REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

-----

To the Corning Incorporated Benefits Plan Committee and  
the Participants of the Corning Incorporated Investment Plan

We have audited the accompanying statements of net assets available for benefits of Corning Incorporated Investment Plan (the "Plan") as of December 31, 2005 and 2004, and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Corning Incorporated Investment Plan as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the year ended December 31, 2005, in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2005, is presented for the purpose of

Edgar Filing: CORNING INC /NY - Form 11-K

additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Respectfully Submitted,

Insero & Company CPAs, P.C.

Corning Incorporated Investment Plan  
Notes to Financial Statements  
December 31, 2005 and 2004

---

1. Description of Plan

General

The following brief description of the Corning Incorporated Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit-sharing plan established in January 1967 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective January 1, 2005, participants of the Corning Oak Holding, Inc. Section 401(k) Savings Plan (the Oak Plan) became eligible to participate in the Plan. On February 2, 2005, the assets of the Oak Plan were merged into the Plan.

Administration

The Plan is administered by the Corning Incorporated Benefits Committee (the "Committee"), which is appointed by the Board of Directors of Corning Incorporated (the "Company"). The Committee administers the Plan in accordance with its terms and applicable laws and has all necessary and appropriate powers to carry out the provisions of the Plan.

Trustee and Recordkeeper

The Plan's assets are held by JPMorgan Chase Bank (the "Trustee"), as trustee. The recordkeeper is Affiliated Computer Services, Inc.

Eligibility

The Plan covers all employees of the Company and participating subsidiaries who are not members of a union. An employee is eligible for participation in the Plan upon reaching the age of 18 and completing one year of eligible

## Edgar Filing: CORNING INC /NY - Form 11-K

service. Notwithstanding the foregoing, an employee who has attained age 18 and is scheduled on a normal basis to work at least 16 hours a week shall be immediately eligible.

### Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged for administrative expenses. Trustee and investment management fees are deducted from the earnings credited to participant's accounts. A flat monthly fee is charged to each participant's account to subsidize administrative expenses of the Plan and is determined by the plan administrator. Investment management fees are pro-rated among the investment funds as of the last business day of each month. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

### Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Company contributions to the Plan are fully vested after three years of service. All Company contributions become fully vested upon total and permanent disability, death or retirement.

Corning Incorporated Investment Plan  
Notes to Financial Statements  
December 31, 2005 and 2004

---

### Contributions - Employer

Depending upon date of hire or employee election, Company matching contributions will be determined under the following provisions:

- 1) Employees hired on or after July 1, 2000 (and employees hired before July 1, 2000 who so elected) receive matching contributions that equal 100% of the first 2% of eligible pay contributed and 50% of the next 4% of eligible pay contributed, up to 6% of eligible pay.
- 2) Certain employees hired before July 1, 2000 receive Company matching contributions as a percentage of a participant's first 5% of eligible pay contributed according to years of service as of December 31 of the prior year as follows:

Less than 19 years of service	50%
19 but less than 24 years of service	75%
24 or more years of service	100%

With respect to all employees eligible to participate in the Plan and covered by the service-based match described above, beginning in January of the year the participant is expected to reach ten years of vesting service and irrespective of whether such employee has elected to contribute to the Plan, the Company contributes weekly, bi-weekly or monthly (based on the employee's pay frequency) a supplemental contribution to the Corning Common Stock Fund equal to 1.175% of such employee's compensation. Employees hired on or after July 1, 2000 do not receive the supplemental contribution.

All Company contributions are invested in the Corning Common Stock Fund.

## Edgar Filing: CORNING INC /NY - Form 11-K

Participants may transfer Company contributions and associated earnings into any other plan fund. Effective January 1, 2006, all Company contributions will be allocated based on the participants' elections.

Forfeiture balances of terminated participants' nonvested accounts are used to reduce future employer contributions to the plan.

### Contributions - Participants

Generally, participants may contribute up to 75% of their eligible compensation to the Plan on a before-tax basis, after-tax basis or any combination of the two.

The maximum amount a participant can contribute to the Plan on a before-tax basis is \$14,000 per year in 2005 as adjusted by the Internal Revenue Code ("IRC"). The Plan permits employees who have attained age 50 or older during a given year to contribute additional before-tax amounts up to the prescribed IRC limitation for "catch-up contributions."

Corning Incorporated Investment Plan  
Notes to Financial Statements  
December 31, 2005 and 2004

---

Participants may also elect to have their contributions invested in the Corning Common Stock Fund on a before or after-tax basis. Contributions into the Corning Common Stock Fund are limited to 20% of a participant's annual contributions.

### Fund Transfers

Participants are allowed to transfer their accumulated contributions between funds. The Plan prohibits the transfer of amounts invested in other Plan investment funds to the Corning Common Stock Fund.

### Payment of Benefits

Benefit payments are made upon retirement (i.e., at least age 55 with five years of service), or in the event of a participant's death, total and permanent disability or other termination of employment. A retired participant can elect to receive distributions in a lump sum, installments, or intermittent withdrawals. The Plan also provides for withdrawals by participants prior to termination.

