OUR BUSINESS

Majesco Entertainment Company is an innovative developer, marketer, publisher and distributor of interactive entertainment for consumers around the world. Building on more than 25 years of operating history, Majesco develops and publishes a wide range of video games on digital networks through its Midnight City label, including Nintendo's DS, 3DS, Wii and WiiU, Sony's PlayStation 3 and 4, or PS3 and PS4, Microsoft's Xbox 360 and Xbox One and the personal computer, or PC. Majesco is headquartered in South Plainfield, New Jersey, and its common stock is traded on The NASDAQ Capital Market under the symbol "COOL".

Although, historically, we have sold packaged console software to large retail chains, specialty retail stores, video game rental outlets and distributors and through digital distribution for platforms such as Xbox Live Arcade, PlayStation Network, or PSN, and Steam, and for mobile devices and online platforms, we now operate, almost exclusively a digital software distribution and licensing business.

On July 31, 2015, we transferred to Zift Interactive LLC ("Zift"), a newly-formed subsidiary, certain rights under certain of our publishing licenses related to developing, publishing, and distributing video game products through retail distribution for a term of one year. We then transferred Zift to our former chief executive officer, Jesse Sutton in exchange for a portion of its net revenue from retail sales and other consideration.

Our titles are targeted at various demographics at a range of various price points. Due to the larger budget requirements for developing and marketing premium console titles, recently we have focused on publishing lower-cost games targeting casual-game consumers and independent game developer fans. In some instances, our titles are based on licenses of well-known properties and, in other cases, original properties. We enter into agreements with content providers and video game development studios for the creation of video games sold domestically and internationally.

Since October 2014, we have implemented reductions of our workforce to reduce our fixed costs. The reductions include development and game-testing, selling and marketing, and support personnel. We are currently not developing any significant new packaged games for release in fiscal 2016 and our objectives include evaluating strategic alternatives to maximize shareholder value, including the potential merger with or acquisition of a new business in a similar or different industry from our current and historical operations, although no business or industry has been determined to be an attractive candidate.

Company Background

Our principal executive offices are located at 4041-T Hadley Road, South Plainfield, NJ 07080 and our telephone number is (732) 225-8910. Our web site address is www.majescoentertainment.com.

Majesco Holdings Inc. (formerly ConnectivCorp) was incorporated in 2004 under the laws of the State of Delaware. As a result of a merger, Majesco Sales Inc. became a wholly-owned subsidiary and the sole operating business of the Company, which changed its name to Majesco Entertainment Company.

In this prospectus, "Majesco," "the Company," "we," "us," and "our" refer to Majesco Entertainment Company, a Delaware corporation, unless the context otherwise requires.

RISK FACTORS

You should carefully consider the risks described below before making an investment decision. The risks described below are not the only ones we face. Additional risks we are not presently aware of or that we currently believe are immaterial may also impair our business operations. Our business could be harmed by any of these risks. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment. In assessing these risks, you should also refer to the other information contained or incorporated by reference into this prospectus, including our financial statements and related notes.

Our review of our strategic alternatives may result in a complete transformation of our Company and we may not be successful in this new venture.

We are currently considering potential pursuit of new business ventures and other strategic alternatives. We have significantly reduced our video game publishing and development activities. We may (although we have no current arrangements in place) invest in a totally unrelated business or businesses. Such an action may result in a change in our board of directors, management, or financial structure and may lead to substantial reduction in our cash balances or substantial dilution to existing shareholders should we utilize our shares for acquisition. Despite our best efforts, we may not be successful in financing and/or operating any new venture.

Our financial resources are limited and we will need to raise additional capital in the future to continue our business.

We do not expect to generate the level of revenues going forward that we have achieved in prior years from our video game business. This significantly reduced revenue will impact our needs for future capital. We cannot ensure that additional funding will be available or, if it is available, that it can be obtained on terms and conditions we will deem acceptable. Any additional funding derived from the sale of equity securities is likely to result in significant dilution to our existing stockholders. These matters involve risks and uncertainties that may prevent us from raising additional capital or may cause the terms upon which we raise additional capital, if additional capital is available, to be less favorable to us than would otherwise be the case. If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we will be forced to cease our business activities and dissolve the Company. In such an event, we will need to satisfy various severances, contract termination, and other dissolution-related obligations.

If we make a significant acquisition that requires the issuance of our shares we may be required to reapply for NASDAQ listing.

