PROXY STATEMENT

Annual Meeting of Shareholders to be held May 5, 2016

GENERAL INFORMATION

This Proxy Statement is furnished to the shareholders of RLI Corp., an Illinois corporation (“Company”), in connection with the solicitation, by the Board of Directors of the Company (“Board” or “Board of Directors”), of proxies to be used at the Annual Meeting of Shareholders (“Annual Meeting”) to be held at 2 p.m. Central Daylight Time on Thursday, May 5, 2016, at the Mt. Hawley Country Club, 7724 North Knoxville Avenue, Peoria, Illinois, 61614, and at any adjournments of the Annual Meeting.

This year, we are pleased to again be taking advantage of a Securities and Exchange Commission (“SEC”) rule that allows companies to furnish their proxy materials over the Internet. As a result, we are mailing to our shareholders a Notice of Internet Availability of Proxy Materials (“E-Proxy Notice”) instead of a paper copy of the proxy materials. The E-Proxy Notice contains instructions that will enable shareholders receiving the E-Proxy Notice to access these materials over the Internet and, if so desired, to request a paper copy of these proxy materials by mail. Shareholders who do not receive the E-Proxy Notice will receive a paper copy of the proxy materials by mail. The Company intends to mail the E-Proxy Notice to shareholders on or about March 24, 2016.

VOTING

Because many shareholders cannot attend the Annual Meeting in person, it is necessary that a large number of our voting shares be represented at the Annual Meeting by proxy to achieve a quorum. Pursuant to the Company’s By-Laws, at least a majority of the outstanding voting shares must be present (in person or by proxy) at the Annual Meeting to conduct the meeting, which is known as a “quorum” of shares. Even if you expect to attend, it is important that you vote your shares in advance.

Whether you hold your shares directly as the shareholder of record or through a broker, trustee, or other nominee (“in street name”), you may vote by proxy without attending the Annual Meeting in three different ways:

- Internet: Shareholders may submit their proxy over the Internet by following the instructions provided on the proxy card or on the E-Proxy Notice. Shareholders will need to have the control number appearing on their proxy card or E-Proxy Notice available in order to submit their proxy over the Internet.
- Telephone: Shareholders may submit their proxy by telephone, toll-free, by following the instructions provided on the proxy card. Shareholders will need to have the control number appearing on their proxy card or E-Proxy Notice available in order to submit their proxy by telephone.
- Mail: Shareholders who receive a paper copy of a proxy card by mail may submit their proxy by signing, dating and returning the proxy card as promptly as possible in the envelope enclosed for that purpose.

Shareholders can save the Company expense by submitting their proxy by telephone or over the Internet. If you submit your proxy by telephone or over the Internet, you do not need to also submit a proxy card, although you may do so as one method of changing your vote as described below. The method of voting will not limit a shareholder’s

right to attend the Annual Meeting.

Each proxy will be voted in accordance with the shareholder's specifications. If you return a signed proxy card without providing voting instructions or do not designate a voting preference when using the other methods, your shares will be voted as recommended by the Board of Directors. All proxies delivered pursuant to this solicitation are revocable at any time prior to the meeting at the option of the shareholder either by giving written notice to the Corporate Secretary at 9025 North Lindbergh Drive, Peoria, Illinois, 61615, or by timely delivery of a properly completed proxy, whether by proxy card or by Internet or telephone vote, bearing a later date, or by voting in person at the Annual Meeting. All shares represented by valid, unrevoked proxies will be voted at the Annual Meeting.

4 | RLI Corp. 2016 Proxy Statement

Table of Contents

Assuming the presence, in person or by proxy, of a quorum, the election of directors (Proposal One) requires the affirmative vote of a majority of the shares represented in person or by proxy at the Annual Meeting and entitled to vote. With respect to the election of directors, shareholders may vote in favor of all nominees, or withhold their votes as to all nominees, or withhold their votes as to specific nominees. Votes withheld are deemed present at the meeting and thus will be counted for quorum purposes and have the effect of a vote against the director.

Assuming the presence, in person or by proxy, of a quorum, the affirmative vote of a majority of the shares represented in person or by proxy at the Annual Meeting and entitled to vote shall be required to approve Proposals Two (Approval of Annual Incentive Compensation Plan) and Five (Ratification of KPMG as Independent Accounting Firm). The Proposal Three (“Say-on-Pay”) vote is advisory (not binding) in nature so there is no specified voting requirement for approval. However, the Board of Directors will consider that the shareholders have approved executive compensation on an advisory basis if this agenda item receives the affirmative vote of a majority of the votes cast (in person or by proxy). The Proposal Four (“Say-When-On-Pay”) vote is advisory (not binding) in nature so there is no specified voting requirement for approval. Shareholders may vote on their choice of frequency or abstain from voting. However, the Board of Directors will consider any significant vote in favor of one frequency over the other options and will evaluate the appropriate next step.

With respect to Proposals Two and Five shareholders may vote “For,” “Against” or “Abstain” on each proposal. Abstentions are deemed present at the meeting, and thus will be counted for quorum purposes, but will have the same effect as a vote against the matters respectively set forth in Proposals Two and Five.

Brokers who hold shares for the accounts of their clients “in street name” may vote such shares either as directed by their clients or at their own discretion if permitted by the New York Stock Exchange (“NYSE”) and other organizations of which they are members. If an executed proxy is returned by a broker on behalf of its client that indicates the broker does not have discretionary authority as to certain shares to vote on one or more matters (a “broker non-vote”), such shares will be considered present at the Annual Meeting for purposes of determining a quorum, but are not considered entitled to vote on that matter. Therefore, broker non-votes will not have any effect on any of the proposals being voted upon at the meeting. If your broker holds your shares “in street name” and you do not instruct your broker how to vote, your broker will have discretion to vote your shares on routine matters, such as Proposal Five, the ratification of the selection of the Company’s independent public accounting firm.

Your broker will not, however, have discretion to vote on non-routine matters absent direction from you. Among other matters, brokers are not entitled to use their discretion to vote uninstructed proxies in director elections or executive compensation matters. As a result, your broker will not be able to vote your shares on Proposals One, Two, Three and Four without your direction. Therefore, it is important that you provide your broker with voting instructions on all proposals. If your shares are held by your broker “in street name,” you will receive a voting instruction form from your broker or the broker’s agent asking you how your shares should be voted. Please complete the form and return it as instructed by the broker or agent.

SHAREHOLDERS ENTITLED TO VOTE

Shareholders of record at the close of business on March 7, 2016, the record date, shall be entitled to vote at the 2016 Annual Meeting. As of the record date, the Company had 43,630,136 shares of Common Stock outstanding and entitled to vote. Common share ownership entitles the holder to one vote per share upon each matter to be voted at the 2016 Annual Meeting.

PROXY SOLICITATION

The solicitation of proxies is being made by the Company, and the Company will bear the cost of solicitation. In addition to the use of the mail, proxies may be solicited in person or by telephone, facsimile or other electronic means, by directors, officers or employees of the Company. No additional compensation will be paid to such persons for their services. In accordance with the regulations of the SEC and the NYSE, the Company will reimburse banks, brokerage firms, investment advisors and other custodians, nominees, fiduciaries and service bureaus for their reasonable out-of-pocket expenses for forwarding soliciting material to beneficial owners of the Company's Common Stock and obtaining their proxies or voting instructions. The Company has engaged Okapi Partners LLC ("Okapi") to assist with the solicitation of proxies and expects to pay a maximum of \$10,000 to Okapi for these services, plus reimbursement of out-of-pocket expenses.

PROPOSAL TWO: APPROVAL OF THE RLI CORP. ANNUAL INCENTIVE COMPENSATION PLAN

The following is a summary of the RLI Corp. Annual Incentive Compensation Plan (“Plan”). The Plan was originally effective January 1, 2006. We subsequently amended and restated the Plan effective January 1, 2009, January 1, 2010 and January 1, 2011, and the Plan contains additional changes as described herein. This summary is qualified in its entirety by reference to the complete Plan attached as Exhibit A to this Proxy Statement.

ESTABLISHMENT AND PURPOSE

The Plan was established for the purpose of promoting the interests of the Company and its shareholders by providing employees with a form of incentive compensation that is based on the Company’s achievement of certain financial performance goals and other annual objectives. The Plan restates, amends and consolidates prior incentive plans. The Company may adopt various incentive programs under the Plan, so long as such programs meet with the Plan’s requirements. Payments under the Plan are intended to be deductible according to Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”). Pursuant to Section 162(m) of the Code, we are required to get shareholder approval of the performance goals of this Plan every five years to maintain such deductibility. Thus, this Proposal Two is intended to satisfy that requirement, and if approved by our shareholders, the Plan will be restated effective as of January 1, 2016.

SUMMARY OF AMENDMENTS

The Plan as amended and restated reflects the following material changes to the Plan:

- We have added the following performance goals to the Plan to be consistent with the performance goals listed in our 2015 Long-Term Incentive Plan: stock price, return on capital, sales, costs and dividends paid.
- We have amended the Plan to provide that upon a Change in Control, as defined in the Plan, any amounts then credited to a participant’s bonus bank and any other amounts earned during any full or partial performance period beginning prior to the Change in Control, including any amounts that are subject to subsequent conditions, will be fully vested and nonforfeitable.
- We have amended the Plan to permit us to claw back any payments under the Plan to the extent required by law or any stock exchange requirements.

ADMINISTRATION

The Executive Resources Committee of the Board of Directors, no members of which are eligible for the Plan, will be the “Committee” for purposes of Plan administration. The Committee may establish rules and regulations for the Plan and its interpretation and make such other determinations or take such other action as it deems necessary in connection with the Plan. The Committee may modify, suspend, terminate or reinstate the Plan at any time. The Committee will administer the Plan through actions taken by majority vote or unanimous written consent of all Committee members, and all Committee decisions will be final and binding. Except as described below, the Committee may delegate its administrative powers and responsibilities to a Plan Administrative Committee, which may then delegate any duties to other officers or employees. Until and unless the Committee determines otherwise, it shall be deemed to have delegated its authority to the Plan Administrative Committee to the full extent permitted under the Plan. The Plan Administrative Committee will consist of the Chief Executive Officer (“CEO”), Chief Financial Officer (“CFO”), Chief Operating Officer (“COO”), Vice President of Human Resources and any other officer as delegated by the Committee. All such delegations are subject to the Committee’s review.

However, in the case of any awards that are intended to qualify as performance-based compensation under Code Section 162(m), and thereby be fully deductible by the Company, the Committee has retained the sole and exclusive authority to establish the applicable Performance Goals (as described below), certify the achievement of such Performance Goals and decrease the final award amounts. A “162(m) Employee” is defined as the CEO and the other three highest compensated officers of the Company (other than the CFO) and any other executives who the Committee reasonably expects to be employed in such a position during the relevant period.

PERFORMANCE PERIOD AND PERFORMANCE GOALS

The Performance Period means the calendar year, or any shorter or longer period as determined by the Committee. Performance Goals are the goals established for any Performance Period. The Committee must set all Performance Goals with respect to 162(m) Employees and the Plan Administrative Committee or its delegate may establish Performance Goals

14 | RLI Corp. 2016 Proxy Statement

Table of Contents

for other eligible employees. Performance Goals for all 162(m) Employees must be pre-established and objective. The method for computing compensation with respect to such goals must be provided in the form of an objective formula or standard. To be considered “pre-established,” a Performance Goal must be determined within 90 days of the start of the Performance Period (as long as the outcome is substantially uncertain when the Performance Goal is established), but not after 25 percent of such period has passed. A Performance Goal is deemed “objective” if a third party having knowledge of the relevant facts and performance results could determine whether the goal is met and could calculate the amount to be paid to the recipient.

The Committee must establish Performance Goals before or within a reasonable time following the beginning of a Performance Period but no later than the time permitted under Code Section 162(m). Alternatively, the Committee and the Plan Administrative Committee may establish a combined bonus amount available for distribution (a “Bonus Pool”) for any number of participants and assign each participant an interest in the Bonus Pool.

The Committee may provide for Performance Goals to be adjusted during a Performance Period to prevent dilution or enlargement of an award as a result of extraordinary events or circumstances as determined by the Committee or to exclude the effects of extraordinary, unusual or nonrecurring events, changes in accounting principles, discontinued operations, acquisitions, divestitures and material restructuring charges.

Performance Goals may be based on attainment of a particular level of, or on a positive change in, one or more of the following criteria relating to the Company, an affiliate or division of the Company or any particular individual: revenue, revenue per employee, earnings before income tax (profit before taxes), earnings before interest and income tax, net earnings (profit after taxes), earnings per employee, earnings per share, operating income, total shareholder return, stock price, market share, return on equity, return on capital, before-tax return on net assets, after-tax return on net assets, economic value added (economic profit), market value potential (generally defined as after tax returns above the cost of capital, as further explained on pages 32-33), underwriting profit, price-to-book ratio, price-to-earnings ratio, combined ratio, book value, book value per share, net operating cash flow, investment income, comprehensive earnings, gross written premium, net written premium, sales, costs, expense ratio, loss ratio, operating leverage, dividends paid, contribution from new products, customer satisfaction and employee satisfaction.

ELIGIBILITY

All Company employees, including those covered by Code Section 162(m), are eligible to participate in one of the Company’s annual incentive programs governed by the Plan. As of December 31, 2015, there were 902 employees at the Company. In addition to the 162(m) Employees, the Plan Administrative Committee or its delegate shall determine other employees who may be eligible to participate in the Plan for a particular Performance Period before or within a reasonable time following the beginning of a Performance Period. The Committee reserves final authority to approve or disapprove of such additional eligible employees.

AWARD CALCULATION

After the Performance Period, the Committee and Plan Administrative Committee (in the case of participants other than 162(m) Employees) determines the actual award amounts for all participants by multiplying the percentage achievement of the Performance Goal against the individual participant’s Target Performance Award, or by multiplying the percentage award by the Performance Goal aggregate amount. A “Target Performance Award” is the dollar amount determined for a participant if the participant’s Performance Goal is achieved. A participant will not

receive an award if the Performance Goal percentage achievement is less than the minimum performance level set for such Performance Goal. Furthermore, a participant's aggregate award payments, including amounts credited to a Bonus Bank (as described below), may not exceed \$7,500,000 per year, the same maximum award level available since 2011 and previously approved by shareholders.

AWARD ADJUSTMENT AND CERTIFICATION

Once award determinations are made, the Committee and Plan Administrative Committee (in the case of participants other than 162(m) Employees) review each award and adjust its amount. The Plan Administrative Committee may increase or decrease award amounts as it deems appropriate based on objective or subjective criteria. The Committee may decrease (but may not increase) award amounts for 162(m) Employees as it deems appropriate based on objective or subjective criteria. For all 162(m) Employees, the Committee certifies the extent to which the participant has satisfied his or her Performance Goals and all other material terms of the award.

Before or within a reasonable time following the beginning of the Performance Period, the Committee establishes a predetermined limit on charges or credits to a Bonus Bank, (a "Committee Approval Limit"), for awards made to 162(m) Employees. For awards that exceed the Committee Approval Limit, the independent directors serving on the Board of Directors may adjust the award amount, but not below the Committee Approval Limit.

