☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 001-33608

lululemon athletica inc.
(Exact name of registrant as specified in its charter)

Delaware	20-3842867
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification Number)

1818 Cornwall Avenue	V6J 1C7
Vancouver, British Columbia	
(Address of principal executive offices)	(Zip Code)
Registrant's telephone number, including area code: (604) 732-6124	
Securities registered pursuant to Section 12(b) of the Act:	

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock, par value \$0.005 per share	Nasdaq Global Select Market

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 of Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements

Edgar Filing: lululemon athletica inc. - Form 10-K

incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐
Non-accelerated filer ☐ Smaller reporting company ☐
Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the voting stock held by non-affiliates of the registrant on July 27, 2018 was approximately \$11,537,000,000. Such aggregate market value was computed by reference to the closing price of the common stock as reported on the Nasdaq Global Select Market on July 27, 2018. For purposes of determining this amount only, the registrant has defined affiliates as including the executive officers, directors, and owners of 10% or more of the outstanding voting stock of the registrant on July 27, 2018.

Common Stock:

At March 21, 2019 there were 123,280,140 shares of the registrant's common stock, par value \$0.005 per share, outstanding.

Exchangeable and Special Voting Shares:

At March 21, 2019, there were outstanding 7,669,716 exchangeable shares of Lulu Canadian Holding, Inc., a wholly-owned subsidiary of the registrant. Exchangeable shares are exchangeable for an equal number of shares of the registrant's common stock.

In addition, at March 21, 2019, the registrant had outstanding 7,669,716 shares of special voting stock, through which the holders of exchangeable shares of Lulu Canadian Holding, Inc. may exercise their voting rights with respect to the registrant. The special voting stock and the registrant's common stock generally vote together as a single class on all matters on which the common stock is entitled to vote.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Proxy Statement for the 2019 Annual Meeting of Stockholders have been incorporated by reference into Part III of this Annual Report on Form 10-K.

PART I

Special Note Regarding Forward-Looking Statements

This report and some documents incorporated herein by reference include estimates, projections, statements relating to our business plans, objectives, and expected operating results that are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We use words such as "anticipates," "believes," "estimates," "may," "intends," "expects," and similar expressions to identify forward-looking statements. Discussions containing forward-looking statements may be found in the material set forth under "Business", "Management's Discussion and Analysis of Financial Condition and Results of Operations", and in other sections of the report. All forward-looking statements are inherently uncertain as they are based on our expectations and assumptions concerning future events. Any or all of our forward-looking statements in this report may turn out to be inaccurate. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, and financial needs. They may be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties, including the risks, uncertainties and assumptions described in the section entitled "Item 1A. Risk Factors" and elsewhere in this report. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this report may not occur as contemplated, and our actual results could differ materially from those anticipated or implied by the forward-looking statements. All forward-looking statements in this report are made as of the date hereof, based on information available to us as of the date hereof, and we assume no obligation to update any forward-looking statement.

ITEM 1. BUSINESS

General

lululemon athletica inc. is principally a designer, distributor, and retailer of healthy lifestyle inspired athletic apparel and accessories. We have a vision to be the experiential brand that ignites a community of people through sweat, grow, and connect, which we call "living the sweatlife." Since our inception, we have fostered a distinctive corporate culture; we promote a set of core values in our business which include taking personal responsibility, nurturing entrepreneurial spirit, acting with honesty and courage, valuing connection, and choosing to have fun. These core values attract passionate and motivated employees who are driven to achieve personal and professional goals, and share our purpose "to elevate the world by unleashing the full potential within every one of us."

In this Annual Report on Form 10-K ("10-K" or "Report") for the fiscal year ended February 3, 2019 ("fiscal 2018"), lululemon athletica inc. (together with its subsidiaries) is referred to as "lululemon," "the Company," "we," "us" or "our."

Our Products

Our healthy lifestyle inspired athletic apparel and accessories are marketed under the lululemon and ivivva brand names. We offer a comprehensive line of apparel and accessories for women, men, and female youth. Our apparel assortment includes items such as pants, shorts, tops, and jackets designed for a healthy lifestyle and athletic activities such as yoga, running, training, and most other sweaty pursuits. We also offer fitness-related accessories, including items such as bags, socks, underwear, yoga mats and equipment, and water bottles.

Our design and development team continues to source technically advanced fabrics, with new feel and fit, and craft innovative functional features for our products. Through our vertical retail strategy and direct connection with our guests, we are able to collect feedback and incorporate unique performance and fashion needs into our design process. In this way, we believe we solve problems for our guests, helping us advance our product lines and differentiate us from the competition.

Although we benefit from the growing number of people that participate in yoga, we believe the percentage of our products sold for other activities will continue to increase as we broaden our product range.

Our Market

Our guests seek a combination of performance, style, and sensation in their athletic apparel, choosing products that allow them to feel great however they exercise. Since consumer purchase decisions are driven by both an actual need

for functional products and a desire to live a particular lifestyle, we believe the credibility of our brand and the authentic community experiences we offer expand our potential market beyond just athletes to those who pursue an active, mindful, and balanced life.

Table of Contents

Although our primary and largest customer group is made up of women, we also design a comprehensive men's line and have a targeted strategy in place to serve our male guests. Our business is growing as more men discover the technical rigor and premium quality of our products, and are attracted by our distinctive brand.

North America is our largest market by geographical split, offering a mature health and wellness industry and sophisticated consumer. Additionally, we are expanding internationally across Europe (including the United Kingdom and Germany) and Asia Pacific (including China, Japan, and South Korea). We are expanding in these regions via a decentralized model, allowing for local community insight and consumer preference to inform our strategic expansion.

Our Segments

We primarily conduct our business through two channels: company-operated stores and direct to consumer.

We also generate net revenue from outlets, sales from temporary locations, sales to wholesale accounts, showrooms, through license and supply arrangements, and warehouse sales. The net revenue we generate from these sources is combined in our other segment.

We operate in both the physical and digital space to better cater to the shopping desires of our guest. At the end of fiscal 2018, we had 440 stores in 14 countries across the globe. In addition to being a venue to sell product, our stores give us a direct connection to our guest, which we view as a valuable tool in helping us build our brand and product line.

Our direct to consumer segment includes the net revenue which we generate from our e-commerce website www.lululemon.com, other country and region specific websites, and mobile apps, including mobile apps on in-store devices that allow demand to be fulfilled via our distribution centers or other retail locations.

Company-Operated Stores

As of February 3, 2019, our retail footprint included 440 company-operated stores. While most of our company-operated stores are branded lululemon, seven of our company-operated stores are branded ivivva and specialize in athletic wear for female youth. Our retail stores are located primarily on street locations, in lifestyle centers, and in malls.

Our company-operated stores by country as of February 3, 2019 and January 28, 2018 are summarized in the table below:

	February 3, 2019	January 28, 2018
United States ⁽¹⁾	285	274
Canada	64	60
Australia	29	28
China ⁽²⁾	22	15
United Kingdom	12	9
New Zealand	7	6
Germany	5	2
Japan	5	2
South Korea	4	3
Singapore	3	3
France	1	—
Ireland	1	1
Sweden	1	—
Switzerland	1	1
Total company-operated stores	440	404

⁽¹⁾ Included within the United States as of January 28, 2018, was one company-operated store in the Commonwealth of Puerto Rico. This store permanently closed during the second quarter of fiscal 2018.

⁽²⁾

Included within China as of February 3, 2019, were five company-operated stores in the Hong Kong Special Administrative Region, one company-operated store in the Macao Special Administration Region, and one company-operated store in the Taiwan Province. As of January 28, 2018, there were three company-operated stores in the Hong Kong Special Administrative Region, one company-operated store in the Taiwan Province, and no company-operated stores in the Macao Special Administration Region.

Table of Contents

We opened 36 net new company-operated stores in fiscal 2018, including 21 net new stores outside of North America. We perform ongoing evaluations of our portfolio of company-operated store locations. During fiscal 2018, we closed three of our lululemon branded company-operated stores. During fiscal 2017, as part of the restructuring of our ivivva operations, we closed 48 of our 55 ivivva branded company-operated stores. As we continue our evaluations we may, in future periods, close or relocate additional company-operated stores.

In fiscal 2019, our new store growth will come primarily from new company-operated stores in the United States and an acceleration in our company-operated store openings in Asia. Our real estate strategy over the next several years will not only consist of opening new company-operated stores, but also in overall square footage growth through store expansions and relocations.

We believe that our innovative retail concept and guest experience contribute to the success of our stores. During fiscal 2018, our company-operated stores open at least one year, which average approximately 3,030 square feet, averaged sales of \$1,579 per square foot. The square footage of our company-operated stores excludes space used for non-retail activities such as yoga studios and office space.

Direct to Consumer

Direct to consumer is a substantial part of our business, representing 26.1% of our net revenue in fiscal 2018. We believe that e-commerce is convenient for our core customer and enhances the image of our brand. Our direct to consumer channel makes our product accessible to more markets than our company-operated store channel alone. We believe this channel is effective in building brand awareness, especially in new markets.

We continue to evolve and integrate our digital and physical channels in order to enrich our interactions with our guests, and to provide an enhanced omni-channel experience.

Other Channels

Other net revenue accounted for 9.2% of total net revenue in fiscal 2018, compared to 8.9% in fiscal 2017, and 8.0% of total net revenue in fiscal 2016. Other net revenue includes sales made through the following channels:

- Outlets and warehouse sales - We utilize outlets as well as physical warehouse sales, which are held from time to time, to sell slow moving inventory and inventory from prior seasons to retail customers at discounted prices.

- Temporary locations - Our temporary locations, including seasonal stores, are typically opened for a short period of time in markets in which we may not already have a presence.

- Wholesale - Our wholesale accounts include premium yoga studios, health clubs, and fitness centers. We believe these premium wholesale locations offer an alternative distribution channel that is convenient for our core consumer and enhances the image of our brand. We do not intend wholesale to be a significant contributor to overall sales. Instead, we use the channel to build brand awareness, including those outside of North America.

- Showrooms - Our showrooms are typically small locations that we open when we enter new markets and feature a limited selection of our product offering.

- License and supply arrangements - We enter into license and supply arrangements from time to time when we believe that it will be to our advantage to partner with companies and individuals with significant experience and proven success in certain target markets.

We have entered into license and supply arrangements with partners in the Middle East and Mexico which grant them the right to operate lululemon branded retail locations in the United Arab Emirates, Kuwait, Qatar, Oman, Bahrain, and Mexico. We retain the rights to sell lululemon products through our e-commerce websites in these countries. Under these arrangements we supply the partners with lululemon products, training and other support. The initial term of the agreement for the Middle East expires in January 2020, and the initial term of the agreement for Mexico expires in November 2026. As of February 3, 2019, there were three licensed retail locations in Mexico, three in the United Arab Emirates, and one in Qatar, which are not included in the above company-operated stores table.

Community-Based Marketing

We utilize a community-based approach to build brand awareness and customer loyalty. We pursue a multi-faceted strategy which leverages our local teams and ambassadors, digital marketing and social media, in-store community boards, and

Table of Contents

a variety of grassroots initiatives. We also plan to continue to explore how we can complement and amplify our community-based initiatives with global brand-building activity.

Product Design and Development

Our product design and development efforts are led by a team of researchers, scientists, engineers, and designers based in Vancouver, British Columbia, partnering with international designers. Our team is comprised of athletes and users of our products who embody our design philosophy and dedication to premium quality. Our design and development team identifies trends based on market intelligence and research, proactively seeks the input of our guests and our ambassadors, and broadly seeks inspiration consistent with our goals of function, style, and technical superiority.

As we strive to continue to provide our guests with technically advanced fabrics, our team works closely with our suppliers to incorporate the latest in technical innovation, bringing particular specifications to our products. We partner with independent inspection, verification, and testing companies, who conduct a variety of tests on our fabrics, testing performance characteristics including pilling, shrinkage, abrasion resistance, and colorfastness. We develop proprietary fabrics and collaborate with leading fabric and trims suppliers to manufacture fabrics and trims that we ultimately protect through agreements, trademarks, and trade-secrets.

Sourcing and Manufacturing

We do not own or operate any manufacturing facilities. We rely on a limited number of suppliers to provide fabrics for, and to produce, our products. We work with a group of approximately 65 suppliers to provide the fabrics for our products. We work with a group of approximately 44 vendors that manufacture our products, five of which produced approximately 60% of our products in fiscal 2018. During fiscal 2018, no single manufacturer produced more than 21% of our product offerings. During fiscal 2018, approximately 58% of our products were manufactured in South East Asia, approximately 21% in South Asia, approximately 12% in China, approximately 8% in the Americas, and the remainder in other regions.

We have developed long-standing relationships with a number of our vendors and take great care to ensure that they share our commitment to quality and ethics. We do not, however, have any long-term term contracts with the majority of our suppliers or manufacturing sources for the production and supply of our fabrics and garments, and we compete with other companies for fabrics, raw materials, and production. We require that all of our manufacturers adhere to a vendor code of ethics regarding social and environmental sustainability practices. Our product quality and sustainability teams partner with leading inspection and verification firms to closely monitor each supplier's compliance with applicable laws and our vendor code of ethics.

Distribution Facilities

We operate and distribute finished products from our distribution facilities in the United States, Canada, and Australia. We own our distribution center in Columbus, Ohio, and lease our other distribution facilities. The approximate square footage of each facility is included in Item 2 of Part I of this report. We also utilize third-party logistics providers to warehouse and distribute finished products from their warehouse locations in Hong Kong, Rotterdam, and Shanghai.

Competition

Competition in the athletic apparel industry is based principally on brand image and recognition as well as product quality, innovation, style, distribution, and price. We believe that we successfully compete on the basis of our premium brand image and our technical product innovation. We also believe our ability to introduce new product innovations, combine function and fashion, and connect through in-store and community experiences sets us apart from our competition. In addition, we believe our vertical retail distribution strategy and community-based marketing differentiates us further, allowing us to more effectively control our brand image and connect with our guest.

The market for athletic apparel is highly competitive. It includes increasing competition from established companies that are expanding their production and marketing of performance products, as well as from frequent new entrants to the market. We are in direct competition with wholesalers and direct sellers of athletic apparel, such as Nike, Inc., adidas AG, and Under Armour, Inc. We also compete with retailers who have expanded to include women's athletic apparel including The Gap, Inc. (including the Athleta brand) and L Brands, Inc. (including the Victoria Sport assortment at Victoria's Secret).

Table of Contents

Seasonality

Our business is affected by the general seasonal trends common to the retail apparel industry. Our annual net revenue is weighted more heavily toward our fourth fiscal quarter, reflecting our historical strength in sales during the holiday season, while our operating expenses are more equally distributed throughout the year. As a result, a substantial portion of our operating profits are generated in the fourth quarter of our fiscal year. For example, we generated approximately 47%, 56%, and 47% of our full year operating profit during the fourth quarters of fiscal 2018, fiscal 2017, and fiscal 2016, respectively. Excluding the costs we incurred in connection with the ivivva restructuring, we generated approximately 51% of our operating profit during the fourth quarter of fiscal 2017.

Our Employees

We believe that our people are key to the success of our business, and we strive to foster a distinctive corporate culture rooted in our core business values which attract passionate and motivated employees who are driven to achieve personal and professional goals.

As of February 3, 2019, we had approximately 15,700 employees, of which approximately 9,200 were employed in the United States, approximately 4,200 were employed in Canada, and approximately 2,200 were employed outside of North America. None of our employees are currently covered by a collective bargaining agreement. We have had no labor-related work stoppages by our employees and we believe our relations with our employees are excellent.

Intellectual Property

We have trademark rights on most of our products and believe having distinctive marks that are readily identifiable is an important factor in building our brand image and in distinguishing our products from the products of others. We consider our lululemon and wave design trademarks to be among our most valuable assets. In addition, we own many other trademarks for names of several of our brands, slogans, fabrics and products. We own registered and pending U.S. and foreign utility and design patents, industrial designs in Canada, and registered community designs in Europe that protect our product innovations, distinctive apparel, and accessory designs.

Securities and Exchange Commission Filings

Our website address is www.lululemon.com. We provide free access to various reports that we file with, or furnish to, the United States Securities and Exchange Commission, or the SEC, through our website, as soon as reasonably practicable after they have been filed or furnished. These reports include, but are not limited to, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports. Our SEC reports can also be accessed through the SEC's website at www.sec.gov. Also available on our website are printable versions of our Code of Business Conduct and Ethics and charters of the Audit, Compensation, and Nominating and Governance Committees of our board of directors. Information on our website does not constitute part of this annual report on Form 10-K or any other report we file or furnish with the SEC.

ITEM 1A. RISK FACTORS

In addition to the other information contained in this Form 10-K, the following risk factors should be considered carefully in evaluating our business. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. Please note that additional risks not presently known to us or that we currently deem immaterial could also impair our business and operations.

Our success depends on our ability to maintain the value and reputation of our brand.

Our success depends on the value and reputation of the lululemon brand. The lululemon name is integral to our business as well as to the implementation of our strategies for expanding our business. Maintaining, promoting, and positioning our brand will depend largely on the success of our marketing and merchandising efforts and our ability to provide a consistent, high quality product, and guest experience. We rely on social media, as one of our marketing strategies, to have a positive impact on both our brand value and reputation. Our brand and reputation could be adversely affected if we fail to achieve these objectives, if our public image was to be tarnished by negative publicity, if we fail to deliver innovative and high quality products acceptable to our guests, or if we face or mishandle a product recall. Negative publicity regarding the production methods of any of our suppliers or manufacturers could adversely affect our reputation and sales and force us to locate alternative suppliers or manufacturing sources. Additionally, while we devote considerable efforts and resources to protecting

Table of Contents

our intellectual property, if these efforts are not successful the value of our brand may be harmed. Any harm to our brand and reputation could have a material adverse effect on our financial condition.

If any of our products are unacceptable to us or our guests, our business could be harmed.

We have occasionally received, and may in the future receive, shipments of products that fail to comply with our technical specifications or that fail to conform to our quality control standards. We have also received, and may in the future receive, products that are otherwise unacceptable to us or our guests. Under these circumstances, unless we are able to obtain replacement products in a timely manner, we risk the loss of net revenue resulting from the inability to sell those products and related increased administrative and shipping costs. Additionally, if the unacceptability of our products is not discovered until after such products are purchased by our guests, our guests could lose confidence in our products or we could face a product recall and our results of operations could suffer and our business, reputation, and brand could be harmed.

We operate in a highly competitive market and the size and resources of some of our competitors may allow them to compete more effectively than we can, resulting in a loss of our market share and a decrease in our net revenue and profitability.

The market for technical athletic apparel is highly competitive. Competition may result in pricing pressures, reduced profit margins or lost market share, or a failure to grow or maintain our market share, any of which could substantially harm our business and results of operations. We compete directly against wholesalers and direct retailers of athletic apparel, including large, diversified apparel companies with substantial market share and established companies expanding their production and marketing of technical athletic apparel, as well as against retailers specifically focused on women's athletic apparel. We also face competition from wholesalers and direct retailers of traditional commodity athletic apparel, such as cotton T-shirts and sweatshirts. Many of our competitors are large apparel and sporting goods companies with strong worldwide brand recognition. Because of the fragmented nature of the industry, we also compete with other apparel sellers, including those specializing in yoga apparel and other activewear. Many of our competitors have significant competitive advantages, including longer operating histories, larger and broader customer bases, more established relationships with a broader set of suppliers, greater brand recognition and greater financial, research and development, store development, marketing, distribution, and other resources than we do.

Our competitors may be able to achieve and maintain brand awareness and market share more quickly and effectively than we can. In contrast to our "grassroots" marketing approach, many of our competitors promote their brands through traditional forms of advertising, such as print media and television commercials, and through celebrity endorsements, and have substantial resources to devote to such efforts. Our competitors may also create and maintain brand awareness using traditional forms of advertising more quickly than we can. Our competitors may also be able to increase sales in their new and existing markets faster than we do by emphasizing different distribution channels than we do, such as catalog sales or an extensive franchise network.

In addition, because we hold limited patents and exclusive intellectual property rights in the technology, fabrics or processes underlying our products, our current and future competitors are able to manufacture and sell products with performance characteristics, fabrication techniques, and styling similar to our products.

Our reliance on suppliers to provide fabrics for and to produce our products could cause problems in our supply chain. We do not manufacture our products or the raw materials for them and rely instead on suppliers. Many of the specialty fabrics used in our products are technically advanced textile products developed and manufactured by third parties and may be available, in the short-term, from only one or a very limited number of sources. We work with a group of approximately 65 suppliers to provide the fabrics for our products. In fiscal 2018, approximately 60% of our fabrics were produced by our top five fabric suppliers, and the largest single manufacturer produced approximately 35% of raw materials used. We work with a group of approximately 44 vendors that manufacture our products, five of which produced approximately 60% of our products in fiscal 2018. During fiscal 2018, the largest single manufacturer produced approximately 21% of our product offerings. We have no long-term contracts with any of our suppliers or manufacturing sources for the production and supply of our fabrics and garments, and we compete with other companies for fabrics, raw materials, and production.

We have experienced, and may in the future experience, a significant disruption in the supply of fabrics or raw materials from current sources and we may be unable to locate alternative materials suppliers of comparable quality at an acceptable price, or at all. In addition, if we experience significant increased demand, or if we need to replace an existing supplier or manufacturer, we may be unable to locate additional supplies of fabrics or raw materials or additional manufacturing capacity on terms that are acceptable to us, or at all, or we may be unable to locate any supplier or manufacturer with sufficient capacity to meet our requirements or to fill our orders in a timely manner. Identifying a suitable supplier is an involved process that requires us to become satisfied with its quality control, responsiveness and service, financial stability, and labor and other

Table of Contents

ethical practices. Even if we are able to expand existing or find new manufacturing or fabric sources, we may encounter delays in production and added costs as a result of the time it takes to train our suppliers and manufacturers in our methods, products, and quality control standards. Delays related to supplier changes could also arise due to an increase in shipping times if new suppliers are located farther away from our markets or from other participants in our supply chain. Any delays, interruption, or increased costs in the supply of fabric or manufacture of our products could have an adverse effect on our ability to meet guest demand for our products and result in lower net revenue and income from operations both in the short and long term.

An economic downturn or economic uncertainty in our key markets may adversely affect consumer discretionary spending and demand for our products.

Many of our products may be considered discretionary items for consumers. Factors affecting the level of consumer spending for such discretionary items include general economic conditions, particularly those in North America, and other factors such as consumer confidence in future economic conditions, fears of recession, the availability and cost of consumer credit, levels of unemployment, and tax rates. As global economic conditions continue to be volatile or economic uncertainty remains, trends in consumer discretionary spending also remain unpredictable and subject to reductions due to credit constraints and uncertainties about the future. Unfavorable economic conditions may lead consumers to delay or reduce purchases of our products. Consumer demand for our products may not reach our targets, or may decline, when there is an economic downturn or economic uncertainty in our key markets, particularly in North America. Our sensitivity to economic cycles and any related fluctuation in consumer demand may have a material adverse effect on our financial condition.

Our sales and profitability may decline as a result of increasing product costs and decreasing selling prices.

Our business is subject to significant pressure on costs and pricing caused by many factors, including intense competition, constrained sourcing capacity and related inflationary pressure, pressure from consumers to reduce the prices we charge for our products, and changes in consumer demand. These factors may cause us to experience increased costs, reduce our prices to consumers or experience reduced sales in response to increased prices, any of which could cause our operating margin to decline if we are unable to offset these factors with reductions in operating costs and could have a material adverse effect on our financial condition, operating results, and cash flows.

If we are unable to anticipate consumer preferences and successfully develop and introduce new, innovative, and updated products, we may not be able to maintain or increase our sales and profitability.

Our success depends on our ability to identify and originate product trends as well as to anticipate and react to changing consumer demands in a timely manner. All of our products are subject to changing consumer preferences that cannot be predicted with certainty. If we are unable to introduce new products or novel technologies in a timely manner or our new products or technologies are not accepted by our guests, our competitors may introduce similar products in a more timely fashion, which could hurt our goal to be viewed as a leader in technical athletic apparel innovation. Our new products may not receive consumer acceptance as consumer preferences could shift rapidly to different types of athletic apparel or away from these types of products altogether, and our future success depends in part on our ability to anticipate and respond to these changes. Our failure to anticipate and respond in a timely manner to changing consumer preferences could lead to, among other things, lower sales and excess inventory levels. Even if we are successful in anticipating consumer preferences, our ability to adequately react to and address those preferences will in part depend upon our continued ability to develop and introduce innovative, high-quality products. Our failure to effectively introduce new products that are accepted by consumers could result in a decrease in net revenue and excess inventory levels, which could have a material adverse effect on our financial condition.

