AMC ENTERTAINMENT HOLDINGS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2018

(Unaudited)

NOTE 1—BASIS OF PRESENTATION

AMC Entertainment Holdings, Inc. (“Holdings”), through its direct and indirect subsidiaries, including American Multi-Cinema, Inc. and its subsidiaries, (collectively with Holdings, unless the context otherwise requires, the “Company” or “AMC”), is principally involved in the theatrical exhibition business and owns, operates or has interests in theatres located in the United States and Europe. Holdings is an indirect subsidiary of Dalian Wanda Group Co., Ltd. (“Wanda”), a Chinese private conglomerate.

As of June 30, 2018, Wanda owned approximately 59.44% of Holdings’ outstanding common stock and 81.47% of the combined voting power of Holdings’ outstanding common stock and has the power to control Holdings’ affairs and policies, including with respect to the election of directors (and, through the election of directors, the appointment of management), entering into mergers, sales of substantially all of the Company’s assets and other extraordinary transactions.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates and assumptions are used for, but not limited to: (1) Impairments, (2) Income and operating taxes, (3) Fair value of acquired assets and liabilities, and (4) Gift card and exchange ticket income. Actual results could differ from those estimates.

Principles of Consolidation: The accompanying unaudited consolidated financial statements include the accounts of Holdings and all subsidiaries, as discussed above, and should be read in conjunction with the Company’s Annual

Report on Form 10-K for the year ended December 31, 2017. The accompanying consolidated balance sheet as of December 31, 2017, which was derived from audited financial statements, and the unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in accordance with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by the accounting principles generally accepted in the United States of America for complete consolidated financial statements. In the opinion of management, these interim financial statements reflect all adjustments (consisting of normal recurring adjustments) necessary for a fair statement of the Company's financial position and results of operations. All significant intercompany balances and transactions have been eliminated in consolidation. There are no noncontrolling (minority) interests in the Company's consolidated subsidiaries; consequently, all of its stockholders' equity, net earnings and total comprehensive income for the periods presented are attributable to controlling interests. Due to the seasonal nature of the Company's business, results for the six months ended June 30, 2018 are not necessarily indicative of the results to be expected for the year ending December 31, 2018. The Company manages its business under two reportable segments for its theatrical exhibition operations, U.S. markets and International markets.

Accumulated depreciation and amortization: Accumulated depreciation was \$1,474.2 million and \$1,266.9 million at June 30, 2018 and December 31, 2017, respectively, related to property. Accumulated amortization of intangible assets was \$65.0 million and \$55.5 million at June 30, 2018 and December 31, 2017, respectively.

Leases: During the six months ended June 30, 2018, the Company modified the terms of an existing operating lease to reduce the lease term. The Company received a \$35.0 million incentive from the landlord to enter into the new lease agreement. The Company has recorded amortization of the lease incentive as a reduction to rent expense on a straight-line basis over the remaining lease term which reduced rent expense by \$10.8 million and \$35.0 million during the three and six months ended June 30, 2018, respectively.

Table of Contents

Sale and Leaseback Transaction: On June 18, 2018, the Company completed the sale and leaseback of the real estate assets associated with one theatre for proceeds, net of closing costs of \$50.1 million. The gain on the sale of approximately \$27.3 million has been deferred and will be amortized over the remaining lease term.

Presentation: Certain reclassifications have been made to the prior period financial statements to conform to the current year presentation.

Accounting Pronouncements Recently Adopted

Revenue from Contracts with Customers. The Company adopted the guidance of Accounting Standards Codification (“ASC”) 606, Revenue from Contracts with Customers, (“ASC 606”) as of January 1, 2018 using the modified retrospective method. ASC 606 requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The Company recognized the cumulative effect of initially applying the new revenue standard as an adjustment to the opening balance of accumulated deficit. ASC 606 was applied only to contracts that were not completed at January 1, 2018. The comparative information in the prior year has not been adjusted and continues to be reported under ASC 605, Revenue Recognition, which was the accounting standard in effect for those periods. See Note 2—Revenue for the required disclosures of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers per the guidance in ASC 606.