Table of Contents

PAYMENT OF AWARDS

Each participant receives payment of his or her award in a cash lump sum no later than March 15th of the year following the end of the Performance Period. A participant who is also eligible for the RLI Corp. Executive Deferred Compensation Plan may elect to defer some or all of his or her award to the extent permitted under that plan. Before a Performance Period begins, the Committee may provide that part or all of an award will be credited to a Bonus Bank as a deferred payment arrangement. If the Committee credits an award to a Bonus Bank, that award will be in writing and a set schedule of payments and other Committee-designated terms and conditions will be provided. The Committee may provide that amounts in a Bonus Bank may be decreased if Performance Goals in subsequent Performance Periods are not met. Bonus Bank amounts will include interest equal to the interest rate on three-year U.S. Government Treasury Bills in effect at the beginning of the fiscal year.

CHANGE IN EMPLOYMENT STATUS

A participant must be employed by the Company or an affiliate of the Company on the date (typically December 31st) which signifies the end of the Performance Period to receive payment of an award. However, if a participant's employment terminates during the Performance Period due to death, disability or Retirement (defined as a participant terminating employment with age and years of service equal to or greater than 75), the participant (or his or her beneficiary) will receive a pro rata portion of the award only if the award provides for such payment. Participants are not entitled to any award if such participant's employment was terminated for cause, defined as the participant's failure to comply with material Company policies and procedures, dishonest or disloyal conduct, commission of a felony, theft or fraud or violation of law involving moral turpitude, failure to perform material duties of his or her employment, excessive absence from work, unethical behavior or a violation of a material policy of the Company. Upon a Change in Control, as defined in the Plan, any amounts then credited to a participant's bonus bank and any other amounts earned during any full or partial performance period beginning prior to such Change in Control, including amounts that are subject to subsequent conditions, will be fully vested and not subject to forfeiture, other than pursuant to the forfeiture provisions described below.

BENEFICIARY

If an award is payable due to the participant's death, that award will be paid to the beneficiary designated by the participant. The amount will be paid to the beneficiary at the same time the amount would have been paid to the participant had he or she survived. If no beneficiary was named or survived the participant, or there is a dispute as to the true beneficiary, the amount will be paid to the personal representative of the participant's estate.

FORFEITURE

All awards paid to the CEO or CFO are subject to forfeiture according to Section 304 of the Sarbanes-Oxley Act of 2002. In addition, the Company reserves the right to require a participant to forfeit or return to the Company any payments received under the Plan to the extent required by law, under any applicable stock exchange listing standard or any "clawback" policy designed to comply with such requirements.

PLAN IS UNFUNDED

All awards under the Plan will be paid from the Company's general assets, and no participant has a claim with respect to any specific asset of the Company such that the participant would be subject to income tax prior to the receipt of an award. The status of a participant under the Plan is that of an unsecured general creditor of the Company.

TAX LIABILITY

The Company may withhold such amounts from any award as it determines reasonably necessary to pay any taxes required to be withheld under applicable law.

SHAREHOLDER VOTE

The affirmative vote of the holders of at least a majority of the shares of Common Stock of the Company present and entitled to vote at the Annual Meeting is required for adoption of this proposal. Shareholder approval of the amended and restated Plan will also constitute approval of the material terms of the performance goals under the Plan, in accordance with Section 162(m) of the Code.

The Board of Directors has adopted and approved the amended plan and recommends that the shareholders vote "FOR" approval of the proposed RLI Corp. Annual Incentive Compensation Plan.

PROPOSAL THREE: NON-BINDING, ADVISORY VOTE REGARDING THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS

The Dodd-Frank Wall Street Reform and Consumer Protection Act and related SEC regulations require that we seek an advisory (non-binding) vote from our shareholders to approve the compensation of our named executive officers as disclosed in the Compensation Discussion & Analysis ("CD&A"), compensation tables and related disclosures in this Proxy Statement.

As discussed in our CD&A starting on page 29, our executive compensation programs have been designed to provide a competitive total executive compensation program linked to Company performance that will attract, retain and motivate talented executives critical to the Company's long-term success.

Our Executive Resources Committee of our Board developed an overall compensation philosophy that is built on a foundation of the following principles:

- The focus is on the linkage between long-term shareholder value creation and executive pay;
- Incentives for executives directly involved in underwriting are based on underwriting profit measured over a period of years consistent with the income and risk to the Company;
- Compensation should reflect both the Company's and individual's performance;
- A meaningful element of equity-based compensation and significant executive equity holdings are important to ensure alignment of management and shareholder interests;
- The Company's overall executive pay levels must be competitive in the marketplace for executive talent to enable the Company to attract, motivate and retain the best talent; and
- Appropriate safeguards must be in place to ensure annual incentives are aligned with long-term risk and value creation to protect against unnecessary and excessive risk to the Company.

We are asking you to indicate your support for our executive compensation programs as described in this Proxy Statement. This proposal, commonly known as a "Say-on-Pay" proposal, gives you the opportunity to express your views on our 2015 executive compensation policies and procedures for named executive officers. This non-binding vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the policies and procedures described in this Proxy Statement. Accordingly, we ask the shareholders to vote "FOR" the following resolution at the Annual Meeting:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the CD&A, compensation tables and any related material disclosed in the Company's Proxy Statement is hereby **APPROVED**.

Your vote is advisory, and therefore not binding on the Executive Resources Committee or the Board. However, we value your opinions and to the extent there is any significant vote against the named executive officer compensation as disclosed in this Proxy Statement, we will consider our shareholders' concerns. The Executive Resources Committee will evaluate whether any actions are necessary to address those concerns.

The Board of Directors recommends that the shareholders vote "FOR" the proposal to approve the compensation of the Company's named executive officers as described in this proxy statement.

PROPOSAL FOUR: NON-BINDING, ADVISORY VOTE REGARDING FREQUENCY OF ADVISORY VOTE ON EXECUTIVE COMPENSATION

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act and related SEC regulations, at least once every six years we are required to seek an advisory (non-binding) vote from shareholders to determine whether the advisory shareholder vote on executive compensation should occur every one, two or three years.

After careful consideration of this proposal, our Board has determined that an advisory vote on executive compensation that occurs every year is the most appropriate alternative for the Company, and therefore our Board recommends that you vote for an annual advisory vote on executive compensation. Even though our executive compensation programs stress long-term value creation and look at long-term performance, we still believe a one-year interval for the advisory vote on executive compensation is most appropriate.

This proposal, commonly known as a “Say-When-On-Pay” proposal, gives you the opportunity to express your views on the frequency of our executive compensation vote. The advisory vote by the shareholders on frequency is distinct from the advisory vote on the compensation of our named executive officers, which is set forth in Proposal Three. This Proposal Four deals with the issue of how frequently such a vote on compensation should be presented to our shareholders.

Table of Contents

In this regard, we are soliciting your vote on whether the compensation of our named executive officers be submitted to shareholders for an advisory vote every year, every two years, or every three years. You may vote for one of these three alternatives or you may abstain from making a choice.

Choice 1 - every year;

Choice 2 - every two years;

Choice 3 - every three years;

or Choice 4 - abstain from voting.

As with your vote on Proposal Three above, your vote on this Proposal Four is advisory, and therefore not binding on the Executive Resources Committee or our Board. However, we value your opinions and to the extent there is any significant vote in favor of one frequency over the other options, we will consider our shareholders' concerns. The Board will evaluate any appropriate next steps.

The Board of Directors recommends that the shareholders vote for a frequency of "ONE YEAR" for future non-binding, advisory shareholder votes on compensation of our named executive officers.

PROPOSAL FIVE: RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has selected KPMG LLP ("KPMG"), the Company's independent registered public accounting firm since 1983, as the Company's independent registered public accounting firm for 2016, and the Board is asking shareholders to ratify that selection. Although current law, rules and regulations, as well as the Charter of the Audit Committee, require our independent auditor to be appointed, retained and supervised by the Audit Committee, the Board considers the selection of an independent auditor to be an important matter of shareholder concern and considers a proposal for shareholders to ratify such selection to be an important opportunity for shareholders to provide direct feedback to the Board on an important issue of corporate governance. If the appointment of KPMG is not ratified by shareholders, the Audit Committee will take such action, if any, with respect to the appointment of the independent auditor as the Audit Committee deems appropriate, which may include continued retention of such audit firm. Even if the selection is ratified, the Audit Committee, in its discretion, may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our shareholders.

Representatives of KPMG are expected to be present at the Annual Meeting with the opportunity to make a statement, if they desire, and will be available to respond to appropriate questions from the shareholders.

The affirmative vote of the holders of at least a majority of the shares of Common Stock of the Company present and entitled to vote at the Annual Meeting is required for adoption of this proposal.

The Board of Directors recommends that the shareholders vote “FOR” Proposal Five and the ratification of selection of KPMG LLP as independent registered public accounting firm of the Company for the current fiscal year.

CORPORATE GOVERNANCE AND BOARD MATTERS

CORPORATE GOVERNANCE PRINCIPLES

The Company is committed to having sound corporate governance principles that are designed to ensure that the Board exercises reasonable business judgment in discharging its obligations to the Company and its shareholders. Corporate governance practices also help to ensure that full and transparent disclosures are made to the Company's shareholders and the SEC.

The Company's published Corporate Governance Guidelines, which are publicly available on the Company's website under the Investors section at www.rlicorp.com, outline the directors' responsibilities, which include attendance at shareholder, Board and committee meetings. Twelve members of the Board attended the 2015 Annual Meeting of Shareholders and were available to respond to appropriate questions from the shareholders.

The Company has developed an orientation process for new directors and also encourages new directors to attend a director seminar in their first year as a director. Each incumbent director is expected to attend an accredited director education seminar at least once a year, and each Audit Committee member is expected to attend an audit committee forum/conference at least once a year.

DIRECTOR INDEPENDENCE

The Board is required to affirmatively determine the independence of each director and to disclose such determination in the proxy statement for each Annual Meeting of Shareholders of the Company. The Board has established guidelines, which are set forth below, to assist it in making this determination, which incorporate all of the NYSE independence standards. Only independent directors serve on the Company's Audit Committee, Executive Resources Committee and Nominating/Corporate Governance Committee.

It is the policy of the Board of Directors of the Company that a majority of its members be independent, which is also a requirement for listing on the NYSE. To be considered independent under the NYSE Listing Standards, the Board must affirmatively determine that a director or director nominee (collectively referred to as "director") has no material relationship with the Company (directly or as a partner, shareholder or officer of an organization that has a relationship with the Company), and also meets other specific independence tests. The Board examines the independence of each of its members once per year, and again if a member's outside affiliations change substantially during the year. With the exception of the Messrs. Michael and Stone, the Board has affirmatively determined that each director is independent within the meaning of the NYSE Listing Standards and the Company's Director Independence Standards.

The Board has established the following categorical standards, incorporating the NYSE's independence standards to assist it in determining director independence:

- (a) A Director will not be independent if:
- (i) the Director is, or has been within the last three years, an employee of RLI, or an immediate family member of the Director is, or has been within the last three years, an executive officer of RLI;
 - (ii) the Director has received, or has an immediate family member who has received, during any 12-month period within the last three years, more than \$120,000 in direct compensation from RLI, other than Director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service);
 - (iii) (A) the Director is a current partner or employee of a firm that is RLI's internal or external auditor; (B) the Director has an immediate family member who is a current partner of such firm; (C) the Director has an immediate family member who is a current employee of such firm and personally works on RLI's audit; or (D) the Director or an immediate family member was within the last three years a partner or employee of such a firm and personally worked on RLI's audit within that time;
 - (iv) the Director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of RLI's present executive officers at the same time serves or served on that company's compensation committee; or
 - (v) the Director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, RLI for property or services in an amount which, in

Table of Contents

any of the last three fiscal years, exceeds the greater of \$1 million, or 2 percent of such other company's consolidated gross revenues.

- (b) The following commercial and charitable relationships will not be considered to be material relationships that would impair a Director's independence:
- (i) if a Director, or an immediate family member of the Director, is an executive officer, director, employee or holder of an equity interest of a company that has made payments to, or received payments from, RLI for property or services in an amount which, in the last fiscal year, does not exceed the greater of \$1 million, or 2 percent of such other company's consolidated gross revenues;
 - (ii) if a Director, or an immediate family member of the Director, is an executive officer, director, employee or holder of an equity interest of a company that is indebted to RLI, or to which RLI is indebted, and the total amount of either company's indebtedness to the other does not exceed the greater of \$1 million, or 2 percent of such other company's total consolidated assets;
 - (iii) if a Director, or an immediate family member of the Director, is an executive officer, director or employee of a company in which RLI owns an equity interest, and the amount of RLI's equity interest in such other company does not exceed the greater of \$1 million, or 2 percent of such other company's total shareholders' equity;
 - (iv) if a Director, or an immediate family member of the Director, is a holder of an equity interest of a company of which a class of equity security is registered under the Securities Exchange Act of 1934, as amended, and in which RLI owns an equity interest;
 - (v) if a Director, or an immediate family member of the Director, is an executive officer, director, employee or holder of an equity interest of a company that owns an equity interest in RLI; and
 - (vi) if a Director, or an immediate family member of the Director, serves as an officer, director or trustee of a tax exempt organization, and the contributions from RLI to such tax exempt organization in the last fiscal year do not exceed the greater of \$1 million, or 2 percent of such tax exempt organization's consolidated gross revenues. (RLI's automatic matching of employee charitable contributions will not be included in the amount of RLI's contributions for this purpose.)
- (c) For relationships not covered by the standards in subsection (b) above, the determination of whether the relationship is material or not, and therefore whether the Director would be independent or not, shall be made by the Directors who satisfy the independence standards set forth in subsections (a) and (b) above. RLI is required to explain in its proxy statement the basis for any Board determination that a relationship was immaterial, despite the fact that it did not meet the categorical standards of immateriality set forth in subsection (b) above.

DIRECTOR EVALUATION PROCESS

To ensure that thorough attention is given to individual and collective Directors’ performance and optimizing the composition of our Board, the Board and Committees utilize an annual evaluation process. Each Director self-evaluates the performance of the Committees on which he/she serves as well as the Board as a whole. Detailed composites are completed to obtain perspective on each Committee’s performance in relationship to its respective Charter, effectiveness, functionality, areas of improvement and overall performance. The Annual Board Evaluation focuses on board processes, policies, effectiveness, committee composition and strategy as well as performance whereby establishing activities to maximize shareholder value. This process is handled by the Nominating/Corporate Governance Committee.

Further, each Director participates in a robust evaluation process, wherein annually all Directors provide a peer evaluation on a variety of director characteristics. Those evaluations are assessed by the Nominating/Corporate Governance Committee, and each reviewed Board member meets with the Chairman of the Board and/or Lead Director to discuss the consolidated comments.

Based on the cumulative results of each Director’s overall performance, the Nominating/Corporate Governance Committee reviews and evaluates the Board candidates and their respective qualifications in detail to determine if it is in the best interest of the Company and its shareholders to nominate each Director to stand for election.

DIRECTOR NOMINATION POLICY

The Nominating/Corporate Governance Committee of the Company considers director candidates based upon a number of qualifications. A nominee should have:

- A reputation for the highest professional and personal ethics and values, fairness, honesty and good judgment;
- A significant breadth of experience, knowledge and abilities to assist the Board in fulfilling its responsibilities;
- Been in a generally recognized position of leadership in his or her field of endeavor; and
- A commitment to enhancing shareholder value.

