sales, the financial result declined from 2.3% to 2.1%, due to: (i) the reduction of interest on net debt of R\$14 million, as a result of the gradual reduction in indebtedness in 2013; (ii) the increase in the cost of prepayment of receivables related to payment vouchers and sale of credit cards receivables totaling R\$106 million, in line with the upturn in net revenue, and the increase in the interest rate; and (iii) gain in the adjustment of other assets and liabilities, totaling R\$92 million, chiefly due to the prepayment of the tax repayment program (REFIS) in the year, in addition to greater prepayment to suppliers, generating increased financial revenue in 2013 over 2012.

Net debt came to R\$1.102 billion in 2013, R\$2.304 billion down on 2012, mainly due to the greater cash generation in the period, leveraged by the efforts to improve working capital. Additionally, the public offering for the distribution of Units comprised by one (1) common share and two (2) preferred shares issued by Via Varejo, which represented an increase in gross cash of R\$896 million, also contributed to reduce the Company's indebtedness.

Net financial result decreased by 10.5% in 2012, from R\$1.333 billion in 2011 to R\$1.193 billion, chiefly due to: (i) the decline of indebtedness, mostly at the end of the year with the restructuring of FIDCs, and (ii) the reduction of the CDI rate, whose annual weighted average rate fell from 11.6% in 2011 to 8.4%.

Net debt totaled R\$3,406 billion in 2012, R\$363 million down on 2011, mainly due to changes in the structure of FIDCs (as described on item d above "financing sources for noncurrent used by the Group").

Net financial result went up 61.9% in 2011, from R\$823 million in 2010 to R\$1.333 billion in 2011, mainly due to: (i) an increase in debt to finance business growth; (ii) an increase in receivables discount due to the growth of the household appliances segment.

Net debt came to R\$3.769 billion in 2011, down R\$319 million on 2010, mainly due to (i) greater cash generation, and (ii) higher volume of discounted receivables at year end.

Net Income

Due to the reasons mentioned above, net income increased by 20.7% in 2013, from R\$1.156 billion in 2012 to R\$1.396 billion in 2013. In addition to the reasons above, the effective income tax rate declined from 31.0% in 2012 to 20.5% in 2013, chiefly due to: i) the reversal of deferred tax liability of R\$106 million on the purchase option exercised in the last quarter; and ii) the non-taxation of Bartira's reassessment gain of R\$157 million, an increase of R\$53 million over 2012.

In the beginning of 2013, GPA defined and made public some of its business estimates. For the food segment, comprised by the food retail area and Assaí, the objectives were: (i) gross revenue above R\$34.5 billion; (ii) EBITDA margin of around 7.7%; (iii) CAPEX of R\$1.5 billion; (iv) net financial result as a percentage of net selling revenue below 1.8%; and (v) expansion of the sales area above 6.0%. For Via Varejo and Nova Pontocom, the objectives were: (i) gross revenue above R\$28.5 billion; (ii) EBITDA margin above 6.6%; (iii) CAPEX of R\$500 million; (iv) net financial result as a percentage of net selling revenue

below 2.9%; and (v) expansion of the sales area between 2.0% and 3.0%. The results achieved in 2013 allowed us to reach all of those estimates.

Assets

Current Assets

Cash and Cash Equivalents

Cash and cash equivalents increased by 18.1% in 2013, from R\$7.086 billion in 2012 to R\$8.367 billion in 2013, chiefly due to the receipt of the amounts from the sale of equity interest in the public offering for distribution of Units comprised by one (1) common share and two (2) preferred shares issued by Via Varejo, which resulted in the inflow of R\$896 million to the Company.

On December 31, 2013, cash and cash equivalents accounted for 22.0% of total assets, versus 20.3% on December 31, 2012.

In 2012, cash and cash equivalents were up 42.6%, from R\$4.970 billion in 2011 to R\$7.086 billion in 2012. On December 31, 2012, cash and cash equivalents accounted for 20.3% of total assets, versus 14.9% on December 31, 2011.

In 2011, cash and cash equivalents were up 12.5%, from R\$4.419 billion in 2010 to R\$4.970 billion. Cash and cash equivalents accounted for 14.9% of total assets, versus 14.8% on December 31, 2010.

Accounts receivable

Accounts receivable declined by 5.3%, from R\$2.637 billion in 2012 to R\$2.497 billion in 2013. This variation of R\$140 million is mainly due to: i) the reduction in the balance of accounts receivable from credit cards and tickets of around R\$180 million, related mainly to sale of receivables from credit card in the last five days of 2013. In 2012, this effect had been impacted, as the last three days of the year were weekend days; ii) the increase of around R\$170 million in the payment book balance, or 8%, related to the expansion in sales recorded by Via Varejo; iii) the increase in provision for doubtful accounts, mainly related to the R\$40 million growth in the payment voucher balance; iv) the decrease in the receivables balance of debit card clients by approximately R\$70 million, related to the calendar effect explained in item i) above.

On December 31, 2012, accounts receivable grew by 8.5%, from R\$2.431 billion in 2011 to R\$2.637 billion, reflecting the increase in the CDCI consumer financing account.

Taxes recoverable

Taxes recoverable increased by 4.2% in 2013, from R\$871 million in 2012 to R\$908 million, due to: i) the increase of R\$80 million in the ICMS tax balance; ii) reduction of R\$14 million in PIS/Cofins taxes; iii) reduction of R\$20 million in withholding income tax; and iv) reduction of R\$16 million in income tax and social contribution.

On December 31, 2012, taxes declined by 4%, from R\$908 million in 2011 to R\$871 million, primarily driven by the lower income tax and ICMS tax replacement.

Prepaid expenses and other accounts receivable

Prepaid expenses and other accounts receivable increased by 17.8% in 2013, from R\$317 million in 2012 to R\$374 million, mainly related to the prepayment of Via Varejo's advertising expenses in the amount of R\$20 million and the transfer of the call option of 3 gas station of Rede Duque from the financial instrument balance to "Other accounts receivable" in the total amount of R\$49 million, once it has been exercised by the counterparty.

On December 31, 2012, prepaid expenses fell by 22.3%, from R\$408 million in 2011 to R\$317 million, mainly due to the R\$62 million received as redemption of PAFIDC quotas.

Inventories

Inventories grew by 10.8% in 2013, from R\$5.760 billion in 2012 to R\$6.382 billion in 2013, lower than the increase in sales. This was due to the reduction of two days in the average inventory balance compared to 2012, which, in turn, was driven by the decrease of four days in inventories in the Food Retail segment (Extra and Pão de Açúcar) and of five days in the Electronics segment. Nova Pontocom remained stable and Assaí recorded a two-day increase in inventories, mainly due to the strong expansion to new states.

On December 31, 2013, inventories accounted for 16.8% of total assets and 16.5% on December 31, 2012.

In 2012, inventories were up 3.7%, from R\$5,553 billion in 2011 to R\$5,760 billion in 2012, an increase lower than sales growth. The improvement inventory management was benefited by investments on logistics and IT in the last two years.

On December 31, 2012, inventories accounted for 16.5% of total assets, against 16.6% on December 31, 2011.

Noncurrent Assets

Noncurrent assets decreased from R\$4.699 billion in 2012 to R\$4.335 billion in 2013. The R\$364 million reduction is due to: i) the conversion of financial instruments worth R\$359 million related to the Duque and Bartira Chain in Other Accounts Receivable and Intangible Assets; ii) the increase of R\$197 million in taxes recoverable, primarily related to the increase in the ICMS and PIS/Cofins balance; iii) reduction of R\$128 million in deferred income tax and social contribution, mainly related to the effects from the difference between the book and tax depreciation; iv) reduction of R\$137 million in judicial deposits related to labor risks; and v) increase of R\$62 million in the Others line.

On December 31, 2013, noncurrent assets accounted for 11.4% of total assets and 13.5% on December 31, 2012.

In 2012, long-term assets were up 21.9%, from R\$3,855 billion in 2011 to R\$4,699 billion, mainly due to higher Recoverable Taxes – ICMS (State VAT). The Management of subsidiary Via Varejo has prepared a technical feasibility study on the future realization of ICMS, considering the future expected offset of debt deriving from operations of Via Varejo and subsidiaries, within the context of the main variables of their business. This study was examined based on information from the strategic planning report previously approved by the Company's Board of Directors.

