The Company has an audit committee that is responsible for, among other things, providing assistance to the board of directors in fulfilling its oversight responsibilities regarding the integrity of our financial statements, our compliance with applicable legal and regulatory requirements, the integrity of our financial reporting processes, including our systems of internal accounting and financial controls, the performance of our internal audit function and our independent registered public accounting firm, and our financial policy matters. The audit committee approves the services performed by our independent registered public accounting firm and reviews their reports regarding our accounting practices and systems of internal control over financial reporting, as applicable. The audit committee also oversees the audit efforts and confirms the independence of our independent registered public accounting firm. Item 11. Executive Compensation

DIRECTOR COMPENSATION

Each non-employee director is compensated for service on our board through a combination of annual cash retainers and equity awards. In order to align the interests of non-employee directors and stockholders, equity awards constitute a majority of total director compensation.

Directors are reimbursed for travel, food, lodging and other expenses directly related to their activities as directors, such as attendance at board or committee meetings. Directors are also entitled to the protection provided by their indemnification agreements and the indemnification provisions in our certificate of incorporation and bylaws, and they receive coverage under a director and officer insurance policy that we maintain.

Annual Cash Fees

Our non-employee directors receive annual retainer fees as described in the table below for board and committee service. The fees are paid in four equal quarterly advance installments and prorated for any partial year of board service.

Position	Retainer (\$)
Board Member	30,000
Audit Committee Chair	20,000
Compensation Committee Chair	12,500
Nominating & Governance Committee Chair	7,500
Audit Committee Member	10,000
Compensation Committee Member	5,000
Nominating & Governance Committee Member	3,500
Lead Director	15,000

Equity Awards

Equity compensation for non-employee directors consists of (i) an initial equity award with a calculated value of \$450,000 for each newly-elected or appointed non-employee director, and (ii) annual awards with a calculated value of \$175,000. An initial equity award is granted on the first issuance date under the Company's equity award grant guidelines for employee equity awards next following the date of election or appointment to the board or attainment of non-employee director status. Annual equity awards are issued on the first issuance date under the Company's equity award grant guidelines for employee equity awards next following the date of each annual meeting (or, in the case of an annual equity award issued 30 calendar days after the first anniversary of the prior year's annual meeting because no intervening annual meeting has been held, on the first issuance date under the guidelines that is at least 30 calendar days after the first anniversary of the prior year's annual meeting). The first annual award for non-employee directors

who join the board at any time other than the date of an annual meeting is subject to proration for the partial year of service ending on the next annual meeting.

Each equity award consists of stock options for a number of shares determined by dividing half of the calculated value of the award by the fair value of a single option on the grant date as determined for financial accounting purposes, and restricted stock units covering a number of shares determined by dividing half of the calculated value of the award by the closing price of

a share of our common stock on the grant date. Stock options are granted with a per share exercise price equal to the closing price of a share of our common stock on the grant date. Notwithstanding the foregoing, if the closing price of our common stock is less than \$12.00 on the grant date, then for stock options, \$12.00 will be used as the fair value of one share of common stock in the Black Scholes calculation used to determine the number of stock options to be granted, and for restricted stock units, \$12.00 will be used as the closing price of a share of our common stock in calculating the number of restricted stock units to be covered by the award. The Board is considering eliminating the \$12.00 floor used to calculate the number of awards to be issued beginning in 2019.

Initial equity awards vest, subject to continued board service, in three equal annual increments, on the first, second, and third anniversaries of the date of commencement of board service or attainment of non-employee director status or, if earlier, upon (but effective immediately prior to) the occurrence of a change in control of the company. Annual equity awards vest, subject to continued board service, on the first anniversary of the date of grant (or, in the case of an annual equity award issued on the first issuance date under the Company's equity award grant guidelines for employee equity awards that is at least 30 calendar days after the first anniversary of the prior year's annual meeting because no intervening annual meeting has been held, on the first anniversary of the prior year's annual meeting) or, if earlier, upon the occurrence of either (1) a change in control of the company (effective immediately prior thereto) or (2) the first regular annual meeting occurring in the year immediately following the year in which such annual equity awards were granted. In addition, if a non-employee director ceases board service for any reason other than removal for cause before vesting in full of equity awards, then the stock options and restricted stock units comprising that director's awards vest with respect to a pro-rata portion of the underlying shares (up to but not exceeding the number of unvested shares remaining subject to such awards) determined based upon the period of board service. Vesting of equity awards will cease, and unvested equity awards will lapse, upon a recipient's removal for cause from board service.

