LETTER TO OUR STOCKHOLDERS
FROM OUR CHAIRMAN OF THE BOARD AND OUR LEAD INDEPENDENT DIRECTOR

April 30, 2019

Dear Stockholder:

On behalf of our Board of Directors and management team, thank you for your continued support of Kaiser Aluminum and your participation in this year's Annual Meeting of Stockholders. It is our pleasure to invite you to attend the Annual Meeting of Kaiser Aluminum Corporation to be held at the Company's corporate office, located at 27422 Portola Parkway, Suite 200, Foothill Ranch, California 92610, on Thursday, June 6, 2019, at 9:00 a.m., local time. While the company does not expect to make a separate presentation, our directors and officers will be present at the Annual Meeting and will be available to respond to any questions you may have.

Your vote is very important to us. Whether or not you plan to attend the Annual Meeting in person, we urge you to vote your shares as promptly as possible. Details of the business to be conducted at the Annual Meeting are included in this proxy statement, which we encourage you to read carefully. You may submit your voting instructions over the Internet or by telephone as indicated on the enclosed proxy card or by completing, signing and dating the enclosed proxy card and returning it by mail in the accompanying envelope. If you plan to attend in person, please review the information on attendance provided on page 2 of the proxy statement.

We would like to share with you several areas of particular significance in advance of our Annual Meeting and in connection with our distribution of this proxy statement:

BUSINESS STRATEGY AND PERFORMANCE HIGHLIGHTS

Our success over the years has been driven by our people and a highly focused and consistent strategy, overseen by our Board, to drive steady continuous improvement. We pursue six key strategic initiatives that align our actions with our corporate values to ensure that our long-term success is driven by practices that are economically, environmentally and socially responsible.

| | |
|---|--|
| Advance our position as the supplier of choice | Enhance quality and depth of technical and managerial talent |
| Achieve and sustain a position as a low cost producer | Sustain financial strength and flexibility |
| Pursue profitable sales growth | Enhance our standing as a valued corporate citizen |

This strategy has been successful in uniquely positioning our Company to benefit all of our stakeholders, and we are confident that this strategy will continue to drive improvement in the future. With consistent execution of these strategic priorities we have achieved a strong, industry-leading business, evidenced again in 2018 by excellent results and a number of important milestones, despite formidable headwinds. We achieved record shipments, record value-added revenue, near-record adjusted EBITDA and record adjusted net income and adjusted earnings per share. In addition, we continued to invest in our platform for further growth and efficiency, and we returned approximately \$100 million to stockholders through share repurchases and dividends consistent with our capital allocation priorities.

While 2019 will present some challenges given uncertainty in aerospace and automotive demand, we remain focused on executing on our strategic initiatives to capture the full efficiency and capacity benefits from our recent Trentwood investments and to position the Company for expected strong automotive shipments growth in 2020 and 2021. We are well positioned in attractive, growing served markets, and, through a combination of capital investment and ongoing process enhancements, we expect to continue steady improvement in underlying manufacturing cost efficiency to

further drive value for all of our stakeholders. Our strong balance sheet and cash flow generation will support our growth and capital deployment priorities and provide sustainability through industry cycles.

BOARD OVERSIGHT OF STRATEGY

Our Board of Directors remains actively focused on overseeing the Company's business strategies, risk management, talent development, and succession planning and our Company's long-term strategy development and execution. In addition to ongoing programs embedded within our enterprise risk management programs, additional areas of focus including environmental, social and governance matters, are reviewed by management with our Board of Directors annually.

By focusing on our long-term outlook, we are best able to support our common goal of creating enduring value in our company and for our stockholders. We contribute to management's strategic plan by engaging the company's senior management in robust discussions about the company's overall strategy, priorities for its businesses, capital allocation, risk assessment and opportunities for continued long-term growth through our regularly scheduled meetings, including a dedicated annual strategic planning session, and throughout the year.

CORPORATE GOVERNANCE AND STOCKHOLDER ENGAGEMENT

We believe effective governance means ongoing and thoughtful evaluation of our governance structure, including our Board and board committees, and constructive stockholder engagement on evolving environmental, social and governance issues. We conduct an annual corporate governance survey of management and non-management employees in order to monitor the internal perception around a broad range of topics including the company's control environment, risk mitigation and management, the use of technology, company values and the overall "tone at the top."

Our Board of Directors values the feedback and insights gained from frequent engagement with our stockholders. In 2018, in addition to interactions regarding our financial performance, management engaged with stockholders representing approximately 55% of our outstanding shares on matters relating to our long-term business strategy and performance, corporate governance, executive compensation and corporate responsibility. We are committed to including our stockholders' perspectives in boardroom discussions, and we believe that regular engagement with our stockholders is necessary in order to ensure thoughtful and informed consideration of those matters. We look forward to continuing to engage in productive dialogue with our stockholders in 2019 and beyond.

BOARD COMPOSITION AND SUCCESSION PLANNING

Our Board is highly independent, engaged and diverse in perspective and background as reflected by the composition of our board which is currently 90% independent and 40% gender or ethnically diverse. This structure underscores the Board's belief that the Company is best served when it can draw upon members with a variety of perspectives to exercise strong and experienced oversight. We have a policy of encouraging diversity of gender, ethnicity, age and background, as well as a range of tenures on the board to ensure both continuity and fresh perspectives among our director nominees.

In addition, we recognize the importance of and remain committed to board refreshment and succession planning that ensures our directors possess a composite set of skills, experience and qualifications necessary to successfully review, challenge and help shape the Company's strategic direction. We have a robust, multi-tiered self-evaluation process, which consists of annual reviews at the Board, committee and individual director levels.

In 2018, we added a new highly qualified independent director, Emily Liggett, to our board of directors. Ms. Liggett was president and chief executive officer of Nova Torque, Inc. and has management and board experience in a variety of manufacturing companies.

In 2019, as part of our board of director's continued commitment to board refreshment, Teresa Sebastian and Donald J. Stebbins, two new highly qualified individuals, have been nominated to join the board this year, reflecting a total of four new highly qualified individuals nominated to join the board in the last five years. Ms. Sebastian is President and Chief Executive Officer of The Dominion Asset Group, was previously the Senior Vice President, General Counsel, Corporate Secretary and Internal Audit executive leader, of Darden Restaurants, Inc., and is experienced in finance, mergers and acquisitions, global transactions, internal audit, governance, enterprise risk, and compliance. Mr. Stebbins is the former President and Chief Executive Officer of Superior Industries International, Inc. and has extensive automotive industry experience, as well as experience in international business, manufacturing, sales, product innovation and development, accounting and finance, and mergers and acquisitions. Upon election of the Class I directors, our board of directors would be 91% independent and 45% gender or ethnically diverse.

CORPORATE SUSTAINABILITY MATTERS

Creating sustainable value for our stakeholders is an integral part of our corporate values, the end markets we serve, how we manage our business, and what we view as just good business practices. We conduct our operations in a sound environmental manner, and, within a culture of continuous improvement, we continually seek to improve our product quality and manufacturing efficiency through process improvement and capital investments that reduce our environmental impact and, in turn, reduce the environmental impact of our customers.

We recognize that long-term excellence requires sustainable practices, and we manage our business for long-term success in a manner that is economically, environmentally and socially responsible. In furtherance of our commitment to these matters, this past year we sought to articulate our story through our inaugural 2018 Sustainability Report that captures highlights of our sustainability culture and initiatives.

We maintain a strong focus on financial strength and flexibility and manage our liquidity and conservative capital structure to remain strong through the business and economic cycles.

Our core values drive our strategic initiatives, which are translated into annual key process indicators focused on results, and our incentive compensation structure includes performance metrics to ensure we are aligned with our common goal of creating enduring value in our company for all of our stakeholders.

We strive to be an employer of choice by providing equal opportunity employment and a non-discriminating workplace, protecting the health and safety of our employees, maintaining a positive and constructive relationship with our employees and their designated representatives, developing and empowering our employees and being responsible and active members of our communities.

We believe it is important to the success of our business that we be good stewards of our environment and resources. To that end, we focus on both compliance and ensuring that we are taking the steps now to facilitate compliance in the future. Our focus on lean manufacturing processes helps us proactively mitigate our environmental footprint.

To all of our stakeholders - customers, suppliers, investors, employees and the communities in which we operate - thank you for your ongoing contribution and support. Your efforts have made Kaiser Aluminum what it is today - a highly differentiated, well-respected leader in our industry - and a company well positioned for continued growth and success in the future.

PROXY STATEMENT SUMMARY

With consistent execution of our strategic priorities we have achieved a strong, industry-leading business, evidenced again in 2018 by excellent results and a number of important milestones, despite formidable headwinds. This summary highlights information contained elsewhere in this Proxy Statement. This summary does not contain all of the information that you should consider. We encourage you to read the entire Proxy Statement for more information about these topics prior to voting.

COMPANY OVERVIEW
 Leading North American producer of highly engineered aluminum mill products
 Focus on demanding applications for aerospace, automotive and general industrial end-markets
 Fundamental part of business model is mitigating impact of aluminum price volatility
 Long-standing customer relationships - original equipment manufacturers, tier 1 suppliers and metal service centers
 Differentiate through broad product offering and “Best in Class” customer satisfaction
 Significant investment in talent development throughout company

PERFORMANCE HIGHLIGHTS
 Achieved key cost position with plant & equipment investments at 2x rate of depreciation
 Maintained financial strength through business cycle, steadily increasing quarterly dividends
 Invested over \$750 million in organic investments and over \$140 million in bolt-on acquisitions since 2007
 Returned over \$700 million to shareholders since 2007
 Solid total stockholder return (“TSR”) over extended period (outperformed direct peers and S&P 600 Materials Index) with less volatility than many other industry participants
 Excellent results despite significant headwinds from aerospace supply chain destocking, high contained metal and freight costs and newly authorized tariffs

*See Appendix A to this Proxy Statement for reconciliations of measures from generally accepted accounting principles (“GAAP”) to non-GAAP. While our use of terms such as earnings before interest, tax, depreciation and amortization (“EBITDA”) or “adjusted” are not intended to be (and should not be relied on) in lieu of the comparable caption under GAAP to which it is reconciled, those terms are intended to provide greater clarity of the impact of certain material items on the GAAP measure and are not intended to imply those terms should be excluded.

BOARD OF DIRECTORS
 Diverse and independent Board
 Robust and multi-tiered Board and Committee annual assessment process
 Utilize internal resource and/or third party to facilitate Board and Committee evaluations

 Approximately 65% of other NEO target compensation is “at-risk”, with >50% subject to stringent performance metrics
 Compensation programs supported by best practices and aligned with our strategic objectives and stockholder interests
 Stockholder approval of compensation consistently exceeds 90%; 93% approval in 2018
 Incentive plans' financial and performance metrics continue to demand increasing levels of performance as more fully described below in our Executive Compensation Highlights

EXECUTIVE COMPENSATION HIGHLIGHTS

As noted in the letter from our Chairman and Lead Independent Director, our success over the years has been driven by our people, a highly focused and consistent strategy to drive steady continuous improvement and our pursuit of six key strategic initiatives that align our actions with our corporate values to ensure that our long-term success is driven by practices that are economically, environmentally and socially responsible.

| | |
|---|--|
| Advance our position as the supplier of choice | Enhance quality and depth of technical and managerial talent |
| Achieve and sustain a position as a low cost producer | Sustain financial strength and flexibility |
| Pursue profitable sales growth | Enhance our standing as a valued corporate citizen |

Each of those initiatives have been, and continue to be, reflected in our compensation structure. As described in further detail in the “Executive Compensation - Compensation Discussion and Analysis” section of this Proxy Statement, or CD&A, our 2018 compensation structure was developed and designed to:

- align the interest of our named executive officers and stockholders by tying a significant portion of compensation to enhancing stockholder return;
- attract, motivate and retain highly experienced executives with significant industry experience vital to our short-term and long-term success, profitability and growth;
- deliver a mix of fixed and at-risk compensation with the portion of compensation at risk increasing with seniority; and
- tie our executive compensation to our ability to pay and safety, quality, delivery, cost and individual performance directly linked to our strategic initiatives.

In 2018 the compensation of our named executive officers consisted primarily of the following components:

- a base salary targeted at the 50th percentile of our compensation peer group (1) compensating each named executive officer based on the level and scope of responsibility, individual expertise and prior experience and (2) providing a fixed amount of cash compensation upon which our named executive officers can rely;
- a short-term annual cash incentive targeted at the 50th percentile of our compensation peer group (1) payable only if our company achieved a certain adjusted earnings before interest, taxes, depreciation and amortization, or Adjusted EBITDA, performance level which has continued to increase, resulting in increasingly demanding performance required to realize the same or similar payouts year-over-year, (2) adjusted based on our (a) safety performance, (b) quality performance, (c) delivery performance, (d) cost performance, and, (e) in exceptional and rare instances approved by our compensation committee, individual and group performance, and (3) capped at three times target; and

an equity-based, long-term incentive targeted at between the 50th and 65th percentile of our compensation peer group and designed to align compensation with the interests of our stockholders and to enhance retention of our named executive officers consisting of (1) restricted stock units with three-year cliff vesting and (2) performance shares, which vest, if at all, based on our performance against demanding underlying metrics over the applicable three-year performance period.

iv

Because grants under our long-term incentive program are outstanding for three years, at any time we have three over-lapping long-term incentive programs outstanding and the underlying metrics applicable to the performance shares can vary as our compensation committee assesses the effectiveness of our outstanding programs, metrics critical to our long-term success and compensation trends. The following table describes the performance share metrics (described more fully below) we used for our 2016-2018, 2017-2019 and 2018-2020 long-term incentive programs:

| Performance Share Metrics | 2016-2018 | 2017-2019 | 2018-2020 |
|---------------------------|-----------|-----------|-----------|
| Relative TSR | 60% | 40% | 30% |
| Total Controllable Cost | 40% | 40% | 40% |
| Economic Value Added | | 20% | 30% |

We benchmark our long-term incentives at between the 50th and the 65th percentiles to (1) provide more flexibility for our compensation program where necessary and appropriate, (2) facilitate our ability to address substantive differences in the roles, scope of responsibility and experience of our named executive officers when compared to the positions reflected in our compensation peer group and (3) more heavily weight the compensation of our named executive officers to appropriately emphasize the long-term equity based pay, ensure that our named executive officers maintain a stockholder perspective, directly promote retention of key executives, ensure that a substantial portion of compensation is at risk and subject to forfeiture and link awards to our overall performance and the creation of long-term stockholder value. In addition, we compete for talent with companies much larger than us and those included in our compensation peer group and these larger companies aggressively recruit the most highly qualified talent in critical functions.

Our compensation committee, working with the compensation committee's compensation consultant, Meridian Partners, LLC (referred to herein as Meridian), reviews, evaluates and updates our compensation peer group, which includes companies in both similar and different industries, at least annually. For 2018, our compensation committee approved the 34-company peer group more fully described in our CD&A section with (1) market caps ranging from \$622 million to approximately \$9.8 billion and a median market cap of approximately \$1.8 billion and (2) revenues ranging from \$638 million to approximately \$3.1 billion and median revenue of approximately \$1.6 billion. Due to the differences in size among the companies in our peer group, Meridian uses a regression analysis to adjust survey data results based on our revenue as compared to the revenue of other companies in our peer group.

Pay for Performance

The table below summarizes the performance metrics under our 2018 short-term incentive and 2018-2020 long-term incentive plans:

| Incentive Program | Performance Metric | Weighting | Modifier | Impact on Multiplier |
|---------------------------|-------------------------|-----------|----------------------|----------------------|
| Short-Term Incentive Plan | Adjusted EBITDA | 100% | Safety (TCIR & LCIR) | +/- 10% |
| | | | Quality | +/- 10% |
| | | | Delivery | +/- 10% |
| | | | Cost | +/- 20% |
| | | | Individual* | +/- 100% |
| Long-Term Incentive Plan | Total Controllable Cost | 40% | | |
| | EVA | 30% | | |
| | TSR | 30% | | |

* As noted, individual awards are capped at three times target and the individual modifier is only used in exceptional and rare instances approved by the compensation committee.

The following summarizes our performance against the metrics under our 2018 short-term incentive and 2016-2018 long-term incentive plans:

2018 Short-Term Incentive
Adjusted EBITDA

* The targets are based on the Adjusted EBITDA required to achieve the designated return on net assets (excluding cash) plus depreciation. As noted, increasing net assets and depreciation raise the year-over-year Adjusted EBITDA targets. While we achieved strong quality performance in 2018, our safety, on-time delivery and cost performance lagged and did not meet our expectations or demanding requirements, resulting in +7%, -10%, -10% and -4% modifiers, respectively, and an overall reduction of Adjusted EBITDA multiplier of 1.4 to a final multiplier of 1.2.

FEATURES

Pay for performance

Adjusted EBITDA target determined based on return on net assets (excluding cash) plus depreciation

Modifiers for safety, quality, delivery and cost performance establishing a strong linkage to strategic non-financial results

In exceptional and rare instances approved by our compensation committee, individual adjustment up to plus or minus 100% based on actual performance, including individual, facility, and/or functional area performance

No payout unless we:

(1) achieve the threshold Adjusted EBITDA goal

(2) generate positive adjusted net income

Maximum payout capped at three times the target

Rigorous financial performance goals - target

increases with investments and increasingly

higher net assets and depreciation

Annual Performance Award Payouts under Short-Term Incentive Plans for our Named Executive Officers

The Adjusted EBITDA targets under our short-term incentive plan reflect the Adjusted EBITDA required to achieve 7.5%, 15% and 35% returns on our net assets (excluding cash) at the threshold, target and maximum payout levels and also recover our depreciation. As we have continued to invest in our business our net assets and depreciation have continued to grow, and, as a result, the Adjusted EBITDA targets have continued to increase each year. To that end, our Adjusted EBITDA performance at the target level increased 10% from 2017 to 2018 and 21% from 2016 to 2018.

The table on the right illustrates our annual Adjusted EBITDA performance multiplier for the last three years under our short-term incentive plans before the application of modifiers. See Appendix A to this Proxy Statement for reconciliations of GAAP to non-GAAP measures.

The Adjusted EBITDA Multiplier under our 2018 Short-Term Incentive Plan is the lowest in the last three years despite our near-record Adjusted EBITDA performance due to our annually increased Adjusted EBITDA targets. After the application of modifiers, the the final multipliers under our short-term incentive plan for 2016 ranged from 2.2 to 2.6 and the final multipliers under our short-term incentive plans for 2017 and 2018 were approximately 1.5 and 1.2 respectively, each reflecting the impact of our performance against demanding modifiers.

Annual Performance Award Payouts under Long-Term Incentive Plans

The table below reflects our annual performance award payouts for the last three years under our long-term incentive plans. The payout under our 2016-2018 Long-Term Incentive Plan was lower primarily as result of our lower relative TSR performance against the other companies in the S&P 600 SmallCap Materials Sector Index.

| Performance Period | Payout Year | Performance Metric | Weighting | Company Performance | Actual Payout as Percentage of Target |
|--------------------|-------------|--------------------|-----------|---------------------|---------------------------------------|
| 2016-2018 | 2019 | Relative TSR | 60 % | 45th Percentile | 90 % |
| | | Controllable Cost | 40 % | 1% Cost Reduction* | 118 % |
| | | Weighted Average | | | 101 % |
| 2015-2017 | 2018 | Relative TSR | 100 % | 81st Percentile | 170 % |
| 2014-2016 | 2017 | Relative TSR | 100 % | 63rd Percentile | 126 % |

* After offsetting underlying inflation.

Performance Share Award Payouts Based on Relative TSR

The chart below illustrates the performance share award payouts based on our relative TSR performance for the 2014-2016, 2015-2017 and 2016-2018 long-term incentive programs:

Performance shares earned, if any, are based on our TSR over the underlying three year performance period compared to the other companies comprising the S&P 600 SmallCap Materials Sector Index. In considering constituents for the S&P SmallCap 600, S&P Dow Jones Indices looks for companies (1) with market capitalizations of between \$450 million and \$2.1 billion, (2) meeting certain float requirements, (3) with a U.S. domicile, (4) required to file SEC annual reports, and (5) listed on a major U.S. exchange, among other factors.

The beginning and ending stock prices used to determine our TSR are calculated using the 20-trading day average preceding the beginning and end of the performance period.

| Percentile Ranking | Multiplier |
|--------------------|------------|
| < 25th | 0.0x |
| 25th | 0.5x |
| 50th | 1.0x |
| 75th | 1.5x |
| > 90th | 2.0x |

The performance share multiplier is determined by using straight line interpolation based on our TSR percentile ranking within our comparison group based on the table to the right:

* Reflects percentage of target. The final payout multipliers for the 2014-2016, 2015-2017 and 2016-2018 programs as a percentage of the total opportunity or maximum payout were 63%, 85% and 45%, respectively.

Performance Share Award Payout Based on Controllable Cost

Achieving and sustaining a position as a low cost producer is one of our six key strategic initiatives. For our 2016-2018 long-term incentive compensation program, 40% of the performance shares issued to our named executive

officers were subject to a controllable cost performance metric that required our company to reduce controllable costs to offset underlying inflation over the three year performance period to achieve the target payout of performance shares subject to the controllable cost metric. A 9% reduction of controllable costs after offsetting underlying inflation over the same three-year period would result in payout of performance shares equal to two times target and an increase of controllable costs of 9% or more would result in no payout of performance shares subject to the controllable cost metric.

Controllable costs are generally defined as our variable conversion costs which adjust with our product volume and mix plus corporate and plant overhead. Controllable costs also (1) include benefits because we believe that management is required to take actions to influence benefit costs over the performance period and (2) exclude, among other things, major maintenance, research and development and enterprise resource planning costs to ensure that we continue to invest in the future of our company.

2018 Total CEO Compensation

As previously noted, the mix of our CEO's total target compensation is heavily weighted toward performance-based compensation with more than 75% of the total target compensation being at-risk (short- and long-term compensation), 57% of the total target compensation being long-term, and 64% of the long-term target being allocated to performance shares.

For 2018, the benchmarking performed by Meridian reflected that the total target compensation of our CEO was 5% below the median of our compensation peer group and that our CEO's (1) base salary was approximately 8% above the median base salary, (2) short-term incentive target was approximately 28% below the median and (3) long-term incentive target was approximately 6% above the median and 15% below the 65th percentile. Regressed Equilar Executive Compensation Survey data received by our compensation committee reflected similar comparisons. Using that information, the compensation committee did not increase our CEO's 2018 base salary and, instead allocated a total increase in his 2018 total target compensation of 3% to his short- and long-term incentive compensation targets to bring his short- and long-term incentive targets closer to the median levels of our compensation peer group and continue to increase his at risk-compensation and drive the alignment reflected in our compensation philosophy.

As reflected in more detail in the Summary Compensation Table in the CD&A section of this Proxy Statement, in 2018, despite excellent performance and record shipments, record value added revenue, record adjusted earnings per share, record adjusted net income and near record Adjusted EBITDA, the total compensation of our CEO decreased by 5.5% from his 2017 total compensation and decreased by 9.7% from his 2016 total compensation. The year-over-year decreases in total compensation resulted from the increasingly demanding performance metrics in both our short-term and long-term incentive compensation plans as we continue to invest in our business, grow our net assets, increase our depreciation, increase the financial returns required to achieve target performance levels for our financial metrics and increase the level of performance required by our performance metrics and modifiers.