On December 31, 2012, long-term assets accounted for 13.5% of total assets, against 11.5% on December 31, 2011.

Investments

Investments decreased by 14.6% in 2013, from R\$362 million in 2012 to R\$310 million, chiefly due to the write-off of Bartira's surplus, recognized upon the acquisition of NCB in 2010, jointly with the exercise of the option in 2013. On December 31, 2013, investments accounted for 0.8% of total assets against 1.0% on December 31, 2012.

In 2012, investments were up 6.6%, from R\$340 million in 2011 to R\$362 million in 2012. On December 31, 2012, investments accounted for 1.0% of total assets and 1.0% on December 31, 2011.

Property and equipment

Property and equipment increased by 11.6% in 2013, from R\$8.114 billion in 2012 to R\$9.054 billion in 2013, due to: i) the R\$1.746 billion in additions from the opening and conversion of stores; ii) the R\$642 million in depreciation in the year; iii) the R\$133 million in write-offs; and iv) the R\$31 million in transfers and others.

On December 31, 2013, property and equipment accounted for 23.8% of total assets against 23.3% on December 31, 2012.

In 2012, property and equipment were up 10.3%, from R\$7,358 billion in 2011 to R\$8,114 billion, was due to (i) R\$ 1,453 billion of additions from the opening of new stores and the conversion of stores; (ii) R\$596 million of decrease in the fiscal year; (iii) R\$74 million in write-offs and (iv) R\$ 28 million of transfers and others.

On December 31, 2012, property and equipment accounted for 23.3% of total assets, against 22.0% on December 31, 2011.

Intangible assets

Intangible assets increased by 14.6% in 2013, from R\$4.976 billion in 2012 to R\$5.701 billion, due to: i) the R\$978 million in additions, comprised mainly by R\$603 million in goodwill from Bartira, R\$265 million in software and R\$82 million in intangible assets acquired from the business combination with Bartira; ii) the R\$223 million in amortization in the year; and iii) the R\$ 30 million in transfers and others.

On December 31, 2013, intangible assets accounted for 15.0% of total assets, against 14.3% on December 31, 2012.

In 2012, were up 0.7% in 2012, from R\$4,939 billion in 2011 to R\$4,976 billion. This variation was chiefly due to: (i) R\$123 million of additions, in which R\$39 million of premium from Rede Duque and R\$ 84 million from software additions, (ii) R\$ 238 million of amortization on the fiscal year and (iii) R\$ 152 million of transferences and other.

On December 31, 2012, intangible assets accounted for 14.3% of total assets, against 14.8% on December 31, 2011.

Liabilities

Current Liabilities

Suppliers

Liabilities with suppliers grew by 37.0% in 2013, from R\$6.240 billion in 2012 to R\$8.548 billion. This variation was due to Group's sales growth and the extension of its debt with suppliers. GPA consolidated extended its supplier term by more than 15 days, with similar efforts through the GPA segments.

On December 31, 2013, liabilities with suppliers accounted for 22.5% of total liabilities, against 17.9% of Company's liability on December 31, 2012.

In 2012, liabilities with suppliers were up by 4.8%, from R\$5.953 billion in 2011 to R\$6,240 billion. This variation was due to Group's sales growth and the extension of its debt with suppliers. On December 31, 2012, liabilities with suppliers represented 17.9% of total liabilities, compared to 17.8% on December 31, 2011.

Loans and Financing – short term

Short-term loans and financing increased by 10.8% in 2013, from R\$3.543 billion in 2012 to R\$3.925 billion, due to the 9% growth (R\$228 million) in Via Varejo's CDCI, in line with the evolution in the related receivables, as well as working capital, especially in the transfer from long to short term.

On December 31, 2013, short-term loans and financing accounted for 10.3% of total liabilities, against 10.2% on December 31, 2012.

In 2012, short-term loans and financing fell by 19.8%, from R\$4.416 billion in 2011 to R\$3.543 billion. This variation was basically due the restructuring of FIDCs, which resulted in the debt deconsolidation, partially offset by an increase in CDCI and working capital. Our short-term loans and financing accounted for 10.2% of total liabilities, against 13.2% on December 31, 2011.

Debentures – short term

Short-term loans and financing include the debentures we issued, which were up by 86.2% in 2013, from R\$668 million in 2012 to R\$1.245 billion. This variation was basically due to the transfer of the 8th and 9th debenture issue balance to the short term.

On December 31, 2013, short-term debentures accounted for 3.3% of total liabilities, against 1.9% on December 31, 2012.

In 2012, short-term debt represented by debentures issued by the Company grew by 33.2%, from R\$502 million in 2011 to R\$668 million. This variation was mainly due to the maturity of the 11th Debenture Issue. Short-term debentures accounted for 1.9% of total liabilities, against 1.5% on December 31, 2011.

Social and Labor Obligations

Liabilities related to social and labor obligations increased by 9.2% in 2013, from R\$729 million in 2012 to R\$796 million, due to the effect from the collective bargaining agreement on labor charges and provisions.

On December 31, 2013, the social and labor obligations represented 2.1% of Company's total liabilities unchanged from December 31, 2012.

In 2012, payroll and labor liabilities fell by 3.9%, from R\$759 million in 2011 to R\$729 million. This variation resulted primarily from the reduction in the reserve for bonuses to be paid in about R\$18 million. On December 31, 2013, the social and labor obligations represented 2.1% of Company's total liabilities in comparison to 2.3% in December 31, 2011.

Taxes and Contributions

Liability with taxes and contributions increased by 26.6% in 2013, from R\$651 million in 2012 to R\$824 million. This variation was mainly due to the income tax on the Company's capital gains, related to the public offering for the distribution of Units comprising one (1) common share and two (2) preferred shares issued by Via Varejo, totaling R\$134 million, and the increase in taxes due to the expansion of the operation.

On December 31, 2013, taxes and contributions represented 2.2% of Company's total liabilities compared to 1.9% on December 31, 2012.

In 2012, Taxes and Contributions were up by 95.8%, from R\$332 million to R\$651 million. This variation was mainly due to the provision for income and social contribution taxes payable related to the subsidiary Via Varejo and the net amount of around R\$250 million booked under assets in 2011. Taxes and contributions represented 1.9% of total liabilities, versus 1.0% on December 31, 2011.

Noncurrent Liabilities

Loans and Financing – long term

Long-term loans and financing decreased 32.1% in 2013, from R\$2.539 billion in 2012 to R\$1.724 billion. This variation was basically due to working capital loan maturities and a new financial leasing agreement by IBM at Via Varejo.

On December 31, 2013, Company's long-term loans and financing represented 4.5% of its total liabilities, compared to 7.3% in December 31, 2012.

In 2012, long-term loans and financing were down by 38.1%, from R\$4,103 billion in 2011 to R\$2,539 billion. This variation was mainly due to the deconsolidation of the FDIC balances as a result of the restructuring in December 2012 and by the working capital increase of R\$400 million. Long-term loans and financing represented 7.3% of total liabilities, compared to 12.3% in December 31, 2011.

Debentures – long term

Long-term debt represented by debentures issued by the Company declined 30.5% in 2013, from R\$3.741 billion in 2012 to R\$2.599 billion, mainly reflecting the transfer from long to short term and the maturity of the debentures issued.

On December 31, 2013, long-term debentures accounted for 6.8% of total liabilities, against 10.7% on December 31, 2012.

In 2012, long-term indebtedness represented by debentures issued by the Company was up by 75.0%, from R\$2,138 billion in 2011 to R\$3,741 billion. This variation was mainly due to the 11th debenture issue by Via Varejo and Nova Pontocom worth R\$900 million, aimed at extending the Company's debt profile from short to long term. On December 31, 2012, long-term debentures accounted for 10.7% of total liabilities, against 6.4% on December 31, 2011.

