Table of Contents

## AQUA AMERICA, INC. AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(In thousands of dollars, except per share amounts)

(UNAUDITED)

## Note 1 – Basis of Presentation

The accompanying consolidated balance sheets and statements of capitalization of Aqua America, Inc. and subsidiaries (the “Company”) at March 31, 2015, the consolidated statements of net income and comprehensive income for the three months ended March 31, 2015 and 2014, the consolidated statements of cash flow for the three months ended March 31, 2015 and 2014, and the consolidated statement of equity for the three months ended March 31, 2015 are unaudited, but reflect all adjustments, consisting of only normal recurring accruals, which are, in the opinion of management, necessary to present fairly the consolidated financial position, the consolidated changes in equity, the consolidated results of operations, and the consolidated cash flow for the periods presented. Because they cover interim periods, the statements and related notes to the financial statements do not include all disclosures and notes normally provided in annual financial statements and, therefore, should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2014. The results of operations for interim periods may not be indicative of the results that may be expected for the entire year. The December 31, 2014 consolidated balance sheet data presented herein was derived from the Company’s December 31, 2014 audited consolidated financial statements, but does not include all disclosures and notes normally provided in annual financial statements.

## Note 2 – Goodwill

The following table summarizes the changes in the Company’s goodwill, by business segment:

	Regulated Segment	Other	Consolidated
Balance at December 31, 2014	\$ 24,564	\$ 6,620	\$ 31,184
Goodwill acquired	-	12	12
Reclassifications (to) from utility plant acquisition adjustment, net	2,758	-	2,758
Balance at March 31, 2015	\$ 27,322	\$ 6,632	\$ 33,954

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

The reclassification of goodwill to utility plant acquisition adjustment in the table above results from a mechanism approved by the applicable public utility commission. The mechanism provides for the transfer over time, and the recovery through customer rates, of goodwill associated with certain acquisitions upon achieving certain objectives.

Note 3 – Acquisitions

In December 2014, the Company acquired the water utility system assets of Lake Mohawk and Lake Tomahawk utilities located in Northeastern Ohio serving approximately 1,250 customers. The total purchase price consisted of \$1,770 in cash.

In December 2014, the Company acquired a non-regulated business that specializes in providing water distribution system services to prevent the contamination of potable water, including training to waterworks operators. The total purchase price consisted of \$1,800, of which \$700 was paid in the first quarter of 2015.

In September 2014, the Company acquired the water and wastewater utility system assets of Texas H2O, Inc. located in Mansfield, Texas serving approximately 1,100 customers. The total purchase price consisted of \$2,796 in cash.

In September 2014, the Company acquired the water utility system assets of Lake Caroline Water Co. located in Caroline County, Virginia serving approximately 1,040 customers. The total purchase price consisted of \$1,377 in cash.

In August 2014, the Company acquired a non-regulated business that specializes in the inspection, cleaning and repair of storm and sanitary sewer lines. The total purchase price consisted of \$3,010, of which a total of \$810 is contingent upon satisfying certain annual performance targets over a three-year period.

In May 2014, the Company entered into an asset purchase agreement for the acquisition of the water and wastewater utility system assets of North Maine Utilities owned by the Village of Glenview, Illinois serving approximately 7,200 customers, for cash at closing of \$22,000. On April 1, 2015, the Illinois Commerce Commission approved this transaction, and on April 30, 2015, we completed this acquisition. As of the date of issuance of the financial statements, the initial accounting of the purchase price allocation for this acquisition is incomplete.

In March 2014, the Company acquired the wastewater utility system assets of Penn Township located in Chester County, Pennsylvania serving approximately 800 customers. The total purchase price consisted of \$3,668 in cash.

#### Note 4 – Discontinued Operations

In December 2014, we completed the sale of our water utility system in southwest Allen County, Indiana to the City of Fort Wayne, Indiana. The completion of this sale settled the dispute concerning the City of Fort Wayne's valuation of the northern portion of our water and wastewater utility systems, which were

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

acquired by the City of Fort Wayne in February 2008, by eminent domain. In addition, as a result of this transaction, Aqua Indiana will expand its sewer customer base by accepting new wastewater flows from the City of Fort Wayne.

In March 2014, we completed the sale of our wastewater treatment facility in Georgia.

The operating results and cash flows of the Company's operations named above, during the periods owned, have been presented in the Company's consolidated statements of net income and consolidated statements of cash flow as discontinued operations. These operations were included in the Company's "Regulated" segment.

