**ISSUER DIRECT CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)**

**Note 1.**

**Accounting Policies**

**Basis of Presentation**

The unaudited interim balance sheet as of March 31, 2009 and statement of operations and cash flows for the three month periods ended March 31, 2009 and 2008 included herein, have been prepared in accordance with the instructions for Form 10-Q under the Securities Exchange Act of 1934, as amended (the Exchange Act), and Article 10 of Regulation S-X under the Exchange Act. In the opinion of the management, they include all normal recurring adjustments necessary for a fair presentation of the financial statements. Results of operations reported for the interim periods are not necessarily indicative of results for the entire year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations relating to interim financial statements. The interim financial information should be read in conjunction with Issuer Direct Corporation's (the Company's) 2008 audited financial statements filed on Form 10-K.

Certain reclassifications have been made to prior period amounts to conform to the current period presentation. All reclassifications have been applied consistently for the periods presented.

**Going Concern**

We have incurred losses since inception and have a working capital deficit of \$68,871 and an accumulated deficit of \$1,362,405 at March 31, 2009, which raises substantial doubt about our ability to continue as a going concern. We have funded our operations and marketing efforts since inception through the issuance of debt and equity securities. Should we require additional funds and if we are unable to acquire such funds, our ability to continue as a going concern will be severely impacted. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**Note 2.**

**Summary of Significant Accounting Policies**

**Earnings per Share**

We comply with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share, which requires dual presentation of basic and diluted earnings per share. Basic EPS excludes dilution and is computed by dividing income (loss) available to common stockholders by the weighted-average common shares outstanding for the year. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were

exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. Diluted loss per share for the quarter ending March 31, 2009, gives effect to the 3,892 shares issuable upon conversion of the shares of preferred stock (556 common shares for each of 7 preferred shares) that were outstanding during the period. As the fully diluted loss per share for the comparable 2008 period was anti-dilutive, no effect was given to the preferred shares for the 2008 period.

#### **Allowance for Doubtful Accounts**

We provide an allowance for doubtful accounts, which is based upon a review of outstanding receivables as well as historical collection information. Credit is granted to most customers on an unsecured basis. In determining the amount of the allowance, management is required to make certain estimates and assumptions. During the quarter ending March 31, 2009, we recorded bad debt expense totaling \$10,803, and permanently wrote off \$11,947 of amounts previously written off, net of recoveries. Accordingly, our allowance for doubtful accounts decreased slightly from \$43,764 at December 31, 2008 to \$42,620 at March 31, 2009. There was no change in our allowance for doubtful accounts from December 31, 2007 to March 31, 2008.

**ISSUER DIRECT CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the allowance for doubtful accounts and the valuation of goodwill and intangible assets. Actual results could differ from those estimates.

**Income Taxes**

We comply with SFAS No. 109, Accounting for Income Taxes, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred income tax assets to the amounts expected to be realized.

At the end of each interim period, we estimate the effective tax rate we expect to be applicable for the full fiscal year and this rate is applied to our results for the interim year to date period. Based upon our evaluation of possible future events and transactions, expected changes to our valuation allowance and utilization of our net operating loss carryforwards, we currently estimate our effective rate for the 2009 fiscal year will be 0%.

Our policy regarding the classification of interest and penalties recognized in accordance with FIN 48 is to classify them as income tax expense in its financial statements, if applicable.

**Fair Value Measurements**

On January 1, 2008 we adopted SFAS No. 157, Fair Value Measurements for financial assets and liabilities. SFAS 157 applies to reported balances that are required or permitted to be measured at fair value under an existing accounting pronouncement. SFAS 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability and establishes a fair value hierarchy. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value:

As of March 31, 2009 and December 31, 2008, we do not have any accounts that are required to be or that we elected to measure at fair value.

In February 2008, the FASB issued FSP FAS 157-2, *Effective Date of FASB Statement 157*. FSP FAS 157-2 delayed the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. For the instruments subject to the effective date delay under FSP FAS 157-2, we adopted the fair value provisions in this first quarter of 2009. Our assets and liabilities that will be subject to FAS 157 during 2009 include our intangible assets, consisting of goodwill, domain names and software, and our long-lived assets. Based on our evaluation of this statement, the adoption of FSP 157-2, did not have a significant impact on the determination or reporting of our financial results.

We believe that the fair value of our financial instruments, which consist of cash and cash equivalents, accounts receivable, accounts payable, and unsecured notes payable approximate their carrying amounts. The interest rates payable on our notes approximate market rates on similar borrowings at March 31, 2009.

