Item 2.02 – Results of Operations and Financial Condition.

Included below is a release of financial information mailed to stockholders on May 8, 2008. It reflects the financial condition, in a condensed format, for Kansas City Life Insurance Company as of March 31, 2008, and was previously included in the Company's first quarter Form 10-Q report filed on May 2, 2008.

Message from the President, CEO and Chairman of the Board

Kansas City Life Insurance Company recorded net income of \$3.6 million or \$0.31 per share for the first quarter ended March 31, 2008, a decrease from \$8.3 million or \$0.70 per share in the prior year. The reduced net income was primarily due to \$5.0 million less in realized investment gains from the first quarter 2007, along with lower net investment income and increased policyholder benefits and operating expenses. Partially offsetting the impact of these changes, insurance revenues increased 1%.

The Company continues to focus its resources on increasing sales of life insurance products. Recruiting and retention of general agents and agents, along with the continued introduction of new products and enhancements to existing products are key means by which the Company expects to grow life insurance sales.

New sales results for the Company were largely positive in the first quarter. New insurance premiums increased 33% compared with the prior year while new deposits increased 4% versus a year ago. The increase in new premiums primarily resulted from a \$2.0 million increase in sales of immediate annuities. In addition, new individual life premiums increased 6% and new group life insurance sales increased 64%. However, new deposits on universal life insurance declined \$0.4 million or 13% and variable universal life insurance declined \$0.4 million or 43%.

The decline in net investment income was due to a decrease in investment assets, but this was partially offset by a slight improvement in investment yields and reduced investment expenses from real estate activities. In addition, the decline in realized investment gains from the prior year was the result of reduced sales of real estate investments and the one-time sale of a bank subsidiary.

Policyholder benefits increased due to the discontinuance of a product in the Group Insurance segment, but the impact of the increase was largely offset by lower interest credited to policyholder account balances as a result of lower account balances. Operating expenses increased for comparative first quarter periods due to increased compensation, employee benefits and the timing of other expenses.

After beginning with weakening subprime residential mortgage performance in the second half of 2007, credit and liquidity problems in the financial markets worsened in the first quarter of 2008. The impact of the deteriorating home mortgage market has become broad-based and beset the overall economy. Reduced values on investment securities caused net unrealized losses on the Company's fixed maturity investments to increase during the quarter. However, the Company continues to maintain a sound and diversified portfolio of investments with approximately 1% of total investment assets in subprime mortgage securities. Overall, 95% of the Company's investment securities were rated investment grade at March 31, 2008 versus 94% at December 31, 2007. Further, 92% of those securities having unrealized losses at March 31, 2008 were rated investment grade.

On April 28, 2008, the Board of Directors declared a quarterly dividend of \$0.27 per share, payable on May 13, to stockholders of record on May 8, 2008.

The first quarter was a very difficult environment for financial services companies. However, Kansas City Life's financial strength and core values provide the ability for the Company to weather these cyclical events and pursue opportunities for growth at the same time. We are very excited about our plans and opportunities for 2008, including the delivery of new products and initiatives to further expand distribution through growth of the general agency system. And, we will continue to offer policyholders and investors the same commitment of Security Assured that we have for generations.
