Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

NOTE 1: Organization

Independence Realty Trust, Inc. was formed on March 26, 2009 as a Maryland corporation that has elected to be taxed as a real estate investment trust, or REIT, commencing with the taxable year ended December 31, 2011. We are externally managed by a subsidiary of RAIT Financial Trust, or RAIT, a publicly traded Maryland REIT whose common shares are listed on the New York Stock Exchange under the symbol "RAS." As used herein, the terms "we," "our" and "us" refer to Independence Realty Trust, Inc. and, as required by context, Independence Realty Operating Partnership, LP, which we refer to as IROP, and their subsidiaries. We own apartment properties in geographic submarkets that we believe support strong occupancy and have the potential for growth in rental rates. We seek to provide stockholders with attractive risk-adjusted returns, with an emphasis on distributions and capital appreciation. We own substantially all of our assets and conduct our operations through IROP, of which we are the sole general partner.

On September 17, 2015, we completed the merger, or the TSRE merger, with Trade Street Residential, Inc., or TSRE, whereby we acquired TSRE. Pursuant to the TSRE merger, (i) a subsidiary of IROP merged into the operating partnership subsidiary of TSRE, or the TSR OP, with TSR OP continuing as the surviving entity, and (ii) TSRE merged with an IRT's subsidiary, with our subsidiary continuing as the surviving entity and a wholly-owned subsidiary of IRT. As a result of the TSRE merger, each outstanding share of common stock of TSRE was converted automatically into the right to receive (a) \$3.80 in cash and (b) 0.4108 shares of common stock of IRT, plus cash in lieu of fractional shares. As a result, we issued approximately 15.1 million shares of common stock as equity consideration in the TSRE merger. Immediately prior to the TSRE merger, the third party holder of units of limited partnership interest of TSR OP, or TSR OP units, contributed all of their TSR OP units to IROP in exchange for 1,925,419 units of limited partnership interest of IROP, or IROP Units, plus cash in lieu of fractional IROP Units. As a result of the TSRE merger, we have over \$1.4 billion of total capitalization and own 14,044 units across 50 properties. The net assets and results of operations of TSRE will be included in our condensed consolidated financial statements beginning September 17, 2015. As a result, a gain from a bargain purchase was recognized. See Note 3: TSRE Merger for further information.

NOTE 2: Summary of Significant Accounting Policies

a. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared by management in accordance with generally accepted accounting principles in the United States, or GAAP. Certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with

GAAP have been condensed or omitted pursuant to such rules and regulations, although we believe that the included disclosures are adequate to make the information presented not misleading. The unaudited interim consolidated financial statements should be read in conjunction with our audited financial statements as of and for the year ended December 31, 2014 included in our Annual Report on Form 10-K. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our consolidated financial position and consolidated results of operations and cash flows are included. The results of operations for the interim periods presented are not necessarily indicative of the results for the full year. Certain prior period amounts have been reclassified to conform with the current period presentation.

b. Principles of Consolidation

The consolidated financial statements reflect our accounts and the accounts of IROP and other wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

c. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

d. Investments in Real Estate

Allocation of Purchase Price of Acquired Assets

We account for acquisitions of properties that meet the definition of a business pursuant to Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC, Topic 805, "Business Combinations". The fair value of the real estate acquired is allocated to the acquired tangible assets, consisting of land, building and tenant improvements, and identified intangible assets and liabilities, consisting of the value of above-market and below-market leases for acquired in-place leases and the value of tenant relationships, based in each case on their fair values. Purchase accounting is applied to assets and liabilities associated with the real estate acquired. Transaction costs and fees incurred related to acquisitions are expensed as incurred. Transaction costs and fees incurred related to the financing of an acquisition are capitalized and amortized over the life of the loan.

Upon the acquisition of properties, we estimate the fair value of acquired tangible assets (consisting of land, building and improvements) and identified intangible assets and liabilities (consisting of above and below-market leases, in-place leases and tenant relationships), and assumed debt at the date of acquisition, based on the evaluation of information and estimates available at that date. Based on these estimates, we allocate the initial purchase price to the applicable assets and liabilities. As final information regarding fair value of the assets acquired and liabilities assumed is received and estimates are refined, appropriate adjustments will be made to the purchase price allocation, in no case later than twelve months of the acquisition date. During the three and nine month period ended September 30, 2015, we did not make any adjustments to purchase price allocations.

In determining the fair value of the identified intangible assets and liabilities of an acquired property, above-market and below-market in-place lease values are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the differences between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining term of the lease. The capitalized above-market lease values and the capitalized below-market lease values are amortized as an adjustment to rental income over the lease term. During the three and nine month period ended September 30, 2015, we acquired in-place leases with a value of \$7,471 and \$7,690, respectively, related to our acquisitions that are discussed further in NOTE 3: TSRE Merger and NOTE 4: Investments in Real Estate.

The aggregate value of in-place leases is determined by evaluating various factors, including an estimate of carrying costs during the expected lease-up periods, current market conditions and similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses, and estimates of lost rental revenue during the expected lease-up periods based on current market demand. Management also estimates costs to execute similar leases including leasing commissions, legal and other related costs. The value assigned to this intangible asset is amortized over the assumed lease up period, typically six months. For the three and nine-months ended September 30, 2015 we recorded \$109 and \$3,397 of amortization expense for intangible assets, respectively. For the

three and nine-month periods ended September 30, 2014 we recorded \$983 and \$2,927 of amortization expense for intangible assets, respectively. As of September 30, 2015, we expect to record additional amortization expense on current in-place lease intangible assets of \$3,809 and \$3,735 for the remainder of 2015 and 2016, respectively.

Impairment of Long-Lived Assets

Management evaluates the recoverability of our investment in real estate assets, including related identifiable intangible assets, in accordance with FASB ASC Topic 360, "Property, Plant and Equipment". This statement requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that recoverability of the assets is not assured.

Management evaluates the long-lived assets on an ongoing basis and records an impairment charge when there is an indicator of impairment. The estimated cash flows used for the impairment analysis and the determination of estimated fair value are based on our plans for the respective assets and our views of market and economic conditions. The estimates consider matters such as current and historical rental rates, occupancies for the respective and/or comparable properties, and recent sales data for comparable properties. Changes in estimated future cash flows due to changes in our plans or views of market and economic conditions could result in recognition of impairment losses, which, under the applicable accounting guidance, could be substantial.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

Depreciation and Amortization Expense

Depreciation expense for real estate assets is computed using a straight-line method based on a life of 40 years for buildings and improvements and five to ten years for equipment and fixtures. Expenditures for tenant improvements are capitalized and amortized over the initial term of each lease. For the three and nine-months ended September 30, 2015 we recorded \$4,594 and \$13,064 of depreciation expense, respectively. For the three and nine-month periods ended September 30, 2014 we recorded \$2,326 and \$5,737 of depreciation expense, respectively.

e. Fair Value of Financial Instruments

In accordance with FASB ASC Topic 820, "Fair Value Measurements and Disclosures", fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity for disclosure purposes. Assets and liabilities recorded at fair value in the consolidated balance sheets are categorized based upon the level of judgment associated with the inputs used to measure their value. Hierarchical levels, as defined in FASB ASC Topic 820, "Fair Value Measurements and Disclosures" and directly related to the amount of subjectivity associated with the inputs to fair valuations of these assets and liabilities, are as follows:

- Level 1: Valuations are based on unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. The types of assets carried at level 1 fair value generally are equity securities listed in active markets. As such, valuations of these investments do not entail a significant degree of judgment.
- Level 2: Valuations are based on quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3: Inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset.

The availability of observable inputs can vary depending on the financial asset or liability and is affected by a wide variety of factors, including, for example, the type of investment, whether the investment is new, whether the investment is traded on an active exchange or in the secondary market, and the current market condition. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by us in determining fair value is greatest for instruments categorized in level 3.

Fair value is a market-based measure considered from the perspective of a market participant who holds the asset or owes the liability rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, our own assumptions are set to reflect those that management believes market participants would use in pricing the asset or liability at the measurement date. We use prices and inputs that management believes are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be transferred from Level 1 to Level 2 or Level 2 to Level 3.