### **Recent Accounting Pronouncements**

The adoption of recently issued accounting pronouncements did not have a material effect on our financial position or results from operations. We do not expect recently issued accounting pronouncements that are not yet effective will have a material effect on our financial position or results of operations upon adoption.

## ISSUER DIRECT CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)**Note 3:****Notes payable - other**

As of March 31, 2009 and December 31, 2008, we had unsecured notes payable outstanding totaling \$27,398 and \$64,828, respectively, as follows:

	<b>March 31,</b>	<b>December 31,</b>
	<b>2009</b>	<b>2008</b>
Unsecured Note Payable in connection with the asset purchase agreement in March 2007, with interest of 8%, which was fully paid on January 28, 2009.	\$	\$ 35,000
Unsecured Note Payable in connection with the July 2, 2007 acquisition of Bassett Press, with interest of 8%, due and payable monthly, due on July 17, 2009.	27,398	29,828
	27,398	64,828
Less current portion	27,398	64,828
Total long-term notes payable- other	\$	\$

On January 28, 2009, we entered into a settlement and release agreement ( Agreement ) with the holder of the note payable that we issued in March 2007. Pursuant to the terms of the agreement, the holder agreed to accept \$35,000 in full payment of principal and interest, which was paid in full on January 28, 2009. We recognized a gain on settlement of debt of approximately \$16,900 as of December 31, 2008, when we reduced the carrying value of the debt pursuant to the settlement agreement.

**Note 4:****Notes payable related party**

As of March 31, 2009 and December 31, 2008, we had three unsecured related party notes payable outstanding, totaling \$73,525 as follows:

<b>March 31,</b>	<b>December 31,</b>
<b>2009</b>	<b>2008</b>

Note Payable to our Chief Executive Officer in the amount of \$25,000 for various obligations the former company was party to, including former legal counsel, former transfer agent and tax obligations with the state of Delaware. The unsecured note carries interest in the amount of 8% per annum and was due on December 31, 2008 or upon completion of a financing agreement totaling \$250,000. The note is in default at March 31, 2009, and the holder has the right to demand payment at any time. There are no penalties associated with the default.

\$	23,525	\$	23,525
----	--------	----	--------

Unsecured Note Payable to a Director of the Company in the amount of \$25,000, with interest of 8%, due on receipt by the Company or its designated escrow agent the placement agent funds of an aggregate of \$1,000,000 in gross proceeds of the Private Placement.

25,000	25,000
--------	--------

Unsecured Note Payable to a Director of the Company in the amount of \$25,000, with interest of 8%, due on receipt by the Company or its designated escrow agent the placement agent funds of an aggregate of \$1,000,000 in gross proceeds of the Private Placement.

25,000	25,000
--------	--------

Total notes payable- related party

\$	73,525	\$	73,525
----	--------	----	--------

**Note 5:**

**Preferred stock and common stock**

During the three months ended March 31, 2009, we issued 150,000 shares of our common stock to an employee under the terms of an employment agreement and paid \$6,750 to repurchase 2,250,000 shares from our former President shortly after his resignation, as follows:

## ISSUER DIRECT CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

	<b>Three months ended March 31, 2009</b>
Outstanding at January 1, 2009	18,834,717
Shares issued in settlement of obligation for services rendered in fiscal 2008	150,000
Repurchase of shares, subsequently retired	(2,250,000 )
Outstanding at March 31, 2009	16,734,717

In February 2009, we issued 150,000 shares of our common stock in connection with an employment agreement with a former officer of Bassett Press. The fair market value of the shares totaled \$25,000, or \$0.17 per share, which represents the closing price on the date of the agreement. These shares were issued pursuant to the employment agreement.

In February, 2009, our former President, who remains on our Board of Directors, sold 2,250,000 shares from his beneficial holdings in a private transaction for \$6,750 to the Company. The shares were retired, and we reduced paid in capital by \$4,500.

At March 31, 2009, we had seven outstanding shares of Series A Preferred Stock. Although the Certificate of Designation of the rights, preferences and limitations of the Preferred Stock provides for dividends equal to eleven percent (11.0%) per year on the liquidation preference of \$25,000 per share, we have not declared or accrued such dividends. These shares were issued by our predecessor company and the original documentation which would validate claims thereto is not available, and we are taking steps to retire the series. In April 2009, we issued 20,000 common shares to the holder of two preferred shares, for a value of \$100 each, in settlement of the stated value and any potential claims to accumulated dividends thereon. Additionally, under Delaware law dividends are an obligation only when declared, and the Board has not declared any dividends payable on the Series A Preferred Stock.