Director Equity Retention Guidelines

Under equity retention guidelines implemented by the board in April 2016, each director is required to accumulate within five years from the later of the date the guidelines were implemented and the date of commencement of service for a new director, and thereafter to retain for the duration of board service, an amount of equity equal to five times the director's base board cash compensation. Equity that counts toward the ownership requirement includes: (1) shares owned outright by the director or beneficially owned by the director by virtue of being held by a member of the director's immediate family members residing in the same household or in a trust for the benefit of the director or his or her immediate family residing in the same household; (2) shares held in qualified plans or IRAs; (3) vested shares (or vested restricted stock units) deemed to be held in non-qualified plans; (4) the in-the-money portion of vested stock options; and (5) unvested time-based restricted shares (or restricted stock units). Until the minimum level of company equity is achieved, a director is prohibited from selling or otherwise transferring beneficial ownership of more than one-half of: (a) the vested after-tax shares of our common stock obtained as a result of the vesting of any restricted stock or restricted stock unit award made after implementation of the equity retention guidelines; or (b) the shares of our common stock subject to the vested portion of any stock option award made after implementation of the equity retention guidelines, net of any shares surrendered or sold to cover exercise price and/or income tax resulting from the exercise.

The grant date of each stock option is ten years before the expiration date shown in the table, and all of the stock (1) options vest (or vested) as a result of service to the company with respect to 25% of the underlying shares on or shortly following

the first anniversary of the grant date and with respect to the remaining 75% of the underlying shares in equal monthly installments over the following 36 months.

In accordance with the rules of the SEC, the values represent the product of the number of shares that have not vested and \$1.87, which was the closing market price of our common stock on December 29, 2017. The reported (2) amount does not necessarily reflect the value that may be realized by the individual because the awards vest over a specified period of time from the date of grant contingent upon continued employment, and the actual amount received upon sale of shares will depend upon the fair market value of the shares at the times they are sold.

These shares vest with respect to 78,608 of such shares on May 15, 2018; with respect to 137,392 of such shares on (3) each November 15 and May 15 thereafter until November 15, 2020; and with respect to 114,495 of such shares on May 15, 2021.

(4) These shares vest with respect to approximately 9,653 on each May 15 and November 15 through November 15, 2019, and with respect to 4,827 of such shares on May 15, 2020.

(5) These shares vest with respect to 10,373 of such shares on each May 15 and November 15 through November 15, 2018, and with respect to 5,187 of such shares on May 15, 2019.

(6) These shares vest on May 15, 2018.

These awards are Market Stock Awards, or MSAs. The number of shares issued represents target levels, and the actual number of shares that may ultimately vest will be the product of the target number of shares and a performance factor determined as the quotient obtained by dividing the stock price on the measurement date by the stock price on the grant date. The measurement date for the MSAs is the first to occur of (i) February 1, 2019, (ii) the effective date of a change in control of the company, or (iii) the date of termination of continuous service as a result of the executive's involuntary termination, death, or disability. If the performance factor is less than 50%, there is no vesting. If the performance factor is 150% or more, 50% of the number of target shares will vest. If the (7) performance factor is at least 50% but less than 150%, the number of shares vesting will equal the product of the target shares and the performance factor. For this purpose, stock price appreciation is obtained by dividing the 20-day trailing average closing price of our common stock as of the measurement date by the 20-day trailing average closing price of our common stock as of the grant date, and is adjusted for stock splits and the like. In the event that the measurement date is the date of the executive's involuntary termination, death or disability, and that date occurs prior to February 1, 2019, the number of target shares shall be pro-rated to reflect the period of service from the grant date prior to applying the performance factor.

(8) These awards were MSAs that lapsed with no vesting as of April 15, 2018 due to failure to meet the applicable performance conditions.

These shares can become vested on a quarterly basis each February 15, May 15, August 15, and November 15 over a seven-year performance period ending on May 15, 2021, or at the time of a change in control of the company, as a result of achievement of superior performance of the company's common stock compared to the NASDAQ (9) Internet Total Return index. If the shares become vested on a May 15 or November 15, or at the time of a change in control of the company, such awards are immediately fully earned. If the shares become vested on a February 15 or August 15, such awards are fully earned on the ensuing May 15 or November 15 based on further continued service until that date.