Fair value for certain of our Level 3 financial instruments is derived using internal valuation models. These internal valuation models include discounted cash flow analyses developed by management using current interest rates, estimates of the term of the particular instrument, specific issuer information and other market data for securities without an active market. In accordance with FASB ASC Topic 820, "Fair Value Measurements and Disclosures", the impact of our own credit spreads is also considered when measuring the fair value of financial assets or liabilities, including derivative contracts. Where appropriate, valuation adjustments are made to account for various factors, including bid-ask spreads, credit quality and market liquidity. These adjustments are applied on a consistent basis and are based on observable inputs where available. Management's estimate of fair value requires significant management judgment and is subject to a high degree of variability based upon market conditions, the availability of specific issuer information and management's assumptions.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

FASB ASC Topic 825, "Financial Instruments" requires disclosure of the fair value of financial instruments for which it is practicable to estimate that value. The fair value of mortgage indebtedness is based on a discounted cash flows valuation technique, which classifies this as a level 3 liability within the fair value hierarchy. The carrying value and fair value of mortgage indebtedness as of September 30, 2015 was \$602,408 and \$597,547, respectively. The carrying value and fair value of mortgage indebtedness as of December 31, 2014 was \$400,509 and \$411,311, respectively. The fair value of secured credit facility, bridge term loan, cash and cash equivalents and restricted cash approximates cost due to the nature of these instruments.

f. Derivative Instruments

We may use derivative financial instruments to hedge all or a portion of the interest rate risk associated with our borrowings. The principal objective of such arrangements is to minimize the risks and/or costs associated with our operating and financial structure as well as to hedge specific anticipated transactions. The counterparties to these contractual arrangements are major financial institutions with which we and our affiliates may also have other financial relationships. In the event of nonperformance by the counterparties, we are potentially exposed to credit loss. However, because of the high credit ratings of the counterparties, we do not anticipate that any of the counterparties will fail to meet their obligations.

In accordance with FASB ASC Topic 815, "Derivatives and Hedging", we measure our derivative instruments at fair value. For derivatives designated as cash flow hedges, the changes in the fair value of the effective portion of the derivative is reported in other comprehensive income and changes in the ineffective portion, if any, is recognized in earnings. For derivatives not designated as hedges (or designated as fair value hedges), the change in fair value of the derivative instrument is recognized in earnings. Any derivatives that we designate in hedge relationships are done so at inception. At inception, we determine whether or not the derivative is highly effective in offsetting changes in the designated interest rate risk associated with the identified indebtedness using regression analysis. At each reporting period, we update our regression analysis and use the hypothetical derivative method to measure any ineffectiveness.

On September 30, 2015, we entered into an interest rate cap contract with a notional value of \$200 million, a strike rate of 3.0% based on 1-month LIBOR and a maturity date of October 17, 2017 to hedge our interest rate exposure on floating rate indebtedness. We designated this interest rate cap as a cash flow hedge at inception and determined that the hedge is highly effective in offsetting interest rate fluctuations associated with the identified indebtedness. As of September 30, 2015, this derivative had a fair value of \$0.04 million and we concluded that this hedging relationship was and will continue to be highly effective, and using the hypothetical derivative method, did not recognize any ineffectiveness. As of September 30, 2015, less than \$0.01 million was reported in accumulated other comprehensive income. During the three-month and nine-month periods ended September 30, 2015 no amounts have been reclassified out of accumulated other comprehensive income to earnings.

g. Recent Accounting Pronouncements

On January 1, 2015, we adopted the accounting standard classified under FASB ASC Topic 205, "Presentation of Financial Statements". This accounting standard amends existing guidance to change reporting requirements for

discontinued operations by requiring the disposal of an entity to be reported in discontinued operations if the disposal represents a strategic shift that has or will have a major effect on an entity's operations and financial results. This standard is effective for interim and annual reporting periods beginning on or after December 15, 2014. The adoption of this standard did not have a material effect on our consolidated financial statements.

In May 2014, the FASB issued an accounting standard classified under FASB ASC Topic 606, "Revenue from Contracts with Customers". This accounting standard generally replaces existing guidance by requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. This standard is currently effective for annual reporting periods beginning after December 15, 2016. On July 9, 2015, the FASB affirmed its proposal to defer the effective date of this accounting standard by one year. Management is currently evaluating the impact that this standard may have on our consolidated financial statements.

In February 2015, the FASB issued an accounting standard classified under FASB ASC Topic 810, "Consolidation". This accounting standard amends the consolidation analysis required under GAAP and requires management to reevaluate all previous consolidation conclusions. This standard considers limited partnerships as VIEs, unless the limited partners have either substantive kick-out or participating rights. The presumption that a general partner should consolidate a limited partnership has also been

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

eliminated. The standard amends the effect that fees paid to a decision maker or service provider have on the consolidation analysis, as well as amends how variable interests held by a reporting entity's related parties affect the consolidation conclusion. This standard also clarifies how to determine whether equity holders as a group have power over an entity. This standard is effective for interim and annual reporting periods beginning after December 15, 2015, with an early adoption permitted. Management is currently evaluating the impact that this standard may have on our consolidated financial statements.

In April 2015, the FASB issued an accounting standard classified under FASB ASC Topic 835, "Interest". This accounting standard amends existing guidance to change reporting requirements for debt issuance costs by requiring debt issuance costs to be presented on the balance sheet as a direct deduction from the debt liability. This standard is effective for interim and annual reporting periods beginning after December 15, 2015, with an early adoption permitted. Retrospective application to prior periods is required. Management does not expect that this accounting standard will have a significant impact on our consolidated financial statements.

In September 2015, the FASB issued an accounting standard classified under FASB ASC Topic 805, "Business Combinations". This accounting standard amends existing guidance related to measurement period adjustments by requiring the adjustments to be recognized prospectively with disclosure of the impact of the adjustments had they been applied previously. This standard is effective for interim and annual reporting beginning after December 15, 2015, with early adoption permitted. As this standard only applies to measurement period adjustments that occur after the effective date, this standard is not expected to have a material impact on our consolidated financial statements.

NOTE 3: TSRE Merger

As previously discussed in Note 1, the TSRE merger closed on September 17, 2015. The preliminary fair value of the assets and liabilities acquired on acquired on September 17, 2015 was as follows:

Investments in real estate	\$682,237
Cash assumed	2,685
Accounts receivable and other assets	6,123
Intangible assets	7,471
Indebtedness	(359,495)
Accounts payable and accrued expenses	(7,581)
Accrued interest payable	(130)

Other liabilities	(3,662)
Net assets acquired	\$327,648

The fair value of the consideration transferred on September 17, 2015 was as follows:

Cash consideration for TSRE merger	\$139,781
Equity consideration for TSRE merger	123,855
Total	\$263,636

The fair value of the equity consideration transferred was comprised of \$109,857 of common shares and \$13,998 of IRT OP units. The fair value was based on the price of our common shares upon completion of the merger.

As the fair value of the net assets acquired exceeded the fair value of the consideration transferred, we recognized a gain from a bargain purchase of \$64,012. In determining whether a gain from a bargain purchase was appropriate, we reassessed whether we correctly identified all of the assets acquired and all of the liabilities assumed from TSRE. We determined that we correctly identified all of the assets acquired and all of the liabilities assumed from TSRE and, as a result, a gain from a bargain purchase was appropriate.

The gain from a bargain purchase was a result of the following: (i) the fair value of IRT's common stock at closing was lower than the negotiated price pursuant to the TSRE merger Agreement (resulting in approximately \$34 million of the gain), and (ii), the fair value of the 19 TSRE properties acquired, which was supported by appraisals and broker opinions of value received, was higher

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

than the expectation that served as a basis for the negotiated purchase price (resulting in approximately \$30 million of the gain, primarily due to the use of current, market-based capitalization rates).

The \$359,495 of indebtedness acquired was comprised of \$237,610 of indebtedness that we paid off at the closing of the TSRE merger and \$121,885 of indebtedness that remained on our balance sheet, which was recognized at its fair value.

As part of the TSRE merger, we incurred \$12,530 of acquisition expenses, which were recognized in earnings immediately. We also incurred \$23,219 of expenses associated with extinguishing financing arrangements and \$4,289 of expenses associated with employee separations.

The initial purchase accounting is based on our preliminary assessment, which may differ when final information becomes available. We believe that the information gathered to date provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed. We have received appraisals or broker opinions of value for all of the properties acquired and have performed fair value analyses for the liabilities assumed. We expect to complete the purchase accounting process as soon as practicable, but no later than one year from the date of acquisition.

Unaudited pro forma financial information relating to the 19 TSRE properties acquired on September 17, 2015 has been included in Note 4: Investments in Real Estate.

NOTE 4: Investments in Real Estate

As of September 30, 2015, our investments in real estate consisted of 50 apartment properties with 14,044 units (unaudited). The table below summarizes our investments in real estate:

	As of September 30, 2015	As of December 31, 2014	Depreciable Lives (In years)
Land (1)	\$ 199,488	\$ 112,600	—
Building	1,190,856	570,475	40
Furniture, fixtures and equipment	10,548	6,037	5-10
Total investment in real estate	\$ 1,400,892	\$ 689,112	
Accumulated depreciation	(35,304)	(23,376)	
Investments in real estate, net	\$ 1,365,588	\$ 665,736	

(1) As of September 30, 2015, includes a parcel of land acquired with the TSRE merger that is held-for-sale and has a carrying amount of \$3,283 and a fair value of \$3,350.

Acquisitions

On May 1, 2015, we acquired a 236-unit (unaudited) apartment residential community located in Indianapolis, Indiana. We acquired the property for an aggregate purchase price of \$25,250 exclusive of closing costs. Upon acquisition, we recorded the investment in real estate, including any related working capital and intangible assets, at fair value of \$25,250 and did not record a gain.