**Note 6:****Intangible Assets**

Included in intangible assets is \$50,000 of proprietary software of intellectual property acquired in July 2007, as part of the Bassett Press acquisition. At the date of the acquisition and through the year ended December 31, 2008, we

assigned an indefinite life to the proprietary software and included such software in our annual evaluation of impairment. During the first quarter of 2009, we reevaluated the useful life of the propriety software and have assigned a remaining estimated useful life of 6 years to such asset.

**Note 7:**

**Concentrations**

For the three-month periods ended March 31, 2009 and 2008, we earned revenues (as a percentage of total revenues) in the following categories:

	<b>Three months ended</b>	
	<b>March 31,</b>	
	<b>2009</b>	<b>2008</b>
<i>Revenue Streams</i>		
Compliance and reporting services	41.5%	61.9%
Printing and financial communication	22.2%	23.8%
Fulfillment and distribution	29.6%	11.7%
Software licensing	3.7%	2.6%
Transfer agent services	3.0%	
Total	100.0%	100.0%

**ISSUER DIRECT CORPORATION**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)**

One customer accounted for 41.8% of the operating revenues during the three month period ended March 31, 2009. Two customers accounted for 37.9% (19.6% and 18.3%) of our operating revenues during the three-month period ended March 31, 2008. At March 31, 2009, three customers accounted for 40.8% (17.4%, 13.0%, and 10.4%) of our total accounts receivable. As of December 31, 2008, two customers comprised 55.3% (41.0% and 14.3%) of our total accounts receivable.

We do not believe we had any financial instruments that could have potentially subjected us to significant concentrations of credit risk. A portion of our revenues are paid at the beginning of the month via credit card or in advance by check, the remaining accounts receivable amounts are generally due within 30 days, none of which is collateralized.

**Note 8:**

**Subsequent Events**

On April 1, we entered into an agreement with the holder of two shares of our Series A Preferred Stock to issue 20,000 shares of our common stock as a redemption fee in exchange for the two preferred shares and any interest or dividends accrued thereon.

## ITEM 2.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

*The discussion of the financial condition and results of operations of the Company set forth below should be read in conjunction with the consolidated financial statements and related notes thereto included elsewhere in this Form 10-Q. This Form 10-Q contains forward-looking statements that involve risks and uncertainties. The statements contained in this Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27a of the Securities Act and Section 21e of the Exchange Act. When used in this Form 10-Q, or in the documents incorporated by reference into this Form 10-Q, the words anticipate, believe, estimate, intend and expect and similar expressions are intended to identify such forward-looking statements. Such forward-looking statements include, without limitation, the statements regarding the Company's strategy, future sales, future expenses, future liquidity and capital resources. All forward-looking statements in this Form 10-Q are based upon information available to the Company on the date of this Form 10-Q, and the Company assumes no obligation to update any such forward-looking statements. The Company's actual results could differ materially from those discussed in this Form 10-Q. Factors that could cause or contribute to such differences ( Cautionary Statements ) include, but are not limited to, those discussed in Item 1. Business Risk Factors and elsewhere in the Company's Annual Report on Form 10-K, which are incorporated by reference herein and in this report. All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on the Company's behalf, are expressly qualified in their entirety by the Cautionary Statements.*

#### Overview

Issuer Direct Corporation (Issuer Direct Corporation and its business are hereinafter collectively referred to as Issuer Direct, the Company, We or Our unless otherwise noted), was formed in February 2006 as My Edgar Inc; a full-service provider of financial print and related compliance communications both online and in print. We acquired Edgarization, LLC and Basset Press in March and July 2007, respectively. In December 2007, we became publicly traded through a reverse merger transaction with Docucon Incorporated, a Delaware company. In December 2007, we changed our name to Issuer Direct Corporation.

Our mission is to alleviate the complexity of maintaining compliance and as a shareholder communication company; we are dedicated to assisting our corporate issuers in an ever-changing regulatory environment and to comply with the myriad of rules imposed by regulatory bodies. The majority of our business involves the distribution of content either electronically or paper to governing bodies and shareholders alike through our integrated back office systems and service platform.

We continue to focus on both the organic growth of our business segments as well as evaluating potential acquisitions that would complement our operations and accelerate our overall goals of market share and profitability.