Our results of operations could be materially harmed if we are unable to accurately forecast guest demand for our products.

To ensure adequate inventory supply, we must forecast inventory needs and place orders with our manufacturers based on our estimates of future demand for particular products. Our ability to accurately forecast demand for our products could be affected by many factors, including an increase or decrease in guest demand for our products or for products of our competitors, our failure to accurately forecast guest acceptance of new products, product introductions by competitors, unanticipated changes in general market conditions, and weakening of economic conditions or

consumer confidence in future economic conditions. If we fail to accurately forecast guest demand, we may experience excess inventory levels or a shortage of products available for sale in our stores or for delivery to guests. Inventory levels in excess of guest demand may result in inventory write-downs or write-offs and the sale of excess inventory at discounted prices, which would cause our gross margin to suffer and could impair the strength and exclusivity of our brand. Conversely, if we underestimate guest demand for our products, our manufacturers may not be able to deliver products to meet our requirements, and this could result in damage to our reputation and guest relationships.

Table of Contents

Our inability to safeguard against security breaches or our failure to comply with data privacy laws could damage our customer relationships and result in significant legal and financial exposure.

As part of our normal operations, we receive confidential, proprietary, and personally identifiable information, including credit card information, and information about our customers, our employees, job applicants, and other third parties. Our business employs systems and websites that allow for the storage and transmission of this information. However, despite our safeguards and security processes and protections, security breaches could expose us to a risk of loss or misuse of this information, and could result in litigation and potential liability. The retail industry, in particular, has been the target of many recent cyber-attacks. We may not have the resources or technical sophistication to be able to anticipate or prevent rapidly evolving types of cyber-attacks. Attacks may be targeted at us, our vendors or customers, or others who have entrusted us with information. In addition, even if we take appropriate measures to safeguard our information security and privacy environment from security breaches, we could still expose our customers and our business to risk. Actual or anticipated attacks may cause us to incur increasing costs including costs to deploy additional personnel and protection technologies, train employees and engage third party experts and consultants. Advances in computer capabilities, new technological discoveries or other developments may result in the technology used by us to protect transaction or other data being breached or compromised. Measures we implement to protect against cyber-attacks may also have the potential to impact our customers' shopping experience or decrease activity on our websites by making them more difficult to use. Data and security breaches can also occur as a result of non-technical issues including intentional or inadvertent breach by employees or persons with whom we have commercial relationships that result in the unauthorized release of personal or confidential information. Any compromise or breach of our security could result in a violation of applicable privacy and other laws, significant legal and financial exposure, and damage to our brand and reputation or other harm to our business.

Additionally, the European Union has adopted a comprehensive General Data Privacy Regulation (the "GDPR"). The GDPR requires companies to satisfy new requirements regarding the handling of personal and sensitive data, including its use, protection and the ability of persons whose data is stored to correct or delete such data about themselves. Failure to comply with GDPR requirements could result in penalties of up to four percent of worldwide revenue. The GDPR and other similar laws and regulations, as well as any associated inquiries or investigations or any other government actions, may be costly to comply with, increase our operating costs, require significant management time and attention, and subject us to remedies that may harm our business, including fines, negative publicity, or demands or orders that we modify or cease existing business practices.

Any material disruption of our information technology systems or unexpected network interruption could disrupt our business and reduce our sales.

We are increasingly dependent on information technology systems and third-parties to operate our e-commerce websites, process transactions, respond to guest inquiries, manage inventory, purchase, sell and ship goods on a timely basis, and maintain cost-efficient operations. The failure of our information technology systems to operate properly or effectively, problems with transitioning to upgraded or replacement systems, or difficulty in integrating new systems, could adversely affect our business. In addition, we have e-commerce websites in the United States, Canada, and internationally. Our information technology systems, websites, and operations of third parties on whom we rely, may encounter damage or disruption or slowdown caused by a failure to successfully upgrade systems, system failures, viruses, computer "hackers", natural disasters, or other causes. These could cause information, including data related to guest orders, to be lost or delayed which could, especially if the disruption or slowdown occurred during the holiday season, result in delays in the delivery of products to our stores and guests or lost sales, which could reduce demand for our products and cause our sales to decline. The concentration of our primary offices, two of our distribution centers, and a number of our stores along the west coast of North America could amplify the impact of a natural disaster occurring in that area to our business, including to our information technology systems. In addition, if changes in technology cause our information systems to become obsolete, or if our information systems are inadequate to handle our growth, we could lose guests. We have limited back-up systems and redundancies, and our information technology systems and websites have experienced system failures and electrical outages in the past which have disrupted our operations. Any significant disruption in our information technology systems or websites

could harm our reputation and credibility, and could have a material adverse effect on our business, financial condition, and results of operations.

If the technology-based systems that give our customers the ability to shop with us online do not function effectively, our operating results, as well as our ability to grow our e-commerce business globally, could be materially adversely affected.

Many of our customers shop with us through our e-commerce websites and mobile apps. Increasingly, customers are using tablets and smart phones to shop online with us and with our competitors and to do comparison shopping. We are increasingly using social media and proprietary mobile apps to interact with our customers and as a means to enhance their shopping experience. Any failure on our part to provide attractive, effective, reliable, user-friendly e-commerce platforms that offer a wide assortment of merchandise with rapid delivery options and that continually meet the changing expectations of

Table of Contents

online shoppers could place us at a competitive disadvantage, result in the loss of e-commerce and other sales, harm our reputation with customers, have a material adverse impact on the growth of our e-commerce business globally and could have a material adverse impact on our business and results of operations.

Changes in consumer shopping preferences and shifts in distribution channels could materially impact our results of operations.

We sell our products through a variety of trade channels, with a significant portion through traditional brick-and-mortar retail channels. As strong e-commerce channels emerge and develop, we are evolving towards an omni-channel approach to support the shopping behavior of our guests. This involves country and region specific websites, social media, product notification emails, mobile apps, including mobile apps on in-store devices that allow demand to be fulfilled via our distribution centers, and online order fulfillment through stores. The diversion of sales from our company-operated stores could adversely impact our return on investment and could lead to store closures and impairment charges. We could have difficulty in recreating the in-store experience through direct channels. We could also be exposed to liability for online content. Our failure to successfully integrate our digital and physical channels and respond to these risks might adversely impact our business and results of operations, as well as damage our reputation and brands.

The fluctuating cost of raw materials could increase our cost of goods sold and cause our results of operations and financial condition to suffer.

The fabrics used by our suppliers and manufacturers include synthetic fabrics whose raw materials include petroleum-based products. Our products also include silver and natural fibers, including cotton. Our costs for raw materials are affected by, among other things, weather, consumer demand, speculation on the commodities market, the relative valuations and fluctuations of the currencies of producer versus consumer countries, and other factors that are generally unpredictable and beyond our control. Increases in the cost of raw materials, including petroleum or the prices we pay for silver and our cotton yarn and cotton-based textiles, could have a material adverse effect on our cost of goods sold, results of operations, financial condition, and cash flows.

Our limited operating experience and limited brand recognition in new international markets may limit our expansion and cause our business and growth to suffer.

Our future growth depends in part on our expansion efforts outside of North America. We have limited experience with regulatory environments and market practices internationally, and we may not be able to penetrate or successfully operate in any new market. In connection with our expansion efforts we may encounter obstacles we did not face in North America, including cultural and linguistic differences, differences in regulatory environments, labor practices and market practices, difficulties in keeping abreast of market, business and technical developments, and foreign guests' tastes and preferences. We may also encounter difficulty expanding into new international markets because of limited brand recognition leading to delayed acceptance of our technical athletic apparel by guests in these new international markets. Our failure to develop our business in new international markets or disappointing growth outside of existing markets could harm our business and results of operations.

If we encounter problems with our distribution system, our ability to deliver our products to the market and to meet guest expectations could be harmed.

We rely on our distribution facilities for substantially all of our product distribution. Our distribution facilities include computer controlled and automated equipment, which means their operations may be subject to a number of risks related to security or computer viruses, the proper operation of software and hardware, electronic or power interruptions, or other system failures. In addition, because substantially all of our products are distributed from four locations, our operations could also be interrupted by labor difficulties, extreme or severe weather conditions or by floods, fires, or other natural disasters near our distribution centers. If we encounter problems with our distribution system, our ability to meet guest expectations, manage inventory, complete sales, and achieve objectives for operating efficiencies could be harmed.

Our fabrics and manufacturing technology generally are not patented and can be imitated by our competitors.

The intellectual property rights in the technology, fabrics, and processes used to manufacture our products generally are owned or controlled by our suppliers and are generally not unique to us. Our ability to obtain intellectual property

protection for our products is therefore limited and we do not generally own patents or hold exclusive intellectual property rights in the technology, fabrics or processes underlying our products. As a result, our current and future competitors are able to manufacture and sell products with performance characteristics, fabrics and styling similar to our products. Because many of our competitors have significantly greater financial, distribution, marketing, and other resources than we do, they may be able

Table of Contents

to manufacture and sell products based on our fabrics and manufacturing technology at lower prices than we can. If our competitors do sell similar products to ours at lower prices, our net revenue and profitability could suffer. Our failure or inability to protect our intellectual property rights could diminish the value of our brand and weaken our competitive position.

We currently rely on a combination of copyright, trademark, trade dress, and unfair competition laws, as well as confidentiality procedures and licensing arrangements, to establish and protect our intellectual property rights. The steps we take to protect our intellectual property rights may not be adequate to prevent infringement of these rights by others, including imitation of our products and misappropriation of our brand. In addition, intellectual property protection may be unavailable or limited in some foreign countries where laws or law enforcement practices may not protect our intellectual property rights as fully as in the United States or Canada, and it may be more difficult for us to successfully challenge the use of our intellectual property rights by other parties in these countries. If we fail to protect and maintain our intellectual property rights, the value of our brand could be diminished, and our competitive position may suffer.

Changes in tax laws or unanticipated tax liabilities could adversely affect our effective income tax rate and profitability.

We are subject to the income tax laws of the United States, Canada, and several other international jurisdictions. Our effective income tax rates could be unfavorably impacted by a number of factors, including changes in the mix of earnings amongst countries with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities, changes in tax laws, new tax interpretations and guidance, the outcome of income tax audits in various jurisdictions around the world, and any repatriation of unremitted earnings for which we have not previously accrued applicable U.S. income taxes and foreign withholding taxes.

We and our subsidiaries engage in a number of intercompany transactions across multiple tax jurisdictions. Although we believe that these transactions reflect the accurate economic allocation of profit and that proper transfer pricing documentation is in place, the profit allocation and transfer pricing terms and conditions may be scrutinized by local tax authorities during an audit and any resulting changes may impact our mix of earnings in countries with differing statutory tax rates.

Current economic and political conditions make tax rules in any jurisdiction, including the United States and Canada, subject to significant change. Changes in applicable U.S., Canadian, or other foreign tax laws and regulations, or their interpretation and application, including the possibility of retroactive effect, could affect our income tax expense and profitability, as they did in fiscal 2017 and fiscal 2018 upon passage of the U.S. Tax Cuts and Jobs Act.

Our ability to source our merchandise profitably or at all could be hurt if new trade restrictions are imposed or existing trade restrictions become more burdensome.

The United States and the countries in which our products are produced or sold internationally have imposed and may impose additional quotas, duties, tariffs, or other restrictions or regulations, or may adversely adjust prevailing quota, duty, or tariff levels. The results of any audits or related disputes regarding these restrictions or regulations could have an adverse effect on our financial statements for the period or periods for which the applicable final determinations are made. We have expanded our relationships with suppliers outside of China, which among other things has resulted in increased costs and shipping times for some products. Countries impose, modify, and remove tariffs and other trade restrictions in response to a diverse array of factors, including global and national economic and political conditions, which make it impossible for us to predict future developments regarding tariffs and other trade restrictions. Trade restrictions, including tariffs, quotas, embargoes, safeguards, and customs restrictions, could increase the cost or reduce the supply of products available to us or may require us to modify our supply chain organization or other current business practices, any of which could harm our business, financial condition, and results of operations.

We are dependent on international trade agreements and regulations. If the United States were to withdraw from or materially modify certain international trade agreements, our business could be adversely affected. There are also uncertainties related to the implementation of the United Kingdom's referendum to withdraw membership from the European Union (referred to as "Brexit").

If we continue to grow at a rapid pace, we may not be able to effectively manage our growth and the increased complexity of our business and as a result our brand image and financial performance may suffer.

We have expanded our operations rapidly since our inception in 1998 and our net revenue has increased from \$40.7 million in fiscal 2004 to \$3.3 billion in fiscal 2018. If our operations continue to grow at a rapid pace, we may experience difficulties in obtaining sufficient raw materials and manufacturing capacity to produce our products, as well as delays in production and shipments, as our products are subject to risks associated with overseas sourcing and manufacturing. We could

Table of Contents

be required to continue to expand our sales and marketing, product development and distribution functions, to upgrade our management information systems and other processes and technology, and to obtain more space for our expanding workforce. This expansion could increase the strain on our resources, and we could experience operating difficulties, including difficulties in hiring, training, and managing an increasing number of employees. These difficulties could result in the erosion of our brand image which could have a material adverse effect on our financial condition.

We are subject to risks associated with leasing retail and distribution space subject to long-term and non-cancelable leases.

We lease the majority of our stores under operating leases and our inability to secure appropriate real estate or lease terms could impact our ability to grow. Our leases generally have initial terms of between five and ten years, and generally can be extended in five-year increments if at all. We generally cannot cancel these leases at our option. If an existing or new store is not profitable, and we decide to close it, as we have done in the past and may do in the future, we may nonetheless be committed to perform our obligations under the applicable lease including, among other things, paying the base rent for the balance of the lease term. Similarly, we may be committed to perform our obligations under the applicable leases even if current locations of our stores become unattractive as demographic patterns change. In addition, as each of our leases expire, we may fail to negotiate renewals, either on commercially acceptable terms or at all, which could require us to close stores in desirable locations.

We also lease the majority of our distribution centers and our inability to secure appropriate real estate or lease terms could impact our ability to deliver our products to the market.

Increasing labor costs and other factors associated with the production of our products in South and South East Asia could increase the costs to produce our products.

A significant portion of our products are produced in South and South East Asia and increases in the costs of labor and other costs of doing business in the countries in this area could significantly increase our costs to produce our products and could have a negative impact on our operations, net revenue, and earnings. Factors that could negatively affect our business include a potential significant revaluation of the currencies used in these countries, which may result in an increase in the cost of producing products, labor shortage and increases in labor costs, and difficulties in moving products manufactured out of the countries in which they are manufactured and through the ports on the western coast of North America, whether due to port congestion, labor disputes, product regulations and/or inspections or other factors, and natural disasters or health pandemics. A labor strike or other transportation disruption affecting these ports could significantly disrupt our business. Also, the imposition of trade sanctions or other regulations against products imported by us from, or the loss of "normal trade relations" status with any country in which our products are manufactured, could significantly increase our cost of products imported into North America and/or Australia and harm our business.

The operations of many of our suppliers are subject to additional risks that are beyond our control and that could harm our business, financial condition, and results of operations.

Almost all of our suppliers are located outside of North America. During fiscal 2018, approximately 58% of our products were manufactured in South East Asia, approximately 21% in South Asia, approximately 12% in China, approximately 8% in the Americas, and the remainder in other regions.

As a result of our international suppliers, we are subject to risks associated with doing business abroad, including: political unrest, terrorism, labor disputes, and economic instability resulting in the disruption of trade from foreign countries in which our products are manufactured;

the imposition of new laws and regulations, including those relating to labor conditions, quality and safety standards, imports, duties, taxes and other charges on imports, as well as trade restrictions and restrictions on currency exchange or the transfer of funds;

reduced protection for intellectual property rights, including trademark protection, in some countries, particularly China;

disruptions or delays in shipments; and

changes in local economic conditions in countries where our manufacturers, suppliers, or guests are located.

These and other factors beyond our control could interrupt our suppliers' production in offshore facilities, influence the ability of our suppliers to export our products cost-effectively or at all and inhibit our suppliers' ability to procure certain materials, any of which could harm our business, financial condition, and results of operations.

Table of Contents

We may not be able to successfully open new store locations in a timely manner, if at all, which could harm our results of operations.

Our growth will largely depend on our ability to successfully open and operate new stores, which depends on many factors, including, among others, our ability to:

- identify suitable store locations, the availability of which is outside of our control;
- negotiate acceptable lease terms, including desired tenant improvement allowances;
- hire, train and retain store personnel and field management;
- immerse new store personnel and field management into our corporate culture;
- source sufficient inventory levels; and
- successfully integrate new stores into our existing operations and information technology systems.

Successful new store openings may also be affected by our ability to initiate our grassroots marketing efforts in advance of opening our first store in a new market. We typically rely on our grassroots marketing efforts to build awareness of our brand and demand for our products. Our grassroots marketing efforts are often lengthy and must be tailored to each new market based on our emerging understanding of the market. We may not be able to successfully implement our grassroots marketing efforts in a particular market in a timely manner, if at all. Additionally, we may be unsuccessful in identifying new markets where our technical athletic apparel and other products and brand image will be accepted, or the performance of our stores will be considered successful.

Our failure to comply with trade and other regulations could lead to investigations or actions by government regulators and negative publicity.

The labeling, distribution, importation, marketing, and sale of our products are subject to extensive regulation by various federal agencies, including the Federal Trade Commission, Consumer Product Safety Commission and state attorneys general in the United States, the Competition Bureau and Health Canada in Canada, as well as by various other federal, state, provincial, local, and international regulatory authorities in the countries in which our products are distributed or sold. If we fail to comply with any of these regulations, we could become subject to enforcement actions or the imposition of significant penalties or claims, which could harm our results of operations or our ability to conduct our business. In addition, any audits and inspections by governmental agencies related to these matters could result in significant settlement amounts, damages, fines, or other penalties, divert financial and management resources, and result in significant legal fees. An unfavorable outcome of any particular proceeding could have an adverse impact on our business, financial condition, and results of operations. In addition, the adoption of new regulations or changes in the interpretation of existing regulations may result in significant compliance costs or discontinuation of product sales and could impair the marketing of our products, resulting in significant loss of net revenue.

Our international operations are also subject to compliance with the U.S. Foreign Corrupt Practices Act, or FCPA, and other anti-bribery laws applicable to our operations. In many foreign countries, particularly in those with developing economies, it may be a local custom that businesses operating in such countries engage in business practices that are prohibited by the FCPA or other U.S. and foreign laws and regulations applicable to us. Although we have implemented procedures designed to ensure compliance with the FCPA and similar laws, some of our employees, agents, or other channel partners, as well as those companies to which we outsource certain of our business operations, could take actions in violation of our policies. Any such violation could have a material and adverse effect on our business.

Our future success is substantially dependent on the service of our senior management and other key employees. In the last few years, we have had changes to our senior management team including new hires, departures, and role and responsibility changes. The performance of our senior management team and other key employees may not meet our needs and expectations. Also, the loss of services of any of these key employees, or any negative public perception with respect to these individuals, may be disruptive to, or cause uncertainty in, our business and could have a negative impact on our ability to manage and grow our business effectively. Such disruption could have a material adverse impact on our financial performance, financial condition, and the market price of our stock.

We do not maintain a key person life insurance policy on any of the members of our senior management team. As a result, we would have no way to cover the financial loss if we were to lose the services of members of our senior

management team.

12

Table of Contents

Our business is affected by seasonality.

Our business is affected by the general seasonal trends common to the retail apparel industry. This seasonality may adversely affect our business and cause our results of operations to fluctuate, and, as a result, we believe that comparisons of our operating results between different quarters within a single fiscal year are not necessarily meaningful and that results of operations in any period should not be considered indicative of the results to be expected for any future period.

Because a significant portion of our net revenue and expenses are generated in countries other than the United States, fluctuations in foreign currency exchange rates have affected our results of operations and may continue to do so in the future.

The functional currency of our foreign subsidiaries is generally the applicable local currency. Our consolidated financial statements are presented in U.S. dollars. Therefore, the net revenue, expenses, assets, and liabilities of our foreign subsidiaries are translated from their functional currencies into U.S. dollars. Fluctuations in the value of the U.S. dollar affect the reported amounts of net revenue, expenses, assets, and liabilities. Foreign exchange differences which arise on translation of our foreign subsidiaries' balance sheets into U.S. dollars are recorded as a foreign currency translation adjustment in accumulated other comprehensive income or loss within stockholders' equity.

We also have exposure to changes in foreign exchange rates associated with transactions which are undertaken by our subsidiaries in currencies other than their functional currency. Such transactions include intercompany transactions and inventory purchases denominated in currencies other than the functional currency of the purchasing entity. As a result, we have been impacted by changes in exchange rates and may be impacted for the foreseeable future. The potential impact of currency fluctuation increases as our international expansion increases.

We have, and may continue to, enter into forward currency contracts, or other derivative instruments, in an effort to mitigate the foreign exchange risks which we are exposed to. This may include entering into forward currency contracts to hedge against the foreign exchange gains and losses which arise on translation of our foreign subsidiaries' balance sheets into U.S. dollars, or entering into forward currency contracts in an effort to reduce our exposure to foreign exchange revaluation gains and losses that arise on monetary assets and liabilities held by our subsidiaries in a currency other than their functional currency.

Although we use financial instruments to hedge certain foreign currency risks, these measures may not succeed in fully offsetting the negative impact of foreign currency rate movements.

We are exposed to credit-related losses in the event of nonperformance by the counterparties to the forward currency contracts.

Our trademarks and other proprietary rights could potentially conflict with the rights of others and we may be prevented from selling some of our products.

Our success depends in large part on our brand image. We believe that our trademarks and other proprietary rights have significant value and are important to identifying and differentiating our products from those of our competitors and creating and sustaining demand for our products. We have applied for and obtained some United States, Canada, and foreign trademark registrations, and will continue to evaluate the registration of additional trademarks as appropriate. However, some or all of these pending trademark applications may not be approved by the applicable governmental authorities. Moreover, even if the applications are approved, third parties may seek to oppose or otherwise challenge these registrations. Additionally, we may face obstacles as we expand our product line and the geographic scope of our sales and marketing. Third parties may assert intellectual property claims against us, particularly as we expand our business and the number of products we offer. Our defense of any claim, regardless of its merit, could be expensive and time consuming and could divert management resources. Successful infringement claims against us could result in significant monetary liability or prevent us from selling some of our products. In addition, resolution of claims may require us to redesign our products, license rights from third parties, or cease using those rights altogether. Any of these events could harm our business and cause our results of operations, liquidity, and financial condition to suffer.

We are subject to periodic claims and litigation that could result in unexpected expenses and could ultimately be resolved against us.

From time to time, we are involved in litigation and other proceedings, including matters related to product liability claims, stockholder class action and derivative claims, commercial disputes and intellectual property, as well as trade, regulatory, employment, and other claims related to our business. Any of these proceedings could result in significant settlement amounts, damages, fines, or other penalties, divert financial and management resources, and result in significant

Table of Contents

legal fees. An unfavorable outcome of any particular proceeding could exceed the limits of our insurance policies or the carriers may decline to fund such final settlements and/or judgments and could have an adverse impact on our business, financial condition, and results of operations. In addition, any proceeding could negatively impact our reputation among our guests and our brand image.

Our business could be negatively affected as a result of actions of activist stockholders or others.

We may be subject to actions or proposals from stockholders or others that may not align with our business strategies or the interests of our other stockholders. Responding to such actions can be costly and time-consuming, disrupt our business and operations, and divert the attention of our board of directors, management, and employees from the pursuit of our business strategies. Such activities could interfere with our ability to execute our strategic plan. Activist stockholders or others may create perceived uncertainties as to the future direction of our business or strategy which may be exploited by our competitors and may make it more difficult to attract and retain qualified personnel and potential guests, and may affect our relationships with current guests, vendors, investors, and other third parties. In addition, a proxy contest for the election of directors at our annual meeting would require us to incur significant legal fees and proxy solicitation expenses and require significant time and attention by management and our board of directors. The perceived uncertainties as to our future direction also could affect the market price and volatility of our securities.

Anti-takeover provisions of Delaware law and our certificate of incorporation and bylaws could delay and discourage takeover attempts that stockholders may consider to be favorable.

Certain provisions of our certificate of incorporation and bylaws and applicable provisions of the Delaware General Corporation Law may make it more difficult or impossible for a third-party to acquire control of us or effect a change in our board of directors and management. These provisions include:

- the classification of our board of directors into three classes, with one class elected each year;
 - prohibiting cumulative voting in the election of directors;
 - the ability of our board of directors to issue preferred stock without stockholder approval;
 - the ability to remove a director only for cause and only with the vote of the holders of at least 66 2/3% of our voting stock;
 - a special meeting of stockholders may only be called by our chairman or Chief Executive Officer, or upon a resolution adopted by an affirmative vote of a majority of the board of directors, and not by our stockholders;
 - prohibiting stockholder action by written consent; and
- our stockholders must comply with advance notice procedures in order to nominate candidates for election to our board of directors or to place stockholder proposals on the agenda for consideration at any meeting of our stockholders.