As previously discussed, we completed the TSRE merger on September 17, 2015. As part of the TSRE merger we acquired 19 properties containing 4,989 units (unaudited). See Note 3: TSRE Merger for details on the assets acquired, liabilities assumed and consideration paid as part of the TSRE merger.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

The following table summarizes the aggregate fair value of the assets and liabilities associated with all of the properties acquired during the nine-month period ended September 30, 2015, on the date of each acquisition, for the real estate accounted for under FASB ASC Topic 805.

Description	Fair Value of Assets Acquired During the Nine-Month Period Ended September 30, 2015
Assets acquired:	
Investments in real estate	\$ 707,268
Cash and cash equivalents	2,685
Accounts receivable and other assets	6,210
Intangible assets	7,690
Total assets acquired	\$ 723,853
Liabilities assumed:	
Indebtedness	\$ 359,495
Accounts payable and accrued expenses	8,069
Accrued interest payable	130
Other liabilities	3,764
Total liabilities assumed	\$ 371,458
Estimated fair value of net assets acquired	\$ 352,395

The table below presents the revenue and net income (loss) for the properties acquired during the nine-month period ended September 30, 2015 as reported in our consolidated financial statements.

Edgar Filing: INDEPENDENCE REALTY TRUST, INC - Form 10-Q

	For the Three-Month Period		For the Nine-Month Period	
	Ended September 30, 2015		Ended September 30, 2015	
		Net income (loss) allocable to common shares		Net income (loss) allocable to common shares
Property	Total revenue		Total revenue	
TSRE portfolio	\$ 2,668	\$ 1,539	\$ 2,668	\$ 1,539
Bayview Club	546	(175)	1,143	53
Total	\$ 3,214	\$ 1,364	\$ 3,811	\$ 1,592

The table below presents the revenue, net income and earnings per share effect of the acquired properties on a pro forma basis as if the acquisitions occurred on January 1, 2014. These pro forma results are not necessarily indicative of the results which actually would have occurred if the acquisition had occurred on the first day of the periods presented, nor does the pro forma financial information purport to represent the results of operations for future periods:

Total	\$498	\$165,385	\$3,267	\$275,579	\$20,245	\$528,322

As of September 30, 2015 we were in compliance with all financial covenants contained in our indebtedness.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

The following tables contains summary information concerning our indebtedness as of December 31, 2014:

Debt:	Outstanding Principal	Carrying Amount	Type	Rate	Weighted Average Maturity (in years)
Secured credit facility (1)	\$ 18,392	\$ 18,392	Floating	2.7%	1.8
Mortgages-Fixed rate	360,902	362,434	Fixed	3.8%	7.5
Mortgages-Floating rate	38,075	38,075	Floating	2.4%	6.3
Total Debt	\$ 417,369	\$ 418,901		3.6%	7.1

(1) The secured credit facility total capacity was \$30.0 million, of which \$18.4 million was drawn as of December 31, 2014.

As of December 31, 2014 we were in compliance with all financial covenants contained in our indebtedness.

The weighted average interest rate of our mortgage indebtedness was 3.7% as of September 30, 2015. As of September 30, 2015, RAIT held \$38,075 of our mortgage indebtedness while \$563,721 was held by third parties. As of December 31, 2014, RAIT held \$38,075 of our mortgage indebtedness while \$360,902 was held by third parties. For each of the three and nine-months ended September 30, 2015 we paid approximately \$243 and \$722 respectively, of interest to RAIT. For each of the three and nine-months ended September 30, 2014 we paid approximately \$241 and \$723 respectively, of interest to RAIT.

Mortgage Indebtedness

On January 27, 2015 we entered into a loan agreement for a \$22,900 loan secured by a first mortgage on our Iron Rock Ranch property. The loan bears interest at a rate of 3.4% per annum, provides for monthly payments of interest only until the maturity date of February 1, 2025.

On April 13, 2015 we entered into a loan agreement for a \$20,527 loan secured by a first mortgage on our Stonebridge at the Ranch property. The loan bears interest at a rate of 3.2% per annum, provides for monthly payments of interest only until the maturity date of May 1, 2025.

On September 17, 2015, in connection with the TSRE Merger, we acquired Creekstone at RTP and assumed an existing loan secured by the property with a fair value of \$23,250. The loan bears interest at a fixed rate of 3.9% per annum, provides for monthly payments of interest only through June 10, 2016 when principal and interest payments will be due monthly based on a 30-year amortization schedule, and matures on June 10, 2023.

On September 17, 2015, in connection with the TSRE Merger, we acquired Fountains Southend and assumed an existing loan secured by the property with a fair value of \$23,750. The loan bears interest at a fixed rate of 4.3% per annum, provides for monthly payments of interest only through February 5, 2017 when principal and interest payments will be due monthly based on a 30-year amortization schedule, and matures on February 5, 2024.

On September 17, 2015, in connection with the TSRE Merger, we acquired IRT Millenia and assumed an existing loan secured by the property with a fair value of \$25,000. The loan bears interest at a fixed rate of 3.8% per annum, provides for monthly payments of interest only through April 5, 2018 when principal and interest payments will be due monthly based on a 30-year amortization schedule, and matures on March 5, 2021. In connection with our acquisition of IRT Millenia, we also entered into a supplemental loan agreement for a \$4,175 loan secured by the property. The supplemental loan bears interest at a fixed rate of 4.3% per annum, provides for monthly payments of interest only through May 5, 2018 when principal and interest payments will be due monthly based on a 30-year amortization schedule, and matures on March 5, 2021.

On September 17, 2015, in connection with the TSRE Merger, we acquired Talison Row and assumed an existing loan secured by the property with a fair value of \$33,635. The loan bears interest at a fixed rate of 4.1% per annum, provides for monthly payments of interest only through September 10, 2016. Beginning September 11, 2016 principal and interest payments are required monthly based on a 30 year amortization schedule until the maturity date of September 10, 2023.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

On September 17, 2015, in connection with the TSRE Merger, we acquired Aventine Greenville and entered into a loan agreement for \$30,600 secured by the property. The loan bears interest at a fixed rate of 3.2% per annum, provides for monthly payments of interest only through November 4, 2016. Beginning November 5, 2016 principal and interest payments are required monthly based on a 30 year amortization schedule until the maturity date of March 5, 2021.

On September 17, 2015, in connection with the TSRE Merger, we acquired Waterstone at Brier Creek and assumed an existing loan secured by the property with a fair value of \$16,250. The loan bears interest at a fixed rate of 3.7% per annum, provides for monthly payments of interest only through the maturity date of April 5, 2022. In connection with our acquisition of Waterstone at Brier Creek, we also entered into a supplemental loan agreement for a \$4,175 loan secured by the property. The supplemental loan bears interest at a fixed rate of 4.2% per annum, provides for monthly payments of interest only until the maturity date of April 5, 2022.

Secured Credit Facility

During the three- and nine-months ended September 30, 2015, we repaid \$14,848 and \$33,240, respectively, against our secured credit facility, or the HNB facility, with The Huntington National Bank. During the three and nine-months ended September 30, 2015, we borrowed \$14,848 against the HNB facility. As of September 17, 2015, the HNB facility was terminated.

On September 17, 2015, we entered into a credit agreement with respect to a \$325 million senior secured credit facility, or the KeyBank senior facility. The KeyBank senior facility consists of a revolving line of credit in an amount of up to \$125.0 million, or the revolver, and a term loan in an amount of no less than \$200.0 million, or the term loan. Up to 10% of the revolver is available for swingline loans, and up to 10% of the revolver is available for the issuance of letters of credit. Additionally, IROP has the right to increase the aggregate amount of the KeyBank senior facility to up to \$450.0 million. The KeyBank senior facility will mature on September 17, 2018, three years from its closing date, subject to the option of IROP to extend the KeyBank senior facility for two additional 12-month periods under certain circumstances. IROP may prepay the KeyBank senior facility, in whole or in part, at any time without fee or penalty, except for breakage costs associated with LIBOR borrowings. At IROP's option, borrowings under the KeyBank senior facility will bear interest at a rate equal to either (i) the 1-month LIBOR rate plus a margin of 165 to 245 basis points, or (ii) a base rate plus a margin of 65 to 145 basis points. The applicable margin will be determined based upon IROP's total leverage ratio. In addition, IROP will pay a fee of either 20 basis points (if greater than or equal to 50% of the revolver is used) or 25 basis points (if less than 50% of the revolver is used) on the unused portion of the revolver. The KeyBank senior facility requires monthly payments of interest only and does not require any mandatory prepayments. At September 30, 2015, amounts outstanding under the KeyBank secured facility bear interest at 245 basis points over 1-month LIBOR. As of September 30, 2015, there was \$53.5 million of availability under the revolver and \$0 of availability under the term loan.