A summary of discontinued operations presented in the consolidated statements of net income include the following:

	Three Months Ended March 31, 2014
Operating revenues	\$ 1,579
Total operating expenses	673
Operating income	906
Other expense:	
Loss on sale	134
Income from discontinued operations before income taxes	772
Provision for income taxes	314
Income from discontinued operations	\$ 458

As of March 31, 2015 and December 31, 2014, there were no assets or liabilities associated with the Company's discontinued operations.

AQUA AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

Note 5 – Capitalization

In February 2015, the Company renewed its universal shelf registration, which had expired in February 2015, through a filing with the Securities and Exchange Commission (“SEC”) to allow for the potential future sale by the Company, from time to time, in one or more public offerings, of an indeterminate amount of our common stock, preferred stock, debt securities and other securities specified therein at indeterminate prices.

In February 2015, the Company filed a registration statement with the SEC to update an existing filing which permits the offering, from time to time, of an aggregate of \$500,000 in shares of common stock and shares of preferred stock in connection with acquisitions. The form and terms of any securities issued under these shelf registration statements will be determined at the time of issuance.

Note 6 – Fair Value of Financial Instruments

The Company follows the Financial Accounting Standards Board’s (“FASB”) accounting guidance for fair value measurements and disclosures, which defines fair value and establishes a framework for using fair value to measure assets and liabilities. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1: unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted market prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in non-active markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: inputs that are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation techniques used to measure fair value or asset or liability transfers between the levels of the fair value hierarchy for the quarter ended March 31, 2015.

Financial instruments are recorded at carrying value in the financial statements and approximate fair value as of the dates presented. The fair value of these instruments is disclosed below in accordance with current accounting guidance related to financial instruments.

The fair value of funds restricted for construction activity and loans payable are determined based on their carrying amount and utilizing Level 1 methods and assumptions. As of March 31, 2015 and December 31,

(In thousands of dollars, except per share amounts)

(UNAUDITED)

2014, the carrying amount of the Company's funds restricted for construction activity was \$15 and \$47, respectively, which equates to their estimated fair value. As of March 31, 2015 and December 31, 2014, the carrying amount of the Company's loans payable was \$33,062 and \$18,398, respectively, which equates to their estimated fair value. The fair value of cash and cash equivalents, which is comprised of a money market fund, is determined based on the net asset value per unit utilizing Level 2 methods and assumptions. As of March 31, 2015 and December 31, 2014, the carrying amounts of the Company's cash and cash equivalents was \$9,274 and \$4,138, respectively, which equates to their fair value.

The carrying amounts and estimated fair values of the Company's long-term debt is as follows:

	March 31, 2015	December 31, 2014
Carrying Amount	\$ 1,642,022	\$ 1,619,270
Estimated Fair Value	1,682,623	1,694,424

The fair value of long-term debt has been determined by discounting the future cash flows using current market interest rates for similar financial instruments of the same duration utilizing Level 2 methods and assumptions. The Company's customers' advances for construction have a carrying value of \$75,833 as of March 31, 2015, and \$78,301 as of December 31, 2014. Their relative fair values cannot be accurately estimated because future refund payments depend on several variables, including new customer connections, customer consumption levels, and future rate increases. Portions of these non-interest bearing instruments are payable annually through 2025 and amounts not paid by the respective contract expiration dates become non-refundable. The fair value of these amounts would, however, be less than their carrying value due to the non-interest bearing feature.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

## Note 7 – Net Income per Common Share

Basic net income per common share is based on the weighted average number of common shares outstanding. Diluted net income per common share is based on the weighted average number of common shares outstanding and potentially dilutive shares. The dilutive effect of employee stock-based compensation is included in the computation of diluted net income per common share. The dilutive effect of stock-based compensation is calculated using the treasury stock method and expected proceeds upon exercise or issuance of the stock-based compensation. The treasury stock method assumes that the proceeds from the exercise of stock options are used to purchase the Company's common stock at the average market price during the period. The following table summarizes the shares, in thousands, used in computing basic and diluted net income per common share:

	Three Months Ended March 31,	
	2015	2014
Average common shares outstanding during the period for basic computation	176,888	176,839
Dilutive effect of employee stock-based compensation	904	971
Average common shares outstanding during the period for diluted computation	177,792	177,810

For the three months ended March 31, 2015 and 2014, all of the Company's employee stock options were included in the calculations of diluted net income per share as the calculated cost to exercise the stock options was less than the average market price of the Company's common stock during these periods.