Reapplying for NASDAQ listing may require us to satisfy the more stringent original listing standards of the NASDAQ Capital Market, which has substantially higher standards than the continuing listing standards. If any such application is not approved, our shares of common stock could be delisted from the NASDAQ Capital Market.

We have experienced recent net losses and we may incur future net losses, which may cause a decrease in our stock price.

We incurred net losses of \$3.8 million in fiscal 2015 and \$16.2 million in fiscal 2014. We may not be able to generate revenues sufficient to offset our costs and may sustain net losses in future periods. Any such losses may have an adverse effect on our future operating prospects, liquidity and stock price.

We have experienced volatility in the price of our stock and are subject to volatility in the future.

The price of our common stock has experienced significant volatility. The high and low bid quotations for our common stock, as reported by the NASDAQ Capital Market, ranged between a high of \$5.18 and a low of \$0.55 during the past 24 months. The historic market price of our common stock may be higher or lower than the price paid for our shares and may not be indicative of future market prices, depending on many factors, some of which are beyond our control. In addition, as we have significantly reduced our video game operations, and are seeking strategic alternatives, we cannot predict the performance of our stock. The price of our stock may change dramatically in response to our success or failure to consummate a strategic transaction.

Table of Contents

Substantial future sales of our common stock by us or by our existing stockholders could cause our stock price to fall.

Additional equity financings or other share issuances by us, including shares issued in connection with strategic alliances and corporate partnering transactions, could adversely affect the market price of our common stock. Sales by existing stockholders of a large number of shares of our common stock in the public market or the perception that additional sales could occur could cause the market price of our common stock to drop.

We may not be able to maintain our listing on the NASDAQ Capital Market.

Our common stock currently trades on the NASDAQ Capital Market. This market has continued listing requirements that we must continue to maintain to avoid delisting. The standards include, among others, a minimum bid price requirement of \$1.00 per share and any of: (i) a minimum stockholders' equity of \$2.5 million; (ii) a market value of listed securities of \$35 million; or (iii) net income from continuing operations of \$500,000 in the most recently completed fiscal year or in the two of the last three fiscal years. Our results of operations and our fluctuating stock price directly impact our ability to satisfy these listing standards. In the event we are unable to maintain these listing standards, we may be subject to delisting.

A delisting from NASDAQ would result in our common stock being eligible for quotation on the Over-The-Counter market which is generally considered to be a less efficient system than listing on markets such as NASDAQ or other national exchanges because of lower trading volumes, transaction delays and reduced security analyst and news media coverage. These factors could contribute to lower prices and larger spreads in the bid and ask prices for our common stock. Additionally, trading of our common stock on the OTCBB may make us less desirable to institutional investors and may, therefore, limit our future equity funding options and could negatively affect the liquidity of our stock.

The rights of our common stockholders are limited by and subordinate to the rights of the holders of Series A Convertible Preferred Stock, Series B Convertible Preferred Stock, Series C Convertible Preferred Stock and Series D Convertible Preferred Stock; these rights may have a negative effect on the value of shares of our common stock.

The holders of our outstanding shares of Series A Preferred Stock, Series B Preferred Stock, Series C Preferred Stock and Series D Preferred Stock have rights and preferences generally superior to those of the holders of common stock. The existence of these superior rights and preferences may have a negative effect on the value of shares of our common stock. These rights are more fully set forth in the certificates of designations governing these instruments, and include, but are not limited to:

the right to receive a liquidation preference, prior to any distribution of our assets to the holders of our common stock; and

the right to convert into shares of our common stock at the conversion price set forth in the certificates of designations governing the respective preferred stock, which may be adjusted as set forth therein.

A significant portion of our revenue has been generated from games based on the Zumba Fitness property.

A significant portion of our revenue since fiscal 2010 was generated from the Zumba Fitness series of games. We license the rights to publish these games from a third party. In November 2011, we released the sequels Zumba Fitness 2 and Zumba Fitness Rush for the Wii and Kinect platforms, respectively. In November 2012, we released the sequel Zumba Fitness Core for the Wii and Kinect platforms. In November 2013, we released the sequel Zumba Fitness World Party for the Wii and Kinect platforms. We do not expect to release any new Zumba games in the future.

Table of Contents

A decrease in the popularity of our licensed brands and, correspondingly, the video games we publish based on those brands could negatively impact our revenues and financial position.

Certain games released in 2014 and 2015 were based upon popular licensed brands. A decrease in the popularity of our licensed properties would negatively impact our ability to sell games based upon such licenses and could lead to lower net sales, profitability, and/or an impairment of our licenses, which would negatively impact our profitability.

