and Independent Auditors' Report Review

Report on review of interim financial information

To

The Board members and Officers

Braskem S.A.

Camaçari - Bahia

Introduction

We have reviewed the accompanying interim financial information, individual and consolidated, of Braskem S.A. (“the Company”), included in the Quarterly Financial Information – ITR for the quarter ended March 31, 2015, comprising the balance sheet as of March 31, 2015 and the related statements of income and comprehensive income, changes in equity and cash flows for the three-month period then ended, including the explanatory notes.

Management is responsible for the preparation and fair presentation of this individual interim financial information in accordance with Technical Pronouncement CPC 21(R1) – *Demonstração Intermediária* (Interim Financial Statement) and the consolidated interim financial information in accordance with CPC 21(R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board – IASB, and presentation of this interim financial information in accordance with the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Quarterly Financial Information – ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of the review

We have conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of the managers responsible for financial and accounting matters, and use of analytic procedures and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and, thus, we were unable to obtain reasonable assurance that we became aware of all significant matters that might have been identified in an audit. Accordingly, we do not express an audit opinion on this interim financial information.

Conclusion on the individual interim financial information

Edgar Filing: BRASKEM SA - Form 6-K

Based on our review, nothing has come to our attention that causes us to believe that the individual interim financial information included in the aforementioned quarterly information has not been prepared, in all material respects, in accordance with CPC 21(R1) applicable to the preparation of Quarterly Financial Information – ITR and presented in a consistent manner with the rules issued by the Brazilian Securities and Exchange Commission (CVM).

Conclusion on the consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the consolidated interim financial information included in the aforementioned quarterly information has not been prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, issued by IASB, applicable to the preparation of Quarterly Financial Information – ITR and presented in a consistent manner with the rules issued by the Brazilian Securities and Exchange Commission.

Others matters

Statement of value added

We have also reviewed the individual and consolidated statements of value added (DVA) for the three-month period ended March 31, 2015, preparation of which is the Company's Management's responsibility, whose presentation in the interim financial information is required in accordance with the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the Quarterly Financial Information, and considered as supplemental information by IFRS, which do not require the presentation of the statement of value added. The aforementioned statements have been submitted to the same review procedures as the ones described earlier herein and, based on our review, we are not aware of any fact that would lead us to believe that they have not been fairly prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.

Corresponding figures

The corresponding figures related to the balance sheets, individual and consolidated, as of December 31, 2014 have been previously audited by other independent auditors who issued auditors' report dated February 12, 2015, without modification, and the individual and consolidated statements of income and comprehensive income, changes in equity and cash flows for the three-month period of the quarter ended March 31, 2014 have been previously reviewed by other independent auditors who issued a review report dated May 7, 2014, without modification.

Braskem S.A.

Notes to the financial statements

at March 31, 2015

All amounts in thousands of reais, unless otherwise stated

1. Operations

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia (“BA”), which jointly with its subsidiaries (hereinafter “Braskem” or “Company”) is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

(a) Significant corporate and operating events impacting these financial statements

On December 31, 2013, the parent company entered into a share sales agreement with Odebrecht Ambiental (“OA”), through which it sold its interest in the subsidiary Distribuidora de Águas Triunfo S.A. (“DAT”) for R\$315,000. On February 3, 2014, the Extraordinary Shareholders’ Meeting of DAT approved the change in its management and consequently the transfer of the management of the operations from Braskem to OA, upon the recognition of a gain of R\$277,338 (“Other operating income (expenses), net”).

Other corporate events of 2014 and which did not produce significant impact on these financial statements were presented in the 2014 annual financial statements of the Company in Note 1(a).

(b) Naphtha agreement with Petrobras

On August 29, 2014, Braskem and Petrobras entered into a new amendment to the naphtha supply contract of 2009, which extended the original contract duration by 6 months (from September 1, 2014 to February 28, 2015). The naphtha pricing formula of the original contract was temporarily maintained until the execution of a new long-term contract. It was also established that, if a new long-term contract was to be executed, the pricing formula in the new contract would be applied retroactively to any purchases made during the duration of the amendment. On the other hand, if a new long-term contract was not executed, the average price base negotiated between the parties would be

valid throughout the duration of the amendment. After applying the average price scenario, it was determined that Braskem was entitled to a refund of R\$242,900 related to amounts paid over the duration of the amendment. This amount was recorded under “Cost of goods sold” in the statement of operations for the current period.