Note 8 – Stock-based Compensation

Under the Company’s 2009 Omnibus Equity Compensation Plan, as amended as of February 27, 2014, (the “2009 Plan”), as approved by the Company’s shareholders to replace the 2004 Equity Compensation Plan (the “2004 Plan”), stock options, stock units, stock awards, stock appreciation rights, dividend equivalents, and other stock-based awards may be granted to employees, non-employee directors, and consultants and advisors. The 2009 Plan authorizes 6,250,000 shares for issuance under the plan. A maximum of 3,125,000 shares under the 2009 Plan may be issued pursuant to stock awards, stock units and other stock-based awards, subject to adjustment as provided in the 2009 Plan. During any calendar year, no individual may be granted (i) stock options and stock appreciation rights under the 2009 Plan for more than 500,000 shares of Company stock in the aggregate or (ii) stock awards, stock units or other stock-based awards under the 2009 Plan for more than 500,000 shares of Company stock in the aggregate, subject to adjustment as provided in the 2009 Plan. Awards under the 2009 Plan are made by a committee of the Board of Directors of the Company, or in the case of awards to non-employee directors, by the Board of Directors of the Company. At March 31, 2015, 4,252,788 shares underlying stock-based compensation awards were still available for grants under the 2009 Plan. No further grants may be made under the 2004 Plan.

Performance Share Units – A performance share unit (“PSU”) represents the right to receive a share of the Company’s common stock if specified performance goals are met over the three year performance period

Table of Contents

## AQUA AMERICA, INC. AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

specified in the grant, subject to exceptions through the respective vesting period, generally three years. Each grantee is granted a target award of PSUs, and may earn between 0% and 200% of the target amount depending on the Company's performance against the performance goals. The following table provides compensation costs for stock-based compensation related to PSUs:

	Three Months Ended March 31,	
	2015	2014
Stock-based compensation within operations and maintenance expenses	\$ 1,078	\$ 1,002
Income tax benefit	439	410

The following table summarizes nonvested PSU transactions for the three months ended March 31, 2015:

	Number of Share Units	Weighted Average Fair Value
Nonvested share units at beginning of period	582,644	\$ 22.98
Granted	123,820	26.54
Performance criteria adjustment	5,114	25.59
Forfeited	(3,713)	25.69
Share units vested	(34,500)	26.88
Share units issued	(217,014)	18.49
Nonvested share units at end of period	456,351	\$ 25.79

A portion of the fair value of PSUs was estimated at the grant date based on the probability of satisfying the market-based conditions associated with the PSUs using the Monte Carlo valuation method, which assesses probabilities of various outcomes of market conditions. The other portion of the fair value of the PSUs is based on the fair market value of the Company's stock at the grant date, regardless of whether the market-based condition is satisfied. The per unit weighted-average fair value at the date of grant for PSUs granted during the three months ended March 31, 2015 and 2014 was \$26.54 and \$25.31, respectively. The fair value of each PSU grant is amortized monthly into compensation expense on a straight-line basis over their respective vesting periods, generally 36 months. The accrual of compensation costs is based on our estimate of the final expected value of the award, and is adjusted as required for the portion based on the performance-based condition. The Company assumes that forfeitures will be minimal, and recognizes forfeitures as they occur, which results in a reduction in compensation expense. As the payout of the PSUs includes dividend equivalents, no separate dividend yield assumption is required in calculating the fair value of the PSUs. The recording of compensation expense for PSUs has no impact on net cash flows.

Restricted Stock Units – A restricted stock unit (“RSU”) represents the right to receive a share of the Company's common stock. RSUs are eligible to be earned at the end of a specified restricted period, generally three years, beginning on the date of grant. In some cases the right to receive the shares is subject to certain performance goals established at the time the grant is made. The Company assumes that forfeitures

Table of Contents

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

will be minimal, and recognizes forfeitures as they occur, which results in a reduction in compensation expense. As the payout of the RSUs includes dividend equivalents, no separate dividend yield assumption is required in calculating the fair value of the RSUs. The following table provides compensation costs for stock-based compensation related to RSUs:

	Three Months Ended March 31,	
	2015	2014
Stock-based compensation within operations and maintenance expenses	\$ 263	\$ 236
Income tax benefit	109	98

The following table summarizes nonvested RSU transactions for the three months ended March 31, 2015:

	Number of Stock Units	Weighted Average Fair Value
Nonvested stock units at beginning of period	122,565	\$ 22.29
Granted	37,650	26.26
Stock units vested but not paid	11,500	17.99
Stock units vested and paid	(63,387)	19.44
Forfeited	-	-
Nonvested stock units at end of period	108,328	\$ 24.88

The per unit weighted-average fair value at the date of grant for RSUs granted during the three months ended March 31, 2015 and 2014 was \$26.26 and \$24.80, respectively.