In summary, our incentive compensation programs are designed to demand continuous improvement in our year-over-year results for our CEO and other named executive officers to realize the same year-over-year financial benefit under our incentive compensation plans. We believe that design emphasizing the importance of successful execution of each of our six key strategic initiatives is important to our long-term success and aligns the interests of our CEO and other named executive officers with our success and our stockholders.

Important Notice Regarding the Availability of Proxy Materials for the Annual Meeting of Stockholders to be held on June 6, 2019: The Proxy Statement and our Annual Report to Stockholders are available at www.envisionreports.com/kalu.

GENERAL QUESTIONS AND ANSWERS

Q: When is the Proxy Statement being sent to stockholders and what is its purpose?

A: This Proxy Statement is first being sent to our stockholders on or about May 6, 2019 at the direction of our board of directors in order to solicit proxies for our use at the Annual Meeting.

Q: When is the Annual Meeting and where will it be held?

A: The Annual Meeting will be held on Thursday, June 6, 2019, at 9:00 a.m., local time, at our corporate office, located at 27422 Portola Parkway, Suite 200, Foothill Ranch, California 92610.

Q: Who may attend the Annual Meeting?

A: All of our stockholders may attend the Annual Meeting.

Q: Who is entitled to vote?

A: Stockholders as of the close of business on April 12, 2019 are entitled to vote at the Annual Meeting. Each share of our common stock is entitled to one vote.

Q: On what am I voting?

A: You will be voting on:

• The election of four members to our board of directors to serve until our 2022 annual meeting of stockholders;

• The approval, on a non-binding, advisory basis, of the compensation of our named executive officers as disclosed in this Proxy Statement;

• The ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019; and

• Such other business as may properly come before the Annual Meeting or any adjournments.

Q: How does the board of directors recommend that I vote?

A: The board of directors recommends that you vote your shares:

• "FOR ALL" the director nominees identified in "Proposals Requiring Your Vote - Proposal 1 - Election of Directors" below;

• "FOR" the approval, on a non-binding, advisory basis, of the compensation of our named executive officers as disclosed in this Proxy Statement; and

• "FOR" the ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019.

Q: How can I vote?

A: You can vote in person at the Annual Meeting or you can vote prior to the Annual Meeting by proxy. Whether or not you plan to attend the Annual Meeting, we urge you to vote by proxy without delay.

1

Q: How do I vote by proxy?

A: If you choose to vote your shares by proxy, you have the following options:

• Over the Internet: You can vote over the Internet at the website shown on your proxy card. Internet voting will be available 24 hours a day, seven days a week, until 11:59 p.m., Eastern Time, on Wednesday, June 5, 2019.

• By telephone: You can vote by telephone by calling the toll-free number shown on your proxy card. Telephone voting will be available 24 hours a day, seven days a week, until 11:59 p.m., Eastern Time, on Wednesday, June 5, 2019.

• By mail: You can vote by mail by completing, signing and dating your proxy card and returning it in the enclosed prepaid envelope.

Q: I want to attend the Annual Meeting and vote in person. How do I obtain directions to the Annual Meeting?

A: You may obtain directions to the Annual Meeting by calling us at (949) 614-1740.

Q: What constitutes a quorum?

As of April 12, 2019, the record date, 16,128,768 shares of our common stock were issued and outstanding. A majority of these shares present or represented by proxy will constitute a quorum for the transaction of business at the Annual Meeting. If you properly vote by proxy by submitting your voting instructions over the Internet, by telephone or by mail, then your shares will be counted as part of the quorum. Abstentions or votes that are withheld on any matter will be counted towards a quorum but will be excluded from the vote relating to the particular matter A: under consideration. Broker non-votes are counted towards a quorum but are excluded from the vote with respect to the matters for which they are applicable. A broker non-vote occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power with respect to that proposal and has not received instructions with respect to that proposal from the beneficial owner. Among our proposals, brokers will have discretionary voting power only with respect to the proposal to ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019.

Q: What are the voting requirements for the proposals?

A: There are different voting requirements for the proposals.

Each director will be elected by an affirmative vote of the majority of the votes cast with respect to the director in an uncontested election. If an incumbent director nominee receives a greater number of votes cast against his or her election than in favor of his or her election (excluding abstentions) in an uncontested election, the nominee must promptly tender his or her resignation, and the board of directors will decide, through a process managed by the nominating and corporate governance committee, whether to accept the resignation, taking into account its fiduciary duties to our company and our stockholders. The board of director's explanation of its decision will be promptly disclosed in a Form 8-K furnished to the Securities and Exchange Commission. An election of directors is considered to be contested if there are more nominees for election than positions on the board of directors to be filled by election at the meeting of stockholders. In the event of a contested election, each director will be elected by a plurality vote of the votes cast at such meeting. The election of directors at the Annual Meeting is uncontested.

• The approval of the holders of a majority of the total number of outstanding shares of our common stock present in person or represented by proxy at the Annual Meeting and actually voted on the proposal is necessary (1) to approve, on a non-binding, advisory basis, the compensation of our named executive officers as disclosed in this Proxy

Statement, and (2) to ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019. If you abstain from voting on the proposal to approve the compensation of our named executive officers as disclosed in this Proxy Statement and/or the proposal to ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019, your shares will not be counted in the vote for such proposal(s) and will have no effect on the outcome of the vote.

Q: If my shares are held in "street name" by my broker, will my broker vote my shares for me?

A: As discussed above, among our proposals, brokers will have discretionary voting power only with respect to the proposal to ratify the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019. To be sure your shares are voted, you should instruct your broker to vote your shares using the instructions provided by your broker.

Q: What will happen if the compensation of the company's named executive officers is not approved by the stockholders?

A: Because this is an advisory vote, our board of directors and compensation committee will not be bound by the approval of, or the failure to approve, the executive compensation of our named executive officers as disclosed in this Proxy Statement. The board of directors and the compensation committee, however, value the opinions that our stockholders express in their votes and will consider the outcome of the vote when determining future executive compensation programs.

Q: What will happen if the selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019 is not ratified by the stockholders?

A: Pursuant to the audit committee charter, the audit committee of our board of directors has sole authority to appoint our independent registered public accounting firm, and the audit committee will not be bound by the ratification of, or failure to ratify, the selection of Deloitte & Touche LLP. The audit committee will, however, consider any failure to ratify the selection of Deloitte & Touche LLP in connection with the appointment of our independent registered public accounting firm the following year.

Q: Can I change my vote after I give my proxy?

A: Yes. If you vote by proxy, you can revoke that proxy at any time before voting takes place at the Annual Meeting. You may revoke your proxy by:

- voting again over the Internet or by telephone no later than 11:59 p.m., Eastern Time, on Wednesday, June 5, 2019;
- submitting a properly signed proxy card with a later date;
- delivering, no later than 5:00 p.m., Eastern Time, on Wednesday, June 5, 2019, written notice of revocation to our Secretary, c/o Computershare, P.O. Box 43126, Providence, Rhode Island 02940-5138; or
- attending the Annual Meeting and voting in person.

Your attendance alone will not revoke your proxy. To change your vote, you must also vote in person at the Annual Meeting. If you instruct a broker to vote your shares, you must follow your broker's directions for changing those instructions.

Q: What does it mean if I receive more than one proxy card?

A: If you receive more than one proxy card, it is because your shares are held in more than one account. You must vote each proxy card to ensure that all of your shares are voted at the Annual Meeting.

Q: Who will count the votes?

A: Representatives of Computershare, our transfer agent, will tabulate the votes and act as inspectors of election.

Q: How much will this proxy solicitation cost?

A: We have hired MacKenzie Partners, Inc. to assist us in the distribution of proxy materials and solicitation of votes at a cost not to exceed \$10,000, plus out-of-pocket expenses. We will reimburse brokerage firms and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to the owners of our common stock. Our officers and regular employees may also solicit proxies, but they will not be specifically compensated for these services. In addition to the use of the mail, proxies may be solicited personally or by telephone by our employees or by MacKenzie Partners.

PROPOSALS REQUIRING YOUR VOTE

Proposal 1 - Election of Directors

General

We have a diverse and independent board of directors. Our board of directors currently has 10 members, consisting of our CEO and nine independent directors. Our current directors are:
Carolyn Bartholomew Lauralee E. Martin

David Foster Alfred E. Osborne, Jr., Ph.D.

L. Patrick Hassey Jack Quinn

Jack A. Hockema Thomas M. Van Leeuwen

Emily Liggett Brett E. Wilcox

Mr. Hockema, our CEO, serves as our Chairman of the Board, and Dr. Osborne serves as our Lead Independent Director. If each of our Class I director nominees is elected, because Mr. Quinn is not standing for re-election at the Annual Meeting and because the new nominees, Teresa Sebastian and Donald J. Stebbins, are standing for election, our board of directors will expand from 10 to 11 members.

Our board of directors represents a breadth of experience and diversity in perspective and background, as reflected in the summary of their collective qualifications below. Additionally, our current directors have a broad range of tenures, from less than one year to almost 18 years of service, with an average tenure of approximately 12 years. We believe this balances institutional knowledge and experience with new perspectives and ideas.

Strategic Board Skills, Experience and Attributes

| | | | |
|--------------------------------------|---|------------------------------------|--------------------------|
| Public Board of Directors Experience | Industry-Specific | Economic, Regulatory and/or Policy | Diversity |
| Leadership /Management | Labor / Talent Management and Development | Financial / Investment | International Industrial |

Our amended and restated certificate of incorporation and bylaws provide for a classified board of directors consisting of three classes. The term of our Class I directors expires at the Annual Meeting; the term of our Class II directors will expire at the 2020 annual meeting of stockholders; and the term of our Class III directors will expire at the 2021 annual meeting of stockholders.

Mr. Quinn, who was designated by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC (referred to herein as the USW) as a director candidate pursuant to the terms of our Director Designation Agreement with the USW (described under "Corporate Governance - Director Designation Agreement"), has not been nominated to stand for re-election when his term ends at the Annual Meeting. Our board of directors, based on the designation by the USW and recommendation of the Nominating and Corporate Governance Committee, has nominated Ms. Sebastian to serve on our board of directors pursuant to the Director Designation Agreement. For information on Ms. Sebastian, see "— Nominees for Election as Class I Directors" below.

Board Refreshment and Director Succession Planning

During 2017, we increased the retirement age in our corporate governance guidelines from age 72 to 75. The policy now provides that unless otherwise approved by the board, no individual may be nominated for election or re-election as a director if he or she would be age 75 or older at the time the term would begin. We believe the increase in retirement age will facilitate

4

retaining strategic board skills and experience as the board continues to plan for director succession and develop transition plans for the longer term.

We plan thoughtfully for director succession and board refreshment. By developing and following a long-term succession plan, the board has an ongoing opportunity to:

- evaluate the depth and diversity of experience of our board;
- constructively engage with the USW;
- expand and replace key skills and experience that support our strategies;
- build on our record of board diversity; and
- maintain a balanced mix of tenures.

The Nominating and Corporate Governance Committee also plans for the orderly succession of our independent lead director and of the chairs of our board's five committees, providing for the identification, development and transition of responsibilities.

Board Composition and Diversity

Bringing together informed directors with different perspectives, in a well-managed and constructive environment, fosters thoughtful and innovative decision-making. We have a policy of encouraging diversity of gender, ethnicity, age and background, as well as a range of tenures on the board to ensure both continuity and fresh perspectives among our directors. Our directors exhibit a balanced mix of tenures and age, and independent and diverse leadership.

| Diversity (Gender or Ethnicity) | Independence |
| 40% | 90% |

Nominees for Class I Directors

The nominating and corporate governance committee of our board of directors has recommended, and our board of directors has approved, the nomination of the four nominees listed below. The nominees have indicated their willingness to serve as members of the board of directors if elected; however, in case any nominee becomes unavailable for election to the board of directors for any reason not presently known or contemplated, the proxy holders have discretionary authority to vote proxies for a substitute nominee. Proxies cannot be voted for more than four nominees.

The board of directors recommends a vote "FOR ALL" of the persons nominated by the board of directors.

Set forth below is information about the Class I director nominees, including their ages, present principal occupations, other business experiences, directorships in other public companies, membership on committees of our board of directors, and reasons why each individual nominee's specific experience, qualifications, attributes or skills led the nominating and corporate governance committee to recommend, and our board of directors to conclude, that the nominee should serve as a director of the company.

Alfred E. Osborne, Jr.

Lead Independent Director

Director since: July 2006

Committees: Audit; Executive; and Nominating and Corporate Governance (Chair)

Age: 74

Other Current Public Board Memberships:

–

First Pacific Advisor family of seven funds (Capital, Crescent, International Value, New Income, Paramount, Perennial and Source Capital) (1999 - Present)

–

Nuverra Environmental Solutions, Inc. (formerly Heckmann Corporation) (2007 - Present)

5

Other Affiliations:

–

Member of board of directors of Wedbush, Inc. (1998 - Present)

DESCRIPTION OF BUSINESS EXPERIENCE:

Dr. Osborne has been the Interim Dean at the UCLA Anderson School of Management since July 2018 and a Professor of Global Economics and Management since July 2008. Dr. Osborne was previously the Senior Associate Dean at the UCLA Anderson School of Management from July 2003 to June 2018 and an Associate Professor of Global Economics and Management and served as the Director of the Harold and Pauline Price Center for Entrepreneurial Studies at the UCLA Anderson School of Management.

PREVIOUS DIRECTORSHIPS:

–

Nordstrom, Inc.

–

AFH Acquisition VII, Inc.

–

EMAK Worldwide, Inc.

–

K2, Inc.

QUALIFICATIONS:

Dr. Osborne has served on many boards and board committees of public companies and investment funds over a more than 30-year period. During that time, Dr. Osborne worked extensively on the development of board and director best practices, as well as director training and governance programs sponsored by the UCLA Anderson School of Management. Dr. Osborne was one of the original directors selected by a search committee (referred to herein as the search committee) to serve as a director of our company upon our emergence from chapter 11 bankruptcy in 2006 and was selected because of his public company experience and governance background. During his service on our board of directors, Dr. Osborne has gained an understanding of our company and the environment in which we operate. Dr. Osborne's experience as a director of public companies, as a member of various board committees of public companies, and as an educator in the fields of business management and corporate governance allow him to draw on his experience and offer guidance to our board of directors and management on issues that affect our company, including governance and board best practices.

Teresa Sebastian (New)

Age: 61

Other Affiliations:

–

Member Board of Directors, Assemble Sound, a private company

–

Member Board of Directors and Chair of Audit Committee, The United Negro College Fund

–

Member Dean's Advisory Council, University of Michigan School of Literature Sciences and Arts

DESCRIPTION OF BUSINESS EXPERIENCE:

Ms. Sebastian has been the President and Chief Executive Officer of The Dominion Asset Group, an angel investment and venture capital firm, since June 2015, an adjunct professor for accounting and enterprise risk management at Vanderbilt Law School since August 2017, and an adjunct professor for governance and compliance at the University of Michigan Law School since August 2016. Ms. Sebastian was previously the Senior Vice President, General Counsel, Corporate Secretary and Internal Audit executive leader, of Darden Restaurants, Inc, a publicly held multi-brand restaurant operator, from October 2010 to March 2015.

Before joining Darden Restaurants, Ms. Sebastian served as Vice President at Veyance Technologies, Inc., a manufacturer and marketer of engineered rubber products, Senior Vice President at Information Resources, Inc., a provider of information, analytics and insights, and held leadership roles in senior management in two regulated companies, DTE Energy Company, and CMS Energy Corporation. She also held positions in financial analysis at Michigan Consolidated Gas Co., Morgan Stanley, and Bank of America.

QUALIFICATIONS:

The board of directors nominated Ms. Sebastian because of her broad experience and background in management, expertise in corporate governance and matters relating to the Sarbanes-Oxley Act, risk management and compliance, and experience in a wide variety of industries, including manufacturing, finance and data technology. Ms. Sebastian has significant experience in public and private company capital raising, mergers and acquisitions, and global transactions. Her service as a board member of a private company, chair of an audit committee for one of the largest non-profits in the U.S., executive position as leader of internal audit, professorship of accounting, and positions in financial analysis, reinforce her qualification as an SEC audit committee financial expert and understanding of our company's financial statements to provide guidance and insight to our board of directors and management regarding business, risk management, accounting and financial issues. Ms. Sebastian was designated by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC (referred to herein as the USW) as a director candidate pursuant to the terms of our Director Designation Agreement with the USW (described under "Corporate Governance - Director Designation Agreement") in connection with the Annual Meeting.

Donald J. Stebbins (New)

Thomas M. Van Leeuwen

Director since: July 2006

Committees: Audit; Executive; Compensation (Chair); and Nominating and Corporate Governance

Age: 62

DESCRIPTION OF BUSINESS EXPERIENCE:

Prior to his retirement in 2002, Mr. Van Leeuwen served as a Director - Senior Equity Research Analyst for Deutsche Bank Securities Inc. Mr. Van Leeuwen also previously served as a Director - Senior Equity Research Analyst for Credit Suisse First Boston and as First Vice President of Equity Research with Lehman Brothers. Mr. Van Leeuwen held the positions of research analyst with Sanford C. Bernstein & Co., Inc. and systems analyst with The Procter & Gamble Company. Mr. Van Leeuwen is also a Chartered Financial Analyst.

QUALIFICATIONS:

Mr. Van Leeuwen was selected by the search committee to serve as a director of our company upon our emergence from chapter 11 bankruptcy in 2006 because of his experience working with investment banks, including as an analyst in the aluminum industry. Mr. Van Leeuwen's experience as an equity research analyst and service as a director of our company since 2006 allow him to provide guidance and insight to our board of directors and management with respect to financial analyses of our company, whether generated internally or externally, as well as other financial issues, and with respect to the investment community's understanding of our company. He also qualifies as an audit committee financial expert.

Continuing Directors

Set forth below is information about our continuing directors, including their ages, present principal occupations, other business experiences, directorships in other public companies, membership on committees of our board of directors, and reasons why each individual director's specific experience, qualifications, attributes or skills led our board of directors to conclude that the director should serve on our board of directors.

Class II Directors

Carolyn Bartholomew

Director since: June 2007

Committees: Audit and Nominating and Corporate Governance

Age: 61

DESCRIPTION OF BUSINESS EXPERIENCE:

Ms. Bartholomew has served as Commissioner of the U.S.-China Economic and Security Review Commission since April 2003 and its Chairman since January 2019. Ms. Bartholomew also served as its Chairman in 2015 and 2017 and as its Vice-Chairman in 2016 and 2018. From October 2012 to April 2014, Ms. Bartholomew also served as Vice President - Development and Corporate Initiatives of the BlueGreen Alliance. In that role, she developed strategies for funding and initiatives to create and strengthen relationships between business and the labor and environmental

communities on issues of shared interest. She was also a Visiting Professor at Antioch University New England from 2011 to December 2018. Ms. Bartholomew also served as Legislative Director, District Director and Chief of Staff to Congresswoman Nancy Pelosi from 1987 to 2003.

QUALIFICATIONS:

Ms. Bartholomew's experience in Washington, D.C., and with the U.S.-China Economic and Security Review Commission and the BlueGreen Alliance, allow her to provide guidance and insight to our board of directors and management regarding government relations, policy and appropriations for defense and other government funded programs that utilize our products, and our efforts to expand into Chinese markets and effectively compete with Chinese manufacturers, as well as environmental, regulatory and labor initiatives potentially impacting U.S.-based manufacturers. Pursuant to the terms of the Director Designation Agreement, Ms. Bartholomew was designated by the USW to fill a vacancy on our board of directors in 2007 and as a director candidate in connection with our 2008, 2011, 2014 and 2017 annual meetings of stockholders.

Jack A. Hockema

CEO and Chairman of the Board

Director since: 2001

Committees: Executive (Chair)

Age: 72

DESCRIPTION OF BUSINESS EXPERIENCE:

For information as to Mr. Hockema, see "Executive Officers" below.

QUALIFICATIONS:

Mr. Hockema's substantial experience with our company and in the metals industry allows him to provide a unique perspective to our board of directors regarding our business and strategic direction for our company.

QUALIFICATIONS:

Having served as both the chief financial officer and the head of the real estate lending group at Heller Financial and having served as the chief operating and financial officer for Jones Lang LaSalle for more than seven and 12 years, respectively, as well as having served as the Chief Executive Officer of the Americas division of Jones Lang LaSalle, Inc. and being the Chief Executive Officer of HCP, Inc., Ms. Martin has significant experience in all aspects of corporate financial and operational matters, including the oversight of complex financial, accounting and corporate infrastructure functions. Her service as a member of the boards of directors of two real estate investment trusts and a major bank holding company have reinforced those qualifications and also have deepened her expertise in corporate governance and matters relating to the Sarbanes-Oxley Act. Ms. Martin also has a deep foundation in evaluating acquisition opportunities, managing banking relationships and investor relations. Ms. Martin's experience and background, qualification as an audit committee financial expert, and understanding of our company's financial statements allow her to provide guidance and insight to our board of directors and management regarding business, strategic, accounting and financial issues.

Brett E. Wilcox

Director since: July 2006

Committees: Audit; Executive; Compensation; and Talent Development (Chair)

Age: 65

DESCRIPTION OF BUSINESS EXPERIENCE:

Mr. Wilcox has served as Chief Executive Officer of Cvictus, a Canadian company developing a single cell protein and related production process to substitute for soybean meal and fishmeal in animal feed, since September 2018 and has been an active investor in, on the board of directors of, or an executive consultant for, a number of metals and energy companies since 2005. From June 2005 to December 2011, Mr. Wilcox served as Chief Executive Officer of Summit Power Alternative Resources where he managed the development of wind generation and new energy technologies. Prior to that, Mr. Wilcox served as: Chief Executive Officer of Golden Northwest Aluminum Company and its predecessors. Mr. Wilcox has also served as Executive Director of Direct Services Industries, Inc., a trade association of large aluminum and other energy-intensive companies; an attorney with Preston, Ellis & Gates in Seattle, Washington; Vice Chairman of the Oregon Progress Board; Chairman of the Oregon Economic and Community Development Commission; a member of the Oregon Governor's Comprehensive Review of the Northwest Regional Power System; and a member of the Oregon Governor's Task Forces on structure and efficiency of state government, employee benefits and compensation, and government performance and accountability.

QUALIFICATIONS:

Mr. Wilcox was selected by the search committee to serve as a director of our company upon our emergence from chapter 11 bankruptcy in 2006 because of his business and financial background and experience, including his experience as the Chief Executive Officer of Golden Northwest Aluminum Company and its predecessors, his experience working successfully with the USW and his experience in the power industries, and because of his qualification as an audit committee financial expert. Mr. Wilcox was designated by the USW as a director candidate in connection with the search process, and, pursuant to the terms of the Director Designation Agreement, Mr. Wilcox was designated by the USW as a director candidate in connection with our 2008, 2011, 2014 and 2017 annual meetings of stockholders. Mr. Wilcox's experience as a chief executive officer, his financial expertise, his experience in the aluminum and energy industries, and his working relationship with the USW allow him to offer guidance and insight to our board of directors and management on business, finance, strategic and labor issues.