Deferred Income and Social Contribution Taxes

Deferred income and social contribution taxes decreased 6.7% in 2013, from R\$1.137 billion in 2012 to R\$1.061 billion, mainly reflecting the reversal of deferred liability taxes of R\$106 million on the purchase option exercised in the last quarter of 2013.

On December 31, 2013, deferred income and social contribution taxes accounted for 2.8% of total liabilities, against 3.3% on December 31, 2012.

In 2012, deferred income and social contribution taxes were up by 2.0%, from R\$1,115 billion in 2011 to R\$1,137 billion, due to goodwill amortization in the period. On December 31, 2012, deferred income and social contribution taxes accounted for 3.3% of total liabilities, unchanged from December 31, 2011.

Taxes Payable by Installments

Taxes payable by installments, including REFIS (tax installment payment program), were down by 10.9% in 2013, from R\$1.205 billion in 2012 to R\$1,073 billion. This decrease was due to the transfer from long term to short term.

On December 31, 2013, taxes payable by installments accounted for 2.8% of total liabilities, against 3.5% on December 31, 2012.

In 2012, taxes payable by installments, including REFIS (tax installment payment program), were down by 6.8%, from R\$1.292 billion in 2011 to R\$1.205 billion. This decrease was due to the transfer from long term to short term. On December 31, 2012, taxes payable by installments accounted for 3.5% of total liabilities, against 3.9% on December 31, 2011.

Provision for lawsuits

Provision for lawsuits increased by 48.2% in 2013, from R\$774 million in 2012 to R\$1.148 billion. This variation was mainly due to: (i) Additions of R\$452 million; (ii) Reversals and payments of R\$285 million; (iii) Monetary restatement of R\$87 million; and (iv) Provision for contingent liability assumed in the acquisition of companies in the amount of R\$119 million.

On December 31, 2013, provisions for lawsuits accounted for 3.0% of total liabilities, against 2.2% on December 31, 2012.

In 2012, provision for lawsuits increased by 13.9%, from R\$680 million in 2011 to R\$774 million. This variation was mainly due to: (i) Additions of R\$267 million; (ii) Reversals and payments of R\$241 million; and (iii) Monetary restatement of R\$67 million. Our provision for lawsuits represented 2.2% of total liabilities, versus 2.0% on December 31, 2011.

Shareholders' Equity

Shareholders' Equity increased 14.9% in 2013, from R\$11.068 billion in 2012 to R\$12.712 billion. This variation was mainly due to: i) Additions of R\$16 million representing the exercise of stock options, ii) Stock option reserves in the amount of R\$43 million, iii) Net income of R\$1,396 billion, iv) Dividends of R\$436 million and v) Capital transactions with non-controlling shareholders of R\$625 million.

On December 31, 2013, shareholders' equity accounted for 33.4% of total liabilities, against 31.8% on December 31, 2012.

In 2012, shareholders' equity increased by 9.6%, from R\$10.094 billion in 2011 to R\$11.068 billion. This variation was mainly due to: i) Additions of R\$21 million representing the exercise of stock options; ii) Stock option reserves in the amount of R\$45 million; iii) Net income of R\$1.156 billion; iv) Dividends of R\$252 million; and v) Other amounts of R\$3 million. On December 31, 2012, shareholders' equity accounted for 31.8% of total liabilities, against 30.2% on December 31, 2011.

Minority interest

In 2013, minority interest grew by 25.5%, from R\$2.573 billion in 2012 to R\$3.229 billion, reflecting the public offering of Units comprising one (1) common share and two (2) preferred shares issued by the subsidiary Via Varejo.

In 2012, minority interest grew by 4.2%, from R\$2.469 billion in 2011 to R\$3.229 billion, reflecting the public offering of Units comprising one (1) common share and two (2) preferred shares issued by the subsidiary Via Varejo.

Other Equity Accounts

Equity accounts not mentioned above did not record relevant variations between the balances of December 31, 2013, December 31, 2012 and December 31, 2011.

10.2 Operating and financial result

- (a) *results from operations, particularly:*
- (i) *description of any relevant component of our revenue*

The Group's main revenues arise from GPA foods' operations, comprised by self-service retail and wholesale, electronics transactions (bricks-and-mortar stores of Via Varejo) and e-commerce (Nova

Pontocom). The Group's net revenues are shown in the table below for the years ended December 31, 2013, 2012 and 2011.

(R\$ million)	Net Revenue		
	2013	2012	2011
GPA Consolidated	57.730	50.924	46.594
GPA Food	31.688	28.078	25.578
Retail	25.414	23.439	21.676
Cash and Carry	6.273	4.639	3.902
Bricks and mortar	21.746	19.438	17.828
NovaPontocom	4.297	3.409	3.189

(ii) *factors affecting materially our operating results*

For information on the factors affecting materially our operating results, see item 10.1 (h) of this Reference Form.

(b) revenue variations due to changes in prices, exchange rates, inflation, changes in volume and the launching of products and services

For information on revenue variations, see item 10.1 (h) of this Reference Form.

(c) impact of inflation, variations in the price of our main inputs and products, foreign exchange and interest rates on our operating and financial results

In addition to item “b,” above, the Company believes that depreciation or appreciation of Real against the US dollar affects and may continue to affect its operating results from imports, which accounted for around 2.4% of sales in 2013, 2.8% in 2012 and 2.6% in 2011.

In 2013, Company’s financial result was mainly impacted by charges on net bank debt and the receivables sale cost, which was offset by the higher profitability of cash and cash equivalents from other revenues in the financial result, such as the prepayment of installments.

10.3 Events with material effects occurring and expected in the financial statements

(a) introduction or sale of an operating segment

On December 31, 2013, there were no changes in the Group’s operating segments.

(b) creation, acquisition or sale of shareholding

Until October 31, 2013, Via Varejo and Casa Bahia Comercial Ltda. (“CB”) were partners in Bartira, holding interests of 25% and 75%, respectively. Since the inception of partnership between the Company and CB (November 1, 2010), the Group had the option to buy the remaining 75% (call option), with an exercise period between three and six years as of the partnership.

At October 31, 2013, the Via Varejo’s Shareholders’ Meeting approved the subsidiary Via Varejo’s call option exercise to buy the remaining interest in Bartira (“Call Option”), followed by an exercise notification sent to CB on November 1, 2013. The transfer of Bartira’s quotas took place on December 2, 2013. The call option exercise price paid on November 1, 2013 was R\$212 million. After this transaction, the subsidiary Via Varejo now holds 100% of Bartira’s capital stock.

The fair value of interest previously held (25%) was measured on the acquisition date, under IFRS 3 (R), CPC 15 (R1), through the discounted cash flow method, totaling R\$17 million. The fair value of re-measurement of investment previously held compared to the investment’s carrying amount resulted in a gain of R\$100 million, recorded under “Other operating revenue and expenses”.

Therefore, the consideration transferred to the business combination is calculated by (i) the call option exercise price in the amount of R\$212,273; (ii) the fair value of call option held by the Company immediately prior to business combination, in the amount of R\$314,456; and (iii) the re-measurement at fair value of investment previously held, amounting to R\$175,576.

At December 27, 2013, the Via Varejo's Secondary Public Offering of Share Certificates or Units (each Unit is composed of one common share and two preferred shares) was concluded. Considering the overallotment, a total amount of one hundred, twenty-three million, six hundred,

ninety-six thousand, nine hundred, eighty-four (123,696,984) Units were offered, totaling R\$2,845,030.

The Company sold a total amount of thirty-eight million, nine hundred, ninety-one thousand, four

hundred, forty-one (38,991,441) Units for R\$896,803, so that its interest in Via Varejo decreased to 62.25% of common shares and 43.35% of total capital. The proceeds from such divestment were recorded against equity, as this is a transaction with non-controlling shareholders, less income tax on capital gain, transaction costs and write-off of related investments. The net effect in equity deriving from this transaction was R\$199,598.