Nominees with insurance and accounting backgrounds are particularly desirable. A nominee should not have a conflict of interest that would impair the nominee’s ability to represent the interests of the Company’s shareholders and fulfill the responsibilities of a director.

The Nominating/Corporate Governance Committee conducts an annual assessment of the composition of the Board and its committees. The Committee reviews the appropriate skills and characteristics required of Board members with a view toward establishing a diversity of backgrounds in areas of core competencies including experience in the following: business development, insurance industry, senior management, operational, technical, compensation and finance. The Nominating/Corporate Governance Committee relies upon recommendations from a wide variety of its

business contacts including current executive officers, directors, community leaders and shareholders, as sources for potential director candidates, and may also utilize third party search firms.

The Nominating/Corporate Governance Committee will consider qualified director candidates as properly nominated by shareholders as further set forth under SHAREHOLDER PROPOSALS on page 49. In addition, the Nominating/Corporate Governance Committee will consider shareholder recommendations for director candidates, but the Nominating/Corporate Governance Committee has no obligation to recommend such candidates. Assuming that appropriate biographical and background material (including qualifications) is provided for candidates recommended by shareholders, the Nominating/Corporate Governance Committee will evaluate those candidates by following substantially the same process and applying substantially the same criteria as for candidates recommended by other sources.

CODE OF CONDUCT

The Company has adopted a Code of Conduct, which is designed to help directors, officers and employees maintain ethical behavior and resolve ethical issues in an increasingly complex global business environment. The Code of Conduct applies to all directors, officers and employees, including the Chief Executive Officer, the Chief Financial Officer, the Controller, the General Counsel and any other employee with any responsibility for the preparation and filing of documents

A copy of our Code of Conduct is available at the Company's website under the Investors section at www.rlicorp.com. Any amendments to the Code of Conduct will be posted on the website, and any waiver that applies to a director or executive officer will be disclosed in accordance with the rules of the SEC and NYSE.

COMPANY POLICY ON RELATED PARTY TRANSACTIONS

The Company recognizes that related party transactions present a heightened risk of conflicts of interest and/or improper valuation (or the perception thereof) and therefore has adopted a written policy ("Related Party Transaction Policy") which shall be followed in connection with all related party transactions involving the Company. The Related Party Transaction Policy generally requires approval by the Nominating/Corporate Governance Committee for all transactions above \$10,000 between the Company and its directors, officers, shareholders owning in excess of 5 percent of the Common Stock of the Company, and their family members and affiliates. One transaction falling within the purview of the policy was presented and approved by the Nominating/Corporate Governance Committee in 2015. On December 1, 2015, the Company entered into a Consulting Agreement with Michael J. Stone, the former President & Chief Operating Officer of the Company's principal insurance subsidiaries, who retired on December 31, 2015. Mr. Stone will provide executive consulting services as mutually determined by the Company's President/CEO and Mr. Stone. The Consulting Agreement is effective as of January 1, 2016 and will expire on December 31, 2016. Mr. Stone will receive \$240,000 for his consulting services payable at \$20,000 per month. The Consulting Agreement was filed with the SEC on Form 8-K on December 2, 2015.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In 2015, the transactions or series of similar transactions to which the Company is a party in which the amount involved exceeded \$120,000 and in which any director, executive officer or holder of more than 5 percent of the Common Stock of the Company (or any of their immediate family members) had a direct or indirect material interest, were the Company's transactions with SS&C Technologies Holdings, Inc. ("SS&C"). In 2013, the Company entered into a business arrangement with SS&C to provide investment portfolio accounting and data processing services. This transaction fell within the purview of the Related Party Transaction Policy described above and was presented to and approved by the Nominating/Corporate Governance Committee. The Company's President & CEO (Mr. Michael) is a member of the Board of Directors of SS&C. The President of SS&C is also the brother of Mr. Stone, a Director and

former Officer of the Company's principal insurance subsidiaries. The Company paid SS&C \$288,382 in 2015.

NONEMPLOYEE DIRECTOR DEFERRED COMPENSATION PLAN (DIRECTOR DEFERRED PLAN)

Prior to the beginning of each year, an outside director may elect to defer the compensation otherwise payable or awarded to the director during the succeeding year pursuant to the Director Deferred Plan. Under the Director Deferred Plan, the Company transfers to a bank trustee, under an irrevocable trust established by the Company, such number of shares of the Company as are equal to the compensation deferred by the director during the relevant year. The deferred compensation is used to purchase an equivalent amount of Company Common Stock. Dividends on these shares are reinvested quarterly under the Company's Dividend Reinvestment Plan. In general, Director Deferred Plan benefits are distributable, in the form of Company Common Stock, beginning when the director's status terminates.

DIRECTOR SHARE OWNERSHIP

Outside Directors are encouraged to, within five years of their initial appointment as a Company director, own shares of the Common Stock of the Company having a value of not less than 500 percent of such director's Annual Board Retainer, which Retainer was \$105,000 in 2015. Shares held directly and in Company benefit plans are counted to satisfy the guideline.

The Nominating/Corporate Governance Committee monitors directors' share ownership and may make allowances to accommodate periodic adjustments to the Annual Board Retainer, and other factors affecting a director's share ownership level.

BOARD LEADERSHIP STRUCTURE

Immediately following the 2015 Annual Shareholders Meeting, Mr. Michael was re-appointed Chairman of the Board in addition to his current officer positions of President and CEO of the Company.

The Company does not have a formal policy regarding separation of the offices of chairman of the board and chief executive officer. The Board believes that the decision whether to combine or separate such positions will vary from company to company and depends upon a company's particular circumstances at a given point in time.

The Board believes that a joint board chairman and chief executive officer position is advisable and in the best interests of the Company and its shareholders given our current Board and Lead Director configuration. This structure promotes unified leadership, continuity and direction for the Company. This combined position also provides a clear focus for management to execute the Company's strategy and business plan, while fostering clear accountability and decision-making in such roles. The Board believes the designation of an empowered "Lead Director" provides a counterbalancing governance structure and enables an appropriate balance between strategic execution and independent oversight of management.

The Lead Director (an independent director) is the Chairperson of the Board's Nominating/Corporate Governance Committee and is elected/confirmed by the Board's independent directors. The Lead Director (a) presides over executive sessions of the independent directors, (b) serves as a liaison between the Chairman and the independent directors, (c) assists in setting Board meeting agendas and schedules, (d) assists in determining information sent to directors for meetings, (e) may call meetings of the independent directors, (f) may consult with major shareholders if requested by the Chairman or the Board, and (g) consults with the Chairman/CEO regarding results of annual performance reviews of the Board Committees, Board members and CEO, all as set forth in the charter for the Lead

Director position.

Several factors promote a strong and independent Board at our Company. Currently, all directors except for Messrs. Michael and Stone are independent as defined in the applicable NYSE listing standards (as adopted by the Company). The Audit, Executive Resources and Nominating/Corporate Governance committees of our Board are comprised entirely of independent directors. Also, our independent directors meet quarterly in executive session without management present. Consequently, with our Lead Director position, we believe our Board continues to be strong and independent and provides appropriate counterbalance to a combined Chairman/CEO position.

AUDIT COMMITTEE REPORT

The following report by the Audit Committee (the “Committee”) of the Company’s Board of Directors is required by the rules of the SEC to be included in this Proxy Statement and shall not be considered incorporated by reference in other filings by the Company with the SEC.

The Committee is composed of four independent directors and operates under a written charter adopted by the Board of Directors.

The primary role of the Committee is to assist the Board of Directors in its oversight of (a) the Company’s corporate accounting and reporting practices, (b) the quality and integrity of the Company’s financial statements, (c) the performance of the Company’s system of internal accounting and financial controls, (d) the Company’s compliance with related legal and regulatory requirements, (e) the Company’s risk management program, (f) the qualifications, independence and performance of the independent registered public accounting firm (“Auditor”), and (g) the performance of the Company’s internal audit function. In addition to those primary roles, the Committee also performs other roles and functions as outlined in its charter, including preliminary review of earnings releases and other activities. The Committee also acts as the audit committee for each of the Company’s insurance company subsidiaries. A more detailed description of the Committee’s roles, functions and activities is set forth in the description of Board committees elsewhere in this Proxy Statement and in the Committee’s charter, which is available on our corporate website.

The Board of Directors has determined that each of the members of the Audit Committee qualifies as “independent” within the meaning of the NYSE Listing Standards and the rules of the SEC. The Board of Directors has further determined that each of Messrs. Angelina, Baily, Scanlan and Viets is an “audit committee financial expert” within the meaning of the SEC rules.

The Committee reviews the internal audit function of the Company, including the independence and authority of its reporting obligations, the proposed audit plans for the coming year and the coordination of such plans with the Auditor. The Company’s Internal Audit Services department provides the internal audit function, which provides objective assurance and consulting services designed to add value and improve the organization’s operations. The Committee oversees the Internal Audit Services department and the overall internal audit function at the Company. The Company’s internal audit function operates under the terms of the RLI Internal Audit Services Charter which is reviewed by the Committee and is signed by the Committee’s chair as well as the Company’s CEO. To assist with this oversight, RLI’s Internal Audit Services provides an annual risk-based audit plan to the Audit Committee and periodic reports are additionally made to the Committee summarizing results of internal audit activities.

The Committee appoints and annually evaluates the performance of the Company’s Auditor and provides assistance to the members of the Board of Directors in fulfilling their oversight functions of the financial reporting practices, including satisfying obligations imposed by Section 404 of the Sarbanes Oxley Act of 2002, and financial statements of the Company. It is not the duty of the Committee, however, to plan or conduct audits or to determine that the Company’s financial statements are complete and accurate and are in accordance with U.S. generally accepted accounting principles. The Company’s Auditor is responsible for planning and conducting audits of the financial statements and internal controls over financial reporting; and the Company’s management is responsible for preparing the financial statements, designing and assessing the effectiveness of internal control over financial reporting and determining that the Company’s financial statements are complete and accurate and in accordance with U.S. generally

accepted accounting principles and applicable laws and regulations.

The Company's current independent registered public accounting firm is KPMG LLP ("KPMG"). KPMG has been the Company's independent registered public accounting firm since 1983 and the Audit Committee has selected KPMG to be the Company's independent registered public accounting firm for fiscal 2016.

The Committee contracts with and sets the fees paid to the independent registered public accounting firm. The fees for KPMG's audit services the past two fiscal years are set forth on page 18.

Audit fees relate to professional services rendered for the audit of consolidated financial statements of the Company, audits of the statutory financial statements of certain subsidiaries, review of quarterly consolidated financial statements and assistance with review of documents filed with the SEC, including attestation as required under Section 404 of the Sarbanes Oxley Act of 2002.

There are no non-audit services currently being provided by KPMG. Any non-audit services must be reviewed and pre-approved by the Chair of the Audit Committee. The Chair will report such hiring to the Committee no later than the next scheduled Committee meeting.

The Committee annually conducts evaluations of the Company's Auditor to determine if it will recommend the retention of the Auditor for the next year. As part of the evaluation of the Auditor, the Committee conducts two surveys to determine if

Table of Contents

the Auditor is meeting Committee expectations and providing appropriate audit services. The first survey was created by a group of professional accounting and auditing organizations, including the National Association of Corporate Directors and the Center for Audit Quality. This survey is completed by select RLI management and the Chair of the Committee. This Auditor evaluation includes topics such as: (a) quality of services and sufficiency of resources provided by the auditor; (b) communication and interaction with the auditor; and (c) Auditor independence, objectivity and professional skepticism. The second survey is initiated by KPMG and completed by the Committee and select members of RLI management. This evaluation generally assesses management's satisfaction with KPMG's engagement team, resources, communication and audit execution. The results of both surveys, including any resulting action items, are presented to and discussed by the Committee and assist the Committee in the decision regarding reappointment of the Auditor. Also, the results of the surveys are discussed with the Auditor by the Committee. In addition, the Committee obtains and reviews, at least annually, a report by the Auditor describing; the firm's internal quality-control procedures; any material issues raised by the most recent internal quality-control review, or peer review, of the firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the firm, and any steps taken to deal with any such issues; and (to assess the Auditor's independence) all relationships between the Auditor and the Company. The Committee also reviews the Public Company Accounting Oversight Board ("PCAOB") annual inspection report of KPMG. Based upon the results of such evaluations, the Committee makes its recommendation regarding retention of the Auditor.

The Committee received reports and reviewed and discussed the audited financial statements with management and the Auditor. The Committee also discussed with the Auditor the Section 404 obligations and matters required to be discussed by PCAOB Standard No.16, Communication with Audit Committees. The Committee received from the Company's Auditor the written disclosures and letter required by the applicable PCAOB requirements for independent registered public accounting firm's communications with the Audit Committee concerning auditor independence. The Committee discussed with the Auditor that firm's independence and any relationships that may impact that firm's objectivity and independence including audit and non-audit fees. Additionally, the Committee promotes the Auditor's independence by ensuring that the lines of communication are always open and constant between the Auditor and the Committee. The Committee Chair is in contact with the Auditor numerous times throughout the year. This includes normal in-person meetings, executive sessions, telephonic meetings and periodically in between normally scheduled meetings. The purpose of this is to allow open and unobstructed access to the Committee should the Auditor need to bring anything to the Committee's attention.

Pursuant to the Sarbanes Oxley Act of 2002 and the rules of the PCAOB, the Auditor's lead engagement partner is required to rotate every five years. The current KPMG lead engagement partner is in the 1st year of the five-year rotation requirement for the 2015 audit.

Based on the Committee's discussion with and review of reports from management, the Company's internal auditors and the Company's Auditor and the Committee's reliance on the representation of management that the Company's consolidated financial statements were prepared in accordance with U.S. generally accepted accounting principles, the Committee recommended to the Board of Directors that the audited financial statements of the Company be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as filed with the SEC.

The foregoing report has been approved by all members of the Audit Committee.

The Executive Resources Committee (“ERC”) of the Company’s Board of Directors, with the review and approval of the Board of Directors, administers specific compensation programs for senior executive officers and oversees other executive compensation programs and management succession and development processes.

EXECUTIVE SUMMARY

| | | |
|---|-----------------|-----------------|
| Our Results in 2015: | 2015 | 2014 |
| Gross Written Premium | \$853.5 million | \$863.9 million |
| Operating Earnings (Net Earnings minus Realized Investment Gains Net of Tax) | \$111.7 million | \$114.5 million |
| Combined Ratio (Net Loss and Operating Expense/Net Premiums Earned) | 84.5 | 84.5 |
| Operating Return on Equity (Operating Earnings/Shareholder’s Equity) | 13.3% | 13.9% |
| Market Value Potential (MVP) (After Tax Returns Above Cost of Capital) | \$65.5 million | \$99.7 million |

In 2015, we continued to post industry leading underwriting and operating performance. Market headwinds (excess capacity and soft pricing) coupled with a \$40.9 million reduction in our crop reinsurance program resulted in a 1.2% (\$10.4 million) decline in gross written premiums. While gross premiums declined slightly, our underwriting discipline remained as evidenced by our combined ratio, a common industry measure of profitability. (Combined ratio is defined as expenses and losses as a percentage of Net Earned Premium -- and thus a combined ratio below 100 signifies an underwriting profit.) In 2015, we posted an 84.5 combined ratio, the same combined ratio that we achieved in 2014. The result for 2015 represented the 20th consecutive year with a combined ratio below 100 and 11th straight year below 90. Operating earnings and Operating Return on Equity were \$111.7 million and 13.3%, respectively. Both measures were down modestly, due largely to a decline in certain tax benefits realized during the year. Market Value Potential ("MVP"), which is a measure of our after-tax returns above our cost of capital (explained in more detail on pages 32-33) declined to \$65.5 million versus \$99.7 million last year. The variance in MVP to last year is due largely to volatility in the equity markets and resulting unrealized losses on our equity portfolio. Finally, we compare our relative growth in book value over a five-year period to our peer companies and use that performance as a factor in calculating incentive compensation. For the five-year period ending in 2015, our relative rank among peer companies for this metric remained at second among 14 companies, the same as in 2014.