Class III Directors

David Foster

Director since: June 2009

Committees: Nominating and Corporate Governance, and Talent Development

Age: 71

Other affiliations:

–

Member of board of directors of Evraz North America, d/b/a Oregon Steel Manufacturing

DESCRIPTION OF BUSINESS EXPERIENCE:

Since May 2017, Mr. Foster has served as Distinguished Associate of Energy Futures Initiative, a non-profit organization conducting objective, fact-based and rigorous technical, economic, financial and policy analyses supported by a multidisciplinary network of experts. Mr. Foster is also a consultant to the Massachusetts Institute of Technology, working on the Roosevelt Project, a three-year research project focused on energy technology and economic development.

Mr. Foster was Senior Advisor to the Office of the Secretary of the U.S. Department of Energy from June 2014 to January 2017. Prior to that, Mr. Foster was Executive Director of BlueGreen Alliance, a strategic national partnership between labor unions and environmental organizations to expand the job-creating potential of the green economy and improve the rights of workers at home and around the world, from June 2006 to June 2014 and an adjunct faculty member of the University of Minnesota from January 2003 to June 2014. Mr. Foster was also previously a director of the USW for District #11.

QUALIFICATIONS:

The board of directors nominated Mr. Foster because of his extensive labor experience representing the USW and with the BlueGreen Alliance which allows him to provide guidance and insight to the board and management regarding labor relations, including with the USW, relations with our hourly workforce, the impact of environmental and regulatory initiatives on US based manufacturers and sustainability. Mr. Foster was designated by the USW as a director candidate pursuant to the terms of our Director Designation Agreement in connection with our 2009, 2012, 2015 and 2018 annual meetings of stockholders. However, his experience with our company exceeds 20 years and includes his former role as the primary USW negotiator of our master labor agreement with the USW prior to joining our board of directors.

L. Patrick Hassey

Director since: September 2014

Committees: Compensation, and Talent Development

Age: 73

DESCRIPTION OF BUSINESS EXPERIENCE:

Prior to his retirement in May 2011, Mr. Hassey served as Chairman and Chief Executive Officer of ATI, a global leader in the production of specialty materials for the aerospace, chemical and oil and gas industries, where he was elected to the board of directors in July 2003, appointed as the President and Chief Executive Officer in October 2003, and became Chairman in May 2004. Mr. Hassey served as ATI's President until August 2010.

Before joining ATI, Mr. Hassey served as Executive Vice President and as a member of the corporate executive committee of Alcoa, as Executive Vice President of Alcoa and Group President of Alcoa Industrial Components, and as Executive Vice President of Alcoa and President of Alcoa Europe, Inc.

QUALIFICATIONS:

The board of directors nominated Mr. Hassey because of his extensive experience and background and qualification as a chief executive officer in the aluminum and specialty metal industries which allows him to provide guidance and insight to the board of directors and management regarding business and strategic issues.

PREVIOUS DIRECTORSHIPS:

- Ryder System, Inc. (2005 - 2018)
- Alpha Natural Resources (2012 - 2016)
- Allegheny Technologies Incorporated (referred to herein as ATI) (2003 - 2011)

Director Not Standing for Re-Election

Set forth below is information about our director who is not standing for re-election at this year's annual meeting, including his age, present principal occupation, other business experience, directorships in other public companies, membership on committees of our board of directors, and reasons why his specific experience, qualifications, attributes or skills led our board of directors to conclude that he should serve on our board of directors.

Jack Quinn

Director since: July 2006

Committees: Compensation and Nominating and Corporate Governance

Age: 68

Other Affiliations:

–

Trustee of the AFL-CIO Housing Investment Trust (2005 - Present)

DESCRIPTION OF BUSINESS EXPERIENCE:

Mr. Quinn has served as Senior Advisor for Public and Community Relations of Barclay Damon LLP since September 2017. Mr. Quinn was President of Erie Community College in Buffalo, New York from April 2008 to June 2017. From September 2013 to December 2013, Mr. Quinn was Commissioner of the Tax Relief Commission, which was formed to investigate and explore methods to reduce taxes for New York residents under the state's 2014 budget plan. From January 2013 to March 2013, Mr. Quinn was Commissioner of the Hurricane Sandy Task Force for the State of New York, assisting the state in securing federal funding for the repairs of damages caused by Hurricane Sandy. Mr. Quinn was previously the President of Cassidy & Associates, a government relations firm which assists clients promoting policy and appropriations objectives in Washington, D.C. with a focus on transportation, aviation, railroad, highway, infrastructure, corporate and industry clients. Mr. Quinn served as a United States Congressman for the State of New York. While in Congress, Mr. Quinn was Chairman of the Transportation and Infrastructure Subcommittee on Railroads. He was also a senior member of the Transportation Subcommittees on Aviation, Highways and Mass Transit. In addition, Mr. Quinn was Chairman of the Executive Committee in the Congressional Steel Caucus. Prior to his election to Congress, Mr. Quinn served as supervisor of the town of Hamburg, New York.

QUALIFICATIONS:

Mr. Quinn was selected by the search committee to serve as a director of our company upon our emergence from chapter 11 bankruptcy in 2006 because of his background and experience in Washington, D.C. Mr. Quinn was designated by the USW as a director candidate in connection with the search process, and pursuant to the terms of the Director Designation Agreement, Mr. Quinn was designated by the USW as a director candidate in connection with our 2007, 2010, 2013 and 2016 annual meetings of stockholders. During his service on our board of directors, Mr. Quinn has gained an understanding of our company and the environment in which we operate. Mr. Quinn's experience in Washington, D.C., including as a U.S. Congressman, and his working relationship with the USW allow him to offer guidance and insight to our board of directors and management regarding government relations, policy and appropriations for defense and other government funded programs that utilize our products and labor relations.

Proposal 2 - Advisory Vote on Executive Compensation

In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, and Section 14A of the Securities Exchange Act of 1934, referred to herein as the Exchange Act, we ask stockholders to vote annually on a non-binding, advisory resolution regarding executive compensation. The vote is not intended to address any specific component of our executive compensation program, but rather the overall compensation of our named executive officers as described in this Proxy Statement. The text of the resolution is as follows:

RESOLVED, that the compensation paid to the named executive officers of Kaiser Aluminum Corporation, as described in the proxy statement for the company's 2019 annual meeting of stockholders pursuant to Item 402 of Regulation S-K (which disclosure includes the "Executive Compensation - Compensation Discussion and Analysis" section and the Summary Compensation Table and other compensation tables and related narrative discussion within the "Executive Compensation" section), is hereby APPROVED.

In 2018, we had excellent results and a number of important milestones despite formidable headwinds, achieving record shipments, record value added revenue, near-record Adjusted EBITDA, record adjusted net income and record adjusted earnings per share. In addition, we continued to invest in our business for further growth and efficiency and we returned approximately \$100 million to our stockholders through share repurchases and dividends consistent with our capital allocation priorities.

As described in further detail in the CD&A section, our 2018 compensation structure was developed and designed to drive results and:

- align the interest of our named executive officers and stockholders by tying a significant portion of compensation to enhancing stockholder return;

- attract, motivate and retain highly experienced executives vital to our short-term and long-term success, profitability and growth;

- deliver a mix of fixed and at-risk compensation with the portion of compensation at risk increasing with seniority; and

- tie our executive compensation to our ability to pay and safety, quality, delivery, cost and individual performance.

The compensation committee reviewed our compensation program for 2018. The review included consideration of stockholder feedback, the 93% approval of our 2017 advisory vote on executive compensation, discussions with Meridian and management regarding existing and contemplated market practices, as well as the structure and objectives of each component of our compensation. Upon completion of that review, the compensation committee determined that the compensation of our named executive officers would consist primarily of the following components:

- a base salary targeted at the 50th percentile of our compensation peer group (1) compensating each named executive officer based on the level of responsibility, individual expertise and prior experience and (2) providing a fixed amount of cash compensation upon which our named executive officers can rely;

- a short-term annual cash incentive targeted at the 50th percentile of our compensation peer group (1) payable only if our company achieves a certain Adjusted EBITDA performance level which has continued to increase, resulting in increasingly demanding performance to realize the same or similar payouts year-over-year as more fully described below, (2) adjusted based on (a) our safety performance based on our total case incident rate, or TCIR, which is the average number of work-related injuries incurred by 100 workers during a one-year period, as well as lost-time case incident rate, or LCIR, which is the average number work-related injuries that resulted in lost or restricted days or job transfer incurred by 100 workers during a one-year period, (b) our quality performance based on our no-fault claim rate, (c) delivery performance based on our on-time delivery rate, (d) cost performance based on our manufacturing efficiency, and (e) in exceptional and rare instances approved by the compensation committee, individual performance based on individual, facility, and/or functional performance, and (3) capped at three times target; and

- an equity-based, long-term incentive targeted at between the 50th and 65th percentile of our compensation peer group and designed to align compensation with the interests of our stockholders and to enhance retention of our named executive officers consisting of (1) restricted stock units with three-year cliff vesting and (2) performance shares, 30% of which that vest, if at all, based on our TSR, compared to the TSR of our peers in the S&P SmallCap 600 Materials Index, 40% of which that vest, if at all, based on our total controllable cost performance, and 30% of which that vest, if at all, based on our economic value added, or EVA, each over the 2018-2020 performance period.

We benchmark our long-term incentives at between the 50th and the 65th percentiles to (1) provide more flexibility for our compensation program where necessary and appropriate, (2) facilitate our ability to address substantive differences in the roles, scope of responsibility and experience of our named executive officers when compared to the positions reflected in our compensation peer group and (3) more heavily weight the compensation of our named executive officers to appropriately emphasize the long-term equity based pay, ensure that our named executive officers maintain a stockholder perspective, directly promote retention of key executives, ensure that a substantial portion of compensation is at risk and subject to forfeiture and link awards to our overall performance and the creation of long-term stockholder value. In addition, we compete for talent with companies much larger than us and those included in our compensation peer group and these larger companies aggressively recruit the most highly qualified talent in critical functions.

Our compensation committee, working with Meridian, reviews, evaluates and updates our compensation peer group, which includes companies in both similar and different industries, at least annually. For 2018, our compensation committee

approved the 34-company peer group more fully described in our CD&A with (1) market caps ranging from \$622 million to approximately \$9.8 billion and a median market cap of approximately \$1.8 billion and (2) revenues ranging from \$638 million to approximately \$3.1 billion and median revenue of approximately \$1.6 billion. Due to the differences in size among the companies in our peer group, Meridian uses a regression analysis to adjust survey data results based on our revenue as compared to the revenue of other companies in our peer group.

For 2018, the benchmarking performed by Meridian reflected that the total compensation of our CEO was 5% below the median of our compensation peer group and our CEO's (1) base salary was approximately 8% above the median base salary, (2) short-term incentive target was approximately 28% below the median, and (3) long-term incentive target was approximately 6% above the median and 15% below the 65th percentile. Using that information and based on the recommendation of our CEO, the compensation committee did not increase the base salary of our CEO in 2018 and instead allocated a total increase in his total target compensation of 3% to his short- and long-term incentive targets to bring his targets closer to the median levels of our compensation peer group and continue to increase the percentage of his total compensation target that is at risk. The compensation committee also approved 3% increases in the base salary and short- and long-term incentive targets of each of our remaining named executive officers.

We no longer maintain a defined benefit pension plan or retiree medical program that covers members of senior management. Retirement benefits to our senior management, including our named executive officers, are provided through a defined contribution retirement program consisting of a 401(k) plan (which we refer to as our Savings Plan) and a nonqualified and unsecured deferred compensation plan (which we refer to as our Restoration Plan) intended to restore benefits that would be payable to designated participants in our Savings Plan but for the limitations on benefit accruals and payments imposed by the Internal Revenue Code of 1986 (referred herein as the Code).

For 2018, approximately 75% of the target total compensation of our CEO and our chief operating officer ("COO"), and approximately 63% to 68% of the target total compensation of our other named executive officers, consisted of at-risk compensation, which we define as compensation that either (1) will be realized, if at all, only if certain financial performance levels are achieved as in the case of our annual short-term incentive and the portion of our long-term incentive consisting of performance shares or (2) is time-based as in the case of the portion of our long-term incentive compensation consisting of restricted stock units.

Our compensation structure also supports our corporate governance practices, which further align the interests of senior management and our stockholders. The table below sets forth the best practice compensation features we have adopted as of 2018.

Best Practice Compensation Features

What We Do ü

- ü DO align pay and performance by linking a significant portion of total compensation to company performance, including financial, safety, quality, delivery and cost performance, as well as individual performance
- ü DO balance both short-term (one-year) and long-term (three-year) performance across our incentive programs
- ü DO enhance retention with time-based, three-year cliff vesting for restricted stock unit awards
- ü DO subject the vesting of 50% (64% for our CEO and 67% for our COO) of long-term incentive awards to performance targets based on relative TSR, controllable cost and EVA, each over a three-year performance period
- ü DO maintain rigorous stock ownership guidelines (6x base salary/based retainer for CEO, COO and non-employee directors and 3x for other executive officers)
- ü DO maintain a clawback policy for both equity and cash awards
- ü DO cap payouts for awards under both of our short- and long-term incentive plans
- ü DO appoint a compensation committee comprised solely of independent directors
- ü DO use an independent compensation consultant

What We Don't Do û

- û NO compensation or incentives that encourage unnecessary or excessive risk taking
- û NO repricing or buyout of "underwater" stock options or appreciation rights without stockholder approval
- û NO pledging of our securities
- û NO hedging or speculative transactions involving our securities
- û NO guaranteed payout for cash incentive compensation
- û NO excessive perquisites or other benefits
- û NO evergreen equity plan provisions
- û NO dividend equivalents on unearned performance shares

We believe our incentive compensation programs are designed to demand continuous improvement in our year-over-year results for our named executive officers to realize the same year-over-year financial benefit under our compensation plans. We also believe that design emphasizing the importance of successful execution of each of our six key strategic initiatives is important to our long-term success and aligns the interests of our named executive officers with our stockholders.

We urge our stockholders to review our CD&A which describes our compensation philosophy and programs in detail and to approve the compensation of our named executive officers. While this vote on executive compensation is non-binding and solely advisory in nature, our board of directors and the compensation committee value the opinions of our stockholders and will consider the outcome of the vote when determining future executive compensation programs. At our 2018 annual meeting, the advisory vote on our named executive officer compensation received the approval of approximately 93% of the votes cast.

The board of directors recommends a vote "FOR" the approval of the compensation of our named executive officers as disclosed in this Proxy Statement.

Proposal 3 - Ratification of the Selection of our Independent Registered Public Accounting Firm

Pursuant to the audit committee charter, the audit committee has the sole authority to retain an independent registered public accounting firm for our company. The board of directors requests that the stockholders ratify the audit committee's selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019.

The audit committee will not be bound by the ratification of, or failure to ratify, the selection of Deloitte & Touche LLP, but the audit committee will consider any failure to ratify the selection of Deloitte & Touche LLP in connection

with the appointment of our independent registered public accounting firm for 2020.

The board of directors recommends a vote "FOR" the ratification of the audit committee's selection of Deloitte & Touche LLP as our independent registered public accounting firm for 2019.

CORPORATE GOVERNANCE

Our board of directors is responsible for providing effective governance over the affairs of our company. Our corporate governance practices are designed to align the interests of our board of directors and management with those of our stockholders and to promote honesty, integrity and our corporate values throughout the company. Highlights of our corporate governance practices are described below.

A copy of the current charter, as approved by our board of directors, for each of the executive committee, audit committee, compensation committee, nominating and corporate governance committee and talent development committee, and a copy of each of our corporate governance guidelines and our code of business conduct and ethics, which applies to all of our employees, including our executive officers, are available on our website at www.kaiseraluminum.com under "Investor Relations - Corporate Governance." Furthermore, we will post any amendments to our code of business conduct and ethics, or waivers of the code for our directors or executive officers, on our website at www.kaiseraluminum.com under "Investors- Corporate Governance."

Corporate Governance Highlights

Highlights of our corporate governance practices are described below:

| | |
|------------------------------|--|
| Board Structure | <ul style="list-style-type: none"> ü Highly independent - 90% of the directors are independent; 100% of the audit committee, compensation committee and nominating and corporate governance committee are independent ü Diverse in perspective and background - 40% of the directors are gender or ethnically diverse ü Strong independent lead director ü Robust annual board and committee assessments with external and/or internal resources ü Majority vote standard in uncontested director elections ü Executive session of independent directors at every in-person meeting without management present |
| Board Practices and Policies | <ul style="list-style-type: none"> ü Commitment to board refreshment - Two new highly qualified individuals have been nominated to join the board this year, for a total of four highly qualified individuals nominated to join the board in the last five years ü Directors are prohibited from serving on more than three other boards of public companies or public investment funds without board approval ü Strong equity ownership and retention requirements for directors |
| Stockholder Engagement | <ul style="list-style-type: none"> ü Regular engagement by management with stockholders to discuss our performance, governance structure, compensation practices and approach to sustainability, as well as other matters |

Board Leadership Structure

Mr. Hockema, our CEO, serves as the Chairman of the Board, and Dr. Osborne serves as our Lead Independent Director. We believe that Mr. Hockema's experience with our company and in the metals industries, the independence of the other directors, our governance structure and the interaction between and among Mr. Hockema, our Lead Independent Director and the other directors make our board leadership structure the most appropriate for our company and our stockholders. As a result of his substantial experience with our company and in the metals industries, Mr. Hockema is uniquely qualified to provide clear leadership for our company and a single point of accountability.

Our corporate governance guidelines and governance structure require a Lead Independent Director to be selected by a majority of the independent directors, thereby ensuring that there is independent leadership within our board of directors and allowing our independent directors to function as a body distinct from management and to evaluate the performance of Mr. Hockema and our management independently and objectively. The responsibilities of our Lead

Independent Director include:

- establishing the agenda for executive sessions;
- calling a meeting of independent directors upon the request of a majority of independent directors;
- serving as a liaison between our independent directors and our CEO;
- presiding at meetings of our independent directors;
- soliciting advice and input from our independent board members; and

17

routinely meeting and conferring with our CEO to address comments, issues and areas of interest expressed or identified by our independent directors, to assess the governance of our board of directors and our company, and to review board responsibilities, meeting schedules, meeting agenda and information requested or otherwise provided to our directors routinely or in connection with meetings of our board of directors.

Each of the audit, compensation, nominating and corporate governance, and talent development committees consists solely of independent directors. The chair of each committee of our board of directors serves as a liaison to keep our full board of directors and our CEO apprised of the work performed by their respective committee at each of our regularly scheduled board meetings and as otherwise required. The executive committee of our board of directors is comprised of the chairman of the board of directors and the chair of each of the other outstanding committees of our board of directors. The nominating and corporate governance committee of our board of directors is specifically charged with responsibility for, among other things, identifying new director candidates, evaluating incumbent directors, evaluating our CEO, evaluating stockholder recommendations, recommending nominees for election at annual stockholder meetings, reviewing our corporate governance guidelines and assisting in management succession planning, including with respect to the chairman of our board of directors and CEO. Finally, under our bylaws, special meetings of our board of directors may be called by a majority of our board members, nine of 10 of whom are currently independent.

Under our corporate governance guidelines, each member of our board of directors may submit items to be included on the agenda for any meeting of our board of directors and raise subjects that are not on the agenda at any meeting of our board of directors, and our independent directors are required to meet at least quarterly in executive sessions at which only independent directors are present. Additionally, we encourage direct communication among our directors and with our CEO before, during and after formal board and committee meetings and facilitate those communications around our scheduled meetings. Our directors also have full access to our officers, employees and advisors.

Risk Oversight

We have policies in place to identify, assess and manage potential risks and to continually review the procedures that we have designed and implemented to mitigate those risks. We believe that our board of directors provides effective oversight of the risk management function. Under its charter, the audit committee of our board of directors is responsible for discussing our risk management policies, including, without limitation, the steps taken and to be taken to monitor and control our major financial risk exposures. In addition, our full board of directors is actively engaged in the review and assessment of our risk management policies, conducts a comprehensive review at least annually during a regularly scheduled board meeting and routinely requests that specific risk-related items be included on board and committee meeting agendas. We engage in an ongoing enterprise risk management process pursuant to which we formally identify, categorize and assess our risks and risk mitigation strategies and routinely update the audit committee and our full board of directors regarding this process.

Director Independence

Our corporate governance guidelines require that a majority of the members of our board of directors satisfy the independence requirements set forth in the rules of the Nasdaq Stock Market. We refer to these requirements as the general independence criteria. Additionally, the audit committee charter, compensation committee charter and nominating and corporate governance committee charter require that all respective committee members satisfy the general independence criteria. There are no family relationships among our officers or directors.

Based upon information requested from and provided by each of our directors concerning his or her background, employment and affiliations, including family relationships, our board of directors has determined that each of Mmes. Bartholomew, Liggett and Martin and Messrs. Foster, Hassey, Osborne, Quinn, Van Leeuwen and Wilcox,

representing nine of our 10 directors, satisfies the general independence criteria. The tenth director, Mr. Hockema, cannot meet the independence requirement as our CEO. In making such determination, our board of directors considered the relationships that each of our directors had with our company and all other facts and circumstances our board of directors deemed relevant in determining the independence of each of our directors in accordance with the general independence criteria. Additionally, our board of directors has determined that Ms. Sebastian and Mr. Stebbins, director nominees, each satisfies the general independence criteria.

Director Designation Agreement

On July 6, 2006, we entered into a Director Designation Agreement with the USW under which the USW has certain rights to designate director nominees. We believe that:

- the USW has been a good steward of its rights under the Director Designation Agreement;
- the nominees of the USW have made significant contributions to our board of directors;
- the Director Designation Agreement reflects the constructive relationship between the USW and our company; and
- the Director Designation Agreement facilitates discussions with the USW in regard to our strategy, our key strategic initiatives, the critical skills needed on our board of directors and other matters of mutual interest.

Accordingly, in connection with the renewal and ratification of a new five-year collective bargaining agreement with members of the USW at our Spokane, Washington and Newark, Ohio facilities, in January 2015, the Director Designation Agreement which was set to expire on September 30, 2015 was extended to December 31, 2020. Under the Director Designation Agreement, the USW generally has the right to designate the minimum number of director candidates necessary to ensure that, assuming the nominated candidates are elected by our stockholders, at least 40% of the members of our board of directors have been nominated by the USW, except that we have the ability to increase the size of the board of directors from 10 to up to 12 members without increasing the number of candidates that the USW has the right to designate for nomination..