Effective March 28, 2005, the mandatory lump-sum distribution threshold was lowered to \$1,000 from \$5,000 to comply with the restrictions set forth under The Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA").

### Participant Loans

Participants are eligible to obtain loans from the Plan. Loans are limited to one loan per participant with a repayment term not to exceed 4.5 years, except for primary residence loans in which the term may not exceed ten years. The maximum amount of any loan is the lesser of one-half of the vested account balance or \$50,000 (with a \$1,000 minimum). The interest rate on a loan is established by the Committee. Participants are charged a fee on all loans, which reduces the loan proceeds.

## 2. Summary of Significant Accounting Policies

### Basis of Presentation

## Edgar Filing: CORNING INC /NY - Form 11-K

The accompanying financial statements are prepared on the accrual basis of accounting.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods could differ from those estimates.

### Basis of Allocation from the Corning Incorporated Master Investment Trust

The Plan has a specific interest in the Corning Incorporated Master Investment Trust (the "Master Trust") in which another plan sponsored by the Company also participates. The Plan's specific interest in the Master Trust is credited or charged for contributions, transfers, and benefit payments relating to its participants. Realized gains and losses and changes in net unrealized appreciation or depreciation on investments, income from investments and expenses are allocated to the Plan based on the Plan's specific interest in the net assets of the Master Trust. At December 31, 2005 and 2004, the Plan's percentage interest in the net assets of the Master Trust was approximately 83% and 84%, respectively.

Corning Incorporated Investment Plan  
Notes to Financial Statements  
December 31, 2005 and 2004

---

### Valuation of Master Trust Investments (in thousands)

Master Trust investments in mutual funds and collective trust funds are recorded at fair value based upon the net asset value announced by the fund on the last business day of the year. Current value of common stock are based on active market quotations. Short-term investment funds are recorded at cost which approximates fair value due to short maturities. Investment contracts are valued at contract value, representing contributions made plus interest at the contract rate, less funds withdrawn and administrative expenses. There are no reserves against contract values for credit risk of the contract issuers or otherwise. Investment contracts are fully benefit-responsive. The Company does not expect any employer initiated events that may cause premature liquidation of a contract at market value. At December 31, 2005 and 2004, investment contracts held by the Master Trust were \$452,411 and \$422,902, respectively, at contract value. The contract values approximate fair value. The average yield and crediting interest rate was approximately 5% and 6% for 2005 and 2004, respectively. The crediting interest rates are based on a formula agreed upon with the issuers.

Interest is accrued by the Master Trust as earned, and dividends are recorded on the ex-dividend date.

Purchases and sales of securities are recorded by the Master Trust on a trade-date basis. Realized gains and losses for security transactions are reported using the average cost method. Unrealized gains and losses represent the difference between the cost and fair value of securities.

### Valuation of Participant Loans

Participant loans are valued at cost which approximates fair value.

Edgar Filing: CORNING INC /NY - Form 11-K

Payment of Benefits  
Benefits are recorded when paid.

Risks and Uncertainties

The Plan's investment securities are exposed to various risks, such as changes in interest rates and market returns. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in valuations in the near term would materially affect participants' account balances and the amounts reported in the Plan's financial statements.

3. Investments (in thousands)

The following presents the Master Trust's investments at December 31:

	2005 ----	2004 ----
Fixed Income Funds	\$ 452,411	\$ 422,902
Mutual Funds	706,594	601,636
Collective Trust Fund	49,473	50,130
Short-Term Investment Funds	7,557	5,990
Corning Common Stock	723,908	497,250
	-----	-----
	\$ 1,939,943	\$ 1,577,908
	=====	=====

Corning Incorporated Investment Plan  
Notes to Financial Statements  
December 31, 2005 and 2004

---

Investments that represent 5% or more of net assets available for benefits as of December 31, 2005 and 2004 were the Plan's interest in the Master Trust.

During 2005, the Master Trust's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value, as follows:

Mutual Funds	\$ 33,408
Corning Common Stock	314,228
	-----
	\$ 347,636
	=====

During 2005, the Master Trust's investments earned interest and dividends in the amount of \$44,687. For 2005, investment expenses totaled \$1,083.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participants' accounts will become 100% vested and will be distributed to participants in accordance with Plan provisions.

Edgar Filing: CORNING INC /NY - Form 11-K

5. Tax Status

The Plan received a favorable determination letter dated November 5, 2003 from the Internal Revenue Service indicating that it meets the requirements of Section 401(a) and 501(a) of the IRC and has qualified status as an employee retirement plan. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's benefits counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

6. Reconciliation of Financial Statements to Form 5500 (in thousands)

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2005 to Form 5500:

Net assets available for benefits per the financial statements	\$ 1,618,528
Amounts allocated to withdrawing participants	(6,574)
	-----
Net assets available for benefits per the Form 5500	\$ 1,611,954
	=====

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2005 to Form 5500:

Benefits paid to participants per the financial statements	\$ 104,898
Add: Amounts allocated to withdrawing participants at December 31, 2005	6,574
	-----
Benefits paid to participants per Form 5500	\$ 111,472
	=====
