ITEM 8.01 OTHER EVENTS  
-----

On April 27, 2005, management of Peoples Bank, National Association ("Peoples Bank"), a wholly owned subsidiary of Peoples Bancorp Inc. ("Peoples"), determined that an impairment charge of \$500,000 to specific commercial loans was required in its financial statements for the first quarter of 2005. The charge, which will increase the provision for loan losses for the three months

ended March 31, 2005 from amounts reported on April 21, 2005, relates to an aggregate principal balance of approximately \$2.7 million on loans to two commonly controlled commercial borrowers. The guarantors of the loans have recently filed for personal bankruptcy, which was discovered subsequent to Peoples' April 21, 2005 news release reporting its consolidated results of operations and financial condition for the quarter ended March 31, 2005. The after tax reduction to net income previously reported is expected to be approximately \$366,000, or approximately \$0.04 per diluted share.

Management believes that there is a reasonable likelihood that the borrowers will be unable to meet the repayment terms of the loans absent the guarantees. The loans are secured by liens on commercial real estate, equipment, and accounts receivable, but based on the limited data available at this time, the collateral value is considered to be insufficient to cover the outstanding principal and interest receivable balances on the loans. As of the date of this filing, the borrowers are current in the payment of their obligations and in compliance with the original terms of the loans. The loans are expected to be placed on nonaccrual status during the second quarter of 2005.

The level of the provision made in connection with the loans reflects the amount necessary to maintain the allowance for loan losses at an adequate level, based upon Peoples Bank's current analysis of probable losses in its loan portfolio, with respect to loans held at March 31, 2005. Since this impairment was recently discovered, Peoples Bank management is continuing to evaluate the financial condition of the borrowers and guarantors and the value of the collateral. The impairment charge is based on management's estimate considering information currently available. The actual impairment charge will depend on the value of the collateral ultimately realized and may differ materially from management's current estimate.

To date, Peoples Bank has not incurred any out-of-pocket expenditures (including legal and accounting fees) in connection with the resolution of these loans. The actual amount of such expenditures could vary, depending on the length of time, and number of hours of professional assistance required to finally resolve the loans, the nature of the proceedings in which the loans are resolved, and other factors not susceptible to current estimation, but are currently not expected to be material.