The Director Designation Agreement contains requirements as to the timeliness, form and substance of the notice the USW must give to the nominating and corporate governance committee in order to nominate candidates. The nominating and corporate governance committee is required to determine in good faith whether each properly submitted candidate satisfies the qualifications set forth in the Director Designation Agreement. Pursuant to the terms of the Director Designation Agreement, if the nominating and corporate governance committee determines that a nominated candidate satisfies the qualifications, the committee will, unless otherwise required by its fiduciary duties, recommend the candidate to our board of directors for inclusion in the slate of directors to be recommended by the board of directors in our proxy statement. Similarly, the board of directors will, unless otherwise required by its fiduciary duties, accept the recommendation and include the candidate in the slate of directors that the board of directors recommends.

A candidate nominated by the USW may not be an officer, employee, director or member of the USW or any of its local or affiliated organizations as of the date of his or her designation as a candidate or election as a director. In addition, the Director Designation Agreement requires the USW to meet with us not less than annually to discuss each director designated for nomination by the USW and requires the USW to obtain approval prior to re-designating an incumbent for nomination.

The Director Designation Agreement also provides that the USW will have the right to nominate an individual to fill a vacancy on the board of directors resulting from the death, resignation, disqualification or removal of a director nominated by the USW. In each case where the USW nominates an individual, the USW, the nominating and corporate governance committee and the board of directors will be required to follow the nomination and approval procedures described above. Upon the termination of the Director Designation Agreement, the USW is required to cause each director designated by the USW to submit his or her resignation to the board of directors, which submission the board of directors may accept or reject in its discretion.

Each candidate nominated by the USW must also satisfy:

- the general independence criteria;

the qualifications to serve as a director as set forth in any applicable corporate governance guidelines adopted by the board of directors and policies adopted by the nominating and corporate governance committee establishing criteria to be utilized by it in assessing whether a director candidate has appropriate skills and experience; and

- any other qualifications to serve as director imposed by applicable law.

Finally, the Director Designation Agreement provides that, so long as our board of directors maintains an audit committee, executive committee or nominating and corporate governance committee, each of these committees will, unless otherwise required by the fiduciary duties of our board of directors, include at least one director nominated by the USW (provided at least one director nominated by the USW is qualified to serve on the applicable committee as determined in good faith by our board

of directors). Current members of our board of directors that have been nominated by the USW are Ms. Bartholomew and Messrs. Foster, Quinn and Wilcox. With the anticipated expiration of Mr. Quinn's term, Ms. Sebastian was designated by the USW as a director candidate to stand for election at the Annual Meeting after engaging with our chairman of the board and lead independent director in regard to critical board skills and board succession planning.

Board Committees

Currently, our board of directors has five standing committees: an executive committee; an audit committee; a compensation committee; a nominating and corporate governance committee; and a talent development committee.

The following table sets forth the chair and members of each committee of our board of directors, the number of meetings each committee held during 2018, and the number of times each committee acted by unanimous written consent.

| Committee | Members | Number of Meetings Held in 2018 | Number of Times Acted By Unanimous Written Consent |
|---|---|---------------------------------|--|
| Executive Committee | Jack A. Hockema (Chair) Teresa A. Hopp* Lauralee E. Martin Alfred E. Osborne, Jr. Brett E. Wilcox Thomas M. Van Leeuwen | 1 | 3 |

| Nominating and Corporate Governance Committee | Alfred E. Osborne, Jr. (Chair) Carolyn Bartholomew David Foster Jack Quinn Thomas M. Van Leeuwen | 7 | 1 |
| Talent Development Committee | Brett E. Wilcox (Chair) David Foster L. Patrick Hassey Teresa A. Hopp* Lauralee E. Martin | 2 | 0 |

* Ms. Hopp served on our board of directors and its committees until her retirement in June 2018.

** Ms. Liggett was elected to our board of directors and appointment to the audit committee in June 2018.

Executive Committee

The executive committee of our board of directors manages our business and affairs requiring attention prior to the next regular meeting of our board of directors. However, the executive committee does not have the power to (1) approve or adopt, or recommend to our stockholders, any action or matter expressly required by law to be submitted to our stockholders for approval, (2) adopt, amend or repeal the bylaws of our company, or (3) take any other action reserved for action by our board of directors pursuant to a resolution of our board of directors or otherwise prohibited to be taken by the executive committee by law or pursuant to our amended and restated certificate of incorporation or bylaws.

The executive committee charter requires that a majority of the members of the executive committee satisfy the general independence criteria. In addition, the members of the executive committee must include the chairman of our board of directors and at least one of the directors nominated by the USW. The executive committee is currently comprised of the chairman of our board of directors and the chair of each of the other standing committees of the board of directors.

Audit Committee

The audit committee of our board of directors oversees our accounting and financial reporting practices and processes and the audit of our financial statements on behalf of our board of directors. The audit committee is responsible for appointing, compensating, retaining and overseeing the work of our independent accounting firm. Other duties and responsibilities of the audit committee include:

- establishing hiring policies for employees or former employees of the independent accounting firm;
- reviewing our systems of internal accounting controls;
- discussing risk management policies;
- approving related-party transactions;
- establishing procedures for complaints regarding financial statements or accounting policies; and
- performing other duties delegated to the audit committee by our board of directors from time to time.

The audit committee charter requires that all members of the audit committee satisfy the general independence criteria. The charter also requires that no audit committee member may have participated in the preparation of our financial statements during the three years prior to his or her appointment as a member and that each audit committee member be able to read and understand fundamental financial statements, including a balance sheet, an income statement and a cash flow statement. Additionally, at least one member of the audit committee must have had past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience which results in that individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities and that member or another member must have sufficient education or experience to have acquired the attributes necessary to meet the criteria of an "audit committee financial expert," as that term is defined in the rules promulgated by the Securities and Exchange Commission. In addition, the members of the audit committee must include at least one of the directors nominated by the USW so long as at least one such director is appropriately qualified.

Our board of directors has determined that all six members of the audit committee (1) meet the general independence criteria, as well as the criteria for independence set forth in Rule 10A-3(b)(1) under the Exchange Act, and (2) are able to read and understand fundamental financial statements. Our board of directors also determined that no member of the audit committee participated in the preparation of our financial statements during the three years prior to their appointment as members of the committee. Finally, our board of directors has determined that Ms. Martin and Messrs. Van Leeuwen and Wilcox satisfy the financial sophistication criteria described above and satisfy the criteria necessary to serve as the "audit committee financial expert," in each case based on his or her experience described in "Proposals Requiring Your Vote - Proposal 1 - Election of Directors" above.

Compensation Committee

General

The compensation committee of our board of directors establishes and administers our policies, programs and procedures for compensating our senior management, including determining and approving the compensation of our executive officers. Other duties and responsibilities of the compensation committee include:

- administering plans adopted by our board of directors that contemplate administration by the compensation committee, including our 2016 Equity and Incentive Compensation Plan (referred to herein as our 2016 Plan);

- overseeing regulatory compliance with respect to compensation matters;

- reviewing director compensation; and

performing other duties delegated to the compensation committee by our board of directors from time to time.

The compensation committee solicits the views of our CEO on compensation matters, including as they relate to our compensation of the other members of senior management reporting to our CEO. The compensation committee has retained Meridian to advise the compensation committee on all matters related to compensation of our CEO and other members of senior management. The compensation committee has reviewed the factors that could affect Meridian's independence. Based on this review, the compensation committee has determined there are no conflicts of interest.

Meridian's services include (1) providing competitive market data and related assessments of executive compensation as background against which the compensation committee considers executive compensation, (2) preparing and reviewing tally and compensation summary sheets for our named executive officers, (3) apprising the compensation committee of trends and best practices associated with executive and director compensation, (4) providing support with respect to legal, regulatory and accounting considerations impacting compensation and benefit programs, (5) the development and review of a list of compensation peer group companies, and (6) attending meetings of the compensation committee and our board of directors when requested. These services are typically directed by the compensation committee and coordinated with our human resources department.

The compensation committee charter requires that all members of the compensation committee satisfy the general independence criteria, as well as qualify as "non-employee directors" within the meaning of Rule 16b-3 promulgated under the Exchange Act.

The compensation committee may create one or more subcommittees, each subcommittee to consist of one or more members of the committee, and may delegate to the subcommittee any or all of the powers and authority of the committee.

Compensation Committee Interlocks and Insider Participation

None of Ms. Martin or Messrs. Hassey, Quinn, Van Leeuwen or Wilcox, the members of the compensation committee during 2018, (1) was an officer or employee of our company during 2018, (2) was formerly an officer of our company, or (3) had any relationships requiring disclosure by us under the rules of the Securities and Exchange Commission with respect to certain relationships and related-party transactions. Furthermore, none of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our board of directors or compensation committee.

Nominating and Corporate Governance Committee

The nominating and corporate governance committee of our board of directors identifies individuals qualified to become members of our board of directors, recommends candidates to fill vacancies and newly-created positions on our board of directors, recommends director nominees for election by stockholders at the annual meetings of stockholders and develops and recommends to our board of directors our corporate governance guidelines.

We believe that the nominating and corporate governance committee considers an appropriate range of criteria in assessing candidates for a position on the board of directors. Our corporate governance guidelines require that the criteria utilized by the corporate governance committee in assessing such candidates include factors such as judgment, diversity, integrity, experience with businesses and other organizations of comparable size, the interplay of a candidate's experience with the experience of other members of the board of directors and anything else that may bear upon the extent to which a candidate would be a desirable addition to our board of directors and any committees of our board of directors. The policies relating to the recommendation of director candidates adopted by the nominating

and corporate governance committee are designed to ensure flexibility with respect to the process of evaluating candidates and do not establish specific minimum qualifications that an individual must meet to become a member of our board of directors. The nominating and corporate governance committee believes that our company is best served when it can draw from a variety of experiences and backgrounds provided by members of our board of directors. However, the nominating and corporate governance committee also believes that our company is best served when each member of the board of directors:

• exhibits strong leadership in his or her particular field or area of expertise;

• possesses the ability to exercise sound business judgment;

• has a strong educational background or equivalent life experiences;

- has substantial experience both in the business community and outside the business community;
- contributes positively to the existing collaborative culture among members of our board of directors;
- represents the best interests of all of our stockholders and not just one particular constituency;
- has experience as a senior executive of a company of significant size or prominence or another business or organization comparable to our company;
- possesses skills and experience which make him or her a desirable addition to a standing committee of our board of directors;
- consistently demonstrates integrity and ethics in his or her professional and personal life; and
- has the time and ability to participate fully in activities of our board of directors, including attendance at, and active participation in, meetings of our board of directors and the committee or committees of which he or she is a member.

Other duties and responsibilities of the nominating and corporate governance committee include:

- assisting in management succession planning, including with respect to the chairman of our board of directors and our CEO;
- considering possible conflicts of interest of members of our board of directors and management and making recommendations to prevent, minimize or eliminate such conflicts of interests;
- evaluating whether an incumbent director should be nominated for re-election to our board of directors upon expiration of the incumbent's term;
- making recommendations to our board of directors regarding the appropriate size of our board of directors; and
- performing other duties delegated to the nominating and corporate governance committee by our board of directors from time to time.

The nominating and corporate governance committee has adopted policies and procedures by which our stockholders may submit director candidates to the nominating and corporate governance committee for consideration. If the nominating and corporate governance committee receives, by a date not less than 120, nor more than 150, calendar days before the anniversary of the date that the proxy statement was mailed to stockholders in connection with our previous year's annual meeting, a recommendation for a director nominee from a stockholder or group of stockholders that beneficially owned more than 5% of our outstanding common stock for at least one year as of the date of the recommendation, then such director candidate will be considered and evaluated by the nominating and corporate governance committee for the annual meeting immediately succeeding the date that proper written notice was timely delivered to and received by the nominating and corporate governance committee. When the date of our annual meeting of stockholders changes by more than 30 calendar days from the previous year's annual meeting, the written notice of the recommendation for the director candidate will be considered timely if, and only if, it is received by the nominating and corporate governance committee no later than the close of business on the tenth calendar day following the first day on which notice of the date of the upcoming annual meeting is publicly disclosed by us.

Written notice from an eligible stockholder or group of eligible stockholders to the nominating and corporate governance committee recommending a director candidate must contain or be accompanied by:

• proof that the stockholder or group of stockholders submitting the recommendation has beneficially owned, for the required one-year holding period, more than 5% of our outstanding common stock;

• a written statement that the stockholder or group of stockholders intends to continue to beneficially own more than 5% of our outstanding common stock through the date of the next annual meeting of our stockholders;

• the name and record address of each stockholder submitting a recommendation for the director candidate, the written consent of each such stockholder and the director candidate to be publicly identified (including, in the case of the

director candidate, to be named in the company's proxy materials) and the written consent of the director candidate to serve as a member of our board of directors (and any committee of our board of directors to which the director candidate is assigned to serve by our board of directors) if elected;

a description of all arrangements or understandings between or among any of the stockholders or group of stockholders submitting the recommendation, the director candidate and any other person or persons (naming such person or persons) pursuant to which the submission of the recommendation is to be made by such stockholder or group of stockholders;

with respect to the director candidate, (1) his or her name, age, business and residential address and principal occupation or employment, (2) the number of shares of our common stock beneficially owned by him or her, (3) a resume or similar document detailing his or her personal and professional experiences and accomplishments, and (4) all other information relating to the candidate that would be required to be disclosed in a proxy statement or other filing made in connection with the solicitation of proxies for the election of directors pursuant to the Exchange Act, the rules of the Securities and Exchange Commission or the rules of the Nasdaq Stock Market; and

a written statement that each submitting stockholder and the director candidate shall make available to the nominating and corporate governance committee all information reasonably requested in connection with the committee's evaluation of the candidate.

The notice must be signed by each stockholder submitting the proposal and the director candidate. The notice must be sent to the following address by registered or certified mail: Kaiser Aluminum Corporation, Attn: Corporate Secretary (Nominating and Corporate Governance Committee), 27422 Portola Parkway, Suite 200, Foothill Ranch, California 92610-2831.

The nominating and corporate governance committee charter requires that all members of the nominating and governance committee satisfy the general independence criteria. In addition, the members of the nominating and corporate governance committee must include at least one of the directors nominated by the USW.

Talent Development Committee

The talent development committee of our board of directors assists the board of directors in discharging its responsibilities relating to management succession planning and oversight of leadership and talent development. We recognize that over the long-term, our talent and culture provide our biggest competitive advantage. As such, we consider leadership and talent a priority throughout the company.

The talent development committee was formed in 2014 to review and evaluate (1) the succession planning for our executive officers, other than our CEO, whose succession is discussed routinely during board executive sessions, and (2) the leadership and development training of key employees with the potential to succeed our executive officers, including the progression and development of such key employees. The talent development committee meets with our CEO to review its observations and management's criteria for evaluating the performance and advancement potential of key employees and regularly reports its activities to our board of directors.

Board and Committee Meetings and Consents in 2018

During 2018, our board of directors held five meetings and acted by unanimous written consent four times. In addition to meetings of our board of directors, directors attended meetings of committees of our board of directors. Each director attended at least 75% of the aggregate number of meetings that our board of directors held during the period he or she was a director in 2018 and that each committee on which he or she served held during the period he or she

served on such committee in 2018.

Annual Meetings of Stockholders

Members of our board of directors are expected to make reasonable efforts to attend our annual meetings of stockholders. Directors representing 90% of the directors then serving attended our 2018 annual meeting of stockholders.

Annual Performance Reviews

We conduct robust annual board and committee assessments using internal and/or external resources. Under our corporate governance guidelines, our board of directors is required to conduct an annual self-evaluation to determine whether our board of directors and its committees are functioning effectively. The charter for each committee of our board of directors also requires each committee to annually evaluate its performance. The nominating and corporate governance committee reviews the annual evaluation process and modifies the process as it deems appropriate.

In addition to the evaluation performed by the nominating and corporate governance committee with respect to whether an incumbent director should be nominated for re-election to the board of directors upon expiration of such director's term, in 2018, our board of directors conducted an annual self-evaluation through the completion of an open-ended survey by each of our directors. The results from the survey were summarized and reviewed with the nominating and corporate governance committee and the full board.

Stockholder Engagement

We value stockholder views and insights and believe that accountability to stockholders is an essential component of good governance. We engage in ongoing, proactive discussions of a variety of topics, including our strategy and performance, business operations, capital allocation, corporate governance and environmental matters, with significant stockholders throughout the year. Such discussions are held year-round and include our CEO and Chairman of the Board and/or other members of senior management. In addition to providing our perspective and seeking feedback on topics specific to our company, we invite discussion on any other topics or trends stockholders may wish to discuss with us. The feedback provided by stockholders is reported to the full board of directors. The board of directors reviews the feedback and determines whether additional discussion and actions are necessary by the full board or any board committees. In 2018, in addition to interactions regarding our financial performance, we engaged with stockholders representing approximately 55% of shares outstanding on matters relating to our long-term business strategy and performance, corporate governance, executive compensation and corporate responsibility. In addition, we utilize investor surveys to provide us with additional insight into the perceptions of our broader investor-base, across a wide range of topics. This information is also reviewed by members of our senior management and the full board of directors. The feedback from our stockholders continues to reflect that they are generally satisfied with our performance and the design of our executive compensation program.

Sustainable Value Creation

We manage our business for long-term success in a manner that is economically, environmentally and socially responsible. In 2019, we issued our inaugural sustainability report to highlight our culture and sustainability initiatives. Below are highlights of our efforts to continue to be a valued corporate citizen:

People and Communities

Our talented workforce is a key factor underlying our success. We are committed to treating our employees with dignity and respect. We strive to be the employer of choice by:

- Providing equal employment and a non-discriminatory workplace

- Protecting the health and safety of our employees including:

 - Implementing corporate wellness programs

 - Incorporating safety performance in our executive compensation program

 - Providing focused safety training, including training for high risk activities

 - Assessing and measuring our safety performance using TCIR and LCIR, as well as leading indicators such as internal and third party audits and assessments

 - Identifying and monitoring safety improvements in our high hazard areas to ensure compliance and proper progress

 - Industry and business peers

 - Implementation of ISO 14001 environmental management systems in our facilities

Responsible Business Practices

We promote fair business practices and a culture of accountability, responsibility and ethical behavior through:

Strong emphasis on the importance of integrity and competence to leadership, character and culture

Encouraging the reporting of illegal or unethical behavior, including the use of In-Touch, a third party reporting program

Ongoing ethics and compliance training

Conducting annual governance surveys to assess our culture and the effectiveness of our training

Adopting and enforcing:

Our corporate governance guidelines

Our code of business conduct and ethics, which applies to all employees, requires, among other things, compliance with laws and regulations, ethical behavior and fair dealing and prohibits bribery, discrimination and harassment

Our conflict minerals sourcing policy, which prohibits the purchase of materials containing conflict minerals (including tin, tantalum, gold and tungsten) originating from the Democratic Republic of Congo and adjoining countries

Products and Operations

Aluminum is inherently sustainable and indefinitely recyclable. We strive to be the supplier of choice by:

Pursuing "Best in Class"

customer satisfaction driven by quality, broad product offering, superior customer service and on-time delivery

Differentiating our product portfolio through our broad product offering and our KaiserSelect® products, which are engineered and manufactured to deliver enhanced product characteristics

with improved consistency, resulting in better performance, lower waste and, in many cases, lower production cost for our customers

Promoting continuous improvement facilitated by the Kaiser Production System, an integrated application of tools such as Lean Manufacturing, Six Sigma and Total Productive Manufacturing

Fostering innovation through our Centers for Excellence, dedicated research and development facilities focused on product performance enhancement and process elimination

Aligning customer satisfaction with executive compensation by incorporating quality (measured by

no-fault claim
rate) and
delivery
(measured by
on-time
delivery rate)
performance in
our executive
compensation
program

Stock Ownership Guidelines and Securities Trading Policy

Our stock ownership guidelines require our non-employee directors to own company stock equal to six times their annual base retainer within five years of becoming a member of our board of directors. For purposes of measuring our non-employee directors' compliance with our stock ownership guidelines, restricted stock is valued at the closing price of our common stock on the grant date and all other shares of common stock purchased or acquired are valued at the purchase price of such shares. Currently, each of our non-employee directors satisfies the applicable stock ownership requirements under the stock ownership guidelines. Our stock ownership guidelines also apply to senior management. For additional information regarding our stock ownership guidelines, see "Executive Compensation - Stock Ownership Guidelines."

Our securities trading policy prohibits our directors and employees, including our named executive officers, from engaging in hedging transactions with respect our securities, including entering into short sales, options, puts, calls and derivative instruments such as swaps, forwards and futures. Our securities trading policy also prohibits our directors and key employees, including our named executive officers, from buying our securities on margin or holding our securities in a margin account, and from pledging our securities as collateral for a loan or any other obligations.

Risks Arising from Compensation Policies and Practices

Our compensation policies and practices, discussed more fully below, are designed to create and maintain alignment between our employees and stockholders by rewarding employees, including our senior management, for achieving strategic goals that successfully drive our operations and enhance stockholder value and to preclude the taking of unreasonable risks through the use of incentive compensation that rewards decisions that result in strong performance in both the short- and long-term. We do not believe that our compensation policies and practices encourage decisions or actions which are likely to have a material adverse effect on our company. Our determination is based on, among other factors, the following:

- Potential payouts under our incentive plans are capped, and overall variable compensation does not materially impact our financial results;

- Our overall compensation is comprised of a mix of long- and short-term compensation which discourages short-term decisions that could be at the expense of long-term results;

A significant portion of the variable compensation is in the form of restricted stock units and performance shares with three-year vesting and performance periods, which ensure that three years of unvested grants are outstanding at any time and encourage decisions expected to create long-term value for our stockholders;

All of our incentive programs contain clawback provisions, which provide for the forfeiture of outstanding unvested awards and the return of vested awards;

Our short-term incentive plan and our performance shares require the attainment of threshold company performance levels before any payments are earned or performance shares vest; and

Our stock ownership guidelines require our board of directors and executive officers to retain significant equity interests in our company to ensure the ongoing alignment of executive officers and our stockholders.

Stockholder Communications with the Board of Directors

Our stockholders may communicate with our board of directors as a group or with the chair of the executive committee, audit committee, compensation committee or nominating and corporate governance committee by sending an email to boardofdirectors@kaiseraluminum.com, execchair@kaiseraluminum.com, auditchair@kaiseraluminum.com, compchair@kaiseraluminum.com, or nominatingchair@kaiseraluminum.com, respectively, or by writing to such group or person at Kaiser Aluminum Corporation, Attn: Corporate Secretary (Board of Directors), 27422 Portola Parkway, Suite 200, Foothill Ranch, California 92610-2831. Communications that are intended specifically for any other group of directors or for any individual director, such as the independent directors as a group or the Lead Independent Director, should be sent to the attention of our corporate secretary at the address above or via email to corpsecretary@kaiseraluminum.com and should clearly state the individual director or group of directors that is the intended recipient of the communication.

Our corporate secretary will review each communication and determine whether or not the communication is appropriate for delivery. Communications that, in the judgment of our corporate secretary, are clearly of a marketing nature, that advocate that our company engage in illegal activity, that do not reasonably relate to our company or our business or that are similarly inappropriate will not be furnished to the intended recipient. If, in the judgment of the corporate secretary, any communication pertains to an accounting matter, it will be forwarded to our compliance officer.

