NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed closed-end fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Company management. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Company ultimately realizes upon sale of the securities.

Affiliated Companies Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as Affiliated Companies in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation The Company's investments are reported at fair value as defined under accounting principles general accepted in the United States of America. Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options and money market funds) are valued at amortized cost, which approximates fair value. Purchased and written options are valued at the last quoted bid and asked price, respectively. Money market funds are valued at net asset value on the day of valuation.

Various inputs are used to determine the fair value of the Company's investments. These inputs are summarized in the following three levels:

- Level 1 fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- Level 2 fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- Level 3 fair value is determined using the Company's own assumptions, developed based on the best information available in the circumstances.

The Company's investments at June 30, 2011 were classified as follows:

Level 1	Level 2	Level 3	Total
---------	---------	---------	-------

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

Common stocks	\$ 1,100,364,424	\$	\$ 1,100,364,424
Short-term investments	40,000	43,431,600	43,471,600
Securities lending collateral	13,613,550		13,613,550
Total investments	\$ 1,114,017,974	\$ 43,431,600	\$ 1,157,449,574
Written options	\$ (295,157)	\$	\$ (295,157)

There were no transfers into or from Level 1 or Level 2 during the six months ended June 30, 2011.

2. Federal Income Taxes

No federal income tax provision is required since the Company's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income to its stockholders. Additionally, management has analyzed and concluded that tax positions included in federal income tax returns from the previous three years that remain subject to examination do not require any provision. Any income tax-related interest or penalties would be recognized as income tax expense. As of June 30, 2011, the identified cost of securities for federal income tax purposes was \$992,603,065, and net unrealized appreciation aggregated \$164,846,509, consisting of gross unrealized appreciation of \$267,324,447 and gross unrealized depreciation of \$(102,477,938).

Distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Such differences are primarily related to the Company's retirement plans, equity-based compensation, and loss deferrals for wash sales. Differences that are permanent are periodically reclassified in the capital accounts of the Company's financial statements and have no impact on net assets.

3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff. Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2011 were \$110,390,342 and \$112,842,300, respectively.

The Company is subject to changes in the value of equity securities held (equity price risk) in the normal course of pursuing its investment objectives. The Company may purchase and write option contracts to increase or decrease its equity price risk exposure or may write option contracts to generate additional income. Option contracts generally entail risks associated with counterparty credit, illiquidity, and unfavorable equity price movements. The Company has mitigated counterparty credit and illiquidity risks by trading its options through an exchange. The risk of unfavorable equity price movements is limited for purchased options to the premium paid and for written options by writing only covered call or collateralized put option contracts, which require the Company to segregate certain securities or cash at its custodian when the option is written. A schedule of outstanding written option contracts as of June 30, 2011 can be found on page 13.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

When the Company writes (purchases) an option, an amount equal to the premium received (paid) by the Company is recorded as a liability (asset) and is subsequently marked to market daily in the Statement of Assets and Liabilities, with any related change recorded as an unrealized gain or loss in the Statement of Operations. Premiums received (paid) from unexercised options are treated as realized gains (losses) on the expiration date. Upon the exercise of written put (purchased call) option contracts, premiums received (paid) are deducted from (added to) the cost basis of the underlying securities purchased. Upon the exercise of written call (purchased put) option contracts, premiums received (paid) are added to (deducted from) the proceeds from the sale of underlying securities in determining realized gain or loss.

Transactions in written covered call and collateralized put options during the six months ended June 30, 2011 were as follows:

	Covered Calls		Collateralized Puts	
	Contracts	Premiums	Contracts	Premiums
Options outstanding, December 31, 2010	142	\$ 14,334	442	\$ 152,563

4. Capital Stock

The Company has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

During 2011, 711 shares of Common Stock were issued at a weighted average price of \$11.09 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

On December 27, 2010, the Company issued 1,455,912 shares of its Common Stock at a price of \$10.445 per share (the average market price on December 8, 2010) to stockholders of record on November 19, 2010 who elected to take stock in payment of the distribution from 2010 capital gain and investment income. During 2010, 883 shares were issued at a weighted average price of \$10.30 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Income Compensation Plan.

The Company may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable.

Transactions in Common Stock for 2011 and 2010 were as follows:

5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan covers all employees with at least one year of service. In addition, the Company has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Both plans were frozen as of October 1, 2009. Benefits are based on length of service and compensation during the last five years of employment through September 30, 2009, with no additional benefits being accrued beyond that date.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur and are subsequently amortized into net periodic pension cost.

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. The Company made contributions of \$177,664 to the plans during the six months ended June 30, 2011, and anticipates making additional contributions of up to \$300,000 over the remainder of 2011.

6. Equity-Based Compensation

The Stock Option Plan of 1985 (1985 Plan) has been discontinued and no further grants will be made under this plan. Unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years, however, remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Company during subsequent years. All options and related stock appreciation rights terminate 10 years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of June 30, 2011, and changes during the six month period then ended, is presented below:

	Options	Weighted- Average Exercise Price	Weighted- Average Remaining Life (Years)	Aggregate Intrinsic Value
Outstanding at December 31, 2010	43,729	\$ 10.74	0.74

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

*Exercise prices range from \$8.70 to \$9.42.

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the six months ended June 30, 2011 was \$14,215.

The 2005 Equity Incentive Compensation Plan (2005 Plan), adopted at the 2005 Annual Meeting and re-approved at the 2010 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achieving certain performance targets. If performance targets are not achieved, all or a portion of the performance-based restricted shares are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. Payment of awards may be deferred, if elected. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards were granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at June 30, 2011 is 3,147,182 shares.

A summary of the status of the Company's awards granted under the 2005 Plan as of June 30, 2011, and changes during the six month period then ended, is presented below:

	Shares/ Units	Weighted Average Grant-Date Fair Value
Awards		
Balance at December 31, 2010	138,638	\$ 10.49
Granted:		
Restricted stock	40,189	11.06
Restricted stock units	6,750	11.19
Deferred stock units	881	11.16
Vested & issued	(27,884)	12.93
Forfeited	(4,774)	13.18
Balance at June 30, 2011 (includes 124,965 performance-based awards and 28,835 nonperformance-based awards)	153,800	\$ 10.02

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ended June 30, 2011 were \$149,987. The total compensation costs for restricted

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

stock units granted to non-employee directors for the period ended June 30, 2011 were \$36,921. As of June 30, 2011, there were total unrecognized compensation costs of \$702,983, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.88 years. The total fair value of shares and units vested and issued during the six month period ended June 30, 2011 was \$303,507.

7. Officer and Director Compensation

The aggregate remuneration paid during the six months ended June 30, 2011 to officers and directors amounted to \$1,594,788, of which \$234,718 was paid to directors who were not officers. These amounts represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. Portfolio Securities Loaned

The Company makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Company on the next business day. Cash deposits are placed in a registered money market fund. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At June 30, 2011, the Company had securities on loan of \$13,483,540 and held cash collateral of \$13,613,550; additional collateral was delivered the next business day in accordance with the procedure described above. The Company is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

9. Operating Lease Commitment

The Company leases office space and equipment under operating lease agreements expiring at various dates through the year 2016. Petroleum & Resources Corporation, the Company's non-controlled affiliate, shares in the rental payments, based on a predetermined cost sharing methodology. The Company recognized rental expense of \$71,341 in the first half of 2011, and its estimated portion of future minimum rental commitments are as follows:

2011	\$ 74,699
2012	146,580
2013	144,637
2014	145,086
2015	145,345
