Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

As a global purchaser and supplier of goods, E. I. du Pont de Nemours and Company (“DuPont”) is committed to preventing the use of Conflict Minerals that fund armed conflict in the Democratic Republic of Congo (“DRC”) and adjoining countries. DuPont does not directly purchase these minerals from smelters or mines and works closely with suppliers to ensure responsible sourcing of Conflict Minerals necessary to the production or functionality of its products (“Necessary Minerals.”) DuPont’s Statement of Principles regarding the sourcing of Conflict Minerals is available on its website at

<http://www.dupont.com/corporate-functions/news-and-events/insights/articles/position-statements/articles/conflict-minerals.htm>

DuPont conducted a reasonable country of origin inquiry regarding its calendar year 2013 purchases of Necessary Minerals. This reasonable country of origin inquiry included:

1. Mapping the company’s supply chain,
2. Contacting each supplier or vendor to determine if the minerals were sourced from the DRC or adjoining countries or were derived from scrap or recycled material, and
3. Obtaining written representations from suppliers regarding the source for the Necessary Minerals.

Based on its reasonable country of origin inquiry, DuPont believes that the Necessary Minerals the company purchased either did not originate in the DRC or an adjoining country, or are from recycled or scrap sources. As a result of its inquiry, DuPont does not have any reason to believe that the Necessary Minerals may have originated in the DRC or an adjoining country.

DuPont has posted this disclosure in the Investor Center of its website under the header “Conflict Minerals Disclosure” at www.dupont.com. The content of the website referenced is included for information only and is not incorporated by reference into this Form SD.