On September 17, 2015, we entered into a credit agreement with respect to a \$120 million senior interim term loan facility, or the KeyBank interim facility. The KeyBank interim facility is structured as a 364-day secured term loan facility (with a maturity extension option for an additional six months under certain circumstances) available in a single draw. IROP may prepay the KeyBank interim facility, in whole or in part, at any time without fee or penalty (other than as provided in a separate fee letter with the lenders), except for breakage costs associated with LIBOR borrowings. The KeyBank interim facility is secured by pledges of certain of the equity interests of IROP's current and future subsidiaries and joint ventures (on a best-available basis to the extent such equity interests can be pledged pursuant to IRT's existing debt agreements) and a pledge of the proceeds of all equity issuances by IRT. At IROP's option, borrowings under the KeyBank interim facility will bear interest at a rate equal to either (i) the 1-month LIBOR rate plus a margin of 500 basis points, or (ii) a base rate plus a margin of 400 basis points. If IROP elects to extend its maturity, at IROP's option, the KeyBank interim facility will bear interest at a rate equal to either (i) the 1-month LIBOR rate plus a margin of 650 basis points, or (ii) a base rate plus a margin of 550 basis points. The KeyBank interim facility requires monthly payments of interest only. IROP is required to reduce the principal amount outstanding under the KeyBank interim facility to no greater than \$100.0 million within six months of closing and must apply 100% of all net proceeds from equity issuances, sales of assets, or refinancing of assets towards repaying the KeyBank Interim Facility. At September 30, 2015, the KeyBank interim facility bears interest at 500 basis points over 1-month LIBOR and there was \$0 of availability under the KeyBank interim facility.

(Unaudited and dollars in thousands, except share and per share data)

NOTE 6: Shareholder Equity and Non-Controlling Interests

Stockholder Equity

Common Shares

On September 17, 2015, IRT completed the TSRE merger. As a result of the Merger, each outstanding share of TSRE common stock was converted automatically into the right to receive (a) \$3.80 in cash and (b) 0.4108 shares of IRT Common Stock, plus cash in lieu of fractional shares. IRT issued 15,110,994 shares of IRT common stock as equity consideration in the merger.

On January 19, 2015, our board of directors declared the following dividends:

Month	Record Date	Payment Date	Dividend Declared Per Share
January 2015	January 30, 2015	February 17, 2015	\$ 0.06
February 2015	February 27 2015	March 16, 2015	\$ 0.06
March 2015	March 31, 2015	April 15, 2015	\$ 0.06

On April 13, 2015, our board of directors declared the following dividends:

Month	Record Date	Payment Date	Dividend Declared Per Share
April 2015	April 30, 2015	May 15, 2015	\$ 0.06

Edgar Filing: INDEPENDENCE REALTY TRUST, INC - Form 10-Q

May 2015	May 29, 2015	June 15, 2015	\$ 0.06
June 2015	June 30, 2015	July 15, 2015	\$ 0.06

On July 1, 2015, our board of directors declared dividends for July, August and September 2015. On September 4, 2015 our board of directors approved the division of the September 2015 monthly dividend of \$0.06 per share into two prorated dividends in preparation of the expected closing of the TSRE merger, as follows:

			Dividend
			Declared
Month	Record Date	Payment Date	Per Share
July 2015	July 31, 2015	August 17, 2015	\$ 0.06
August 2015	August 31, 2015	September 15, 2015	\$ 0.06
September 2015	September 15, 2015	October 15, 2015	\$ 0.034
September 2015	September 30, 2015	October 15, 2015	\$ 0.026

On October 19, 2015 our board of directors declared the following dividends:

			Dividend
			Declared
Month	Record Date	Payment Date	Per Share
October 2015	October 30, 2015	November 16, 2015	\$ 0.06
November 2015	November 30, 2015	December 15, 2015	\$ 0.06
December 2015	December 31, 2015	January 15, 2016	\$ 0.06

Non-controlling Interest

On September 17, 2015, immediately prior to the TSRE merger, the sole third party holder of units of TSR OP units contributed all of their TSR OP units to IROP in exchange for 1,925,419 of IROP units, plus cash in lieu of fractional IROP units, valued at \$13,998.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

As of September 30, 2015, there were 3,154,935 IROP Units outstanding with a redemption value of \$22,747, based on IRT's stock price as of September 30, 2015.

NOTE 7: Equity Compensation Plans

Long Term Incentive Plan

On April 5, 2011, our board of directors approved and adopted the Long Term Incentive Plan, or the incentive plan, and the Independent Directors Compensation Plan, or the director plan. Our incentive plan provides for the grants of awards to our directors, officers and full-time employees (in the event we ever have employees), full-time employees of our advisor and its affiliates, full-time employees of entities that provide services to our advisor, directors of our advisor or of entities that provide services to it, certain of our consultants and certain consultants to our advisor and its affiliates or to entities that provide services to our advisor. The incentive plan authorizes the grant of restricted or unrestricted shares of our common stock, non-qualified and incentive stock options, restricted stock units, stock appreciation rights, dividend equivalents and other stock- or cash-based awards. On July 29, 2013, our board of directors and stockholders approved the amendment and restatement of our incentive plan to reduce the number of shares of common stock issuable thereunder to 800,000 shares.

Under the director plan, which operates as a sub-plan of our incentive plan, each of our independent directors will receive 3,000 shares of common stock annually. In addition, our independent directors may elect to receive their annual cash fee in the form of our common shares or a combination of common shares and cash. On May 14, 2015, our compensation committee made a stock grant under the director plan so that our independent directors received 12,000 shares of our common stock, in the aggregate valued at \$107 using our closing stock price of \$8.89. These awards vested immediately. On May 14, 2014, our compensation committee made a stock grant under the director plan so that our independence directors received 9,000 shares of our common stock, in the aggregate valued at \$81 using our closing stock price of \$8.95. These awards vested immediately.

On February 18, 2015, the compensation committee of IRT awarded 100,000 shares of restricted common stock, valued at \$935 using IRT's closing stock price of \$9.35, and awarded 300,000 stock appreciation rights, or SARs, valued at \$219 based on the Black-Scholes option pricing model at the date of grant, to persons affiliated with our advisor, including our executive officers. These awards generally vest over three-year periods.

NOTE 8: Related Party Transactions and Arrangements

Fees and Expenses Paid to Our Advisor

Effective as of May 7, 2013, we entered into the Second Amended and Restated Advisory Agreement, or the amended and restated advisory agreement, with our external advisor.

Pursuant to the terms of the amended advisory agreement, our advisor was compensated as follows:

- Quarterly base management fee of 0.1875% of average gross real estate assets as of the last day of such quarter. Average gross real estate assets means the average of the aggregate book value of our real estate assets before reserves for depreciation or other similar noncash reserves and excluding the book values attributable to the eight properties that were acquired prior to August 16, 2013. We compute average gross real estate assets by taking the average of these book values at the end of each month during the quarter for which we are calculating the fee. The fee is payable quarterly in an amount equal to 0.1875% of average gross real estate assets as of the last day of such quarter. For the three and nine-months ended September 30, 2015, our advisor earned \$1,259 and \$3,306 of asset management fees, respectively. For the three and nine-months ended September 30, 2014, our advisor earned \$445 and \$938 of asset management fees, respectively.
- An incentive fee based on our pre-incentive fee core funds from operations, or Core FFO, a non-GAAP measure, as defined in the advisory agreement. The incentive fee is computed at the end of each fiscal quarter as follows:
 - no incentive fee in any fiscal quarter in which our pre-incentive fee Core FFO does not exceed the hurdle rate of 1.75% (7% annualized) of the cumulative gross amount of equity capital we have obtained; and
 - 20% of the amount of our pre-incentive fee Core FFO that exceeds 1.75% (7% annualized) of the cumulative gross proceeds from the issuance of equity securities we have obtained.

Independence Realty Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

As of September 30, 2015

(Unaudited and dollars in thousands, except share and per share data)

- For the three and nine-month periods ended September 30, 2015 our advisor earned \$0 and \$425 of incentive fees, respectively. For the three and nine-months ended September 30, 2014 our advisor earned \$0 and \$154 of incentive fees. These fees are included within asset management fees in our consolidated statements of operations.

As of September 30, 2015 and December 31, 2014 we had liabilities payable to our advisor for base management fees and incentive fees of \$0 and \$644, respectively, which is included in accounts payable and accrued expenses in the accompanying consolidated balance sheets.

As of September 25, 2015 we entered into the Second Amendment to the Second Amended and Restated Advisory Agreement. The Second Amendment amends the advisory agreement to extend its term to October 1, 2020, and so that, for periods subsequent to October 1, 2015, our advisor will be compensated as follows:

- Quarterly base management fee of 0.375% of our cumulative equity raised; and
- Quarterly incentive fee equal to 20% of our Core FFO in excess of \$0.20 per share.

