WESTAMERICA BANCORPORATION REPORTS \$24.5 MILLION QUARTERLY EARNINGS

San Rafael, CA: Westamerica Bancorporation (NASDAQ: WABC), parent company of Westamerica Bank, today reported quarterly net income for the second quarter of 2006 of \$24.5 million, or \$0.77 diluted earnings per share, compared to net income of \$27.7 million, or \$0.83 diluted earnings per share for the second quarter of 2005. Second quarter 2005 results include a property sale gain, which increased diluted earnings per share \$0.03. For the second quarter of 2006, return on assets was 1.99 percent and return on equity was 23.1 percent.

"In the second quarter 2006, our annualized net loan losses were 0.04 percent, our noninterest revenues were 21.4 percent of total revenues, and our expenses were 40 percent of total revenue. As expected, rising short-term interest rates caused our funding costs to rise, reducing our net interest margin. However, we remain focused on accumulating non-interest bearing deposits and money market checking balances to maintain a low cost of funds. Our second quarter 2006 cost of funds was 1.44 percent, supporting a relatively high 4.58 percent net interest margin," said Chairman, President and CEO David Payne. "Our 23 percent return on equity remains top-tier in the banking industry," Payne added.

Page 6

Net interest income on a taxable equivalent basis was \$51.5 million for the second quarter of 2006, compared to \$57.0 million reported for the second quarter of 2005. The reduced net interest income is attributable to a lower net interest margin and lower average earning assets. Short-term interest rates have risen faster than intermediate and longer term interest rates, causing funding costs to rise at a faster pace than earning asset yields. The second quarter 2006 net interest margin on a taxable equivalent basis was 4.58 percent, compared to 4.73 percent for the prior quarter and 4.84 percent for the second quarter of 2005.

The provision for loan losses was \$150 thousand for the second quarter of 2006 unchanged from the prior quarter and down from \$300 thousand for the second quarter of 2005. Net charge-offs for the second quarter of 2006 totaled \$234 thousand, or 0.04 percent (annualized) of average loans compared to 0.04 percent (annualized) of average loans for both the prior quarter and second quarter of 2005. Non-performing loans and repossessed loan collateral at June 30, 2006 totaled \$6.3 million, unchanged from \$6.3 million at March 31, 2006.

Noninterest income for the second quarter of 2006 was \$14.1 million, compared to \$13.6 million for the previous quarter and \$15.5 million for the second quarter of 2005 which included a \$1.3 million property sale gain.

Noninterest expense for the second quarter of 2006 totaled \$26.3 million, increased from \$25.5 million for the prior quarter, but down from \$27.1 million for the second quarter of 2005. The increase in expenses from the prior quarter was primarily due to higher personnel costs and professional fees. Comparing the second quarter of 2006 to the second quarter of 2005, the decrease in noninterest expense was primarily due to lower personnel costs offset in part by higher professional fees. The second quarter 2006 efficiency ratio (expenses divided by revenues) was 40.2 percent, compared to 37.7 percent for the prior quarter and 37.4 percent for the second quarter of 2005.