Also pursuant to Clauses 4.1.3 and 10.1.4.2 of the Shareholders' Agreement, a Sufficient Minimum Fragmentation was verified, considering the fulfillment of the following conditions cumulatively: (i) CB Group (represented by Messrs. Samuel Klein, Michael Klein and Mrs. Eva Lea Klein, and other entities) sold more than 23.64% of their shares representing Via Varejo's capital stock; and (ii) Via Varejo's total free float reached a level higher than 20% of total capital. On this present date, CB Group holds 27.31% of shares representing Via Varejo's capital and its free float reached 29.34% of total.

(c) *unusual events or operations*

In regard to the work of the external consultants announced to the market by the Company on October 16, 2012 and by Via Varejo on May 23 and August 7, 2013 and also in relation to legal counsel and experts hired (External consultants), we inform that the work were concluded in October 2013, thereby allowing the management to conduct negotiations to finalize discussions between the parties.

Management analyzed all the corporate, legal and economic aspects and the Company, CB and Via Varejo signed a Private Transaction Agreement that determined the irrevocable settlement of the matters related to the external consultants. As a result Via Varejo and the Company recognized in the income statement of 2013 the effects of the issues related external consultants (see Note 30 to the Financial Statements for the fiscal year ended December 31, 2013), also as a consequence of the transaction received indemnifications from partners amounting R\$85.0 million, comprising R\$27.7 million related to amounts receivable recorded by Via Varejo and R\$57.3 million related to receivables considered as contingent until then and, therefore, not recorded. The Company also wrote off receivables considered as not refundable by the parties totaling

R\$54.7 million and recognized other impacts of R\$8.3 million. Consequently, there will be no additional accounting adjustments in relation to this matter and the amounts receivable of R\$134.1 million (see Note 13 to the Financial Statements for the fiscal year ended December 31, 2013) are expressly considered as refundable in the association agreement.

There were no unusual events or operations in the fiscal year ended December 31, 2013.

10.4 Significant changes in accounting practices – reservations and emphases in the auditor’s opinion

(a) significant changes in accounting practices

The Company prepared its financial statements pursuant to all pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC) and IFRS, being the financial statements of the fiscal year of 2010 the very first financial statements prepared according to the rules mentioned hereon.

In the fiscal years ended December 31, 2013, 2012 and 2011, there were no significant changes in the accounting practices adopted by the Company.

(b) significant effects of changes in accounting practices

In the fiscal years ended December 31, 2013, 2012 and 2011, there were no significant effects as a result of changes in the accounting practices.

(c) reservations and emphasis in the independent auditor's report

There were no reservations in the report issued by Company’s independent auditor on the financial statements for the fiscal years ended December 31, 2013, 2012 and 2011.

Additionally, they contain the following matter of emphasis:

2013, 2012 and 2011

The independent auditor’s report on the financial statements for the fiscal years ended December 31, 2013, 2012 and 2011 included the following matter of emphasis related to the differences between the pronouncements issued by CPC and IFRS, regarding the separate financial statements of the parent company, as transcribed below:

“As mentioned in Note 2, the individual financial statements were prepared in accordance with the accounting practices adopted in Brazil. In the case of the Company, the practices differ from IFRS, applicable to separate financial statements, only to the equity method valuation applied for investments in subsidiaries, associates and joint ventures. For IFRS, these investments would be measured at cost or fair value. Our opinion is not reserved in reason of this matter.”

10.5 Critical accounting policies

Judgments, estimates and assumptions

The preparation of the individual and consolidated financial statements requires that the management makes judgments, estimates and assumptions that affect the amounts stated of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at year-end, however, uncertainties relating to these assumptions and estimates may produce results that require substantial adjustments to the accounted amount of the asset or liability affected in future periods. In the process of applying the Company's accounting policies, management has adopted the following judgments, which have the most significant effect on the amounts recognized in the individual and consolidated financial statements:

a) *Financial lease agreements - Group as lessee*

The Group has entered into commercial property lease agreements in its leased property portfolio and, based on an evaluation of the terms and of conditions of the agreements, it retains all the significant risks and of rewards of ownership of these properties and recorded the agreements as financial lease.

b) *Impairment*

According to the method disclosed in Note 4 i) of the Financial Statements referring to the fiscal year ended December 31, 2013, the Group performed test to verify that the assets might not be recoverable and in the fiscal year ended December 31, 2013, based on those tests, there was no need for the provision.

The procedure for verification of non-recoverability of property and equipment, consisted in allocating operating assets and intangible assets (such as Commercial rights) directly attributable to the Cash Generating Units – UGC (stores). The steps of the test were as follows:

- Step 1: compared the carrying amount of CGUs with a multiple of sale (15% to 30%), representing transactions between retail companies. For CGUs multiple-valued lower than the carrying amount, we come to a more detailed method, described in Step 2;
- Step 2: we prepared the discounted cash flow of CGU, using sales growth between 6.6% and 6.7% for the next five years. The discount rate used was 10.8%.

For the purposes of impairment testing, the goodwill acquired through business combinations and licenses with indefinite lives was allocated to four cash generating units which are also operating segments that report information, namely, retail, electronics and home appliances, cash and carry and E-commerce.

The recoverable value of segments is calculated based on the value in use from cash projections deriving from financial budgets approved by top management for the next three years. The discount rate before income taxes applied to cash flow projections is 10.8% (10.8% as at December 31, 2012), and cash flows exceeding the three-year period are extrapolated applying a growth rate of 6.5% (6.7% as at December 31, 2012). As a result of this analysis, the Company did not identify the need of recording provision for asset impairment.

The cash and carry wholesale brand refers to “ASSAI”, electronics and home appliance brands refer to “PONTO FRIO” and “CASAS BAHIA”. These brands were recorded upon the business combinations carried out with companies holding rights over them.

The value was submitted to an asset impairment testing through the Income approach - Relief from Royalty methodology, which consists of calculating the value of an asset by measuring the present value of future benefits. Given the brand’s indefinite useful life, we considered a perpetual growth of 6.5% when preparing the discounted cash flows. Royalty rates were 0.4%, 0.7% and 0.9% for “ASSAI”, PONTO FRIO” and “CASAS BAHIA” brands, respectively.

c) *Income taxes*

Given the nature and complexity of the business, the differences between actual results and assumptions, or future changes to such assumptions, could result in future adjustments to already recorded tax revenue and expenses. The Company and its subsidiaries record provisions, based on reasonable estimates, for the eventual consequences of audits by the tax authorities of the respective jurisdictions in which it operates. The amount of these provisions is based on various factors, such as previous tax audits and different interpretations of tax regulations by the taxpayer and the appropriate tax authority. Such differences in interpretation may refer to a wide range of issues, depending on the conditions prevailing in the respective entity's domicile.

Deferred income and social contribution tax assets are recognized for all unused tax losses to the extent that it is probable that taxable income will be available against which to offset the tax credits. Significant Management judgment is required to determine the amount of deferred income and social contribution tax assets that can be recognized, based on income estimates and future taxable income, according to the strategic planning approved by the Board of Directors.

The Company and its subsidiaries' tax losses carry forward amounting to a tax benefit of R\$793,633 at December 31, 2013 (796,771 at December 31, 2012). These losses do not expire; therefore their use is limited by law to 30% of taxable income for each year. The amounts relate to the Company and its subsidiaries that have tax planning opportunities for the use of these balances.

d) *Fair value of derivatives and other financial instruments*

When the fair value of financial assets and liabilities recorded in the financial statements cannot be obtained in active markets, it is determined according to the hierarchy set by technical pronouncement CPC 38 (IAS39), which establishes certain valuation techniques, including the discounted cash flow model. The data for these models are obtained, whenever possible, from observable markets or from information on comparable operations and transactions in the market. The judgments include the analyses of data, such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors may affect the reported fair value of financial instruments.

The fair value of financial instruments actively traded on organized markets is determined based on market quotes and at the end of the reporting periods. For financial instruments not actively traded, the fair value is based on valuation techniques defined by the Company and compatible with usual market practices. These techniques include the use of recent market arm's length transactions, the benchmarking of the fair value of similar financial instruments, the analysis of discounted cash flows or other valuation models.