Property Management Fees Paid to Our Property Manager

We have entered into property management agreements with RAIT Residential, or our property manager, which is majority owned by RAIT, with respect to each of our properties. Pursuant to the property management agreements, we pay our property manager property management and leasing fees on a monthly basis of an amount up to 4.0% of the gross revenues from the property for each month. Additionally, we may pay our property manager a separate fee for the one-time initial rent-up or leasing-up of newly constructed properties in an amount not to exceed the fee customarily charged in arm's length transactions by others rendering similar services in the same geographic area for similar properties as determined by a survey of brokers and agents in such area. Each management agreement has an initial one year term, subject to automatic one-year renewals unless either party gives prior notice of its desire to terminate the management agreement. For the three and nine-months ended September 30, 2015 our property manager earned \$861 and \$2,381, respectively, of property management and leasing fees. For the three and nine-month periods ended September 30, 2014 our property manager earned \$471 and \$1,203, respectively, of property management and leasing fees. As of September 30, 2015 and December 31, 2014, we had liabilities payable to our property manager for property management and leasing fees of \$336 and \$205, respectively, which is included in accounts payable and accrued expenses in the accompanying consolidated balance sheets.

NOTE 9: Earnings (Loss) Per Share

The following table presents a reconciliation of basic and diluted earnings (loss) per share for the three and nine-month periods ended September 30, 2015 and 2014:

Edgar Filing: INDEPENDENCE REALTY TRUST, INC - Form 10-Q

	For the Three-Month		For the Nine-Month	
	Periods Ended September 30		Periods Ended September 30	
	2015	2014	2015	2014
Net Income (loss)	\$25,636	\$(58)	\$25,748	\$2,749
(Income) loss allocated to non-controlling interests	(1,621)	2	(1,629)	2
Net Income (loss) allocable to common shares	24,015	(56)	24,119	2,751
Weighted-average shares outstanding—Basic	33,962,015	24,011,540	32,516,470	19,004,591
Weighted-average shares outstanding—Diluted	33,962,015	24,011,540	32,520,684	19,040,301
Earnings (loss) per share—Basic	\$0.71	\$(0.00)	\$0.74	\$0.14
Earnings (loss) per share—Diluted	\$0.71	\$(0.00)	\$0.74	\$0.14

Certain IROP units, stock appreciation rights, or SARs, and unvested shares were excluded from the earnings (loss) per share computation because their effect would have been anti-dilutive, totaling 3,278,935 and 3,184,326 for the three and nine-month period ended September 30, 2015, and 54,268 for the three-month period ended September 30, 2014.

(Unaudited and dollars in thousands, except share and per share data)

NOTE 10: Commitments and Contingencies

Litigation

From time to time, we are party to various lawsuits, claims for negligence and other legal proceedings that arise in the ordinary course of our business.

On June 11, 2015, three purported stockholders filed a complaint in the Circuit Court of Maryland for Baltimore City on behalf of a putative class of TSRE stockholders and naming as defendants TSRE's Board of Directors, or the individual defendants, and TSRE. On July 15, 2015, the plaintiffs amended their complaint and added Monarch Alternative Capital, LP, Senator Investment Group, LP, and BHR Capital LLC, or the shareholder defendants, as defendants. The amended complaint generally alleges that, in connection with the acquisition of TSRE by IRT, the individual defendants breached their fiduciary duties by approving an acquisition that was financially unfair to TSRE's stockholders and by conducting a sale process in which the individual defendants had conflicts of interest. The amended complaint also alleges that the shareholder defendants aided and abetted the individual defendants' alleged breaches of their fiduciary duties and were unjustly enriched by the TSRE merger. The amended complaint seeks, among other things, compensatory damages, pre- and post-judgment interest, an order requiring that the individual defendants affiliated with the shareholder defendants disgorge all profits, compensation and other benefits obtained by them as a result of their conduct in connection with the TSRE merger, and an award of the plaintiffs' costs and disbursements of this action, including attorney's fees. On September 25, 2015 the defendants moved to dismiss the amended complaint. By stipulation of the parties, plaintiffs' opposition is due November 20, 2015 and defendants' reply is due December 11, 2015. A hearing on defendants' motions to dismiss has been scheduled for January 29, 2016. IRT, as successor by the TSRE merger to TSRE, and the individual defendants intend to vigorously defend against the claim. No assurance can be given that the matter will be resolved favorably to us. We have included in our loss contingency an estimate of probable loss relating to our legal defense costs in connection with this matter, but currently cannot reasonably estimate any further possible loss, or any range of reasonably possible loss, in connection with this matter.

In addition, we are subject to various other legal proceedings and claims that arise in the ordinary course of our business operations. Matters which arise out of allegations of bodily injury, property damage, and employment practices are generally covered by insurance. While the resolution of these other matters cannot be predicted with certainty, we currently believe the final outcome of such matters will not have a material adverse effect on our financial position, results of operations or cash flows.

Other Matters

To the extent that a natural disaster or similar event occurs with more than a remote risk of having a material impact on the consolidated financial statements, we will disclose the estimated range of possible outcomes, and, if an outcome is probable, accrue an appropriate liability.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward-Looking Statements

The Securities and Exchange Commission, or SEC, encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. This report contains or incorporates by reference such "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or Exchange Act.

Words such as "anticipates," "estimates," "expects," "projects," "intends," "plans," "believes" and words and terms of similar substance used in connection with any discussion of future operating or financial performance identify forward-looking statements. As used herein, the terms "we," "our" and "us" refer to Independence Realty Trust, Inc. and, as required by context, Independence Realty Operating Partnership, LP, which we refer to as IROP, and their subsidiaries.

We claim the protection of the safe harbor for forward-looking statements provided in the Private Securities Litigation Reform Act of 1995. These statements may be made directly in this report and they may also be incorporated by reference in this report to other documents filed with the SEC, and include, but are not limited to, statements about future financial and operating results and performance, statements about our plans, objectives, expectations and intentions with respect to future operations, products and services, and other statements that are not historical facts. These forward-looking statements are based upon the current beliefs and expectations of our management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are difficult to predict and generally beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. Actual results may differ materially from the anticipated results discussed in these forward-looking statements.

The risk factors discussed and identified in Item 1A of our Annual Report on Form 10-K filed with the SEC on March 16, 2015, and in other of our public filings with the SEC, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements. We caution you not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. Except to the extent required by applicable law or regulation, we undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date of this filing or to reflect the occurrence of unanticipated events.

Overview

We are a Maryland corporation that owns apartment properties in geographic submarkets that we believe support strong occupancy and have the potential for growth in rental rates. We seek to provide stockholders with attractive risk-adjusted returns, with an emphasis on distributions and capital appreciation. We are externally advised by a wholly-owned subsidiary of RAIT Financial Trust, or RAIT (NYSE: RAS), a multi-strategy commercial real estate company organized as an internally managed REIT with approximately \$5.2 billion of assets under management as of September 30, 2015. RAIT invests primarily in commercial mortgages and, to a lesser extent, apartment properties. RAIT owned 15.5% of our outstanding common shares as of September 30, 2015. We elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, or the Code, commencing with our taxable year ended December 31, 2011.

We seek to acquire and operate apartment properties that:

- have stable occupancy;

- are located in submarkets that we do not expect will experience substantial new apartment construction in the foreseeable future;
- in appropriate circumstances, present opportunities for repositioning or updating through capital expenditures; and
- present opportunities to apply tailored marketing and management strategies to attract and retain residents and enable rent increases.

Acquisition of Trade Street Residential, Inc.

On September 17, 2015, we completed the TSRE merger. As a result of the TSRE merger, each outstanding share of common stock of TSRE was converted automatically into the right to receive (a) \$3.80 in cash and (b) 0.4108 shares of our common stock, plus cash in lieu of fractional shares. As a result, we issued approximately 15.1 million shares of our common stock as equity consideration in the TSRE merger. On a fully diluted basis following the closing of the TSRE merger, legacy IRT stockholders owned approximately 68% of the combined company, and former TSRE stockholders owned approximately 32% of the combined

company. Immediately prior to the TSRE merger, the sole third party holder of TSR OP units contributed all of their TSR OP Units to IROP in exchange for approximately 1.9 million IROP Units, plus cash in lieu of fractional IROP Units.

In the three- and nine- month periods ended September 30, 2015, we focused on our acquisition of TSRE and absorbing the growth we experienced during 2014. During the three-month period ended September 30, 2015, revenue increased \$12.4 million as compared to last year. This increase was primarily due to \$9.8 million of revenue associated with properties we acquired since September 30, 2014. During the nine-month period ended September 30, 2015, revenue increased \$37.0 million as compared to last year. This increase was primarily due to \$23.5 million of revenue associated with properties we acquired since September 30, 2014.

On a same-store basis, rental revenue was up this quarter as compared to third quarter last year, as rental rates increased 5.2% on average across the same-store portfolio. As we continued to scale our platform and improve operating efficiencies, our net operating income margin for the portfolio increased from 52.9% for the third quarter of last year to 53.1% this quarter. On a same-store basis, net operating income increased 2.0% year-to-year.

As of September 30, 2015, we had \$1.5 billion of gross investments in real estate, representing 14,044 units and \$1.0 billion of debt, with a weighted average effective interest cost of 3.6%.