## Note 9 – Pension Plans and Other Postretirement Benefits

The Company maintains a qualified defined benefit pension plan (the “Pension Plan”), a nonqualified pension plan and other postretirement benefit plans for certain of its employees. The net periodic benefit cost is based on estimated values and an extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the Company’s employees, mortality, turnover, and medical costs. The following tables provide the components of net periodic benefit cost:

	Pension Benefits Three Months Ended March 31,	
	2015	2014
Service cost	\$ 925	\$ 1,143
Interest cost	3,222	3,512
Expected return on plan assets	(4,674)	(4,305)
Amortization of prior service cost	43	69
Amortization of actuarial loss	1,532	500
Net periodic benefit cost	\$ 1,048	\$ 919
	Other Postretirement Benefits Three Months Ended March 31,	
	2015	2014
Service cost	\$ 406	\$ 312
Interest cost	758	737
Expected return on plan assets	(730)	(683)
Amortization of prior service cost	(54)	(74)
Amortization of actuarial loss	354	82

Edgar Filing: AQUA AMERICA INC - Form 10-Q

Net periodic benefit cost	\$ 734	\$ 374
---------------------------	--------	--------

The Company made cash contributions of \$6,878 to its Pension Plan during the first three months of 2015, and intends to make cash contributions of \$6,878 to the Pension Plan during the remainder of 2015.

Note 10 – Water and Wastewater Rates

During the first three months of 2015, the Company's operating divisions in Illinois, Ohio, and Texas were granted base rate increases designed to increase total operating revenues on an annual basis by \$3,347. Further, during the first three months of 2015, the Company's operating divisions in Illinois and North Carolina received approval to bill infrastructure rehabilitation surcharges designed to increase total operating revenues on an annual basis by \$345.

## Note 12 – Segment Information

The Company has identified ten operating segments and has one reportable segment named the “Regulated” segment. The reportable segment is comprised of eight operating segments for the Company’s water and wastewater regulated utility companies which are organized by the states where we provide these services. In addition, two segments are not quantitatively significant to be reportable and are comprised of the Company’s non-regulated subsidiaries: Aqua Resources, Inc. and Aqua Infrastructure, LLC. Aqua Resources, Inc. provides liquid waste hauling and disposal; water and wastewater service through operating and maintenance contracts with municipal authorities and other parties in close proximity to our utility companies’ service territories; offers, through a third party, water and wastewater line repair service and protection solutions to households; inspects, cleans and repairs storm and sanitary wastewater lines; installs and tests devices that prevent the contamination of potable water; designs and builds water and wastewater systems; and provides other non-regulated water and wastewater services. Aqua Infrastructure, LLC provides non-utility raw water supply services for firms in the natural gas drilling industry. These two segments are included as a component of “Other” in the tables below. Also included in “Other” are corporate costs that have not been allocated to the Regulated segment and intersegment eliminations. Corporate costs include general and administrative expense, and interest expense.

The following table presents information about the Company’s reportable segment:

	Three Months Ended March 31, 2015			Three Months Ended March 31, 2014		
	Regulated	Other	Consolidated	Regulated	Other	Consolidated
Operating revenues	\$ 180,564	\$ 9,762	\$ 190,326	\$ 178,199	\$ 4,473	\$ 182,672

Consolidated	\$ 5,477,732	\$ 5,406,752

## Note 13 – Commitments and Contingencies

The Company is routinely involved in various disputes, claims, lawsuits and other regulatory and legal matters, including both asserted and unasserted legal claims, in the ordinary course of business. The status of each such matter, referred to herein as a loss contingency, is reviewed and assessed in accordance with applicable accounting rules regarding the nature of the matter, the likelihood that a loss will be incurred, and the amounts involved. As of March 31, 2015, the aggregate amount of \$11,994 is accrued for loss contingencies and is reported in the Company's consolidated balance sheet as other accrued liabilities and other liabilities. These accruals represent management's best estimate of probable loss (as defined in the accounting guidance) for loss contingencies or the low end of a range of losses if no single probable loss can be estimated. For some loss contingencies, the Company is unable to estimate the amount of the probable loss or range of probable losses. While the final outcome of these loss contingencies cannot be predicted with certainty, and unfavorable outcomes could negatively impact the Company, at this time in the opinion of management, the final resolution of these matters are not expected to have a material adverse effect on the Company's financial position, results of operations or cash flows. Further, the Company has insurance coverage for certain of these loss contingencies, and as of March 31, 2015, estimates that approximately \$1,267 of the amount accrued for these matters are probable of recovery through insurance, which amount is also reported in the Company's consolidated balance sheet as deferred charges and other assets, net.