In addition, we are governed by Section 203 of the Delaware General Corporation Law which, subject to some specified exceptions, prohibits "business combinations" between a Delaware corporation and an "interested stockholder," which is generally defined as a stockholder who becomes a beneficial owner of 15% or more of a Delaware corporation's voting stock, for a three-year period following the date that the stockholder became an interested stockholder. Section 203 could have the effect of delaying, deferring, or preventing a change in control that our stockholders might consider to be in their best interests.

ITEM 2. PROPERTIES

Our principal executive and administrative offices are located at 1818 Cornwall Avenue, Vancouver, British Columbia, Canada, V6J 1C7.

As of February 3, 2019, we operated four distribution centers located in the United States, Canada, and Australia. During fiscal 2018, we entered into a new lease for an approximately 250,000 square foot distribution center in Toronto which expires in September 2033. We expect this distribution center to be operational in fiscal 2019. In addition to those distribution centers, we hold inventory at warehouses managed by third-parties in Hong Kong, Rotterdam, and Shanghai. We regularly evaluate our distribution infrastructure and consolidate or expand our distribution capacity as we believe appropriate for our operations and to meet anticipated needs.

Table of Contents

The general location, use and approximate size of our principal owned properties as of February 3, 2019, are set forth below:

Location	Use	Approximate Square Feet
Columbus, OH	Distribution Center	310,000
Vancouver, BC	Executive and Administrative Offices	140,000
Vancouver, BC	Executive and Administrative Offices	15,000

The general location, use, approximate size and lease renewal date of our principal non-retail leased properties as of February 3, 2019, are set forth below:

Location	Use	Approximate Square Feet	Lease Renewal Date
Toronto, ON	Distribution Center (Intended)	250,000	September 2033
Sumner, WA	Distribution Center	150,000	May 2020
Vancouver, BC	Distribution Center	155,000	January 2031
Vancouver, BC	Executive and Administrative Offices	60,000	May 2020
Vancouver, BC	Executive and Administrative Offices	35,000	June 2023
Melbourne, VIC	Distribution Center	50,000	October 2022
Melbourne, VIC	Executive and Administrative Offices	25,000	August 2019
Seattle, WA	Executive and Administrative Offices	25,000	December 2028

As of February 3, 2019, we leased approximately 1.4 million gross square feet relating to 438 of our 440 stores. Our store leases generally have initial terms of between five and 10 years, and generally can be extended in five-year increments, if at all. All of our leases require a fixed annual rent, and the majority require the payment of additional rent if store sales exceed a negotiated amount. Generally, our leases are "net" leases, which require us to pay all of the cost of insurance, taxes, maintenance and utilities. We generally cannot cancel these leases at our option.

ITEM 3. LEGAL PROCEEDINGS

Please see the legal proceedings described in Note 16 to our audited consolidated financial statements included in Item 8 of Part II of this report.

Table of Contents

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information and Dividends

Our common stock is quoted on the Nasdaq Global Select Market under the symbol "LULU."

As of March 21, 2019, there were approximately 850 holders of record of our common stock. This does not include persons whose stock is in nominee or "street name" accounts through brokers.

We do not anticipate paying any cash dividends on our common stock in the foreseeable future. Any future determination as to the payment of cash dividends will be at the discretion of our board of directors and will depend on our financial condition, operating results, current and anticipated cash needs, plans for expansion, and other factors that our board of directors considers to be relevant. In addition, financial and other covenants in any instruments or agreements that we enter into in the future may restrict our ability to pay cash dividends on our common stock.

Stock Performance Graph

The graph set forth below compares the cumulative total stockholder return on our common stock between February 2, 2014 (the date of our fiscal year end five years ago) and February 3, 2019, with the cumulative total return of (i) the S&P 500 Index and (ii) S&P 500 Apparel, Accessories & Luxury Goods Index, over the same period. This graph assumes the investment of \$100 on February 2, 2014 at the closing sale price our common stock, the S&P 500 Index and the S&P Apparel, Accessories & Luxury Goods Index and assumes the reinvestment of dividends, if any. The comparisons shown in the graph below are based on historical data. We caution that the stock price performance showing in the graph below is not necessarily indicative of, nor is it intended to forecast, the potential future performance of our common stock. Information used in the graph was obtained from Bloomberg, a source believed to be reliable, but we are not responsible for any errors or omissions in such information.

Issuer Purchase of Equity Securities

The following table provides information regarding our purchases of shares of our common stock during the fourteen weeks ended February 3, 2019 related to our stock repurchase program:

Period ⁽¹⁾	Total Number of Shares Purchased ⁽²⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
October 29, 2018 - November 25, 2018	15,687	\$ 129.96	15,687	\$ 182,635,986
November 26, 2018 - December 30, 2018	914,577	116.32	914,577	76,254,474
December 31, 2018 - February 3, 2019	590,261	128.00	590,261	500,700,020
Total	1,520,525		1,520,525	

(1) Monthly information is presented by reference to our fiscal periods during our fourth quarter of fiscal 2018.

A stock repurchase program was approved by our board of directors in November 2017 for the repurchase of up to \$200 million common shares and in June 2018, our board of directors approved an increase to this stock repurchase program, authorizing the repurchase of up to a total of \$600 million of our common shares.

On January 31, 2019, our board of directors approved a new stock repurchase program of up to \$500 million of our common shares on the open market or in privately negotiated transactions. Common shares repurchased on the open market are at prevailing market prices, including under plans complying with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934. The timing and actual number of common shares to be repurchased will depend upon market conditions, eligibility to trade, and other factors. The repurchases are expected to be completed by January 2021.

The following table provides information regarding our purchases of shares of our common stock during the fourteen weeks ended February 3, 2019 related to our Employee Share Purchase Plan:

Period ⁽¹⁾	Total Number of Shares Purchased ⁽²⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾

December 31, 2018 - February 3, 2019	6,692	140.66	6,692	4,805,123
Total	23,779		23,779	

(1) Monthly information is presented by reference to our fiscal periods during our fourth quarter of fiscal 2018.

(2) Our Employee Share Purchase Plan (ESPP) was approved by our board of directors and stockholders in September 2007. All shares purchased under the ESPP are purchased on the Nasdaq Global Select Market (or such other stock exchange as we may designate from time to time). Unless our board of directors terminates the ESPP earlier, the

ESPP will continue until all shares authorized for purchase under the ESPP have been purchased. The maximum number of shares authorized to be purchased under the ESPP is 6,000,000. Excluded from this disclosure are shares repurchased to settle statutory employee tax withholding related to the vesting of stock-based compensation awards.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our fiscal year ends on the Sunday closest to January 31 of the following year, typically resulting in a 52 week year, but occasionally giving rise to an additional week, resulting in a 53 week year.

Fiscal 2018 was a 53 week year. Net revenue includes results from the 53rd week; however, total comparable sales, comparable store sales, and changes in direct to consumer net revenue exclude the 53rd week. Fiscal 2017 and fiscal 2016 were 52 week years. The following discussion and analysis should be read in conjunction with our consolidated financial statements and the related notes included elsewhere in this Annual Report on Form 10-K.

This discussion and analysis contains forward-looking statements based on current expectations that involve risks, uncertainties and assumptions, such as our plans, objectives, expectations, and intentions set forth in the "Special Note Regarding Forward-Looking Statements." Our actual results and the timing of events may differ materially from those anticipated in these forward looking statements as a result of various factors, including those set forth in the "Item 1A. Risk Factors" section and elsewhere in this Annual Report on Form 10-K.

We disclose material non-public information through one or more of the following channels: our investor relations website (<http://investor.lululemon.com/>), the social media channels identified on our investor relations website, press releases, SEC filings, public conference calls, and webcasts.

Overview

Fiscal 2018 was a particularly strong year for our company. In addition, we were happy to welcome our new CEO, Calvin McDonald. Net revenue grew 24%, and total comparable sales increased 18%. We leveraged investments made across the enterprise over the last several years, while at the same time continuing to invest in our future. We surpassed several of our fiscal 2020 goals in fiscal 2018, two years ahead of schedule. These include achieving operating margin of 21.5%, gross margin of 55.2%, and e-commerce becoming 26.1% of our global business. Fueling our performance this year was strength across our product assortment, 13% square footage growth driven by new stores and our remodel program, and a robust e-commerce business. In addition, our brand activations, local community events, and educators continue to connect us with our guests in a truly unique manner.

Our product design and development teams successfully launched new product innovations, while also leveraging our core product collections and expanding our Office/Travel/Commute category. We took several steps toward expanding our bra category by launching the Speed Up and Fine Form styles and also the Like Nothing bra, our first bra developed for all day wear. For men, we launched our Out-of-Mind short liner in our three core styles, rolled out the City Sweat collection, and further expanded our ABC pant offering with a new slim silhouette. We also expanded our outerwear assortment with more cold weather styles including the Cloudscape jacket for women and Outpour parka for men. We look forward to delivering on a strong pipeline of innovation and product roll-outs in fiscal 2019. During the year, we opened 36 net new company-operated stores, including 15 in North America, 13 in Asia Pacific, and eight in Europe. We also expanded our seasonal store strategy this year with approximately 45 seasonal stores in operation during the holiday season. These stores allow us to better cater to our guests in select markets during the holidays, while also helping introduce new guests into our brand.

As of February 3, 2019, we had 70 stores in Asia Pacific and 21 stores in Europe. We expanded into two new markets in Europe this year - France and Sweden. In Asia, we opened seven new stores in China, in addition to growing our local e-commerce presence via Tmall and launching a store on the WeChat platform.

In fiscal 2018, we leveraged the improvements we made to our websites over the past 18 months while continuing to enhance the customer experience. The sales performance of our e-commerce business was strong throughout the year, with direct to consumer revenues increasing by 45%, excluding the 53rd week of fiscal 2018. In fiscal 2019, we plan to continue to develop our omni-channel experience to serve guests wherever and however they choose to shop. We will continue to leverage our ship-from-store capabilities and build on the early success of our new buy online, pick-up in store initiative.

Our grassroots approach to brand-building - locally led by our stores, enables us to connect with and uniquely understand our guest. In fiscal 2018, we continued to hold our marquee events including our annual SeaWheeze half marathon in Vancouver, The Ghost Race in 12 cities in North America, the Sweatlife Festival in London, and Unroll

China events across multiple cities. We are also particularly pleased with our brand activations this year including our 20th birthday celebration, our donations to local community-based organizations via our Here to Be program, including on International Day of Yoga, and our announcement of 100% pay equity which closely followed International Women's Day.

Table of Contents

We look forward to continuing this strong momentum into fiscal 2019 fueled by product innovations, new store openings, remodels, and further enhancements to our e-commerce sites and supply chain.

Financial Highlights

The summary below provides both GAAP and non-GAAP financial measures. The adjusted financial measures for fiscal 2018 and 2017 exclude the amounts recognized in connection with U.S. tax reform, taxes on the repatriation of foreign earnings, and the restructuring of our ivivva operations and its related tax effects.

For the fiscal year ended February 3, 2019, compared to the fiscal year ended January 28, 2018:

• Net revenue increased 24% to \$3.3 billion. On a constant dollar basis, net revenue increased 25%.

• Excluding net revenue from the 53rd week of fiscal 2018, total comparable sales, which includes comparable store sales and direct to consumer, increased 18%. On a constant dollar basis, total comparable sales increased 18%.

• Comparable store sales increased 7%, or increased 8% on a constant dollar basis.

• Direct to consumer net revenue increased 45%, or increased 46% on a constant dollar basis.

• Gross profit increased 30% to \$1.8 billion. It increased 29% compared to adjusted gross profit in fiscal 2017.

• Gross margin increased 240 basis points to 55.2%. It increased 210 basis points compared to adjusted gross margin in fiscal 2017.

• Income from operations increased 55% to \$705.8 million. It increased 40% compared to adjusted income from operations in fiscal 2017.

• Operating margin increased 430 basis points to 21.5%. It increased 250 basis points compared to adjusted operating margin in fiscal 2017.

• Income tax expense increased 15% to \$231.4 million. Our effective tax rate for fiscal 2018 was 32.4% compared to 43.8% for fiscal 2017. The adjusted effective tax rate was 28.0% compared to 30.5% for fiscal 2017.

• Diluted earnings per share were \$3.61 for fiscal 2018 compared to \$1.90 in fiscal 2017. Adjusted diluted earnings per share were \$3.84 compared to \$2.59 for fiscal 2017.

Refer to the non-GAAP reconciliation tables contained in the "Non-GAAP Financial Measures" section of this "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" for reconciliations between constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue, and adjusted gross profit, gross margin, income from operations, operating margin, income tax expense, effective tax rates, and diluted earnings per share, and the most directly comparable measures calculated in accordance with GAAP.

General

Net revenue is comprised of company-operated store sales, direct to consumer sales through www.lululemon.com, other country and region specific websites, and mobile apps, including mobile apps on in-store devices that allow demand to be fulfilled via our distribution centers, and other net revenue, which includes outlet sales, sales from temporary locations, sales to wholesale accounts, showroom sales, license and supply arrangement net revenue which consists of royalties as well as sales of our products to licensees, and warehouse sales.

Cost of goods sold includes the cost of purchased merchandise, including freight, duty, and nonrefundable taxes incurred in delivering the goods to our distribution centers. It also includes occupancy costs and depreciation expense for our company-operated store locations, all costs incurred in operating our distribution centers and production, design, distribution, and merchandise departments, hemming, shrink, and inventory provision expense. The primary drivers of the costs of individual products are the costs of raw materials and labor in the countries where we source our merchandise.

Selling, general and administrative expenses consist of all operating costs not otherwise included in cost of goods sold or asset impairment and restructuring costs. We expect selling, general and administrative expenses to increase in fiscal 2019 as we incur additional operating expenses to support our store and direct to consumer growth, while also making strategic investments to support the long term growth of the business.

Asset impairment and restructuring costs consist of the lease termination, impairment of property and equipment, employee related costs, and other restructuring costs recognized in connection with the restructuring of our ivivva operations.

Income tax expense depends on the statutory tax rates in the countries where we sell our products and the proportion of taxable income earned in those jurisdictions. To the extent the relative proportion of taxable income in the jurisdictions fluctuates, or the tax legislation in the respective jurisdictions changes, so will our effective tax rate. We also anticipate that, in

Table of Contents

the future, we may start to sell our products through retail locations in countries in which we have not yet operated, in which case, we would become subject to taxation based on the foreign statutory rates in the countries where these sales take place and our effective tax rate could fluctuate accordingly.

Results of Operations

The following tables summarize key components of our results of operations for the periods indicated, both in dollars and as a percentage of net revenue:

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		
Net revenue	\$3,288,319	\$2,649,181	\$2,344,392

Net income	14.7 %	9.8 %	12.9 %

Comparison of Fiscal 2018 to Fiscal 2017**Net Revenue**

Net revenue increased \$639.1 million, or 24%, to \$3.3 billion in fiscal 2018 from \$2.6 billion in fiscal 2017. On a constant dollar basis, assuming the average exchange rates in fiscal 2018 remained constant with the average exchange rates in fiscal 2017, net revenue increased \$651.3 million, or 25%.

The increase in net revenue was primarily due to increased direct to consumer net revenue, net revenue generated by new company-operated stores, and an increase in comparable store sales. Total comparable sales, which includes comparable store sales and direct to consumer, and excludes net revenue of \$53.0 million from the 53rd week of fiscal 2018, increased 18% in fiscal 2018 compared to fiscal 2017. Total comparable sales increased 18% on a constant dollar basis.

Table of Contents

Our net revenue on a segment basis for fiscal 2018 and fiscal 2017 is summarized below. Net revenue is expressed in dollar amounts. The percentages are presented as a percentage of total net revenue.

	Fiscal Years Ended February 3, 2019 and January 28, 2018			
	2018	2017	2018	2017
	(In thousands)		(Percentages)	
Company-operated stores	\$2,126,363	\$1,837,065	64.7 %	69.3 %
Direct to consumer	858,856	577,590	26.1	21.8
Other	303,100	234,526	9.2	8.9
Net revenue	\$3,288,319	\$2,649,181	100.0%	100.0%

Company-Operated Stores. Net revenue from our company-operated stores segment increased \$289.3 million, or 16%, to \$2.1 billion in fiscal 2018 from \$1.8 billion in fiscal 2017. The following contributed to the increase in net revenue from our company-operated stores segment:

Net revenue from company-operated stores we opened or significantly expanded subsequent to January 28, 2018, and are therefore not included in comparable store sales, increased net revenue by \$182.7 million. During fiscal 2018 we opened 36 net new company-operated stores, including 15 stores in North America, 13 stores in Asia Pacific, and eight stores in Europe.

A comparable store sales increase of 7% in fiscal 2018 compared to fiscal 2017 resulted in a \$105.5 million increase to net revenue. Comparable store sales increased 8%, or \$111.6 million on a constant dollar basis. The increase in comparable store sales was primarily a result of increased store traffic and improved conversion rates.

Net revenue of \$32.7 million from the 53rd week of fiscal 2018, which was excluded in the calculation of comparable store sales.

These increases in net revenue were partially offset by the closure of 48 of our ivivva branded company-operated stores as part of the restructuring of our ivivva operations. These closures reduced our fiscal 2018 net revenue from company-operated stores by \$31.6 million compared to fiscal 2017.

Direct to Consumer. Net revenue from our direct to consumer segment increased \$281.3 million to \$858.9 million in fiscal 2018 from \$577.6 million in fiscal 2017. We generated net revenue of \$20.3 million in the 53rd week of fiscal 2018 from our direct to consumer segment. Excluding net revenue from the 53rd week of fiscal 2018, direct to consumer net revenue increased 45%, or increased 46% on a constant dollar basis. The increase in net revenue from our direct to consumer segment was primarily the result of increased traffic on our e-commerce websites, improved conversion rates, and increased dollar value per transaction. During the second quarter of fiscal 2017, we held online warehouse sales in the United States and Canada which generated net revenue of \$12.3 million. We did not hold any online warehouse sales during fiscal 2018.

Other. Net revenue from our other segment increased \$68.6 million, or 29%, to \$303.1 million in fiscal 2018 from \$234.5 million in fiscal 2017. This increase was primarily the result of an increased number of temporary locations, including seasonal stores, open during fiscal 2018 compared to fiscal 2017, and an increase in net revenue from existing outlets and sales to wholesale accounts during fiscal 2018 compared to fiscal 2017. The increase in net revenue from our other segment was partially offset by lower net revenue from showrooms, primarily due to a decreased number of showrooms open during fiscal 2018 compared to fiscal 2017.

Gross Profit

Gross profit increased \$417.5 million, or 30%, to \$1.8 billion in fiscal 2018 from \$1.4 billion in fiscal 2017.

Gross profit as a percentage of net revenue, or gross margin, increased 240 basis points, to 55.2% in fiscal 2018 from 52.8% in fiscal 2017. The increase in gross margin was primarily the result of:

- an increase in product margin of 210 basis points, which was primarily due to lower product costs, a favorable mix of higher margin product, and lower markdowns;

- a decrease in occupancy and depreciation costs as a percentage of revenue of 40 basis points; and

- the costs incurred in fiscal 2017 in connection with the restructuring of our ivivva operations, which reduced gross margin in fiscal 2017 by 30 basis points.

This was partially offset by an increase in costs as a percentage of revenue related to our product team departments and distribution centers of 30 basis points, and an unfavorable impact of foreign exchange rates of 10 basis points.

Table of Contents

During fiscal 2017, as a result of the restructuring of our ivivva operations, we recognized costs totaling \$8.7 million within costs of goods sold, as outlined in Note 13 to the audited consolidated financial statements included in Item 8 of Part II of this report. Excluding these charges, gross profit increased 29.0% and gross margin increased 210 basis points.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$206.2 million, or 23%, to \$1.1 billion in fiscal 2018 from \$904.3 million in fiscal 2017. The increase in selling, general and administrative expenses was primarily due to:

- an increase in costs related to our operating channels of \$135.3 million, comprised of:
 - an increase in employee costs of \$66.5 million primarily from a growth in labor hours and benefits, mainly associated with new company-operated stores and other new operating locations, and due to higher retail bonus expenses;
 - an increase in variable costs such as distribution costs, credit card fees, and packaging costs of \$43.1 million primarily as a result of increased net revenue; and
 - an increase in other costs of \$25.7 million primarily due to an increase in digital marketing expenses, brand and community costs, and other costs associated with our operating locations including security and repairs and maintenance;
- an increase in head office costs of \$65.0 million, comprised of:
 - an increase in employee costs of \$38.0 million primarily due to additional employees to support the growth in our business and increased incentive and stock-based compensation expense; and
 - an increase in other costs of \$27.0 million primarily due to an increase in brand and community costs, depreciation, professional fees, and information technology costs; and
- a decrease in net foreign exchange and derivative revaluation gains of \$5.9 million.

As a percentage of net revenue, selling, general and administrative expenses decreased 30 basis points, to 33.8% in fiscal 2018 from 34.1% in fiscal 2017.

Asset Impairment and Restructuring Costs

During fiscal 2017, we incurred asset impairment and restructuring costs totaling \$38.5 million in connection with the restructuring of our ivivva operations. This included lease termination costs of \$21.1 million, long-lived asset impairment charges of \$11.6 million, employee related costs of \$4.2 million, and other restructuring costs of \$1.6 million. We did not have any asset impairment and restructuring costs in fiscal 2018. Please refer to Note 13 to the audited consolidated financial statements included in Item 8 of Part II of this report for further information on these adjustments.

Income from Operations

Income from operations increased \$249.8 million, or 55%, to \$705.8 million in fiscal 2018 from \$456.0 million in fiscal 2017. Operating margin increased 430 basis points to 21.5% compared to 17.2% in fiscal 2017.

In connection with the restructuring of our ivivva operations, we recognized pre-tax costs totaling \$47.2 million in fiscal 2017. This included costs of \$8.7 million recognized in cost of goods sold, and asset impairment and restructuring costs totaling \$38.5 million. Excluding these charges from the comparatives of fiscal 2017, income from operations increased 40% and operating margin increased 250 basis points.

On a segment basis, we determine income from operations without taking into account our general corporate expenses and the costs we incurred in connection with the restructuring of our ivivva operations. In the first quarter of fiscal 2018, we reviewed our general corporate expenses and determined certain costs which were previously classified as general corporate expenses are more appropriately classified within our direct to consumer segment. Accordingly, comparative figures have been reclassified to conform to the financial presentation adopted for the current year.

Table of Contents

Segmented income from operations before general corporate expenses and restructuring related costs for fiscal 2018 and fiscal 2017 is summarized below and is expressed in dollar amounts. The percentages are presented as a percentage of net revenue of the respective operating segments.

	Fiscal Years Ended February 3, 2019 and January 28, 2018			
	2018	2017	2018	2017
	(In thousands)		(Percentages)	
Segmented income from operations:				
Company-operated stores	\$575,536	\$464,321	27.1 %	25.3 %
Direct to consumer	354,107	224,076	41.2	38.8
Other	62,558	35,580	20.6	15.2
	992,201	723,977		
General corporate expenses	286,365	220,753		
Restructuring and related costs	—	47,223		
Income from operations	\$705,836	\$456,001		

Company-Operated Stores. Segmented income from operations from our company-operated stores increased \$111.2 million, or 24%, to \$575.5 million for fiscal 2018 from \$464.3 million for fiscal 2017. The increase was primarily the result of increased gross profit of \$176.9 million which was primarily due to increased net revenue and higher gross margin. This was partially offset by an increase in selling, general and administrative expenses, primarily due to increased employee costs, increased store operating expenses including higher credit card fees, distribution costs, and packaging costs as a result of higher net revenue, and due to increased community, security, and repairs and maintenance costs. Income from operations as a percentage of company-operated stores net revenue increased by 180 basis points, primarily due to an increase in gross margin and leverage on selling, general and administrative expenses.

Direct to Consumer. Segmented income from operations from our direct to consumer increased \$130.0 million, or 58%, to \$354.1 million in fiscal 2018 from \$224.1 million in fiscal 2017. The increase was primarily the result of increased gross profit of \$187.0 million which was primarily due to increased net revenue and higher gross margin. This was partially offset by an increase in selling, general and administrative expenses primarily due to higher variable costs including distribution costs, credit card fees, and packaging costs as a result of higher net revenue, higher digital marketing expenses, and increased employee costs. Income from operations as a percentage of direct to consumer net revenue has increased by 240 basis points, primarily due to leverage on selling, general and administrative expenses and an increase in gross margin.