With the exception of gross written premium, the financial metrics above are used as targets in our incentive plans and

Table of Contents

actual results are used to calculate annual incentives for our senior executive officers. These financial measures (other than gross written premium) are non-GAAP and should not be considered substitutes for GAAP measures. We consider them key performance indicators and employ them as well as other factors in determining senior management incentive compensation. The calculation of these non-GAAP metrics can be found in the discussions below with respect to the incentive plans in which those metrics are used.

KEY ATTRIBUTES OF RLI EXECUTIVE COMPENSATION

- Performance-based compensation: Total executive compensation is directly linked to Company performance. As in prior years, all executives participate in an incentive plan, through which they are eligible to earn compensation based on achievement of Company financial objectives and personal objectives that are aligned with shareholder value creation.
- At risk compensation: A significant portion of annual incentive compensation for our CEO, COO, CFO, Executive Vice President, Operations and each product group vice president is paid over time through a bonus bank concept to provide an incentive for sustained shareholder value creation. Amounts credited to the bonus bank are reduced dollar-for-dollar, should negative results occur in a future period. As a result, net losses in a future period reduce the amount available in the bonus bank and could result in a negative balance.
- Compensation based on relative company performance: Each year we conduct a review of executive compensation within an insurance peer group to ensure that the Company's executive compensation remains fair, competitive and consistent with the Company's absolute and relative performance. The MVP Program for the CEO, COO, CFO and Executive Vice President, Operations includes an adjustment factor (positive and negative) for relative company performance.
- Significant executive stock ownership: Our compensation programs encourage our employees to build and maintain an ownership interest in the Company. We have established specific executive stock ownership guidelines and our executive officers whose compensation is included in the Summary Compensation Table (referred to herein collectively as "named executive officers" or "NEOs"), as well as our other executive officers, currently maintain significant share ownership in the Company. As reflected on page 7, as of December 31, 2015, executive officers and Directors beneficially held 6.3 percent of Company shares, providing strong alignment with shareholders. The ERC believes that the Company's overall compensation approach provided meaningful incentives for the talented management team at the Company to provide outstanding results for shareholders again this year.

HOW THE ERC OPERATES

ERC MEMBERS

From January 1, 2015 through May 7, 2015, the members of the ERC were Ms. Allen (Chair) and Messrs. Ahlmann, Graham, and McPheeters. After May 7, 2015, the members of the ERC were Ms. Allen (Chair) and Messrs. Scanlan, Graham and McPheeters. ERC members are nominated by the Nominating/Corporate Governance Committee, elected by the Board and may be removed from the ERC by the Board at any time, with or without cause. The members of the ERC are independent directors under the independence standards developed by the Board, which incorporate all of the NYSE independence standards which are applicable to directors generally, and which are set out under the section entitled Corporate Governance and Board Matters on page 19. The Board annually determines the independence of each member of the ERC under those independence standards.

ERC RESPONSIBILITIES

The ERC operates under a Charter, which can be found on the Company's website at www.rlicorp.com. The ERC Charter is reviewed annually by the ERC and any proposed changes to the Charter are submitted to the Nominating/Corporate Governance Committee for recommendation to the full Board for approval. The ERC is responsible to the Board for (1) reviewing and providing advice regarding the Company's executive compensation; (2) reviewing and providing advice regarding the Company's management succession and development processes; (3) monitoring compensation actions by management below the executive level; (4) producing an annual report on executive compensation for approval by the Board for inclusion in the Company's proxy statement and (5) reviewing the Company's employee benefit plans.

Table of Contents

ERC MEETINGS

The ERC held eight meetings in 2015. The ERC also held a joint meeting with the Audit Committee of the Board of Directors to discuss safeguards against unnecessary or excessive risk that could arise from the Company's executive compensation policies and practices. The agenda for each ERC meeting is established by the Chair of the ERC in consultation with other ERC members, and with Mr. Michael and Mr. Fick, the Company's Vice President, Human Resources. ERC materials are prepared by Messrs. Michael and Fick and are reviewed and approved by the ERC Chair in advance of distribution to ERC members. The ERC meetings are attended by Messrs. Michael and Fick, who are excused from the meeting during the Committee's executive session.

RESPONSE TO SAY-ON-PAY VOTE

At the May 2015 annual shareholder's meeting, we held a shareholder advisory vote on the compensation of our named executive officers, referred to as a Say-on-Pay vote, with over 97 percent of shareholder votes cast on that item in favor of our executive compensation programs. We considered this vote to represent strong support by shareholders for our long-standing executive compensation policies and practices. In 2015, therefore, the ERC continued its general approach to executive compensation, as described above in "KEY ATTRIBUTES OF RLI EXECUTIVE COMPENSATION."

INPUT FROM MANAGEMENT

Mr. Michael plays an important role in the ERC's consideration of executive compensation levels and the design of executive compensation plans and programs for other senior executive officers. For these individuals, Mr. Michael recommends the following components of executive compensation to the ERC for review and recommendation to the Board:

- annual base salary levels;
- annual incentive targets and financial and personal goals; and
- the form and amount of long-term incentives.

Mr. Michael makes such compensation recommendations based on external market data; achievement of respective performance criteria by each executive; and his judgment related to internal pay equity among Company executives, potential for advancement, and contribution to team initiatives. Mr. Michael also relies upon the input of the senior leadership team when making such recommendations.

COMPENSATION CONSULTANT

The ERC Charter specifically provides that if a compensation consultant is to assist in the evaluation of CEO or senior executive compensation, the ERC has sole authority to retain and terminate the consulting firm including sole authority to approve the firm's fees and retention terms. Management also has authority to retain a compensation consultant, but may not retain the same compensation consulting firm retained by the ERC without approval in advance by the ERC.

In 2015 the Committee retained Meridian Compensation Partners to provide independent advice to the Committee with respect to two matters: (1) the determination of an appropriate group of peer companies used for (a) senior executive compensation benchmarking and (b) the relative growth in book value calculation in the MVP Executive

Incentive Program; and (2) a review of the effectiveness of the MVP Executive Incentive Program relative growth in book value modifier. (The MVP Executive Incentive Program and relative growth in book value modifier is explained in further detail on pages 32-33.)

In 2015 management retained Willis Towers Watson to provide advice with respect to long-term incentive design and an overall assessment of the Company's executive compensation approach.

OVERVIEW OF RLI EXECUTIVE COMPENSATION

OBJECTIVES

The objective of the Company's executive compensation program is to provide a competitive total executive compensation program linked to Company performance that will attract, retain and motivate talented executives critical to the Company's long-term success.

Table of Contents

ELEMENTS OF COMPANY EXECUTIVE COMPENSATION

The Company's total executive compensation program is comprised of the following components, each of which is described in greater detail below:

1. Total annual cash compensation consisting of:
 - (a) Base salary;
 - (b) Annual incentive awards under the MVP Program, which incorporates annual and long-term design features, for the CEO; COO; CFO; and Executive Vice President, Operations;
 - (c) Annual incentive awards under the Management Incentive Program ("MIP") for other home office executives;
 - (d) Annual incentive awards under the Underwriter Profit Program for product group executives;
1. Long-term incentive compensation granted under the LTIPs (as described herein); and under the MVP Program for the CEO; COO; CFO; and Executive Vice President, Operations;
2. Limited perquisites. All Company executives are provided with travel accident insurance and are reimbursed for out of pocket costs for an annual health examination not covered by the Company's health plan. The CEO and COO are permitted to use the Company's fractionally-owned aircraft for personal use for an hourly rate approved by the Board of Directors, with maximum annual use limited to total charges of 6.5 percent of annual base salary. The Company does not provide any income tax gross-ups.

BALANCE OF SHORT -TERM AND LONG-TERM COMPENSATION

The ERC works to balance short-term and long-term elements of total compensation, as described in the following sections. The goal is to provide a meaningful level of long-term compensation to align with long-term value creation and mitigate the risk that members of management make decisions or take actions solely to increase short-term compensation while adding excessive risk to the Company. In that regard, the ERC believes that a greater percentage of total compensation should be in the form of long-term compensation the more senior the role is. The Committee also takes into account the significant ownership in Company stock by Messrs. Michael and Stone when determining their respective long-term incentive awards.

We consider those salary and annual incentive amounts earned in 2015 and paid in 2015 to be short-term compensation. MVP Program payments in 2015 made from amounts earned in prior years and credited to the bonus bank for prior year MVP Program awards; and the grant date fair value of stock options awards in 2015, on the other hand, are considered to be long-term compensation. The following table compares the percentage of total compensation which is short-term in nature, to the percentage which is long-term in nature.

| Name | Short-Term as % of Total Compensation (Salary and Annual Incentive Earned and Paid in 2015) | Long-Term as % of Total Compensation (Payment from Bonus Bank for Prior Years and Grant Date Fair Value of Stock Options Awarded) |
|---------------------|---|--|
| Jonathan E. Michael | 42% | 58% |
| Michael J. Stone | 39% | 61% |
| Thomas L. Brown | 48% | 52% |

| | | |
|----------------------|-----|--------|
| Craig W. Kliethermes | 47% | 53% |
| Daniel O. Kennedy | 81% | 19%(1) |

(1) Mr. Kennedy does not participate in the MVP Program, but instead participates in the MIP, which does not have a bonus bank or long-term payout feature, and consequently his long-term percentage is less than the other NEOs.
MARKET VALUE POTENTIAL EXECUTIVE INCENTIVE PROGRAM (MVP PROGRAM) — GENERAL

MVP Defined. As discussed in further detail below, the MVP Program provides a mechanism with which the ERC can correlate incentive compensation to long-term shareholder value creation. The MVP Program uses an economic profit measure called “Market Value Potential” (“MVP”), which measures the after-tax returns earned by the Company above its cost of capital, as a gauge of shareholder value creation. MVP is defined as (1) the Actual Return (the increase in U.S. generally accepted accounting principles “GAAP” book value), less (2) the Required Return (beginning capital multiplied by the blended cost of capital). If the Company does not earn the Required Return in a given year and MVP is negative, no incentive award is made pursuant to the MVP Program for that year.

For the purposes of the MVP Program, the increase or decrease in GAAP book value is calculated as ending capital less beginning capital. Ending capital is defined as ending GAAP book value, less unrealized gains or losses net of tax on available-for-sale fixed maturity investments, plus outstanding long-term debt instruments at the end of the period; and adjusted for capital transactions during the year. Beginning capital is defined as beginning GAAP book value, less unrealized gains or losses net of tax on available-for-sale fixed maturity investments, plus outstanding long-term instruments

Table of Contents

at the beginning of the period. The Company's blended cost of capital is defined as the weighted average of the cost of equity capital and the cost of debt capital. The cost of equity capital is the average ten-year U.S. Treasury Note rate, plus a market risk premium multiplied by the Company's beta. The Company's cost of debt capital is the forward market rate on debt outstanding on the outstanding long-term debt.

MVP Program Participation. Participation in the MVP Program, percentage incentive awards and the formula to calculate MVP are recommended by the ERC and approved annually by the independent Directors of the Board for Mr. Michael and by the entire Board for other participants. In 2015, participation in the MVP Program was limited to Messrs. Michael, Stone, Brown and Kliethermes. The Board has concluded based on the position responsibilities and ongoing assessment of individual performance against operational and financial goals that the senior executive management team (the CEO, COO, CFO and Executive Vice President, Operations) is most responsible for the operating and investment decisions and actions that directly impact the creation of long-term shareholder value, and, therefore, should be rewarded with a portion of their incentive compensation being directly and exclusively tied to the creation of MVP.

As discussed in more detail below, there are two components to the MVP Program. The first component, based on strategic objectives, represents annual compensation. The second component, based on financial objectives, is paid out over time out of amounts credited to a bonus bank, which is at risk of forfeiture based on future performance and as such represents long-term compensation. The component based on financial objectives is also adjusted based on a relative comparison of RLI's five-year growth in book value to that of its Peer Companies. (RLI's relative growth in book value, in turn, is calculated by comparing its compound annual growth rate ("CAGR") in GAAP comprehensive earnings over the applicable five-year period to that of its Peer Companies. CAGR in comprehensive earnings is calculated based on publicly disclosed comprehensive earnings of Peer Companies for the five-year period ending at the third quarter of the fifth year.)

For 2015, each participant in the MVP Program received a MVP incentive award expressed as a percentage of MVP created by the Company in that calendar year. Each year the ERC confirms that the percentage awards remain appropriate by reviewing historical incentive award payouts, projected future payouts and resulting total compensation for MVP Program participants, which in turn, is compared to the performance of the Company necessary to achieve such payouts. The ERC compares the performance of the Company and total compensation of the MVP Program participants with comparable performance metrics and compensation at companies in the peer group. The MVP percentage award, expressed as a percentage of MVP, for each participant for 2015 was as follows: 2.7 percent for Mr. Michael, 1.5 percent for Mr. Stone, 1.3 percent for Mr. Kliethermes, and 1.0 percent for Mr. Brown. The ERC set the percentage incentive awards for 2015 based on the factors described above and based on the range of expected MVP to be created by the Company in 2015 and the projected incentive awards and incentive payouts that would result. For 2015, the reduction of Mr. Stone's percentage award (from 1.8 percent to 1.5 percent) and increase in Mr. Kliethermes' percentage award (from 1.0 percent to 1.3 percent) were made in anticipation of Mr. Stone's retirement at the end of 2015 and Mr. Kliethermes' anticipated promotion to President & COO at that time, both of which have occurred.

Individual MVP Award payments during any fiscal year, including payments from amounts credited to a bonus bank in prior years, are capped at \$7.5 million under the terms of the RLI Corp. Annual Incentive Compensation Plan approved by Shareholders in 2011. Pursuant to the Annual Incentive Plan, under which the MVP Program operates, the Board of Directors may exercise discretion to decrease MVP Awards based on such objective or subjective criteria it deems appropriate.

ANNUAL COMPENSATION

BASE SALARY

Executive base salaries are targeted to be at the median base salary for comparable positions in the insurance industry, taking into account performance, experience, potential and the level of base salary necessary to attract and retain top executive talent.

In 2015, the ERC set base salary ranges for the CEO, CFO and COO based on publicly available executive compensation data for 2015 from the following peer companies: Alleghany Corp.; AmTrust Financial Services; Argonaut Group, Inc.; Baldwin & Lyons Inc.; Endurance Specialty Holdings LTD.; Global Indemnity; HCC Insurance Holdings, Inc.; Markel Corp.; Meadowbrook Insurance Group Inc.; National Interstate Corp.; Navigators Group Inc.; Old Republic International Corp.; and OneBeacon Insurance Group Ltd. (“Peer Company(ies)”). The ERC selected these Peer Companies based on its judgment. Each of the Peer Companies competes within the property and casualty insurance industry and sells a variety of specialty insurance products that serve both commercial entities and individuals that can generally be defined as specialty in nature, or targeted toward niche markets. The Peer Companies have established records of financial performance, and most have been publicly traded for at least five years, facilitating the comparison of the Company’s

Table of Contents

financial performance to that of the Peer Companies. The ERC also reviews the market capitalization of the Company compared to the Peer Companies to ensure that the Company is at or near the median market capitalization among those companies. For the Peer Company comparison performed in 2015, the Company's market capitalization was seventh among the 14 companies compared.