These shares vest with respect to 11,727 of such shares on May 15, 2018; with respect to 4,691 of such shares on (10) each November 15 and May 15 thereafter through November 15, 2020; and with respect to 2,346 of such shares on May 15, 2021.

(11) These shares vest with respect to 3,750 of such shares on each May 15 and November 15 through November 15, 2019 and with respect to 1,875 of such shares on May 15, 2020.

(12) These shares vest with respect to 3,137 of such shares on May 15, 2018; with respect to 3,138 of such shares on November 15, 2018; and with respect to 1,569 of such shares on May 15, 2019.

(13) These shares vest on May 15, 2018.

- (14) These shares vested on March 1, 2018.

(15) These shares vest with respect to 24,306 of such shares on May 15, 2018; with respect to 9,722 of such shares on each November 15 and May 15 thereafter through November 15, 2020; and with respect to 4,862 of such shares on May 15, 2021.

- (16) These shares vest with respect to 15,625 of such shares on each May 15 and November 15 through November 15, 2020.

Rubicon Project's Compensation Framework

The compensation committee considers, determines, reviews, and revises all components of each named executive officer's compensation. It may not delegate that responsibility. The compensation committee also has oversight of and consults with management regarding executive and non-executive employee compensation plans and programs, including administration of our equity incentive plans. The compensation committee also periodically reviews the compensation of directors for service on the board and its committees and recommends any changes in compensation to the board. The board makes the final decisions with respect to the compensation of directors.

The compensation committee retains an independent executive compensation consultant, Semler Brossy Consulting Group, to provide input, analysis, and consultation about the company's executive compensation. During 2017, Semler Brossy's work with the compensation committee included analysis, advice, and recommendations on total compensation philosophy; peer groups and market assessment and analysis; pay positioning (by pay component and in total); compensation program design, including program goals, components, and metrics; equity usage and allocation; compensation trends in comparable business sectors and in the general marketplace for senior executives; regulatory factors; risk assessment under the company's compensation programs; and the compensation of the Chief Executive Officer and the other named executive officers, including advice on the design of cash-based and equity-based compensation. The compensation committee has concluded that no conflict of interest exists with respect to its engagement of Semler Brossy nor are there other factors that would adversely impact Semler Brossy's independence in advising the compensation committee under applicable SEC and New York Stock Exchange rules. The compensation committee reached this conclusion after considering the following six factors, as well as Semler Brossy's views regarding its independence and other information the compensation committee deemed relevant: (i) the provision of other services to us by Semler Brossy; (ii) the amount of fees received from us by Semler Brossy, as a percentage of the total revenue of Semler Brossy; (iii) the policies and procedures of Semler Brossy that are designed to prevent conflicts of interest; (iv) any business or personal relationship of the Semler Brossy consultants with a member of the compensation committee; (v) any of our stock owned by the Semler Brossy consultants; and (vi) any business or personal relationship of the Semler Brossy consultants or Semler Brossy with any of our executive officers.

Executive officers do not propose or seek approval for, or have any decision-making authority with respect to, their own compensation. The Chief Executive Officer makes recommendations to the compensation committee on the base salary, annual incentive cash targets, and equity awards for each named executive officer other than himself, based on his assessment of each executive officer's performance during the year and other factors, including the Chief Executive Officer's review of compensation survey data and input from Semler Brossy.

Performance reviews for the Chief Executive Officer and other named executive officers consider various factors that may vary depending on the role of the individual officer, including: strategic capability-how well the executive officer identifies and develops relevant business strategies and plans; execution-how well the executive officer executes strategies and plans; and leadership capability-how well the executive officer leads and develops the organization and its people. An annual performance review of the Chief Executive Officer is managed by the compensation committee based upon various factors including Chief Executive Officer, management team, and company performance, discussion with the independent directors, and input from senior management. The compensation committee considers this review in determining the Chief Executive Officer's base salary, annual incentive cash target, and equity awards. We have engaged in discussions regarding our compensation philosophy with several of our large stockholders, and we intend to engage in further compensation-related discussions from time to time at such stockholders' request.