When the fair value of financial assets and liabilities recorded in the balance sheet cannot be observed in active markets, it is determined by means of valuation techniques, including the discounted cash flow method. The inputs used by these methods are collected from the market, where applicable. When these inputs are not available, judgment is required to determine the fair value. This judgment considers liquidity risk, credit risk and volatility. Changes in assumptions for these factors may affect the fair value of the financial instruments.

e) *Share-based Payment*

The Company measures the costs of transactions with employees eligible to share-based remuneration based on the fair value of the equity instruments on the grant date. Estimating the fair value of share-based payment transactions requires determining the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs for the valuation model, including the expected useful life of the stock options, volatility and dividend yield, as well as making assumptions about them. The assumptions and models used to estimate the fair value of share-based payment transactions are disclosed in note 27 (f) to the Financial Statements for the year ended December 31, 2013.

The fair value of each option granted is estimated on the granting date, by using the options pricing model “Black&Scholes” taking into account the following assumptions: (a) expectation of dividends of 0.88% (0.81% at December 31, 2012), (b) expectation of volatility of nearly 28.91% at December 31, 2013 (33.51% at December 31, 2012) and (c) the risk-free weighted average interest rate of 10.86% at December 31, 2013 (10.19% at December 31, 2012). The expectation of remaining average life of the series outstanding at December 31, 2013 was 1.70 year (1.64 year at December 31, 2012). The weighted average fair value of options granted at December 31, 2013 was R\$62.59 (R\$51.19 at December 31, 2012).

f) *Provision for lawsuits*

The Company and its subsidiaries are parties to several judicial and administrative proceedings, see note 24 to the Financial Statements for the year ended December 31, 2013. Provisions for legal claims are recognized for all cases representing reasonably estimated probable losses. The assessment of the likelihood of loss takes into account available evidence, the hierarchy of laws, former court decisions and their legal significance, as well as the legal counsel’s opinion. The management concluded that the provisions for tax, civil and labor claims are adequately presented in the parent company and consolidated financial statements.

g) *Allowance for doubtful accounts*

The subsidiary Via Varejo has balances receivable from sales via payment vouchers. Estimated losses on this portfolio are calculated according to the expected percentage, which is obtained through the observation of the portfolios’ trend over the past months.

h) *Recoverable taxes*

The Company and its subsidiaries have recoverable taxes balances mainly related to ICMS, ICMS Tax Replacement, PIS and Cofins. These taxes are realized based on the growth projections, operating issues and credit consumption by the Group’s companies. For more details on credits and their offset, see Note 12 to the Financial Statements for the fiscal year ended December 31, 2013.

i) *Provisional Measure 627/13*

In November 2013, the Provisional Measure (MP) 627 was issued, introducing changes in the tax rules and eliminating the Transitional Tax System (RTT). The Company, supported by its external advisors, analyzed the provisions of this MP, the implications of early option exercise and the impacts in the financial statements for the fiscal year ended December 31, 2013, concluding that there are no material effects to be recorded.

This analysis should be reviewed by the management when enacted the Law, since there may be adjustments or changes to your final draft.

10.6 Internal controls relating to financial reporting - level of efficiency and deficiency and recommendations in the auditor's report

(a) *efficiency level of these controls, indicating any failures and measures adopted to correct them*

Management is liable for establishing and maintaining effective internal controls over the preparation and disclosure of the financial information, noting that said internal controls are destined to offer reasonable guarantees to Company's Board of Directors with regards to the adequate preparation and presentation of Company's financial statements.

After evaluating the effectiveness of Company's controls on procedures for preparation and reporting at the end of the fiscal year ended December 31, 2013, the Management concluded that, on that date, controls and procedures for preparation and reporting were efficient to provide a reasonable guarantee that information required to be disclosed by us in reports filed or presented in accordance with applicable legislation and applicable regulations is registered, processed, summarized and reported within specific terms laid out by standards and CVM forms, free of material weaknesses or relevant deficiencies, while also accumulated and reported to Management so that to allow appropriate decisions in relation to the required preparation and reporting.

The Fiscal Council also plays an important role of evaluating Company's internal control systems and examining procedures for auditing, accounting and management through discussions with Management and the internal and independent auditors.

(b) *deficiencies and recommendations for internal controls mentioned in the independent auditor's report*

In risk assessment by external auditors (Deloitte Touche Tohmatsu) are considered internal control relevant to the preparation and fair presentation of the financial statements in order to plan audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal controls, and for the year ended December 31, 2013 no material weaknesses or significant deficiencies were detected.

10.7 Allocation of resources from public offers and any deviations

(a) *how proceeds obtained with the offer have been used*

The Company did not carry out public distribution offerings in the years ended December 31, 2013, 2012 and 2011.

(b) *if there were any relevant deviations between the effective application of resources and application proposals disclosed in the prospectus of the respective offering*

Not applicable

(c) *if there were any deviations, please mention the reasons*

Not applicable

2. Fiscal Council: up to R\$ 840,000.

The Section 13 of the Reference Form of the Company is attached to this management proposal in compliance with Article 12, item II, of CVM Instruction 481/2009.

This is our proposal.

São Paulo, March 5th, 2014.

BOARD OF OFFICERS

2 Considering that the installation of the Fiscal Council depends on the shareholders' request at the Annual and Special Shareholders' Meeting, its remuneration was predicted at the budget in case the shareholders decide to install it.

Exhibit to the Proposal of Management and Fiscal Council Global Remuneration

(Item 13 of the Reference Form, ICVM 480/2009)

13.1 Description of the compensation policy or practice, including Statutory and Non-Statutory Board of Executive Officers the Fiscal Council, Statutory Committees and Audit, Risk, Financial and Compensation Committees, as follow:

(a) *objectives of the remuneration policy or practice*

The objective of this remuneration policy or practice is to remunerate Company's management and committee members in line with market practices, allowing the Company to attract and retain qualified professionals, in addition to promoting their engagement with the Company.

(b) *Compensation breakdown, including*

i. description of the elements that compose the compensation and the purpose of each of them

The members of the Board of Directors and committees, including external members and members of the Fiscal Council receives fixed monthly compensation, unlinked of effective participation in meetings. This form of compensation is aligned in relation to market practice in general and the Company's interests.

The compensation of Executive Officers consists of the following elements: (i) fixed remuneration reflected in a base salary, with the purpose of ensuring compliance with the general market practice; (ii) profit sharing plan, with the purpose of encouraging professionals to seek the success of the Company and of sharing Company's results with them; and (iii) a stock option plan, which is an incentive offered to Company's executives in order to ensure a sustainable and long-lasting business.

ii. the proportion of each element in the total compensation

The table below shows the proportion of each element of the total compensation for the fiscal year ended December 31, 2013:

	<i>% of total compensation</i>			
	Base Salary	Variable Remuneration	Stock Option Plan	Total
Board of Directors	100%	0%	0%	100%
Board of Officers	38.49%	38%	23.51%	100%
Fiscal Council	100%	0%	0%	100%

iii. methodology for the calculation and readjustment of each element of the compensation

In order to determine the compensation of the management and committee members, we regularly conduct market research to evaluate if the parameters and conditions we adopt to determine the fixed compensation are satisfactory and enable us to retain Company's professionals, as well to analyze the need to propose adjustments to any component of remuneration which may be misaligned.

These surveys are conducted annually by recognized expert advice and market contracted by us, and use as benchmarks the major economic groups operating in the country, including in particular, the groups that operate in the retail sector

The profit sharing portion allocated to the Executive Officers, on the other hand, is computed based on indicators aligned to the Company's strategic planning, determined in line with Company's business plan and the goals to be met.

For additional information on Company's stock option plan please refer to item 13.4 below.

iv. reasons that justify the composition of the compensation

What justifies the breakdown of Company's compensation policy is Company's result-oriented strategy, which depends on the continuous search for competent, qualified, dedicated and valuable professionals for the Company.

(c) key performance indicators considered in determining each element of the compensation

For setting the variable portion of remuneration, we consider performance indicators that we consider strategic, as gross sales, net income, total expenditure, working capital, engagement and turnover, beyond the level of excellence of managers in performing their functions, considering the degree of responsibility and individual assignments. Performance indicators are not taken into consideration for determining the proportion of fixed remuneration.