Each year, the ERC compares the relative ranking among the Company and Peer Companies based on the most recently available public data (2014 data reviewed in 2015 comparison) for base salaries and total compensation for the CEO, COO and CFO positions to the relative performance ranking for the following publicly available performance metrics for the prior year: price-to-book ratio; return on equity; combined ratio; and total shareholder return ("TSR") for one, three and five-year time frames to determine the overall competitiveness of the Company's executive compensation. The Company's rank among the Peer Companies for 2015, based on 2014 results, is shown in the table below:

| Performance Metric | Price/Book | Return on Equity | Combined Ratio | One-Year TSR | Three-Year TSR | Five -Year TSR |
|--------------------|------------|------------------|----------------|--------------|----------------|----------------|
| RLI Rank | 1 | 2 | 2 | 10 | 6 | 2 |

Base salaries and total compensation for other NEOs and executive positions are established by reference to the publicly available survey data, including median base salary levels, for comparable executives in the insurance industry.

At the May 2015 Board meeting, when the annual review of base salaries was conducted by the ERC, Mr. Michael recommended no base salary increases for himself or for Messrs. Stone, Kliethermes and Brown based on an assessment of annual cash compensation levels (base salary and annual incentive payouts from the MVP Program) for those individuals. Mr. Michael recommended a 2.1 percent increase for Mr. Kennedy consistent with the overall merit increase budget for the company and the placement of his base salary within a competitive pay range. The ERC and Board approved Mr. Michael's recommendations.

MARKET VALUE POTENTIAL EXECUTIVE INCENTIVE PROGRAM — ANNUAL INCENTIVE COMPENSATION COMPONENT

Twenty percent of the preliminary MVP award calculated for each participant is evaluated against annual objectives and an achievement rating of 0 to 100 percent is assigned to that portion of the award. This amount represents the annual compensation component of the MVP Program award. For 2015, Messrs. Michael, Stone, Brown and Kliethermes had shared annual objectives related to the ongoing implementation of a company-wide executive succession and development process; strategy; relative annual financial performance; and growth initiatives. The annual objectives are established as difficult stretch goals, requiring superior effort and execution to achieve 100% on all goals. The annual objectives component of an MVP award will only be paid if objectives are achieved and if positive MVP is created for shareholders. If MVP is positive and annual objectives are achieved, the annual objectives component of the award will be paid annually to provide direct linkage of annual incentive compensation for the achievement of those annual goals. However, if MVP is negative for a year, no MVP award will be made for that year with respect to the annual objectives component.

For 2015, annual objectives were evaluated by the Committee and an 80 percent overall achievement factor was applied. The following annual incentive compensation was paid to each participant under the MVP Program:

Calculation of MVP Program Annual Incentive Award

| Participant | (A) 2015 MVP Created | (B) Percentage Award | (C = A x B) 2015 Preliminary MVP Award | (D = C x 20%) 20% Annual Compensation Based on Strategic Goals | (E = % Achieved) Achievement | (F = D x E) 2015 Annual Incentive Award |

MANAGEMENT INCENTIVE PROGRAM (MIP)

Participants in the MIP include home office vice presidents, assistant vice presidents and other senior managers. Awards are granted annually and expressed as a percentage of year-end base pay based on targets for three financial goals: operating return on equity ("ROE"), combined ratio and MVP. Awards are based on actual results for these metrics and achievement of personal objectives.

ROE and combined ratio are used as financial goals to provide an incentive to increase annual profitability. ROE is a ratio calculated as our operating earnings divided by our beginning equity adjusted for capital transactions such as share

Table of Contents

repurchases and special dividends. Operating earnings, in turn, are our net earnings minus realized investment gains or losses net of tax. Combined ratio is an expense measure and is calculated as the sum of our incurred losses and settlement expenses plus our policy acquisition costs and operating expenses, divided by our net premiums earned. The difference between the combined ratio and 100 reflects the per-dollar rate of underwriting income or loss. MVP is used as a financial goal as a proxy for shareholder value creation and is explained on pages 32-33.

Actual awards for a year are paid in the first quarter of the following year. The ERC approves award levels for MIP participants at the vice president level, who are designated as executive officers under Section 16 of the Securities Exchange Act of 1934. Mr. Michael approves award levels for other MIP participants.

For 2015, Mr. Michael recommended, and the ERC approved, a MIP maximum annual incentive opportunity for Mr. Kennedy of 75 percent of his respective year-end base salary, 60 percent of which was based on the achievement of financial goals of MVP, ROE and combined ratio and 15 percent of which was based on personal objectives related to strategic legal projects.

Targets levels and corresponding achievement levels for actual results for financial goals are measured according to the following schedules.

In 2015, the Company achieved the following actual results: ROE of 13.3 percent, MVP of \$65.5 million, and a combined ratio of 84.5. Mr. Kennedy received a 2015 MIP award of \$183,430 reflective of 16.22 percent of year-end base salary for the ROE goal, 11.91 percent for the MVP goal, 15.66 percent for the combined ratio goal and 9.38 percent for personal objectives.

LONG-TERM COMPENSATION

MARKET VALUE POTENTIAL EXECUTIVE INCENTIVE PROGRAM — LONG-TERM INCENTIVE COMPENSATION COMPONENT AND FORFEITURE PROVISION (CLAWBACK)

The MVP Program is described on pages 32-33. Eighty percent of the preliminary MVP award calculated under that program (which will be positive if MVP is positive, or negative if MVP is negative) is subject to an assessment of Company performance compared to Peer Companies (the “financial component”). This represents the long-term component of the MVP award. The financial component of a preliminary award will be adjusted in a range from a 20 percent reduction (minimum) to a 25 percent increase (maximum) based on the Company’s long-term performance relative to Peer Companies measured by five-year growth in book value per share. RLI’s relative growth in book value is calculated by comparing its compound annual growth rate (“CAGR”) in GAAP comprehensive earnings over the applicable five-year period to that of its Peer Companies. CAGR in comprehensive earnings is calculated based on publicly disclosed comprehensive earnings of Peer Companies for the five-year period ending at the third quarter of the fifth year. The adjustment to the financial component is made according to the following schedule:

RLI’s Relative Five-Year Book Value per Share

Growth

125% (maximum) 90th percentile of peers or greater

100% (target) 60th percentile of peers

80% (minimum) 33rd percentile of peers or less

Results between the stated values for relative performance

will be interpolated to determine the achievement rating.

Table of Contents

As noted above, the Company must perform at the 60th percentile, above the median of long-term performance of Peer Companies, in order for 100 percent of the long-term financial component of an MVP award to be made.

The financial component of an MVP award earned is not immediately paid to participants; rather it is credited (if positive) or charged (if negative) to each participant's long-term bonus bank. A bonus bank, in turn, may be positive or negative based on prior year results. The bonus bank is paid annually at a rate of 33 percent of a positive bank balance, meaning that it will take more than 10 years to completely pay out an incentive award for a given year deposited into a bonus bank.

Until paid out, all amounts in the MVP Program bonus bank are subject to a risk of forfeiture if future financial performance results in a negative MVP calculation. In other words, negative MVP charged to a bonus bank will reduce a positive balance in that bonus bank, effectively causing a forfeiture of such positive balance. If a bonus bank is negative after the financial component of an MVP award is credited or charged to a bonus bank, no award will be paid from the bank until it is positive as a result of future positive amounts credited to the bank. The forfeiture provision in the MVP Program bonus bank in the event of negative MVP, in effect, operates as a clawback for negative shareholder results by reducing the amount payable from the bonus bank when the Company has negative MVP. In light of the clawback feature of the MVP Program in the event of negative MVP, and given the lack of a regulatory framework for clawbacks under the Dodd-Frank Act, the ERC has decided to wait to implement broader clawback provisions until after such regulations are finalized.

The Company's MVP in 2015 was \$ 65.5 million compared to MVP of \$99.7 million in 2014. The following table shows the manner in which 2015 annual and long-term MVP award payouts and remaining at-risk bank balances were calculated for Messrs. Michael, Stone, Brown and Kliethermes.

LONG-TERM INCENTIVE PLANS

The Company has three long-term incentive plans which cover our award of equity/stock-based compensation to participants. Those plans are the Omnibus Plan (effective 2005 to 2010), the 2010 Long-Term Incentive Plan (“2010 LTIP”) effective from 2010 to 2015, and the 2015 Long-Term Incentive Plan (“2015 LTIP”). The Omnibus Plan and 2010 LTIP are inactive, and the 2015 LTIP is currently in effect. Together, these plans are referred to sometimes as “LTIPs”

Under the Company’s Omnibus Plan certain employees, officers, consultants and directors of the Company were eligible to receive long-term incentive compensation in a variety of forms including non-qualified stock options, incentive stock options, stock appreciation rights, performance units, restricted stock awards and other equity awards. The 2010 LTIP was adopted in 2010 and replaced the Omnibus Plan. The 2015 LTIP, described immediately below, was adopted in 2015 and replaced the 2010 LTIP. Messrs. Michael, Stone, Brown, Kliethermes and Kennedy have outstanding stock option awards under the 2010 LTIP and the 2015 LTIP.

The purpose of our equity-based incentive plans is to promote the interests of the Company and its shareholders by providing key personnel of the Company with an opportunity to acquire an equity interest in the Company and rewarding them for achieving or exceeding the Company’s performance goals. The grant of equity awards, the value of which is related to the value of the Company’s Common Stock, aligns the interests of the Company’s executive officers with that of the shareholders. The ERC believes this arrangement develops a strong incentive for Company executives to put forth maximum effort for the continued creation of shareholder value and long-term growth of the Company.

Under the Company’s 2015 LTIP, certain employees, officers and directors of the Company are eligible to receive equity awards in a variety of forms including non-qualified stock options, stock appreciation rights, performance units, restricted stock awards and other equity awards. All executives at the Company are required to own a significant level of Company stock, stated as a multiple of base salary. Equity grants provide a means for executives to meet their ownership requirement. As explained further on page 40, executives are required to hold all net shares from an equity grant until their stock ownership level is met.

The ERC believes equity awards serve as incentives to executives to maximize long-term growth and profitability of the Company, an arrangement that benefits both the executives and shareholders. Equity awards also provide a means to attract and retain key employees. The ERC establishes and recommends to the independent Directors of the Board the annual equity award for Mr. Michael, which is established based on a review of long-term incentive compensation of CEO positions among the Peer Companies described above, an assessment of his performance and initiatives

underway and a comparison of his equity awards compared to awards to other executives. A target range of the value of annual equity awards, expressed as a percentage of base salary, has been established for all other Company executives.

In 2015, the Company awarded long-term incentives in the form of non-qualified stock option grants to Company executives in amounts recommended by the ERC and approved by the Board of Directors (independent Directors with respect to Mr. Michael's award). Mr. Stone does not approve Mr. Michael's or his own award. The ERC believes that non-qualified stock options provide an effective form of performance-based compensation to align the interests of executive management and shareholders. In reaching that conclusion, the ERC considered the following: stock options provide more leverage than equity awards such as restricted stock; are directly aligned with shareholder interests since they provide rewards only with share price appreciation; and, are understood and supported by recipients.

The Company targets long-term incentives at approximately the median of competitive market data. Mr. Michael recommends to the ERC proposed stock option awards within the target range for each executive officer based on the executive officer's position and a subjective assessment of the executive officer's individual performance and anticipated future contributions to the Company. The ERC considers Mr. Michael's recommendations and then recommends stock option awards to the Board for approval. Options granted prior to May 2009 expire 10 years after grant, options awarded from May 2009 and after expire eight years after grant. The change in 2009 to an eight-year term for stock options was implemented to reduce the expense of option grants.

Table of Contents

Stock options vest over five years at the rate of 20 percent per year, or upon termination of employment due to the death, disability, or qualified retirement of the recipient. Upon termination of employment (other than due to death, disability, or retirement), vested options must be exercised within the earlier of 90 days of termination or expiration of the option award, except that all unexercised options granted in May 2006 and thereafter are forfeited in the event the employment of an option recipient is terminated for cause.

In the event of a change of control of the Company, as defined under the 2015 LTIP, the Board must take one of two actions with respect to outstanding stock option awards. Under the first alternative, the Board must make appropriate provision for the replacement of the outstanding awards by the substitution of equity based awards of the surviving company with substantially similar terms and conditions, with full vesting for qualifying terminations, such as involuntary termination by the Company or termination by the employee with good reason, in either case, within two years following the fundamental change. Alternatively, the Board must permit the options to be exercised prior to the change in control, or cashed out as part of the change in control.

EMPLOYEE STOCK OWNERSHIP PLAN (ESOP)

The Company's ESOP offers another performance-based means of retaining and motivating employees, including executive officers, who work 1,000 or more hours per year, by offering ownership in the Company on a long-term basis. The Board may approve an annual contribution to the ESOP based on the profitability of the Company that is used by the ESOP to purchase Common Stock on behalf of participating employees, including executive officers. For 2015, the ERC recommended and the Board approved a discretionary profit sharing contribution to the ESOP of 8.1 percent of participants' eligible compensation. In addition, plan forfeitures equal to 0.032 percent of eligible compensation were added to all participants' accounts.

401(K) PLAN

The Company sponsors a 401(k) Plan in which all employees, including executive officers, scheduled to work 1,000 or more hours per year, are entitled to participate. All participants receive a "safe harbor" annual contribution by the Company to their 401(k) accounts of 3 percent of eligible compensation. The Board may also approve discretionary profit sharing contributions to the 401(k) Plan. For 2015, in addition to the safe harbor 3 percent annual contribution, the ERC recommended and the Board approved a discretionary profit sharing contribution to the 401(k) of 1.8 percent of participants' eligible compensation and plan forfeitures equal to 0.216 percent of eligible compensation were added to all participants' accounts.

DEFERRED COMPENSATION PLAN (DEFERRED PLAN)

Under the Company's Deferred Plan, an executive officer may elect to defer up to 100 percent of total cash compensation after payroll deductions. Upon an election by an executive officer to defer compensation, the Company transfers cash equal to the amount deferred to a bank trustee under an irrevocable trust established by the Company, and the trustee purchases a number of shares of Common Stock of the Company representing an amount equal to the compensation deferred by the executive officer. Pursuant to the Deferred Plan, dividends paid on the shares in such trust are used by the trustee to purchase additional shares of Common Stock of the Company, which are placed in the trust. The trust is considered to be a "Rabbi Trust" or grantor trust for tax purposes. The assets of the trust are subject to claims by the Company's creditors. The Deferred Plan generally provides that the shares credited to the participant's account will be transferred to the participant upon termination of employment over five years. Mr. Kliethermes

deferred income for 2015 under the Deferred Plan. Messrs. Michael, Stone, Brown, and Kennedy did not defer any income for 2015. Each of the NEOs has deferred income under the Deferred Plan in prior years and their respective accounts are credited with dividends on shares held in their account, which are used to purchase additional shares.