Risk Assessment in Compensation Programs

Management assessed the company's executive and broad-based compensation and benefits programs on an overall basis to determine whether the programs' provisions and operations create undesired or unintentional material risk. This risk assessment process takes into account numerous compensation terms and practices that the company maintains that aid in controlling risk, including the mix of cash, equity, and near- and long-term incentive programs, the use of multi-year vesting periods for equity awards, and a variety of performance criteria for incentive compensation, the claw-back provisions that apply to our annual incentive cash plan and equity plan, and the cap on the maximum cash incentive awards that can be earned in a given year regardless of company performance. This risk assessment process also included a review of program policies and practices, program analysis to identify risk and risk controls, and determinations as to the sufficiency of risk identification and risk control, the balance of potential risk to potential reward, and the significance of the programs and their risks to company strategy. Although we reviewed all significant compensation programs, we focused on those programs with variable payout, in particular assessing the ability of participants to directly affect payouts, and the controls on such situations. In addition, the compensation

committee oversees management's annual assessment of the risks associated with the company's compensation programs.

Based on the foregoing, we believe that our compensation policies and practices do not create inappropriate or unintended significant risk to the company as a whole. We also believe that our incentive compensation programs do not encourage risk-taking beyond the organization's ability to effectively identify and manage significant risks; are compatible with effective internal controls and the company's risk-management practices; and are supported by the compensation committee's oversight of our executive compensation programs.

Employment Arrangements

The named executive officers serve on an at-will basis. The company has employment agreements with the named executive officers that confirm the at-will nature of their employment and provide for a base salary, eligibility to receive an annual performance bonus, and eligibility to participate in employee benefit or group insurance plans maintained from time to time by the company. The company is also party to agreements with the named executive officers providing for the severance benefits described below under “Post-Employment Compensation and Change in Control Payments and Benefits.”

Peer Benchmarking Assessment

Fiscal Year 2017 Peer Group Approach. In the fall of 2016 (leading up to 2017 pay decisions) in response to our organizational changes and evolving outlook for the business in 2017, the compensation committee approved a new approach centered around one peer group of public companies using GAAP revenue as the key scoping measure. The comparator group used for 2017 pay decisions included 18 public companies within the ad-tech industry and Internet software and services industry between \$125 million and \$800 million in revenues and market value between \$100 million and \$3.2 billion (generally market value to revenue ratios between 0.5x and 6.0x).

Fiscal Year 2018 Peer Group Approach. In October 2017, the compensation committee, with assistance from Semler Brossy, reviewed the list of peer group companies selected in 2016, and re-calibrated the companies to reflect updated revenue forecasts for the company. As a result of this re-evaluation, seven companies used in the 2017 peer group were removed for the 2018 peer group. Those seven companies had either been acquired or had outsized revenue or market capitalization as compared to our company. Nine new companies were added; these companies were selected based on several criteria, including being similar sized as our company, being based in California or New York, and having a reasonably comparable business ours. The resulting peer group had a median trailing twelve month revenue of \$196 million.

Base Salaries

Base salaries for our named executive officers are designed to be competitive when compared with prevailing market rates and are based on a variety of factors, including level of responsibility, performance, and the recommendations of the Chief Executive Officer for named executive officers other than the Chief Executive Officer. Base salaries are reviewed annually or at the time of promotion or other changes in responsibilities. In determining whether to award base salary increases, the compensation committee considers the company’s overall business outlook, the company’s budget, the executive’s individual performance, historical compensation, market compensation levels for comparable positions, internal pay equity, and other factors, including any retention concerns.

Based on the data from the peer groups described above and other factors, the compensation committee set the annual base salaries for 2017 for Messrs. Barrett, Kershaw, Day, and Addante at \$515,000, \$425,000, \$400,000 (after giving effect to Mr. Day’s promotion to CFO) and \$515,000, respectively. Mr. Barrett joined the company in March 2017, with an annual base salary of \$515,000, based upon market survey data and negotiations with Mr. Barrett. The compensation committee did not set base salaries for our named executive officers at any specific level against the peer group.

Incentive Compensation

Annual Incentive. During 2017, our named executive officers were eligible to receive cash incentive payments determined based upon the achievement of pre-established performance goals that the compensation committee believed were challenging yet achievable. The annual incentive compensation is an “at risk” performance-based cash award that is designed to motivate our named executive officers to achieve pre-established corporate financial objectives. For 2017, the target award opportunities were \$410,000 for Mr. Barrett, approximately \$275,000 for Mr. Kershaw, and approximately \$250,000 for Mr. Day. Mr. Addante was ineligible for cash incentive compensation for periods following his resignation as Chief Executive Officer in March 2017. For 2017, the performance measures and their weightings were 25% strategic and 75% financial, with the financial goals being 45% revenue and 30% adjusted EBITDA, and cash incentive awards of up to 200% of target were attainable with specified levels of outperformance.

