TO THE STOCKHOLDERS

For the three months ended March 31, 2002, our stockholders experienced a decrease of 0.6% on their investment in our Common Shares (assuming reinvestment of all dividends). The net asset value per Common Share decreased 2.3%. By comparison, our benchmark, the Standard & Poor's 500 Stock Index (including income), increased 0.3%. For the twelve months ended March 31, 2002, the return to our stockholders was 4% and the return on the net asset value per Common Share was 2%; these compare with an increase of 0.2% for the S&P 500. During each period, the discount at which our shares traded declined modestly and at March 31, 2002, it was 3.1%.

As set forth in the accompanying financial statements (unaudited), as of March 31, 2002, the net assets of the Company were \$1,212,973,779. Net assets applicable to the Common Stock were \$1,062,973,779, equal to \$34.04 per Common Share.

The decrease in net assets resulting from operations for the three months ended March 31, 2002 was \$22,486,472. During this period, net realized loss on securities sold was \$17,960,739 and the decrease in unrealized appreciation was \$5,037,227. Net investment income for the three months was \$511,494.

The nascent signs of economic recovery seen late last year have become more apparent. This strength is reflected in the outperformance during the first quarter of two stock groups, Basic Materials and Energy, where our market exposure is limited. Interest rates, meanwhile, have risen markedly with the yield on the benchmark 10-year Treasury notes up over one percentage point, to over five percent. Should this trend continue, two mainstays of the recovery, housing and consumer spending are likely to suffer.

The importance of housing, and its related financing, to the health of the economy and the market cannot be overstated since the average American family has four times more equity in housing than in the stock market. In addition, over the past year the average price of a house has increased by 12% - the largest inflation adjusted gain in history.

We continue to believe that the recovery is likely to be below average and that

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

stock valuations remain high in the context of corporate profits pressured by excess capacity, global competition and rising wage and health care costs, among others. We retain abundant cash reserves and look forward to their selective employment as opportunities present themselves.

We are pleased to report that on April 10, 2002, at the Company's annual meeting, the Stockholders (1) elected eleven directors, including two directors who were elected by the holders of the Company's Preferred Stock, and (2) ratified the selection of Ernst & Young LLP as auditors of the Company for the year 2002.

We are pleased to announce that on March 26, 2002 the Company completed the development of a Web site. It can be accessed on the Internet at www.generalamericaninvestors.com and contains a wealth of information about the Company, including current NAV and market price data as well as historical dividend payments, financial reports, notices and press releases.

It is with a feeling of great loss that we report the death on March 17, 2002 of Arthur G. Altschul, our esteemed colleague and Chairman Emeritus. He served the Company for 50 years, including 43 years as a Director, of which 34 years were as Chairman of the Board, and 7 years as Chairman Emeritus. Over the years he contributed to the success of the Company by giving it steady leadership and guidance through many stock market cycles, and by providing management teams with unfailing support and considered encouragement even after his retirement from active involvement in the day-to-day affairs of the Company.

By Order of the Board of Directors,

GENERAL AMERICAN INVESTORS COMPANY, INC.

Spencer Davidson
President and Chief Executive Officer

NOTES TO FINANCIAL STATEMENTS (Unaudited)

General American Investors

1. SIGNIFICANT ACCOUNTING POLICIES

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. SECURITY VALUATION Securities traded on securities exchanges or on the NASDAQ National Market System are valued at the last reported sales price on the last

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

business day of the period. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions) on the valuation date. Corporate discount notes are valued at amortized cost, which approximates market value. Special holdings are valued at fair value in the opinion of the Directors. In determining fair value, in the case of restricted shares, consideration is given to cost, operating and other financial data and, where applicable, subsequent private offerings or market price of the issuer's unrestricted shares (to which a 30 percent discount is applied); for limited partnership interests, fair value is based upon an evaluation of the partnership's net assets.

b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

c. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

d. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates.

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 31,231,563 shares and 6,000,000 shares, respectively, were outstanding at March 31, 2002. On June 19, 1998, the Company issued and sold 6,000,000 shares of its 7.20% Tax-Advantaged Cumulative Preferred Stock. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-30B-2

dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

During the three months ended March 31, 2002 there were no transactions in Common Stock. Transactions in Common Stock during the year ended December 31, 2001 were as follows:

	SHARES	AMOUNT
	-----	-----
Shares issued in payment of dividends (includes 28,400 shares issued from Treasury)	2,310,019	\$2,310,781
Increase in paid-in capital		78,781

Shares purchased (at an average discount from net asset value of 9.0%)	19,000	(19,673)
Decrease in paid-in capital		(673)

Total decrease		(692)

Net increase		\$80,398
		=====

Distributions in excess of net income for financial statement purposes result primarily from transactions where tax treatment differs from book treatment.

3. OFFICERS' COMPENSATION AND RETIREMENT AND THRIFT PLANS

The aggregate compensation paid by the Company during the three months ended March 31, 2002 to its officers amounted to \$1,355,750. The Company has non-contributory retirement plans and a contributory thrift plan which cover substantially all employees. The costs to the Company and the assets and liabilities of the plans are not material. Costs of the plans are funded currently.

4. PURCHASES AND SALES OF SECURITIES

Purchases and sales of investment securities and securities sold short (other than short-term securities) for the three months ended March 31, 2002 were as follows:

	PURCHASES	SALES
	-----	-----

6. OPERATING LEASE COMMITMENT

In July 1992, the Company entered into an operating lease agreement for office space which expires in 2007 and provides for future rental payments in the aggregate amount of approximately \$5.6 million. The lease agreement contains a clause whereby the Company received twenty months of free rent beginning in December 1992 and escalation clauses relating to operating costs and real property taxes.

Rental expense approximated \$71,400 for the three months ended March 31, 2002. Minimum rental commitments under the operating lease are approximately \$403,000 in 2002 and \$504,000 per annum in 2003 through 2007.

In March 1996, the Company entered into a sublease agreement which expires in 2003 and provides for future rental receipts. Minimum rental receipts under the sublease are approximately \$203,000 in 2002 and \$64,000 in 2003. The Company will also receive its proportionate share of operating expenses and real property taxes under the sublease.

 In addition to purchases of the Company's Common Stock as set forth in Note 2 on page 9, purchases of Common Stock may be made at such times, at such prices, in such amounts and in such manner as the Board of Directors may deem advisable.