(d) *the way the compensation is structured to reflect the evolution of the performance indicators*

We structure Company's compensation through programs that monitor the accomplishment of goals previously determined by the Company and the results effectively met

(e) *the way the compensation policy or practice is aligned with the Company's short, medium and long-term interests*

For short, medium and long-term interests, we offer to the Executive Officers a fixed compensation (base salary) and a variable compensation (profit sharing and stock option plans).

The compensation of the members of the Board of Directors, Fiscal Council and other committees is readjusted based on the amount usually paid in the industry, encouraging such professionals to maintain the excellence in exercising their functions and to strive for the improvement of Company's results. Therefore, we understand that the compensation policy or practice is aligned with Company's short, medium and longterm interests.

(f) *existence of compensation supported by subsidiaries or direct or indirect controlling shareholders*

The compensation of the management and committee members is supported exclusively by the Company.

(g) *existence of any compensation or benefit connected to the occurrence of a determined corporate event, such as the transfer of the Company's controlling stock*

No compensation or benefit is paid to the management or committee members in connection with the occurrence of corporate events.

13.4 Share-based compensation plan of the Board of Directors and Statutory Board of Executive Officers

On December 31, 2012, the Company had one stock-option plan, which was approved at a Special Shareholders' Meeting held on December 20, 2006 ("Stock Option").

Company's stock option plan is managed by a committee elected by Board of Directors, named Stock Option Management Committee ("Stock Option Committee"). This committee establishes the employees to periodically benefit from the stock options, based on the duties, responsibilities and performance, establishing the applicable conditions.

In addition to managing the Stock Option Plan, the Stock Option Committee is responsible for selecting the executives and the employees that are entitled to the options, in addition to determining the terms and conditions of each stock option agreement applicable to each beneficiary, including, but not limited to, the number of shares to be acquired, the acquisition conditions and prices, and the respective payments means.

The Board of Executive Officers and some high-skill employees receive stock-based payments as part of their compensation. We recognize expenses with stock-based compensation on the fair value of premiums as of the grant date.

The Stock Option Plan includes only preferred shares issued by the Company.

a. General Terms and Conditions

Company's Stock Option Committee usually develops annual cycles for the granting of options. Each granting cycle receives a serial number initiated by the letter A, starting from "Series A1". In the year ended December 31, 2013, the options granted in Series A5 to the A7 are in full effect.

The options granted in the Stock Option Plan are divided into "Gold" and "Silver" options, which implies a change in the options' exercise price, as explained in item (i) below.

The Stock Option Committee established during the year 2013 new criteria to calculate the reduction and/or increase index (reducer or accelerator) for the number of options granted and classified as "Gold" in each series of the Stock Option Plan, according to the analysis of the concept of return on invested capital (ROIC).

In accordance with item 3.3 of the Stock Option Plan, the Committee has decided that from Series A6, including, the increase or decrease of the number of "Gold" options shall be determined based on CBD's "Return on Capital Employment".

There is no limit to the reduction or acceleration approved this new criteria. On vesting of the option will be calculated the average ROIC/ROCE of the last 3 fiscal years, in opposite of the ROIC/ROCE determined at the grant of each series.

b. Plan's Main Objectives

The objectives of the Stock Option Plan are: (i) to attract and retain highly qualified executives and professionals in the Company; (ii) to allow executives and employees to own Company's capital stock and the equity additions arising from the results said executives, employees and contractors have contributed to; and (iii) to align the interests of executives and employees with the interests of Company's shareholders, encouraging the good performance of these professionals and ensuring Company's management continuity.

c. The Way the Plan Contributes to the Achievement of these Goals

The Stock Option Plan beneficiaries are encouraged to generate more results for the Company so that they achieve their goals as executives and employees of the Company, and for the shares received as compensation to have their value increased over time.

d. The Way the Plan is included in the Company's Compensation Policy

The Stock Option Plan is an element of the compensation of Company's executives, and it is in line with the compensation policy, which goal is to retain executives and employees and to encourage better results.

e. The Way the Plan Aligns the Interests of the Executives and of the Company in the Short, Medium, and Long terms

As the options are granted every year and based on Company's results, we understand the Stock Option Plan is in line with Company's short-term interests, since it encourage the beneficiaries to achieve their individual goals and the Company's goals. Furthermore, it also retain Executive Officers and beneficiaries of the Stock Option Plans, in addition to attracting new professionals, which is in line with Company's medium-term interests. Finally, as mentioned in item (j) herein, the beneficiaries of the Stock Option Plan will only be apt to exercise their options after a certain time working with the Company, which encourages them to generate better results in the long term so their shares gain value, in addition to retaining them for a longer period, in line with Company's long-term interests

f. Maximum Number of Shares Involved

The maximum number of shares included in the Stock Option Plan is 15,500,000 preferred shares (as resolved by the Board of Directors at the meeting held on February 19, 2013).

The amount indicated above shall always observe the authorized capital limit of the Company and may be changed at any time by the Board of Directors. When the call options are exercised, it is issued new shares to the beneficiaries, observing Company's right to use treasury shares.

g. Maximum Number of Options to be Granted

There is no maximum number of options to be granted within the scope of the Stock Option Plans, provided that the total number of shares resulting from their exercise does not surpass the limit indicated in item (f) above and the limit of 2% of Company's capital stock per Series.

h. Conditions for the Acquisition of Shares

The Stock Option Committee will determine, for each Series and in each case if necessary, the terms and conditions for the acquisition of the right to exercise granted options, by means of an express provision in the subscription agreement signed by the beneficiary.

In order to acquire shares of the Stock Option Plans, the beneficiaries shall remain bound to the Company for a specific period, pursuant to item (j) below, except for the cases of termination of employment described in item (n) below.

The options shall be fully or partially exercised up to the expiration date of the respective option. For further information on the options' expiration dates currently in effect, please refer to item 13.6 below.

i. Criteria for Setting the Acquisition or Exercise Price

For the options classified as “Silver”, the exercise price per preferred share shall correspond to the average of the closing price of the preferred shares issued by the Company and traded in the last 20 sessions of the BM&FBOVESPA prior to the date the Stock Option Committee resolves on the granting of the option. After the average price is determined, a negative goodwill of 20% shall be applied.

For the options classified as “Gold”, the exercise price will be R\$0.01 per preferred share.

j. Criteria for Determining the Exercise Price

As general rule for the Stock Option Plan, which may be amended by the Committee on each series, the right to exercise the stock option shall mature after the 36th month and up to the 48th month following the execution of the respective subscription agreement, the beneficiary will have the right to acquire 100% of the shares for “Silver” options. The exercise of the “Gold” options will happen in the same period, but the percentage of said options subject to exercise will be determined by the Stock Option Committee in the 35th month following the date of execution of the respective subscription agreement.

The options granted in both Stock Option Plans shall be fully or partially exercised. It is worth mentioning that “Gold” options supplement “Silver” options, and, therefore, “Gold” options shall only be exercised together with “Silver” options.

k. Settlement Means

The exercise price of the options granted under the Stock Option Plan shall be fully paid in local currency by the beneficiary, being that the exercise price shall be paid in cash and in one installment, 30 days following the date of subscription of the respective shares, except for the cases of termination of employment of the beneficiary described in item (n) below, in which case the exercise price shall be paid in cash upon subscription.

l. Restrictions to the Transfer of Shares

The Stock Option Committee shall set restrictions to the transfer or trading of the shares obtained through the exercise of the options.

m. Criteria and Events That, When Verified, Shall Result in the Suspension, Amendment or Termination of the Plan

The number of shares to be acquired in the Second Plan's "Gold" Series, as explained in item (j) above, shall be limited by the Stock Option Committee.

The Stock Option Plan and the options granted shall be automatically extinguished if the Company is dissolved or liquidated.

Finally, the Stock Option Committee shall determine the suspension, amendment to or termination of the Stock Option Plan without the prior consent of the beneficiaries, provided that their rights and obligations are not harmed.

n. Effects of the Executive's Leaving the Company on his Rights Provided for in the Stock-Based Compensation Plan

In the case of involuntary termination of employment by any Executive Officer or employee beneficiary of the Stock Option up to the last working day of the 35th month following the date of execution of the respective subscription agreement, the right to exercise 100% of the "Silver" and "Gold" options will be granted. In this case, the limit determined by the Stock Option Committee shall not apply for the number of shares resulting from the exercise of the "Gold" options, described in item (j) above, and the total number of shares initially determined by the Committee shall be subject to exercise.