Other. Other segmented income from operations increased \$27.0 million, or 76%, to \$62.6 million in fiscal 2018 from \$35.6 million in fiscal 2017. The increase was primarily the result of increased gross profit of \$44.9 million which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses, including increased employee costs, increased operating expenses including higher distribution costs and higher credit card fees as a result of higher net revenue, and due to higher community costs. Income from operations as a percentage of other net revenue increased 540 basis points, primarily due to an increase in gross margin and leverage on selling, general and administrative expenses.

General Corporate Expenses. General corporate expenses increased \$65.6 million, or 30%, to \$286.4 million in fiscal 2018 from \$220.8 million in fiscal 2017. This increase was primarily due to increases in head office employee costs, brand and community costs, depreciation, information technology costs, and professional fees and a decrease in net foreign exchange and derivative gains of \$5.9 million. We expect general corporate expenses to continue to increase in future years as we grow our overall business and require increased efforts at our head office to support our company-operated stores, direct to consumer and other segments.

Other Income (Expense), Net

There was net other income of \$9.4 million in fiscal 2018 compared to \$4.0 million in fiscal 2017. The increase was primarily due to higher rates of return on our cash and cash equivalents, including money market funds, treasury bills, and term deposits in fiscal 2018 compared to fiscal 2017. This was partially offset by an increase in interest expense, primarily related to borrowings on our revolving credit facility during fiscal 2018. We repaid the outstanding balance on our revolving credit facility during the third quarter of fiscal 2018 and had no other borrowings outstanding under this credit facility as of February 3, 2019.

Table of Contents**Income Tax Expense**

Income tax expense increased \$30.1 million, or 15%, to \$231.4 million in fiscal 2018 from \$201.3 million in fiscal 2017.

U.S. tax reform was enacted on December 22, 2017 and introduced significant changes to U.S. income tax law. In fiscal 2017, we recognized a provisional income tax expense of \$59.3 million in relation to U.S. tax reform. We completed the accounting for the income tax effects of U.S. tax reform during fiscal 2018. This resulted in the recognition of an additional tax expense of \$7.5 million related to the mandatory one-time transition tax on the deemed repatriation of accumulated undistributed earnings of foreign subsidiaries.

In fiscal 2018, we also completed our assessment of the impact that U.S. tax reform has upon repatriation taxes, our reinvestment plans, and the most efficient means of deploying our capital resources globally. We concluded that the net investment in a Canadian subsidiary in excess of the amounts necessary to sustain our business operations would no longer be indefinitely reinvested and \$778.9 million was repatriated from that subsidiary. This resulted in the recognition of a tax expense of \$23.7 million in fiscal 2018.

During fiscal 2017, we recognized an income tax recovery of \$12.7 million related to the tax effect of the costs recognized in connection with the ivivva restructuring.

Further information on the adjustments recognized in both fiscal 2018 and fiscal 2017 is outlined in Note 14 to the audited consolidated financial statements included in Item 8 of Part II of this report.

Our effective tax rate for fiscal 2018 was 32.4% compared to 43.8% for fiscal 2017. Our effective tax rate excluding the above tax adjustments related to U.S. tax reform and the ivivva restructuring was 28.0% for fiscal 2018 compared to 30.5% for fiscal 2017. The decrease in our adjusted effective tax rate was primarily due to the lower U.S. federal income tax rate which was effective January 1, 2018, a decrease in state taxes, an increase in tax deductions related to stock-based compensation, increased research and development tax credits, and certain other adjustments.

Net Income

Net income increased \$225.1 million, or 87%, to \$483.8 million in fiscal 2018 from \$258.7 million in fiscal 2017. The increase in net income in fiscal 2018 was primarily due to an increase in gross profit of \$417.5 million, a reduction in asset impairment and restructuring costs of \$38.5 million, and an increase in other income (expense), net of \$5.4 million, partially offset by an increase in selling, general and administrative expenses of \$206.2 million and an increase in income tax expense of \$30.1 million.

Comparison of Fiscal 2017 to Fiscal 2016**Net Revenue**

Net revenue increased \$304.8 million, or 13%, to \$2.6 billion in fiscal 2017 from \$2.3 billion in fiscal 2016. On a constant dollar basis, assuming the average exchange rates in fiscal 2017 remained constant with the average exchange rates in fiscal 2016, net revenue increased \$290.6 million, or 12%.

The increase in net revenue was primarily due to net revenue generated by new company-operated stores as well as increased direct to consumer net revenue. Total comparable sales, which includes comparable store sales and direct to consumer, increased 7% in fiscal 2017 compared to fiscal 2016. Total comparable sales increased 7% on a constant dollar basis.

Our net revenue on a segment basis for fiscal 2017 and fiscal 2016 is summarized below. Net revenue is expressed in dollar amounts. The percentages are presented as a percentage of total net revenue.

	Fiscal Years Ended January 28, 2018 and January 29, 2017			
	2017	2016	2017	2016
	(In thousands)		(Percentages)	
Company-operated stores	\$1,837,065	\$1,704,357	69.3 %	72.7 %
Direct to consumer	577,590	453,287	21.8	19.3
Other	234,526	186,748	8.9	8.0
Net revenue	\$2,649,181	\$2,344,392	100.0%	100.0%

Company-Operated Stores. Net revenue from our company-operated stores segment increased \$132.7 million, or 8%, to \$1.8 billion in fiscal 2017 from \$1.7 billion in fiscal 2016. The following contributed to the increase in net revenue from our company-operated stores segment:

25

Table of Contents

Net revenue from company-operated stores we opened or significantly expanded subsequent to January 29, 2017, and are therefore not included in comparable store sales, increased net revenue by \$146.5 million. During fiscal 2017 we opened 46 net new lululemon branded company-operated stores, including 30 stores in North America, 14 stores in Asia Pacific, and two stores in Europe.

A comparable store sales increase of 1% in fiscal 2017 compared to fiscal 2016 resulted in a \$12.8 million increase to net revenue. Comparable store sales increased 1%, or \$5.4 million on a constant dollar basis. The increase in comparable store sales was primarily a result of improved conversion rates and increased dollar value per transaction. This was partially offset by a decrease in store traffic, due in part to shifting retail traffic trends from in-store to online.

These increases in net revenue were partially offset by the closure of 48 of our ivivva branded company-operated stores as part of the restructuring of our ivivva operations. These closures reduced our fiscal 2017 net revenue from company-operated stores by \$26.6 million compared to fiscal 2016.

Direct to Consumer. Net revenue from our direct to consumer segment increased \$124.3 million, or 27%, to \$577.6 million in fiscal 2017 from \$453.3 million in fiscal 2016. Direct to consumer net revenue increased 27% on a constant dollar basis. The increase in net revenue from our direct to consumer segment was primarily the result of increased traffic on our e-commerce websites, improved conversion rates, and increased dollar value per transaction. During the second quarter of fiscal 2017, we held online warehouse sales in the United States and Canada which generated net revenue of \$12.3 million. We did not hold any online warehouse sales during fiscal 2016. Excluding the impact of the online warehouse sales, direct to consumer net revenue increased 25%.

Other. Net revenue from our other segment increased \$47.8 million, or 26%, to \$234.5 million in fiscal 2017 from \$186.7 million in fiscal 2016. This increase was primarily the result of an increase in the number of outlets, increased net revenue at existing outlets, and an increase in the number of temporary locations. The increase in net revenue from our other segment was partially offset by lower net revenue from showrooms, primarily due to a decrease in the number of showrooms open during fiscal 2017 compared to fiscal 2016.

Gross Profit

Gross profit increased \$199.2 million, or 17%, to \$1.4 billion in fiscal 2017 from \$1.2 billion in fiscal 2016.

Gross profit as a percentage of net revenue, or gross margin, increased 160 basis points, to 52.8% in fiscal 2017 from 51.2% in fiscal 2016. The increase in gross margin was primarily the result of:

- an increase in product margin of 200 basis points which was primarily due to lower product costs and a favorable mix of higher margin product, partially offset by higher markdowns, and higher shrink and damages; and
- a favorable impact of foreign exchange rates of 10 basis points.

This was partially offset by an increase in fixed costs related to our product and supply chain departments of 20 basis points, and costs incurred in connection with the restructuring of our ivivva operations of 30 basis points.

During fiscal 2017, as a result of the restructuring of our ivivva operations, we recognized costs totaling \$8.7 million within costs of goods sold, as outlined in Note 13 to the audited consolidated financial statements included in Item 8 of Part II of this report. Excluding these charges, adjusted gross profit increased 17.3% to \$1.4 billion and adjusted gross margin increased 190 basis points to 53.1% compared to fiscal 2016.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$125.8 million, or 16%, to \$904.3 million in fiscal 2017 from \$778.5 million in fiscal 2016. The increase in selling, general and administrative expenses was primarily due to:

- an increase in costs related to our operating channels of \$91.4 million, comprised of:
 - an increase in employee costs of \$32.8 million primarily from a growth in labor hours and benefits, mainly associated with new company-operated stores and other new operating locations;
 - an increase in variable costs such as distribution costs and credit card fees of \$16.4 million primarily as a result of increased net revenue; and
 - an increase in other costs of \$42.2 million primarily due to an increase in digital marketing expenses, website related costs including photography costs, brand and community costs, information technology related costs, and other costs associated with our operating locations;

Table of Contents

an increase in head office costs of \$50.0 million, comprised of:

an increase in employee costs of \$19.3 million primarily due to additional employees to support the growth in our business; and

an increase in other costs of \$30.7 million primarily due to increases in information technology related costs, brand and community costs, and professional fees.

The increase in selling, general, and administrative expenses was partially offset by an increase in net foreign exchange and derivative gains of \$15.6 million. There were net foreign exchange and derivative gains of \$7.3 million in fiscal 2017 compared to net foreign exchange losses of \$8.3 million in fiscal 2016. The net foreign exchange gains and losses primarily relate to the revaluation of U.S. dollar denominated monetary assets and liabilities held by Canadian subsidiaries. During fiscal 2017, we began entering into forward currency contracts designed to economically hedge these foreign exchange revaluation gains and losses. We have not applied hedge accounting to these instruments and the change in fair value of these derivatives is recorded within selling, general and administrative expenses.

As a percentage of net revenue, selling, general and administrative expenses increased 90 basis points, to 34.1% in fiscal 2017 from 33.2% in fiscal 2016.

Asset Impairment and Restructuring Costs

As a result of the restructuring of our ivivva operations, we recognized asset impairment and restructuring costs of \$38.5 million in fiscal 2017. This includes lease termination costs of \$21.1 million, long-lived asset impairment charges of \$11.6 million, employee related costs of \$4.2 million, and other restructuring costs of \$1.6 million. We did not have any asset impairment and restructuring costs in fiscal 2016. Please refer to Note 13 to the audited consolidated financial statements included in Item 8 of Part II of this report for further information on these adjustments.

Income from Operations

Income from operations increased \$34.8 million, or 8%, to \$456.0 million in fiscal 2017 from \$421.2 million in fiscal 2016. Operating margin decreased 80 basis points to 17.2% compared to 18.0% in fiscal 2016.

In connection with the restructuring of our ivivva operations, we recognized pre-tax costs totaling \$47.2 million in fiscal 2017. This includes asset impairment and restructuring costs of \$38.5 million and costs recognized in cost of goods sold totaling \$8.7 million. Excluding these charges, adjusted income from operations increased 19% to \$503.2 million and adjusted operating margin increased 100 basis points to 19.0%.

On a segment basis, we determine income from operations without taking into account our general corporate expenses and the costs we incur in connection with the restructuring of our ivivva operations. In the first quarter of fiscal 2018, we reviewed our general corporate expenses and determined certain costs which were previously classified as general corporate expenses are more appropriately classified within our direct to consumer segment. Accordingly, comparative figures have been reclassified to conform to the financial presentation adopted for the current year. Segmented income from operations before general corporate expenses and restructuring related costs for fiscal 2017 and fiscal 2016 is summarized below and is expressed in dollar amounts. The percentages are presented as a percentage of net revenue of the respective operating segments.

	Fiscal Years Ended January 28, 2018 and January 29, 2017			
	2017	2016	2017	2016
	(In thousands)		(Percentages)	
Segmented income from operations:				
Company-operated stores	\$464,321	\$415,635	25.3 %	24.4 %
Direct to consumer	224,076	179,995	38.8	39.7
Other	35,580	22,312	15.2	11.9
	723,977	617,942		
General corporate expenses	220,753	196,790		
Restructuring and related costs	47,223	—		

Income from operations	\$456,001	\$421,152
------------------------	-----------	-----------

Table of Contents

Company-Operated Stores. Segmented income from operations from our company-operated stores increased \$48.7 million, or 12%, to \$464.3 million for fiscal 2017 from \$415.6 million for fiscal 2016. The increase was primarily the result of an increase in gross profit of \$89.4 million, which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses, including increased store employee costs, increased brand and community costs, and increased operating expenses associated with higher net revenues and new stores. Income from operations as a percentage of company-operated stores net revenue increased by 90 basis points primarily due to increased gross margin, partially offset by deleverage of selling, general and administrative expenses.

Direct to Consumer. Segmented income from operations from our direct to consumer increased \$44.1 million, or 24%, to \$224.1 million in fiscal 2017 from \$180.0 million in fiscal 2016. The increase was primarily the result of an increase in gross profit of \$88.7 million, which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses including higher digital marketing expenses, website related costs, and higher variable costs such as packaging, distribution and credit card fees as a result of higher net revenue. Income from operations as a percentage of direct to consumer net revenue has decreased by 90 basis points primarily due to deleverage of selling, general and administrative expenses, partially offset by an increase in gross margin.

Other. Other segmented income from operations increased \$13.3 million, or 59%, to \$35.6 million in fiscal 2017 from \$22.3 million in fiscal 2016. The increase was primarily the result of increased gross profit of \$29.8 million, which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses, including increased employee costs, increased brand and community costs, and increased operating expenses associated with new locations and higher net revenues.

Income from operations as a percentage of other net revenue increased 330 basis points primarily due to an increase in gross margin partially offset by deleverage of selling, general and administrative expenses as a percentage of other net revenue.

General Corporate Expenses. General corporate expenses increased \$24.0 million, or 12%, to \$220.8 million in fiscal 2017 from \$196.8 million in fiscal 2016. This increase was primarily due to increased head office employee costs, a global brand campaign, increases in other brand and community costs, professional fees, depreciation, and information technology related costs. These increases were partially offset by an increase in net foreign exchange and derivative gains of \$15.6 million. There were net foreign exchange and derivative gains of \$7.3 million in fiscal 2017 compared to net foreign exchange losses of \$8.3 million in fiscal 2016. We expect general corporate expenses to continue to increase in future years as we grow our overall business and require increased efforts at our head office to support our company-operated stores, direct to consumer and other segments.

Other Income (Expense), Net

There was net other income of \$4.0 million in fiscal 2017 compared to \$1.6 million in fiscal 2016. The increase was primarily due to increased net interest income in fiscal 2017 compared to fiscal 2016. The increase in net interest income was primarily due to a net interest expense of \$1.7 million which was recorded in fiscal 2016 in relation to certain tax adjustments that are outlined in Note 14 to the audited consolidated financial statements included in Item 8 of Part II of this report, as well as interest earned on our increased cash and cash equivalents in fiscal 2017 compared to fiscal 2016.

Income Tax Expense

Income tax expense increased \$82.0 million, or 69%, to \$201.3 million in fiscal 2017 from \$119.3 million in fiscal 2016.

In fiscal 2017 we recorded certain discrete tax adjustments which resulted in a net \$46.6 million increase in income tax expense. These adjustments related to the U.S. Tax Cuts and Jobs Act and to the ivivva restructuring. In fiscal 2016 we recorded certain separate tax adjustments related to the Company's transfer pricing arrangements between Canada and the U.S. The adjustments in fiscal 2016 resulted in an income tax recovery of \$10.7 million.

On December 22, 2017, legislation commonly referred to as the U.S. Tax Cuts and Jobs Act ("U.S. tax reform") was enacted. U.S. tax reform made significant changes to corporate income tax in the United States, including reducing the

federal income tax rate from 35% to 21% and imposing a mandatory transition tax on accumulated foreign subsidiary earnings which have not previously been subject to U.S. income tax. As a result of these tax legislation changes we have recognized a provisional income tax expense of \$58.9 million for the mandatory transition tax and we have remeasured our deferred income assets and liabilities, resulting in a provisional deferred income tax expense of \$0.4 million. In fiscal 2017 we also recognized an income tax recovery of \$12.7 million related to the tax effect of the costs recognized in connection with the ivivva restructuring.

In fiscal 2016 we recognized an income tax recovery of \$10.7 million as a result of the finalization of an Advance Pricing Arrangement with the Internal Revenue Service and the Canada Revenue Agency. This agreement determines the amount of

Table of Contents

income which is taxable in each respective jurisdiction, and the final terms of the arrangement resulted in an increased amount of income tax recoverable in the United States.

Further information on the adjustments recognized in both fiscal 2017 and fiscal 2016 is outlined in Notes 13 and 14 to the audited consolidated financial statements included in Item 8 of Part II of this report.

Our effective tax rate for fiscal 2017 was 43.8% compared to 28.2% for fiscal 2016. Our effective tax rate excluding the above tax and related interest adjustments was 30.5% for fiscal 2017 compared to 30.7% for fiscal 2016. The decrease in our adjusted effective tax rate was primarily due to the lower U.S. federal income tax rate which was effective January 1, 2018, a decrease in state taxes, and certain other adjustments.

Net Income

Net income decreased \$44.7 million, or 15%, to \$258.7 million in fiscal 2017 from \$303.4 million in fiscal 2016. The decrease in net income in fiscal 2017 was primarily due to an increase of \$125.8 million in selling, general and administrative expenses, an increase of \$82.0 million in income tax expense, and asset impairment and restructuring costs of \$38.5 million recognized in fiscal 2017, partially offset by a \$199.2 million increase in gross profit and an increase in other income (expense), net of \$2.4 million.

Comparable Sales

We separately track comparable store sales, which reflect net revenue from company-operated stores that have been open, or open after being significantly expanded, for at least 12 full fiscal months. Net revenue from a store is included in comparable store sales beginning with the first fiscal month for which the store has a full fiscal month of sales in the prior year. Comparable store sales exclude sales from new stores that have not been open for at least 12 full fiscal months, from stores which have not been in their significantly expanded space for at least 12 full fiscal months, from stores which have been temporarily relocated for renovations, and week 53 net revenue, if applicable. Comparable store sales also exclude sales from direct to consumer, outlets, temporary locations, wholesale accounts, showrooms, through license and supply arrangements, warehouse sales, and sales from company-operated stores that we have closed.

Total comparable sales combines comparable store sales and direct to consumer sales. We are evolving towards an omni-channel approach to support the shopping behavior of our guests. This involves country and region specific websites, mobile apps, including mobile apps on in-store devices that allow demand to be fulfilled via our distribution centers, social media, product notification emails, and online order fulfillment through stores. We therefore believe that reporting total comparable sales with comparable store sales and direct to consumer sales combined provides a relevant performance metric. Total comparable sales, including comparable store sales and direct to consumer sales, exclude week 53 of net revenue, if applicable.

Various factors affect comparable sales, including:

- the location of new stores relative to existing stores;
- consumer preferences, buying trends, and overall economic trends;
- our ability to anticipate and respond effectively to customer preferences for technical athletic apparel;
- competition;
- changes in our merchandise mix;
- pricing;
- the timing of our releases of new merchandise and promotional events;
- the effectiveness of our marketing efforts;
- the design and ease of use of our websites and mobile apps;
- the level of customer service that we provide in our stores and on our websites and mobile apps;
- our ability to source and distribute products efficiently; and
- the number of stores we open, close (including for temporary renovations), and expand in any period.

Opening new stores and expanding existing stores is an important part of our growth strategy. Accordingly, total comparable sales has limited utility for assessing the success of our growth strategy insofar as comparable sales do not reflect the performance of stores opened, or significantly expanded, within the last 12 full fiscal months. The comparable sales measures we report may not be equivalent to similarly titled measures reported by other companies.

Table of Contents

Non-GAAP Financial Measures

Constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue, and the adjusted financial results are non-GAAP financial measures.

A constant dollar basis assumes the average foreign exchange rates for the period remained constant with the average foreign exchange rates for the same period of the prior year. We provide constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue because we use these measures to understand the underlying growth rate of net revenue excluding the impact of changes in foreign exchange rates. We believe that disclosing these measures on a constant dollar basis is useful to investors because it enables them to better understand the level of growth of our business.

Adjusted gross profit, gross margin, income from operations, operating margin, income tax expense, effective tax rates, and diluted earnings per share exclude the amounts recognized in connection with U.S. tax reform, the costs and related tax effects recognized in connection with the restructuring of our ivivva operations, and certain discrete items related to our transfer pricing arrangements and taxes on repatriation of foreign earnings. We believe these adjusted financial measures are useful to investors as the adjustments do not directly relate to our ongoing business operations and therefore do not contribute to a meaningful evaluation of the trend in our operating performance. Furthermore, we do not believe the adjustments are reflective of our expectations of our future operating performance and believe these non-GAAP measures are useful to investors because of their comparability to our historical information.

The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or with greater prominence to, the financial information prepared and presented in accordance with GAAP. A reconciliation of the non-GAAP financial measures follows, which includes more detail on the GAAP financial measure that is most directly comparable to each non-GAAP financial measure, and the related reconciliations between these financial measures.

The below changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue show the change compared to the corresponding period in the prior year. Total comparable sales, comparable store sales, and changes in direct to consumer net revenue calculations exclude net revenue from the 53rd week of fiscal 2018.

Table of Contents

Constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue

	Fiscal Year Ended February 3, 2019 (In thousands)(Percentages)			Fiscal Year Ended January 28, 2018 (In thousands)(Percentages)		
Change in net revenue	\$639,138	24	%	\$304,789	13	%
Adjustments due to foreign exchange rate changes	12,116	1		(14,221)	(1)	
Change in net revenue in constant dollars	\$651,254	25	%	\$290,568	12	%

	Fiscal Year Ended February 3, 2019			Fiscal Year Ended January 28, 2018		
Change in total comparable sales ^{(1),(2),(3)}	18%	7	%			
Adjustments due to foreign exchange rate changes	—	—				
Change in total comparable sales in constant dollars ^{(1),(2),(3)}	18%	7	%			

	Fiscal Year Ended February 3, 2019 (In thousands)(Percentages)			Fiscal Year Ended January 28, 2018 (In thousands)(Percentages)		
Change in comparable store sales ^{(2),(3)}	\$105,452	7	%	\$12,820	1	%
Adjustments due to foreign exchange rate changes	6,129	1		(7,395)	—	
Change in comparable store sales in constant dollars ^{(2),(3)}	\$111,581	8	%	\$5,425	1	%

	Fiscal Year Ended February 3, 2019			Fiscal Year Ended January 28, 2018		
Change in direct to consumer net revenue ⁽³⁾	45%	27	%			
Adjustments due to foreign exchange rate changes	1	—				
Change in direct to consumer net revenue in constant dollars ⁽³⁾	46%	27	%			

⁽¹⁾ Total comparable sales includes comparable store sales and direct to consumer sales.

⁽²⁾ Comparable store sales reflects net revenue from company-operated stores that have been open for at least 12 full fiscal months, or open for at least 12 full fiscal months after being significantly expanded.

⁽³⁾ Net revenue from the 53rd week of fiscal 2018 is excluded from the calculation.

Table of Contents

Adjusted financial measures

The following tables reconcile adjusted financial measures with the most directly comparable measures calculated in accordance with GAAP. The adjustments relate to the amounts recognized in connection with U.S. tax reform, taxes on repatriation of foreign earnings, the restructuring of our ivivva operations and its related tax effects, and certain discrete items related to our transfer pricing arrangements. Please refer to Notes 13 and 14 to the audited consolidated financial statements included in Item 8 of Part II of this report for further information on these adjustments.

Fiscal Year Ended February 3, 2019

Liquidity and Capital Resources

Our primary sources of liquidity are our current balances of cash and cash equivalents, cash flows from operations, and capacity under our revolving credit facility. Our primary cash needs are capital expenditures for opening new stores and

Table of Contents

remodeling or relocating existing stores, investing in information technology and making system enhancements, funding working capital requirements, and making other strategic capital investments both in North America and internationally. We may also use cash to repurchase shares of our common stock. Cash and cash equivalents in excess of our needs are held in interest bearing accounts with financial institutions.