Communications that, in the judgment of our corporate secretary, are appropriate for delivery will, unless requiring immediate attention, be assembled and delivered to the intended recipients on a periodic basis, generally at or in advance of each regularly scheduled meeting of our board of directors. Any communication that, in the judgment of our corporate secretary, requires immediate attention will be promptly delivered. In no case will the corporate secretary provide anyone but a member of our board of directors with access to any such communication, except as noted above with respect to communications pertaining to accounting matters.

EXECUTIVE OFFICERS

The following table sets forth the names and ages of each of our executive officers and the positions they held as of April 12, 2019, the record date. As we previously reported, Daniel J. Rinkenberger, our former Executive Vice President and Chief Financial Officer and principal financial officer during 2018, and John Barneson, our former Senior Vice President - Corporate Development and a named executive officer based on his 2018 compensation, retired from our company in March and February 2019, respectively.

| Name | Age | Position(s) |

Ms. Huey has a Bachelor of Arts degree in Economics from the University of California, Berkeley and a Master's of Science in Accountancy from the University of Virginia. Ms. Huey is also a Certified Public Accountant.

Melinda C. Ellsworth has served as our Vice President - Investor Relations and Corporate Communications since June 2015. She previously served as our Vice President and Treasurer from July 2008 to June 2015. Prior to joining Kaiser, Ms. Ellsworth was Vice President, Treasurer and Investor Relations at HNI Corporation, a leading provider of office furniture and hearth products, from February 2002 to May 2007. From May 1998 to January 2002, she served in several roles with Sunbeam Corporation, ending her tenure as Vice President, International Finance and Treasury. She additionally has over a decade of experience in commercial banking. She holds a Bachelor of Business Administration degree in accounting from St. Bonaventure University and is a Certified Public Accountant (inactive).

Mark R. Krouse has served as our Vice President - Human Resources since September 2013. Prior to joining Kaiser, Mr. Krouse served as Vice President, Human Resources of Samsung C&T Engineering and Construction, Americas from January 2012 to August 2013. Mr. Krouse was also an Adjunct Professor of California State University, Fullerton from September 2007 to June 2010. In addition, Mr. Krouse held various human resources positions, including Vice President, Human Resources, with Fluor Corporation from 1976 to 2006. Mr. Krouse holds a Master's of Science degree in International Administration and a Bachelor of International Relations degree, both from the University of Southern California.

Ray Parkinson has served as our Vice President - Advanced Engineering since 2001. Dr. Parkinson joined Kaiser in 1986 as technical director for extruded products and has more than 30 years of experience in sales, operations, quality control, engineering and research and development in diverse manufacturing environments. Dr. Parkinson has a Ph.D. in metallurgy, as well as Bachelor's and Master's degrees in Engineering, from Imperial College in the United Kingdom and a Master of Business Administration from St. Mary's College.

EXECUTIVE COMPENSATION

Compensation Committee Report

The compensation committee has reviewed and discussed with management the compensation discussion and analysis section included below. Based on its review and discussions with management, the compensation committee recommended to the board of directors that the compensation discussion and analysis be included in this Proxy Statement.

Compensation Discussion and Analysis

Introduction

This section provides:

- our 2018 performance highlights,
 - a discussion of our 2018 capital allocation,
 - an overview of the compensation committee,
 - a discussion of the objectives of our comprehensive compensation structure and the design of our overall 2018 compensation program for senior management,
 - a summary of the board’s consideration of the 2018 advisory vote on executive compensation,
 - a discussion of actions with respect to 2019 compensation,
 - a summary of our stock ownership guidelines and securities trading policy,
 - a summary of our current employment contracts, termination of employment arrangements, and change-in-control arrangements with our named executive officers, and
 - a discussion of all material elements of 2018 compensation for each of our named executive officers whose names and titles (during 2018) are set forth in the following table:
- | Name | Title |
|----------------------------|--|
| Jack A. Hockema | CEO (principal executive officer) |
| Keith A. Harvey | President and COO |
| Daniel J. Rinkenberger (1) | Executive Vice President and Chief Financial Officer (principal financial officer) |
| John M. Donnan | Executive Vice President - Legal, Compliance and Human Resources |
| John Barneson (2) | Senior Vice President - Corporate Development |

(1) Mr. Rinkenberger retired on March 31, 2019.

(2) Mr. Barneson retired on February 28, 2019.

2018 Performance Highlights

In 2018, we delivered excellent results despite persistent headwinds from aerospace supply chain destocking, high contained metal and freight costs and newly authorized tariffs. The table below highlights our 2018 financial performance.

| | RECORD | | RECORD | RECORD | NEAR RECORD | | RECORD |
|-------------|--------------|---------------|-------------------------|-------------------------|---------------------|-----------------------|---------------------------------|

2018 Capital Allocation

Consistent capital allocation strategy focused on organic growth, external growth and returning cash to shareholders through dividends and share repurchases

Continued investment to further manufacturing efficiency, quality and capacity

2018 CAPITAL ALLOCATION

Acquired Imperial Machine & Tool Co. ("IMT"), a leader in multi-material additive manufacturing and machining technologies for aerospace and defense, automotive, high-tech, and general industrial applications, to further advance capability to deliver highly engineered solutions for customers

Increased quarterly dividend for the 8th consecutive year

Returned approximately \$100 million to shareholders through share repurchases and dividends

CONSISTENT CAPITAL ALLOCATION STRATEGY

Cash deployment track record

Invested ~\$750M in the business since 2007 (~2x depreciation)

Distributed >700M to stockholders since 2007

Dividends increased each year since 2011

~6.2 million shares repurchased at an average price of \$67.42

Overview of the Compensation Committee

The compensation committee of our board of directors is comprised entirely of independent directors. By design, members of the compensation committee also serve on other board committees, including the executive committee, the audit committee, the nominating and corporate governance committee and the talent development committee. We believe this structure helps coordinate the efforts of the respective committees. The compensation committee's primary duties and responsibilities are to establish and implement our compensation policies and programs for senior management. While the nominating and corporate governance committee has the responsibility to evaluate the overall performance of our CEO, the compensation committee coordinates with and assists the nominating and corporate governance committee in that evaluation.

The compensation committee has the authority under its charter to engage the services of outside advisors, experts and others to assist it. Pursuant to that authority, the compensation committee engaged Meridian to advise it on all matters related to compensation of our CEO and other members of senior management, including the other named executive officers.

The compensation committee meets formally and informally throughout the year. Informal meetings frequently occur when our directors are together for meetings of our full board of directors and telephonically at the request of one or more committee members. Our CEO, other members of our management and outside advisors may be invited to attend all or a portion of a compensation committee meeting depending on the nature of the agenda items; however, neither our CEO nor any other member of management votes on items before the compensation committee.

The compensation committee works with our senior management and Meridian to determine the agenda for its formal meetings and to prepare meeting materials. The compensation committee and our board of directors also solicit the views of our CEO on compensation matters, including, among others:

- objectives for our compensation programs;
- the structure of our compensation programs;
- the role of our compensation programs in management succession planning; and
- compensation of other members of senior management, including our other named executive officers.

Objectives of our Compensation Structure

Our compensation structure was developed to achieve the following objectives, which we believe are critical for enhancing stockholder value and to our long-term success and sustainability:

- creating alignment between our senior management and our stockholders by rewarding our senior management for achieving strategic goals that successfully drive our operations and enhance our stockholder return;
- attracting, motivating and retaining highly experienced executives vital to our short-term and long-term success, profitability and growth;
- correlating our senior management compensation with our actual short- and long-term performance; and
- providing competitive, targeted compensation levels that are benchmarked to our compensation peer group discussed below as follows:
 - for base salary, the 50th percentile;
 - for annual cash incentives at target-level performance, the 50th percentile; and
 - for annualized economic equity grant value of long-term incentives, between the 50th and the 65th percentiles.

We benchmark our long-term incentives at between the 50th and the 65th percentiles to (1) provide more flexibility for our compensation program where necessary and appropriate, (2) facilitate our ability to address substantive differences in the roles, scope of responsibility and experience of our named executive officers when compared to the positions reflected in our compensation peer group and (3) more heavily weight the compensation of our named

executive officers to appropriately emphasize the long-term equity based pay, ensure that our named executive officers maintain a stockholder perspective, directly promote retention of key executives, ensure that a substantial portion of compensation is at risk and subject to forfeiture and link awards to our overall performance and the creation of long-term stockholder value. In addition, we compete for talent with companies much larger than us and those included in our compensation peer group and these larger companies aggressively recruit the most highly qualified talent in critical functions.

Design of our 2018 Compensation Program

Our 2018 compensation program for our senior management, including the named executive officers, was designed to reinforce performance and accountability at the corporate, operational and individual levels through the use of:

- a short-term annual cash incentive payable only if the performance threshold is met; and

- an equity-based, long-term incentive consisting of (1) restricted stock units with three-year cliff vesting to promote senior management retention, and (2) performance shares, 30% of which that vest, if at all, based on our TSR compared to a group of peer companies, 40% of which that vest, if at all, based on our total controllable cost performance, and 30% of which that vest, if at all, based on our EVA performance, each over a three-year performance period (2018 through 2020).

In addition to focusing on "pay for performance," our 2018 compensation program:

- balanced short-term and long-term goals, with:

- approximately 57% of our CEO's target total compensation being delivered through long-term incentives; and

- approximately 44% to 52% of the target total compensation for our other named executive officers being delivered through long-term incentives;

- delivered a mix of fixed and at-risk compensation directly related to our overall performance and the creation of stockholder value, with:

- approximately 75% of the target compensation of our CEO and our President and COO being at-risk compensation payable only if certain corporate performance levels are achieved; and

- approximately 63% to 68% of the target total compensation for our other named executive officers being at-risk compensation payable only if certain corporate performance levels are achieved;

- provided compensation that is competitive with our compensation peer group recommended by the compensation committee's independent compensation consultant;

- utilized equity-based awards, including performance shares that vest only if we achieve a certain relative TSR, cost performance or EVA performance goal, stock ownership guidelines and annual cash incentives linked to achievement of financial, corporate, operational and individual performance;

- emphasized the importance of safety, quality, delivery and cost performance; and

- utilized forfeiture provisions that can result in the loss of awards and resulting benefits if we determine that a recipient, including any of our named executive officers, has engaged in certain activities detrimental to us.

Periodically, but not less than annually, each element of compensation is reviewed and considered by the compensation committee and our board of directors both individually and collectively with the other elements of compensation to ensure that each element is consistent with the objectives of both our comprehensive compensation structure and that particular element of compensation. The compensation committee and our board of directors share suggestions or concerns identified in the course of that review with senior management and Meridian, who address the suggestions or concerns in a manner that is satisfactory to the compensation committee and our board of directors.

This process occurs over a series of meetings of the compensation committee and our board of directors and executive sessions of the independent directors without members of management present.

In designing the overall compensation program and each individual element of compensation for senior management, including our named executive officers, the compensation committee considers the following factors, among others:

• The external challenges to our near- and long-term ability to attract and retain strong senior management;

• Each individual's contributions to our overall results;

Our historical and anticipated operating and financial performance compared with targeted goals; and

Our size and complexity compared with companies in our compensation peer group.

The compensation committee uses tally and other summary sheets that provide a summary of the compensation history of our CEO and those members of our senior management reporting to our CEO. These tally and information sheets include a historical summary of base salary, annual bonus and equity awards.

In reviewing and deliberating our 2018 compensation program, the compensation committee considered, among other things:

the company's key strategic initiatives, business plan and underlying assumptions;

the goal of maintaining alignment between our senior management and our stockholders through the use of short- and long-term, performance-based compensation;

the benefits of maintaining a consistent approach to compensation and the structure of our programs through business cycles;

the anticipated performance of the company's compensation programs based on the company's business plan and current financial position;

the economic conditions in the United States and abroad; and

stockholder feedback.

The review included discussions with Meridian and management regarding existing and contemplated market practices, as well as the structure and objectives of each component of our compensation program.

The compensation committee also reviews the compensation and benefit practices, as well as levels of pay, of a compensation peer group of companies. Working with Meridian, the compensation committee selects for inclusion in our compensation peer group companies that are determined to:

- (1) be of a similar size;
- (2) have positions of similar complexity and scope of responsibility; and/or
- (3) compete with us for talent.

The compensation committee, working with the compensation consultant, reviews, evaluates and updates the compensation peer group, which includes companies in both similar and different industries, at least annually. For 2018, the compensation committee approved the following 34-company peer group with (1) market caps ranging from \$622 million to approximately \$9.8 billion and a median market cap of approximately \$1.8 billion and (2) revenues ranging from \$638 million to approximately \$3.1 billion and median revenue of approximately \$1.6 billion:

| | |
|----------------------------|------------------------------------|
| Actuant Corp. | ITT Corporation |
| Briggs & Stratton Corp. | John Bean Technologies Corporation |
| Carpenter Technology Corp. | Kennametal Inc. |
| Century Aluminum Co. | Lydall, Inc. |
| Chart Industries, Inc. | Mueller Industries, Inc. |
| Clearwater Paper Corp. | Mueller Water Products, Inc. |
| Cleveland-Cliffs Inc. | Nordson Corp. |

| | |
|--|--------------------------------|
| Comfort Systems USA, Inc. | P.H. Glatfelter Co. |
| Donaldson Co. | SPX FLOW, Inc. |
| EnPro Industries, Inc. | Standex International Corp. |
| ESCO Technologies Inc. | SunCoke Energy, Inc. |
| Franklin Electric Co., Inc. | The Timken Company |
| Global Brass and Copper Holdings, Inc. | Timken Steel Corporation |
| Graco Inc. | TriMas Corp. |
| Harsco Corp. | Watts Water Technologies, Inc. |
| Hillenbrand, Inc. | Woodward, Inc. |
| IDEX Corp. | Worthington Industries, Inc. |

Due to the differences in size among the companies in our peer group, Meridian uses a regression analysis to adjust survey data results based on our revenue as compared to the revenue of other companies in our peer group. Importantly, the compensation committee recognizes that we compete for talent with companies much larger than those included in our compensation peer group. These larger companies, including Aleris, Arconic, Constellium and Sapa, aggressively recruit the most highly qualified talent in critical functions. As a result, to attract and retain talent, the compensation committee may from time to time determine that it is in the best interests of our company and our stockholders to provide compensation packages that deviate from targeted pay levels. For 2018, in addition to data obtained from publicly disclosed proxy statements, Meridian also provided data obtained from Equilar Executive Compensation Survey.

Principal Elements of 2018 Compensation

The table below summarizes the elements of our named executive officers' compensation in 2018:
Principal Elements

| Element | Form | Objective | Performance Metric |
|-----------------------|------------------------|--|---|
| Base Salary | Cash | Provide a competitive, fixed compensation upon which our named executive officers can rely. | No performance metric. |
| Short-Term Incentives | Cash | Create financial incentive for achieving or exceeding company performance goals. | Adjusted EBITDA Modifiers for safety, quality, delivery, cost and individual performance. |
| Long-Term Incentives | Restricted Stock Units | Create financial incentive for continued employment with our company through three-year cliff vesting. | No performance metric (retention based and "at risk" to the extent underlying performance impacts stock price). |
| | Performance Shares | Create financial incentive for achieving or exceeding long-term performance goals. | 30%: Relative TSR (compared to peer companies in the S&P 600 SmallCap Materials Index). |

40%: Total
controllable
cost performance
(added
as performance
metric in
2016).
30%: EVA (added
as
performance metric
in
2017).

Each compensation element is discussed in detail below.

Base salary

The compensation committee reviews annually base salaries for our CEO and other executive officers, including our other named executive officers, and determines whether a change is appropriate. In reviewing base salaries, the compensation committee considers factors, including, among others:

• level and scope of responsibility;

• prior experience;

• base salaries paid for comparable positions by our compensation peer group; and

• the relationship among base salaries paid within our company.

Our intent is to fix base salaries at levels consistent with the design of our overall compensation program for the particular year. In 2018, the compensation committee increased the base salaries of our named executive officers, except Mr. Hockema, by 3%, principally to more closely align their base salaries with market and survey information regarding executive officers with similar experience and responsibilities. Based on Mr. Hockema's recommendation, Mr. Hockema did not receive a base salary increase in 2018. Base salaries for our named executive officers in 2018 were as follows:

| Name | 2018 Base Salary |
|---------------------------|------------------|
| Jack A. Hockema | \$915,000 |
| Keith A. Harvey | \$552,000 |
| Daniel J. Rinkenberger | \$468,000 |
| John M. Donnan | \$438,800 |
| John Barneson | \$386,500 |
| 2018 Short-term incentive | |
| Adjusted EBITDA | |

* The targets are based on the Adjusted EBITDA required to achieve the designated return on net assets (excluding cash) plus depreciation. As noted, increasing net assets and depreciation raise the year-over-year Adjusted EBITDA targets. As previously noted, while we achieved strong quality performance in 2018, our safety, on-time delivery and cost performance lagged and did not meet our expectations or demanding requirements, resulting in +7%, -10%, -10% and -4% modifiers, respectively, and an overall reduction of Adjusted EBITDA multiplier of 1.4 to a final multiplier of 1.2.

FEATURES

Pay for performance

Adjusted EBITDA target determined based on return on net assets (excluding cash) plus depreciation

Modifiers for safety, quality, delivery and cost performance establishing a strong linkage to strategic non-financial results

In exceptional and rare instances approved by our compensation committee, individual adjustment up to plus or minus 100% based on actual performance, including individual, facility, and/or functional area performance

No payout unless we:

(1) achieve the threshold Adjusted EBITDA goal

(2) generate positive adjusted net income

Maximum payout capped at three times the target

Rigorous financial performance goals - target increases with investments and increasingly higher net assets and depreciation

Our 2018 short-term incentive plan, which we refer to as our 2018 STI Plan, was an annual cash incentive plan designed to reward participants for achieving certain Adjusted EBITDA performance goals determined based on designated returns on our adjusted net assets (excluding cash) plus depreciation. The structure, terms and objectives of the 2018 STI Plan were generally consistent with those of the short-term incentive plan approved by the compensation committee in 2017. Consistent with the short-term incentive plan approved by the compensation committee in 2017, our 2018 STI Plan also included modifiers for safety, quality, delivery and cost performance and permitted, subject to

the maximum payout opportunity described below, adjustments to individual payouts, in exceptional and rare instances, up to plus or minus 100%, based on actual performance, including individual, facility, and/or functional area performance. Individuals not meeting individual performance goals could receive a reduced, or even no, payout and individuals meeting or exceeding individual performance goals could receive increased payouts; provided, however, that no increase could exceed the maximum payout opportunity of three times the target.

Consistent with our objective of aligning senior management and our stockholders by rewarding our senior management for achieving strategic goals that successfully drive our operations and enhance our stockholder value, our 2018 STI Plan provided

37

that performance in excess of the threshold level would result in an increase in payouts up to the maximum payout opportunity. Under our 2018 STI Plan, potential payouts between the threshold and target levels and between the target and maximum levels were linearly interpolated.

Emphasizing the value we place on employee safety, our product quality, our relationships with our customers, manufacturing efficiency and individual accountability, in addition to financial performance, our 2018 STI Plan took into consideration: corporate safety performance, as measured by TCIR and LCIR; quality performance, as measured by our no-fault claim rate; delivery performance, as measured by our on-time delivery rate; cost performance, as measured by manufacturing costs compared to manufacturing costs in our business plan; and individual performance. Under our 2018 STI Plan, subject to the maximum payout, the award multiplier resulting from actual 2018 Adjusted EBITDA would be adjusted for safety, quality and delivery performance above or below the applicable threshold, each of which could increase or decrease the award multiplier by up to 10%, and for cost performance above or below the applicable threshold, which could increase or decrease the award multiplier by up to 20%. The final award may be increased or decreased by up to 100% based on individual performance in exceptional and rare circumstances.

The table below sets forth the possible payouts that could have been earned by our named executive officers at each performance level and the actual amounts earned by them under the 2018 STI Plan.

| Name | Below Threshold | Threshold | Target | Maximum | Actual |
|------------------------|-----------------|-----------|-----------|-------------|-----------|
| Jack A. Hockema | — | \$337,500 | \$675,000 | \$2,025,000 | \$794,475 |
| Keith A. Harvey | — | \$225,000 | \$450,000 | \$1,350,000 | \$529,650 |
| Daniel J. Rinkenberger | — | \$155,000 | \$310,000 | \$930,000 | \$364,870 |
| John M. Donnan | — | \$146,800 | \$293,600 | \$880,800 | \$345,567 |
| John Barneson | — | \$87,500 | \$175,000 | \$525,000 | \$205,975 |

The Adjusted EBITDA targets under our short-term incentive plan reflect the Adjusted EBITDA required to achieve 7.5%, 15% and 35% returns on our net assets (excluding cash) at the threshold, target and maximum payout levels and also recover our depreciation. As we have continued to invest in our business our net assets and depreciation have continued to grow, and, as a result, the Adjusted EBITDA targets have continued to increase each year. To that end, our Adjusted EBITDA performance at the target level increased 10% from 2017 to 2018 and 21% from 2016 to 2018.

The table on the right illustrates our annual Adjusted EBITDA performance multiplier for the last three years under our short-term incentive plans, before the application of modifiers. See Appendix A to this Proxy Statement for reconciliations of GAAP to non-GAAP measures.

The Adjusted EBITDA Multiplier under our 2018 Short-Term Incentive Plan is the lowest in the last three years despite our near-record Adjusted EBITDA performance due to our annually increased Adjusted EBITDA targets. After the application of modifiers, the the final multipliers under our short-term incentive plan for 2016 ranged from 2.2 to 2.6 and the final multipliers under our short-term incentive plans for 2017 and 2018 were approximately 1.5 and 1.2 respectively, each reflecting the impact of our performance against demanding modifiers.

We believe that consistent execution of our strategy over multi-year periods will lead to an increase in our stockholder return. We use equity awards to provide our named executive officers with an incentive to focus on long-term stockholder value creation. Our long-term incentive program for 2018 through 2020, which we refer to as our 2018 - 2020 LTI Program, for key employees, including our named executive officers, was approved by the compensation committee on March 5, 2018. Since 2014, we have implemented long-term incentive programs based on TSR. In 2016, we added cost as a performance metric, and in 2017, we added EVA as an additional performance metric to our long-term incentive program. Our 2018 - 2020 LTI Program was designed to "pay-for-performance" and to include retention features by rewarding participants with (1) time-vested restricted stock units and (2) performance shares, 30% of which that vest only if a certain TSR performance is achieved, 40% of which that vest only if a certain controllable cost performance is achieved, and 30% of which that vest only if a certain EVA performance is achieved, each over the 2018 through 2020 performance period.

Our 2018 - 2020 LTI Program provides, with respect to the restricted stock units issued to members of senior management, including the named executive officers, that, subject to limited exceptions, such units will vest on March 5, 2021. Each restricted stock unit that becomes vested entitles the participant to receive one share of our common stock.

The 2018 - 2020 LTI Program provides, with respect to the performance shares:

- a threshold performance level up to which no performance shares will vest or be earned;
- a target performance level at which the target number of performance shares will vest and be earned;
- a maximum performance level at or above which the maximum number of performance shares (equal to two times the target number of performance shares) will vest and be earned; and
- pro rata vesting between the threshold and maximum performance levels.