Performance was measured mid-year and at fiscal year-end, with up to 40% of target payable as a mid-year advance based upon performance for each of our first two fiscal quarters and a final calculation and true-up based upon full-year performance. Actual cash incentive awards for the 2017 fiscal year were \$315,037, \$211,763, \$190,747 and \$105,822 for each of Messrs. Barrett, Kershaw, Day, and Addante, respectively. As a result of the company's performance in 2017, actual payout for each of the named executive officers other than Mr. Addante was 77% of the target amount. Mr. Addante's payout was at target for the portion of the year preceding his resignation as CEO.

Equity Incentive. We grant equity-based compensation to our named executive officers in order to attract, retain and reward our executives and strengthen the mutuality of interests between our named executive officers and stockholders. The compensation committee annually determines the form and amount of equity-based incentives granted to executives. In making its determinations, the compensation committee considers factors such as peer group market data, recommendations from Semler Brossy, the executive's and the company's performance in the last year and the results achieved by the executive, the executive's base salary, target annual incentive opportunity and prior grants of equity awards, and the compensation committee's view regarding the future potential of long-term contributions of the executive. Recommendations of the Chief Executive Officer are also taken into consideration for our named executive officers other than the Chief Executive Officer. We maintain a 2014 Equity Incentive Plan pursuant to which we may make grants of stock options, stock appreciation rights, restricted stock and/or restricted stock units, performance cash or other stock awards to eligible participants, including our named executive officers, in the determination of our compensation committee based upon an assessment of their performance.

In March 2017, each of our named executive officers other than Mr. Addante and Mr. Barrett received grants of stock options and time-based restricted stock units. The aggregate target value determined as described above for each such named executive officer was allocated 30% to stock options and 70% to restricted stock units. If our stock price were not to increase, the stock options will not deliver any economic value. The stock options and restricted stock units vest over four years. As an incentive to join the company, Mr. Barrett was awarded 1,099,138 restricted stock units and 686,160 stock options with an exercise price of \$5.80, each vesting over four years based upon continued service. Because of his importance to the continued success of the company and our turn-around efforts, Mr. Kershaw received an additional grant of 24,010 restricted stock units that vest over two years. Mr. Addante did not receive any equity incentive awards in 2017.

All stock options were granted with a per share exercise price equal to the closing price of a share of our common stock on the grant date.

See the table titled "Outstanding Equity Awards as of December 31, 2017" for more information with respect to these grants.

Special Retention Awards

In the first quarter of 2017, we restructured our management team, including hiring a new Chief Executive Officer and eliminating seven executive management roles. In an effort to retain and motivate certain remaining executive officers to undertake a turnaround of the Company, the Compensation Committee authorized retention bonuses payable half on September 1, 2017 and half on March 1, 2018, subject to continued employment. Pursuant to these awards, Messrs. Kershaw and Day received cash retention awards of \$150,000 and \$100,000, respectively, on September 1, 2017, and Mr. Kershaw received 24,010 restricted stock units that vested with respect to one-half of the shares on September 1, 2017.

Recoupment Policy

Our board of directors or the compensation committee shall, in circumstances it deems appropriate, require return to the company of the excess portion of any payment made to an employee pursuant to an award issued after April 7, 2016 under our 2014 Equity Incentive Plan or 2014 Inducement Grant Equity Incentive Plan, or under our non-equity incentive plan, if: (1) the payment was predicated upon achieving certain financial results that became the subject of a substantial restatement of our financial statements filed with the SEC within the three full fiscal years after the payment; (2) our board or the compensation committee determines that the participant engaged in intentional misconduct that caused or substantially caused the need for the substantial restatement; and (3) a lower payment would have been made to the participant based upon the restated financial results. In each such instance, the "excess portion" of the payment is the amount (in terms of dollars or shares) by which the payment received exceeded the lower payment that would have been made based on the restated financial results. In each case, the return of payment will be net of any taxes paid by the employee in connection with original receipt or subsequent transfer of the payment. Our board or the compensation committee also has the discretion, in circumstances it deems appropriate, to