On February 27, 2015, Braskem and Petrobras executed a new amendment to the naphtha supply contract of 2009. The amendment is valid through August 31, 2015, and maintained the naphtha pricing formula provided for in the original contract. The amendment also established that if a new price formula is adopted in a new contract, it will be applied retroactively to any purchases made during the duration of said amendment. As of the date on which the issue of these financial statements was authorized, Braskem and Petrobras had not concluded their negotiations of a new contract.

(c) Net working capital

On March 31, 2015, Consolidated net working capital was negative R\$1,000,424 (positive R\$677,907 on December 31, 2014), while the Parent Company posted a negative R\$2,448,557 (negative R\$726,012 on December 31, 2014). The negative result on March 31, 2015 was caused chiefly by the increase in “Trade payables”, driven by the depreciation of the Brazilian real against the U.S. dollar (20.77% in the first quarter of 2015).

Braskem S.A.

Notes to the financial statements

at March 31, 2015

All amounts in thousands of reais, unless otherwise stated

As part of its working capital management, Braskem relies on revolving credit facilities, maturing in 2019, in the amount of R\$2,900,000 (US\$750 million + R\$500,000). These credit facilities may be withdrawn at any time.

2. Summary of significant accounting policies

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2014 financial statements.

2.1. Basis of preparation

This Quarterly Information should be read together with the financial statements of Braskem as of December 31, 2014, which were prepared and presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of the quarterly information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies. There were no significant changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2014 financial statements.

2.1.1 Consolidated and parent company quarterly information

The consolidated Quarterly Information was prepared and is being presented in accordance with the pronouncements CPC 21 and IAS 34 - Interim Financial Reporting, which establish the minimum content for interim financial statements. The parent company information was prepared and is being presented in accordance with CPC pronouncement.

The individual and consolidated Statement of Value Added (“DVA”) is required under Brazilian corporations law and under the accounting practices adopted in Brazil for public companies. IFRS does not require the presentation of this statement. As a result, under IFRS, it is presented as supplementary information, without prejudice to the set of financial statements.

All amounts in thousands of reais, unless otherwise stated

2.2. Effect of exchange variation

(a) Functional and presentation currency

The functional and presentation currency of the Company is the real

(b) Functional currency other than the Brazilian real

Some subsidiaries and the jointly controlled subsidiary have a different functional currency from that of the Parent Company, as follows:

	Functional currency
Subsidiaries	
Braskem Alemanha, Braskem Austria and Braskem Austria Finance	Euro
Braskem America, Braskem America Finance, Braskem Holand Finance and Braskem Holanda Inc	U.S.dollar
Braskem Holanda	U.S.dollar
Braskem Idesa , Braskem Idesa Serviços, Braskem México and Braskem México Serviços	(i) Mexican peso
Jointly-controlled investments	
Propileno Del Sur S.A. ("Propilsur")	U.S.dollar

(i) The functional currency adopted for Braskem Holanda was changed from the Brazilian real to the U.S. dollar on January 1, 2015, due to significant volume of financial and commercial transactions in U.S. dollars, particularly with the beginning of Naphtha sales in 2015.

(c) Exchange variation effects

The main effects from exchange variation that impacted these financial statements are shown below:

	Mar/2015	End of period rate		Average rate for period ended

(b.ii) Non-derivative liabilities designated for export hedge accounting**(b.ii.i) Future exports in U.S. dollars**

On May 1, 2013, Braskem S.A. designated non-derivative financial instrument liabilities, denominated in U.S. dollars, as hedge for the flow of its highly probable future exports. Thus, the impact of exchange rates on future cash flows in dollars derived from these exports will be offset by the foreign exchange variation on the designated liabilities, partly eliminating the volatility of results.

Hedged exports amounted to US\$6.757.231, as shown below:

(b.ii.ii) Liabilities related to the Project Finance of future sales in U.S. dollar

On October 1, 2014, Braskem Idesa designated its liabilities related to Project Finance, denominated in U.S. dollar, as hedge instruments to protect highly probably future sales flows. Therefore, the impact of exchange variation on future cash flows in U.S. dollar derived from these sales in dollar will be offset by the exchange variation on the designated liabilities, partially eliminating the volatility in the results of the subsidiary.