#### Revenue Segments

The Company's core businesses operates within the financial compliance sector, including but not limited to financial reporting, print and production, proxy tabulation and solicitation as well as transfer agent functions. This set of services is designed to offer issuers a comprehensive set of solutions for communicating their messages to their audiences. Our product and service offerings are summarized below:

*Compliance and Reporting Services*- primarily consists of financial reports and other documents submitted to the Securities and Exchange through the EDGAR/IDEA system, and document typesetting, design layout and full production pre-press services for corporate issuers, law firms, funds and transfer agents. Our services extend beyond traditional Edgarization and into the next generation of dynamic reporting and xBRL conversion.

*Printing and Financial Communications* continues to gain significant growth quarter over quarter. With the expansion of our digital print management system, we added print-on-demand services to our traditional web press print production . We have established a competitive advantage in the market by bundling our short run service offering to issuers desiring to print what we refer to as one too many of any corporate documents or compliance filing.

*Direct Transfer* is our newest offering. As a corporate registrar and trust for issuers, we assist public companies with shareholder management, certificate issuance in both electronic form or through our secure digital system. We do not store certificates in paper form; we print all certificates in an on demand process, utilizing our

secure customer watermarked paper. Additionally, corporate issuers can generate certificate requests via our online interface, or choose to use other options and combine our iProxy Direct technology into traditional transfer agent functions. Corporate issuers can then communicate with shareholders in real time by utilizing our back office technologies and services.

*Fulfillment and Distribution* is driven principally by the demand for materials for proxy statements (annual and special meetings), shareholder requests, and fluctuations caused by notice and access. The demand for fulfillment and distributions is seasonal and increases significantly immediately following a period of annual report filings and related disclosures. The season typically begins late in the first quarter and ends in the second quarter of the calendar year.

*Software Licensing* is a vital offering that overlays our entire business. We are able to efficiently manage our issuers data, shareholders, communications and compliance requirements from one portal. As our systems continue to evolve to meet the growing needs of compliance and regulatory requirements, we are facilitating access to such management by our issuers by providing licenses to our platform. The majority of our software licensing revenue comes from our proxy technology that includes a voting platform via web, phone, fax and mail; coupled with real-time reporting and e-delivery options.

## Results of Operations

Management evaluates results by analyzing changes in revenue streams; however, gross margin (revenue less cost of revenue) is not measurable by revenue stream, therefore, we do not evaluate our business by segments.

### Revenues

Total revenue increased \$178,989, or 61%, during the three months ended March 31, 2009 as compared to the same period in fiscal 2008. Overall gross margin remained increased slightly to 55% in the fiscal 2009 quarter as compared to 53% in the fiscal 2008 quarter. The following tables display the change in revenue streams during the comparative quarters.

### Comparison of results of operations for the three months ended March 31, 2009 and 2008

	Three months ended		% change
	2009	2008	
<i>Revenue Streams</i>			
Compliance and reporting services	\$ 195,859	\$ 181,463	7.9%
Printing and financial communication	105,087	69,763	50.6%

Transfer agent services	14,050		
Total	\$ 472,532	\$ 293,350	61.1%

Revenue earned from each of our revenue streams increased in the quarter ending March 31, 2009, as compared to the comparable 2008 period. Revenues increased substantially in two of our revenue streams (printing and financial communication and fulfillment and distribution) during the fiscal 2009 period as a result of adding larger corporate issuers and mutual funds to our client base. Overall, the number of filers has decreased for the period ended March 31, 2009, but the volume of services required by each issuer was greater during the 2009 fiscal period compared to the period ended March 31, 2008. We believe this trend is a result of the challenges faced by very small issuers who are undercapitalized and unable to sustain operations. We also expect these competitive pricing pressures to continue through the year; however, we do not expect it to adversely affect our overall revenues.

Compliance and reporting service revenue increased 7.9% in the comparative quarters, reflective of an increase in the volume of services (pages converted, etc) processed for our issuers, but offset by lower unit prices for the same conversion services. The lower prices are a result of competitive price pressure in the market on these services.

Printing and financial communication revenue increased as a result of adding larger corporate issuers and mutual funds with significant communication requirements to their client base, as well as an increase in mergers and transactions that require shareholder communications (disclosure and voting). We believe that the financial services sector will continue to react to changing economic conditions and expect that transaction type work will continue to result in a large amounts of materials processed, fulfilled and mailed.