A weak global economic environment could result in increased volatility in our stock price.

Current uncertainty in global economic conditions poses a risk to the overall economy as consumers and retailers may defer or choose not to make purchases in response to tighter credit and negative financial news, which could negatively affect demand for our products. Additionally, due to the weak economic conditions and tightened credit environment, some of our retailers and customers may not have the same purchasing power, leading to lower purchases of our games for placement into distribution channels. Reduced consumer demand for our products could materially impact our operating results.

Termination or modification of our agreements with platform hardware manufacturers may adversely affect our business.

We are required to obtain a license in order to develop and distribute software for each of the manufacturers of video game hardware. We currently have licenses from: (i) Sony to develop products for PlayStation, PlayStation 2, PlayStation 3 and PlayStation 4; (ii) from Nintendo to develop products for the DS, DSi, 3DS, Wii and WiiU; and (iii) from Microsoft to develop products for the Xbox, Xbox 360 and Xbox One. These licenses must be periodically renewed, and if they are not, or if any of our licenses are terminated or adversely modified, we may not be able to distribute any of our games on that platform or we may be required to do so on less attractive terms.

Our platform licensors control the fee structures for online distribution of our games on their platforms.

Pursuant to the terms of certain publisher license agreements, platform licensors retain sole discretion to determine the fees to be charged for both base level and premium online services available via their online platforms. Each licensor's ability to set royalty rates makes it challenging for us to predict our costs, and increased costs may negatively impact our operating margins. As a result of such varying fee structures, we may be unable to distribute our games in a cost-effective manner through such distribution channels.

Intellectual property claims may increase our costs or require us to cease selling affected products, which could adversely affect our financial condition and results of operations.

Development of original content, including publication and distribution, sometimes results in claims of intellectual property infringement. Although we make efforts to ensure our products do not violate the intellectual property rights of others, it is possible that third parties may still allege infringement. These claims and any litigation resulting from these claims may result in damage awards payable by us; could prevent us from selling the affected product; or require us to redesign the affected product to avoid infringement or obtain a license for future sales of the affected product.

Any of the foregoing could have an adverse effect on our financial condition and results of operations. Any litigation resulting from these claims could require us to incur substantial costs.

A reduced workforce presents additional risk to the effectiveness of our internal controls.

We have significantly reduced our workforce. A smaller workforce impacts our ability to continue to undertake our historic business which could have an impact on our ability to maintain internal controls including over financial reporting, and can affect the adequacy of our controls. We cannot be certain that our internal controls over financial reporting are or will remain effective. If we cannot adequately maintain the effectiveness of our internal controls over financial reporting, we may be subject to liability and/or sanctions or investigation by regulatory authorities, such as the SEC. Any such action could adversely affect our financial results and the market price of our common stock.

Table of Contents

Our reputation with consumers is critical to our success. Negative consumer perceptions about our brands, games, services and/or business practices may damage our business and any costs incurred in addressing consumer concerns may increase our operating expenses.

Individual consumers form our ultimate customer base, and consumer expectations regarding the quality, performance and integrity of our products and services are high. Consumers may be critical of our brands, games, services and/or business practices for a wide variety of reasons. These negative consumer reactions may not be foreseeable or within our control to manage effectively. Actions we take to address consumer concerns may be costly and, in any case, may not be successful. In addition, negative consumer sentiment about our business practices may result in inquiries or investigations from regulatory agencies and consumer groups, as well as litigation, which, regardless of their outcome, may be damaging to our reputation. Any of these may have a negative impact on our business.

If our games and services do not function as consumers expect, it may have a negative impact on our business.

If our games and services do not function as consumers expect, whether because they fail to function as advertised or otherwise, our sales may suffer. If our games and services do not function as consumers expect, it may negatively impact our business.

If we are unable to sustain traditional pricing levels for our titles, our business, financial condition, results of operations, profitability, cash flows or liquidity could suffer materially.

If we are unable to sustain traditional pricing levels for our titles, whether due to competitive pressure, because retailers elect to price these products at a lower price or otherwise, it could have a negative impact on our business. Further, we make provisions for retail inventory price protection based upon certain assumed lowest prices and if competitive pressures force us to lower our prices below those levels, it could similarly have a negative impact on our business.

Our industry is subject to rapid technological change, and if we do not adapt to, and appropriately allocate our new resources among, emerging technologies and business models, our business may be negatively impacted.

