YOUR IMMEDIATE RESPONSE IS CRITICAL

October 18, 2016

Dear Shareholder,

You recently received proxy materials in connection with proposals for the special meeting of shareholders of Yuma Energy, Inc. ("Yuma") to be held on October 26, 2016.

**WE HAVE NOT RECEIVED YOUR PROXY VOTE
THE YUMA BOARD UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" ALL PROPOSALS
EVERY SHARE MATTERS AND EVERY VOTE IS CRITICALLY IMPORTANT!**

Please take a moment to VOTE your shares by telephone or the Internet by following the instructions below. Voting by telephone or the Internet is fast and convenient, and your vote is immediately confirmed and tabulated. Because the proposals at the special meeting must be approved by the affirmative vote of two-thirds of our issued and outstanding shares of Series A Preferred Stock, your vote is critically important.

PLEASE REMEMBER THAT NOT VOTING YOUR SHARES IS THE SAME AS A VOTE "AGAINST" THE PROPOSALS, INCLUDING YUMA'S MERGER WITH DAVIS PETROLEUM ACQUISITION CORP., WHICH COULD PREVENT THE MERGER.

You can cast your vote by internet or telephone. Please have your Voting Instruction Form with control number with you and go to one of the following:

Vote by Internet: www.proxyvote.com

Vote by Phone: 1-800-454-8683

IF YOUR SHARES ARE HELD IN A BROKERAGE ACCOUNT IN NOBO FORM YOU CAN CALL OUR PROXY SOLICITATION ADVISOR, ADVANTAGE PROXY, TOLL-FREE AT 1-877-870-8565 BETWEEN THE HOURS OF 9:00 A.M. AND 9:00 P.M. EASTERN TIME, MONDAY THROUGH FRIDAY TO GIVE YOUR VERBAL VOTING INSTRUCTIONS.

The electronic voting cutoff for this meeting is at 11:59 pm eastern time on October 25, 2016. Your votes must be submitted before the cutoff.

Please Vote Immediately "FOR" All Proposals.

Our board of directors strongly believes that the merger with Davis is the best alternative for our shareholders, and our board has unanimously recommended that you vote FOR all of the proposals.

In addition, if the merger is not completed, Yuma will require additional funds on or before November 2, 2016, to repay \$9.8 million under its credit agreement when its borrowing base is reduced to \$20.0 million. If Yuma cannot complete the merger, Yuma may be required to significantly alter its business plan, reduce its activities, sell assets, or Yuma could be forced into bankruptcy or liquidation. See below for certain reasons to vote for the proposals.

As set forth in greater detail elsewhere in the proxy statement/prospectus dated September 22, 2016, our board of directors considered many factors in making its recommendations to our shareholders. Among the factors considered by our board of directors were:

the combination will more than double our existing production, greatly improve cash flows, and significantly reduce general and administrative expenses on a per barrel basis;

the combination will diversify and increase estimated proved reserves;

the combination will significantly improve Yuma's liquidity and financial strength and is anticipated to put Yuma in compliance with the covenants under its credit facility;

the combined entity will have an increased market capitalization, which our management and board of directors believe will enhance our ability to access debt and equity capital markets, as well as our ability to finance development and production projects due to the combined entity's increased scale of operations;

the combination will provide Yuma with a larger portfolio of exploitation and exploration opportunities in resource plays within areas already targeted by Yuma; and

the presentation and opinion of ROTH Capital Partners, LLC, Yuma's financial advisor, to the effect that, as of the date of the opinion and based upon the assumptions, stated in the opinion letter, the exchange ratio of the merger as between Yuma and Davis stockholders is fair to Yuma and its shareholders, from a financial point of view, as more fully described in the proxy statement/prospectus.

Please vote FOR the proposals as soon as possible. If you have already voted in favor of the proposals, there is nothing more you need to do and we thank you for your support.

If you have any questions concerning the merger, the proposals or the proxy statement/prospectus, please contact me personally at (713) 968-7068.

Sincerely,
Sam L. Banks
President and Chief Executive Officer

Forward-Looking Statements

This communication contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Statements that are not strictly historical statements constitute forward-looking statements and may often, but not always, be identified by the use of such words such as “expects,” “believes,” “intends,” “anticipates,” “plans,” “estimates,” “potential,” “possible,” or “probable” or statements that certain actions, events or results “may,” “will,” “should,” “could” be taken, occur or be achieved. The forward-looking statements include statements about future operations, estimates of reserve and production volumes, and the anticipated timing for closing the proposed merger.

Forward-looking statements are based on current expectations and assumptions and analyses made by Yuma and Davis in light of experience and perception of historical trends, current conditions and expected future developments, as well as other factors appropriate under the circumstances. However, whether actual results and developments will conform with expectations is subject to a number of risks and uncertainties, including but not limited to: the possibility that the companies may be unable to obtain stockholder approval or satisfy the other conditions to closing; the possibility that the combined company may be unable to obtain an acceptable reserve-based credit facility; that problems may arise in the integration of the businesses of the two companies; that the acquisition may involve unexpected costs; the risks of the oil and gas industry (for example, operational risks in exploring for, developing and producing crude oil and natural gas); risks and uncertainties involving geology of oil and gas deposits; the uncertainty of reserve estimates; revisions to reserve estimates as a result of changes in commodity prices; the uncertainty of estimates and projections relating to future production, costs and expenses; potential delays or changes in plans with respect to exploration or development projects or capital expenditures; health, safety and environmental risks and risks related to weather; further declines in oil and gas prices; inability of management to execute its plans to meet its goals, shortages of drilling equipment, oil field personnel and services, unavailability of gathering systems, pipelines and processing facilities and the possibility that government policies may change. Yuma’s annual report on Form 10-K/A for the year ended December 31, 2015, quarterly reports on Form 10-Q, recent current reports on Form 8-K, and other Securities and Exchange Commission (“SEC”) filings discuss some of the important risk factors identified that may affect its business, results of operations, and financial condition. Yuma and Davis undertake no obligation to revise or update publicly any forward-looking statements, except as required by law.