Reclassification of Certain Tax Effects. In February 2018, the FASB issued ASU No. 2018-02, Income Statement – Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income (“ASU 2018-02”), which allows a reclassification from accumulated other comprehensive income to accumulated deficit for stranded tax effects resulting from the U.S. Tax Cuts and Jobs Act signed into law in December 2017. ASU 2018-02 is effective for the Company on January 1, 2019 and early adoption of the amendments is permitted, including adoption in any interim period. The Company early adopted ASU 2018-02, effective January 1, 2018, and recorded a reclassification related to the stranded tax effects that increased accumulated other comprehensive income and increased accumulated deficit by \$5.0 million in the consolidated balance sheets as of January 1, 2018. See Note 7—Income Taxes for further information.

Modification Accounting for Stock-Based Compensation. In May 2017, the FASB issued ASU No. 2017-09, Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting (“ASU 2017-09”), which amends the scope of modification accounting for share-based payment arrangements and provides guidance on the types of changes to the terms or conditions of the share-based payment awards to which an entity would be required to apply modification accounting under ASC 718. The amendments in ASU 2017-09 should be applied prospectively to an award modified on or after the adoption date. The Company adopted ASU 2017-09 on January 1, 2018 and will apply the guidance in ASU 2017-09 to any future changes to the terms or conditions of stock-based payment awards should they occur. The Company’s adoption of ASU 2017-09 did not have an impact on its consolidated financial statements.

Improving Presentation of Net Benefit Costs. In March 2017, the FASB issued ASU No. 2017-07, Compensation – Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost (“ASU 2017-07”). The guidance requires the service cost component of defined benefit

pension plans and other post-retirement benefit plans to be reported in the same line item as other compensation costs arising from the services rendered by the pertinent employees while the other components of net benefit cost are required to be presented in the income statement separately from the service cost component and reported outside a subtotal of operating income. The amendments in this guidance should be applied retrospectively for the presentation of the service cost component and the other components of net benefit cost in the consolidated statements of operations. The Company adopted ASU 2017-07 effective January 1, 2018 and recorded a prior period adjustment for the three and six months ended June 30, 2017 in the consolidated statements of operations to decrease general and administrative other by \$0.1 million and \$0.2 million, respectively, related to the other components of net benefit cost, with a corresponding increase to other expense (income) of \$0.1 million and decrease to other income of \$0.2 million, respectively. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

Restricted Cash in Statement of Cash Flows. In November 2016, the FASB issued ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash (A Consensus of the FASB Emerging Issues Task Force) ("ASU 2016-18"). ASU 2016-18 requires that restricted cash be included with cash and cash equivalents when reconciling the beginning and end-of-period total amounts shown on the statement of cash flows. This guidance must be applied retrospectively to all periods presented. The Company adopted ASU 2016-18 effective January 1, 2018 and the prior

Table of Contents

period has been adjusted to conform to the current period presentation. This guidance also requires a new disclosure to reconcile the cash balances within the consolidated statement of cash flows to the consolidated balance sheets. The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the consolidated balance sheets that sum to the total of the amounts shown in the consolidated statements of cash flows:

(In millions)	June 30, 2018	December 31, 2017
Cash and cash equivalents	\$ 316.4	\$ 310.0
Restricted cash	11.0	8.3
Total cash and cash equivalents and restricted cash shown in the consolidated statements of cash flows	\$ 327.4	\$ 318.3

Classification of certain cash receipts and cash payments. In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (“ASU 2016-15”). The amendments in this update provide guidance on eight specific cash flow classification issues. The update provides specific guidance on each of the eight issues, thereby reducing the diversity in practice in how certain transactions are classified in the statement of cash flows. The Company adopted ASU 2016-15 on January 1, 2018 and made an election to continue using the “nature of the distribution approach” to classify distributions received from equity method investments. The adoption of this guidance did not have an impact on the Company’s consolidated statements of cash flows.

Classification and measurement of financial instruments. In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities (“ASU 2016-01”). ASU 2016-01 amends various aspects of the recognition, measurement, presentation, and disclosure of financial instruments. The amendments require that equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) are to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. The Company adopted ASU 2016-01 on January 1, 2018 and recorded a decrease to accumulated other comprehensive income of \$0.6 million, net of tax, related to the unrealized gains on available-for-sale securities that are equity instruments with a corresponding decrease to accumulated deficit in the consolidated balance sheets as of the beginning of the year. The adoption of this guidance did not have a material impact on the Company’s consolidated financial statements.