As of September 30, 2015, we own 50 apartment properties containing an aggregate of 14,044 apartment units. We refer to these apartment properties as our “existing portfolio.” As of September 30, 2015, our existing portfolio had an average occupancy of 94.0% and an average monthly effective rent per occupied apartment unit of \$950.

Since the completion of the TSRE merger, we are seeking to reduce IRT’s leverage ratio over time primarily through using the proceeds from property sales to repay a portion of our indebtedness. By the end of July 2016, we expect to repay or substantially reduce the \$120.0 million outstanding at September 30, 2015 under the KeyBank interim facility referenced below which was used to fund the TSRE merger. To implement this strategy, we have identified a number of properties for sale which have realized their economic potential and are located outside of our core geographic footprint in the Southeast United States. We are seeking to sell three properties by the end of the first quarter of 2016. These dispositions are expected to generate a significant amount of proceeds which will be utilized to reduce the KeyBank interim facility. Additionally, the mortgage debt on five of our properties is maturing in April 2016 giving us the flexibility to sell or refinance these properties, thereby providing additional funds to further reduce the KeyBank interim facility.

Non-GAAP Financial Measures

Funds from Operations and Core Funds from Operations

We believe that FFO and Core FFO, each of which is a non-GAAP financial measure, are additional appropriate measures of the operating performance of a REIT and us in particular. We compute FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts, or NAREIT, as net income or loss allocated to common shares (computed in accordance with accounting principles generally accepted in the United States, or GAAP), excluding real estate-related depreciation and amortization expense, gains or losses on sales of real estate and the cumulative effect of changes in accounting principles.

Core FFO is a computation made by analysts and investors to measure a real estate company’s operating performance by removing the effect of items that do not reflect ongoing property operations, including acquisition expenses, expensed costs related to the issuance of shares of our common stock, gains or losses on real estate transactions and equity-based compensation expenses, from the determination of FFO. We incur acquisition expenses in connection

with acquisitions of real estate properties and expense those costs when incurred in accordance with GAAP. As these expenses are one-time and reflective of investing activities rather than operating performance, we add back these costs to FFO in determining Core FFO. In connection with the TSRE transaction, IRT modified the calculation of Core FFO to adjust for amortization of deferred financing costs and TSRE financing extinguishment and employee separation expenses because these are non-cash items or reflective of investing activities rather than operating performance similar to the other Core FFO adjustments. The effect of these modifications on prior periods is reflected in the reconciliation of IRT's reported net income (loss) allocable to common shares to its FFO and Core FFO included herein.

Our calculation of Core FFO differs from the methodology used for calculating Core FFO by some other REITs and, accordingly, our Core FFO may not be comparable to Core FFO reported by other REITs. Our management utilizes FFO and Core FFO as measures of our operating performance, and believes they are also useful to investors, because they facilitate an understanding of our operating performance after adjustment for certain non-cash items, such as depreciation and amortization expenses, equity based compensation, amortization of deferred financing fees, TSRE financing extinguishment and employee separation costs, gains (loss) on TSRE transaction and property acquisitions and acquisition expenses and pursuit costs that are required by GAAP to be expensed but may not necessarily be indicative of current operating performance and that may not accurately compare our operating

performance between periods. Furthermore, although FFO, Core FFO and other supplemental performance measures are defined in various ways throughout the REIT industry, we also believe that FFO and Core FFO may provide us and our investors with an additional useful measure to compare our financial performance to certain other REITs. We also use Core FFO for purposes of determining the quarterly incentive fee, if any, payable to our advisor.

Neither FFO nor Core FFO is equivalent to net income or cash generated from operating activities determined in accordance with GAAP. Furthermore, FFO and Core FFO do not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations or other commitments or uncertainties. Neither FFO nor Core FFO should be considered as an alternative to net income as an indicator of our operating performance or as an alternative to cash flow from operating activities as a measure of our liquidity.

Set forth below is a reconciliation of net income (loss) to FFO and Core FFO for the three and nine-months ended September 30, 2015 and 2014 (in thousands, except share and per share information):

	For the Three-Month Period Ended September 30, 2015		For the Three-Month Period Ended September 30, 2014

Same Store Portfolio Net Operating Income

We believe that Net Operating Income, or NOI, a non-GAAP measure, is a useful measure of our operating performance. We define NOI as total property revenues less total property operating expenses, excluding depreciation and amortization, asset management fees, acquisition expenses and general administrative expenses. Other REITs may

use different methodologies for calculating NOI, and accordingly, our NOI may not be comparable to other REITs. We believe that this measure provides an operating perspective not immediately apparent from GAAP operating income or net income. We use NOI to evaluate our performance on a same store and non-same store basis because NOI measures the core operations of property performance by excluding corporate level expenses and other items not related to property operating performance and captures trends in rental housing and property operating expenses. However, NOI should only be used as an alternative measure of our financial performance.

We define same store properties or portfolio as conventional multifamily residential apartments which were owned and operational for the entire periods presented, including each comparative period.

	Three-Month Period Ended September 30 (1)			Nine-Month Period Ended September 30 (2)		
	2015	2014	% change	2015	2014	% change
Revenue	\$12,914	\$11,089	4.7 %	\$20,212	\$19,315	4.2 %

(1) Same store portfolio for the three months ended September 30, 2015 and 2014 includes 19 properties containing 5,342 units.

(2) Same store portfolio for the nine months ended September 30, 2015 and 2014 includes 10 properties containing 2,790 units.

Results of Operations

Three-Month Period Ended September 30, 2015 Compared to the Three-Month Period Ended September 30, 2014

Revenue

Rental income. Rental revenue increased \$10.9 million to \$22.8 million for the three-month period ended September 30, 2015 from \$11.9 million for the three-month period ended September 30, 2014. The increase is attributable to \$8.6 million of rental income from the acquisition of 28 properties since September 30, 2014, \$1.8 million from three properties acquired during the three-month period ended September 30, 2014 present for a full quarter of operations in 2015 and \$0.5 million from improved occupancy and rental rates in 2015 as compared to 2014 in our other properties.

Tenant reimbursement income. Tenant reimbursement income increased \$0.5 million to \$1.0 million for the three-month period ended September 30, 2015 from \$0.5 million for the three-month period ended September 30,

2014. The increase is primarily attributable to \$0.4 million of reimbursement income from 28 new properties acquired since September 30, 2014.

Other income. Other income increased \$1.0 million to \$1.7 million for the three-month period ended September 30, 2015 from \$0.7 million for the three-month period ended September 30, 2014. The increase is primarily attributable to \$0.8 million of other income from 28 new properties acquired since September 30, 2014 and \$0.1 million from three properties acquired during the three-month period ended September 30, 2014 present for a full quarter of operations in 2015.

Expenses

Property operating expenses. Property operating expenses increased \$5.8 million to \$11.9 million for the three-month period ended September 30, 2015 from \$6.1 million for the three-month period ended September 30, 2014. The increase is attributable to \$4.2 million of real estate operating expense from 28 new properties acquired since September 30, 2014, \$1.0 million from three properties acquired during the three-month period ended September 30, 2014 present for a full quarter of operations along with an increase of \$0.6 million of real estate operating expense in our same store portfolio.

General and administrative expenses. General and administrative expenses increased \$0.3 million to \$0.5 million for the three-month period ended September 30, 2015 from \$0.2 million for the three-month period ended September 30, 2014. This is primarily due to an increase of \$0.2 million in stock based compensation due to an increased number of awards being unvested for the three-month period ended September 30, 2015 as compared to the three-month period ended September 30, 2014.

Asset management fees. Asset management fees increased \$0.9 million to \$1.3 million for the three-month period ended September 30, 2015 from \$0.4 million for the three-month period ended September 30, 2014. The increase is due to 28 new properties acquired since September 30, 2014.

Acquisition expenses. Acquisition expenses increased \$12.1 million to \$12.8 million for the three-month period ended September 30, 2015 from \$0.7 million for the three month period ended September 30, 2014. These expenses were incurred in connection with the TSRE merger in which we acquired 19 properties during the three-month period ended September 30, 2015.

Depreciation and amortization expense. Depreciation and amortization expense increased \$1.4 million to \$4.7 million for the three-month period ended September 30, 2015 from \$3.3 million for the three-month period ended September 30, 2014. The increase is attributable to \$1.7 million of depreciation expense from 28 new properties acquired since September 30, 2014, \$0.4 million from three properties acquired during the three-month period ended September 30, 2014 present for a full quarter of operations along with a reduction of \$0.7 million of depreciation and amortization expense in our same store portfolio.

Interest expense. Interest expense increased \$2.8 million to \$5.1 million for the three-month period ended September 30, 2015 from \$2.3 million for the three-month period ended September 30, 2014. The increase is primarily attributable to \$1.7 million of interest expense on the 28 new properties acquired since September 30, 2014 and \$0.6 million of interest expense on debt obtained in connection with the TSRE merger that occurred during the three-month period ended September 30, 2015.

TSRE financing extinguishment and employee separation expenses. In connection with the TSRE merger that occurred during the three-month period ended September 30, 2015, \$27.5 million of financing extinguishment and employee separation expenses were incurred.