Technology changes rapidly in the interactive entertainment industry. We must continually anticipate and adapt our products to emerging technologies, delivery platforms and business models in order to stay competitive. When we choose to incorporate a new technology into a product or to develop a product for a new platform, operating system or media format, we often are required to make a substantial investment prior to the introduction of the product. If we invest in the development of interactive entertainment products incorporating a new technology or for a new platform that does not achieve significant commercial success, our revenues from those products likely will be lower than we anticipated and may not cover our development costs. Further, our competitors may adapt to an emerging technology or business model more quickly or effectively than we do, creating products that are technologically superior to ours, more appealing to consumers, or both. If, on the other hand, we elect not to pursue the development of products incorporating a new technology or for new platforms, or otherwise elect not to pursue a new business model, that achieves significant commercial success, it may have adverse consequences. It may take significant time and resources to shift product development resources to that technology, platform or business model, as the case may be, and may be more difficult to compete against existing products incorporating that technology or for that platform or against companies using that business model. Any failure to successfully adapt to, and appropriately allocate resources among, emerging technologies could negatively impact our business.

Table of Contents

Competition within, and to, the interactive entertainment industry is intense, and competitors may succeed in reducing our sales.

Within the interactive entertainment industry, we compete with other publishers of interactive entertainment software developed for use on the PC, video game consoles and handheld, mobile and tablet devices or social networking sites, both within the United States and, increasingly, in international jurisdictions. Our competitors include very large corporations with significantly greater financial, marketing and product development resources than we have. A relatively small number of titles account for a significant portion of net revenues, and an even greater portion of net profit, in the interactive entertainment industry, and the availability of significant financial resources is a major competitive factor in the production of high-quality products and in the marketing of products that are ultimately well-received. Our larger competitors may be able to leverage their greater financial, technical, personnel and other resources to finance larger budgets for development and marketing and make higher offers to licensors and developers for commercially desirable properties as well as adopt more aggressive pricing policies to develop more commercially successful products for the PC or video game platforms than we do. In addition, competitors with large product lines and popular titles typically have greater leverage with retailers, distributors and other customers, who may be willing to promote titles with less consumer appeal in return for access to those competitors' more popular titles.

Increased consumer acceptance and availability of interactive entertainment developed for use by consumers on handheld, mobile and tablet devices or social networking sites or other online games, consumer acceptance and availability of technology which allows users to play games on televisions without consoles, or technological advances in online game software or the Internet could result in a decline in sales of our platform-based software.

Additionally, we compete with other forms of entertainment and leisure activities. For example, the overall growth in the use of the Internet and online services such as social networking sites by consumers may pose a competitive threat if consumers and potential consumers spend less of their available time using interactive entertainment software and more using the Internet, including those online services. Further, it is difficult to predict and prepare for rapid changes in consumer demand that could materially alter public preferences for different forms of entertainment and leisure activities. Failure to adequately identify and adapt to the competitive pressures described herein could negatively impact our business.

We are exposed to seasonality in the sale of our products.

The interactive entertainment industry is highly seasonal, with the highest levels of consumer demand occurring during the year-end holiday buying season in the fourth quarter of the year. Receivables and credit risk are likewise higher during the second half of the year, as retailers increase their purchases of our products in anticipation of the holiday season. Delays in development, licensor approvals or manufacturing can affect the timing of the release of products, causing us to miss key selling periods such as the year-end holiday buying season.

We may be involved in legal proceedings that may result in material adverse outcomes.

From time to time, we may be involved in claims, suits, government investigations, audits and proceedings arising from the ordinary course of our business, including actions with respect to intellectual property, competition and antitrust matters, privacy matters, tax matters, labor and employment matters, unclaimed property matters, compliance and commercial claims. Such claims, suits, government investigations, audits and proceedings are inherently uncertain and their results cannot be predicted with certainty. Regardless of the outcome, such legal proceedings can have an adverse impact on us because of legal costs, diversion of management resources and other factors. In addition, it is possible that a resolution of one or more such proceedings could result in substantial fines and penalties, criminal sanctions, consent decrees or orders preventing us from offering certain features, functionalities, products or services, requiring us to change our development process or other business practices.

Table of Contents

Our products are subject to ratings by the Entertainment Software Rating Board in the U.S. and similar agencies in international jurisdictions. Our failure to obtain our target ratings for our products could negatively impact our business.

