- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item      Entry into a Material Definitive Agreement.  
1.01

- (a) On March 4, 2008, Legg Mason, Inc. (the "Company") obtained a \$150 million standby letter of credit (the "Letter of Credit") from Citibank, N.A. (the "Bank") pursuant to the terms of the unsecured Five-Year Revolving Credit Agreement dated October 14, 2005 (as amended, the "Credit Agreement") among the Company; the Bank; Citigroup Global Markets Inc., as Lead Arranger and Book Manager; and Bank of America, N.A., JPMorgan Chase Bank, N.A., The Bank of New York and Deutsche Bank AG New York Branch, as Co-Syndication Agents; and the other banks thereto. On that date, the Company also entered into a related agreement (the "Agreement") with the beneficiary of the Letter of Credit, the Liquid Reserves Portfolio, a Series of Master Portfolio Trust (the "Fund"), a money market fund managed by a subsidiary of the Company. The Letter of Credit supports an investment by the Fund in approximately \$522 million in asset backed commercial paper (the "Securities") issued by Cheyne Finance, LLC, a Structured Investment Vehicle. The Letter of Credit may be drawn by the Fund if it realizes a loss on disposition or restructuring of the Securities. In addition, under the arrangements the Fund will draw the Letter of Credit at the end of its one-year term, if, at that time, it continues to hold the Securities and the Securities have not been restructured into securities that are rated A-1 and P-1 by Standard & Poor's and Moody's Investor Services, respectively, or at any time in the event of a decline in the short-term credit ratings of the Bank. If the Securities are restructured into securities that are not rated A-1 and P-1 and the Fund continues to hold the new securities immediately prior to the expiration of the Letter of Credit, the Fund is required to sell the securities and draw on the Letter of Credit to cover any loss. The Letter of Credit may be terminated without being drawn before its term expires in certain circumstances, including if the Securities are sold from the Fund or restructured into securities that are rated A-1 and P-1 by Standard & Poor's and Moody's Investor Services, respectively, without incurring a loss.

Under the Credit Agreement, the Company is required to reimburse the Bank any amounts that may be drawn on the Letter of Credit, either in cash or by increasing the outstanding borrowings under the Credit Agreement. As of the date the Letter of Credit was issued, the Company has established a derivative liability for the fair value of its obligations to reimburse the Bank any amounts that may be drawn under the Letter of Credit. The amount of this liability will increase or decrease if the Company's obligation under the arrangement fluctuates based on the fair value of the Securities. As a result of the Letter of Credit arrangements, the Company incurred an \$88 million quarter-to-date charge to its earnings (\$46 million net of adjustments to incentive compensation and taxes, or \$0.32 per diluted share) reflecting the fair value of the underlying Securities as of March 5, 2008. The Company expects to make further adjustments to incentive compensation in its next fiscal year under an agreement with a

subsidiary.

2

The foregoing descriptions of the Credit Agreement and related Agreement do not purport to be complete and are qualified in their entirety by reference to the Credit Agreement and Agreement documents, which are filed, or incorporated, as exhibits hereto and incorporated herein by reference.

Item 2.03      Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

- (b) As discussed in Item 1.01 above, which disclosure is incorporated herein by reference, the Company has entered into arrangements to obtain the Letter of Credit under the Credit Agreement for the benefit of the Fund. The maximum future amount that the Company could be required to pay under the Letter of Credit arrangements would be the \$150 million maximum amount of the Letter of Credit plus financing costs.

Item 8.01      Other Events.

As of February 29, 2008, the Company's liquidity business had \$174 billion of assets under management. Of this amount, exposure in money market funds to Structured Investment Vehicles represented approximately 2.2%, of which approximately 0.5% represented exposure to bank-sponsored Structured Investment Vehicles. As discussed in the Company's earlier filings, during the quarter ended December 31, 2007 the Company took several steps to provide support for investments in asset backed commercial paper by money market funds managed by a Company subsidiary. Attached hereto as Exhibit 99.1 and incorporated herein by reference is a press release discussing the Letter of Credit arrangements and summarizing the Company's quarter-to-date charge to earnings, based on market conditions and prices as of March 5, 2008, resulting from all of the support arrangements provided to date. Attached hereto as Exhibit 99.2 and incorporated herein by reference is a schedule summarizing the Company's quarter-to-date charge to earnings, based on market conditions and prices as of March 5, 2008, resulting from each form of support the Company has provided to date.