require reimbursement of any or all payments received with respect to any award granted on or after April 7, 2016 to an employee who has engaged in fraud, bribery, or illegal acts similar to fraud or bribery related to employment, or knowingly failed to report such acts of another employee over whom the employee had direct supervisory responsibility. Our board or the compensation committee shall not seek recovery to the extent it determines (a) that to do so would be unreasonable or (b) that it would be better for the company not to do so. In making such determination, and without limiting the scope of its discretion, our board or the compensation committee shall take into account such considerations as it deems appropriate, including, without limitation, the likelihood of success under governing law versus the cost and effort involved, whether the assertion of a claim may prejudice our interests, including in any related proceeding or investigation, the passage of time since the occurrence

of the act in respect of the applicable fraud or intentional illegal conduct, and any pending legal proceeding relating to the applicable fraud or illegal conduct. Our board or the compensation committee also may in its discretion direct the company to disclose the circumstances surrounding any recoupment made under this policy where not otherwise required by applicable regulation.

Executive Officer Equity Retention Guidelines

Under equity retention guidelines implemented by the board in April 2016, the Chief Executive Officer and each of the other named executive officers are required to accumulate within five years from the later of the date the guidelines were implemented and the date he or she became a named executive officer, and thereafter to retain for the duration of employment, a minimum level of company equity. The minimum level of equity for the Chief Executive Officer is equal to five times base salary and the minimum level of equity for the other named executive officers is equal to one times base salary. Equity that counts toward the ownership requirement includes: (1) shares owned outright by the named executive officer or beneficially owned by the named executive officer by virtue of being held by a member of the named executive officer's immediate family residing in the same household or in a trust for the benefit of the named executive officer or immediate family members residing in the same household; (2) shares held in qualified plans or IRAs; (3) vested shares (or vested restricted stock units) deemed to be held in non-qualified plans; (4) the in-the-money portion of vested stock options; and (5) unvested time-based restricted shares (or restricted stock units). Until the minimum level of company equity is achieved, a named executive officer is prohibited from selling or otherwise transferring beneficial ownership of more than one-half of: (a) the vested after-tax shares of our common stock obtained as a result of the vesting of any restricted stock or restricted stock unit award made after implementation of the equity retention guidelines; or (b) the shares of our common stock subject to the vested portion of any stock option award made after implementation of the equity retention guidelines, net of any shares surrendered or sold to cover exercise price and/or income tax resulting from the exercise.

Post-Employment Compensation and Change in Control Payments and Benefits

We are a party to agreements with Messrs. Barrett, Kershaw, Day, and Addante providing that the executives are "at-will" employees. These agreements provide that if the company terminates the employment of any of these executives without "cause" or if any of these executives resigns for "good reason" (as such terms are defined in the severance agreements) and prior to and not in connection with the consummation of a "sale transaction" (as such term is defined in the severance agreements), each such executive will be entitled to receive continuation of his then-current base salary for a specified period (12 months for Messrs. Barrett, Addante, and Day and six months for Mr. Kershaw), a pro-rata bonus for the year of termination based upon the portion of the year worked and net of bonus amounts previously paid for the year, reimbursement of group health plan premiums for each of such executive and his respective dependents for a specified period (12 months for Mr. Barrett, six months for Messrs. Addante and Day and three months for Mr. Kershaw), and supplemental vesting based on the principle that the executive shall receive credit for an additional period of service (12 months for Messrs. Barrett, Addante, and Day and six months for Mr. Kershaw). With respect to the 2014 grant of performance-based restricted stock to Mr. Addante, the award will remain outstanding for an additional six months to determine whether any applicable performance goal is achieved during that period. With respect to the 2016 grant of Market Stock Awards to Mr. Addante, upon a termination of continuous service without cause or a resignation for good reason that occurs prior to and not in connection with a sale transaction, or upon the executive's death or disability, the measurement of stock price appreciation will occur as of such termination date and a pro-rata number of shares will be eligible to vest based on the number of days employed during the performance period. If the executive voluntarily terminates employment without "good reason", a pro-rata number of shares based on the number of days employed during the performance period that will be eligible to vest based on actual performance measured at the end of the full performance period. In connection with Mr. Addante's role change after the appointment of Mr. Barrett as President and Chief Executive Officer, Mr. Addante received \$515,000 in August 2017 as liquidation of the cash severance obligation contained in his severance agreement.