Accounting Pronouncements Issued Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02, Leases, (“ASC 842”) which requires lessees to recognize leases on-balance sheet and disclose key information about leasing arrangements. The new standard establishes a

right-of-use model (“ROU”) that requires a lessee to recognize a ROU asset and lease liability on the balance sheet for all leases with a term longer than 12 months. Leases will be classified as finance or operating, with classification affecting the pattern and classification of expense recognition in the income statement. The new standard is effective for the Company on January 1, 2019, with early adoption permitted. The Company plans to adopt the guidance on January 1, 2019, using a modified retrospective transition approach with the cumulative effect recognized at the date of initial application, whereby comparative prior period financial information will not be adjusted to reflect the new standard. In January 2018, the FASB issued ASU No. 2018-01, Leases, which permits an entity to elect an optional transition practical expedient to not evaluate under ASU 842 land easements that exist or expired before the entity’s adoption of ASC 842 and that were not previously accounted for as leases.

The Company expects that this standard will have a material effect on its consolidated financial statements. While the Company is continuing to assess the effect of adoption, the Company currently believes the most significant changes relate to (1) the recognition of new ROU assets and lease liabilities on its balance sheet for theatres currently subject to operating leases; (2) the derecognition of existing assets and liabilities for certain sale-leaseback transactions (including those arising from build-to-suit lease arrangements for which construction is complete and the Company is leasing the constructed asset) that currently do not qualify for sale accounting and the recognition of new ROU assets and lease liabilities on its balance sheet; and (3) the derecognition of existing assets and liabilities for certain assets under construction in build-to-suit lease arrangements that the Company will lease when construction is complete. The Company does not expect a significant change in its leasing activity between now and adoption. However, the Company

Table of Contents

has not quantified the effects of these expected changes from the new standard.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments (“ASU 2016-13”), which provides new guidance regarding the measurement and recognition of credit impairment for certain financial assets. Such guidance will impact how the Company determines its allowance for estimated uncollectible receivables and evaluates its available-for-sale investments for impairment. ASU 2016-13 is effective for the Company in the first quarter of 2020, with early adoption permitted in the first quarter of 2019. The Company is currently evaluating the effect that ASU 2016-13 will have on its consolidated financial statements and related disclosures.

Revenues: The Company recognizes revenue, net of sales tax, when it satisfies a performance obligation by transferring control over a product or service to a customer. Admissions and food and beverage revenues are recognized at a point in time when a film is exhibited to a customer and when a customer takes possession of food and beverage offerings. The Company defers 100% of the revenue associated with the sales of gift cards and exchange tickets until such time as the items are redeemed or estimated income from non-redemption is recorded.

The Company recognizes income from non-redeemed or partially redeemed gift cards in proportion to the pattern of rights exercised by the customer (“proportional method”) where it applies an estimated non-redemption rate for its gift card sales channels, which range from 12% to 18% of the current month sales, and the Company recognizes in other theatre revenues the total amount of expected income for non-redemption for that current month’s sales as income over the next 24 months in proportion to the pattern of actual redemptions. The Company has determined its non-redeemed rates and redemption patterns using data accumulated over ten years. Prior to January 1, 2018, income for non-redeemed exchange tickets were recognized 18 months after purchase when the redemption of these items was determined to be remote. At January 1, 2018, the Company changed its method for recognizing income from non-redeemed exchange tickets to the proportional method, where it applies a non-redemption rate of 10% to the current month sales, and the Company recognizes the total amount of income for that current month’s sales as income over the next 24 months in proportion to the pattern of actual redemptions. Management believes the 24-month estimate is supported by its continued development of redemption history and that it is reflective of management’s current best estimate. The adoption of the proportional method of recognizing income from non-redeemed exchange tickets did not have a material impact on the Company’s consolidated financial statements.

Prior to January 1, 2018, the Company recorded online ticket fee revenues net of third-party commission or service fees. In accordance with ASC 606 guidance, the Company believes that it is a principal (as opposed to agent) in the arrangement with third-party internet ticketing companies in regard to the sale of online tickets because the company controls the online tickets before it is transferred to the customer. Upon adoption of ASC 606 on January 1, 2018, the Company recognizes ticket fee revenues based on a gross transaction price. The online ticket fee revenues and the

third-party commission or service fees are recorded in the line item other theatre revenues and operating expense, respectively, in the consolidated statements of operations. These changes did not have any impact on net income or cash flows from operations.