The largest revenue increase was in fulfillment and distribution revenue, which was principally a result of adding new customers as well as our adoption of the common industry practice of charging a processing fee for every shareholder record in a fulfillment project. We verify, and correct to the extent possible, shareholder information to the U.S. postal system records, and as a result, the number of mailed pieces for a single issuer's communication has increased, and at times, the increase has been fairly significant. Additionally, postal rates increased during fiscal 2009, and we increased our prices accordingly. These factors, combined with the addition of larger corporate issuers to our client base and transactional work, as discussed in the preceding paragraph, resulted in the 309.4 % increase in the fiscal 2009 quarter as compared to the fiscal 2008 quarter.

Fluctuations in market conditions typically cause communications to shareholders to rise, both in print or e-delivery. We have experienced equal increases in demand for our core services when market conditions worsen or improve. Significant downward market changes cause further disclosures and communications, increasing the demand for many of our core services such as shareholder mailings and press releases. Significant upward market changes result in a greater number of registration statements, prospectuses and communication, including news wire services.

Our transfer agent services did not have any revenue for the three months ended March 31, 2008. For the same period ended 2009, our transfer agent services generated 3% of our operating revenues, where as we expect to see a significant increase for the remaining fiscal 2009 year, primarily due to the ramp up time and infrastructure requirements necessary to support this service offering.

Software licensing revenues increased by 120% in the comparative quarters, as a result of our e-proxy technology and notice and access delivery platform being made available on a limited basis. We expect to spend a considerable amount of time in fiscal 2009 commercializing our software technologies into all of our revenue streams including financial reporting, and print and communication.

During the three months ended March 31, 2009, one customer accounted for 41.8% of our operating revenues. During the three months ended March 31, 2008, two customers accounted for 37.9% (19.6% and 18.3%) of our operating revenues.

Our actual results may differ substantially from those anticipated in any forward-looking statements included in this discussion as a result of various factors, including those set forth in Risk Factors which can be found in our most recent Annual Report on Form 10-K.

### ***Cost of Revenues and Gross Margin***

Cost of services consists of direct labor, third party software licensing, print production materials, postage and delivery, and outside services directly related to the delivery of services. Cost of services increased 55.4%, but less than the 61.1% increase in revenue during the quarter ending March 31, 2009 as compared to the quarter ending March 31, 2008. Our gross margin increased \$102,904, or 66.1%, and increased slightly as a percentage of total sales as we held our costs in proportion to our revenue growth.

Costs related to compliance and reporting service are related principally to direct labor costs and third party vendor costs, which we utilize to manage peak demand periods. We reduced our headcount devoted to these services by three persons in fiscal 2009 quarter as compared to the 2008 quarter and realized cost efficiencies as we utilized third party services only as needed.

Costs related to printing and financial communications fluctuate periodically, and we strive to maintain reasonable margins on for these services. Our costs for fulfillment and distribution increased during fiscal 2009 in accordance with rising postal rates as compared to fiscal 2008, and we pass these increases through to our customers as postal and mail fees for each proxy or mailed item. We expect this trend to continue as postal rates are set for increased during the second quarter of this fiscal year, and that both processing and mail fulfillment charges will rise accordingly.

Direct labor costs fluctuate with demand for fulfillment services, as we redeploy fulfillment labor to other areas during periods of weak demand.

We incur direct labor costs for software licensing as all development is performed in-house. To date, costs have not been significant, nor do we expect a significant increase in future periods.

To date, costs for transfer agent services have also been minimal, in proportion to this growing revenue stream. We will devote additional resources to this service offering as we expand these services in future periods.

### ***Operating Expenses***

#### *General and Administrative Expense*

General and administrative expenses consist primarily of salaries, insurance, fees for professional services, general corporate expenses and facility and equipment expenses. General and administrative expenses for the three-month period ended March 31, 2009 decreased \$359,247 to \$101,600 from \$460,847 for the comparable period in fiscal 2008. The higher costs in the 2008 period were principally a result of \$350,000 in stock-based compensation expense. We did not issue stock-based compensation awards in the 2009 period.

#### *Sales and Marketing Expenses*

Sales and marketing expenses consist primarily of salaries, sales commissions, sales consultants, advertising expenses, and marketing. Sales and marketing expenses for the three-month period ended March 31, 2009 increased slightly by \$4,215, or 8.3% as compared to the same period in fiscal 2008.

#### *Depreciation and Amortization*

Depreciation and amortization increased 92.7%, or \$4,488 during the three-month period ended March 31, 2009, from \$4,843 to \$9,331, due to a higher level of amortization of intangible assets in the 2009 period.

#### *Interest Expense*

Interest expense decreased by approximately \$26,000 as we had lower level of debt in the fiscal 2009 quarter as compared to the fiscal 2008 quarter. Additionally, the fiscal 2008 quarter included a one-time financing fee that was refunded in the second quarter of 2008.