Gains (losses) on TSRE merger and property acquisitions. A \$64 million gain from a bargain purchase on the TSRE merger was recognized during the three-month period ended September 30, 2015.

Nine-Month Period Ended September 30, 2015 Compared to the Nine-Month Period Ended September 30, 2014

Revenue

Rental income. Rental revenue increased \$32.7 million to \$62.5 million for the nine-month period ended September 30, 2015 from \$29.8 million for the nine-month period ended September 30, 2014. The increase is attributable to \$20.6 million of rental income from the acquisition of 28 properties since September 30, 2014, \$11.1 million from 12 properties acquired during the nine-month period ended September 30, 2014 present for a full year of operations in 2015 and \$0.9 million from improved occupancy and rental rates in 2015 as compared to 2014 in our other properties.

Tenant reimbursement income. Reimbursement income increased \$1.7 million to \$3.0 million for the nine-month period ended September 30, 2015 from \$1.3 million for the nine-month period ended September 30, 2014. The increase is primarily attributable to \$1.1 million of reimbursement income from 28 new properties acquired since

September 30, 2014 and \$0.4 million from the 12 properties acquired during the nine-month period ended September 30, 2014 present for a full year of operations in 2015.

Other income. Other income increased \$2.7 million to \$4.4 million for the nine-month period ended September 30, 2015 from \$1.7 million for the nine-month period ended September 30, 2014. The increase is primarily attributable to \$1.8 million of other income from 28 new properties acquired since September 30, 2014 and \$0.7 million from the 12 properties acquired during the nine-month period ended September 30, 2014 present for a full year of operations in 2015.

Expenses

Property operating expenses. Property operating expenses increased \$16.9 million to \$32.6 million for the nine-month period ended September 30, 2015 from \$15.7 million for the nine-month period ended September 30, 2014. The increase is attributable to \$10.3 million of real estate operating expense from 28 new properties acquired since September 30, 2014, \$6.1 million from 12 properties acquired during the nine-month period ended September 30, 2014 present for a full year of operations along with an increase of \$0.4 million of real estate operating expense in our same store portfolio.

General and administrative expenses. General and administrative expenses increased \$0.7 million to \$1.5 million for the nine-month period ended September 30, 2015 from \$0.8 million for the nine-month period ended September 30, 2014. The increase is primarily due to an increase in professional fees, stock based compensation, and franchise tax expense for the nine-month period ended September 30, 2015.

Asset management fees. Asset management fees increased \$2.6 million to \$3.7 million for the nine-month period ended September 30, 2015 from \$1.1 million for the nine-month period ended September 30, 2014. The increase is attributable to 28 new properties acquired since September 30, 2014 and \$0.4 million from an increase in the incentive fee paid to our advisor.

Acquisition expenses. Acquisition expenses increased \$11.8 million to \$13.0 million for the nine-month period ended September 30, 2015 from \$1.2 million for the nine-month period ended September 30, 2014. These expenses were primarily incurred in connection with the TSRE merger in which we acquired 19 properties during the nine-month period ended September 30, 2015.

Depreciation and amortization expense. Depreciation and amortization expense increased \$7.8 million to \$16.5 million for the nine-month period ended September 30, 2015 from \$8.7 million for the nine-month period ended September 30, 2014. The increase is attributable to \$7.3 million of depreciation expense from 28 new properties acquired since September 30, 2014, \$1.2 million from 12 properties acquired during the nine-month period ended September 30, 2014 present for a full year of operations along with a reduction of \$0.7 million of depreciation and amortization expense in our same store portfolio.

Interest expense. Interest expense increased \$7.9 million to \$13.4 million for the nine-month period ended September 30, 2015 from \$5.5 million for the nine-month period ended September 30, 2014. The increase is primarily attributable to \$4.4 million of interest expense on the 28 new properties acquired since September 30, 2014, an additional \$2.5 million of interest expense on 12 properties acquired during the nine-month period ended September 30, 2014 and \$0.6 million of interest expense on debt obtained in connection with the TSRE merger that occurred during the nine-month period ended September 30, 2015.

TSRE financing extinguishment and employee separation expenses. In connection with the TSRE merger that occurred during the nine-month period ended September 30, 2015, \$27.5 million of financing extinguishment and employee separation expenses were incurred.

Gains (losses) on TSRE merger and property acquisitions. A \$64 million gain from a bargain purchase on the TSRE merger was recognized during the nine-month period ended September 30, 2015. A \$2.9 million gain from a bargain purchase on other property acquisitions was recognized during the nine-month period ended September 30, 2014.

Liquidity and Capital Resources

Liquidity is a measure of our ability to meet potential cash requirements, including ongoing commitments to repay borrowings, fund and maintain investments, pay distributions and other general business needs.

We believe our available cash balances, financing arrangements and cash flows from operations will be sufficient to fund our liquidity requirements with respect to our existing portfolio for the next 12 months. In general, we expect that our income and expenses related to our portfolio will increase in future periods as a result of anticipated future acquisitions of real estate. Should our liquidity needs exceed our available sources of liquidity, we believe that we could engage in offerings of our securities or borrowings, or sell assets to raise additional cash. We may not be able to obtain additional financing when we desire to do so or on terms and conditions acceptable to us. If we fail to obtain additional financing, our ability to maintain or grow our business will be constrained.

Our primary cash requirements are to:

- make investments and fund the associated costs;
- repay our indebtedness;
- pay our operating expenses, including fees paid to our advisor and our property manager; and
- distribute a minimum of 90% of our REIT taxable income (determined without regard to the deduction for dividends paid and excluding net capital gain) and to make investments in a manner that enables us to maintain our qualification as a REIT.

28

We intend to meet these liquidity requirements primarily through:

- the use of our cash and cash equivalent balance of \$16.9 million as of September 30, 2015;
- cash generated from operating activities;
- strategic sale of properties that have reached their economic potential; and
- if required, proceeds from future borrowings and offerings.

We will seek to enhance our growth through the use of prudent amounts of leverage. In general, we intend to limit our aggregate leverage to 65% of the combined initial purchase price of all of our real estate properties. However, we are not subject to any limitations on the amount of leverage we may use, and, accordingly, the amount of leverage we use may be significantly less or greater than we currently anticipate. By operating on a leveraged basis, we expect to have more funds available for property acquisitions and other purposes, which we believe will allow us to acquire more properties than would otherwise be possible, resulting in a larger and more diversified portfolio. We may employ greater leverage in order to more quickly build a diversified portfolio of assets.

Cash Flows

As of September 30, 2015 and 2014, we maintained cash and cash equivalents of approximately \$16.9 million and \$34.8 million, respectively. Our cash and cash equivalents were generated from the following activities (dollars in thousands):

	For the Nine-Month Periods	
	Ended September 30	
	2015	2014
Cash flow from operating activities	\$4,967	\$10,497
Cash flow from investing activities	(169,605)	(184,107)
Cash flow from financing activities	166,814	205,062
Net change in cash and cash equivalents	2,176	31,452
Cash and cash equivalents at beginning of period	14,763	3,334
Cash and cash equivalents at end of period	\$16,939	\$34,786

Our cash inflow from operating activities during the nine-month period ended September 30, 2015 is primarily due to the ongoing operations of our properties, however this inflow was impacted by \$12.5 million of acquisition expenses and \$4.3 million of employee separation expenses incurred during the nine-month period ended September 30, 2015 in connection with the TSRE merger

Our cash outflow from investing activities during the nine-month period ended September 30, 2015 is primarily due to the TSRE merger and our acquisition of one other property during the nine-month period ended September 30, 2015.

Our cash inflow from our financing activities during the nine-month period ended September 30, 2015 is primarily due to financing obtained in connection with the TSRE merger.

Off-Balance Sheet Arrangements

None.

Critical Accounting Estimates and Policies

Our Annual Report on Form 10-K for the year ended December 31, 2014 contains a discussion of our critical accounting policies. On January 1, 2015 we adopted a new accounting pronouncement and revised our accounting policies as described in Note 2(g) to the Consolidated Financial Statements included in Part I, Item 1 of this report. Management discusses our critical accounting policies and management's judgments and estimates with the audit committee of our board of trustees.

Item 3. Qualitative and Quantitative Disclosure About Market Risk.

Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. We may be exposed to interest rate changes primarily as a result of long-term debt used to maintain liquidity, fund capital expenditures and expand our real estate investment portfolio and operations. Market fluctuations in real estate financing may affect the availability and cost of funds needed to expand our investment portfolio. In addition, restrictions upon the availability of real estate financing or high

interest rates for real estate loans could adversely affect our ability to dispose of real estate in the future. We seek to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. We may use derivative financial instruments to hedge exposures to changes in interest rates on loans secured by our assets. The market risk associated with interest-rate contracts is managed by establishing and monitoring parameters that limit the types and degree of market risk that may be undertaken. With regard to variable rate financing, our advisor assesses our interest rate cash flow risk by continually identifying and monitoring changes in interest rate exposures that may adversely impact expected future cash flows and by evaluating hedging opportunities. Our advisor maintains risk management control systems to monitor interest rate cash flow risk attributable to both our outstanding and forecasted debt obligations as well as our potential offsetting hedge positions. While this hedging strategy is designed to minimize the impact on our net income and funds from operations of changes in interest rates, the overall returns on any investment in our securities may be reduced. We currently have limited exposure to financial market risks.