KEY EMPLOYEE EXCESS BENEFIT PLAN (KEY PLAN)

The purpose of the Key Plan is to restore benefits lost to certain executive officers under the ESOP and 401(k) Plan due to limitations on benefits contained in the Internal Revenue Code. The Company transfers to a bank trustee under an irrevocable trust established by the Company such number of shares of Common Stock of the Company representing an amount equal to the benefits the participant would have earned in the 401(k) and ESOP but for the limitation in the Internal Revenue Code on the maximum compensation on which those benefits may be calculated. The trust is considered to be a “Rabbi Trust” or grantor trust for tax purposes. The assets of the trust are subject to claims by the Company’s creditors. The Key Plan generally provides that dividends are credited to the participant’s account and reinvested in shares of Common

Table of Contents

Stock of the Company. The shares credited to the participant's account pursuant to the Key Plan will be paid upon termination of employment in five annual installments. Mr. Michael ceased active participation in the Key Plan in 2005. Dividends on his shares held in the Key Plan continue to be credited to his account in the Key Plan. No other employee participates or has participated in the Key Plan and the plan is now frozen.

ELEMENTS OF POST-TERMINATION COMPENSATION AND BENEFITS

The following table shows potential amounts payable to each NEO had their employment terminated on December 31, 2015 based on the following scenarios: departure other than death, disability, or retirement; departure from death, disability, or retirement; for cause; and change in control.

(1) Messrs. Michael and Stone have met the requisite age and years of service to qualify for retirement upon their departure from the Company.

Except as described below, the Company has not entered into any employment or severance agreements or arrangements with any of its executive officers that would compensate the executive officers for or after departing the Company. Also, see discussion of Mr. Stone's Consulting Agreement on page 22.

MVP/MIP. Under the Company's Annual Incentive Compensation Plan (which governs MVP and MIP), an employee must be employed on the last calendar day of the year, unless the employee's termination of employment was due to death, disability, or retirement. Retirement requires: (1) the termination of employment of an employee who has reached age and years of service equal to or greater than 75 at the time of departure; or (2) the termination of employment of an employee who satisfies a non-competition covenant or other terms and conditions specified by the Company. The amounts in the above table show annual incentives payable upon termination of employment in the event of a death, disability, or retirement assuming all NEOs would have met the definition of retirement at year-end 2015, although only Messrs. Michael and Stone automatically met the definition based on age and years of service.

Upon the termination of employment of a participant qualifying as retirement, a positive MVP bonus bank calculated on the last day of the quarter during which the participant's employment ended will be paid to a participant in a lump sum on the first day of the seventh month after termination if the participant is age 65 or older, and as a quarterly annuity to age 65 using the interest rate for the five-year Treasury Note in effect at the date of retirement if the Participant's age is less than 65. A bonus bank balance will also be calculated at the end of the quarter prior to a participant's termination of employment and the Company may, in its discretion, pay the lower of the calculated bonus banks. All such payments upon a termination of employment qualifying as retirement are subject to ongoing restrictions on: the participant's employment in the insurance industry; solicitation of Company employees for employment elsewhere; solicitation of business away from the Company; and disclosure of confidential information of the Company.

Table of Contents

Long-Term Incentives. Under the terms of our equity-based compensation plans, stock option grants automatically vest upon the death or disability of an optionee, but will vest upon the retirement of an optionee only if the underlying stock option agreement so provides. The awards of stock options to the NEOs, and all other stock option recipients at the Company, provide for the immediate vesting of outstanding unvested stock options in the event of a recipient's termination of employment qualifying as a retirement. Retirement is defined under the LTIPs as the termination of employment of a participant who has combined age and years of service of 75 or greater at the time of departure. Stock options must be exercised within the earlier of one year of the death of an optionee, or three years of the termination of employment due to the disability or retirement of an optionee, and the original expiration date of the stock option award. In the event of the termination of employment of an optionee for reasons other than death, disability, or retirement, vested options must be exercised within the earlier of 90 days of the termination of employment or the original expiration of the option award. In 2015, Messrs. Michael's and Stone's respective age and years of service exceeded 75. Accordingly, upon Mr. Michael's or Mr. Stone's termination of employment with the Company, all of their respective unvested stock option grants will immediately vest, expiring on the earlier of the original expiration date or three years.

For Cause. In the event of a termination for cause, all unpaid bonuses, amounts in a bonus bank, and unexercised stock options are forfeited.

Change in Control. For illustration purposes, the table shown above assumes the Board of Directors had exercised discretion as described above to cash out outstanding stock options granted by permitting each participant to exercise all outstanding stock options as of December 31, 2015 to realize the in-the-money value of those options. Because Messrs. Michael and Stone qualify for retirement as described above, their respective MVP bonus banks are vested and would be paid out in the event of a change in control. Because the MVP and MIP bonus programs have no change in control provisions, the respective MVP or MIP payouts for Messrs. Kliethermes, Brown, and Kennedy would be -0- in the event of a change in control.

STOCK OWNERSHIP/RETENTION GUIDELINE

It is the Company's belief that key executives should hold significant amounts of Company stock. The value of all shares owned or vested, including: those held outright; those in benefit plans; and the value of in-the-money vested stock options, must equal or exceed a multiple of their annual base salary, as shown below:

| Position | \$ Value of Shares |
|-----------------------|--------------------|
| CEO | 6.0x Base Salary |
| COO | 4.0x Base Salary |
| CFO; Executive VP | 3.0x Base Salary |
| Senior Vice President | 2.0x Base Salary |
| Vice President | 1.5x Base Salary |

Executives to whom this Guideline applies are encouraged to reach their respective stock ownership level within five years of the date on which an individual assumes an executive position covered by this Guideline. Until an executive

reaches the required ownership level, all net shares obtained from the exercise of stock options or other long-term incentive awards must be retained and may not be sold. The ERC reviews the progress of executives, to whom the Guideline applies, toward their stock ownership goal each year. All NEOs have met their respective stock ownership goals and Messrs. Michael and Stone have greatly exceeded their respective stock ownership goal. The Company implemented a formal policy in 2015 prohibiting the named executive officers from using financial instruments to reduce the risk of holding company stock (hedging); or from using company shares for margin trading or collateral purpose. At the time the policy was implemented, none of the named executive officers had engaged in hedging, pledging, or margining shares of RLI stock.

(6) In 1996, when the Company acquired an equity ownership interest in Maui Jim, Inc. (“Maui Jim”), Mr. Michael, along with the Company’s then President, Gerald Stephens, and then CFO, Joseph Dondanville, were elected to the Board of Directors of Maui Jim. Of those three, only Mr. Michael continues to hold this position. Mr. Michael was paid an initial board of director retainer in the form of 20,000 non-qualified options to purchase shares of Maui Jim stock and was paid a director fee of \$1,500 for each of the nine Maui Jim board meetings held from December 1996 through February 2002. Mr. Michael elected to be paid his entire Maui Jim director fees in the form of non-qualified options to purchase shares of Maui Jim stock valued pursuant to an annual appraisal, which election was available to members of the Maui Jim Board of Directors who were not Maui Jim employees.

After February 2002, no further director fees were paid to Mr. Michael for his service as a director of Maui Jim. Mr. Michael exercised all of his options to purchase 67,878 Maui Jim shares in 2003. Mr. Michael paid cash for such shares and incurred an income tax liability on the gain at the time of exercise. (1) The MVP Program applicable to Messrs. Michael, Stone, Kliethermes, and Brown discussed in further detail on pages 32-33, does not provide for a minimum threshold award level. Mr. Kennedy, participates in the MIP and the amounts shown in column (c) represent the minimum award under the MIP, discussed in further detail on pages 34-35, which is equal to zero if personal objectives and financial goals are not met.

Table of Contents

- (2) The MVP Program applicable to Messrs. Michael, Stone, Kliethermes, and Brown does not provide for a target award. The amounts shown in column (d) are their respective 2014 MVP Program payouts for 2014 performance, which are shown as representative amounts for a target MVP Program awards for 2015. For Mr. Kennedy, the amount in column (d) represents his target award under MIP which is equal to 50 percent of his annual base salary rate at year-end.
- (3) The amounts shown in column (e) for Messrs. Michael, Stone, Kliethermes, and Brown reflect the maximum incentive award permitted under the RLI Corp. Annual Incentive Compensation Plan approved by shareholders in 2011, which governs the MVP Program. For Mr. Kennedy, the amount shown under column (e) represents his maximum award under MIP which is equal to 75 percent of his annual base salary at year-end.
- (4) Twenty percent of each option grant becomes exercisable one year after the date of the grant and each year thereafter in 20 percent increments. Options expire on the eighth anniversary of the grant date. The 2015 grants were granted pursuant to the 2015 LTIP. The stock option grants vest upon the death or the termination of employment of a stock option recipient due to disability or retirement. Retirement is defined as termination of employment of an employee with combined age and years of service of 75 or greater. Under FASB ASC Topic 718, option awards to recipients who are current employees, but who qualify for retirement upon departure from the Company, must be expensed at the time of grant, rather than over the five-year vesting period. Because Messrs. Michael and Stone's age and years of service exceeded 75 in 2006 and 2010, respectively, the ERC decided to grant option awards to Mr. Michael beginning in 2006 and Mr. Stone in 2010 on a quarterly basis to avoid a disproportionate expense in the quarter of grant if the option award was made in a single annual grant.
- (5) Option exercise prices adjusted to reflect a reduction in exercise price equal to the \$2.00 special dividend paid on December 22, 2015 to avoid dilution to option holders. The grant date fair value of stock option award did not change as a result of such exercise price adjustments.

SAFEGUARDS AGAINST UNNECESSARY OR EXCESSIVE RISK

Management of the Company, including leaders in legal and human resources, undertook analysis of the Company's compensation structure considering the Company's compensation policies and practices with respect to the named executive officers, as well as the other employees of the Company, to determine whether incentives arising from compensation policies or practices relating to any of the Company's employees would be reasonably likely to have a material adverse effect on the Company. This analysis was reviewed and discussed by the ERC and Audit Committee. Based on the analysis and discussions, the ERC and management concluded that the Company's compensation policies and practices do not create risks reasonably likely to have a material adverse effect on the Company, and again confirmed that the mix of compensation types and time frames tend to align risk-taking with appropriate medium and long-term rewards for the Company.

The following is a discussion of how the Company's compensation policies and practices for its employees will affect risk management practices and risk-taking incentives. The Company is in the business of insurance and therefore takes on the risk of others in return for appropriate premiums. The Company is therefore particularly sensitive to matching the annual incentives it pays to its employees with the long-term risk and value created by the insurance business it writes. The following discussion is broken into four areas: (1) Senior Management Compensation; (2) Underwriting Compensation; (3) Investment Compensation; and (4) Employee and Executive Equity Ownership.

SENIOR MANAGEMENT COMPENSATION

The Company's CEO, COO, CFO and Executive Vice President, Operations participate in the MVP Program, an incentive program described in further detail on pages 32-33. The MVP Program balances risk and opportunity by incorporating a risk-based cost of capital target. The MVP Program contains three features which adjust, for longer-term considerations, the annual measure of shareholder value creation used to determine incentive awards.

The first is a banking feature that deposits the financial component of each MVP-based incentive awards (which may be positive or negative) into a "bonus bank," paying out 33 percent of the bonus bank's balance annually. A bonus bank balance is at risk based on future performance — future positive MVP will increase the bonus bank and payouts, while negative MVP will decrease the bank and payouts. By exposing the bonus bank balance to future performance, the MVP Program provides an incentive to sustain long-term shareholder value creation.

The second is a peer company adjustment factor applicable to the financial component of an MVP Program award that rates the relative performance of the Company to that of its peer group with respect to growth in book value over a five-year period.

The third is Board discretion to reduce awards resulting from excessively risky actions by management, or for other subjective or objective criteria. Additionally, the MVP Program includes a Board approval mechanism, which requires the prior approval of the independent directors of the Board of the financial portion of any annual award (positive or negative) contributed to a MVP bonus bank that exceeds 300 percent of a participant's base salary. This Board approval limit gives the Board the ability to reduce an award if the Board determines that MVP did not correspondingly increase shareholder value.

The ERC believes that the risk-based cost of capital target, long-term banking feature, peer company adjustment factor for five-year growth in book value and Board discretion to reduce incentive awards significantly reduce the

likelihood that senior management will take high-risk actions solely to improve short-term financial results to the detriment of long-term performance.

UNDERWRITING COMPENSATION

Underwriters are paid annual incentives under one of two annual incentive programs, the Underwriter Profit Program (“UPP”) or the Underwriter Incentive Plan (“UIP”). Participants in UPP, product group executives with oversight responsibility for respective product group underwriting, earn an annual incentive equal to a percentage of underwriting profit created. All other underwriters at the Company participate in UIP. UIP provides incentives based on specific performance factors such as individual and product group loss ratio, underwriting profit, combined ratio, gross written premium and new business generation.

To calculate underwriting profit for purposes of UPP and UIP, actual and estimated losses are subtracted from net premiums to ensure that the annual incentives based on underwriting profit reflect losses that occur over several years. For most products, actual and estimated losses are measured over a four to eight-year period. Over that four to eight-year period, only a partial incentive award is paid each year until all losses develop and a final underwriting profit figure can be determined for the applicable underwriting year. For earthquake insurance, modeled expected losses are used to calculate underwriting profit for incentive purposes since losses are typically experienced over a significantly longer period of time.

Table of Contents

The ERC believes that by subjecting premiums to risk of actual and estimated losses, the Company's underwriting incentive plans, UPP and UIP, ensure that the income and risk to the Company from underwriting results are closely aligned with the incentives paid to underwriters. In this manner, UPP and UIP are designed to ensure that underwriters are not given an incentive to produce short-term underwriting results without regard to the long-term income and risk consequences of their underwriting.

INVESTMENT COMPENSATION

The ERC believes that the following controls protect the Company against the Company taking excessive and unnecessary risk to maximize short-term investment results:

- The Company's investment portfolio is managed pursuant to the oversight of the Finance and Investment Committee of the Board (FIC);
- The FIC has established an Investment Policy Statement setting forth detailed investment objectives, benchmarks, constraints and operating policies for the portfolio;
- All security transactions must be approved by three Company officers; and
- All investment actions must comply with state insurance regulatory provisions related to the investments in the portfolio.

EMPLOYEE AND EXECUTIVE EQUITY OWNERSHIP

Finally, the Company has a long-standing employee ownership culture, reflected by its ESOP implemented in 1975. The ownership culture creates strong alignment between the interests of employees and shareholders to foster a long-term shareholder value creation perspective. To further support the employee ownership culture, the ERC has designed the executive compensation program to provide equity-based long-term incentives and has implemented a stock ownership guideline requiring significant levels of stock ownership for key executives, described in detail at page 40. The ERC believes that significant stock holdings by employees and executives provide a strong incentive to grow long-term shareholder value and to avoid actions that increase short-term results in a manner that prevents excessive and unnecessary risk to long-term results.

BOARD'S ROLE IN RISK OVERSIGHT

The Board's risk oversight is accomplished both at the full Board level and through its committee structure. The full Board discusses and considers risk management issues at each of its meetings. The Board will adjust its practices with respect to risk management oversight when it determines it needs to do so and will involve itself in particular areas or business circumstances where its proper exercise of oversight demands it. The Board's role in risk oversight is consistent with the Company's leadership structure, with the Chief Executive Officer and other members of senior management having responsibility for assessing and managing the Company's risk exposure, and the Board and its committees providing oversight in connection with these efforts.