In addition to the aforementioned loss contingencies, the Company self-insures its employee medical benefit program, and maintains stop-loss coverage to limit the exposure arising from these claims. The Company's reserve for these

claims totaled \$1,468 at March 31, 2015 and represents a reserve for unpaid claim costs, including an estimate for the cost of incurred but not reported claims.

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

Note 14 – Income Taxes

During the three months ended March 31, 2015, the Company utilized \$5,967 of its Federal net operating loss carryforward (“NOL”). In addition, during the three months ended March 31, 2015, the Company utilized \$374 of its state NOL carryforward. As of March 31, 2015, the balance of the Company’s Federal NOL was \$203,606. The Company believes its Federal NOL carryforward is more likely than not to be recovered and requires no valuation allowance. As of March 31, 2015, the balance of the Company’s gross state NOL was \$554,114, a portion of which is offset by a valuation allowance because the Company does not believe the NOLs are more likely than not to be realized. The Company’s Federal and state NOL carryforwards begin to expire in 2032 and 2023, respectively. The Company has unrecognized tax positions that result in the associated tax benefit being unrecognized. The Company’s Federal and state NOL carryforwards are reduced by an unrecognized tax position, on a gross basis, of \$56,826 and \$83,543, respectively. The amounts of the Company’s Federal and state NOL carryforwards prior to being reduced by the unrecognized tax positions were \$260,432 and \$637,657, respectively. The Company records its unrecognized tax benefit as a reduction to its deferred income tax liability.

In accordance with a 2012 settlement agreement with the Pennsylvania Public Utility Commission, Aqua Pennsylvania expenses, for tax purposes, qualifying utility asset improvement costs, which results in a substantial reduction in income tax expense and greater net income and cash flows. The Company’s effective income tax rate for the first quarter of 2015 and 2014, for its continuing operations, was 8.6% and 10.9%, respectively.

As of March 31, 2015, the total gross unrecognized tax benefit was \$25,314, of which \$13,419, if recognized, would affect the Company’s effective tax rate as a result of the regulatory treatment afforded for qualifying infrastructure improvements in Pennsylvania. At December 31, 2014, the Company had unrecognized tax benefits of \$25,292.

Accounting rules for uncertain tax positions specify that tax positions for which the timing of resolution is uncertain should be classified as long-term liabilities. Judgment is required in evaluating the Company’s uncertain tax positions and determining the provision for income taxes. Management believes that an adequate provision has been made for any adjustments that may result from tax examinations. Although the timing of income tax audit resolutions and negotiations with taxing authorities is highly uncertain, the Company does not anticipate a significant change to the total amount of unrecognized income tax benefits within the next 12 months.

Note 15 – Recent Accounting Pronouncements

In April 2015, the FASB issued updated accounting guidance on simplifying the presentation of debt issuance costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying value of the associated debt liability. Previously, debt issuance costs were presented in the balance sheet as a deferred charge. The accounting standard is effective for reporting periods beginning after December 15, 2015, and will be applied retrospectively. The Company does not expect the provisions of this accounting standard to have a material impact on its results of operations or financial position.

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(In thousands of dollars, except per share amounts)

(UNAUDITED)

In August 2014, the FASB issued an accounting standard that will require management to assess an entity's ability to continue as a going concern for each annual and interim reporting period and to provide related footnote disclosures in circumstances in which substantial doubt exists. The accounting standard is effective in the first annual reporting period ending after December 15, 2016. The Company does not expect the provisions of this accounting standard to have an impact on its results of operations or financial position.

In May 2014, the FASB issued updated accounting guidance on recognizing revenue from contracts with customers, which outlines a single comprehensive model that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. The updated guidance also requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to fulfill a contract. The updated guidance is proposed to be effective for reporting periods beginning after December 15, 2017, and will be applied retrospectively. The Company is currently evaluating the requirements of the updated guidance to determine the impact of adoption.

