CP'S RESOLUTION TO NORFOLK SOUTHERN SHAREHOLDERS

February 10, 2016

Dear colleagues:

As you are aware, CP has been trying for some months to engage the Board at Norfolk Southern in a dialog about a business combination of our two companies. It's my belief that a combination of this kind would be of great benefit to both CP and NS, and would create a powerful transcontinental railroad with incredible capacity and service options. CP's Board also agrees with this, as do many NS shareholders.

However, the NS Board has turned down every offer we have made to speak with them, which has resulted in a communication process conducted by dueling press releases. This is not an effective way of moving things forward, and is certainly not the process I'd hoped for.

No one wants to engage in a proxy fight. We've been through one at CP. They expend a lot of money and time and can also distract people from focusing on business. As an alternative, CP yesterday notified Norfolk Southern of a resolution to be voted on at the next NS Annual Meeting of Shareholders. The resolution is a simple one: CP is asking the shareholders of NS to have their Board of Directors engage in a good faith discussion about a business combination between our two organizations.

I know some might consider it somewhat unusual for a resolution of this type to be filed in this way, but we are committed to moving this process forward. We believe that the shareholders of both CP and NS desire a conversation to take place. As the Annual Meeting is the proper forum to raise the issue to the Board's attention, we are taking this step to have the stakeholders in NS vote on this important issue.

As I've told you many times, I believe CP is a very strong franchise with an operational model that performs well in all business climates. We now have the opportunity to join forces with another railway and become even greater. To me, this makes sense from a business perspective, from an operational perspective, and most importantly, from a customer service perspective. Customers and legislators have, at one time or another, all raised concerns about ongoing rail service and the future of the industry. I believe that the time to address these concerns is now, and the only way to begin is to sit down with NS and have an open conversation.

I will keep you updated as this moves forward. As always, keep your focus on CP's business, and continue your excellent work.

Sincerely,

E. Hunter Harrison