The individual Committee responsibilities with respect to risk oversight are included in their respective Charters. The Audit Committee generally oversees overall enterprise risk management, risk profile and risk assessment. The Audit Committee has sole authority to retain and compensate outside auditors and reviews and monitors loss reserves, among other activities. The Company's Vice President, Internal Audit reports jointly to Mr. Michael, administratively, and to the Audit Committee, functionally, to ensure an open and effective line of communication with respect to Company risk oversight. The Finance and Investment Committee oversees the Company's investment and corporate

finance transactions, policies and guidelines, which includes the oversight of investment performance, investment risk exposure and the Company's capital structure, among other activities. The Financing and Investment Committee and Audit Committee meet annually to discuss monitoring and safeguards against unnecessary or excessive risk that could arise from the Company's financing and investment activities in the areas of equity, interest rates, credit and capital. As discussed in more detail under "Safeguards Against Unnecessary or Excessive Risk," the Executive Resources Committee monitors and oversees executive compensation and incentive programs and associated goals, and, together with the Board, ascertains that such programs do not create the likelihood that employees will take unnecessary and excessive risks to maximize short-term gains to the detriment of long-term performance. The ERC and Audit Committee meet annually to discuss executive compensation and safeguards against unnecessary and excessive risk. The Nominating/Corporate Governance Committee provides oversight of the Company enterprise risk management in areas including, but not limited to corporate governance, regulatory,

legislative and related matters, in coordination with other Board committees as appropriate. The Strategy Committee is responsible to the Board for oversight of the Company's corporate strategy and corporate growth/development and associated risks. Each of the Board committees works within their area of responsibility and coordinates with other committees, the full Board and executive management in risk management at the Company.

RLI CORP. ANNUAL INCENTIVE COMPENSATION PLAN

EFFECTIVE JANUARY 1, 2016

I. ESTABLISHMENT AND PURPOSE

RLI Corp. (the “Company”) established the RLI Incentive Compensation Plan (the “Plan”), effective January 1, 2006, for the benefit of its employees and employees of its Affiliates. The Plan was intended to amend, consolidate and restate certain prior incentive compensation plans established by the Company. The terms of the Plan, as set forth herein, shall apply to Awards granted under the Plan on and after the Effective Date. Except as otherwise provided, Awards granted under the Company’s incentive compensation plans in effect prior to the Effective Date shall be governed by the terms of such plans. The Company previously restated the Plan, effective January 1, 2009, to comply with the requirements of the final regulations issued under Section 409A (“Section 409A”) of the Internal Revenue Code of 1986, as amended (“Code”); again, effective January 1, 2010, to amend the Plan’s definition of “Retirement”, to amend provisions of the Plan relating to the designation of Plan beneficiaries, to change the term “Board Approval Limit” to “Committee Approval Limit”, and to clarify the application of the maximum Award provision; and again, effective January 1, 2011 to expand the Plan’s definition of “Performance Goals” and to expand the circumstances under which a Participant may be considered to have a “Retirement” under the Plan. The Company again hereby restates the Plan, effective January 1, 2016, to provide for Bonus Banks and other contingent deferred payments of Awards to become vested upon a Change in Control, to further expand the Plan’s definition of “Performance Goals” and in certain other clarifying respects.

The Plan is intended to align incentive compensation with achieving the financial performance factors on which the Company’s market value is driven. The Plan is also designed to promote the accomplishment of management’s primary annual objectives as reflected in the Company’s annual operating plan and in the objectives established by management for employees, and to recognize the achievement of management’s objectives through the payment of incentive compensation.

The Plan provides for incentive payments to employees based upon the achievement of pre-established performance goals. The performance goals may be annual, partial-year or multi-year goals. Incentive compensation payable under the Plan is intended to be deductible by the Company in accordance with Section 162(m) of the Code. The Company may adopt a variety of bonus and incentive programs under the Plan provided such programs are based on the performance goals described herein.

II. DEFINITIONS

For purposes of the Plan, unless the context otherwise requires, the following terms shall have the meanings set forth below.

2.1“Affiliate” means any corporation that is part of a controlled group within the meaning of Code Section 414(b) or (c).

2.2“Award” means an award of incentive compensation under the Plan to a Participant in accordance with the terms set forth herein.

2.3“Board” means the Board of Directors of the Company as constituted at the relevant time.

2.4“Bonus Bank” means a deferred payment arrangement established under Section 6.2.

2.5“Bonus Payment Date” means the date on which Awards with respect to a Performance Period are paid, which shall not be later than March 15th of the year following the applicable Performance Period except to the extent the payment of such Award is credited to a Participant’s Bonus Bank or otherwise deferred pursuant to the terms of the RLI Corp. Executive Deferred Compensation Plan.

2.6“Bonus Pool” means an amount available for distribution to Participants who have been assigned an interest in the Bonus Pool (e.g. the Market Value Potential bonus pool arrangement in effect as of the Effective Date). The amount of the Bonus Pool will be determined by the Committee based on the Performance Goals.

2.7“Cause” means termination for reasons described in Section 6.3.

2.8“Change in Control” means each of the following:

Table of Contents

(i) The date any “Person,” within the meaning of Section 13(d) or 14(d) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), including any group (within the meaning of Section 13(d)(3) under the Exchange Act), becomes the “Beneficial Owner,” as such term is defined in Rule 13d-3 promulgated under the Exchange Act, of 30% or more of the combined voting power of the Company’s outstanding shares, other than beneficial ownership by (A) the Company or any subsidiary of the Company, (B) any employee benefit plan of the Company or any subsidiary of the Company or (C) any entity of the Company for or pursuant to the terms of any such plan. Notwithstanding the foregoing, a Change in Control shall not occur as the result of an acquisition of outstanding shares of the Company by the Company which, by reducing the number of shares outstanding, increases the proportionate number of shares beneficially owned by a Person to 30% or more of the shares of the Company then outstanding; provided, however, that if a Person becomes the Beneficial Owner of 30% or more of the shares of the Company then outstanding by reason of share purchases by the Company and shall, after such share purchases by the Company, become the Beneficial Owner of any additional shares of the Company, then a Change in Control shall be deemed to have occurred; or

(ii) The date the Company consummates a merger or consolidation with another entity, or engages in a reorganization with or a statutory share exchange or an exchange offer for the Company’s outstanding voting stock of any class with another entity or acquires another entity by means of a statutory share exchange or an exchange offer, or engages in a similar transaction; provided that no Change in Control shall have occurred by reason of this paragraph unless either:

(A) the stockholders of the Company immediately prior to the consummation of the transaction would not, immediately after such consummation, as a result of their beneficial ownership of voting stock of the Company immediately prior to such consummation

(I) be the Beneficial Owners, directly or indirectly, of securities of the resulting or acquiring entity entitled to elect a majority of the members of the board of directors or other governing body of the resulting or acquiring entity; and

(II) be the Beneficial Owners of the resulting or acquiring entity in substantially the same proportion as their beneficial ownership of the voting stock of the Company immediately prior to such transaction; or

(B) those persons who were directors of the Company immediately prior to the consummation of the proposed transaction would not, immediately after such consummation, constitute a majority of the directors of the resulting entity.

(iii) The date of the sale or disposition, in one or a series of related transactions, of all or substantially all of the assets of the Company to any Person (as defined in paragraph (i) above) other than an Affiliate; or

(iv) The date the number of duly elected and qualified directors of the Company who were not either elected by the Company’s Board or nominated by the Board or its nominating/governance committee for election by the shareholders shall constitute a majority of the total number of directors of the Company as fixed by its By-Laws.

The Committee shall have full and final authority, which shall be exercised in its discretion, to determine conclusively whether a Change in Control of the Company has occurred pursuant to the above definition, and the date of the occurrence of such Change in Control and any incidental matters relating thereto.

In addition, if a Change in Control constitutes a payment event with respect to any Award which provides for the deferral of compensation and is subject to Code Section 409A, the transaction or event described in paragraph (i), (ii), (iii) or (iv) with respect to such Award must also constitute a “change in control event,” as defined in Treasury Regulation Section 1.409A-3(i)(5) to the extent required by Section 409A.

2.9“Code” means the Internal Revenue Code of 1986, as amended.

2.10“Committee” means the Executive Resources Committee of the Board, as constituted at the relevant time, which shall consist solely of two or more “outside directors” within the meaning of Section 162(m) of the Code who are not eligible for participation in the Plan.

2.11“Committee Approval Limit” means a predetermined Award level above which the independent directors of the Board approve Awards in accordance with Section 5.3(c).

Table of Contents

2.12“Company” means RLI Corp., an Illinois corporation.

2.13“Disability or Disabled,” with respect to a Participant, means that: (a) the Participant (i) satisfies the requirements to receive long-term disability benefits under the Company-sponsored group long-term disability plan in which the Participant participates without regard to any waiting periods, and (ii) the Participant is unable to engage in any substantial gainful activity by reasons of any medically determinable physical or mental impairment that can be expected to result in death or can be expected to last for a continuous period of not less than 12 months; or (b) the Participant has been determined by the Social Security Administration to be eligible to receive Social Security disability benefits. A Participant shall not be considered to be “Disabled” unless the Participant furnishes proof of the Disability to the Company in such form and manner as the Company may require.

2.14“Eligible Employee,” for any Performance Period, means a 162(m) Employee and such other employees of the Company and its Affiliates as may be designated to participate in the Plan for such Performance Period. An employee who is designated as eligible to participate in the Plan for a particular Performance Period is not necessarily eligible to participate in the Plan for any other Performance Period.

2.15“Effective Date” means January 1, 2016.

2.16“Fiscal Year” means the calendar year.

2.17“Normal Retirement Date,” of a Participant, means the date on which the Participant has attained a combined age and years of service with the Company of seventy-five. For this purpose, Company service will be based only on Participant’s actual service with the Company (and not any other employer that may be acquired by the Company with respect to service prior to the acquisition) and shall be calculated based on the number of whole employment years the Participant has completed from the date of a Participant’s initial employment with the Company. No credit shall be given for fractional years of service.

2.18“162(m) Employee,” for any Fiscal Year, means any employee described in Code Section 162(m)(3) and any other employee designated by the Committee as one who is reasonably expected to become an employee described in Code Section 162(m)(3).

2.19“Participant,” for any Performance Period, means an Eligible Employee who has commenced participating in the Plan for such Performance Period.

2.20“Performance Goals,” of a Participant for a Performance Period, are the goals established for the Performance Period, the achievement of which is a condition for receiving an Award under the Plan.

In the case of a Participant who is a 162(m) Employee, all Performance Goals must be pre-established by the Committee, must be objective, and must state, in terms of an objective formula or standard, the method for computing the amount of compensation payable if the goal is attained. A Performance Goal is considered “pre-established” for purposes of this paragraph if it is established in writing by the Committee no later than 90 days after the commencement of a Performance Period, provided that the outcome is substantially uncertain at the time the Committee actually establishes the goal. However, in no event will a Performance Goal be considered to be pre-established if it is established after 25% of a Performance Period has elapsed. A Performance Goal is considered “objective” if a third party having knowledge of the relevant facts could determine whether the goal is met. A formula or standard is considered “objective” if a third party having knowledge of the relevant performance results could calculate the amount to be paid to the Participant. The Committee may provide for the adjustment of Performance Goals or performance results in accordance with Code Section 162(m) to prevent dilution or enlargement of an Award as a result of extraordinary events or circumstances as determined by the Committee or to exclude the effects of extraordinary, unusual or nonrecurring events, changes in accounting principles, discontinued operations, acquisitions, divestitures and material restructuring charges.

Performance Goals may be based on one or more of the following criteria and may be based on attainment of a particular level of, or on a positive change in, a factor: revenue, revenue per employee, earnings before income tax (profit before taxes), earnings before interest and income tax, net earnings (profit after taxes), earnings per employee, earnings per share, operating income, total shareholder return, stock price, market share, return on equity, return on capital, before-tax return on net assets, after-tax return on net assets, economic value added (economic profit), market value potential, underwriting profit, price-to-book ratio, price-to-earnings ratio, combined ratio, book value, book value per share, net operating cash flow, investment income, comprehensive earnings, gross written premium, net written premium, sales, costs, expense ratio, loss ratio, operating leverage, dividends paid, contribution from new products, customer satisfaction and employee satisfaction. Such criteria may relate to one or any combination of two or more of Company, Affiliate, division or individual performance.

Table of Contents

2.21“Performance Period” means, generally, the Fiscal Year. However, the Committee may, in its discretion, designate a shorter or longer Performance Period.

2.22“Plan Administrative Committee” means the Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, and Chief Human Resources Officer of the Company or such other officers as the Committee may designate from time to time.

2.23“Retirement,” of a Participant, means the Participant’s Termination of Employment with the Company and all Affiliates on or after the Participant’s Normal Retirement Date. In addition, the Committee or the Administrative Committee may specify, in its discretion, in a written Award agreement, policy or guideline that the Participant will be considered to have had a “Retirement”, and accordingly not forfeit otherwise forfeitable Plan benefits, if the Participant satisfies the terms of a non-competition covenant or under such other terms and conditions as specified by the Committee in its discretion.

2.24“Salary,” of a Participant for a Performance Period means the annualized base compensation payable to a Participant determined by the salary rate in effect on the last day of the Performance Period. The salary rate shall be determined without regard to reductions or deferrals of compensation under qualified and nonqualified plans or welfare benefit plans. The salary rate shall be determined without regard to fringe benefits, bonuses or other payments in addition to the Participant’s base compensation.

2.25“Target Performance Award” means a dollar amount (which may be expressed as a percentage of Salary) established for a Participant if the Performance Goal for the Participant is achieved. The Target Performance Award may also state the maximum amount that may actually be paid to the Participant under Section 5.3 (which may be expressed as a percentage of Salary.)

2.26“Termination of Employment” with respect to a Participant, means the Participant’s separation from service with all Affiliates, within the meaning of Section 409A(a)(2)(A)(i) of the Code and the regulations under such section. Solely for this purpose, a Participant who is an eligible Employee will be considered to have a Termination of Employment when the Participant dies, retires, or otherwise has a termination of employment with all Affiliates. The employment relationship is treated as continuing intact while the Participant is on military leave, sick leave, or other bona fide leave of absence if the period of such leave does not exceed six months, or if longer, so long as the individual retains a right to reemployment with an Affiliate under an applicable statute or by contract. For purposes hereof, a leave of absence constitutes a bona fide leave of absence only if there is a reasonable expectation that the Participant will return to perform services for an Affiliate. If the period of leave exceeds six months and the individual does not retain a right to reemployment under an applicable statute or by contract, the employment relationship is deemed to

terminate on the first date immediately following such six-month period. Notwithstanding the foregoing, where a leave of absence is due to any medically determinable physical or mental impairment that can be expected to last for a continuous period of not less than six months, where such impairment causes the employee to be unable to perform the duties of such employee's position of employment or any substantially similar position of employment, the Company may substitute a 29-month period of absence for such six-month period.