Exhibitor Services Agreement: The Company recognizes advertising revenues, which are included in other theatre revenues in the consolidated statements of operations, when it satisfies a performance obligation by transferring a promised good or service to the customers. The advertising contracts with customers generally consist of a series of distinct periods of service, satisfied over time, to provide rights to advertising services. The Company's ESA with NCM includes a significant financing component due to the significant length of time between receiving the noncash consideration and fulfilling the performance obligation. The Company receives the non-cash consideration in the form of common membership units from NCM, in exchange for rights to exclusive access to the Company's theatre screens and attendees through February 2037. Upon adoption of ASC 606, the Company's advertising revenues have significantly increased with a similar offsetting increase in non-cash interest expense, which is recorded to non-cash NCM exhibitor service agreement in the consolidated statements of operations. Upon adoption of ASC 606 and pursuant to the calculation requirements for the time value of money, the amortization method reflects the front-end loading of the significant financing component where more interest expense is recognized earlier during the term of the agreement than

Table of Contents

the back-end recognition of the deferred revenue amortization where more revenue is recognized later in the term of the agreement. See Note 5—Investments for further information regarding the common unit adjustment and the fair value measurement of the noncash consideration. The interest expense was calculated using discount rates that ranged from 6.5% to 8.5%, which are the rates at which the Company believes it could borrow in separate financing transactions. The Company recognized a cumulative effect transition adjustment of initially applying ASC 606 by increasing accumulated deficit on January 1, 2018 by approximately \$52.9 million, including income tax effect of \$0, as a result of this change. These changes did not have any impact on the Company's cash flows from operations.

Customer Frequency Program: AMC Stubs® is a customer loyalty program which allows members to earn rewards, receive discounts and participate in exclusive members-only offerings and services. In July 2016, the Company completed a national relaunch of its AMC Stubs® loyalty program featuring both a traditional paid tier called AMC Stubs Premiere™ and a new non-paid tier called AMC Stubs Insider™. Both programs reward loyal guests for their patronage of AMC Theatres. The AMC Stubs Insider™ tier rewards guests for simply coming to the movies, and benefits include free refills on certain food items, discount ticket offers, a birthday gift and 20 reward points earned for every dollar spent. For a \$15.00 annual membership fee, AMC Stubs Premiere™ members enjoy express service with specially marked shorter lines at the box office and concession stand, free size upgrades on certain food and beverage items, discount ticket offers, a birthday gift, discounted online ticketing fees and 100 reward points for every dollar spent. Some of the rewards earned are redeemable on future purchases at AMC locations. Once an AMC Stubs Premiere™ or AMC Stubs Insider™ member accumulates 5,000 points they will earn a \$5.00 virtual reward.

The portion of the admissions and food and beverage revenues attributed to the rewards is deferred as a reduction of admissions and food and beverage revenues and is allocated between admissions and food and beverage revenues based on expected member redemptions. Upon redemption, deferred rewards are recognized as revenues along with associated cost of goods. Converted rewards not redeemed within nine months are forfeited and recognized as admissions or food and beverage revenues. Prior to January 1, 2018, rewards for expired memberships were forfeited based upon specified periods of inactivity of the membership and recognized as admissions or food and beverage revenues. As of January 1, 2018, the Company changed its method for recognizing forfeited rewards from the remote method to the proportional method, where the Company estimates point breakage in assigning value to the points at the time of sale based on historical trends. The program's annual membership fee is allocated to the material rights for discounted or free products and services and is initially deferred, net of estimated refunds, and recognized as the rights are redeemed based on estimated utilization, over the one-year membership period in admissions, food and beverage, and other revenues. A portion of the revenues related to a material right are deferred as a virtual rewards performance obligation using the relative standalone selling price method and are recognized as the rights are redeemed or expire.

NOTE 3—ACQUISITIONS

Nordic Cinema Group Holding AB

On March 28, 2017, the Company completed the acquisition of Nordic Cinema Group Holding AB (“Nordic”) for cash. The purchase price for Nordic was approximately SEK 5,756 million (\$654.9 million), which includes payment of interest on the equity value and repayment of shareholder loans. As a result of the acquisition, the Company assumed the indebtedness of Nordic of approximately SEK 1,269 million (\$144.4 million) and indebtedness of approximately €156 million (\$169.5 million) as of March 28, 2017, which was refinanced subsequent to the acquisition. The Company also assumed approximately SEK 13.5 million (\$1.6 million) and approximately €1.0 million (\$1.1 million) of interest rate swaps related to the indebtedness which were repaid following the acquisition. All amounts have been converted into US Dollar amounts assuming an SEK/USD exchange rate of 0.11378 and an EUR/USD exchange rate of 1.0865, which were the exchange rates on March 27, 2017.