If the company terminates the employment of any of these executives without cause or any of them resigns for good reason in connection with or following a change in control of the company (within thirteen months of the change in control for Mr. Barrett), the benefits described above have been increased to include full acceleration of vesting of all equity awards, improved reimbursement of group health plan premiums (12 months for Messrs. Barrett, Addante and Day and six months for Messrs. Kershaw), and, for Messrs. Barrett, Addante, and Day, additional cash severance equal to one year's target bonus for Messrs. Barrett and Day and \$515,000 for Mr. Addante. With respect to the 2014 grant of performance-based restricted stock to Mr. Addante, the performance period will terminate on the date immediately preceding the change in control and the Company will determine to what extent the performance-based restricted stock shall vest and become fully earned based on performance through such date based upon the value per share in the change in control transaction; any shares that are not vested and earned as of the date of the change in control will remain outstanding until the earlier of (i) the termination of the named executive officer's employment for any reason; or (ii) May 15, 2021. If Mr. Addante's employment is terminated prior to May 15, 2021

by the company without cause or due to a resignation for good reason, the remaining outstanding shares will vest and become fully earned upon the date of such termination, regardless of performance. If Mr. Addante's termination occurs prior to May 15, 2021 and is for any other reason than as described in the preceding sentence, or on May 15, 2021, the remaining shares will be forfeited. With respect to the 2016 grants of Market Stock Awards to Mr. Addante, the measurement of stock price appreciation and corresponding vesting will occur as of the effective date of the sale transaction based on the effective value per share of our common stock in such transaction. All severance benefits are conditioned upon these executives entering into a release of claims with us. In connection with Mr. Addante's role change after the appointment of Mr. Barrett as President and Chief Executive Officer, Mr. Addante received \$515,000 in August 2017 as liquidation of the cash severance obligation contained in his severance agreement.

Other Employee Benefits and Perquisites

We have generally not offered extensive benefits or other compensation programs to our named executive officers, apart from employee benefits made available generally to our employees as noted in the Summary Compensation Table above. Mr. Day is eligible for up to \$30,000 in annual reimbursement for the use of a car service for transportation between his home and our headquarters for the purpose of allowing Mr. Day to devote his lengthy commute time to work duties.

Policy against Repricing and Cash Buyouts

Our 2014 Equity Incentive Plan and 2014 Inducement Grant Equity Incentive Plan prohibit the board from decreasing the exercise price of or otherwise repricing awards of stock options and stock appreciation rights unless such action is first approved by the company's stockholders. In addition, the plans prohibit the company from redeeming or repurchasing stock options or stock appreciation rights unless such redemptions or repurchases are approved by the company's stockholders.

Item 13. Certain Relationships and Related Transactions, and Director Independence

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

There are no transactions since January 1, 2017 to which the company has been a participant, in which the amount involved in the transaction exceeded or will exceed \$120,000, and in which any of our directors, executive officers or beneficial holders of more than 5% of our capital stock, or their family members, had or will have a direct or indirect material interest.

Compensation arrangements with our directors and officers are described under “Director Compensation” and “Executive Compensation.”

Indemnification Agreements

We have entered into indemnification agreements with each of our current directors, executive officers and certain other officers. The indemnification agreements and our amended and restated certificate of incorporation and amended and restated bylaws require us to indemnify our directors and officers to the fullest extent permitted by Delaware law.

Procedures for Approval of Related Person Transactions

We have adopted a formal written policy providing that related person transactions may be consummated or continued only if approved or ratified by the audit committee. The policy defines “related person transactions” as transactions in which we are or will be a participant, the aggregate amount involved since the beginning of the company’s last fiscal year exceeds or may be expected to exceed \$100,000, and a related person has or will have a direct or indirect interest. For purposes of this policy, a related person is a person who is or was since the beginning of our last fiscal year a director, nominee for director, or executive officer; a greater than 5% beneficial owner of our common stock; or an immediate family member of any such person. The policy provides that our legal department will review each proposed related person transaction and prepare a description for the audit committee, which will review the proposed transaction and consider such factors, as it deems appropriate, including at least the following factors:

- the terms of the transaction as compared to terms available for a similar transaction with a non-related party;
- the extent of the related person’s interest in the transaction;
- the disclosure requirements associated with the transaction;

- the effect of the transaction upon the independence of any director involved;
- the effect of the transaction upon the ability of the related person to fulfill his or her duties to the company; and
- the appearance of the transaction.