As of February 3, 2019, our working capital (excluding cash and cash equivalents) was \$47.5 million, our cash and cash equivalents were \$881.3 million and our capacity under our revolving credit facility was \$398.5 million. The following table summarizes our net cash flows provided by and used in operating, investing, and financing activities for the periods indicated:

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		
Total cash provided by (used in):			
Operating activities	\$742,779	\$489,337	\$386,392
Investing activities	(242,794)	(173,392)	(149,511)
Financing activities	(590,214)	(97,862)	(26,611)
Effect of exchange rate changes on cash	(18,952)	37,572	23,094
(Decrease) increase in cash and cash equivalents	\$(109,181)	\$255,655	\$233,364

Operating Activities

Cash flows provided by operating activities consist primarily of net income adjusted for certain items including depreciation and amortization, stock-based compensation expense, and the effect of changes in operating assets and liabilities.

Net cash provided by operating activities increased \$253.4 million in fiscal 2018 compared to fiscal 2017, primarily as a result of the following:

Net income and non-cash items

an increase of \$225.1 million in net income; and

an increase of \$20.1 million in non-cash expenses, primarily due to the following:

an increase in deferred income taxes, depreciation, and stock-based compensation;

— partially offset by the settlement of derivatives not designated in a hedging relationship and a decrease in asset impairment costs related to the restructuring of our ivivva operations.

Changes in operating assets and liabilities

an increase of \$8.2 million in the change in operating assets and liabilities, primarily due to the following:

— an increase of \$73.5 million related to accounts payable, primarily due to a change in our payment terms;

— an increase of \$28.7 million related to accrued compensation and related expenses, primarily due to the timing of salary payments, increased incentive compensation costs, and an increased number of employees; partially offset by an increase of \$64.1 million related to inventory, primarily due to an increase in inventory purchases, and a decrease of \$18.0 million in income taxes.

In fiscal 2017, net cash provided by operating activities increased \$102.9 million compared to fiscal 2016, primarily as a result of the following:

Changes in operating assets and liabilities

an increase of \$104.0 million in the change in operating assets and liabilities, primarily due to the following:

\$62.5 million related to income taxes, primarily due to income taxes payable in relation to U.S. tax reform;

\$31.8 million related to other accrued and non-current liabilities, primarily due to changes in accrued operating expenses, forward currency contract liabilities, and tenant inducements.

Table of Contents

Net income and non-cash items

a decrease of \$44.7 million in net income, partially offset by an increase of \$43.6 million in non-cash expenses primarily related to asset impairment costs related to the restructuring of our ivivva operations, and an increase in depreciation.

Investing Activities

Cash flows used in investing activities relate to capital expenditures, the settlement of net investment hedges, and other investing activities. Cash used in investing activities increased \$69.4 million, to \$242.8 million in fiscal 2018 from \$173.4 million in fiscal 2017. Cash used in investing activities increased \$23.9 million, to \$173.4 million in fiscal 2017 from \$149.5 million in fiscal 2016.

Capital expenditures for our company-operated stores segment were \$129.2 million, \$80.2 million, \$75.3 million in fiscal 2018, fiscal 2017, and fiscal 2016, respectively. The capital expenditures for our company-operated stores segment in each period were primarily for the remodeling or relocation of certain stores, for opening new company-operated stores, and ongoing store refurbishment. The increase in capital expenditures for our company-operated stores segment was primarily due to an increased number of store remodels and relocations including approximately 55 in fiscal 2018, 40 in fiscal 2017, and 30 in fiscal 2016. The capital expenditures for our company-operated stores segment also included \$27.1 million to open 39 company-operated stores, \$29.3 million to open 49 company-operated stores, and \$30.6 million to open 46 new company-operated stores, in fiscal 2018, fiscal 2017, and fiscal 2016, respectively.

Capital expenditures for our direct to consumer segment were \$6.4 million, \$19.9 million, and \$11.5 million in fiscal 2018, fiscal 2017, and fiscal 2016, respectively. The capital expenditures for our direct to consumer segment in fiscal 2018 were primarily related to our global and region specific websites as well as mobile apps, and in fiscal 2017 and 2016 were primarily related to our global website redesign as well as mobile app enhancements.

Capital expenditures related to corporate activities and other were \$90.2 million, \$57.7 million, and \$62.7 million in fiscal 2018, fiscal 2017, and fiscal 2016, respectively. The capital expenditures in each fiscal year were primarily related to investments in information technology and business systems, improvements at our head office and other corporate buildings, and for capital expenditures related to opening retail locations other than company-operated stores. In fiscal 2018, we also undertook various information technology infrastructure and corporate system initiatives. This included the continued development and implementation of our new enterprise resource planning system that will help improve our merchandising, costing, allocation, and inventory platforms.

Capital expenditures are expected to range between \$265 million and \$275 million in fiscal 2019.

Financing Activities

Cash flows used in or provided by financing activities consist primarily of cash used to repurchase shares of our common stock and certain cash flows related to stock-based compensation.

Cash used in financing activities increased \$492.4 million, to \$590.2 million in fiscal 2018 from \$97.9 million in fiscal 2017. Cash used in financing activities increased \$71.3 million, to \$97.9 million in fiscal 2017 from \$26.6 million in fiscal 2016. The primary cause of these changes in cash used in financing activities was our stock repurchase programs.

During the fiscal years ended February 3, 2019, January 28, 2018, and January 29, 2017, 4.9 million, 1.9 million, and 0.5 million shares, respectively, were repurchased under the programs at a total cost of \$598.3 million, \$100.3 million, and \$29.3 million, respectively. During the second quarter of fiscal 2018, we repurchased 3.3 million shares in a private transaction. The other common stock was repurchased in the open market at prevailing market prices, including under plans complying with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934, with the timing and actual number of shares repurchased depending upon market conditions, eligibility to trade, and other factors.

We believe that our cash and cash equivalent balances, cash generated from operations, and borrowings available to us under our revolving credit facility will be adequate to meet our liquidity needs and capital expenditure requirements for at least the next 12 months. Our cash from operations may be negatively impacted by a decrease in demand for our products as well as the other factors described in "Item 1A. Risk Factors". In addition, we may make discretionary

capital improvements with respect to our stores, distribution facilities, headquarters, or systems, or we may repurchase shares under an approved stock repurchase program, which we would expect to fund through the use of cash, issuance of debt or equity securities or other external financing sources to the extent we were unable to fund such capital expenditures out of our cash and cash equivalents and cash generated from operations.

Table of Contents

Revolving Credit Facility

On December 15, 2016, we entered into a credit agreement for \$150.0 million under an unsecured five-year revolving credit facility. Bank of America, N.A., is administrative agent and HSBC Bank Canada is the syndication agent and letter of credit issuer, and the lenders party thereto. Borrowings under the revolving credit facility may be made, in U.S. Dollars, Euros, Canadian Dollars, and in other currencies, subject to the approval of the administrative agent and the lenders. Up to \$35.0 million of the revolving credit facility is available for the issuance of letters of credit and up to \$25.0 million is available for the issuance of swing line loans. Commitments under the revolving credit facility may be increased by up to \$200.0 million, subject to certain conditions, including the approval of the lenders. Borrowings under the agreement may be prepaid and commitments may be reduced or terminated without premium or penalty (other than customary breakage costs). The principal amount outstanding under the credit agreement, if any, will be due and payable in full on December 15, 2021, subject to provisions that permit us to request a limited number of one year extensions annually.

Borrowings made under the revolving credit facility bear interest at a rate per annum equal to, at our option, either (a) a rate based on the rates applicable for deposits on the interbank market for U.S. Dollars or the applicable currency in which the borrowings are made ("LIBOR") or (b) an alternate base rate, plus, in each case, an applicable margin. The applicable margin is determined by reference to a pricing grid, based on the ratio of indebtedness to earnings before interest, tax depreciation, amortization, and rent ("EBITDAR") and ranges between 1.00%-1.75% for LIBOR loans and 0.00%-0.75% for alternate base rate loans. Additionally, a commitment fee of between 0.125%-0.200%, also determined by reference to the pricing grid, is payable on the average daily unused amounts under the revolving credit facility.

The credit agreement contains negative covenants that, among other things and subject to certain exceptions, limit the ability of our subsidiaries to incur indebtedness, incur liens, undergo fundamental changes, make dispositions of all or substantially all of their assets, alter their businesses and enter into agreements limiting subsidiary dividends and distributions.

We are also required to maintain a consolidated rent-adjusted leverage ratio of not greater than 3.50:1.00 and we are not permitted to allow the ratio of consolidated EBITDAR to consolidated interest charges (plus rent) to be less than 2.00:1.00. The credit agreement also contains certain customary representations, warranties, affirmative covenants, and events of default (including, among others, an event of default upon the occurrence of a change of control). If an event of default occurs, the credit agreement may be terminated, and the maturity of any outstanding amounts may be accelerated.

On June 6, 2018, we entered into Amendment No. 1 to the credit agreement. The Amendment amends the credit agreement to provide for (i) an increase in the aggregate commitments under the unsecured five-year revolving credit facility to \$400.0 million, with an increase of the sub-limits for the issuance of letters of credit and extensions of swing line loans to \$50.0 million for each, (ii) an increase in the option, subject to certain conditions as set forth in the credit agreement, to request increases in commitments under the revolving facility from \$400.0 million to \$600.0 million and (iii) an extension in the maturity of the revolving facility from December 15, 2021 to June 6, 2023.

In addition, the Amendment decreases the applicable margins for LIBOR loans from 1.00%-1.75% to 1.00%-1.50% and for alternate base rate loans from 0.00%-0.75% to 0.00%-0.50%, reduces the commitment fee on average daily unused amounts under the revolving facility from 0.125%-0.200% to 0.10%-0.20%, and reduces fees for unused letters of credit from 1.00%-1.75% to 1.00%-1.50%.

As of February 3, 2019, aside from letters of credit of \$1.5 million, we had no other borrowings outstanding under this credit facility.

Contractual Obligations and Commitments

Leases. We lease certain store and other retail locations, distribution centers, offices, and equipment under non-cancelable operating leases. Our leases generally have initial terms of between five and 10 years, and generally can be extended in five-year increments, if at all. A substantial number of our leases include renewal options and certain of our leases include rent escalation clauses, rent holidays and leasehold rental incentives, none of which are reflected in the table below. The majority of our leases for store premises also include contingent rental payments

based on sales, the impact of which also are not reflected in the table below.

Product purchase obligations. The amounts listed for product purchase obligations in the table below represent agreements (including open purchase orders) to purchase products in the ordinary course of business that are enforceable and legally binding and that specify all significant terms. In some cases, prices are subject to change throughout the production process. The reported amounts exclude product purchase liabilities included in accounts payable and accrued inventory liabilities as of February 3, 2019.

One-time transition tax. As outlined in Note 14 to our audited consolidated financial statements included in Item 8 of Part II of this report, U.S. tax reform imposed a mandatory transition tax on accumulated foreign subsidiary earnings which have

Table of Contents

not previously been subject to U.S. income tax. The one-time transition tax is payable over eight years beginning in fiscal 2018. The table below outlines the expected payments due by fiscal year.

The following table summarizes our contractual arrangements as of February 3, 2019, and the timing and effect that such commitments are expected to have on our liquidity and cash flows in future periods:

	Payments Due by Fiscal Year						
	Total	2019	2020	2021	2022	2023	Thereafter
	(In thousands)						
Operating leases (minimum rent)	\$783,913	\$169,822	\$147,541	\$123,032	\$99,471	\$73,213	\$170,834
Product purchase obligations	387,917	387,132	785	—	—	—	—
One-time transition tax payable	46,108	4,009	4,009	4,009	4,009	7,518	22,554

Off-Balance Sheet Arrangements

We enter into standby letters of credit to secure certain of our obligations, including leases, taxes, and duties. As of February 3, 2019, letters of credit totaling \$1.5 million had been issued.

We have not entered into any transactions, agreements or other contractual arrangements to which an entity unconsolidated with us is a party and under which we have (i) any obligation under a guarantee, (ii) any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity, (iii) any obligation under derivative instruments that are indexed to our shares and classified as equity in our consolidated balance sheets, or (iv) any obligation arising out of a variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. Predicting future events is inherently an imprecise activity and, as such, requires the use of judgment. Actual results may vary from our estimates in amounts that may be material to the financial statements. An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact our consolidated financial statements.

We believe that the following critical accounting policies affect our more significant estimates and judgments used in the preparation of our consolidated financial statements:

Revenue Recognition. Net revenue is comprised of company-operated store net revenue, direct to consumer net revenue through websites and mobile apps, including mobile apps on in-store devices that allow demand to be fulfilled via the Company's distribution centers, and other net revenue, which includes revenue from outlets, temporary locations, sales to wholesale accounts, showrooms, warehouse sales, and license and supply arrangement net revenue, which consists of royalties as well as sales of the Company's products to licensees. All net revenue is reported net of sales taxes collected from customers on behalf of taxing authorities.

We record an estimated allowance for sales returns. This allowance is calculated based on a history of actual returns, estimated future returns, and any significant future known, or anticipated, events. Consideration of these factors results in an estimated allowance for sales returns and an asset for estimated returned inventory. Our standard terms for retail sales limit returns to approximately 30 days after sale; however, we accept returns after 30 days where the product fails to meet our guests' quality expectations.

Proceeds from the sale of gift cards are initially deferred and recognized within "Unredeemed gift card liability" on the consolidated balance sheets, and are recognized as revenue when tendered for payment. To the extent there is no requirement to remit unclaimed card balances to government agencies, an estimate of the gift card balances that will never be redeemed is recognized as revenue in proportion to gift cards which have been redeemed. The estimate of gift cards that will never be redeemed is based on the historic trend of unredeemed cards.

Inventory. Inventory is valued at the lower of cost and net realizable value. We periodically review our inventories and make provisions as necessary to appropriately value goods that are obsolete, have quality issues, or are damaged.

The amount of the provision is equal to the difference between the cost of the inventory and its net realizable value based upon assumptions about future demand, selling prices, and market conditions. If changes in market conditions result in reductions in the estimated

Table of Contents

net realizable value of our inventory below our previous estimate, we would increase our reserve in the period in which we made such a determination. In addition, we provide for inventory shrinkage as a percentage of sales, based on historical trends from actual physical inventories. Inventory shrinkage estimates are made to reduce the inventory value for lost or stolen items. We perform physical inventory counts and cycle counts throughout the year and adjust the shrink provision accordingly.

Property and Equipment. Property and equipment are recorded at cost less accumulated depreciation. Buildings are depreciated on a straight-line basis over the expected useful life of the asset, which is individually assessed, and estimated to be up to 20 years. Leasehold improvements are depreciated on a straight-line basis over the lesser of the length of the lease and the estimated useful life of the assets, up to a maximum of five years. All other property and equipment is depreciated using the declining balance method as follows:

Furniture and fixtures	20%
Computer hardware and software	20% - 30%
Equipment and vehicles	30%

Changes in circumstances, such as technological advances, can result in differences between the actual and estimated useful lives. In those cases where we determine that the useful life of a long-lived asset should be shortened, we increase depreciation expense over the remaining useful life to depreciate the asset's net book value to its estimated salvage value.

Long-lived assets, including intangible assets with finite useful lives are evaluated for impairment when the occurrence of events or changes in circumstances indicates that the carrying value of the assets may not be recoverable as measured by comparing their net book value to the undiscounted estimated future cash flows generated by their use and eventual disposition. Impaired assets are recorded at fair value, determined principally by the present value of the estimated future cash flows expected from their use and eventual disposition.

Income Taxes. The U.S. tax reform enacted on December 22, 2017 introduced significant changes to the U.S. income tax laws. The accounting for the income tax effects of U.S. tax reform is complex and requires significant judgement and estimates in the interpretation and calculations of its provisions. We completed the accounting for the income tax effects of U.S. tax reform during fiscal 2018. This resulted in the recognition of an additional tax expense of \$7.5 million related to the mandatory one-time transition tax on the deemed repatriation of accumulated undistributed earnings of foreign subsidiaries.

Deferred income tax assets and liabilities are determined based on the temporary differences between the carrying amounts and the tax basis of assets and liabilities, and for tax losses, tax credit carryforwards, and other tax attributes, using the enacted tax rates that are to be in effect when these differences are expected to reverse. Our deferred income tax balances and income tax rates are significantly affected by the tax rates on our global operations and the extent to which the net investment in our foreign subsidiaries are indefinitely reinvested outside the U.S. Deferred income tax liabilities are recognized for U.S. federal and state income taxes and foreign withholding taxes on the amounts which are not indefinitely reinvested outside of the U.S. Indefinite reinvestment is determined by management's judgment about, and intentions concerning, the future operations of the Company.

Deferred income tax liabilities are provided for U.S. income taxes on the taxable temporary differences associated with our investments in foreign subsidiaries, unless those amounts can be distributed on a tax-free basis or are indefinitely reinvested. We determine on a regular basis the amount of our net investment that will be indefinitely reinvested in our non-U.S. operations. This assessment is based on the cash flow projections and operational and fiscal objectives of each of our U.S. and foreign subsidiaries. Such estimates are inherently imprecise since many assumptions used in the projections are subject to revision. The possibility exists that amounts determined to be indefinitely reinvested outside of the U.S. may ultimately be repatriated.

During fiscal 2018, as a result of U.S. tax reform, we changed our indefinite reinvestment assertion for a Canadian subsidiary and recognized a tax expense of \$23.7 million upon repatriation of \$778.9 million from that Canadian subsidiary. We continue to apply the indefinite reinvestment assertion to this Canadian subsidiary for the remaining net investment of \$777.5 million which we consider necessary to sustain our existing business operations. Future earnings will not be subject to an indefinite reinvestment assumption. In the event we repatriate the remaining net

investment in the Canadian subsidiary, we would be subject to tax of approximately \$2.3 million, principally representing U.S. state income taxes.

Excluding this Canadian subsidiary, the cumulative undistributed earnings of our foreign subsidiaries as of February 3, 2019 were \$26.0 million.

We evaluate our tax filing positions and recognize the largest amount of tax benefit that is considered more likely than not to be sustained upon examination by the relevant taxing authorities based on the technical merits of the position. This determination requires the use of significant judgment. Income tax expense is adjusted in the period in which an uncertain tax

Table of Contents

position is effectively settled, the statute of limitations expires, facts or circumstances change, tax laws change, or new information becomes available. Our tax positions include intercompany transfer pricing policies and the associated taxable income and deductions arising from intercompany charges between subsidiaries within the consolidated group. Although we believe that our intercompany transfer pricing policies and tax positions are reasonable, the final outcomes of tax audits or potential tax disputes may be materially different from that which is reflected in our income tax provisions and accruals.

Stock-Based Compensation. We account for stock-based compensation using the fair value method. The fair value of awards granted is estimated at the date of grant. Awards settled in cash or common stock at the election of the employee are remeasured to fair value at the end of each reporting period until settlement. The employee compensation expense is recognized on a straight-line basis over the requisite service period. For awards with service and/or performance conditions, the amount of compensation expense recognized is based on the number of awards that are expected to vest.

The estimation of the number of stock awards that will ultimately vest requires judgment, and to the extent actual results differ from our estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. We consider several factors when estimating the number of awards which are expected to vest, including, future profit forecasts, types of awards, size of option holder group, and anticipated employee retention and estimated expected forfeitures. Actual results may differ substantially from these estimates.

The calculation of the grant-date fair value of stock options requires us to make certain estimates and assumptions, including, stock price volatility, and the expected life of the options. We evaluate and revise these estimates and assumptions as necessary, to reflect market conditions and our historical experience. The expected term of the options is based upon historical experience of similar awards, giving consideration to expectations of future employee behavior. Expected volatility is based upon the historical volatility of our common stock for the period corresponding with the expected term of the options. In the future, the expected volatility and expected term may change which could substantially change the grant-date fair value of future awards of stock options and, ultimately, the expense we record.

Contingencies. In the ordinary course of business, we are involved in legal proceedings regarding contractual and employment relationships and a variety of other matters. We record contingent liabilities resulting from claims against us, when a loss is assessed to be probable and the amount of the loss is reasonably estimable. Assessing probability of loss and estimating probable losses requires analysis of multiple factors, including in some cases judgments about the potential actions of third-party claimants and courts.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Exchange Risk. The functional currency of our foreign subsidiaries is generally the applicable local currency. Our consolidated financial statements are presented in U.S. dollars. Therefore, the net revenue, expenses, assets, and liabilities of our foreign subsidiaries are translated from their functional currencies into U.S. dollars.

Fluctuations in the value of the U.S. dollar affect the reported amounts of net revenue, expenses, assets, and liabilities. Foreign exchange differences which arise on translation of our foreign subsidiaries' balance sheets into U.S. dollars are recorded as a foreign currency translation adjustment in accumulated other comprehensive income or loss within stockholders' equity.

We also have exposure to changes in foreign exchange rates associated with transactions which are undertaken by our subsidiaries in currencies other than their functional currency. Such transactions include intercompany transactions and inventory purchases denominated in currencies other than the functional currency of the purchasing entity. As a result, we have been impacted by changes in exchange rates and may be impacted for the foreseeable future. The potential impact of currency fluctuation increases as our international expansion increases.

As of February 3, 2019, we had certain forward currency contracts outstanding in order to hedge a portion of the foreign currency exposure that arises on translation of a Canadian subsidiary into U.S. dollars. We also had certain forward currency contracts outstanding in an effort to reduce our exposure to the foreign exchange revaluation gains and losses that are recognized by our Canadian subsidiaries on U.S. dollar denominated monetary assets and liabilities. Please refer to Note 12 to our audited consolidated financial statements included in Item 8 of Part II of this report for further information, including details of the notional amounts outstanding.

In the future, in an effort to reduce foreign exchange risks, we may enter into further derivative financial instruments including hedging additional currency pairs. We do not, and do not intend to, engage in the practice of trading derivative securities for profit.

Table of Contents

We currently generate a significant portion of our net revenue and incur a significant portion of our expenses in Canada. We also hold a significant portion of our net assets in Canada. The reporting currency for our consolidated financial statements is the U.S. dollar. A strengthening of the U.S. dollar against the Canadian dollar results in:

the following impacts to the consolidated statements of operations:

a decrease in our net revenue upon translation of the sales made by our Canadian operations into U.S. dollars for the purposes of consolidation;

an decrease in our selling, general and administrative expenses incurred by our Canadian operations upon translation into U.S. dollars for the purposes of consolidation;

foreign exchange revaluation gains by our Canadian subsidiaries on U.S. dollar denominated monetary assets and liabilities; and

derivative valuation losses on forward currency contracts not designated in a hedging relationship;

the following impacts to the consolidated balance sheets:

a decrease in the foreign currency translation adjustment which arises on the translation of our Canadian subsidiaries' balance sheets into U.S. dollars; and

an increase in the foreign currency translation adjustment from derivative valuation losses on forward currency contracts, entered into as net investment hedges of a Canadian subsidiary.

During fiscal 2018, the change in the relative value of the U.S. dollar against the Canadian dollar resulted in a \$83.2 million increase in accumulated other comprehensive loss within stockholders' equity. During fiscal 2017, the change in the relative value of the U.S. dollar against the Canadian dollar resulted in a \$58.2 million reduction in accumulated other comprehensive loss within stockholders' equity.

A 10% appreciation in the relative value of the U.S. dollar against the Canadian dollar compared to the exchange rates in effect for fiscal 2018 would have resulted in lower income from operations of approximately \$5.6 million in fiscal 2018. This assumes a consistent 10% appreciation in the U.S. dollar against the Canadian dollar throughout the fiscal year. The timing of changes in the relative value of the U.S. dollar combined with the seasonal nature of our business, can affect the magnitude of the impact that fluctuations in foreign exchange rates have on our income from operations.

Interest Rate Risk. Our revolving credit facility provides us with available borrowings in an amount up to \$400.0 million in the aggregate. Because our revolving credit facility bears interest at a variable rate, we will be exposed to market risks relating to changes in interest rates, if we have a meaningful outstanding balance. As of February 3, 2019, aside from letters of credit of \$1.5 million, we had no other borrowings outstanding under this credit facility. We currently do not engage in any interest rate hedging activity and currently have no intention to do so. However, in the future, if we have a meaningful outstanding balance under our revolving facility, in an effort to mitigate losses associated with these risks, we may at times enter into derivative financial instruments, although we have not historically done so. These may take the form of forward contracts, option contracts, or interest rate swaps. We do not, and do not intend to, engage in the practice of trading derivative securities for profit.

Our cash and cash equivalent balances are held in the form of cash on hand, bank balances, short-term deposits and treasury bills with original maturities of three months or less, and in money market funds. We do not believe these balances are subject to material interest rate risk.