Performance shares earned, if any, are based on our TSR over the underlying three year performance period compared to the other companies comprising the S&P 600 SmallCap Materials Sector Index. In considering constituents for the S&P SmallCap 600, S&P Dow Jones Indices looks for companies (1) with market capitalizations of between \$450 million and \$2.1 billion, (2) meeting certain float requirements, (3) with a U.S. domicile, (4) required to file SEC annual reports, and (5) listed on a major U.S. exchange, among other factors. The materials sector includes companies that manufacture chemicals, construction materials, glass, paper, forest products and related packaging products, and metals, minerals and mining companies.

For 30% of the performance shares granted under our 2018 - 2020 LTI Program, the payout will be determined based on our TSR relative to the TSR of our peer companies in the S&P SmallCap 600 Materials Index as follows:

| Percentile Ranking | Multiplier |
|--------------------|------------|
| < 25th | 0.0x |
| 25th | 0.5x |
| 50th | 1.0x |
| 75th | 1.5x |
| > 90th | 2.0x |

For 40% of the performance shares granted under our 2018 - 2020 LTI Program, the payout will be determined based on our controllable cost performance as follows:

- there is no payout under the controllable cost performance metric if the annualized controllable cost increase is equal to or greater than 3%;
- the performance required for the target payout under the controllable cost performance metric is an annualized controllable cost increase at 0% after offsetting underlying inflation; and
- the performance required for the maximum payout under the controllable cost performance metric is an annualized controllable cost reduction equal to or greater than 3% after offsetting underlying inflation.

Controllable costs are generally defined as our variable conversion costs which adjust with our product volume and mix plus corporate and plant overhead. Controllable costs also (1) include benefits because we believe that management is required to take actions to influence benefit costs over the performance period and (2) exclude, among other things, major maintenance, research and development and enterprise resource planning costs to ensure that we continue to invest in the future of our company.

For 30% of the performance shares granted under our 2018 - 2020 LTI Program, the payout will be determined based on our EVA performance, calculated as the excess of our adjusted pre-tax operating income as reported in our public filings in excess of an amount equal to 15% of our net assets. We believe that positive EVA, while significantly

impacted by market conditions, requires exceptional performance and incentivizes capital efficiency and value creation, as well as increasingly higher targets as a result of our investments.

The compensation committee determined that each named executive officer, with the exception of Messrs. Hockema and Harvey, should receive time-based restricted stock units having an economic value equal to 50% of his target monetary value and a target number of performance shares having an economic value equal to 50% of his target monetary value. As provided by Mr. Hockema's employment agreement and consistent with the foregoing objectives, Mr. Hockema received time-based restricted stock units having an economic value equal to 36% of his target monetary value and a target number of performance shares having an economic value equal to 64% of his target monetary value. Mr. Harvey received time-based restricted stock

units having an economic value equal to 33% of his target monetary value and a target number of performance shares having an economic value equal to 67% of his target monetary value.

The table below sets forth the target monetary value under our 2018 - 2020 LTI Program and the number of restricted stock units and performance shares granted to our named executive officers during 2018:

| Name | Target Monetary Value | Number of Restricted Stock Units (1) | Number of Performance Shares (2) |
|------------------------|-----------------------|--------------------------------------|----------------------------------|
| Jack A. Hockema | \$2,140,000 | 8,285 | 35,190 |
| Keith A. Harvey | \$1,100,000 | 3,904 | 18,934 |
| Daniel J. Rinkenberger | \$675,000 | 3,629 | 8,670 |
| John M. Donnan | \$585,000 | 3,145 | 7,514 |
| John Barneson | \$481,000 | 2,586 | 6,177 |

(1) The restricted stock units granted will vest on March 5, 2021 or earlier if the named executive officer's employment terminates as a result of death or disability or in the event of a change in control. If the named executive officer's employment is terminated by us without cause or the named executive officer's employment is terminated by him for good reason, in either case before March 5, 2021, the restricted stock units will remain outstanding and vest on March 5, 2021 (or earlier in the event of his death or disability or a change in control). If the employment of Mr. Hockema or Mr. Barneson terminates before March 5, 2021 as a result of his retirement, a prorated portion of such restricted stock units, determined based on the actual days of his employment during the restriction period, will remain outstanding and vest on March 5, 2021 (or earlier in the event of his death or disability or a change in control). The number of restricted stock units granted was calculated by dividing the applicable percentage (i.e., 36% and 33% for Messrs. Hockema and Harvey, respectively, and 50% for the other named executive officers) of the target monetary value by the sum of (i) the average of the closing prices of our company's common stock for the 20 trading days prior to the grant date, which was \$105.10 per share, reduced by (ii) 11.53%, the discount factor provided by Meridian to reflect the design characteristics, including the vesting period, of the restricted stock units.

(2) The table below sets forth the number of performance shares that will vest and be earned for each of Messrs. Hockema, Harvey, Rinkenberger, Donnan and Barneson under our 2018 - 2020 LTI Program at each performance level:

| Name | Below Threshold | Threshold | Target | Maximum |
|------------------------|-----------------|-----------|--------|---------|
| Jack A. Hockema | — | 8,797 | 17,594 | 35,190 |
| Keith A. Harvey | — | 4,733 | 9,467 | 18,934 |
| Daniel J. Rinkenberger | — | 2,167 | 4,334 | 8,670 |
| John M. Donnan | — | 1,878 | 3,757 | 7,514 |
| John Barneson | — | 1,544 | 3,087 | 6,177 |

The number of performance shares, if any, earned based on the level of performance achieved during the three-year performance period will vest on the later to occur of March 5, 2021 and the date on which the compensation committee certifies the performance level achieved during the three-year performance period, which shall be no later than March 15, 2021. If, prior to December 31, 2020, the named executive officer's employment terminates as a result of death or disability, the target number of performance shares will vest and be earned. If, prior to the vesting date, the named executive officer's employment is terminated by us without cause or is voluntarily terminated by him for good reason, the performance shares granted to him will remain outstanding and the number of performance shares, if any, earned will be determined based on the performance level achieved during the three-year performance period. If, prior to December 31, 2020, a change in control occurs, the performance shares granted to him will vest and the number of

performance shares, if any, earned will be determined based on the performance level achieved during the performance period through the change in control date. If, prior to the vesting date, the employment of Mr. Hockema or Mr. Barneson terminates as a result of his retirement, the performance shares granted to him will remain outstanding and the number of performance shares, if any, earned will be determined based on the performance level achieved during the performance period and prorated based on the actual days of the named executive officer's employment during the performance period.

The threshold, target and maximum number of performance shares that may be earned, if at all, in 2021 under our 2018-2020 LTI Program are determined as follows:

the threshold number of performance shares reflects that no performance shares will be earned in 2021 under our 2018-2020 LTI Program unless our company's performance exceeds the applicable threshold performance required over the 2018 through 2020 performance period;

the target number of performance shares was calculated by dividing the applicable percentage (i.e., 64% and 67% for Messrs. Hockema and Harvey, respectively, and 50% for the other named executive officers) of the target monetary value by the sum of (i) the average of the closing prices of our company's common stock for the 20 trading days prior to the grant date, which was \$105.10 per share, reduced by (ii) 25.93%, the discount factor provided by Meridian in connection with the calculation of the economic value of the performance shares for purposes of determining the number of performance shares to be granted on the grant date; and the maximum number of performance shares for each metric is approximately twice the target number of performance shares for that metric.

Upon a change in control, all the restricted stock units granted to the executives will vest, however the number of performance shares earned, if any, will be determined based on the performance level achieved against the underlying metrics applicable to the outstanding performance shares during the performance period through the date of the change in control ensuring that our named executive officers will only be rewarded for performance supporting strategic goals that successfully drive our operations and enhance our stockholder returns. We believe this structure (1) aligns the interests of our named executive officers with our stockholders, and (2) drives the performance required to meet our strategic initiatives and enhance stockholder returns, particularly when considering that the performance shares issued to our named executive officers have an economic value equal to at least 50% of the each named executive officers long-term incentive target (65% and 67% for Messrs. Hockema and Harvey, respectively), and that the performance shares earned, if any, upon a change in control will only be earned if the required performance level is achieved.

Results for 2016-2018 Performance Period

Relative TSR*

Controllable Cost**

* Relative TSR is against companies comprising the S&P 600 SmallCap Materials Sector Index. Payout capped at target if TSR is negative.

** Payout at target only if we offset underlying inflation. Payout at maximum only if we achieve 3% or more annualized cost reduction after offsetting underlying inflation.

On March 5, 2019, the three-year vesting period applicable to the grant of restricted stock under our long-term incentive program for 2016 through 2018, which we refer to as our 2016 - 2018 LTI Program, ended and the shares vested in accordance with the terms of the underlying grant. In addition, in early 2019 our compensation committee determined that 101% of the target performance shares granted under our 2016 - 2018 LTI Program had been earned based on our performance over the 2016 through 2018 performance period. The remaining performance shares granted under our 2016 - 2018 LTI Program were forfeited.

The payout under the 2016-2018 equity performance awards was based 60% on our TSR performance relative to the TSR performance of our peers in the S&P SmallCap 600 Materials Index and 40% on our total controllable cost performance. Our TSR is calculated based on the return of the 20-trading-day average closing prices between the beginning and the end of the

applicable performance period, using the formula below. The average prices are based upon daily asset values, which represent adjusted stock prices for dividends reinvested throughout the period.

$$\text{TSR} = \frac{(\text{Ending Average} - \text{Beginning Average})}{\text{Beginning Average}}$$

The calculation for the 2016 to 2018 TSR is as follows:

$$\text{TSR} = \frac{\$97.09 - \$84.36}{\$84.36} = 15.10\%$$

The beginning average price of \$84.36 is based upon the 20-trading-day average closing stock prices of our common stock, assuming all dividends are reinvested as of the ex-dividend date, from December 3, 2015 to December 31, 2015. The ending average price of \$97.09 is based upon the 20-trading-day average closing stock prices of our common stock, assuming all dividends are reinvested as of the ex-dividend date, from November 30, 2018 to December 31, 2018. We paid out \$6.00 per share of dividends during the 2016 to 2018 performance period.

Our TSR of 15.10% for the 2016 to 2018 performance period ranked #17 out of the 30 companies in the S&P SmallCap 600 Materials Index, or the 45th percentile, resulting in a payout of 90% of the target performance shares with the relative TSR performance metric (45% of the total opportunity or maximum payout).

The chart below illustrates the performance share award payouts based on our relative TSR performance for the 2014-2016, 2015-2017 and 2016-2018 long-term incentive programs:

Performance shares earned, if any, are based on our TSR over the underlying three year performance period compared to the other companies comprising the S&P 600 SmallCap Materials Sector Index.

The beginning and ending stock prices used to determine our TSR are calculated using the 20-trading day average preceding the beginning and end of the performance period.

| | Percentile Ranking | Multiplier |
|--|-----------------------|------------|
| The performance share multiplier is determined by using straight line interpolation based on our TSR percentile ranking within our comparison group based on the table to the right: | < 25th | 0.0x |
| | 25th | 0.5x |
| | 50th | 1.0x |
| | 75th | 1.5x |
| | > 90th | 2.0x |

* Reflects percentage of target. The final payout multipliers for the 2014-2016, 2015-2017 and 2016-2018 programs as a percentage of the total opportunity or maximum payout were 63%, 85% and 45%, respectively.

For the 2016 to 2018 performance period, we achieved a total controllable cost reduction of 1% in excess of underlying inflation compared to the baseline 2015 controllable cost, resulting in a payout of 118% of the target performance shares with the controllable cost performance metric. The weighted multiplier for the target performance shares granted under our 2016 - 2018 LTI Program is 101%.

Retirement benefits

We no longer maintain a defined benefit pension plan or retiree medical program that covers members of senior management. Retirement benefits to our senior management, including our named executive officers, are currently provided through a defined contribution retirement program consisting of the following two principal plans:

the Kaiser Aluminum Savings and Investment Plan, a tax-qualified profit-sharing and 401(k) plan (which we refer to as our Savings Plan); and

a nonqualified and unsecured deferred compensation plan (which we refer to as our Restoration Plan) intended to restore benefits that would be payable to designated participants in our Savings Plan but for the limitations on benefit accruals and payments imposed by the Code.

The defined contribution retirement program has the following three primary components, which are discussed more fully below:

- a company match of the employee's pre-tax deferrals under our Savings Plan;
- a company contribution to the employee's account under our Savings Plan; and
- a company contribution to the employee's account under our Restoration Plan.

Under the terms of our Restoration Plan, cash balances are maintained in a "rabbi trust" where they remain subject to the claims of our creditors and are otherwise invested in funds designated by each individual from a menu of possible investments. In addition, the cash balances maintained in the rabbi trust are forfeited if the individual is terminated for cause.

The compensation committee believes the Savings Plan and the Restoration Plan support the objectives of our comprehensive compensation structure, including the ability to attract and retain senior and experienced mid- to late-career executives for critical positions within our organization. Each of these plans is discussed more fully below.

Perquisites

Our use of perquisites as an element of compensation is very limited and largely based on business-related entertainment needs. We do not view perquisites as a significant element of our comprehensive compensation structure but do believe that they can be used in conjunction with base salary to attract, motivate and retain individuals in a competitive environment. During 2018, all of our named executive officers received a vehicle allowance. Messrs. Donnan and Harvey were also reimbursed for dues for club memberships.

Consideration of the 2018 Advisory Vote on Executive Compensation

We provide our stockholders with the opportunity to cast an annual vote on executive compensation. At our 2018 annual meeting of stockholders, approximately 93% of shares of our common stock voted on the proposal were voted to approve the compensation of our named executive officers as disclosed in the proxy statement relating to such meeting, and we have consistently received stockholder approval of over 90% of our executive compensation programs. The compensation committee has considered the outcome of the vote on executive compensation at our 2018 annual meeting of stockholders, as well as the feedback received through our stockholder engagement, and believes they affirm our stockholders' support of our overall approach to executive compensation. Accordingly, we have not made any changes to our overall approach to executive compensation as a result of the 2018 advisory vote.

The compensation committee will continue to consider the outcome of the annual vote on executive compensation when making future compensation decisions for the named executive officers.

Actions With Respect to 2019 Compensation

The compensation committee has reviewed and determined our compensation program for 2019. The review included consideration of stockholder feedback and discussions with Meridian and management regarding existing and contemplated market practices, as well as the structure and objectives of each component of our compensation program. Upon completion of the review, in March 2019, the compensation committee approved the annual base salaries of our named executive officers for 2019, effective April 1, 2019. For 2019, based on the recommendation of Mr. Hockema, the compensation committee did not increase the base salaries of Messrs. Hockema, Harvey and Donnan and approved an approximately 3% increase in the total compensation target for each of our named executive officers to continue to increase their at risk compensation and drive the

alignment reflected in our compensation philosophy. No adjustments were made to the compensation of Messrs. Rinkenberger and Barneson as a result of their retirements.

For 2019, the benchmarking performed by Meridian reflected that the total target compensation of our CEO was 5% below the median of our compensation peer group and that our CEO's (1) base salary was approximately 8% above the median base salary, (2) short-term incentive target was approximately 22% below the median and (3) long-term incentive target was around the median and 8% below the 65th percentile. Regressed Equilar Executive Compensation Survey data received by our compensation committee reflected similar comparisons. Using that information, our compensation committee, as noted above, did not increase our CEO's 2019 base salary and, instead increased his short-term and long-term incentive compensation targets to continue to increase his at risk-compensation and drive the alignment reflected in our compensation philosophy.

In addition, the compensation committee approved (1) a short-term incentive plan for 2019 with a structure, terms and objectives generally consistent with the structure, terms and objectives of the short-term incentive plans approved by the compensation committee in 2018, and (2) a long-term incentive program for 2019 through 2021 with a structure, terms and objectives generally consistent with the structure, terms and objectives of our 2018 - 2020 LTI Program, except for the elimination of EVA as a performance metric and adjustment of the weighting of the two performance metrics under the 2019-2021 LTI Plan to 60% relative TSR and 40% controllable cost performance. For more information regarding the 2019 compensation of our named executive officers, see our Current Report on Form 8-K filed with the Securities and Exchange Commission on March 5, 2019.

Stock Ownership Guidelines

In order to further align the interests of senior management, including our named executive officers, with those of our stockholders, we have stock ownership guidelines, which are set forth in our corporate governance guidelines. Under those guidelines, members of our senior management are expected to hold common stock having a value equal to a multiple of their base salary as determined by their position. The guidelines provide for a target multiple of six times base salary for our CEO and President and COO and three times base salary for the other named executive officers. Each member of senior management covered by our stock ownership guidelines is expected to retain at least 75% of the net shares resulting from equity compensation awards until he or she achieves the applicable ownership level required by the stock ownership guidelines. The ownership guidelines are expected to be met within five years. Each of our named executive officers has satisfied the applicable stock ownership requirements under the stock ownership guidelines.

For purposes of measuring compliance with our stock ownership guidelines (1) restricted stock and restricted stock units are valued at the closing price of the company's common stock on the grant date, (2) performance shares are valued using the target number of performance shares and the closing price of our common stock on the grant date, and (3) all other shares of common stock purchased or acquired by members of our senior management are valued at the purchase price of the shares.

Securities Trading Policy

Our securities trading policy prohibits our directors and employees, including our named executive officers, from engaging in hedging transactions with respect our securities, including entering into short sales, options, puts, calls and derivative instruments such as swaps, forwards and futures. Our securities trading policy also prohibits our directors and key employees, including our named executive officers, from buying our securities on margin or holding our securities in a margin account and from pledging our securities as collateral for a loan or any other obligations.

Employment Contracts, Termination of Employment Arrangements and Change-in-Control Arrangements

As discussed more fully below, on July 15, 2017 we entered into an amended and restated employment agreement with Mr. Hockema, primarily to extend the term of the existing employment agreement. The compensation committee, working with Meridian, determined that the negotiated terms of the agreement were consistent with market practice. The compensation committee also determined that extending the term of the employment agreement with Mr. Hockema was important to, among other things:

- provide an economic incentive for Mr. Hockema to delay his retirement until at least July 2020;
- improve our ability to retain other key members of senior management;
- facilitate the development and executive of succession plans; and

provide assurance to our stockholders, customers and other stakeholders of the continuity of senior management for an extended period.

The compensation committee determined that the agreement and the terms of the agreement were in the best interests of our company and stockholders.

Also, as discussed more fully below, certain members of senior management, including each of our named executive officers, continue to have benefits related to terminations of employment in connection with a change in control, by us without cause and by the named executive officer with good reason. These protections were implemented in 2002 and limit our ability to downwardly adjust certain aspects of compensation, including base salaries and target incentive compensation, without triggering the ability of the affected named executive officer to receive termination benefits in connection with a change in control.

Summary Compensation Table

The table below sets forth information regarding compensation for our named executive officers: (1) Jack A. Hockema, our CEO and Chairman of the Board (our principal executive officer); (2) Daniel J. Rinkenberger, our former Executive Vice President and Chief Financial Officer (and our principal financial officer during 2018); and (3) each of Keith A. Harvey, John M. Donnan, and John Barneson, our three other most highly compensated executive officers (based on total compensation for 2018). Messrs. Rinkenberger and Barneson retired from our company in March and February 2019, respectively.

| Name and Principal Position | Year | Salary | Stock Awards (1) | Non-Equity Incentive Plan Compensation (2) | Change in Pension Value and Nonqualified Deferred Compensation Earnings (3) | All Other Compensation (4) | Total |

Reflects the aggregate grant date fair value of restricted stock units and performance share awards to our named executive officers determined in accordance with Financial Accounting Standards Board Accounting Standard Code Topic 718 (referred to herein as ASC Topic 718), without regard to potential forfeiture. The aggregate grant date fair value of the performance shares awards reflected in this table has been determined assuming the probable outcome of the performance condition on the date of the grant and without adjustment for actual performance (1) during the period and, for performance shares with relative TSR as the performance metric, using a Monte Carlo simulation of future stock prices of our company and our peer companies on the S&P 600 SmallCap Materials Sector Index. The aggregate grant date fair value of the 2018 performance share awards determined assuming the probable outcome of the performance conditions and assuming an outcome of the performance conditions at the maximum level are as follows:

| Name | Year | Aggregate Grant Date Fair Value | |
|------------------------|------|------------------------------------|------------------------------|
| | | At Probable Performance | At Maximum Performance |
| Jack A. Hockema | 2018 | \$2,394,415 | \$3,849,258 |
| Keith A. Harvey | 2018 | \$1,288,333 | \$2,071,090 |
| Daniel J. Rinkenberger | 2018 | \$589,928 | \$948,368 |
| John M. Donnan | 2018 | \$511,288 | \$821,914 |
| John Barneson | 2018 | \$420,307 | \$675,669 |

For information regarding the assumptions made in the valuation of restricted stock units and performance share awards with respect to our 2018 fiscal year, see Note 6 of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

(2) Reflects payments earned under our short-term incentive plans.

Reflects the aggregate change in actuarial present value of the named executive officer's accumulated benefit under a defined pension benefit plan previously maintained by us for our salaried employees, which we refer to as our Old Pension Plan, during the applicable fiscal year, calculated by (a) assuming mortality according to the RP-2014 White Collar Healthy Annuitant mortality table, adjusted to 2006 and then projected forward with Scale MP-2016 as of December 31, 2017 and the RP-2014 White Collar Healthy Annuitant mortality table, adjusted to 2006, and then projected forward with Scale MP-2018 as of December 31, 2018 and (b) applying a discount rate of 3.60%, 3.20% and 3.90% per annum for 2016, 2017 and 2018, respectively, to determine the actuarial present value of the accumulated benefit at December 31 of the preceding year and a discount rate of 3.90%, 3.60% and 3.20% per annum, respectively, to determine the actuarial present value of the accumulated benefit at December 31 of the applicable year. Effective December 17, 2003, the Pension Benefit Guaranty Corporation, or PBGC, terminated and effectively assumed responsibility for making benefit payments in respect of our Old Pension Plan, whereupon all benefit accruals under the Old Pension Plan ceased and benefits available thereunder to certain salaried employees, including Mr. Hockema, were significantly reduced due to the limitations on benefits payable by the PBGC. Above-market or preferential earnings are not available under our Restoration Plan, which is our only plan or arrangement pursuant to which compensation may be deferred on a basis that is not tax-qualified, or any of our other benefit plans.

(4) Includes (a) contributions made or to be made by us under our Savings Plan, (b) contributions made or to be made by us under our Restoration Plan (which is intended to restore the benefit of contributions that we would have otherwise paid to participants under our Savings Plan but for limitations imposed by the Code), (c) dividend and dividend equivalent payments which were not factored into the reported grant date fair value of the restricted stock unit and performance share awards, and (d) the costs to us of perquisites and other personal benefits. See the table set forth under "- All Other Compensation" below for information regarding each such component.