In April 2014, the FASB issued updated accounting guidance which changes the criteria for determining which disposals can be presented as discontinued operations and modifies related disclosure requirements. The updated guidance is effective prospectively for reporting periods beginning after December 15, 2014, with early adoption available. The Company adopted the provisions of the updated accounting guidance for its quarterly reporting period beginning January 1, 2015, and the adoption of the revised guidance did not have an impact on the Company's consolidated results of operations or consolidated financial position.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(In thousands of dollars, except per share amounts)

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

This Management’s Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Quarterly Report contain, in addition to historical information, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements address, among other things: the projected impact of various legal proceedings; the projected effects of recent accounting pronouncements; prospects, plans, objectives, expectations and beliefs of management, as well as information contained in this report where statements are preceded by, followed by or include the words “believes,” “expects,” “anticipates,” “plans,” “future,” “potential,” “probably,” “predictions,” “intends,” “will,” “continue” or the negative of such terms or similar expressions. Forward-looking statements are based on a number of assumptions concerning future events, and are subject to a number of risks, uncertainties and other factors, many of which are outside our control, which could cause actual results to differ materially from those expressed or implied by such statements. These risks and uncertainties include, among others: the effects of regulation, abnormal weather, changes in capital requirements and funding, acquisitions, changes to the capital markets, and our ability to assimilate acquired operations, as well as those risks, uncertainties and other factors discussed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 under the captions “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in such report. As a result, readers are cautioned not to place undue reliance on any forward-looking statements. We undertake no obligation to update or revise forward-looking statements, whether as a result of new information, future events or otherwise.

General Information

Aqua America, Inc. (“we”, “us”, “our” or the “Company”), a Pennsylvania corporation, is the holding company for regulated utilities providing water or wastewater services to what we estimate to be almost three million people in Pennsylvania, Ohio, Texas, Illinois, North Carolina, New Jersey, Indiana, and Virginia. Our largest operating subsidiary, Aqua

Pennsylvania, Inc., provides water or wastewater services to approximately one-half of the total number of people we serve, who are located in the suburban areas in counties north and west of the City of Philadelphia and in 26 other counties in Pennsylvania. Our other regulated utility subsidiaries provide similar services in seven other states. In addition, the Company's non-regulated subsidiary, Aqua Resources, Inc., provides liquid waste hauling and disposal; water and wastewater service through operating and maintenance contracts with municipal authorities and other parties close to our utility companies' service territories; offers, through a third party, water and wastewater line repair service and protection solutions to households; inspects, cleans and repairs storm and sanitary wastewater lines; installs and tests devices that prevent the contamination of potable water; designs and builds water and wastewater systems; and provides other non-regulated water and wastewater services. Lastly, the Company's non-regulated subsidiary, Aqua Infrastructure, LLC, provides non-utility raw water supply services for firms in the natural gas drilling industry.

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

(In thousands of dollars, except per share amounts)

Aqua America, Inc., which prior to its name change in 2004 was known as Philadelphia Suburban Corporation, was formed in 1968 as a holding company for its primary subsidiary, Aqua Pennsylvania, formerly known as Philadelphia Suburban Water Company. Since the early 1990s, we have embarked on a growth-through-acquisition strategy focused on water and wastewater operations. Our most significant transactions to date have been the merger with Consumers Water Company in 1999, the acquisition of the regulated water and wastewater operations of AquaSource, Inc. in 2003, the acquisition of Heater Utilities, Inc. in 2004, and the acquisition of American Water Works Company, Inc.'s regulated operations in Ohio in 2012. Since the early 1990s, our business strategy has been primarily directed toward the regulated water and wastewater utility industry, where we have more than quadrupled the number of regulated customers we serve, and has extended our regulated operations from southeastern Pennsylvania to include operations in seven other states.

Beginning in 2010, and substantially completed in 2013, we pursued a portfolio rationalization strategy to focus our operations in areas where we have critical mass and economic growth potential and to divest operations where limited customer growth opportunities exist, or where we are unable to achieve favorable operating results or a return on equity that we consider acceptable. In 2014, we sold our operation in Georgia; in 2013, we sold our operations in Florida; in 2012, we sold our operations in Maine and New York; in 2011, we sold our operations in Missouri; and in 2010, we sold our operations in South Carolina. In connection with the sale of our New York and Missouri operations, we acquired additional utility systems (and customers) in Ohio and Texas, two of the larger states in our portfolio.

In December 2014, we completed the sale of our water utility system in southwest Allen County, Indiana to the City of Fort Wayne, Indiana. The completion of this sale settled the dispute concerning the City of Fort Wayne's valuation of the northern portion of our water and wastewater utility systems, which were acquired by the City of Fort Wayne in February 2008, by eminent domain. In addition, as a result of this transaction, Aqua Indiana will expand its sewer customer base by accepting new wastewater flows from the City of Fort Wayne.