Credit Risk. We have cash on deposit with various large, reputable financial institutions and have invested in U.S. and Canadian Treasury Bills, and in AAA-rated money market funds. The amount of cash and cash equivalents held with certain financial institutions exceeds government-insured limits. We are also exposed to credit-related losses in the event of nonperformance by the financial institutions that are counterparties to our forward currency contracts. The credit risk amount is our unrealized gains on our derivative instruments, based on foreign currency rates at the time of nonperformance. We have not experienced any losses related to these items, and we believe credit risk to be minimal. We seek to minimize our credit risk by entering into transactions with credit worthy and reputable financial institutions and by monitoring the credit standing of the financial institutions with whom we transact. We seek to limit the amount of exposure with any one counterparty.

Inflation

Inflationary factors such as increases in the cost of our product and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin

Table of Contents

and selling, general and administrative expenses as a percentage of net revenue if the selling prices of our products do not increase with these increased costs.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors of lululemon athletica inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the consolidated balance sheets of lululemon athletica inc. and its subsidiaries (together, the Company) as of February 3, 2019 and January 28, 2018, and the related consolidated statements of operations and comprehensive income, stockholders' equity and cash flows for the 53 week period ended February 3, 2019 and each of the 52 week periods ended January 28, 2018 and January 29, 2017, including the related notes, listed in the index appearing under Item 15(a)(1) and the financial statement schedule listed in the index appearing under Item 15(a)(2) (collectively referred to as the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of February 3, 2019, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of February 3, 2019 and January 28, 2018, and their results of operations and their cash flows for the 53 week period ended February 3, 2019 and each of the 52 week periods ended January 28, 2018 and January 29, 2017, in conformity with accounting principles generally accepted in the United States of America (US GAAP). Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 3, 2019, based on criteria established in Internal Control - Integrated Framework (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting, appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that

transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of operations

lululemon athletica inc., a Delaware corporation, ("lululemon" and, together with its subsidiaries unless the context otherwise requires, the "Company") is engaged in the design, distribution, and retail of healthy lifestyle inspired athletic apparel, which is sold through a chain of company-operated stores, direct to consumer through e-commerce, outlets, sales from temporary locations, sales to wholesale accounts, showrooms, license and supply arrangements, and warehouse sales. The Company operates stores in the United States, Canada, Australia, China, the United Kingdom, New Zealand, Germany, Japan, South Korea, Singapore, France, Ireland, Sweden, and Switzerland. There were 440, 404, and 406 company-operated stores in operation as of February 3, 2019, January 28, 2018, and January 29, 2017, respectively.

During fiscal 2017, the Company restructured its ivivva operations. On August 20, 2017, as part of this plan, the Company closed 48 of its 55 ivivva branded company-operated stores and all other ivivva branded temporary locations. The Company continues to offer ivivva branded products on its e-commerce websites. Please refer to Note 13 of these consolidated financial statements for further details regarding the ivivva restructuring.

Basis of presentation

The consolidated financial statements have been presented in U.S. dollars and are prepared in accordance with United States generally accepted accounting principles ("GAAP").

The Company's fiscal year ends on the Sunday closest to January 31 of the following year, typically resulting in a 52 week year, but occasionally giving rise to an additional week, resulting in a 53 week year. Fiscal 2018 was a 53 week year. Fiscal 2017 and fiscal 2016 were each 52 week years. Fiscal 2018, 2017, and 2016 ended on February 3, 2019, January 28, 2018, and January 29, 2017, respectively.

The Company's business is affected by the pattern of seasonality common to most retail apparel businesses.

Historically, the Company has recognized a significant portion of its operating profit in the fourth fiscal quarter of each year as a result of increased net revenue during the holiday season.

Certain comparative figures have been reclassified to conform to the financial presentation adopted for the current year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

The consolidated financial statements include the accounts of lululemon athletica inc. and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated.

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, bank balances, and short-term deposits with original maturities of three months or less. The Company has not experienced any losses related to these balances, and management believes the Company's credit risk to be minimal.

Accounts receivable

Accounts receivable primarily arise out of sales to wholesale accounts, landlord lease inducements, and license and supply arrangements. The allowance for doubtful accounts represents management's best estimate of probable credit losses in accounts receivable. Receivables are written off against the allowance when management believes that the amount receivable will not be recovered. As of February 3, 2019, January 28, 2018, and January 29, 2017, the Company recorded an insignificant allowance for doubtful accounts.

Inventories

Inventories, consisting of finished goods, inventories in transit, and raw materials, are stated at the lower of cost and net realizable value. Cost is determined using weighted-average costs, and includes all costs incurred to deliver inventory to the Company's distribution centers including freight, non-refundable taxes, duty, and other landing costs.

Table of Contents

The Company makes provisions as necessary to appropriately value goods that are obsolete, have quality issues, or are damaged. The amount of the provision is equal to the difference between the cost of the inventory and its estimated net realizable value based upon assumptions about future demand, selling prices and market conditions. In addition, the Company provides for inventory shrinkage based on historical trends from actual physical inventory counts. Inventory shrinkage estimates are made to reduce the inventory value for lost or stolen items. The Company performs physical inventory counts and cycle counts throughout the year and adjusts the shrink reserve accordingly.

Property and equipment

Property and equipment are recorded at cost less accumulated depreciation. Direct internal and external costs related to software used for internal purposes which are incurred during the application development stage or for upgrades that add functionality are capitalized. All other costs related to internal use software are expensed as incurred.

Depreciation commences when an asset is ready for its intended use. Buildings are depreciated on a straight-line basis over the expected useful life of the asset, which is individually assessed, and estimated to be up to 20 years. Leasehold improvements are depreciated on a straight-line basis over the lesser of the length of the lease and the estimated useful life of the improvement, to a maximum of five years. All other property and equipment are depreciated using the declining balance method as follows:

Furniture and fixtures	20%
Computer hardware and software	20% - 30%
Equipment and vehicles	30%

Goodwill and intangible assets

Intangible assets are recorded at cost. Reacquired franchise rights are amortized on a straight-line basis over their estimated useful lives of 10 years.

Goodwill represents the excess of the aggregate of the consideration transferred, the fair value of any non-controlling interest in the acquiree, and the acquisition-date fair value of the Company's previously held equity interest over the net assets acquired and liabilities assumed. Goodwill and intangible assets with indefinite lives are tested annually for impairment or more frequently when an event or circumstance indicates that goodwill or indefinite life intangible assets might be impaired. The Company's operating segment for goodwill is its company-operated stores.

Impairment of long-lived assets

Long-lived assets, including intangible assets with finite lives, held for use are evaluated for impairment when the occurrence of events or a change in circumstances indicates that the carrying value of the assets may not be recoverable as measured by comparing their carrying value to the estimated undiscounted future cash flows generated by their use and eventual disposition. Impaired assets are recorded at fair value, determined principally by discounting the future cash flows expected from their use and eventual disposition. Reductions in asset values resulting from impairment valuations are recognized in income in the period that the impairment is determined.

Leased property and equipment

The Company leases stores, distribution centers, and administrative offices. Minimum rental payments, including any fixed escalation of rental payments and rent premiums, are amortized on a straight-line basis over the life of the lease beginning on the possession date. Rental costs incurred during a construction period, prior to store opening, are recognized as rental expense.

Lease inducements, which include leasehold improvements paid for by the landlord and rent free periods, are recorded within other non-current liabilities on the consolidated balance sheets and recognized as a reduction of rent expense on a straight-line basis over the term of the lease.

The difference between the recognized rental expense and the total rental payments paid is reflected on the consolidated balance sheets within deferred lease liabilities or prepaid lease assets within other non-current liabilities and other non-current assets, respectively.

Contingent rental payments based on sales are recorded in the period in which the sales occur.

Table of Contents

The Company recognizes a liability for the fair value of asset retirement obligations ("AROs") when such obligations are incurred. The Company's AROs are primarily associated with leasehold improvements which, at the end of a lease, the Company is contractually obligated to remove in order to comply with the lease agreement. At the inception of a lease with such conditions, the Company records an ARO liability and a corresponding capital asset in an amount equal to the estimated fair value of the obligation. The liability is estimated based on a number of assumptions requiring management's judgment, including store closing costs, cost inflation rates and discount rates, and is accreted to its projected future value over time. The capitalized asset is depreciated using the convention for depreciation of leasehold improvement assets. Upon satisfaction of the ARO conditions, any difference between the recorded ARO liability and the actual retirement costs incurred is recognized as an operating gain or loss in the consolidated statements of operations.

The Company recognizes a liability for a cost associated with a lease exit or disposal activity when such obligation is incurred. A lease exit or disposal liability is measured initially at its fair value in the period in which the liability is incurred. The Company estimates fair value at the cease-use date of its operating leases as the remaining lease rentals, reduced by estimated sublease rentals that could be reasonably obtained for the property, even where the Company does not intend to enter into a sublease. Estimating the cost of certain lease exit costs involves subjective assumptions, including the time it would take to sublease the leased location and the related potential sublease income. The estimated accruals for these costs could be significantly affected if future experience differs from the assumptions used in the initial estimate.

Revenue recognition

Net revenue is comprised of company-operated store net revenue, direct to consumer net revenue through websites and mobile apps, including mobile apps on in-store devices that allow demand to be fulfilled via the Company's distribution centers, and other net revenue, which includes revenue from outlets, temporary locations, sales to wholesale accounts, showrooms, warehouse sales, and license and supply arrangement net revenue, which consists of royalties as well as sales of the Company's products to licensees. All revenue is reported net of sales taxes collected from customers on behalf of taxing authorities.

Revenue is recognized when performance obligations are satisfied through the transfer of control of promised goods to the Company's customers. Control transfers once a customer has the ability to direct the use of, and obtain substantially all of the benefits from, the product. This includes the transfer of legal title, physical possession, the risks and rewards of ownership, and customer acceptance. Revenue from company-operated stores and other retail locations is recognized at the point of sale. Direct to consumer revenue and sales to wholesale accounts are recognized upon receipt by the customer. In certain arrangements the Company receives payment before the customer receives the promised good. These payments are initially recorded as deferred revenue, and recognized as revenue in the period when control is transferred to the customer.

Revenue is presented net of an allowance for estimated returns, which is based on historic experience. The Company's liability for sales return refunds is recognized within other current liabilities, and an asset for the value of inventory which is expected to be returned is recognized within other prepaid expenses and other current assets on the consolidated balance sheets.

Shipping fees billed to customers are recorded as revenue, and shipping costs are recognized within selling, general and administrative expenses in the same period the related revenue is recognized.

Proceeds from the sale of gift cards are initially deferred and recognized within unredeemed gift card liability on the consolidated balance sheets, and are recognized as revenue when tendered for payment. Based on historical experience, and to the extent there is no requirement to remit unclaimed card balances to government agencies, an estimate of the gift card balances that will never be redeemed is recognized as revenue in proportion to gift cards which have been redeemed.

While the Company will continue to honor all gift cards presented for payment, management may determine the likelihood of redemption to be remote for certain card balances due to, among other things, long periods of inactivity. In these circumstances, to the extent management determines there is no requirement for remitting card balances to government agencies under unclaimed property laws, the portion of card balances not expected to be redeemed are

recognized in net revenue in proportion to the gift cards which have been redeemed, under the redemption recognition method. For the years ended February 3, 2019, January 28, 2018, and January 29, 2017, net revenue recognized on unredeemed gift card balances was \$6.9 million, \$6.2 million, and \$4.5 million, respectively.

See Note 19 of these consolidated financial statements for disaggregated net revenue by channel and geographic area.

Table of Contents

Cost of goods sold

Cost of goods sold includes:

- the cost of purchased merchandise, which includes acquisition and production costs including raw material and labor, as applicable;
- the cost incurred to deliver inventory to the Company's distribution centers including freight, non-refundable taxes, duty, and other landing costs;
- the cost of the Company's distribution centers, such as labor, rent, utilities, and depreciation;
- the cost of the Company's production, design, research and development, distribution, and merchandising departments including salaries, stock-based compensation and benefits, and other expenses;
- occupancy costs such as minimum rent, contingent rent where applicable, property taxes, utilities, and depreciation expense for the Company's company-operated store locations;
- shrink and inventory provision expense.

Selling, general and administrative expenses

Selling, general and administrative expenses consist of all operating costs not otherwise included in cost of goods sold or asset impairment and restructuring costs. The Company's selling, general and administrative expenses include the costs of corporate and retail employee wages and benefits, costs to transport the Company's products from the distribution facilities to the Company's sales locations and e-commerce guests, professional fees, marketing, information technology, human resources, accounting, legal, corporate facility and occupancy costs, and depreciation and amortization expense other than in cost of goods sold.

For the years ended February 3, 2019, January 28, 2018, and January 29, 2017, the Company incurred outbound transportation costs of \$79.5 million, \$53.8 million, and \$44.9 million, respectively.

Asset impairment and restructuring costs

Asset impairment and restructuring costs consist of the lease termination, impairment of property and equipment, employee related costs, and other restructuring costs recognized in connection with the restructuring of our ivivva operations.

Store pre-opening costs

Operating costs incurred prior to the opening of new stores are expensed as incurred as selling, general and administrative expenses.

Income taxes

The Company follows the liability method with respect to accounting for income taxes. Deferred income tax assets and liabilities are determined based on the temporary differences between the carrying amounts and the tax basis of assets and liabilities, and for tax losses, tax credit carryforwards, and other tax attributes. Deferred income tax assets and liabilities are measured using enacted tax rates that are expected to be in effect when these differences are anticipated to reverse.

Deferred income tax assets are reduced by a valuation allowance, if based on the weight of available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The evaluation as to the likelihood of realizing the benefit of a deferred income tax asset is based on the timing of scheduled reversals of deferred tax liabilities, taxable income forecasts, and tax-planning strategies. The recognition of a deferred income tax asset is based upon several assumptions and forecasts, including current and anticipated taxable income, the utilization of previously unrealized non-operating loss carryforwards, and regulatory reviews of tax filings. Given the judgments and estimates required and the sensitivity of the results to the significant assumptions used, the Company believes the accounting estimates used in relation to the valuation of deferred income tax assets are subject to measurement uncertainty and are susceptible to change if the underlying assumptions change.

The Company provides for taxes at the enacted rate applicable for the appropriate tax jurisdiction. U.S. income taxes and foreign withholding taxes on undistributed earnings of foreign subsidiaries which the Company has determined to be indefinitely reinvested have not been recognized. Management periodically assesses the need to utilize these undistributed earnings to finance foreign operations. This assessment is based on the cash flow projections and

operational and fiscal

53

Table of Contents

objectives of each of the Company's foreign subsidiaries. Such estimates are inherently imprecise since many assumptions utilized in the projections are subject to revision in the future.

The Company evaluates its tax filing positions and recognizes the largest amount of tax benefit that is considered more likely than not to be sustained upon examination by the relevant taxing authorities based on the technical merits of the position. This determination requires the use of significant judgment. Income tax expense is adjusted in the period in which an uncertain tax position is effectively settled, the statute of limitations expires, facts or circumstances change, tax laws change, or new information becomes available. The Company's policy is to recognize interest expense and penalties related to income tax matters as part of other income (expense), net. Accrued interest and penalties are included within the related tax liability on the Company's consolidated balance sheets.

The U.S. Tax Cuts and Jobs Act ("U.S. tax reform") was enacted on December 22, 2017 and introduced significant changes to U.S. income tax law. The United States Securities Exchange Commission ("SEC") issued Staff Accounting Bulletin 118 ("SAB 118") which allowed companies to record provisional estimates of the impacts of U.S. tax reform within a one year measurement period. The Company recorded certain provisional amounts in fiscal 2017 and completed the accounting for the income tax effects of U.S. tax reform during fiscal 2018. U.S. tax reform changes and their impact to the Company are outlined in Note 14 of these consolidated financial statements.

Fair value of financial instruments

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are made using a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value:

- Level 1 - defined as observable inputs such as quoted prices in active markets;

- Level 2 - defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

- Level 3 - defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The fair value measurement is categorized in its entirety by reference to its lowest level of significant input.

The Company records accounts receivable, accounts payable, and accrued liabilities at cost. The carrying values of these instruments approximate their fair value due to their short-term maturities. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest or credit risks arising from these financial instruments.

The Company holds certain assets and liabilities that are required to be measured at fair value on a recurring basis, which are outlined in Note 11 of these consolidated financial statements.

Foreign currency

The functional currency for each entity included in these consolidated financial statements that is domiciled outside of the United States is generally the applicable local currency. Assets and liabilities of each foreign entity are translated into U.S. dollars at the exchange rate in effect on the balance sheet date. Net revenue and expenses are translated at the average rate in effect during the period. Unrealized translation gains and losses are recorded as a foreign currency translation adjustment, which is included in other comprehensive income or loss, which is a component of accumulated other comprehensive income or loss included in stockholders' equity.

Foreign currency transactions denominated in a currency other than an entity's functional currency are remeasured into the functional currency with any resulting gains and losses recognized in selling, general and administrative expenses, except for gains and losses arising on intercompany foreign currency transactions that are of a long-term investment nature, which are recorded as a foreign currency translation adjustment in other comprehensive income or loss.

Derivative financial instruments

The Company uses derivative financial instruments to manage its exposure to certain foreign currency exchange rate risks.

Table of Contents

Net investment hedges. The Company enters into certain forward currency contracts that are designated as net investment hedges. The effective portions of the hedges are reported in accumulated other comprehensive income or loss, net of tax, and will subsequently be reclassified to net earnings in the period in which the hedged investment is either sold or substantially liquidated. Hedge effectiveness is measured using a method based on changes in forward exchange rates. The Company classifies the cash flows at settlement of its net investment hedges within investing activities in the consolidated statements of cash flows.

Derivatives not designated as hedging instruments. The Company also enters into certain forward currency contracts that are not designated as net investment hedges. They are designed to economically hedge the foreign exchange revaluation gains and losses of certain monetary assets and liabilities. The Company has not applied hedge accounting to these instruments and the change in fair value of these derivatives is recorded within selling, general and administrative expenses. The Company classifies the cash flows at settlement of its forward currency contracts which are not designated in hedging relationships within operating activities in the consolidated statements of cash flows. The Company presents its derivative assets and derivative liabilities at their gross fair values within other prepaid expenses and other current assets and other current liabilities on the consolidated balance sheets. However, the Company's Master International Swap Dealers Association, Inc., Agreements and other similar arrangements allow net settlements under certain conditions.

The Company does not enter into derivative contracts for speculative or trading purposes. Additional information on the Company's derivative financial instruments is included in Notes 11 and 12 of these consolidated financial statements.

Concentration of credit risk

Accounts receivable are primarily from wholesale accounts, for landlord lease inducements, and from license and supply arrangements. The Company does not require collateral to support the accounts receivable; however, in certain circumstances, the Company may require parties to provide payment for goods prior to delivery of the goods. The accounts receivable are net of an allowance for doubtful accounts, which is established based on management's assessment of the credit risk of the underlying accounts.

Cash and cash equivalents are held with high quality financial institutions. The amount of cash and cash equivalents held with certain financial institutions exceeds government-insured limits. The Company is also exposed to credit-related losses in the event of nonperformance by the counterparties to the forward currency contracts. The credit risk amount is the Company's unrealized gains on its derivative instruments, based on foreign currency rates at the time of nonperformance. The Company has not experienced any losses related to these items, and it believes credit risk to be minimal. The Company seeks to minimize its credit risk by entering into transactions with credit worthy and reputable financial institutions and by monitoring the credit standing of the financial institutions with whom it transacts. It seeks to limit the amount exposure with any one counterparty.

The Company's derivative contracts contain certain credit risk-related contingent features. Under certain circumstances, including an event of default, bankruptcy, termination, and cross default under the Company's revolving credit facility, the Company may be required to make immediate payment for outstanding liabilities under its derivative contracts.

Stock-based compensation

The Company accounts for stock-based compensation using the fair value method. The fair value of awards granted is estimated at the date of grant. Awards settled in cash or common stock at the election of the employee are remeasured to fair value at the end of each reporting period until settlement. The employee compensation expense is recognized on a straight-line basis over the requisite service period with the offsetting credit to additional paid-in capital for awards that are settled in common shares, and with the offsetting credit to accrued compensation and related expenses for awards that are settled in cash or common stock at the election of the employee.

For awards with service and/or performance conditions, the amount of compensation expense recognized is based on the number of awards expected to vest, reflecting estimated expected forfeitures, and is adjusted to reflect those awards that do ultimately vest. For awards with performance conditions, the Company recognizes the compensation expense if and when the Company concludes that it is probable that the performance condition will be achieved. The

Company reassesses the probability of achieving the performance condition at each reporting date. The grant date fair value of each stock option granted is estimated on the award date using the Black-Scholes model, and the grant date fair value of restricted shares, performance-based restricted stock units, and restricted stock units is based on the closing price of the Company's common stock on the award date. Restricted stock units that are settled in cash or common stock at the election of the employee are remeasured to fair value at the end of each reporting period until settlement. This fair value is based on the closing price of the Company's common stock on the last business day before each period end.

Table of Contents

Earnings per share

Earnings per share is calculated using the weighted-average number of common and exchangeable shares outstanding during the period. Exchangeable shares are the equivalent of common shares in all material respects. All classes of stock have in effect the same rights and share equally in undistributed net income. Diluted earnings per share is calculated by dividing net income available to stockholders for the period by the diluted weighted-average number of shares outstanding during the period. Diluted earnings per share reflects the potential dilution from common shares issuable through stock options, performance-based restricted stock units that have satisfied their performance factor, restricted shares, and restricted stock units using the treasury stock method.

Contingencies

In the ordinary course of business, the Company is involved in legal proceedings regarding contractual and employment relationships and a variety of other matters. The Company records contingent liabilities resulting from claims against us, when a loss is assessed to be probable and the amount of the loss is reasonably estimable.

Use of estimates

The preparation of financial statements in conformity with GAAP in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of net revenue and expenses during the reporting period. Actual results could differ from those estimates.

Recently adopted accounting pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers ("ASC 606") which supersedes the revenue recognition requirements in ASC 605 Revenue Recognition. This ASU requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

The Company adopted ASC 606 on January 29, 2018 on a modified retrospective basis. There were no changes to the consolidated statement of operations as a result of the adoption, and the timing and amount of its revenue recognition remained substantially unchanged under this new guidance. Under the provisions of ASC 606, the Company is now required to present its provision for sales returns on a gross basis, rather than a net basis. The Company's liability for sales return refunds is recognized within other current liabilities, and the Company now presents an asset for the value of inventory which is expected to be returned within other prepaid expenses and other current assets on the consolidated balance sheets. Under the modified retrospective approach, the comparative prior period information has not been restated for this change.

Table of Contents

The effect of adoption of ASC 606 on the Company's consolidated balance sheet as of February 3, 2019 was as follows:

	February 3, 2019	
	As Reported	Balances Without Adoption of ASC 606
	Adjustment for ASC 606	
	(In thousands)	
Other prepaid expenses and other current assets	\$57,949 \$ (3,719)	\$ 54,230
Current assets	1,429,282 3,719)	1,425,563
Total assets	2,084,711 (3,719)	2,080,992
Other current liabilities	112,698 3,719	116,417
Current liabilities	500,477 3,719	504,196
Total liabilities	638,736 3,719	642,455

In May 2017, the FASB amended ASC 718, Stock Compensation, to reduce diversity in practice and to clarify when a change to the terms or conditions of a share-based payment award must be accounted for as a modification and will result in fewer changes to the terms of an award being accounted for as modifications. The new guidance was effective beginning in the first quarter of fiscal 2018 and will apply on a prospective basis. The adoption does not have a material impact on the Company's consolidated financial statements.

In January 2018, the FASB released guidance on the accounting for the global intangible low-taxed income ("GILTI") provisions of the tax bill H.R.1, commonly known as the U.S. Tax Cuts and Jobs Act ("U.S. tax reform"). The GILTI provisions impose a tax on foreign subsidiary earnings in excess of a deemed return on the foreign subsidiary's tangible assets. The Company has made an accounting policy election to treat the GILTI tax as an in period tax, which is consistent with the treatment prior to the accounting policy election.

In February 2018, the FASB amended ASC 220, Income Statement—Reporting Comprehensive Income. ASC 740, Income Taxes, requires that the effect of a change in tax laws or rates on deferred tax assets and liabilities be included in income from continuing operations. In situations in which the tax effects of a transaction were initially recognized directly in other comprehensive income, this results in "stranded" amounts in accumulated other comprehensive income related to the income tax rate differential. The amendments to ASC 220 allow a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the enactment of U.S. tax reform. As permitted by the ASU the Company early adopted the amendments to ASC 220, and made the policy election to not reclassify "stranded" amounts from accumulated other comprehensive income to retained earnings.

Recently issued accounting pronouncements

In February 2016, the FASB issued ASC 842, Leases ("ASC 842") to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Under the new guidance, lessees are required to recognize a lease liability, which represents the discounted obligation to make future minimum lease payments, and a corresponding right-of-use asset on the balance sheet. This guidance is effective for the Company beginning in its first quarter of fiscal 2019. The new guidance can be applied using a modified retrospective approach at the beginning of the earliest period presented, or at the beginning of the period in which it is adopted.