The acquisition is being treated as a purchase in accordance with Accounting Standards Codification Topic 805, Business Combinations (“ASC 805, Business Combinations”), which requires allocation of the purchase price to the estimated fair values of assets and liabilities acquired in the transaction. The allocation of purchase price is based on

management's judgment after evaluating several factors, including a valuation assessment. The Company finalized the appraisals for both tangible and intangible assets and liabilities during the three months ended March 31, 2018. The fair value measurement of tangible and intangible assets and liabilities were based on significant inputs not observable in the market and thus represent Level 3 measurements within the fair value measurement hierarchy. Level 3 fair market values were determined using a variety of information, including estimated future cash flows, appraisals, and market comparables.

Table of Contents

The purchase price paid by the Company in the acquisition resulted in recognition of goodwill because it exceeded the estimated fair value of the assets acquired and liabilities assumed. The Company paid a price in excess of estimated fair value of the assets acquired and liabilities assumed because the acquisition of Nordic enhances its position as the largest movie exhibition company in Europe and broadens and diversifies its European platform. The Company also expects to realize synergy and cost savings related to the acquisition because of purchasing and procurement economies of scale.

During the three and six months ended June 30, 2018, the Company incurred acquisition-related and transition costs for Nordic of approximately \$1.6 million and \$2.7 million, respectively, which were included in general and administrative expense: merger, acquisition and transaction costs in the Consolidated Statements of Operations. The revenues for Nordic during the three and six months ended June 30, 2018 were \$73.2 million and \$179.8 million, respectively. Nordic net earnings during the three and six months ended June 30, 2018 were \$1.1 million and \$14.6 million, respectively.

Pro Forma Results of Operations (Unaudited)

The following selected comparative unaudited pro forma results of operations information for the three and six months ended June 30, 2017 assumes that the Nordic acquisition occurred at the beginning of 2017 and reflects the full results of operations for the periods presented. The pro forma results have been prepared for comparative purposes only and do not purport to indicate the results of operations which would actually have occurred had the combination been in effect on the dates indicated, or which may occur in the future. These amounts have been calculated after applying the Company's accounting policies and adjusting the results of Nordic to reflect the fair value adjustments to property and equipment and financing obligations. The pro forma financial information presented includes the effects of adjustments related to fair values assigned to long-lived assets, including depreciation charges from acquired property and equipment, interest expense and incremental shares issued from financing the acquisitions and the related income tax effects, and the elimination of Carmike Cinemas, Inc. ("Carmike") and AMC historical revenues and expenses for theatres in markets that were divested as required by the final judgement with the Department of Justice ("DOJ") in connection with the acquisition of Carmike. Merger, acquisition and transaction costs directly related to the acquisitions have not been removed.

The Company elected to return the units and recorded the surrendered common units as a reduction to deferred revenues for the ESA at fair value of \$5.2 million, based upon a price per share of National Cinemedia, Inc. ("NCM, Inc.") of \$5.64 on March 15, 2018. The Company's investment in NCM was reduced by the carrying value of the common units of \$6.3 million resulting in a loss from the surrender of the

NCM common units of \$1.1 million, which was recorded to equity in earnings (loss) of Non-Consolidated Entities in March 2018.

As of June 30, 2018, the Company owned 21,477,480 common membership units in NCM, which are classified on the Company's balance sheet as held for sale. NCM Agreement

On March 9, 2017, the Company reached an agreement with NCM to implement the requirements of the final judgment entered in connection with the DOJ approval of the Carmike transaction. Pursuant to the NCM agreement, the

