 NOTES TO CONDENSED FINANCIAL STATEMENTS
 JUNE 30, 2014
 (unaudited)

NOTE 1: BASIS OF PRESENTATION:

The unaudited interim financial statements of AXIM Biotechnologies, Inc. as of June 30, 2014, and for the three month and six periods ended June 30, 2014 and 2013, have been prepared in accordance with United States generally accepted accounting principles. In the opinion of management, such information contains all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results of such periods. The results of operations of the six month period ended June 30, 2014 are not necessarily indicative of the results to be expected for the full year ending December 31, 2014.

Certain information and disclosures normally included in the notes to financial statements have been condensed or abbreviated as permitted by the rules and regulations of the Securities and Exchange Commission, although the Company believes the disclosure is adequate to make the information not misleading. The accompanying unaudited financial statements should be read in conjunction with the financial information of the fiscal year ended December 31, 2013.

NOTE 2: CHANGE OF CONTROL

Two new owners purchased most of the Company common stock and all of the preferred stock on March 21, 2014. As a part of that sale specified receivables, payables and accrued expenses were consolidated and transferred to a third party. Because the “Debt Settlement Agreement” was a part of the stock transfer agreement the net assigned debt was credited to paid in capital. This was done with the consent of all creditors.

Settlement of debt at point of sale:	
Accounts payable	(54,389)
Royalty payable	(2,750)
Shareholder loan	(45,002)
Allowance for doubtful accounts	(9,000)
License fee receivable	15,000
Paid in capital	96,141

The convertible loan in the amount of \$50,000 was also transferred and remains outstanding.

NOTE 3: RELATED PARTY TRANSACTIONS

From inception to June 30, 2014, the Company president advanced a total of \$ 45,002 to fund working capital needs. That amount was settled as a part of the “Debt Settlement Agreement.”

Effective November 26, 2012, the Company entered into a separate Convertible Loan Agreement with its President, under which it borrowed \$50,000, and is due December 31, 2014, and does not bear interest. The loan is convertible into common stock at \$.10 per share at the option of the lender any time after February 28, 2013. As of June 30, 2014 the loan has not been converted. The Company used the proceeds of this loan to fund the purchase of license rights under the November 26, 2012, agreement with Omega Research Corporation. The Convertible Loan was transferred to a third party.

On May 21, 2014, the Company President advanced an additional \$5,000 to the Company to fund working capital needs. This brings the total amount due to shareholder to \$55,000 as of June 30, 2014, including convertible loan.

NOTE 4. GOING CONCERN

The Company’s financial statements have been presented assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has negative working capital, has an accumulated deficit of \$ 161,403, and presently does not have the resources to accomplish its objectives during the next twelve months. These conditions raise substantial doubt about the ability of the Company to continue as a going concern. The financial statements do not include any adjustments related to the recoverability of assets and classification of liabilities that might be necessary should the Company be unable to continue in operation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statement Notice

Certain statements made in this Quarterly Report on Form 10-Q are "forward-looking statements" (within the meaning of the Private Securities Litigation Reform Act of 1995) regarding the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of AXIM Biotechnologies, Inc. ("we", "us", "our" or the "Company") to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. The Company's plans and objectives are based, in part, on assumptions involving the continued expansion of business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance the forward-looking statements included in this Quarterly Report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

Description of Business

We were incorporated in the State of Nevada on November 18, 2010, as AXIM International, Inc. (Inception). On July 24, 2014, we changed our name to AXIM Biotechnologies, Inc. to better reflect our business operations. Our principal executive office is located at 18 East 50th Street, 5th Floor, New York, NY 10022. In early 2014, we discontinued our organic waste marketable by-product business to focus on our anticipated new business to become an innovative biotechnology company working on the treatment of pain, spasticity, anxiety and other medical disorders with the application of cannabinoids based products as well as focusing on research, development and production of pharmaceutical, nutraceutical and cosmetic products as well as procurement of genetically and nano-controlled active ingredients.

Going forward, the Company's board of directors intends to broaden the current operations of the Company to include pharmaceutical products, manufacturing facilities, genetically controlled botanical products, extraction and purification of biomaterials technologies. These activities are anticipated to include the following:

- Supporting a clinical trial at the Free University of Amsterdam, The Netherlands in collaboration with the University of Plymouth, GB for a novel (patent pending) delivery form of cannabinoids for treatment of pain and spasticity in patients with multiple sclerosis. The anticipated duration of the trials prior to FDA/ EMA registration is 24 months.
- Conducting research trials of a novel delivery mechanism (patent pending) for treatment of patients with ADHD.
- Development of novel pharmaceutical and nutraceutical formulations including smoking cessation, cannabinoid based preparation.

- Contracting with Syncom BV, The Netherlands for provision of intellectual property for extraction, concentration and freeze-drying technology of active pharmaceutical ingredients based on cannabinoids. The anticipated duration of the trials is 4 months.
- A land purchase in the city of Almere, in the province of Flevoland, The Netherlands for building of a state of the art extraction facility as well as a factory for pharmaceutical and nutraceutical preparations.
- Importation from Italy, Spain and other reputable producers of pharmaceutical grade hemp oil to Europe and North America.
- Acquisition of a phytopharmaceutical company with extensive list of IP (intellectual property) from Spain.
- Development of sustainable biofuel compositions derived from industrial hemp by-products.

During the next twelve months we anticipate incurring costs related to:

- (i) filing Exchange Act reports, and
- (ii) contractual obligations

We believe we will be able to meet these costs through use of funds in our treasury, through deferral of fees by certain service providers and additional amounts, as necessary, to be loaned to or invested in us by our stockholders, management or other investors. As of the date of the period covered by this report, we have limited cash. There are no assurances that we will be able to secure any additional funding as needed. Currently, however our ability to continue as a going concern is dependent upon our ability to generate future profitable operations and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they come due. Management's plan includes obtaining additional funds by equity financing and/or related party advances; however there is no assurance of additional funding being available.

We are in our early stages of development and growth, without established records of sales or earnings. We will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies.

Liquidity and Capital Resources

With the exception of establishing joint venture operations with Alpha, our cash requirements for the next twelve months are \$ 26,000.

O t h e r c o n s u l t i n g f e e s	12,000
A u d i t a n d a c c o u n t i n g	10,000
M i s c e l l a n e o u s	4,000
Total	\$ 26,000

We estimate that our audit and accounting costs to be \$ 10,000 however this amount may vary.

We can provide no assurance that the Company can continue to satisfy its cash requirements for at least the next twelve months.

We expect to obtain financing through shareholder loans and private placements. Shareholder loans will be without stated terms of repayment or interest. We will not consider taking on any long-term or short-term debt from financial institutions in the immediate future. Shareholders loans may be granted from time to time as required to meet current working capital needs. We have no formal agreement that ensures that we will receive such loans. We may exhaust this source of funding at any time.

We are dependent upon certain related parties to provide continued funding and capital resources. If continued funding and capital resources are unavailable at reasonable terms, we may not be able to implement our plan of operations. These loans may include terms that may be highly dilutive to existing shareholders

Sources of Capital:

We expect to sustain our working capital needs through shareholder loans and private placements. Shareholder loans will be without stated terms of repayment or interest. We will not consider taking on any long-term or short-term debt from financial institutions in the immediate future. Shareholders loans may be granted from time to time as required to meet current working capital needs. We have no formal agreement that ensures that we will receive such loans. We may exhaust this source of funding at any time.