Whether a termination of employment has occurred is determined based on whether the facts and circumstances indicate that the Affiliate and the Participant reasonably anticipated that no further services will be performed after a certain date or that the level of bona fide services the Participant will perform after such date will permanently decrease to no more than 49 percent of the average level of bona fide services performed over the immediately preceding 36-month period (or the full period of services if the Participant has been providing services for less than 36 months).

Notwithstanding anything in the Plan to the contrary, in determining whether a Participant has had a Termination of Employment with an Affiliate, an entity's status as an "Affiliate" shall be determined substituting "50 percent" for "80 percent" each place it appears in Code Section 1563(a)(1),(2), and (3) and in Treasury Regulation Section 1.414(c)-2.

The Company shall have discretion to determine whether a Participant has experienced a Termination of Employment in connection with an asset sale transaction entered into by the Company or an Affiliate, provided that such determination conforms to the requirements of Section 409A and the regulations and other guidance issued under such section, in which case the Company's determination shall be binding on the Participant.

III. ADMINISTRATION

3.1 Duties of Committee. The Committee will administer the Plan. Any actions taken by the Committee shall be by a majority vote of all Committee members or by unanimous written consent. The Committee may establish such rules and regulations as it deems necessary for the Plan and its interpretation. In addition, the Committee may make such determinations and take such actions in connection with the Plan as it deems necessary. Each determination made by the Committee in accordance with the provisions of the Plan will be final, binding and conclusive. The Committee may rely on the financial statements certified by the Company's independent public accountants.

Table of Contents

3.2Duties of Plan Administrative Committee. Except as provided in Section 3.3, the Committee may delegate some or all of its administrative powers and responsibilities under the Plan to the Plan Administrative Committee. Unless the Committee determines otherwise, the Committee shall be treated as delegating its authority to the Plan Administrative Committee to the full extent permitted hereunder. The Plan Administrative Committee may make such determinations and take such actions within the scope of such delegation and as otherwise provided in the Plan, as it deems necessary. The Plan Administrative Committee may further delegate any duties delegated to it pursuant to this Section 3.2 to other officers or employees of the Company and any such delegation may allow for further delegation to other officers or employees. Each determination made by the Plan Administrative Committee, or its delegate, will be final, binding and conclusive. The Plan Administrative Committee and its delegates may rely on the financial statements certified by the Company's independent public accountants. Notwithstanding any such delegation, the Committee may review and change any decision made by the Plan Administrative Committee or its delegate.

3.3Committee's Duties with Respect to 162(m) Awards and to Amend or Terminate Plan. Notwithstanding anything in the Plan to the contrary, in the case of Awards intended to qualify as performance-based compensation under Code Section 162(m), the Committee has retained the sole and exclusive authority to (i) establish the applicable Performance Goals), (ii) determine and certify the achievement of the applicable Performance Goals, and (iii) decrease the amount of the Awards pursuant to Section 5.2 and 5.3. The Committee shall have sole and exclusive authority to modify, suspend, terminate or reinstate the Plan.

IV.ELIGIBILITY TO PARTICIPATE

Participation in the Plan is limited to Eligible Employees. An employee who is a 162(m) Employee for a Performance Period shall be eligible to participate in the Plan for the Performance Period. Prior to, or within an administratively reasonable period of time following, the beginning of a Performance Period, the Plan Administrative Committee, or its delegate, shall determine which other employees are Eligible Employees for the Performance Period. The Committee has final authority to approve or disapprove the selection of any Eligible Employee. An Eligible Employee (other than a 162(m) Employee) shall become a Participant only upon approval by the Plan Administrative Committee or its delegate and compliance with such terms and conditions as the Committee or Plan Administrative Committee may from time to time establish for the implementation of the Plan.

V.CALCULATION OF AWARDS

A Participant's Award for a Performance Period is determined as follows:

5.1 Establishing Performance Goals and Target Performance Awards and Board Approval Limits. Prior to the beginning of a Performance Period or as soon thereafter as administratively reasonable, but no later than the time permitted under Code Section 162(m), the Committee (in the case of Participants who are 162(m) Employees) and the Plan Administrative Committee, or its delegate, (in the case of all other Participants), shall establish the Performance Goal or Goals and each Participant's Target Performance Award. Alternatively the Committee (in the case of Participants who are 162(m) Employees) and the Plan Administrative Committee, or its delegate (in the case of all other Participants), may establish a Bonus Pool for one or more Participants and assign Participants an interest in the Bonus Pool. In addition, the Committee shall establish a Board Approval Limit for each Award made to a 162(m) Employee.

5.2 Calculation of Awards. Following the close of a Performance Period, the Committee (in the case of the 162(m) Employees) and the Plan Administrative Committee (in the case of all other Participants) shall determine the actual Award payable to a Participant by (i) multiplying the percentage achievement of the Performance Goal against the Target Performance Award to determine the Participant's Award for the Performance Period or (ii) multiplying the Participant's interest in any Bonus Pool by the final amount of the Bonus Pool. No Award will be paid to a Participant if the percentage achievement of a Performance Goal is below any minimum level of performance established for such Performance Goal. In no event shall the aggregate of all Award payments (including the amount of any Award credited to a Bonus Bank) with respect to a Participant in any Fiscal Year exceed \$7,500,000, provided, however, that a payout from a bonus bank in a given year representing a partial payout of the amount of an Award credited to the bonus bank in the same year, shall not be counted toward the maximum to avoid double counting of such amount.

5.3 Adjustments and Certifications of Awards. Once the determination in section 5.2 is made, the Committee, in the case of a Participant who is a 162(m) Employee, and the Plan Administrative Committee or its delegate in all other cases, shall:

(a) Review the amount of each Award and make any adjustments it, in its sole discretion, deems appropriate to the amount of the Award. In general, each Participant's Award will be the amount pre-established (when the Performance Goals were established) for achievement of the Performance Goals at the achievement levels described in Section 5.1. However, at the discretion of the Plan Administrative Committee, this amount may be increased (except in the case of a Participant who is a 162(m) Employee) or decreased based upon such objective

Table of Contents

or subjective criteria, as it deems appropriate. The Committee, in its discretion, may decrease (but not increase) the amount in the case of a 162(m) Employee based upon such objective or subjective criteria as it deems appropriate; and

(b) In the case of a Participant who is a 162(m) Employee, the Committee shall certify in writing the extent to which the Participant has satisfied each of the Performance Goals and all other material terms of an Award.

(c) In the case of any Award subject to a Committee Approval Limit, the independent directors serving on the Board may reduce the actual Award, but not below the Committee Approval Limit.

VI. PAYMENT OF AWARDS

6.1 Timing of Award Payment. Except as provided in Section 6.2 or as otherwise provided in the underlying written Award, program, guideline or other similar arrangement, a Participant's Award for a Performance Period shall be paid in a cash lump sum to him or her on the Bonus Payment Date immediately following the end of the Fiscal Year in which the Performance Period ends. A Participant who is also eligible to Participate in the RLI Corp. Executive Deferred Compensation Plan may elect to defer some or all of any amount otherwise payable to him or her under this Section 6.1 to the extent permitted by such plan.

6.2 Bonus Bank. Prior to the beginning of a Performance Period, the Committee may specify that a portion of an Award will be credited to a Bonus Bank. Any such Award will be in writing and shall specify a fixed schedule of payments and such other terms and conditions as the Committee or Plan Administrative Committee may choose. The terms of the Award may provide that amounts credited to the Bonus Bank may be reduced if Performance Goals in a subsequent Performance Period are not met. Amounts deposited to the Bonus Bank will be credited with interest equivalent to the interest rate on three-year U.S. Government Treasury Bills in effect at the beginning of the fiscal year.

6.3 Change in Employment Status During Performance Period. Except as provided in this Section 6.3 or as otherwise provided in the underlying written Award, program, guideline or other similar arrangement, in order to receive a payment, a Participant must be employed by the Company or Affiliate on (i) the date of actual payment with respect to an Award that is not held under a Bonus Bank, and (ii) the date of actual payout from a Bonus Bank arrangement. If the Participant dies or becomes Disabled or has a Termination of Employment due to Retirement during a Performance Period, the Participant (or the Participant's beneficiary in the case of the Participant's death) will be entitled to receive a pro rata portion of the Award (that is not held under a Bonus Bank), but only if the Award

expressly provides for such payment. In such case, the payment of the Award will be made at the same time as if the Participant had remained employed through the date of payment.

If the Participant dies or becomes Disabled at a time when a Participant has a balance in a Bonus Bank, the Participant (or the Participant's beneficiary in the case of the Participant's death) will be entitled to receive a payment equal to the balance of the Bonus Bank within 30 days of the death or Disability, adjusted for interest through the end of the preceding quarter. If the Participant has a Retirement, payment of the Bonus Bank will be made as specified in the underlying written Bonus Bank agreement, policy or guideline. Notwithstanding anything in this Section 6.3 or under any underlying Award agreement, policy or guideline to the contrary, a Participant shall not be entitled to any Award for a Performance Period if the Participant's employment is terminated by the Company or Affiliate for "Cause". For these purposes "Cause" shall mean the Participant's: (a) failure to comply with any material policies and procedures of the Company or Affiliate; (b) conduct reflecting dishonesty or disloyalty to the Company or Affiliate, or which may have a negative impact on the reputation of the Company or Affiliate; (c) commission of a felony, theft or fraud, or violations of law involving moral turpitude; (d) failure to perform the material duties of his or her employment; (e) excessive absenteeism; (f) unethical behavior; or (g) violation of a material policy of the Company.

If a Participant's employment is terminated for "Cause," the date on which the Participant's employment is considered to be terminated, for purposes of this Section 6.3, shall be the time at which such Participant is instructed or notified to cease performing job responsibilities for the Company or any Affiliate, whether or not for other reasons, such as payroll, benefits or compliance with legal procedures or requirements, he or she may still have other attributes of an employee.

Notwithstanding the terms of any written Award agreement, policy or guideline, upon a Change in Control, any amounts then credited to such Participant's Bonus Bank and any other amounts earned during any full or partial Performance Period commencing prior to such Change in Control, including those amounts that are subject to subsequent conditions, shall not be subject to forfeiture or reduction, except in the event of a termination of such Participant's employment for Cause or pursuant to Section 6.5. Such amounts shall be payable to such Participant at the time and form prescribed by the written Award agreement, policy or guideline, in accordance with Code Section 409A.

6.4Beneficiary. A Participant may designate one or more beneficiaries to receive Plan benefits payable by reason of the Participant's death. In order for such designation to be valid for purposes of the Plan, it must be completed and filed with the Company according to the rules established by the Company. If the Participant has not completed a beneficiary designation, or all such beneficiaries have predeceased the Participant, then any amount that becomes payable under the Plan by reason of the Participant's death shall be paid to the personal representative of the Participant's estate. If there is any

Table of Contents

question as to the legal right of any person to receive a distribution under the Plan by reason of the Participant's death, the amount in question may, at the discretion of the Committee, be paid to the personal representative of the Participant's estate, in which event the Company shall have no further liability to anyone with respect to such amount. This Section 6.4 shall apply to all Awards granted under the Plan.

6.5Forfeiture. All Awards paid to the Chief Executive Officer and Chief Financial Officer of the Company under this Plan are subject to forfeiture as provided in Section 304 of the Sarbanes-Oxley Act of 2002, and the implementing rules and regulations. In addition, the Company reserves the right to require a Participant to forfeit or return to the Company any cash or other amount received under an Award under the Plan to the extent required by law, under any applicable exchange listing standard or under any applicable policy adopted by the Company that is designed to meet any legal obligations or obligations under any applicable exchange listing standard.

6.6Code Section 409A Compliance and Payment Grace Period. The Plan (and any underlying Award, policy, guideline or other similar arrangement) is intended to comply in form and operation with Code Section 409A and the regulations promulgated thereunder. Notwithstanding any provision to the contrary, if any amount payable under the Plan (or any underlying Award, policy, guideline, or other similar arrangement) constitutes deferred compensation, within the meaning of Code Section 409A, and becomes payable to a Specified Employee as a result of the Specified Employee's Termination of Employment, the payment will be deferred (if not already deferred) until the earlier to occur of (i) the first day of the seventh month following such employee's Termination of Employment or (ii) the date of such employee's death. Consistent with the requirements of Section 409A, a Plan distribution that is a "short-term deferral" exempt from Section 409A shall be deemed to be paid on the Bonus Payment Date if it is paid no earlier than January 1st immediately preceding, and no later than the March 15th immediately following, the Bonus Payment Date.

VII.MISCELLANEOUS

7.1No Guaranty of Employment. Neither the adoption nor maintenance of the Plan, the designation of an employee as an Eligible Employee, the setting of Performance Goals, nor the provision of any Award under the Plan shall be deemed to be a contract of employment between the Company or an Affiliate and any employee. Nothing contained in the Plan shall give any employee the right to be retained in the employ of the Company or an Affiliate or to interfere with the right of the Company or an Affiliate to discharge any employee at any time, nor shall it give the Company or an Affiliate the right to require any employee to remain in its employ or to interfere with the employee's right to terminate employment at any time.

7.2Release. Any payment of an Award to or for the benefit of a Participant or beneficiary that is made in good faith by the Company in accordance with the Company's interpretation of its obligations hereunder shall be in full satisfaction of all claims against the Company for payments under the Plan to the extent of such payment.

7.3Notices. Any notice provided by the Company under the Plan may be posted to a Company-designated web-site.

7.4Nonalienation. No benefit payable at any time under the Plan shall be subject in any manner to alienation, sale, transfer, assignment, pledge, levy, attachment, or encumbrance of any kind by any Participant or beneficiary.

7.5Plan is Unfunded. All Awards under the Plan shall be paid from the general assets of the Company. No Participant shall be deemed to have, by virtue of being a Participant in the Plan, any claim on any specific assets of the Company such that the Participant would be subject to income taxation on any Award prior to distribution to him or her, and the rights of a Participant or beneficiary to any payment to which he or she is otherwise entitled under the Plan shall be those of an unsecured general creditor of the Company.

7.6Tax Liability. The Company may withhold from any payment of Awards or other compensation payable to or on behalf of a Participant or beneficiary such amounts as the Company determines are reasonably necessary to pay any taxes required to be withheld under applicable law.

7.7Captions. Article and section headings and captions are provided for purposes of reference and convenience only and shall not be relied upon in any way to construe, define, modify, limit, or extend the scope of any provision of the Plan.

7.8Invalidity of Certain Plan Provisions. If any provision of the Plan is held invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision of the Plan and the Plan shall be construed and enforced as if such provision had not been included.

7.9Venue. As a substantial portion of the duties and obligations of the parties created by the Plan will be performed in Peoria, Illinois, it shall be the sole and exclusive venue for any arbitration, litigation, special proceedings, or other proceedings between the parties in connection with the Plan.

7.10Hold Harmless. A Participant shall hold the Company harmless from and pay any cost, expense or fee (not to exceed the bank balance) incurred by the Company with respect to any claim, due or demand asserted by any person, except the Company against any amounts due the Participant under the Plan.

7.11No Other Agreements. The terms and conditions set forth herein constitute the entire understanding of the Company and the Participants with respect to the matters addressed herein.

7.12Incapacity. In the event that any Participant is unable to care for the Participant's affairs because of illness or accident, any payment due may be paid to the Participant's duly qualified guardian or other appointed legal representative.

7.13Applicable Law. The Plan and all rights under it shall be governed by and construed according to the laws of the State of Illinois.