The Entertainment Software Rating Board (the "ESRB") is a self-regulatory body based in the United States that provides consumers of interactive entertainment software with ratings information, including information on the content in such software, such as violence, nudity or sexual content contained in software titles. The ESRB rating categories are "Early Childhood" (i.e., content is intended for young children), "Everyone" (i.e., content is generally suitable for all ages), "Everyone 10+" (i.e., content is generally suitable for ages 10 and up), "Teen" (i.e., content is generally suitable for ages 13 and up), "Mature" (i.e., content is generally suitable for ages 17 and up) and "Adults Only" (i.e., content is suitable for adults ages 18 and up). Certain countries other than the United States have also established content rating systems as prerequisites for product sales in those countries. In some countries, a company may be required to modify its products to comply with the requirements of the rating systems, which could delay or disrupt the release of any given product, or may prevent its sale altogether in certain territories. Further, if an agency re-rates one of our games for any reason, retailers could refuse to sell it and demand that we accept the return of any unsold or returned copies or consumers could demand a refund for copies purchased. If we are unable to obtain the ratings we have targeted for our products as a result of changes in a content rating organization's ratings standards or for other reasons, it could have a negative impact on our business.

Our business, products, and distribution are subject to increasing regulation of content in key territories. If we do not successfully respond to these regulations, our business, financial condition, results of operations, profitability, cash flows or liquidity could be materially adversely affected.

Legislation is continually being introduced, and litigation and regulatory enforcement actions are taking place, that may affect the way in which we, and other industry participants, may offer content and features, and distribute and advertise our products. For example, privacy laws and regulatory guidance in many countries impose various restrictions on online and mobile advertising, as well as the collection, storage and use of personally identifiable information. We may be required to modify certain of our product development processes or alter our marketing strategies to comply with such regulations, which could be costly or delay the release of our products. In addition, many foreign countries, such as China and Germany, have laws that permit governmental entities to restrict the content and/or advertising of interactive entertainment software or prohibit certain types of content. Further, legislation which attempts to restrict marketing or distribution of such products because of the content therein has been introduced at one time or another at the federal and state levels in the United States. There is on-going risk of enhanced regulation of interactive entertainment marketing, content or sales. These laws and regulations vary by territory and may be inconsistent with one another, imposing conflicting or uncertain restrictions. The adoption and enforcement of legislation which restricts the marketing, content or sales of our products in countries in which we do business may harm the sales of our products, as the products we are able to offer to our customers and the size of the potential market for our products may be limited. Failure to comply with any applicable legislation may also result in government-imposed fines or other penalties. Moreover, the increased public dialogue concerning interactive entertainment may have an adverse impact on our reputation and consumers' willingness to purchase our products

Anti-Takeover Effects of Certain Provisions of our Certificate of Incorporation, Bylaws and the Delaware General Corporation Law ("DGCL")

Certain provisions of our Certificate of Incorporation and Bylaws, which are summarized in the following paragraphs, may have the effect of discouraging potential acquisition proposals or making a tender offer or delaying or preventing a change in control, including changes a stockholder might consider favorable. Such provisions may also prevent or frustrate attempts by our stockholders to replace or remove our management. In particular, the Certificate of Incorporation and Bylaws and Delaware law, as applicable, among other things:

- provide the board of directors with the ability to alter the bylaws without stockholder approval;
- place limitations on the removal of directors; and
- provide that vacancies on the board of directors may be filled by a majority of directors in office, although less than a quorum.

These provisions are expected to discourage certain types of coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to first negotiate with its board. These provisions may delay or prevent someone from acquiring or merging with us, which may cause our market price of our common stock to decline.

Blank Check Preferred. Our Board of Directors is authorized to create and issue from time to time, without stockholder approval, up to an aggregate of 10,000,000 shares of preferred stock in one or more series and to establish the number of shares of any series of preferred stock and to fix the designations, powers, preferences and rights of the shares of each series and any qualifications, limitations or restrictions of the shares of each series.

The authority to designate preferred stock may be used to issue series of preferred stock, or rights to acquire preferred stock, that could dilute the interest of, or impair the voting power of, holders of the common stock or could also be used as a method of determining, delaying or preventing a change of control.

Advance Notice Bylaws. The Bylaws contain an advance notice procedure for stockholder proposals to be brought before any meeting of stockholders, including proposed nominations of persons for election to our Board of Directors. Stockholders at any meeting will only be able to consider proposals or nominations specified in the notice of meeting or brought before the meeting by or at the direction of our Board of Directors or by a stockholder who was a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has given our corporate secretary timely written notice, in proper form, of the stockholder's intention to bring that business before the meeting. Although the Bylaws do not give our Board of Directors the power to approve or disapprove stockholder nominations of candidates or proposals regarding other business to be conducted at a special or annual meeting, the Bylaws may have the effect of precluding the conduct of certain business at a meeting if the proper procedures are not followed or may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect its own slate of directors or otherwise attempting to obtain control of us.