As reflected in the table above, the base salary received by each of our named executive officers, as a percentage of their respective total compensation was as follows:

For 2018 Mr. Hockema, 16.9%; Mr. Harvey, 17.6%; Mr. Rinkenberger, 23.9%; Mr. Donnan, 24.6%; and Mr. Barneson, 27.0%;

For 2017, Mr. Hockema, 15.9%; Mr. Harvey, 9.2%; Mr. Rinkenberger, 21.5%; Mr. Donnan, 22.1%; and Mr. Barneson, 23.8%; and

For 2016 Mr. Hockema, 14.9%; Mr. Harvey, 13.8%; Mr. Rinkenberger, 19.8%; Mr. Donnan, 20.3%; and Mr. Barneson, 21.7%.

(1) Reflects the threshold, target and maximum award amounts under our 2018 STI Plan for our named executive officers. No awards are payable when performance does not reach the threshold performance level. Under our 2018 STI Plan, if the threshold performance level was reached, participants were eligible to receive a cash incentive award between one-half and three times the participant's target award amount. See the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table for the actual monetary awards paid to the named executive officers under the 2018 STI Plan in March 2019.

(2) Reflects the number of performance shares that will become vested and earned for each of the named executive officers under our 2018 - 2020 LTI Program in 2021 at the threshold, target and maximum performance levels. No performance

shares will vest under the 2018 - 2020 LTI Program unless our company's performance exceeds the threshold performance required during the three-year performance period. The number of performance shares, if any, earned based on the level of performance during the three-year performance period will vest on the later to occur of March 5, 2021 and the date on which the compensation committee certifies the performance level achieved, which shall be no later than March 15, 2021. If, prior to December 31, 2020, the named executive officer's employment terminates as a result of death or disability, the target number of performance shares will vest. If, prior to the vest date, the named executive officer's employment is terminated by us without cause or is voluntarily terminated by him for good reason, the performance shares granted to him will remain outstanding and the number of performance shares, if any, earned upon the vesting date will be determined based on the performance level achieved during the three-year performance period. If, prior to December 31, 2020, a change in control occurs, the performance shares granted to him will vest immediately and the number of performance shares, if any, earned upon the change in control date will be determined based on the performance level achieved during the performance period through the change in control date. If, prior to the vesting date, the employment of Mr. Hockema or Mr. Barneson terminates as a result of his retirement, the performance shares granted to him will remain outstanding and the number of performance shares, if any, earned upon the vesting date will be determined based on the performance level achieved during the performance period and prorated based on the actual days of the named executive officer's employment during the performance period. Mr. Barneson's employment terminated as a result of his retirement in February 2019. In connection with the issuance or delivery of shares of common stock after the performance period has ended, the named executive officer will also receive a payment equal in amount to the cash dividends and distributions that such named executive officer would have received if the number of shares of common stock to be issued or delivered had been issued and outstanding and held of record by such named executive officer from the date of grant through the date of issuance or delivery of such shares.

Reflects the aggregate grant date fair value of restricted stock units and performance share awards to our named executive officers determined in accordance with ASC Topic 718, without regard to potential forfeiture. The aggregate grant date fair value of the performance share awards reflected in this table has been determined (3) assuming the probable outcome of the performance condition on the date of the grant and without adjustment for actual performance during the period and, for performance shares with relative TSR as the performance metric, using a Monte Carlo simulation of future stock prices of our company and our peer companies on the S&P 600 SmallCap Materials Index.

Reflects the number of restricted stock units received by the named executive officer pursuant to awards granted effective March 5, 2018. The restricted stock units granted will vest on March 5, 2021 or earlier if the named executive officer's employment terminates as a result of death or disability or in the event of a change in control. If the named executive officer's employment is terminated by us without cause or the named executive officer's employment is terminated by him for good reason, in either case before March 5, 2021, the restricted stock units will remain outstanding and vest on March 5, 2021 (or earlier in the event of his death or disability or a change in control). If the employment of Mr. Hockema or Mr. Barneson terminates before March 5, 2021 as a result of his retirement, a prorated portion of such restricted stock units, determined based on the actual days of his employment during the restriction period, will remain outstanding and vest on March 5, 2021 (or earlier in the event of his death or disability or a change in control). Mr. Barneson's employment terminated as a result of his retirement in February 2019. The named executive officer will receive dividend equivalent payments equal to cash dividends and distributions that such named executive officer would receive if the number of shares of common stock underlying such restricted stock units were issued and outstanding and held of record by such named executive officer on the applicable record date for such dividend or distribution.

Employment-Related Agreements and Certain Employee Benefit Plans

Employment Agreement with Jack A. Hockema

On July 6, 2006, we entered into an employment agreement with Jack A. Hockema, pursuant to which Mr. Hockema continued his duties as our President and CEO. On November 9, 2010, we entered into an amended and restated employment agreement with Mr. Hockema to extend the term of the existing employment agreement from July 5, 2012 through July 6, 2015, eliminate the automatic renewal provision, eliminate our obligation to make excise tax gross-up payments to Mr. Hockema, and modify his long-term incentive compensation to increase the portion of such compensation in the form of performance shares. The agreement was amended and restated on March 5, 2014, primarily to extend the term of the existing employment agreement through December 31, 2016 and modify the calculation of any prorated payment of Mr. Hockema's annual short-term incentive compensation upon the termination of his employment prior to the last day of the applicable fiscal year so that such calculation is based on actual, rather than target, performance, and was amended on March 31, 2014 to permit his 2014 long-term incentive award to provide for prorated payment based on the actual number of days of his employment during the applicable restricted or performance period, rather than full payment, in the event of his retirement prior to the end of the applicable restricted or performance period. On December 31, 2015, the agreement was amended and restated to extend

the term through December 31, 2018. On July 15, 2017, the agreement was again amended and restated to extend the term of the existing employment agreement through July 15, 2020.

The terms of Mr. Hockema's amended and restated employment agreement provide for an initial base salary of \$915,000, subject to annual increases, if any, agreed by us and Mr. Hockema and for an annual short-term incentive target equal to 68.5% of his base salary. The short-term incentive may be paid in cash, shares of the company's common stock, or a combination of cash and shares of the company's common stock, but is subject to both our meeting the applicable underlying performance thresholds and an annual cap of three times the target. If Mr. Hockema's employment terminates other than on a date which is the last day of a fiscal year, then his annual short-term incentive award with respect to the fiscal year in which his employment terminates will be determined based on the company's actual performance under the company's short-term incentive plan in which Mr. Hockema participates and prorated for the actual number of days of employment during such fiscal year, and such amount will be paid to Mr. Hockema or his estate unless his employment was terminated by us for cause. The amended and restated employment agreement provides that Mr. Hockema is entitled to receive annual equity awards (such as restricted stock units or performance shares) with a target economic value of 227% of his base salary, with the portion of his annual equity awards in the form of restricted stock units equaling 36% of the target economic value, and his annual equity awards in the form of performance shares equaling 64% of the target economic value.

Under Mr. Hockema's amended and restated employment agreement, following any termination of his employment, we must pay or provide to Mr. Hockema or his estate:

• base salary earned through the date of such termination;

• except in the case of a termination by us for cause, earned but unpaid incentive awards;

• accrued but unpaid vacation;

• benefits under our employment benefit plans to the extent vested and not forfeited on the date of such termination; and

• benefit continuation and conversion rights to the extent provided under our employment benefit plans.

In addition, if Mr. Hockema's employment is terminated as a result of his death or disability, at the end of the term of his employment agreement or upon his retirement during the term, all of his outstanding equity awards will vest in accordance with their terms, subject to the provisions described above, and all of his vested but unexercised grants will remain exercisable through the second anniversary of such termination. If Mr. Hockema's employment is terminated by us for cause, all of his unvested equity grants will be forfeited and all of his vested but unexercised equity grants will be forfeited on the date that is 90 days following such termination. If Mr. Hockema's employment is terminated by us without cause or is voluntarily terminated by him with good reason, in addition to the payment of his accrued benefits as described above, (1) we will make a lump-sum payment to Mr. Hockema in an amount equal to 3.37 times his base salary (which equates to approximately 1.8 times the sum of his current base salary and short-term incentive target), (2) his medical, dental, vision, life insurance and disability benefits, which we refer to as welfare benefits, will continue for two years commencing on the date of such termination, and (3) all of his outstanding equity awards will vest in accordance with their terms, subject to the provisions described above, and all of his vested but unexercised grants will remain exercisable through the second anniversary of such termination.

If there is a change in control of our company, all of Mr. Hockema's equity awards outstanding as of the date of such change in control will vest in accordance with their terms. If Mr. Hockema's employment is terminated by us without cause or is voluntarily terminated by him with good reason within two years following a change in control, in addition

to the payments of his accrued benefits as described above, (1) we will make a lump-sum payment to Mr. Hockema in an amount equal to 5.05 times his base salary (which equates to approximately 2.8 times the sum of his current base salary and short-term incentive target), (2) his welfare benefits will continue for three years commencing on the date of such termination, and (3) all previously unvested equity grants will become exercisable and vested but unexercised grants will remain exercisable through the second anniversary of such termination. If any payments to Mr. Hockema would be subject to a federal excise tax by reason of being considered contingent on a change in control, then such payments will be reduced to the minimum extent necessary so that no portion of such payments, as so reduced, is subject to such tax, except that such a reduction will be made only if and to the extent such reduction would result in an increase in the aggregate payment on an after-tax basis.

Mr. Hockema will be subject to non-competition, non-solicitation and confidentiality restrictions following his termination of employment.

For quantitative disclosure regarding estimated payments and other benefits that would have been received by Mr. Hockema or his estate if his employment had terminated on December 31, 2018, the last business day of 2018, under various circumstances, see "— Potential Payments and Benefits upon Termination of Employment" below.

Salaried Severance Plan

Mr. Hockema's employment agreement discussed above describes the benefits available to Mr. Hockema upon the severance of his employment with the company. Messrs. Harvey, Rinkenberger, Donnan, and Barneson are subject to our severance plan for salaried employees, which we refer to as our Salaried Severance Plan. Our Salaried Severance Plan provides for payment of a termination allowance and continuation of welfare benefits upon an involuntary separation of employment that is intended to be permanent. The termination allowance and continuation of welfare benefits are not available under our Salaried Severance Plan if:

- the employee received severance compensation or welfare benefit continuation pursuant to a Change in Control Agreement (described below) or any other agreement;
- the employee's employment is terminated other than by us without cause; or
- the employee declined to sign, or subsequently revokes, a designated form of release.

The termination allowance payable to covered employees under our Salaried Severance Plan consists of a lump-sum cash payment equal to the employee's weekly base salary multiplied by a number of weeks (not to exceed 26), which we refer to as the continuation period, determined based on the employee's number of years of full employment. Under our Salaried Severance Plan, welfare benefits are continued following the termination of employment for the shorter of the continuation period and the period commencing on the termination of employment and ending on the date that the employee is no longer eligible for coverage under the Consolidated Omnibus Budget Reconciliation Act, or COBRA. As of December 31, 2018, the continuation periods for Messrs. Harvey, Rinkenberger, Donnan, and Barneson were 26, 24, 24, and 26 weeks, respectively.

For quantitative disclosure regarding estimated payments and other benefits that would have been received by each of Messrs. Hockema, Harvey Rinkenberger, Donnan, and Barneson or his estate if his employment had terminated on December 31, 2018, the last business day of 2018, under various circumstances, see "— Potential Payments and Benefits upon Termination of Employment" below.

Change in Control Agreements

In 2002, in connection with the commencement of our chapter 11 bankruptcy and the implementation of our court-approved Chapter 11 Key Employee Retention Plan, we also entered into Change in Control Agreements with certain key executives, including Messrs. Hockema, Harvey, Rinkenberger, Donnan, and Barneson, in order to provide them with appropriate protection in the event of a termination of employment in connection with a change in control or, except as otherwise provided, a significant restructuring. Mr. Hockema's employment agreement discussed above supersedes his Change in Control Agreement, and was amended to, among other things, eliminate our obligation to make excise tax gross up payments to Mr. Hockema. As previously noted, Messrs. Rinkenberger and Barneson retired in March and February 2019, respectively. The Change in Control Agreements applicable to Messrs. Harvey and Donnan terminate on the second anniversary of a change in control.

The Change in Control Agreements provide for severance payments and continuation of welfare benefits upon termination of employment in certain circumstances. The participants are eligible for severance benefits if their

employment is terminated by us without cause or by the participant with good reason during a period that commences 90 days prior to the change in control and ends on the second anniversary of the change in control. Participants also are eligible for severance benefits if their employment is terminated by us due to a significant restructuring event when there has been no change in control. These benefits are not available if:

the participant's employment is terminated other than by us without cause or by the participant for good reason; or

the participant declines to sign, or subsequently revokes, a designated form of release.

In consideration for the severance payment and continuation of benefits, a participant will be subject to non-competition, non-solicitation and confidentiality restrictions following his or her termination of employment with us.

Upon a qualifying termination of employment, each of Messrs. Harvey and Donnan is entitled to receive the following:

- two times the sum of his base pay and most recent short-term incentive target;
- a prorated portion of his short-term incentive target for the year of termination; and
- a prorated portion of his long-term incentive target in effect for the year of his termination, provided that such target was achieved.

In addition, welfare benefits and perquisites are continued for a period of two years for Messrs. Harvey and Donnan after termination of employment with us.

In general, if any payments would be subject to federal excise tax or any similar state or local tax by reason of being considered contingent on a change in control, the participant will be entitled to receive an additional amount (a "gross-up payment") such that, after satisfaction of all tax obligations imposed on such payments, the participant retains an amount equal to the federal excise tax or similar state or local tax imposed on such payments. However, if no such federal excise tax or similar state or local tax would apply if the aggregate payments were reduced by 5%, then the aggregate payments to the participant will be reduced by the amount necessary to avoid application of such federal excise tax or similar state or local tax.

The Change in Control Agreements are legacy agreements which cannot be unilaterally terminated or amended by our company without participant approval. However, we expect to continue to address the gross-up provisions in the remaining agreements when opportunities arise.

For quantitative disclosure regarding estimated payments and other benefits that would have been received by each of Messrs. Hockema, Harvey, Rinkenberger, Donnan, and Barneson or his estate if his employment had terminated on December 31, 2018, the last business day of 2018, under various circumstances, see "— Potential Payments and Benefits Upon Termination of Employment" below.

2016 Plan

The 2016 Plan is an omnibus plan that facilitates the issuance of incentive awards as part of our comprehensive compensation structure and is administered by a committee of non-employee directors of our board of directors, currently the compensation committee.

Any person who is selected by the compensation committee to receive benefits under the 2016 Plan and who is at that time an officer or other key employee of Kaiser or any of our subsidiaries (including a person who has agreed to commence serving in such capacity within 90 days of the date of grant) is eligible to participate in the 2016 Plan. In addition, certain persons who provide services to us or any of our subsidiaries that are equivalent to those typically provided by an employee (provided that such persons satisfy the definition of "employee" for purposes of a Registration Statement on Form S-8 under the Securities Act of 1933, which we refer to as the "Securities Act") and non-employee directors of Kaiser may also be selected to participate in the 2016 Plan. As of December 31, 2018, there were approximately 60 employees and nine non-employee directors of Kaiser expected to participate in the 2016 Plan.

Subject to adjustment as described in the 2016 Plan, the aggregate number of shares of our common stock available for awards granted under the 2016 Plan is limited to 1,045,000 shares of our common stock, minus (1) as of the effective date of the 2016 Plan, one share for every one share subject to an award granted under the predecessor plan between December 31, 2015 and the effective date of the 2016 Plan, plus (2) any shares of our common stock that

become available under the 2016 Plan as a result of forfeiture, cancellation, expiration, or cash settlement of awards. As of the date of this Proxy Statement, approximately 496,096 shares of common stock are available for additional awards under the 2016 Plan.

The 2016 Plan authorizes the issuance of option rights, appreciation rights, restricted stock, restricted stock units, cash incentive awards, performance shares, performance units and other awards, including awards in the forms of cash, shares of common stock, notes or other property.

Under the 2016 Plan, any award agreement may provide for the cancellation or forfeiture of an award or the forfeiture and repayment to Kaiser of any gain related to an award as determined by the compensation committee if a participant has engaged in any detrimental activity, either during employment by us or within a specified period after termination of employment.

Under the 2016 Plan, the compensation committee may permit non-employee directors to elect to receive shares of our common stock in lieu of any or all of the annual cash retainers paid to non-employee directors, including retainers for serving as a committee chair or Lead Independent Director.

Our board of directors generally may amend the 2016 Plan from time to time in whole or in part. However, if any amendment (1) would materially increase the benefits accruing to participants under the 2016 Plan, (2) would materially increase the number of shares or securities which may be issued under the 2016 Plan, (3) would materially modify the requirements for participation in the 2016 Plan, or (4) must otherwise be approved by our stockholders in order to comply with applicable law or the rules of the Nasdaq Stock Market, then such amendment will be subject to stockholder approval and will not be effective unless and until such approval has been obtained. Further, subject to the 2016 Plan's prohibition on repricing, the compensation committee generally may amend the terms of any award prospectively or retroactively, except in the case of awards intended to qualify as "qualified performance-based compensation" under Section 162(m) of the Code (which awards may be so amended only to the extent doing so would not result in the loss of an otherwise available exemption under Section 162(m) of the Code).

Our board of directors may, in its discretion, terminate the 2016 Plan at any time. Termination of the 2016 Plan will not affect the rights of participants or their successors under any awards outstanding and not exercised in full on the date of termination. The 2016 Plan will expire on May 26, 2026. No grants will be made under the plan after that date, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of the 2016 Plan.

Savings Plan

We sponsor a tax-qualified profit sharing and 401(k) plan, our Savings Plan, in which eligible salaried employees may participate. Pursuant to the Savings Plan, employees may elect to reduce their current annual compensation up to the lesser of 75% or the statutorily prescribed limit of \$19,000 in calendar year 2019 (plus up to an additional \$6,000 in the form of "catch-up" contributions for participants near retirement age), and have the amount of any reduction contributed to the Savings Plan. Our Savings Plan is intended to qualify under sections 401(a) and 401(k) of the Code, so that contributions by us or our employees to the Savings Plan and income earned on contributions are not taxable to employees until withdrawn from the Savings Plan and so that contributions will be deductible by us when made.

We match 100% of the amount an employee contributes to the Savings Plan, subject to a 4% maximum based on the employee's compensation as defined in the Savings Plan. Employees are immediately vested 100% in our matching contributions to our Savings Plan.

We also make annual fixed-rate contributions on behalf of our employees in the following amounts:

for our employees who were employed with us on or before January 1, 2004, we contribute in a range from 2% to 40% of the total of the employee's base salary and short-term incentive award, based upon the sum of the employee's age and years of continuous service as of January 1, 2004; and

for our employees who were first employed with us after January 1, 2004, we contribute 2% of the total of the employee's base salary and short-term incentive award.

As discussed more fully below, the fixed-rate contributions were implemented following the termination of our qualified, defined benefit retirement plan and resulting loss of benefit accruals under that plan. An employee is required to be employed on the last day of the year in order to receive the fixed-rate contribution. Employees are vested 100% in our fixed-rate contributions to the Savings Plan after three years of service.

The total amount of elective, matching and fixed-rate contributions in any year cannot exceed the lesser of 100% of the total of an employee's base salary and short-term incentive award or \$55,000 in 2018, respectively (adjusted annually). We may amend or terminate these matching and fixed-rate contributions at any time by an appropriate amendment to our Savings Plan. Upon termination of employment, employees are eligible to receive a distribution of their vested plan balances under our Savings Plan. The independent trustee of the Savings Plan invests the assets of the Savings Plan as directed by participants.

Restoration Plan

We sponsor a nonqualified, deferred compensation plan, our Restoration Plan, in which members of our senior management and highly compensated employees may participate. Eligibility to participate in our Restoration Plan is determined by the compensation committee. The purpose of our Restoration Plan is to restore the benefit of matching and fixed-rate contributions

that we would have otherwise paid to participants under our Savings Plan but for the limitations on benefit accruals and payments imposed by the Code. We maintain an account on behalf of each participant in the Restoration Plan, and contributions to a participant's Restoration Plan account to restore benefits under the Savings Plan are made generally in the manner described below:

if our matching contributions to a participant under the Savings Plan are limited in any year, we will make an annual contribution to that participant's account under the Restoration Plan equal to the difference between:

the matching contributions that we could have made to that participant's account under the Savings Plan if the Code did not impose any limitations; and

the maximum contribution we could in fact make to that participant's account under the Savings Plan in light of the limitations imposed by the Code; and

annual fixed-rate contributions to the participant's account under the Restoration Plan are made in an amount equal to between 2% and 10% of the participant's excess compensation, as defined in Section 401(a)(17) of the Code.

Participants are immediately vested 100% in our matching contributions to the Restoration Plan and are vested 100% in our fixed-rate contributions to our Restoration Plan after three years of service or upon retirement, death, disability or a change of control. Participants do not make contributions to their respective Restoration Plan accounts. A participant is entitled to distributions six months following his or her termination of service, except that any participant who is terminated for cause will forfeit the entire amount of matching and fixed-rate contributions made by us to that participant's account under the Restoration Plan.

We may amend or terminate these matching and fixed-rate contributions at any time by an appropriate amendment to our Restoration Plan. The value of each participant's account under our Restoration Plan changes based upon the performance of the funds designated by the participant from a menu of various money market and investment funds.

Outstanding Equity Awards at December 31, 2018

The table below sets forth the information regarding equity awards held by our named executive officers as of December 31, 2018 and illustrates the impact of the intended design of our compensation program, which generally insures three years of restricted stock, restricted stock unit and performance share awards are outstanding at any time.

Reflects the number restricted stock units received by the named executive officer pursuant to awards granted effective March 5, 2016. All such restricted stock units vested on March 5, 2019, with each entitling the named executive officer to one share of common stock.

Reflects the number of restricted stock units received by the named executive officer pursuant to awards granted effective March 5, 2017. All such restricted stock units will vest on March 5, 2020 or earlier if the named executive officer's employment terminates as a result of death or disability or in the event of a change in control. If the named executive officer's employment is terminated by us without cause or the named executive officer's employment is terminated by him for good reason, in either case before March 5, 2020, the restricted stock units will remain outstanding and vest on March 5, 2020 (or earlier in the event of his death or disability or a change in control). If, prior to March 5, 2020, the employment of Mr. Hockema or Mr. Barneson terminates as a result of his retirement, a prorated portion of such restricted stock units, determined based on the actual days of the named executive officer's employment during the restriction period, will vest on March 5, 2020. Mr. Barneson's employment terminated as a result of his retirement in February 2019.

Reflects the number of restricted stock units received by the named executive officer pursuant to awards granted effective March 5, 2018. See Note 4 to the table set forth under "Executive Compensation - Grants of Plan-Based Awards" above for more information on the restricted stock units granted to the named executive officers effective March 5, 2018.

Reflects the target number of performance shares received by the named executive officer pursuant to awards granted effective March 5, 2016. Such target number is approximately one-half of the performance shares received by the named executive officer pursuant to awards granted effective March 5, 2016. The number of performance shares earned based on the level of performance achieved during the three-year performance period vested on March 5, 2019. The compensation committee certified the performance level achieved during the three-year performance period on March 5, 2018 and, based on the certified performance level, 101% of the target performance shares received by the named executive officers were earned.