DIRECTOR INDEPENDENCE

Rubicon Project is listed on the New York Stock Exchange, which requires that a majority of a listed company’s board of directors be independent. In addition, the rules of the New York Stock Exchange require that, subject to specified exceptions, each member of a listed company’s audit, compensation and nominating/corporate governance committees be independent. Under the rules of the New York Stock Exchange, a director will only qualify as an “independent director” if the board of directors affirmatively determines that the director has no material relationship with the company.

Our board of directors has undertaken a review of the independence of each director and considered whether each director has any material relationships with us. As a result of this review, our board of directors has determined that Ms. Troe and Messrs. Coleman, Frankenberg, Mandal and Spillane are independent directors as defined under the applicable rules and regulations of the SEC and the listing requirements and rules of the New York Stock Exchange for purposes of service on the board and its committees.

Audit committee members must also satisfy the additional, heightened independence criteria set forth in Rule 10A-3 under the Exchange Act, which provides that a member of an audit committee of a listed company may not, other than in his or her capacity as a member of the audit committee, the board of directors, or any other board committee:

(i) accept, directly or indirectly, any consulting, advisory, or other compensatory fee from the listed company or any of its subsidiaries; or (ii) be an affiliated person of the listed company or any of its subsidiaries. Our board of directors has determined that each of our audit committee members satisfies these heightened independence criteria.

Members of our compensation committee must also satisfy the additional, heightened independence criteria set forth under Rule 10C-1 of the Exchange Act and under the rules and regulations of the New York Stock Exchange. In determining independence for these purposes, a listed company’s board of directors must consider: (i) the source of all compensation paid by the company to a director serving on the compensation committee, other than compensation for serving on the board, including any consulting, advisory or other fees; and (ii) whether the director is an affiliated

person of the listed company, any of its subsidiaries or any affiliate of a subsidiary. Our board of directors has determined that each of our compensation committee members satisfies these heightened independence criteria.

Item 14. Principal Accounting Fees and Services

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FEES

The aggregate fees billed for audit and other services provided in the last two fiscal years by our independent registered public accounting firm, PricewaterhouseCoopers LLP, are as follows:

Fee Category	2017	2016
Audit Fees ⁽¹⁾	\$1,645,800	\$1,518,900

All Other Fees ⁽⁴⁾	3,600	3,600
Total	\$1,645,800	\$1,518,900

Audit Fees cover professional services rendered for the audit of our annual financial statements and review of (1) financial statements included in our quarterly reports on Form 10-Q, and services normally provided by the accountant in connection with statutory and regulatory filings or engagements.

(2) Audit-Related Fees cover assurance and related services that are reasonably related to the performance of audit or review of our financial statements and not reported as Audit Fees.

(3) Tax Fees cover tax compliance, advice, and planning services and consisted primarily of review of consolidated federal income tax returns and foreign tax issues.

(4) All Other Fees in 2017 and 2016 related to license fees for accounting research software.

Pre-Approval Policy and Procedures

The audit committee has adopted policies and procedures relating to the pre-approval of all audit and non-audit services that are to be provided by our independent registered public accounting firm. The audit committee will not approve non-audit services that the independent registered public accounting firm is not permitted to perform under the rules of the SEC and Public Company Accounting Oversight Board.

On an annual basis, the independent registered public accounting firm will propose to the audit committee an audit plan and engagement letter describing the services the auditor expects to provide and related fees. The final engagement letter and fees agreed by Rubicon Project acting pursuant to the direction of the audit committee, and all of the services covered by the final engagement letter, will be considered pre-approved by the audit committee.

The audit committee or the Chair of the audit committee acting by delegated authority will approve, if necessary, any changes in terms, conditions and fees under the engagement letter resulting from changes in the audit scope, company structure or other matters.

The audit committee has delegated to the Chair of the audit committee the authority to approve on a case-by-case basis any audit or non-audit services, in amounts up to \$200,000 (1) per engagement, (2) per additional category of services, or (3) in excess of pre-approved amounts for the specified service. The Chair then reports any services so approved to the audit committee at its next regularly scheduled meeting.