The Company adopted ASC 842 on February 4, 2019 using the modified retrospective approach and will not be restating comparative periods.

The Company has chosen to apply the transition package of three practical expedients which allow companies not to reassess whether agreements contain leases, the classification of leases, and the capitalization of initial direct costs.

The Company has also made an accounting policy election to recognize lease expense for leases with a term of 12

months or less on a straight-line basis over the lease term and will not recognize any right of use assets or lease liabilities for those leases.

The Company has completed the implementation of new lease accounting software, and updated its internal controls to address the requirements of the new standard.

The primary financial statement impact upon adoption will be the recognition, on a discounted basis, of the Company's minimum commitments under noncancelable operating leases as right of use assets and obligations on the consolidated balance

Table of Contents

sheets. The adoption of ASC 842 results in the recognition of lease-related assets and liabilities of approximately \$620.0 million and \$650.0 million, respectively. Pre-existing net lease-related assets and liabilities of approximately \$30.0 million have been reclassified as part of the adoption of the new standard, and there is no adjustment to opening retained earnings. The standard is not expected to have a material impact on the Company's net income or cash flows. In August 2017, the FASB amended ASC 815, Derivatives and Hedging to more closely align hedge accounting with companies' risk management strategies, simplify the application of hedge accounting, and increase transparency as to the scope and results of hedging programs. It makes more financial and nonfinancial hedging strategies eligible for hedge accounting. It also amends the presentation and disclosure requirements and changes how companies assess effectiveness. This guidance is effective for the Company beginning in its first quarter of fiscal 2019. This standard will not have a material impact on the Company's consolidated financial statements.

NOTE 3. INVENTORIES

	February 3, January 28, 2019 2018	
	(In thousands)	
Finished goods	\$420,931	\$344,695
Provision to reduce inventories to net realizable value	(16,089)	(15,133)
Inventories	\$404,842	\$329,562

The Company had net write-offs of \$25.3 million, \$16.4 million, and \$16.1 million of inventory in fiscal 2018, fiscal 2017, and fiscal 2016, respectively for goods that were obsolete, had quality issues, or were damaged.

NOTE 4. PROPERTY AND EQUIPMENT

	February 3, January 28, 2019 2018	
	(In thousands)	
Land	\$78,636	\$83,048
Buildings	38,030	39,278
Leasehold improvements	362,571	301,449
Furniture and fixtures	103,733	91,778
Computer hardware	69,542	61,734
Computer software	230,689	173,997
Equipment and vehicles	15,009	14,806
Work in progress	74,271	51,260
Property and equipment, gross	972,481	817,350
Accumulated depreciation	(405,244)	(343,708)
Property and equipment, net	\$567,237	\$473,642

Included in the cost of computer software are capitalized costs of \$13.2 million and \$12.4 million as of February 3, 2019 and January 28, 2018, respectively, associated with internally developed software.

Depreciation expense related to property and equipment was \$122.4 million, \$108.0 million, and \$87.0 million for the years ended February 3, 2019, January 28, 2018, and January 29, 2017, respectively.

See Note 13 of these consolidated financial statements for information on the impairment of long-lived assets the Company recognized as part of the restructuring of its ivivva operations.

Table of Contents

	February 3, 2019	January 28, 2018
	(In thousands)	
Tenant inducements	\$42,360	\$26,250
Deferred lease liabilities	34,018	27,186
Other	5,533	5,885
Other non-current liabilities	\$81,911	\$59,321

NOTE 8. LONG-TERM DEBT AND CREDIT FACILITIES

Revolving credit facility

On December 15, 2016, the Company entered into a \$150.0 million unsecured, revolving credit facility. Any amounts outstanding under the revolving credit facility will be due and payable in full on December 15, 2021, subject to provisions that permit the Company to request a limited number of one year extensions annually.

Up to \$35.0 million of the revolving credit facility is available for the issuance of letters of credit and up to \$25.0 million is available for swing line loans. Commitments under the revolving credit facility may be increased by up to \$200.0 million, subject to certain conditions, including the approval of the lenders.

Borrowings under the revolving credit facility may be made in U.S. Dollars, Euros, Canadian Dollars, and in other currencies, subject to the approval of the administrative agent and the lenders. Borrowings under the agreement may be prepaid and commitments may be reduced or terminated without premium or penalty (other than customary breakage costs).

Borrowings made under the revolving credit facility bear interest at a variable rate per annum equal to, at the Company's option, either (a) LIBOR or (b) an alternate base rate, plus, in each case, an applicable margin. The applicable margin is determined by reference to a pricing grid, based on the ratio of indebtedness to earnings before interest, tax, depreciation, amortization, and rent ("EBITDAR") and ranges between 1.00%-1.75% for LIBOR loans and 0.00%-0.75% for alternate base

Table of Contents

rate loans. Additionally, a commitment fee of between 0.125%-0.200%, also determined by reference to the pricing grid, is payable on the average daily unused amounts under the revolving credit facility.

The credit agreement contains negative covenants that, among other things and subject to certain exceptions, limit the ability of the Company's subsidiaries to incur indebtedness, incur liens, undergo fundamental changes, make dispositions of all or substantially all of their assets, alter their businesses and enter into agreements limiting subsidiary dividends and distributions.

The Company is also required to maintain a consolidated rent-adjusted leverage ratio of not greater than 3.50:1.00 and it is not permitted to allow the ratio of consolidated EBITDAR to consolidated interest charges (plus rent) to be less than 2.00:1.00. The credit agreement also contains certain customary representations, warranties, affirmative covenants, and events of default (including, among others, an event of default upon the occurrence of a change of control). As of February 3, 2019, the Company was in compliance with all applicable covenants.

On June 6, 2018, we entered into Amendment No. 1 to the credit agreement. The Amendment amends the credit agreement to provide for (i) an increase in the aggregate commitments under the unsecured five-year revolving credit facility to \$400.0 million, with an increase of the sub-limits for the issuance of letters of credit and extensions of swing line loans to \$50.0 million for each, (ii) an increase in the option, subject to certain conditions as set forth in the credit agreement, to request increases in commitments under the revolving facility from \$400.0 million to \$600.0 million and (iii) an extension in the maturity of the revolving facility from December 15, 2021 to June 6, 2023.

In addition, the Amendment decreases the applicable margins for LIBOR loans from 1.00%-1.75% to 1.00%-1.50% and for alternate base rate loans from 0.00%-0.75% to 0.00%-0.50%, reduces the commitment fee on average daily unused amounts under the revolving facility from 0.125%-0.200% to 0.10%-0.20%, and reduces fees for unused letters of credit from 1.00%-1.75% to 1.00%-1.50%.

As of February 3, 2019, aside from letters of credit of \$1.5 million, there were no other borrowings outstanding under this credit facility.

NOTE 9. STOCKHOLDERS' EQUITY

Special voting stock and exchangeable shares

The holders of the special voting stock are entitled to one vote for each share held. The special voting shares are not entitled to receive dividends or distributions or receive any consideration in the event of a liquidation, dissolution, or wind-up. To the extent that exchangeable shares as described below are exchanged for common stock, a corresponding number of special voting shares will be cancelled without consideration.

The holders of the exchangeable shares have dividend and liquidation rights equivalent to those of holders of the common shares of the Company. The exchangeable shares can be converted on a one for one basis by the holder at any time into common shares of the Company plus a cash payment for any accrued and unpaid dividends. Holders of exchangeable shares are entitled to the same or economically equivalent dividend as declared on the common stock of the Company. The exchangeable shares are non-voting. The Company has the right to convert the exchangeable shares into common shares of the Company at any time after the earlier of July 26, 2047, the date on which fewer than 4.2 million exchangeable shares are outstanding, or in the event of certain events such as a change in control.

NOTE 10. STOCK-BASED COMPENSATION AND BENEFIT PLANS

Stock-based compensation plans

The Company's eligible employees participate in various stock-based compensation plans, which are provided by the Company directly.

In June 2014, the Company's stockholders approved the adoption of the lululemon athletica inc. 2014 Equity Incentive Plan ("2014 Plan"). The 2014 Plan provides for awards in the form of stock options, stock appreciation rights, restricted stock purchase rights, restricted share bonuses, restricted stock units, performance shares, performance-based restricted stock units, cash-based awards, other stock-based awards, and deferred compensation awards to employees (including officers and directors who are also employees), consultants, and directors of the Company.

The awards granted under the 2007 Equity Incentive Plan ("2007 Plan") remain outstanding and continue to vest under their original conditions. No further awards will be granted under the 2007 Plan.

The Company has granted stock options, performance-based restricted stock units, restricted stock units, and restricted shares. Stock options granted to date generally have a four-year vesting period and vest at a rate of 25% each year on the

60

Table of Contents

anniversary date of the grant. Stock options generally expire on the earlier of seven years from the date of grant, or a specified period of time following termination, in accordance with the 2014 Plan and the related grant agreement. Performance-based restricted stock units issued generally vest three years from the grant date and restricted shares generally vest one year from the grant date. Restricted stock units granted generally have a three-year vesting period and vest at a certain percentage each year on the anniversary date of the grant.

The Company issues previously unissued shares upon the exercise of Company options, vesting of performance-based restricted stock units or restricted stock units that are settled in common stock, and granting of restricted shares. Stock-based compensation expense charged to income for the plans was \$29.6 million, \$17.6 million, and \$16.8 million for the years ended February 3, 2019, January 28, 2018, and January 29, 2017, respectively.

Total unrecognized compensation cost for all stock-based compensation plans was \$55.6 million as of February 3, 2019, which is expected to be recognized over a weighted-average period of 2.1 years, and was \$44.6 million as of January 28, 2018 over a weighted-average period of 2.0 years.

A summary of the balances of the Company's stock-based compensation plans as of February 3, 2019, January 28, 2018, and January 29, 2017, and changes during the fiscal years then ended is presented below:

	Stock Options		Performance-Based Restricted Stock Units		Restricted Shares		Restricted Stock Units		Restricted Stock Units (Liability Accounting)

A total of 13.5 million shares of the Company's common stock have been authorized for future issuance under the Company's 2014 Equity Incentive Plan.

The Company's performance-based restricted stock units are awarded to eligible employees and entitle the grantee to receive a maximum of two shares of common stock per performance-based restricted stock unit if the Company achieves specified performance goals and the grantee remains employed during the vesting period. The fair value of performance-based restricted stock units is based on the closing price of the Company's common stock on the award date. Expense for performance-based restricted stock units is recognized when it is probable that the performance goal will be achieved.

The grant date fair value of the restricted shares and restricted stock units is based on the closing price of the Company's common stock on the award date. Restricted stock units that are settled in cash or common stock at the election of the employee are remeasured to fair value at the end of each reporting period until settlement. This fair value is based on the closing price of the Company's common stock on the last business day before each period end.

Table of Contents

The grant date fair value of each stock option granted is estimated on the date of grant using the Black-Scholes model. The assumptions used to calculate the fair value of the options granted are evaluated and revised, as necessary, to reflect market conditions and the Company's historical experience. The expected term of the options is based upon the historical experience of similar awards, giving consideration to expectations of future employee behavior. Expected volatility is based upon the historical volatility of the Company's common stock for the period corresponding with the expected term of the options. The risk-free interest rate is based on the U.S. Treasury yield curve for the period corresponding with the expected term of the options. The following are weighted averages of the assumptions that were used in calculating the fair value of stock options granted in fiscal 2018, 2017, and 2016:

	Fiscal Year Ended					
	February 3, 2019		January 28, 2018		January 29, 2017	
Expected term	3.75 years		4.00 years		4.00 years	
Expected volatility	36.87	%	38.28	%	40.07	%
Risk-free interest rate	2.46	%	1.72	%	1.08	%
Dividend yield	—	%	—	%	—	%

The following table summarizes information about stock options outstanding and exercisable as of February 3, 2019:

Range of Exercise Prices	Outstanding			Exercisable		
	Number of Options	Weighted-Average Exercise Price	Weighted-Average Remaining Life (Years)	Number of Options	Weighted-Average Exercise Price	Weighted-Average Remaining Life (Years)
(In thousands, except per share amounts and years)						
\$11.75 - \$51.72	74	\$ 46.56	3.7	50	\$ 44.83	3.2
\$51.87 - \$51.87	225	51.87	5.2	29	51.87	5.1
\$52.39 - \$68.69	203	63.68	4.0	83	61.50	3.7
\$69.30 - \$85.96	278	85.11	6.1	4	72.39	3.5
\$113.87 - \$155.97	90	134.28	6.5	—	—	0.0
	870	\$ 73.34	5.2	166	\$ 55.05	3.8
Intrinsic value	\$63,329			\$15,105		

As of February 3, 2019, the unrecognized compensation cost related to these options was \$11.6 million, which is expected to be recognized over a weighted-average period of 2.8 years. The weighted-average grant date fair value of options granted during the years ended February 3, 2019, January 28, 2018, and January 29, 2017 was \$30.30, \$16.88, and \$22.39, respectively.

The following table summarizes the intrinsic value of options exercised and awards that vested during fiscal 2018, 2017, and 2016:

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		
Stock options	\$17,268	\$1,856	\$6,072

Restricted shares	2,600	743	2,283

Restricted stock units	17,142	7,447	6,084
	\$40,423	\$10,046	\$14,910

Employee share purchase plan

The Company's board of directors and stockholders approved the Company's Employee Share Purchase Plan ("ESPP") in September 2007. Contributions are made by eligible employees, subject to certain limits defined in the ESPP, and the Company matches one-third of the contribution. The maximum number of shares authorized to be purchased under the ESPP is 6.0

Table of Contents

million shares. All shares purchased under the ESPP are purchased in the open market. During the year ended February 3, 2019, there were 0.1 million shares purchased.

Defined contribution pension plans

During fiscal 2016, the Company began offering defined contribution pension plans to its eligible employees in Canada and the United States. Participating employees may elect to defer and contribute a portion of their eligible compensation to a plan up to limits stated in the plan documents, not to exceed the dollar amounts set by applicable laws. The Company matches 50% to 75% of the contribution depending on the participant's length of service, and the contribution is subject to a two year vesting period. The Company's net expense for the defined contribution plans was \$6.4 million, \$5.2 million, and \$3.2 million for the years ended February 3, 2019, January 28, 2018, and January 29, 2017, respectively.

NOTE 11. FAIR VALUE MEASUREMENT

Assets and liabilities measured at fair value on a recurring basis

As of February 3, 2019 and January 28, 2018, the Company held certain assets and liabilities that are required to be measured at fair value on a recurring basis:

	February 3, 2019	Level 1	Level 2	Level 3	Balance Sheet Classification
	(In thousands)				
Money market funds	\$471,888	\$471,888	\$	—	Cash and cash equivalents
Treasury bills	99,958	99,958	—	—	Cash and cash equivalents
Term deposits	63,522	—	63,522	—	Cash and cash equivalents
Net forward currency contract assets	516	—	516	—	Other prepaid expenses and other current assets
Net forward currency contract liabilities	1,042	—	1,042	—	Other current liabilities
	January 28, 2018	Level 1	Level 2	Level 3	Balance Sheet Classification
	(In thousands)				
Term deposits	\$258,238	\$	—	—	Cash and cash equivalents
Net forward currency contract assets	7,889	—	7,889	—	Other prepaid expenses and other current assets
Net forward currency contract liabilities	8,771	—	8,771	—	Other current liabilities

The Company records accounts receivable, accounts payable, and accrued liabilities at cost. The carrying values of these instruments approximate their fair value due to their short-term maturities.

The Company has short-term, highly liquid investments classified as cash equivalents, which are invested in money market funds, Treasury bills, and term deposits. The Company records cash equivalents at their original purchase prices plus interest that has accrued at the stated rate.

The fair values of the forward currency contract assets and liabilities are determined using observable Level 2 inputs, including foreign currency spot exchange rates, forward pricing curves, and interest rates. The fair values consider the credit risk of the Company and its counterparties. They are presented at their gross fair values. However, the Company's Master International Swap Dealers Association, Inc., Agreements and other similar arrangements allow net settlements under certain conditions.

Assets and liabilities measured at fair value on a non-recurring basis

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company has impaired certain long-lived assets and recorded them at their estimated fair value on a non-recurring basis. The fair value of these long-lived assets was determined using Level 3 inputs, principally the present value of the estimated future cash flows expected from their use and eventual disposition. Please refer to Note 13 of these audited consolidated financial statements for further details regarding the impairment of long-lived assets as a result of the ivivva restructuring.

Table of Contents

The Company has also recorded lease termination liabilities at fair value on a non-recurring basis, determined using Level 3 inputs based on remaining lease rentals and reduced by estimated sublease income. As of February 3, 2019 and January 28, 2018, the Company had lease termination liabilities of \$2.3 million and \$6.4 million, respectively. This was primarily as a result of the ivivva restructuring.

NOTE 12. DERIVATIVE FINANCIAL INSTRUMENTS

The Company currently hedges against changes in the Canadian dollar to U.S. dollar exchange rate using forward currency contracts.

Net investment hedges

The Company holds a significant portion of its assets in Canada and during the year ended February 3, 2019, it entered into forward currency contracts designed to hedge a portion of the foreign currency exposure that arises on translation of a Canadian subsidiary into U.S. dollars. These forward currency contracts are designated as net investment hedges. The Company assesses hedge effectiveness based on changes in forward rates. The Company recorded no ineffectiveness from net investment hedges for the year ended February 3, 2019.

Derivatives not designated as hedging instruments

During the year ended February 3, 2019 the Company entered into certain forward currency contracts designed to economically hedge the foreign exchange revaluation gains and losses that are recognized by its Canadian subsidiaries on U.S. dollar denominated monetary assets and liabilities.

Outstanding notional amounts

The Company had foreign exchange forward contracts outstanding with the following notional amounts:

	February 3, 2019	January 28, 2018
	(In thousands)	
Derivatives designated as net investment hedges	\$ 328,000	\$ 262,000
Derivatives not designated in a hedging relationship	309,000	240,000

The forward currency contracts designated as net investment hedges mature on different dates between February 2019 and October 2019.

The forward currency contracts not designated in a hedging relationship mature on different dates between February 2019 and September 2019.

Quantitative disclosures about derivative financial instruments

The fair values of forward currency contracts were as follows:

	February 3, 2019	January 28, 2018
	(In thousands)	
Net forward currency contract assets, recognized within other prepaid expenses and other current assets:		
Derivatives not designated in a hedging relationship	\$ 516	\$ 7,889
Net forward currency contract liabilities, recognized within other current liabilities:		
Derivatives designated as net investment hedges	1,042	8,771

As of February 3, 2019, there were derivative assets of \$0.5 million and derivative liabilities of \$1.0 million subject to enforceable netting arrangements.

Table of Contents

The pre-tax gains and losses on foreign exchange forward contracts recorded in accumulated other comprehensive income are as follows:

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		

Gains (losses) recognized in foreign currency translation adjustment:

Derivatives designated as net investment hedges	\$23,946	\$(15,974)	\$ —
---	----------	-------------	------

No gains or losses have been reclassified from accumulated other comprehensive income into net income for derivative financial instruments in a net investment hedging relationship, as the Company has not sold or liquidated (or substantially liquidated) its hedged subsidiary.

The pre-tax net foreign exchange and derivative gains and losses recorded in the consolidated statement of operations are as follows:

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		
Gains (losses) recognized in selling, general and administrative expenses:			
Foreign exchange gains (losses)	\$23,642	\$ (6,798)	\$ (8,314)
Derivatives not designated in a hedging relationship	(22,249)	14,115	—
Net foreign exchange and derivative gains (losses)	\$1,393	\$ 7,317	\$ (8,314)

NOTE 13. ASSET IMPAIRMENT AND RESTRUCTURING

During fiscal 2017, the Company restructured its ivivva operations. On August 20, 2017, the Company closed 48 of its 55 ivivva branded company-operated stores and all other ivivva branded temporary locations. As a result of this restructuring, the Company recognized aggregate pre-tax charges of \$47.2 million during fiscal 2017.

A summary of the pre-tax charges recognized in connection with the Company's restructuring of its ivivva operations is as follows:

	Fiscal Year Ended February 3, 2019
	January 28, 2018
	(In thousands)
Costs recorded in cost of goods sold:	
Provision to reduce inventories to net realizable value	\$—\$4,945
Accelerated depreciation	—3,753
	—8,698
Costs recorded in operating expenses:	
Lease termination costs	—21,069
Impairment of property and equipment	—11,593
Employee related costs	—4,226
Other restructuring costs	—1,637
Asset impairment and restructuring costs	—38,525
Restructuring and related costs	\$—\$47,223

Income tax recoveries of \$12.7 million were recorded on the above items in fiscal 2017. These income tax recoveries are based on the annual tax rate of the applicable tax jurisdictions.

Table of Contents

Costs recorded in cost of goods sold

During fiscal 2017, the Company recognized expenses of \$8.7 million in cost of goods sold as a result of the restructuring of its ivivva operations. This included \$4.9 million to reduce inventories to their estimated net realizable value, and \$3.8 million in accelerated depreciation primarily related to leasehold improvements and furniture and fixtures for stores that were closed on August 20, 2017.

Costs recorded in operating expenses

The Company recognized asset impairment and restructuring costs of \$38.5 million during fiscal 2017 as a result of the restructuring of its ivivva operations.

As a result of the plan to close the majority of the ivivva branded locations, the long-lived assets of each ivivva branded location were tested for impairment as of April 30, 2017. For impaired locations, a loss was recognized representing the difference between the net book value of the long-lived assets and their estimated fair value. Impairment losses totaling \$11.6 million were recognized during the first quarter of fiscal 2017. These losses primarily relate to leasehold improvements and furniture and fixtures of the company-operated stores segment. These assets were retired during fiscal 2017 in conjunction with the closures of the company-operated stores.

During fiscal 2017, the Company recognized lease termination costs of \$21.1 million, employee related expenses as a result of the restructuring of \$4.2 million as well as other restructuring costs of \$1.6 million.

NOTE 14. INCOME TAXES

The Company's domestic and foreign income before income tax expense and current and deferred income taxes from federal, state, and foreign sources are as follows:

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		
Income (loss) before income tax expense			
Domestic	\$ 132,563	\$ 123,942	\$ (30,955)
Foreign	582,687	336,056	453,684
	\$ 715,250	\$ 459,998	\$ 422,729
Current income tax expense			
Federal	\$ 73,213	\$ 79,724	\$ 36,245
State	16,153	11,573	6,690
Foreign	123,129	109,322	94,581
	\$ 212,495	\$ 200,619	\$ 137,516
Deferred income tax expense (recovery)			
Federal	\$ (13,068)	\$ 14,443	\$ (11,065)
State	(8,566)	3,988	(1,840)
Foreign	40,588	(17,714)	(5,263)
	18,954	717	(18,168)
Income tax expense	\$ 231,449	\$ 201,336	\$ 119,348

Table of Contents

The Company's income tax expense for fiscal 2018, fiscal 2017 and fiscal 2016 include certain discrete tax amounts, as follows:

	Fiscal Year Ended		
	February 28, 2019	January 29, 2018	January 29, 2017
	(In thousands)		
U.S. tax reform:			
One-time transition tax	\$7,464	\$ 58,896	\$—
Deferred income tax effects	—	398	—
Tax on repatriation of foreign earnings	23,714	—	(38)
Tax recovery on ivivva restructuring costs	—	(12,741)	—
Transfer pricing adjustments, net	—	—	(10,706)
Total discrete amounts	\$31,178	\$ 46,553	\$ (10,744)

U.S. tax reform

The U.S. tax reform enacted on December 22, 2017 introduced significant changes to the U.S. income tax laws, including reduction in the U.S. federal income tax rate from 35% to 21%, a shift to a territorial tax system which changed how foreign earnings are subject to U.S. tax, and the imposition of a mandatory one-time transition tax on the accumulated undistributed earnings of foreign subsidiaries.

One-time transition tax. U.S. tax reform required the Company to pay U.S. income taxes on accumulated foreign subsidiary earnings not previously subject to U.S. income tax at a rate of 15.5% on cash and cash equivalents and 8% on the remaining earnings, net of foreign tax credits. The one-time transition tax is payable over eight years.

The Company recognized a provisional amount of \$58.9 million for the mandatory one-time transition tax on the deemed repatriation of accumulated undistributed earnings of foreign subsidiaries. As a result of completing its fiscal 2017 U.S. tax returns and incorporating newly issued guidance into its calculations the Company recognized an additional current tax expense of \$7.5 million during fiscal 2018 for the mandatory one-time transition tax.