On March 31, 2015, hedged sales and the maturities of financial liabilities amounted to US\$2,878,936 thousand and were distributed as follows

Total nominal value

	US\$ thousands
2016	60,862

14.4. Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On March 31, 2015, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- Libor floating interest rate;
- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Selection of scenarios

(b.1) Probable scenario

The Market Readout published by the Central Bank of Brazil on March 27, 2015 was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate and the CDI interest rate, using the reference date of March 31, 2015. The Market Readout presents a consensus of market expectations based on a survey of the forecasts made by various financial and non-financial institutions. According to the Market Readout, at the end of 2015, the U.S. dollar will appreciate by 26.12% against the Brazilian real compared to end-2014, and the CDI rate will reach 11.75%.

The probable scenario for the TJLP is an increase of 0.50% from the current rate of 5.5%, in line with the size of the government's most recent decisions to increase or decrease the rate, while the CDI rate shows an increase of 1.0% by the end of 2015. The Market Readout does not publish forecasts for the Libor interest rate. Therefore, to determine the probable scenario, Braskem considered a 5% increase on current market levels.

(e) Law 12,973 of May 13, 2014

Federal Law 12,973 of May 13, 2014, created from the conversion of Provisional Presidential Decree 627 of November 11, 2013, among others, revoked the Transitional Tax System (RTT) and included additional measures, notably:

- (i) Changes in the federal tax laws related to income tax (IR) and social contribution (CSLL), PIS/PASEP and COFINS taxes in order to align tax accounting with corporate accounting;
- (ii) provisions on the calculation of interest on equity;
- (iii) considerations on investments valued using the equity method of accounting;
- (iv) provision regarding the tax treatment of dividends calculated based on the results in the period from January 2008 to December 2013; and
- (v) provisions regarding new rules on taxation of profits earned abroad. The provisions in this law are applicable from 2015, except in the event of early adoption in 2014.

Later, in the fourth quarter of 2014, Brazil's Federal Revenue Service issued several normative instructions to regulate the provisions of Federal Law 12,973, most notably IN 1,515/14, which specifically addressed the effects of the cancellation of RTT, and IN 1,520/14, which regulated the provisions on taxation of profits earned abroad.

With regard to the exercise of the option to apply the effects of Law 12,973, the Company opted to anticipate the effects of the cancellation of the transitional tax system (RTT) under IN 1,515/14 in calendar year 2014.

20. Contingencies

(a) Allegations

In early March 2015, declarations made by defendants in lawsuits filed against third parties were made public, in which Braskem and two of its former executive officers were cited in allegations of supposed improper payments between 2006 and 2012 to benefit the Company in raw-material supply agreements entered into with Petrobras. As of the date of publication of these financial statements, to the knowledge of the management, Braskem has not received any notification of the filing of any proceeding or investigation by Brazilian or U.S. authorities.

In light of such facts, the Company's Management and Board of Directors approved in April the internal plan for investigation into the allegations ("Investigation") to be carried out by law firms experienced in similar cases in the United States and in Brazil. The law firms will work under the coordination of an ad hoc committee formed by members of its Board of Directors, specially created for this purpose.

In addition, the following measures have already been taken:

- (i) Voluntary announcement about the Investigation and periodical updates sent to regulatory agencies of capital markets in Brazil (Securities and Exchange Commission of Brazil - CVM) and the United States (Securities and Exchange Commission – SEC, and the Department of Justice - DOJ);
- (ii) Publication of two Material Fact notices and one Notice to the Market to clarify the news reports and to keep shareholders and the market informed of actions taken by the Company; and
- (iii) Updating the Audit Board and external auditors about the progress of the Investigation and of the actions already taken.

Braskem and its subsidiaries are subject to a series of anticorruption and anti-bribery laws in the countries where they operate. To reduce the likelihood of infringement of such laws, a series of procedures and controls were implemented and are continuously being improved.

On the other hand, if any of the allegations proves to be true, the Company may be subject to material penalties envisaged in law. At this moment, the Company Management believes that it is not possible to estimate the duration or outcome of the Investigation and, consequently, whether it will have any impact on future financial statements.

The Management is committed to taking all the necessary measures to clarify the facts and will keep the market informed of any progress on this matter.

(b) Other Contingencies

In addition to the event mentioned in the previous item, Braskem has other contingent liabilities related to lawsuits and administrative proceedings arising from the normal course of its business. These contingencies are of a labor and social security, tax, civil and corporate nature and involve risks of losses that are classified as possible by the Management of the Company.

In the quarter ended March 31, 2015, there were no material events or changes in the provisions reported on December 31, 2014.

The description of the main contingent liabilities of the Company was presented in the 2014 annual financial statements, in Note 22.