We have accounted for the sale of our operation in Georgia and disposition of our water utility system in southwest Allen County, Indiana as discontinued operations.

The following discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes.

#### Financial Condition

During the first three months of 2015, we had \$70,284 of capital expenditures, issued \$52,629 of long-term debt, and repaid debt and made sinking fund contributions and other loan repayments of \$29,800. The capital expenditures were related to improvements to treatment plants, new and rehabilitated water mains, tanks, hydrants, and service lines, well and booster improvements, and other enhancements and improvements. The issuance of long-term debt was comprised principally of the funds borrowed under our revolving credit facility of \$51,000.

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

(In thousands of dollars, except per share amounts)

At March 31, 2015 we had \$9,274 of cash and cash equivalents compared to \$4,138 at December 31, 2014. During the first three months of 2015, we used internally generated funds and the proceeds from the issuance of long-term debt to fund the cash requirements discussed above and to pay dividends.

At March 31, 2015, our \$200,000 unsecured revolving credit facility, which expires in March 2017, had \$65,440 available for borrowing. At March 31, 2015, we had short-term lines of credit of \$160,500, of which \$127,438 was available for borrowing. One of our short-term lines of credit is an Aqua Pennsylvania \$100,000 364-day unsecured revolving credit facility with four banks, which is used to provide working capital, and as of March 31, 2015, \$71,678 was available for borrowing.

Our short-term lines of credit of \$160,500 are subject to renewal on an annual basis. Although we believe we will be able to renew these facilities, there is no assurance that they will be renewed, or what the terms of any such renewal will be.

The Company's consolidated balance sheet historically has had a negative working capital position whereby routinely our current liabilities exceed our current assets. Management believes that internally generated funds along with existing credit facilities and the proceeds from the issuance of long-term debt will be adequate to provide sufficient working capital to maintain normal operations and to meet our financing requirements for at least the next twelve months.

On June 7, 2012, Aqua Pennsylvania reached a settlement agreement in its rate filing with the Pennsylvania Public Utility Commission, which in addition to a water rate increase, provided for a reduction in current income tax expense as a result of the recognition of qualifying income tax benefits upon Aqua Pennsylvania changing its tax accounting method to permit the expensing of qualifying utility asset improvement costs that have historically been capitalized and depreciated for book and tax purposes. In December 2012, Aqua Pennsylvania implemented this change, which resulted in a substantial reduction in income tax expense and greater net income and cash flow, and as a result allowed Aqua Pennsylvania to suspend its Distribution System Improvement Charges in 2013 and lengthen the amount of time

until the next Aqua Pennsylvania rate case is filed. During 2013 and 2014, our non-Pennsylvania regulated operating divisions implemented this change. These divisions currently do not employ a method of accounting that provides for a reduction in current income taxes as a result of the recognition of income tax benefits, and as such the change in the Company's tax method of accounting in these other operating divisions has no impact on our effective income tax rate.

## Results of Operations

### Analysis of First Quarter of 2015 Compared to First Quarter of 2014

Unless specifically noted, the following discussion of the Company's results of operations for the first quarter of 2015 refers to the Company's results of operations from continuing operations.

Revenues increased by \$7,654 or 4.2%, primarily due to an increase in non-regulated revenues of \$4,785 associated with acquisitions in Aqua Resources, an increase in water and wastewater rates of \$2,877, and

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

(In thousands of dollars, except per share amounts)

additional water and wastewater revenues of \$918 associated with a larger customer base due to acquisitions, offset by a decrease in customer water consumption and a decrease in infrastructure rehabilitation surcharges of \$869.

Operations and maintenance expenses increased by \$1,503 or 2.1%, primarily due to additional operating costs associated with acquired utility systems and other growth ventures of \$4,362 and an increase in water production costs of \$785, offset by a decrease in pension benefits expense of \$1,209, reduced operating costs of \$1,017 associated with severe winter weather conditions experienced in many of our service territories in the first quarter of 2014, and a decrease in the Company's self-insured employee medical benefit program expense of \$929. The increase in water production costs is primarily due to an increase in energy costs resulting from the extreme cold temperatures experienced in many of our service territories in the first quarter of 2015.

Depreciation expense decreased by \$481 or 1.6%, primarily due to the implementation of new depreciation rates for our Pennsylvania operating subsidiary.