Deferred income tax effects. U.S. tax reform reduced the U.S. federal income tax rate from 35% to 21%. Accordingly, the Company remeasured its deferred income tax assets and liabilities to reflect the reduced rate that is expected to apply in future periods when these balances reverse. The Company recognized a provisional deferred income tax expense of \$0.4 million during fiscal 2017 to reflect the reduced U.S. tax rate and other effects of U.S. tax reform.

There were no adjustments to this provisional amount in fiscal 2018.

The Company completed the accounting for the income tax effects of U.S. tax reform in fiscal 2018.

Tax on repatriation of foreign earnings

U.S. tax reform and the shift to a territorial tax system eliminates U.S. federal income taxes upon the repatriation of foreign earnings. However, U.S. tax reform does not eliminate foreign withholding taxes, or certain state income taxes.

During fiscal 2018, the Company completed its evaluation of the impact that U.S. tax reform has upon repatriation taxes, its reinvestment plans, and the most efficient means of deploying its capital resources. As a result of these evaluations, the Company repatriated \$778.9 million from a Canadian subsidiary to the U.S. parent entity in fiscal 2018. A net tax current expense of \$23.7 million was recognized in fiscal 2018 on this distribution.

As at February 3, 2019, the Company has not provided for U.S. income taxes or foreign withholding taxes on its remaining net investment in this Canadian subsidiary of \$777.5 million. This net investment remains indefinitely reinvested and is considered necessary to sustain its existing business operations. The amount of tax that is payable upon the repatriation is dependent on the elections made by the Company under Canadian withholding tax legislation and the interaction between U.S. federal and state income tax laws. The unrecognized deferred tax liability on the indefinitely reinvested amount of the Canadian subsidiary is approximately \$2.3 million, which principally represents U.S. state income taxes which would be payable in the event of repatriation.

The Company will not assert indefinite reinvestment of the future earnings made by this Canadian subsidiary. No deferred income tax liabilities have been recognized on any of the undistributed earnings of the Company's other

foreign subsidiaries as these earnings are indefinitely reinvested outside of the United States.

Excluding this Canadian subsidiary, cumulative undistributed earnings of the Company's foreign subsidiaries as of February 3, 2019 were \$26.0 million.

Table of Contents

As of February 3, 2019, the Company had cash and cash equivalents of \$191.0 million outside of the United States.

Tax recovery on ivivva restructuring costs

As outlined in Note 13 of these consolidated financial statements, the Company restructured its ivivva operations during fiscal 2017. Income tax recoveries of \$12.7 million were recorded on total restructuring costs of \$47.2 million in fiscal 2017. These income tax recoveries are based on the tax rate of the applicable tax jurisdictions.

Transfer pricing adjustments, net

The Company's tax positions include the Company's intercompany transfer pricing policies and the associated taxable income and deductions arising from intercompany charges between subsidiaries within the consolidated group. During fiscal 2016, the Company finalized an Advance Pricing Arrangement ("APA") with the IRS and the Canada Revenue Agency ("CRA"). This agreement determined the amount of income which is taxable in each respective jurisdiction.

The final terms of the arrangement resulted in an increased amount of income tax recoverable in the United States compared to the previous benefit that was considered more likely than not to be realized upon finalization of the APA. This resulted in the recognition of a further net income tax recovery of \$10.7 million in the year ended fiscal 2016.

In accordance with the terms of the APA, the adjustments necessary to reflect the reduction in pre-tax income in the United States for fiscal 2011 to fiscal 2015 were recorded by way of a cumulative catchup reduction in pre-tax income in fiscal 2016. This resulted in a decrease in domestic income (loss) before income tax expense of \$129.9 million and a corresponding increase in foreign income before income tax expense in the year ended January 29, 2017.

During fiscal 2016, the Company recorded a net interest expense related to the APA of \$1.7 million. This represented accrued interest on the Canadian income tax payable related to the APA. The APA resulted in an increase in income tax payable in Canada. The interest costs were recognized in other income (expense), net.

There were no significant adjustments related to the APA in fiscal 2017 or fiscal 2018.

A summary reconciliation of the effective tax rate is as follows:

	Fiscal Year Ended			
	February 3, 2019		January 28, January 29, 2017	
	2019	2018	2017	
	(Percentages)			
Federal income tax at statutory rate	21.0%	33.9 %	35.0 %	
Foreign tax rate differentials	4.7	(5.9)	(7.0)	
U.S. state taxes	0.9	1.5	1.6	
Non-deductible compensation expense	0.8	0.9	0.6	
Permanent and other	0.6	0.5	0.5	
U.S. tax reform	1.1	12.9	—	
Tax on repatriation of foreign earnings	3.3	—	—	
Transfer pricing adjustments, net	—	—	(2.5)	
Effective tax rate	32.4%	43.8 %	28.2 %	

Table of Contents

The Company's U.S. federal income tax rate of 33.9% for the year ended January 28, 2018 is a blended rate that includes the rate decrease which became effective on January 1, 2018.

The tax effects of temporary differences that give rise to significant portions of the deferred income tax assets and deferred income tax liabilities as of February 3, 2019 and January 28, 2018 are presented below:

	February 3, 2019	January 28, 2018
	(In thousands)	
Deferred income tax assets:		
Net operating loss carryforwards	\$3,163	\$ 37,436
Inventories	8,684	4,691
Deferred lease liabilities	8,206	7,956
Tenant inducements	10,444	7,386
Stock-based compensation	2,440	740
Accrued bonuses	3,265	—
Unredeemed gift card liability	5,015	515
Foreign tax credits	—	877
Other	4,813	4,794
Deferred income tax assets	46,030	64,395
Valuation allowance	(507)	(1,843)
Deferred income tax assets, net of valuation allowance	\$45,523	\$ 62,552
Deferred income tax liabilities:		
Property and equipment, net	\$(33,055)	\$(30,429)
Other	(168)	(968)
Deferred income tax liabilities	(33,223)	(31,397)
Net deferred income tax assets	\$12,300	\$ 31,155

Balance sheet classification:

Deferred income tax assets	\$26,549	\$ 32,491
Deferred income tax liabilities	(14,249)	(1,336)
Net deferred income tax assets	\$12,300	\$ 31,155

As of February 3, 2019, the Company had net operating loss carryforwards of \$21.2 million. The majority of the net operating loss carryforwards expire, if unused, between fiscal 2030 and fiscal 2034.

The Company files income tax returns in the U.S., Canada, and various foreign, state, and provincial jurisdictions. The 2013 to 2018 tax years remain subject to examination by the U.S. federal and state tax authorities. The 2012 tax year is still open for certain state tax authorities. The 2010 to 2018 tax years remain subject to examination by Canadian tax authorities. The 2011 to 2018 tax years remain subject to examination by tax authorities in certain foreign jurisdictions. The Company does not have any significant unrecognized tax benefits arising from uncertain tax positions taken, or expected to be taken, in the Company's tax returns.

Table of Contents**NOTE 15. EARNINGS PER SHARE**

The details of the computation of basic and diluted earnings per share are as follows:

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands, except per share amounts)		
Net income	\$483,801	\$ 258,662	\$ 303,381
Basic weighted-average number of shares outstanding	133,413	135,988	137,086
Assumed conversion of dilutive stock options and awards	558	210	216
Diluted weighted-average number of shares outstanding	133,971	136,198	137,302
Basic earnings per share	\$3.63	\$ 1.90	\$ 2.21
Diluted earnings per share	\$3.61	\$ 1.90	\$ 2.21

The Company's calculation of weighted-average shares includes the common stock of the Company as well as the exchangeable shares. Exchangeable shares are the equivalent of common shares in all material respects. All classes of stock have in effect the same rights and share equally in undistributed net income. For the fiscal years ended February 3, 2019, January 28, 2018, and January 29, 2017, 32.2 thousand, 0.1 million, and 0.1 million stock options and awards, respectively, were anti-dilutive to earnings per share and therefore have been excluded from the computation of diluted earnings per share.

On June 11, 2014, the Company's board of directors approved a program to repurchase shares of the Company's common stock up to an aggregate value of \$450.0 million. This stock repurchase program was completed during the second quarter of fiscal 2016. On December 1, 2016, the Company's board of directors approved a program to repurchase shares of the Company's common stock up to an aggregate value of \$100.0 million. This stock repurchase program was completed during the third quarter of fiscal 2017.

On November 29, 2017, the Company's board of directors approved a stock repurchase program for up to \$200.0 million and on June 6, 2018, the board of directors approved an increase to this stock repurchase program, authorizing the repurchase of up to a total of \$600.0 million of the Company's common shares. On January 31, 2019, the Company's board of directors approved an additional stock repurchase program for up to \$500.0 million of the Company's common shares on the open market or in privately negotiated transactions. Common shares repurchased on the open market are at prevailing market prices, including under plans complying with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934. The timing and actual number of common shares to be repurchased will depend upon market conditions, eligibility to trade, and other factors, in accordance with Securities and Exchange Commission requirements, and the repurchase program is expected to be completed by January 2021. As of February 3, 2019, the remaining aggregate value of shares available to be repurchased under these programs was \$500.7 million.

During the fiscal years ended February 3, 2019, January 28, 2018, and January 29, 2017, 4.9 million, 1.9 million, and 0.5 million shares, respectively, were repurchased under the programs at a total cost of \$598.3 million, \$100.3 million, and \$29.3 million, respectively.

Subsequent to February 3, 2019, and up to March 21, 2019, no shares were repurchased.

NOTE 16. COMMITMENTS AND CONTINGENCIES**Commitments**

Leases. The Company has obligations under operating leases for its store and other retail locations, distribution centers, offices, and equipment. As of February 3, 2019, the lease terms of the various leases range from two to 15 years. A substantial number of the Company's leases include renewal options and certain of the Company's leases include rent escalation clauses, rent holidays and leasehold rental incentives. The majority of the Company's leases for store premises also include contingent rental payments based on sales volume. The Company is required to make deposits for rental payments pursuant to certain lease agreements, which have been included in other non-current assets. Minimum annual basic rent payments excluding other executory operating costs, pursuant to lease agreements

are approximately as laid out in the table below. These amounts include commitments in respect of company-operated stores that have not yet opened but for which lease agreements have been executed.

Total rent expense for the years ended February 3, 2019, January 28, 2018, and January 29, 2017 was \$198.0 million, \$167.3 million, and \$147.4 million, respectively, under operating lease agreements, consisting of minimum rent expense of

70

Table of Contents

\$161.8 million, \$135.9 million, and \$119.0 million, respectively, common area expenses of \$23.3 million, \$20.0 million, and \$18.0 million, respectively, and rent contingent on sales of \$12.9 million, \$11.4 million, and \$10.4 million, respectively.

License and supply arrangements. The Company has entered into license and supply arrangements with partners in the Middle East and Mexico which grant them the right to operate lululemon branded retail locations in the United Arab Emirates, Kuwait, Qatar, Oman, Bahrain, and Mexico. The Company retains the rights to sell lululemon products through its e-commerce websites in these countries. Under these arrangements, the Company supplies the partners with lululemon products, training, and other support. The initial term of the agreement for the Middle East expires in January 2020, and the initial term of the agreement for Mexico expires in November 2026. As of February 3, 2019, there were three licensed retail locations in Mexico, three in the United Arab Emirates, and one in Qatar.

One-time transition tax. As outlined in Note 14 of these consolidated financial statements, U.S. tax reform imposed a mandatory transition tax on accumulated foreign subsidiary earnings which have not previously been subject to U.S. income tax. The one-time transition tax is payable over eight years beginning in fiscal 2018. The Company recognized a provisional income tax expense of \$58.9 million in fiscal 2017 and an additional expense of \$7.5 million during fiscal 2018 for the mandatory transition tax. The one-time transition tax payable is net of foreign tax credits, and the table below outlines the expected payments due by fiscal year.

The following table summarizes the Company's contractual arrangements as of February 3, 2019, and the timing and effect that such commitments are expected to have on its liquidity and cash flows in future periods:

	Payments Due by Fiscal Year						
	Total	2019	2020	2021	2022	2023	Thereafter
	(In thousands)						
Operating leases (minimum rent)	\$783,913	\$169,822	\$147,541	\$123,032	\$99,471	\$73,213	\$170,834
One-time transition tax payable	46,108	4,009	4,009	4,009	4,009	7,518	22,554
Contingencies							

Legal proceedings. In addition to the legal proceedings described below, the Company is, from time to time, involved in routine legal matters, and audits and inspections by governmental agencies and other third parties which are incidental to the conduct of its business. This includes legal matters such as initiation and defense of proceedings to protect intellectual property rights, personal injury claims, product liability claims, employment claims, and similar matters. The Company believes the ultimate resolution of any such legal proceedings, audits, and inspections will not have a material adverse effect on its consolidated balance sheets, results of operations or cash flows.

On October 9, 2015, certain current and former hourly employees of the Company filed a class action lawsuit in the Supreme Court of New York entitled Rebecca Gathmann-Landini et al v. lululemon USA inc. On December 2, 2015, the case was moved to the United States District Court for the Eastern District of New York. The lawsuit alleges that the Company violated various New York labor codes by failing to pay all earned wages, including overtime compensation. The plaintiffs are seeking an unspecified amount of damages. The Company intends to vigorously defend this matter.

On November 21, 2018, plaintiff David Shabbouei filed in the Delaware Court of Chancery a derivative lawsuit on behalf of lululemon against certain of our current and former directors and officers, captioned David Shabbouei v. Laurent Potdevin, et al., 2018-0847-JRS. Plaintiff claims that the defendants breached their fiduciary duties to lululemon by allegedly failing to address alleged sexual harassment, gender discrimination, and related conduct at lululemon. Plaintiff also claims that the defendants breached their fiduciary duties to lululemon and wasted corporate assets with respect to the separation agreement entered into by lululemon and Laurent Potdevin in connection with his departure from lululemon in February 2018. Plaintiff also further brings an unjust enrichment claim against Mr. Potdevin with respect to the separation agreement. Plaintiff seeks unspecified money damages for lululemon for the defendants' alleged breaches of fiduciary duty, waste and unjust enrichment, disgorgement of all profits, benefits and other compensation Mr. Potdevin received as a result of defendants' alleged conduct for lululemon, an order directing lululemon to implement corporate governance and internal procedures, and an award of plaintiff's attorneys' fees, costs and expenses. The defendants and lululemon have moved to dismiss the action.

Table of Contents

NOTE 17. RELATED PARTY BALANCES AND TRANSACTIONS

The Company entered into the following transactions with related parties, all of which were approved by the Company's Audit Committee in accordance with the Company's related party transaction policy:

	Fiscal Year Ended		
	February 28, 2019	January 29, 2018	January 29, 2017
	2019	2018	2017
	(In thousands)		

Payments to related parties:

Lease costs for one company-operated store	\$ 124	\$ 138	\$ 108
Consulting fees	—	—	167

The Company's founder, who was a beneficial owner of more than 10% of the Company's total outstanding shares during fiscal 2018, owns a retail space that the Company leases for one of its company-operated stores. Consulting fees were paid to a relative of the Company's founder; the agreements related to this were not renewed beginning in fiscal 2017.

NOTE 18. SUPPLEMENTAL CASH FLOW INFORMATION

	Fiscal Year Ended		
	February 28, 2019	January 29, 2018	January 29, 2017
	2019	2018	2017
	(In thousands)		

Cash paid for income taxes	\$ 177,040	\$ 137,826	\$ 132,422
Interest paid	1,394	8	5,178

Table of Contents**NOTE 19. SEGMENTED INFORMATION AND DISAGGREGATED NET REVENUE**

The Company applies ASC Topic 280, Segment Reporting ("ASC 280"), in determining reportable segments for its financial statement disclosure. The Company reports segments based on the financial information it uses in managing its business. The Company's reportable segments are comprised of company-operated stores and direct to consumer. Direct to consumer represents sales from the Company's e-commerce websites and mobile apps. Outlets, temporary locations, sales to wholesale accounts, showrooms, license and supply arrangements, and warehouse sale net revenue have been combined into other. During the first quarter of fiscal 2018, the Company reviewed its general corporate expenses and determined certain costs which were previously classified as general corporate expense are more appropriately classified within the direct to consumer segment. Accordingly, comparative figures have been reclassified to conform to the financial presentation adopted for the current year.

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		
Net revenue:			
Company-operated stores	\$2,126,363	\$1,837,065	\$1,704,357
Direct to consumer	858,856	577,590	453,287
Other	303,100	234,526	186,748
	\$3,288,319	\$2,649,181	\$2,344,392
Segmented income from operations:			
Company-operated stores	\$575,536	\$464,321	\$415,635
Direct to consumer	354,107	224,076	179,995
Other	62,558	35,580	22,312
	992,201	723,977	617,942
General corporate expenses	286,365	220,753	196,790
Restructuring and related costs	—	47,223	—
Income from operations	705,836	456,001	421,152
Other income (expense), net	9,414	3,997	1,577
Income before income tax expense	\$715,250	\$459,998	\$422,729
Capital expenditures:			
Company-operated stores	\$129,155	\$80,240	\$75,304
Direct to consumer	6,420	19,928	11,461
Corporate and other	90,232	57,696	62,746
	\$225,807	\$157,864	\$149,511
Depreciation and amortization:			
Company-operated stores	\$76,303	\$64,870	\$59,585
Direct to consumer	10,018	12,997	7,015
Corporate and other	36,163	30,368	21,097
	\$122,484	\$108,235	\$87,697

The accelerated depreciation related to the restructuring of the ivivva operations is included in corporate and other in the above breakdown of depreciation and amortization.

Intercompany amounts are excluded from the above table as they are not included in the materials reviewed by the chief operating decision maker.

Table of Contents

The following table disaggregates the Company's net revenue by geographic area for the years ended February 3, 2019, January 28, 2018, and January 29, 2017. The economic conditions in these areas could affect the amount and timing of the Company's net revenue and cash flows.

	Fiscal Year Ended		
	February 3, 2019	January 28, 2018	January 29, 2017
	(In thousands)		
United States	\$2,363,374	\$1,911,763	\$1,726,076
Canada	565,105	491,779	447,167
Outside of North America	359,840	245,639	171,149
	\$3,288,319	\$2,649,181	\$2,344,392

Property and equipment, net by geographic area as of February 3, 2019 and January 28, 2018 were as follows:

	February 3, 2019	January 28, 2018
	(In thousands)	
United States	\$217,874	\$161,699
Canada	303,061	271,441
Outside of North America	46,302	40,502
	\$567,237	\$473,642

The Company's goodwill and intangible assets relate to the reporting segment consisting of company-operated stores.

Table of Contents**NOTE 20. QUARTERLY FINANCIAL INFORMATION (UNAUDITED)**

The following tables present the Company's unaudited quarterly results of operations and comprehensive income for each of the quarters in the fiscal years ended February 3, 2019 and January 28, 2018. The following tables should be read in conjunction with the Company's audited consolidated financial statements and related notes. The Company has prepared the information below on a basis consistent with its audited consolidated financial statements and has included all adjustments, consisting of normal recurring adjustments, which, in the opinion of the Company's management, are necessary to fairly present its operating results for the quarters presented. The Company's historical unaudited quarterly results of operations are not necessarily indicative of results for any future quarter or for a full year.

	Fiscal 2018				Fiscal 2017			
	Fourth Quarter	Third Quarter	Second Quarter	First Quarter	Fourth Quarter	Third Quarter	Second Quarter	First Quarter
	(Unaudited; Amounts in thousands, except per share amounts)

Income tax expense	115,816	43,534	40,029	32,070	137,743	27,696	20,813	15,084
Net income	\$218,465	\$94,413	\$95,770	\$75,153	\$119,761	\$58,944	\$48,711	\$31,246
Other comprehensive income (loss), net of tax:								
Foreign currency translation adjustment	(5,346)	(7,318)	(18,249)	(42,972)	48,516	(31,018)	72,854	(31,775)
Comprehensive income	\$213,119	\$87,095	\$77,521	\$32,181	\$168,277	\$27,926	\$121,565	\$(529)
Basic earnings per share	\$1.66	\$0.71	\$0.71	\$0.55	\$0.88	\$0.44	\$0.36	\$0.23
Diluted earnings per share	\$1.65	\$0.71	\$0.71	\$0.55	\$0.88	\$0.43	\$0.36	\$0.23

The Company's quarterly results of operations have varied in the past and are likely to do so again in the future. As such, the Company believes that comparisons of its quarterly results of operations should not be relied upon as an indication of the Company's future performance.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act, as of the end of the period covered by this report, or the Evaluation Date. Based upon the evaluation, our principal executive officer and principal financial and accounting officer concluded that our disclosure controls and procedures were effective as of the Evaluation Date. Disclosure controls and procedures are controls and procedures designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this report, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include controls and procedures designed to reasonably ensure that such information is accumulated and communicated to our management, including our principal executive officer and principal financial and accounting officer, as appropriate to allow timely decisions regarding required disclosure.

Inherent Limitations over Internal Controls

Our internal control over financial reporting is designed to provide reasonable assurances regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on the financial statements. Management, including our principal executive officer and principal financial and accounting officer, does not expect that our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource limitations on all control systems; no evaluation of internal controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, any evaluation of the effectiveness of controls in future periods are subject to the risk that those internal controls may become inadequate because of changes in business conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management's Annual Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended). Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the criteria set forth in Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, or COSO. Based on this evaluation, management concluded that we maintained effective internal control over financial reporting as of February 3, 2019. The effectiveness of our internal control over financial reporting as of February 3, 2019 has been audited by PricewaterhouseCoopers LLP our independent registered public accounting firm, as stated in their report in Item 8 of Part II of this Form 10-K.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the fourth quarter of the fiscal year ended February 3, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this item concerning our directors, director nominees and Section 16 beneficial ownership reporting compliance is incorporated by reference to our definitive Proxy Statement for our 2019 Annual Meeting of Stockholders under the captions "Election of Directors," "Section 16(a) Beneficial Ownership Reporting Compliance," "Executive Officers" and "Corporate Governance."

We have adopted a written code of business conduct and ethics, which applies to all of our directors, officers, and employees, including our principal executive officer and our principal financial and accounting officer. Our Global Code of Business Conduct and Ethics is available on our website, www.lululemon.com, and can be obtained by writing to Investor Relations, lululemon athletica inc., 1818 Cornwall Avenue, Vancouver, British Columbia, Canada V6J 1C7 or by sending an email to investors@lululemon.com. The information contained on our website is not incorporated by reference into this Annual Report on Form 10-K. Any amendments, other than technical, administrative, or other non-substantive amendments, to our Global Code of Business Conduct and Ethics or waivers from the provisions of the Global Code of Business Conduct and Ethics for our principal executive officer and our principal financial and accounting officer will be promptly disclosed on our website following the effective date of such amendment or waiver.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this item is incorporated by reference to our 2019 Proxy Statement under the captions "Executive Compensation" and "Executive Compensation Tables."

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item is incorporated by reference to our 2019 Proxy Statement under the caption "Principal Stockholders and Stock Ownership by Management."

Equity Compensation Plan Information (as of February 3, 2019)

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights ⁽¹⁾ (A)	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights ⁽²⁾ (B)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (A)) ⁽³⁾ (C)
Equity compensation plans approved by stockholders	1,633,483	\$ 73.34	18,320,120
Equity compensation plans not approved by stockholders	—	—	—
Total	1,633,483	\$ 73.34	18,320,120

(1) This amount represents the following: (a) 869,865 shares subject to outstanding options, (b) 279,697 shares subject to outstanding performance-based restricted stock units, (c) 440,020 shares subject to outstanding restricted stock units, and (d) 43,901 shares subject to outstanding restricted stock units that settle in cash or common stock at the election of the employee. The options, performance-based restricted stock units and restricted stock units are all under our 2007 Equity Incentive Plan or our 2014 Equity Incentive Plan. Restricted shares outstanding under our 2014 Equity Incentive Plan have already been reflected in our total outstanding common stock balance.

(2) The weighted-average exercise price is calculated solely on the exercise prices of the outstanding options and does not reflect the shares that will be issued upon the vesting of outstanding awards of performance-based restricted stock units and restricted stock units, which have no exercise price.

- This includes (a) 13,514,997 shares of our common stock available for future issuance under our 2014 Equity Incentive Plan and (b) 4,805,123 shares of our common stock available for future issuance under our Employee Share Purchase Plan. The number of shares remaining available for future issuance under our 2014 Equity
- (3) Incentive Plan is reduced by 1.7 shares for each award other than stock options granted and by one share for each stock option award granted. Outstanding awards that expire or are canceled without having been exercised or settled in full are available for issuance again under our 2014 Equity Incentive Plan and shares that are withheld in satisfaction of tax withholding obligations for full value awards are also again available for issuance. No further awards may be issued under the predecessor plan, our 2007 Equity Incentive Plan.