In the case of involuntary termination of employment by any Executive Officer or employee beneficiary of the Stock Option from the last working day of the 35th month to the last working day of the 48th month following the date of execution of the respective subscription agreement, the right to exercise 100% of the "Silver" and "Gold" options will also be granted. In this case, however, the limit determined by the Stock Option Committee will remain applicable for the number of shares resulting from the exercise of the "Gold" options, described in item (j) above.

In both cases, the beneficiaries shall communicate their intention to exercise the options granted to them within up to 15 days following the date of termination of employment.

In the case of voluntary termination of employment of any Executive Officer or employee beneficiary of the Stock Option and/or termination with cause, pursuant to the Brazilian labor law, the right to exercise the "Silver" and "Gold" options will not be granted.

In the case of death or permanent disability of any Executive Officer or employee beneficiary of the Plan, the rules for involuntary termination of employment described above shall apply, and the exercise shall be carried out by a person duly authorized by the appropriate authority.

13.9 Brief description of the information necessary for the understanding of the data disclosed in items “13.6” to “13.8”, and explanation of the pricing method used for the shares and options

a. Pricing Method

The fair value of each option granted is estimated on the grant date using the *Black-Scholes-Merton* options pricing model

b. data and premises used in the pricing model, including the average weighted price of the shares, exercise price, expected volatility, option term, expected dividends, and risk-free interest rate

The market price of each granted option is estimated on the grant date using the *Black-Scholes-Merton* options pricing model, considering the following premises for the options in effect in 2013:

	<u>On the grant date</u>
Average weighted price of the shares (per share), according to the average value of the last 20 trading sections on the grant date	Series A4: R\$ 58.11 Series A5: R\$ 68.36 Series A6: R\$ 80.16
Exercise price	Series A7: R\$ 100.00 Series A4 “Gold”: R\$ 0.01 Series A4 “Silver”: R\$ 46.49 Series A5 “Gold”: R\$ 0.01 Series A5 “Silver”: R\$ 54.69 Series A6 “Gold”: R\$ 0.01 Series A6 “Silver”: R\$ 64.13 Series A7 “Gold”: R\$ 0.01 Series A7 “Silver”: R\$ 80.00
Expected updated volatility	28.91%

Options term	Four years
Expected dividends	0.88%
Risk-free interest rate	10.86%
Fair value of the option on the grant date (per option)	Please check 13.6 above

c. Method and Premises Used to Incorporate the Expected Effects of Early Exercise

We do not take into account, for purposes of pricing the options, early exercises resulting from involuntary termination of employment, death or permanent disability of the beneficiary, and as a result of corporate events.

We adopt the premise that the options will be exercised from the moment they become exercisable. Therefore, the options term adopted in the calculations ranges from 1 to 5 years, depending on the series and the corresponding vesting periods of the options.

d. How the Expected Volatility is Determined

In calculating the expected volatility, we used the standard deviation of the natural logarithms of the historic daily variations of the prices of the shares issued by the Company, according to the effective term of the options.

e. Other Characteristics Incorporated in the Measurement of the Options' Fair Value

Up to the end of the vesting period, the non-exercisable options are considered as call options in the calculations made using the *Black-Scholes-Merton* method. When they become exercisable, the options are considered as put options, that is, exercisable at any time up to the expiration date.

13.10 Information on pension plans granted to the members of the Board of Directors and the Board of Executive Officers

Third Paragraph - In the event of vacancy of the position of Fiscal Council member, if there is no alternate member, a General Meeting will be called to elect a member for the vacant position.

ARTICLE 32 - The Fiscal Council shall have the powers and duties conferred upon it by law and the Internal Regulation of the Fiscal Council.

First Paragraph - The Fiscal Council holds quarterly general meetings and extraordinary meetings whenever necessary.

Second Paragraph - Meetings are called by the Chairman of the Fiscal Council on his own initiative or per written request of any of its members.

Third Paragraph - The resolutions of the Fiscal Council shall be made by absolute majority vote of those in attendance. In order for a meeting to be instituted, the majority of the members must be present.

Fourth Paragraph - The members of the Fiscal Council shall participate in the committee's meetings by telephone or video conference call, or any other electronic means of communication, and shall be considered present at the meeting. Immediately after the meeting is over, the members must confirm their votes through a written declaration sent to the Chairman of the Fiscal Council by conventional mail, fax, or electronic mail. Upon receipt, the Chairman of the Fiscal Council shall be empowered to sign the minutes of the meeting on behalf of its members.

ARTICLE 33 - The compensation of the members of the Fiscal Council shall be fixed by the General Shareholders' Meeting in which they are appointed, with due observance of the legal limit.

CHAPTER VI

CORPORATE YEAR AND FINANCIAL STATEMENTS

ARTICLE 34 - The fiscal year ends on December 31 of each year, when the balance sheet and financial statements required by applicable law shall be prepared.

ARTICLE 35 - The Company may, at the discretion of the Executive Officers Committee, prepare quarterly or semi-annual balance sheets.

CHAPTER VII
PROFIT DESTINATION

ARTICLE 36 Upon the preparation of the balance sheet, the following rules shall be observed with respect to the distribution of the profits:

I - from the profits of the fiscal year shall be deducted, before any allocation of net income, the accumulated losses and the provision of the income tax;

II - After deducting the portions described in item I above, the portion to be distributed in the form of employee profit sharing shall be deducted, as determined by the Board of Directors, in compliance with the Profit Sharing Program and under the terms and according to the limits provided in items "j" and "k" of Article 18 herein;

III - in due compliance with the terms and limits established in paragraphs of Article 152 of Law No. 6,404/76 and the limit established in item "k" of Article 18 herein, the amount corresponding to the managers in the Company's profits shall be deducted, as determined by the Board of Directors, in compliance with the Profit Sharing Program;

IV - the remaining net profits shall have the following destination:

a) 5% (five per cent) shall be allocated to the legal reserve fund until such reserve reaches the limit of 20% (twenty per cent) of the Capital Stock;

b) amounts to the formation of the reserve for contingencies reserve, if so decided by the General Shareholders' Meeting;

c) 25% (twenty five per cent) shall be allocated to the payment of the mandatory dividends pursuant to First Paragraph below, in accordance with the provisions contained in first and second paragraphs of Article 5 herein;

d) the profit not provisioned in the reserve described in Second Paragraph below and not allocated in accordance with the provisions of Article 196 of Law No. 6404/76 shall be distributed as additional dividends.

First Paragraph –The mandatory dividends shall be calculated and paid in accordance with the following rules:

a) the basis for calculation of the dividends payable shall be the net profit of the fiscal year, less the amounts allocated to the legal reserve and the contingency reserves and plus the amount obtained from the reversion of the reserves of contingencies formed in the previous fiscal year;

b) the payment of the dividend calculated in accordance with the provisions of the previous item may be limited to the amount of the net profit effectively realized of the fiscal year for that has ended pursuant to the law, provided that the difference is registered as reserve for profits to be realized;

c) the profits registered in the reserve for profits to be realized, when accrued and if such profits have not been absorbed by the losses in the subsequent fiscal years, shall be increased to the first declared dividends after such realization.

Second Paragraph - It is hereby created, the Reserve for Expansion, which purpose shall ensure resources for financing additional investments in fixed assets and working capital and to which shall be allocated up to 100% of the remaining profits after the deductions and destinations established in items "a", "b" and "c" of item IV above. The total amount provisioned in such reserve shall not exceed the total amount of the Company's Capital Stock.

Third Paragraph - If duly authorized by the Board of Directors, the Company may elect to distribute interim dividends, ad referendum by the General Shareholders' Meeting.