#### *Net Income (Loss)*

Net income for the quarter ending March 31, 2009 totaled approximately \$91,000, as compared to a net loss of approximately \$389,000 in the same period in 2008. The favorable results were principally a result of the higher level of revenue and gross margin and limits put on stock compensation and other expenses in fiscal 2009.

### **Liquidity and Capital Resources**

As of March 31, 2009, we had approximately \$109,000 in cash and cash equivalents and \$128,000 net accounts receivable. Current liabilities at March 31, 2009, totaled \$317,000, including accrued payroll liabilities, accounts and notes payable, and accrued expenses. At March 31, 2009, our total assets exceeded our total liabilities by \$90,000. In January 2009, we paid fully repaid one note payable in the amount of \$35,000. In July 2009, another note payable matures and requires a final payment of \$25,000. As of March 31, 2009 we are in default on a \$23,525 note payable. Finally, two notes payable totaling \$50,000 to related parties will mature upon the completion of equity funding in

excess of \$1,000,000.

We manage our cash flow carefully with the intent to meet our obligations from cash generated from operations. However, it is possible that we will have to raise additional funds through the issuance of equity in order to meet our debt obligations. There can be no assurance that cash generated from operations will be sufficient to fund our operating expenses or meet our other obligations, and there is no assurance that debt or equity financing will be available, or if available, that such financing will be upon terms acceptable to us.

### **2009 Outlook**

The following statements and certain statements made elsewhere in this document are based upon current expectations. These statements are forward looking and are subject to factors that could cause actual results to differ materially from those suggested here, including, without limitation, demand for and acceptance of the Company's services, new developments, competition and general economic or market conditions, particularly in the domestic and international capital markets. Our 2009 Outlook does not reflect any additional acquisitions we may complete

during the period. Refer also to the Cautionary Statement Concerning Forward Looking Statements included in this report.

In fiscal 2009, we will focus on expanding our existing customer relationships as well as acquiring new customers. We expect our revenues to increase at a similar rate as that of fiscal 2008. Overall, we expect the increases will be in contract services such as transfer agency services, news wire services and proxy engagements. We believe that our unique offerings yield a competitive advantage in the marketplace even though we operate in a competitive sector. We anticipate further consolidation in the marketplace of financial printers and suppliers in 2009, which may result in pricing pressures; however, we believe our unique business segments will provide us the opportunity to increase our overall market.

Technological advancements - such as the electronic distribution of documents, online distribution and notice and access programs, as well as our unique print-on-demand technology will impact the markets we serve in 2009 and beyond and create a larger demand for our products and services. Looking forward we have accounted for the possible substitute of traditional printed materials for a more robust electronic delivery and online voting systems. To address these longer term industry concerns we have spent considerable amounts of time in specific segments of our business, building brands around Notice and Access, through our iProxy Direct systems, coupled with our partnership with GlobalMail that created our Issuer Logistics model.

#### **Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

#### **ITEM 3.**

#### **QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Not applicable

#### **ITEM 4T.**

#### **CONTROLS AND PROCEDURES.**

As of the end of the period covered by this quarterly report on Form 10-Q, the Company's Chief Executive Officer and Chief Financial Officer conducted an evaluation of the Company's disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934). Based upon this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective and have not changed since its most recent annual report.

## **PART II OTHER INFORMATION**

### **ITEM 1.**

#### **LEGAL PROCEEDINGS.**

From time to time the Company may become party to litigation or other legal proceedings that we consider to be a part of the ordinary course of business. We are not currently involved in any legal proceedings that we believe could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations.

### **ITEM 1A.**

#### **RISK FACTORS.**

There have been no material changes to our risk factors as previously disclosed in our most recent 10-K filing.

### **ITEM 2.**

#### **UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

In February 2009, we issued 150,000 shares of our common stock in connection with an employment agreement with a former officer of Bassett Press. The fair market value of the shares totaled \$25,000, or \$0.17 per share, which represents the closing price on the date of the agreement. These shares were issued pursuant to the employment agreement as restricted securities as defined under rule 144.

### **ITEM 3.**

#### **DEFAULTS UPON SENIOR SECURITIES.**

We are in default of the terms of our note payable in the amount of \$23,525 to our Chief Executive Officer.

### **ITEM 4.**

#### **SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.**

Not applicable.

### **ITEM 5.**

**OTHER INFORMATION.**

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subjected to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this quarterly report.