Table of Contents

Company received 18,425,423 NCM common units in March 2017 related to annual attendance at the Carmike theatres and 361,892 NCM common units related to the 2016 common unit adjustment. Because the Carmike theatres were subject to a pre-existing agreement with a third party and will not receive advertising services from NCM, the Company will be obligated to make quarterly payments to NCM reflecting the estimated value of the advertising services at the Carmike theatres as if NCM had provided such services. The quarterly payments will continue until the earlier of (i) the date the theatres are transferred to the NCM network or (ii) expiration of the ESA with NCM. All calculations will be made pursuant to the terms of the existing ESA and Common Unit Adjustment Agreement with NCM. With regard to the existing AMC theatres on the NCM network that are required under the final judgment with the DOJ to be transferred to another advertising provider, the Company returned 2,850,453 (valued at \$36.4 million) NCM common units to NCM in March 2017, calculated under the Common Unit Adjustment Agreement as if such theatres had been disposed of on March 3, 2017. The Company is not obligated to make quarterly payments with respect to the transferred theatres. In addition, the Company returned 1,807,220 additional NCM common units (valued at \$22.6 million) in exchange for a waiver of exclusivity by NCM as to the required transferred theatres for the term of the final judgment, which was classified as general and administrative: Merger, acquisition and transaction costs when the common units were returned to NCM during the three months ended March 31, 2017. The Company recorded a loss of \$1.2 million on the return of NCM common units as per the Common Unit Adjustment Agreement and exclusivity waiver for the difference between the average carrying value of the units and the fair value on the date of return. As a result of the agreement, the Company received 14,129,642 net additional NCM common units, valued at \$176.9 million based on the market price of NCM, Inc. stock on March 16, 2017 of \$12.52. Due to the structure of the transactions, the Company will no longer anticipate recognizing taxable gain upon receipt of new NCM common units. The Company also agreed to reimburse NCM up to \$1.0 million for expenses related to the negotiation of this agreement.

The final judgment with the DOJ also requires the Company to divest the majority of its equity interests in NCM, so that by June 20, 2019, AMC owns no more than 4.99% of NCM's outstanding equity interests on a fully converted basis per the following schedule: (i) on or before December 20, 2017, AMC must own no more than 15% of NCM's outstanding equity interests; (ii) on or before December 20, 2018, AMC must own no more than 7.5% of NCM's outstanding equity interests; and (iii) on or before June 20, 2019 AMC must own no more than 4.99% of NCM's outstanding equity interests. The Company sold 14,800,000 NCM, Inc. shares during the three months ending September 30, 2017 and satisfied the DOJ divestiture requirements related to NCM dispositions for calendar 2017. As of June 30, 2018, the Company has 21,477,480 common units of NCM classified as held-for-sale, which were sold on July 5, 2018 and the Company is in full compliance with the DOJ final judgment. In March 2018, the Company recorded in equity in (earnings) loss of non-consolidated entities a lower of carrying value or fair value impairment charge of \$16.0 million to reduce the carrying value of its held-for-sale investment in NCM to Level 1 fair value. The impairment charge reflected recording our held-for-sale units and shares at the lower of carrying value or publicly quoted per share price on March 31, 2018 of \$5.19.

On June 18, 2018, the Company entered into two Unit Purchase Agreements (the "Agreements") with each of Regal Cinemas, Inc. ("Regal") and Cinemark USA, Inc. ("Cinemark") pursuant to which Regal and Cinemark each separately agreed to purchase 10,738,740 common units of NCM at a sales price of \$7.30 per unit and aggregate consideration of approximately \$156.8 million (the "Sales"). The Sales closed on July 5, 2018. Following the closing of the Sales, the Company no longer owns any shares of common stock in NCM, Inc. or common units in NCM. NCM consented to the Sales and waived its rights under the memorandum of understanding that provided the Company would not reduce its combined ownership of NCM and NCM, Inc. below 4.5%.

Screenvision Merger. On May 30, 2018 Screenvision entered into an Agreement and Plan of Merger under which a change of control in Screenvision occurred upon consummation of the transactions contemplated therein. The Company received distributions and merger consideration of \$45.9 million on July 2, 2018 upon consummation of the Screenvision merger and retains a 21.2% common membership interest. The Company expects to reduce the carrying value of its investment in Screenvision to \$0 and record equity in earnings for the excess distribution of approximately \$30.0 million during the three months ending September 30, 2018.

Digital Cinema Media. The Company acquired its equity investment in DCM on November 30, 2016 in connection with the acquisition of Odeon. The Company receives advertising services from DCM for its Odeon theatres in International markets through a joint venture in which it has a 50.0% ownership interest.