Fourth Paragraph - The Company may elect to pay or credit interests as remuneration of its own capital calculated on the accounts of the net worth, in due observance of the rate and limits determined by law

ARTICLE 37 - The amount of dividends shall be placed at the shareholders disposition within a maximum term of sixty (60) days as from the date of their allotment, and may be monetarily adjusted, if so determined by the Board of Directors, subject to the applicable legal provisions.

ARTICLE 38 - The financial statements and accounts of the Company shall be audited on an annual basis by internationally recognized independent accountants.

CHAPTER VIII

LIQUIDATION

ARTICLE 39 - The Company shall be liquidated in the cases provided by law, and the General Shareholders' Meeting shall determine the form of liquidation, appoint the liquidator and the members of the Fiscal Council, which shall operate during the liquidation, and establish their compensation.

CHAPTER IX
FINAL PROVISIONS

ARTICLE 40 –The values in U.S. Dollars mentioned herein shall be exclusively used as reference for monetary update and shall be converted in Reais using the average exchange rate for the U.S. Dollar published by the Central Bank of Brazil.

ARTICLE 41 - The cases not regulated in these by-laws shall be solved in conformity with current applicable legislation.

ARTICLE 42 - The present by-laws shall come into effect as of the date of its approval by the General Shareholders Meeting.

EXHIBIT II

Report detailing the grounds and justification of the proposed amendments

The proposed modifications shall be the hereunder:

(a) Insertion of secondary activities at Company's Scope: Amendment of Article 2nd, first paragraph, in order to include the accomplishment of secondary activities by the Company, for purposes to gain registration at public body (City hall of São Paulo). As per the proposal, the following activities would be included: "x) Agency, brokerage or intermediation of coupons and tickets; and, y) Services related to billing, receipts or payments, of coupons, bills or booklets, rates, taxes and for third parties, including those made by electronic means or by automatic teller machines; supply of charging position, receipt or payment; issuing of booklets, forms of compensation, printed and documents in general"

(b) Matters subject to approval of General Meeting: Amendment of Article 9th in order to exclude some matters currently included at General Shareholders Meeting's competence, for purposes to allow more celerity and efficiency to the execution of Company's business. As available at comparative frame herein attached as Exhibit III, the matters excluded from General Shareholder's Meeting competence were: (i) Undertaking or modification of any agreement or settlement between the Company and/or its affiliates and any of its controlling shareholders or their relatives, members of its management bodies or any of its controlled companies and affiliates thereto; (ii) approval of self-bankruptcy or of protection under any bankruptcy or reorganization law; (iii) approval of any delisting of shares of the Company for trading on stock exchanges; (iv) the approval of any change in the Company's dividend policy; (v) the approval of any financial arrangements under determined circumstances; (vi) the approval of any joint venture of the Company under determined circumstances

(c) Mandate of Members of Company's Board of Directors and Company's Board of Officers: Amendment of Article 12th, Paragraph 1st, in order to change Officer's mandate to two years, for purposes to comply with BM&FBovespa Corporate Governance Guidance Level 1. [3]

[3] Attention is made that the Guidance Level 1 established a period of three years for the market to adapt its bylaws for this requirement : *"10.5 – Transitory Dispositions for Companies Already Listed. Companies that have already shares issued under negotiations at Level 1 of Corporate Governance at the date of this Guidance enters into full force, May 10, 2011, have the period of three years, starting from the date hereto, to adapt its bylaws and to fulfill the provisions set forth on items 4.3 and 4.5 of the Guidance."*

(d) Reduction of Maximum number for members of Board of Directors: Amendment of Article 13th to establish that the Board of Directors shall be composed for, at top, 12 members. The management of the Company understands that there is not necessary to keep and Board that may maintain 18 members.

(e) Vacancy at a chair of Company's Board of Director Member: For purposes to better celebrity and best operational of Company's bodies, we propose to amend Article 13th, sole paragraph, in order to establish that in the event of vacancy of a board member, the Board itself shall be able to elect a substitute until the termination of the remaining mandate period. The hypothesis of temporary absence or impeachment of board members are now established at Article 16, second paragraph, for purposes to improve the provisions of Company's Bylaws.

(f) Absence or impeachment of the Board of Directors' Chairman: Amendment of Article 14, sole paragraph, for the event of absence or impeachment of the Board of Directors' Chairman, he may be substituted by the Board's Vice-Chairman. The amendment's grounds seek to improve the substitution process.

(g) Summoning of Board of Directors Meetings: Amendment of Article 15, first paragraph, in order to establish the meeting shall be always summoned by the Chairman, in compliance with best organization of meetings' functioning. Additionally, and for the same purpose, we propose to amend the second paragraph o the same provision for purposes of: (i) the summoning may be by electronic means; (ii) exclusion the requirement of 3 days window between first and second summoning. Lastly, we propose the amendment of the third paragraph of the same provision, establishing half of Board's members as a minimum quorum required to hold a Board's meeting, in first summoning, and any number at second summoning.

(h) Chairmanship of Board of Directors Meeting: Amendment of Article 16 in order to establish that the vice-chairman may preside board meetings in the absence of the chairman.

(i) Choice of Independent Auditors: Amendment of Article 18, Item "g", so the Board of Directors, under its powers to choose the independent auditors, may observe the recommendation of the Audit Committee.

(j) Matters subject to approval of Board of Directors: In compliance with the proposal to amend article 9th, hereon detailed on item "a", we propose the amendment of article 18, item "n", "o" and "p" in order to reflect the cap value for those items (in connection with US Dollars equivalent to Brazilian Reais / percentage of net asset) in order to empower the Board of Directors, and not the General Meeting anymore, to approve: (i)

the acquisition, sale, disposal or creation of any lien on any asset, (ii) any financial arrangement; (iii) the joint venture of the Company with third parties involving investment of determined matters. Under the terms of the management proposal, such provisions, as mentioned on item “b” of this report, would be excluded from the list of competences of General Meetings to ensure celerity at Company’s business operational by its management.

(k) Deliberations in connection with controlled companies or invested companies: Insertion of provision (article 18, first paragraph), in order to extend the powers of the board of directors to those provisions set forth on items “n”, “o” and “p”, of article 18 to also comprehend controlled companies and invested companies. Hence, the Board of Director will be empowered to provide guidance of vote of the elected managers or indicated by the Company to hold chairs at board of directors or board of officers of such controlled companies or invested companies.

(l) Policy for Transactions with Related Parties: Insertion of second paragraph in order to establish the Board of Directors approved a Policy for Transactions with Related Parties, in compliance with the best rank of corporate governance. Hence, it was removed the item “q” of Article 18 and item “XII” of article 9^a which brought the competence for the Board of Directors and General Meeting to approve any proposal referred to undertaking any agreement or settlement between the company and any related party, excluded those accomplished under Company’s ordinary business. [4]

(m) Number of members for the Audit Committee: Amendment of Article 19 in order to settle the Committee to have, at least, 3 and, at top, 5 members, for purposes to best suit the operational of Company’s auxiliary bodies.

(n) Mandate of the Members of the Audit Committee: Amendment of Article 20 in order to settle a mandate of two years for members of Audit Committee, lining up with the mandate of members of Company’s Board of Directors and Board of Officers.

(o) Operational of Audit Committee in the event of summoning the Fiscal Council: As per the relevance of the powers given to Audit Committee at Company’s management auxiliary body, we propose to amend Article 21 for, in the event of summoned Fiscal Council, the Audit Committee shall preserve its powers, observed the competence established for Fiscal Council.

(p) Exclusion the definition of Special Committees: Amendment of Article 22 in order to allow the Board of Directors to establish special committees with more flexibility, under the best interest of the Company to help its management and in compliance with the best practice of corporate governance.

(q) Amendment of the rules in connection with Board of Officers operational: Amendment of Article 23 in order to establish that, within its members, one member shall be appointed to be the CEO, other shall be appointed to be the Investor Relations Officer, and further shall be indicated to be Vice Presidents. Amendment of Article 27, item “c”, in order to exclude the mandatory chairmanship of the CEO at board of officers meetings. Amendment of Article 29, in order to establish that the Company may be represented jointly by two of any of the officers. These amendments were proposed to improve internal rules of Company’s management operational, in compliance with the best practices of corporate governance and celerity.