Interested Stockholder Transactions. We are subject to Section 203 of the DGCL which, subject to certain exceptions, prohibits "business combinations" between a publicly-held Delaware corporation and an "interested stockholder," which is generally defined as a stockholder who becomes a beneficial owner of 15% or more of a Delaware corporation's voting stock for a three-year period following the date that such stockholder became an interested stockholder.

Limitations on Liability, Indemnification of Officers and Directors and Insurance

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties as directors and our amended and restated certificate of incorporation will include such an exculpation provision. Our certificate of incorporation and by-laws will include provisions that indemnify, to the fullest extent allowable under the DGCL, the personal liability of directors or officers for monetary damages for actions taken as a director or officer of us, or for serving at our request as a director or officer or another position at another corporation or enterprise, as the case may be. Our certificate of incorporation and by-laws will also provide that we must indemnify and advance reasonable expenses to our directors and officers, subject to our receipt of an undertaking from the indemnified party as may be required under the DGCL. Our amended and restated certificate of incorporation will expressly authorize us to carry directors' and officers' insurance to protect us, our directors, officers and certain employees for some liabilities. The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and by-laws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against our directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. However, these provisions do not limit or eliminate our rights, or those of any stockholder, to seek non-monetary relief such as injunction or rescission in the event of a breach of a director's duty of care. The provisions will not alter the liability of directors under the federal securities laws. In addition, your investment may be adversely affected to the extent that, in a class action or direct suit, we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. There is currently no pending material litigation or proceeding against any of our directors, officers or employees for which indemnification is sought.

Authorized but Unissued Shares

Our authorized but unissued shares of common stock and preferred stock will be available for future issuance without your approval. We may use additional shares for a variety of purposes, including future public offerings to raise additional capital, to fund acquisitions and as employee compensation. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

PLAN OF DISTRIBUTION

The selling stockholders may, from time to time, sell, transfer, or otherwise dispose of any or all of its shares of common stock on any stock exchange, market, or trading facility on which the shares are traded or in private transactions. These dispositions may be at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale, or at negotiated prices.

The selling stockholders may use any one or more of the following methods when disposing of shares or interests therein:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- broker-dealers may agree with the selling stockholder to sell a specified number of such shares at a stipulated price per share; or
- a combination of any such methods of sale.

The aggregate proceeds to the selling stockholders from any sale of the common stock offered by it will be the purchase price of the common stock less discounts or commissions, if any. The selling stockholders reserve the right to accept and, together with its agents from time to time, to reject, in whole or in part, any proposed purchase of common stock to be made directly or through agents. We would not receive any of the proceeds from any such sale.

The selling stockholders also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 promulgated under the Securities Act, provided that it meets the criteria and conform to the requirements of that rule.

The selling stockholders and any broker-dealers or agents that participate in the sale of the common stock may be deemed to be “underwriters” within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act. The selling stockholders are subject to the prospectus delivery requirements of the Securities Act.

Item 15. Indemnification of Officers and Directors.

The Delaware General Corporation Law ("DGCL") authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties as directors and our amended and restated certificate of incorporation will include such an exculpation provision. Our certificate of incorporation and by-laws will include provisions that indemnify, to the fullest extent allowable under the DGCL, the personal liability of directors or officers for monetary damages for actions taken as a director or officer of us, or for serving at our request as a director or officer or another position at another corporation or enterprise, as the case may be. Our certificate of incorporation and by-laws will also provide that we must indemnify and advance reasonable expenses to our directors and officers, subject to our receipt of an undertaking from the indemnified party as may be required under the DGCL. Our certificate of incorporation will expressly authorize us to carry directors' and officers' insurance to protect us, our directors, officers and certain employees for some liabilities. The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and by-laws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against our directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. However, these provisions do not limit or eliminate our rights, or those of any stockholder, to seek non-monetary relief such as injunction or rescission in the event of a breach of a director's duty of care. The provisions will not alter the liability of directors under the federal securities laws. In addition, your investment may be adversely affected to the extent that, in a class action or direct suit, we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. There is currently no pending material litigation or proceeding against any of our directors, officers or employees for which indemnification is sought.

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) If the Registrant is relying on Rule 430B:

(A) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

(ii) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, as amended, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in this registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers, and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit, or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