Amortization expense decreased by \$284, primarily due to the completion of the recovery of our costs associated with various completed rate filings.

Taxes other than income taxes increased by \$2,519 or 20.8%, primarily due to an increase in property taxes of \$2,001 primarily due to the effect of a non-recurring reduction in property taxes for our Ohio operating subsidiary which occurred in the first quarter of 2014.

Interest expense decreased by \$645 or 3.3%, primarily due to a decrease in the effective interest rate on average borrowings as compared to the first quarter of 2014, offset by an increase in average borrowings.

In the first quarter of 2015 we recognized a gain on sale of other assets of \$169 and in the first quarter of 2014 we recognized a loss on sale of other assets of \$348. The change of \$517 is primarily due to the effect of the write-off in the first quarter of 2014 of a marketable security of \$443.

Our effective income tax rate was 8.6% in the first quarter of 2015 and 10.9% in the first quarter of 2014. The effective income tax rate decreased due to the effect of additional tax deductions recognized in the first quarter of 2015 for certain qualifying infrastructure improvements for Aqua Pennsylvania.

Income from continuing operations increased by \$6,144 or 14.5%, primarily as a result of the factors described above. On a diluted per share basis, income from continuing operations increased by \$0.03, reflecting the change in income from continuing operations.

Income from discontinued operations decreased by \$458, primarily as a result of the sale of our water utility system in southwest Allen County, Indiana completed in the fourth quarter of 2014.

Table of Contents

AQUA AMERICA, INC. AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)

(In thousands of dollars, except per share amounts)

Net income attributable to common shareholders increased by \$5,686 or 13.3%, primarily as a result of the factors described above. On a diluted per share basis, earnings increased by \$0.03 reflecting the change in net income attributable to common shareholders.

Impact of Recent Accounting Pronouncements

We describe the impact of recent accounting pronouncements in Note 15, Recent Accounting Pronouncements, of the consolidated financial statements in this report.

Table of Contents

Item 3 – Quantitative and Qualitative Disclosures About Market Risk

We are subject to market risks in the normal course of business, including changes in interest rates and equity prices. There have been no significant changes in our exposure to market risks since December 31, 2014. Refer to Item 7A of the Company’s Annual Report on Form 10-K for the year ended December 31, 2014 for additional information.

Item 4 – Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report are effective such that the information required to be disclosed by us in reports filed under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and (ii) accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure.

(b) Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1 – Legal Proceedings

We are party to various legal proceedings. Although the results of legal proceedings cannot be predicted with certainty, there are no pending legal proceedings to which we or any of our subsidiaries is a party or to which any of

our properties is the subject that we believe are material or are expected to have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A – Risk Factors

There have been no material changes to the risks disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014 under “Part 1, Item 1A – Risk Factors.”

## Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes the Company's purchases of its common stock for the quarter ended March 31, 2015:

Period	Issuer Purchases of Equity Securities			
	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plan or Programs (2)
January 1-31, 2015	18,488	\$ 27.30	-	1,125,348
February 1-28, 2015	122,496	\$ 26.52	-	1,125,348
March 1-31, 2015	-	\$ -	-	1,125,348
Total	140,984	\$ 26.62	-	1,125,348

- (1) These amounts consist of the following: (a) shares we acquired from employees associated with the withholding of shares to pay certain withholding taxes upon the vesting of PSUs, RSUs, or restricted stock; and (b) shares we acquired from employees who elected to pay the exercise price of their stock options (and then hold shares of the stock), upon exercise, by delivering to us shares of our common stock in accordance with the terms of our equity compensation plan that were previously approved by our shareholders and disclosed in our proxy statements. These features of our equity compensation plan are available to all employees who receive stock-based compensation under the plan. We purchased these shares at their fair market value, as determined by reference to the closing price of our common stock on the day of vesting of the PSU, RSU, or restricted stock awards or on the day prior to the option exercise.
- (2) On October 4, 2013, our Board of Directors approved a resolution authorizing the purchase of up to 685,348 shares. This authorization renewed the number of shares that had remained, when affected for stock splits, from an existing buy-back authorization from 1997. As of March 31, 2015, 125,348 shares remain available for purchase under this program. The program has no fixed expiration date. In December 2014, our Board of Directors authorized a share buyback program of up to 1,000,000 shares to minimize share dilution through timely and orderly share repurchases. This program expires on the earliest of December 31, 2015 or when all authorized repurchases have been made.

Item 6 – Exhibits

The information required by this Item is set forth in the Exhibit Index hereto which is incorporated herein by reference.