We may also be exposed to credit risk in derivative contracts we may use. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. If the fair value of a derivative contract is positive, the counterparty will owe us, which creates credit risk for us. If the fair value of a derivative contract is negative, we will owe the counterparty and, therefore, do not have credit risk. We seek to minimize the credit risk in derivative instruments by entering into transactions with high-quality counterparties.

Interest Rate Risk and Sensitivity

Interest rates may be affected by economic, geo-political, monetary and fiscal policy, market supply and demand and other factors generally outside our control, and such factors may be highly volatile. A change in market interest rates applicable to the fixed-rate portion of our indebtedness affects the fair value, but it has no effect on interest incurred or cash flows. A change in market interest rates applicable to the variable portion of our indebtedness affects the interest incurred and cash flows, but does not affect the fair value.

As of September 30, 2015, our only interest rate sensitive assets or liabilities related to our \$993.3 million of outstanding indebtedness, of which \$429.6 million is floating-rate and \$563.7 million is fixed-rate indebtedness and an individual interest rate cap with a notional of \$200.0 million that was entered into on September 30, 2015. We monitor interest rate risk routinely and seek to minimize the possibility that a change in interest rates would impact the interest incurred and our cash flows. To mitigate such risk, we may use interest rate derivative contracts.

As of September 30, 2015, the fair value of our fixed-rate indebtedness was \$561.9 million. The fair value of our fixed rate indebtedness was estimated using a discounted cash flow analysis utilizing rates that we believe a market participant would expect to pay for debt of a similar type and remaining maturity as if the debt were originated at September 30, 2015. As we expect to hold our fixed rate instruments to maturity and the amounts due under such instruments would be limited to the outstanding principal balance and any accrued and unpaid interest, we do not expect that fluctuations in interest rates, and the resulting change in fair value of our fixed rate instruments, would have a significant impact on our operations.

As of September 30, 2015 the fair value of our interest rate cap was \$0.04 million. The fair value of our interest rate cap was estimated using a discounted cash flow analysis based on forward interest rate curves and implied volatilities applicable to the individual caplets. This interest rate cap has been excluded from the table below as its impact to our interest rate risk under the scenarios presented in the table yield are insignificant.

The following table summarizes our indebtedness, and the impact to interest expense and the change in the net fair value of our indebtedness assuming an instantaneous increase or decrease of 100 basis points in the LIBOR interest rate curve:

Liabilities	Subject to	Impact to Interest Expense		Impact to Fair Value	
		100 Basis Point	100 Basis Point	100 Basis Point	100 Basis Point
Rate Sensitivity		Increase	Decrease ⁽¹⁾	Increase	Decrease ⁽¹⁾
Variable-rate indebtedness	\$ 429,575	\$ (4,296)	\$ 829	\$ (1,799)	\$ 1,901
Fixed-rate indebtedness	561,945	-	-	(32,459)	34,971
Total	\$ 991,520	\$ (4,296)	\$ 829	\$ (34,258)	\$ 36,872

(1) Assumes the LIBOR interest rate will not decrease below 0%. The quoted 30-day LIBOR rate was 0.19% at September 30, 2015.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and our chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Under the supervision of our chief executive officer and chief financial officer and with the participation of our disclosure committee, we have carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based upon a previously identified material weakness in our internal control over financial reporting as of December 31, 2014, related to the lack of sufficient qualified resources to ensure appropriate design and operating effectiveness of our reconciliation and management review controls and controls over accounting estimates, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were not effective at September 30, 2015.

Management is in the process of remediating the material weakness described above. Management has enhanced its reconciliation controls, management review controls, and controls over complex transactions and accounting estimates by (i) supplementing its resources, (ii) upgrading its outsourced internal audit function, (iii) designing and documenting additional management review controls, and (iv) providing additional training to effectively perform reconciliation controls, management review controls and controls related to complex transactions and accounting estimates. Management is in the process of evaluating the operating effectiveness of these controls.

Management believes that these measures will remediate the previously identified material weakness. We have tested and will continue to test the operating effectiveness of the new controls, and will consider the material weakness remediated after the applicable remedial controls operate effectively for an additional period of time.

Changes in Internal Control Over Financial Reporting

Except as otherwise stated above, there were no changes in our internal control over financial reporting or in other factors during the quarter ended September 30, 2015, that have materially affected, or were reasonably likely to materially affect, our internal control over financial reporting

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

On June 11, 2015, three purported stockholders filed a complaint in the Circuit Court of Maryland for Baltimore City on behalf of a putative class of Trade Street Residential, Inc., or TSRE, stockholders and naming as defendants TSRE's Board of Directors, or the individual defendants, and TSRE. The case is captioned Tony Blank Family Trust et al. v.

Trade Street Residential, Inc. et al., Case No. 24-C-15-003081 (the “Blank Action”). TSRE is listed as a defendant in the caption of plaintiffs’ complaint, but no claim is asserted against TSRE. On July 15, 2015, the plaintiffs amended their complaint and added Monarch Alternative Capital, LP, Senator Investment Group, LP, and BHR Capital LLC, or the shareholder defendants, as defendants.

The amended complaint generally alleges that, in connection with the acquisition of TSRE by IRT, the individual defendants breached their fiduciary duties by approving an acquisition that was financially unfair to TSRE’s stockholders and by conducting a sale process in which the individual defendants had conflicts of interest. The amended complaint also alleges that the shareholder defendants aided and abetted the individual defendants’ alleged breaches of their fiduciary duties and were unjustly enriched by the TSRE merger. The amended complaint seeks, among other things, compensatory damages, pre- and post-judgment interest, an order requiring that the individual defendants affiliated with the shareholder defendants disgorge all profits, compensation and other benefits obtained by them as a result of their conduct in connection with the TSRE merger, and an award of the plaintiffs’ costs and disbursements of this action, including attorney’s fees. On September 25, 2015 the defendants moved to dismiss the amended complaint. On November 6, 2015, plaintiffs in the Blank Action amended their complaint for a second time in response to certain arguments raised by defendants in their motions to dismiss. The second amended complaint adds a claim against the shareholder

defendants for breach of fiduciary duty as controlling stockholders of TSRE. The court has not yet entered a schedule for defendants' responses to the second amended complaint.

IRT, as successor by the TSRE merger to TSRE, and the individual defendants intend to vigorously defend against the claim. No assurance can be given that the matter will be resolved favorably to us. We have included in our loss contingency an estimate of probable loss relating to our legal defense costs in connection with this matter, but currently cannot reasonably estimate any further possible loss, or any range of reasonably possible loss, in connection with this matter.

In addition, we are subject to various other legal proceedings and claims that arise in the ordinary course of our business operations. Matters which arise out of allegations of bodily injury, property damage, and employment practices are generally covered by insurance. While the resolution of these other matters cannot be predicted with certainty, we currently believe the final outcome of such matters will not have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A. Risk Factors.

There have not been any material changes from the risk factors previously disclosed in Item 1A—"Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, except for risk factors included in Exhibit 99.1 to this report.

Item 2. Unregistered Sales of Equity Securities and use of proceeds.

We have previously disclosed four "UPREIT" transactions completed in May 2014, August 2014, November 2014 and December 2014 wherein IROP, issued, in the aggregate, 1,282,450 common units, or units, to unaffiliated entities or persons in order to acquire properties. As previously disclosed, these units are subject to exchange agreements containing the terms and conditions under which the units could be exchanged for cash in an amount equal to the value of an equivalent number of shares of our common stock as of the date the IROP receives contributor's notice of its desire to exchange or, at IROP's option, for the equivalent number of shares of our common stock. The first exchanges of these units occurred May 1, 2015. As of May 1, 2015, IROP exchanged 26,467 units for the equivalent number of shares of our common stock. As of August 1, 2015, an additional 26,466 units were exchanged. After giving effect to these exchanges, 1,229,517 of the units issued in UPREIT transactions remain outstanding. The issuance of the shares of our common stock in these exchanges was exempt from registration pursuant to Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D; all of the persons receiving such shares were accredited investors.

We have previously disclosed in Item 3.02 of a current report on Form 8-K filed with the Securities and Exchange Commission on September 18, 2015 a transaction whereby, on September 17, 2015, IROP issued 1,925,419 units, plus cash in lieu of fractional TSR OP units, in a transaction related to the TSRE merger. Such issuance was exempt from registration pursuant to Section 4(a)(2) of the Securities Act and the disclosure under such Item is incorporated by reference herein.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.

The exhibits listed on the Exhibit Index (following the signatures section of this Quarterly Report on Form 10-Q) are included herewith.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