Reflects the target number of performance shares received by the named executive officer pursuant to awards granted effective March 5, 2017. Such target number is approximately one-half of the performance shares received by the named executive officer pursuant to awards granted effective March 5, 2017. The number of performance shares, if any, earned based on the level of performance achieved during the three-year performance period will vest on the later to occur of March 15, 2020 and the date on which the compensation committee certifies the performance level achieved during the three-year performance period, which shall be no later than March 15, 2020. If, prior to December 31, 2019, the named executive officer's employment terminates as a result of death or disability, the target number of performance shares will vest. If, prior to the vesting date, the named executive officer's employment is terminated by us without cause or is voluntarily terminated by him for good reason, the performance shares granted to him will remain outstanding and the number of performance shares, if any, earned on the vesting date will be determined based on the performance level achieved during the performance period. If, prior to December 31, 2019, a change in control occurs, the performance shares granted to him will vest immediately and the number of performance shares, if any, earned upon the change of control date will be determined based on the performance level achieved during the performance period through the change in control date. If, prior to the vesting date, the employment of Mr. Hockema or Mr. Barneson terminates as a result of his retirement, the performance shares granted to him will remain outstanding and the number of performance shares, if any, that will vest on the vesting date will be determined based on the performance level achieved during the applicable performance period and prorated based on the actual days of the named executive officer's employment during the performance period. Mr. Barneson's employment terminated as a result of his retirement in February 2019.

Reflects the target number of performance shares received by the named executive officer pursuant to awards granted effective March 5, 2018. Such target number is approximately one-half of the performance shares received by the named executive officer pursuant to awards granted effective March 5, 2018. See Note 2 to the table set forth under "- Grants of Plan-Based Awards in 2018" above for more information on

the performance shares granted to the named executive officers effective March 5, 2018.

- (8) Reflects the number of shares of restricted stock received by Mr. Harvey pursuant to an award granted effective June 4, 2014 upon his promotion to Executive Vice President - Fabricated Products. The restrictions on all such shares will lapse on June 4, 2019 or earlier if Mr. Harvey's employment terminates as a result of death or disability, the named executive officer's employment is terminated by us without cause, the named executive officer's employment is voluntarily terminated by him for good reason or in the event of a change in control.

- (9) Reflects the number of restricted stock units received by Mr. Harvey pursuant to an award granted effective July 15, 2017 to increase his compensation and retention in connection with our succession planning. All such restricted stock units will vest on July 15, 2022 or earlier if Mr. Harvey's employment terminates as a result of death or disability or in the event of a change in control. If the named executive officer's employment is terminated by us without cause or the named executive

officer's employment is terminated by him for good reason, in either case before July 15, 2022, the restricted stock units will remain outstanding and vest on July 15, 2022 (or earlier in the event of his death or disability or a change in control).

Stock Vested in 2018

The table below sets forth information regarding the vesting during 2018 of restricted stock and performance shares granted to our named executive officers in 2015.

| Name | Stock Awards | |
|------------------------|--|-----------------------------------|
| | Number of Shares Acquired on Vesting (#) | Value Realized on Vesting (\$)(1) |
| Jack A. Hockema | 50,926 | \$5,177,137 |
| Keith A. Harvey | 16,730 | \$1,700,772 |
| Daniel J. Rinkenberger | 14,599 | \$1,484,134 |
| John M. Donnan | 12,696 | \$1,290,676 |
| John Barneson | 10,410 | \$1,058,281 |

Reflects the aggregate market value of (i) shares of restricted stock that vested on March 5, 2018, determined based on a per share price of \$101.66, the closing price per share of our common stock as reported on the Nasdaq Global Select Market on the vesting date of such shares of restricted stock, and (ii) shares of common stock that were (1) received upon the vesting on March 5, 2018 of 126% of the target number of performance shares (63% of the total number of performance shares) granted to our named executive officers in 2015 based on actual results over the three-year performance period, determined based on a per share price of \$101.66, the closing price per share of our common stock as reported on the Nasdaq Global Select Market on the vesting date of such performance shares.

Pension Benefits as of December 31, 2018

The table below sets forth information regarding the present value as of December 31, 2018 of the accumulated benefits of our named executive officers under our Old Pension Plan. As discussed further below, our Old Pension Plan was terminated on December 17, 2003, at which time the number of years of credited service for participants was frozen.

| Name | Plan Name | Number of Years Credited Service (#) | Present Value of Accumulated Benefit (1) (\$) |
|------------------------|--|--------------------------------------|---|
| Jack A. Hockema | Kaiser Aluminum Salaried Employees Retirement Plan | 11.92 | \$337,267 |
| Keith A. Harvey | Kaiser Aluminum Salaried Employees Retirement Plan | 17.83 | \$479,844 |
| Daniel J. Rinkenberger | Kaiser Aluminum Salaried Employees Retirement Plan | 12.67 | \$478,883 |
| John M. Donnan | Kaiser Aluminum Salaried Employees Retirement Plan | 10.25 | \$380,094 |
| John Barneson | Kaiser Aluminum Salaried Employees Retirement Plan | 28.83 | \$773,880 |

(1) Determined (a) assuming mortality according to the RP-2014 White Collar Healthy Annuitant mortality table, adjusted for 2006 and then projected with Scale MP-2018 and (b) applying a discount rate of 3.90% per annum.

The Old Pension Plan previously maintained by us was a qualified, defined-benefit retirement plan for our salaried employees who met certain eligibility requirements. Effective December 17, 2003, the PBGC terminated and effectively assumed responsibility for making benefit payments in respect of the Old Pension Plan. As a result of the termination, all benefit accruals under the Old Pension Plan were terminated and benefits available to certain executive officers, including Mr. Hockema, were significantly reduced due to the limitation on benefits payable by the PBGC. Benefits payable to participants will be reduced to a maximum of \$34,742 annually for retirement at age 62, a lower amount for retirement prior to age 62, and a higher amount for retirements after age 62, up to \$43,977 annually for retirement at age 65, and participants will not accrue additional benefits. In addition, the PBGC will not make lump-sum payments to participants.

Nonqualified Deferred Compensation for 2018

The table below sets forth, for each of our named executive officers, information regarding his participation in our Restoration Plan during 2018. For additional information about our Restoration Plan, see "- Restoration Plan."

| Name | Registrant Contributions in Last FY (1) | Aggregate Earnings in Last FY (2)(3) | Aggregate Balance at Last FYE |
|-------------------------|---|--------------------------------------|-------------------------------|
| | | | |
| Jack A. Hockema | \$ 194,331 | \$— | \$4,591,540 |
| Keith A. Harvey | \$ 111,552 | \$— | \$956,081 |
| Daniel J. Rinckenberger | \$ 64,358 | \$— | \$670,790 |
| John M. Donnan | \$ 59,095 | \$— | \$789,662 |
| John Barneson | \$ 53,146 | \$40,138 | \$3,203,331 |

(1) In each case, 100% of such amount is included in the amounts for 2018 reflected in the "All Other Compensation" column of the Summary Compensation Table above.

(2) Amounts included in this column reflect the change in market value of the investments made under the Restoration Plan and do not include amounts reflected in the "Registrant Contributions in Last FY" column of this table.

(3) Amounts included in this column do not include above-market or preferential earnings (of which there were none) and, accordingly, such amount is not included in the "Change in Pension Value and Nonqualified Deferred Compensation Earnings" column of the Summary Compensation Table above.

Pay Ratio

In August 2015, pursuant to a mandate of the Dodd-Frank Act, the Securities and Exchange Commission adopted a rule requiring annual disclosure of the ratio of the median employee's annual total compensation to the total annual compensation of the principal executive officer. In 2017, we identified our median employee using the following methodology:

- we prepared a list of all employees as of December 31, 2017;
- we applied a Canadian to U.S dollar exchange rate for compensation paid in Canadian currency using the exchange rate in effect as of December 31, 2017;
- we ranked the annual gross income of all employees for the year ended December 31, 2017, except for Mr. Hockema, using the Form W-2 compensation for our U.S. employees and Form T4 compensation for our Canadian employees; and
- we selected the employee with the median annual gross income.

The total compensation of the median employee for the year ended December 31, 2018 was determined in the same manner as the total compensation shown for Mr. Hockema in the Summary Compensation Table. For the year ended December 31, 2018, (1) the total annual compensation of Mr. Hockema, our CEO, was \$5,413,871; (2) the total annual compensation of our median employee was \$69,928; and (3) the resulting ratio of our CEO to median employee compensation was 77:1. This ratio is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K using the data and assumptions summarized above. The assumptions we used are specific to our company and our employee population. As a result, our pay ratio may not be comparable to the pay ratios of other companies.

Potential Payments and Benefits Upon Termination of Employment

This section describes, and sets forth quantitative disclosure with respect to, payments and benefits to which our named executive officers would have been entitled if their employment had terminated on December 31, 2018, the last business day of 2018, under various circumstances.

Voluntary Termination other than Qualified Retirement

If the employment of a named executive officer (other than Messrs. Hockema and Barneson, each of whom turned 65 and qualified for retirement prior to December 31, 2018) had been voluntarily terminated by him on December 31, 2018, he would have forfeited all of his outstanding incentive awards, including his award under our 2018 STI Plan and all outstanding shares

of restricted stock, restricted stock units and performance shares previously granted to him. In addition, the named executive officer would not have been eligible for severance benefits in such circumstance.

Termination for Cause

If a named executive officer's employment had been terminated for cause on December 31, 2018, he would have forfeited all of his outstanding incentive awards, including his award under our 2018 STI Plan and all outstanding shares of restricted stock, restricted stock units and performance shares previously granted to him. In addition, the named executive officer would not have been eligible for severance benefits in such circumstance.

Termination by us without Cause or by Named Executive Officer with Good Reason - No Change in Control

Under Mr. Hockema's employment agreement, if Mr. Hockema's employment had been terminated by us without cause or voluntarily terminated by him for good reason on December 31, 2018, Mr. Hockema would have been entitled to receive (1) payment of his award under our 2018 STI Plan, determined based on actual performance, (2) a lump-sum payment in an amount equal to 3.37 times his 2018 base salary (which equates to approximately 1.94 times the sum of his 2018 base salary and 2018 STI Plan incentive target), and (3) continuation of his welfare benefits for two years commencing on December 31, 2018.

Under the 2018 STI Plan, the awards were conditioned on employment on the date of payment unless employment had been terminated as a result of death, disability or retirement at or after age 65. If employment of any of our named executive officer (other than Messrs. Hockema and Barneson) had terminated by us without cause or by the named executive officer with good reason on December 31, 2018, he would not have been entitled to receive any payment under the 2018 STI Plan.

Under our equity award agreements, if the employment of any of our named executive officers had been terminated by us without cause or voluntarily terminated by him for good reason on December 31, 2018, then (1) in the case of Mr. Harvey, the restrictions on all shares of restricted stock granted to him effective June 4, 2014 would have immediately lapsed, (2) all restricted stock units granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 and, in the case of Mr. Harvey, July 15, 2017 would have remained outstanding and would vest on their original vesting dates (or earlier in the event of death or disability or a change in control) and (3) all performance shares granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 would have remained outstanding, with the number of shares of common stock, if any, to be received by such named executive officer in respect to such performance shares to be determined based on the performance level achieved during the applicable performance period.

Under our Salaried Severance Plan, if the employment of Messrs. Harvey, Rinkenberger, Donnan or Barneson had been terminated by us without cause on December 31, 2018, the named executive office would have been entitled to (1) a lump-sum payment equal to his weekly base salary multiplied by his continuation period, determined based on his number of years of full employment as of December 31, 2018, and (2) continuation of his welfare benefits following the termination of employment for a period not to exceed the shorter of his continuation period and the period commencing on the termination of employment and ending on the date he is no longer eligible for coverage under COBRA.

Termination by us without Cause or by Named Executive Officer with Good Reason - Change in Control

Under Mr. Hockema's employment agreement, if Mr. Hockema's employment had been terminated by us without cause or voluntarily terminated by him for good reason within two years following a change in control on December 31, 2018, Mr. Hockema would have been entitled to receive (1) payment of his award under our 2018 STI Plan, determined based on actual performance, (2) a lump-sum payment in an amount equal to 5.05 times his 2018 base

salary (which equates to approximately 2.91 times the sum of his 2018 base salary and 2018 STI Plan incentive target), and (3) continuation of his welfare benefits for three years commencing on December 31, 2018. Under Mr. Hockema's employment agreement, if any payments to Mr. Hockema would be subject to a federal excise tax by reason of being considered contingent on a change in control, then such payments would be reduced to the minimum extent necessary so that no portion of such payments, as so reduced, is subject to such tax, except that such a reduction would be made only if and to the extent such reduction would result in an increase in the aggregate payment on an after-tax basis.

Under the Change in Control Agreements with Messrs. Harvey, Rinkenberger, Donnan and Barneson, if the employment of the named executive officer had been terminated by us without cause or by him for good reason in connection with a change in control on December 31, 2018, such named executive officer would have been entitled to receive (1) payment of his award under our 2018 STI Plan, determined based on actual performance, (2) a lump-sum payment equal to two times (in the case of Mr. Barneson, three times) the sum of his 2018 base salary and 2018 STI Plan incentive target, (3) continuation of his welfare

benefits for two years (in the case of Mr. Barneson, three years) commencing on December 31, 2018, and (4) continuation of his perquisites for two years (in the case of Mr. Barneson, three years) commencing on December 31, 2018. Under the Change in Control Agreements with Messrs. Harvey, Rinkenberger, Donnan and Barneson, in general, if any payments to the named executive officer would be subject to federal excise tax or any similar state or local tax by reason of being considered contingent on a change in control, such named executive officer would be entitled to an additional amount such that, after satisfaction of all tax obligations imposed on such payments, the named executive officer would retain an amount equal to the federal excise tax or similar state or local tax imposed on such payments. However, if no such federal excise tax or similar state or local tax would apply if the aggregate payments were reduced by 5%, then the aggregate payments to the named executive officer would be reduced by the amount necessary to avoid application of such federal excise tax or similar state or local tax.

Under our equity award agreements, if the employment of any of our named executive officers had been terminated by us without cause or voluntarily terminated by him for good reason in connection with a change in control on December 31, 2018, then (1) in the case of Mr. Harvey, the restrictions on all shares of restricted stock granted to him effective June 4, 2014 would have immediately lapsed, (2) all restricted stock units granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 and, in the case of Mr. Harvey, July 15, 2017 would have immediately vested, (3) with respect to the performance shares granted to him effective March 5, 2016, a number of such performance shares would become vested and earned on the original vesting date in March 2019 based on performance achieved during the applicable performance period ended December 31, 2018, and (4) all performance shares granted to him effective March 5, 2017 and March 5, 2018 would have immediately vested, with the number of shares of common stock, if any, to be received by such named executive officer in respect to such performance shares to be determined based on the performance level achieved during the applicable performance period through the change in control on December 31, 2018.

Qualified Retirement

Messrs. Hockema and Barneson reached age 65 during 2011 and 2016, respectively. Under the 2018 STI Plan, if the employment of Mr. Hockema or Mr. Barneson had been terminated as a result of retirement on December 31, 2018, he would have been entitled to payment of his award under the 2018 STI Plan, determined based on actual performance. If December 31, 2018 had not been the last business day of 2018, the award would have been prorated for the actual number of days of his employment in 2018.

Under our equity award agreements, if the termination of Mr. Hockema or Mr. Barneson had been terminated as a result of retirement on December 31, 2018, then (1) all restricted stock units granted to him effective March 5, 2016 would have immediately vested (without proration because he was employed for the entire restriction period), (2) a prorated portion of the restricted stock units granted to him effective March 5, 2017 and March 5, 2018, determined based on the actual days of his employment during the applicable restriction period, would have remained outstanding and would vest on their original vesting dates, and (3) the performance shares granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 would have remained outstanding, with the number of shares of common stock, if any, to be received by him in respect of such performance shares to be determined based on the performance level achieved during the applicable three-year performance period and prorated based on actual days of his employment during the applicable performance period.

Disability or Death

Under the 2018 STI Plan, if the employment of any of our named executive officers had been terminated as a result of death or disability on December 31, 2018, he or his estate would have been entitled to receive a payment under the 2018 STI Plan, determined based on actual performance. If December 31, 2018 had not been the last day of 2018, the award would have been prorated for the actual number of days of his employment in 2018.

Under our equity award agreements, if the employment of any of our named executive officers had been terminated as a result of death or disability on December 31, 2018, then (1) in the case of Mr. Harvey, the restrictions on all shares of restricted stock granted to him effective June 4, 2014 would have immediately lapsed, (2) all restricted stock units granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 and, in the case of Mr. Harvey, July 15, 2017 would have immediately vested, (3) with respect to the performance shares granted to him effective March 5, 2016, a number of such performance shares would become vested and earned on the original vesting date in March 2019 based on performance achieved during the three-year performance period ended December 31, 2018, and (4) the target number of performance shares granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 would have immediately vested.

Quantitative Disclosure

The table below sets forth, for each named executive officer, quantitative disclosure regarding estimated payments and other benefits that would have been received by the named executive officer or his estate if his employment had terminated on December 31, 2018, the last business day of 2018, under the following circumstances:

• voluntary termination by the named executive officer prior to age 65 (except for Messrs. Hockema and Barneson, who turned age 65 during 2011 and 2016, respectively);

• termination by us for cause;

• termination by us without cause or by the named executive officer with good reason;

• termination by us without cause or by the named executive officer with good reason following a change in control;

• termination at retirement at or after age 65 for Messrs. Hockema and Barneson (but not for Messrs. Harvey, Rinkenberger or Donnan because none of such named executive officers had reached age 65 as of December 31, 2018);

• termination as a result of disability; or

• termination as a result of death.

Includes (a) any earned but unpaid payments under the 2018 STI Plan and (b) any accrued but unpaid vacation, as (1) applicable; assumes that there is no earned but unpaid 2018 base salary at December 31, 2018, that all 2018 vacation was used, and that the named executive officer had five weeks of accrued vacation for 2019.

Includes, in the case of (x) termination by us without cause or by the named executive officer with good reason and (2) (y) termination by us without cause or by the named executive officer with good reason following a change in control, any lump sum payment, the value of any continuation of welfare benefits, the value of any continuation of perquisites and any tax gross-up or reduction, as applicable, with:

the value of any continuation of healthcare benefits (medical and dental) commencing on December 31, 2018 being determined (i) assuming family coverage in a consumer-driven health plan and a premium dental plan throughout (a) the named executive officer's applicable benefit continuation period, (ii) based on current COBRA coverage rates for 2019, and (iii) assuming a 10% increase in the cost of medical and dental coverage for 2020 as compared to 2019;

the value of any continuation of disability benefits commencing on December 31, 2018 being determined (i) assuming coverage throughout the applicable benefit continuation period, (ii) based on our current costs of providing such benefits and assuming such costs do not increase during the applicable benefit continuation period, (b) (iii) assuming we pay such costs throughout the applicable benefit continuation period in the same manner as we currently pay such costs, (iv) assuming mortality according to the RP-2014 Mortality Table for Disabled Retirees, adjusted to 2006, and projected therefrom with MP-2018 Generational Mortality Improvement Projection, and (v) applying a discount rate of 3.90% per annum;

the value of any continuation of life insurance benefits commencing on December 31, 2018 being determined (i) assuming coverage throughout the applicable benefit continuation period at his current election of coverage, (ii) based on our current costs of providing such benefits and assuming such costs do not increase during the applicable (c) benefit continuation period, (iii) assuming we pay such costs throughout the applicable benefit continuation period in the same manner as we currently pay such costs, (iv) assuming mortality according to the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted to 2006 and projected forward with MP-2018 Generational Mortality Improvement Projection, and (v) applying a discount rate of 3.90% per annum; and

(d) the value of any continuation of perquisites commencing on December 31, 2018 being determined based on the estimated cost to us of continuing such perquisites for the applicable continuation period.

(3) Reflects an amount equal to the product of \$89.29, the closing price per share of our common stock as reported on the Nasdaq Global Select Market on December 31, 2018, and:

in the case of termination by us without cause or by the named executive officer with good reason, a number of shares equal to (1) in the case of Mr. Harvey, all shares of restricted stock granted to him effective June 4, 2014, (2) all restricted stock units granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 and, in the case (a) of Mr. Harvey, July 15, 2017, (3) with respect to the performance shares granted to him effective March 5, 2016, the actual number of such performance shares earned and vested in March 2019, and (4) the target number of performance shares granted to him effective March 5, 2017 and March 5, 2018;

in the case of termination by us without cause or by the named executive officer with good reason following a change in control, a number of shares equal to (1) in the case of Mr. Harvey, all shares of restricted stock granted to him effective June 4, 2014, (2) all restricted stock units granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 and, in the case of Mr. Harvey, July 15, 2017, (3) with respect to the performance shares granted to him effective March 5, 2016, the actual number of such performance shares earned and vested in March 2019, and (4) with respect to the performance shares granted to him effective March 5, 2017 and March 5, 2018, the number of shares of common stock, if any, that would be received by such named executive officer in respect to such performance shares determined based on the performance level achieved during the applicable performance period through the change in control on December 31, 2018;

in the case of termination as a result of qualified retirement, a number of shares equal to (1) all restricted stock units granted to him effective March 5, 2016 (without proration because he was employed for the entire restriction period), (2) a prorated portion of the restricted stock units granted to him effective March 5, 2017 and March 5, 2018, determined based on the actual days of his employment during the applicable restriction period, (3) with respect to the performance shares granted to him effective March 5, 2016, the actual number of such performance shares earned and vested in March 2019, and (4) the target number of performance shares granted to him effective March 5, 2017 and March 5, 2018; and

in the case of termination as a result of death or disability, a number of shares equal to (1) in the case of Mr. Harvey, all shares of restricted stock granted to him effective June 4, 2014, (2) all restricted stock units granted to him effective March 5, 2016, March 5, 2017 and March 5, 2018 and, in the case of Mr. Harvey, July 15, 2017, (3) with respect to the performance shares granted to him effective March 5, 2016, the actual number of such performance shares earned and vested in March 2019, and (4) the target number of performance shares granted to him effective March 5, 2017 and March 5, 2018.

Pursuant to the terms of the performance shares granted to the named executive officers effective March 5, 2016, March 5, 2017 and March 5, 2018, if the company declares cash dividends on our common stock and the record and payment dates for dividends occur on or after the date of grant but before common shares are issued or delivered in respect of such performance shares, the named executive officer will also be entitled to also receive a payment equal to the cash dividends that he would have received if the number of common shares so issued or delivered to him had been issued and outstanding and held of record by him from the date of grant through such issuance or delivery. Accordingly, the table also reflects an amount equal to the cash dividends the named executive officer would have received if the applicable number of performance shares determined as described above had been issued and outstanding and held of record by him from March 5, 2016, March 5, 2017 and March 5, 2018, as applicable, through the issuance and deliver of common shares in respect of such performance shares, assuming in each case that the company does not declare any further cash dividends after December 31, 2018.

Reflects the named executive officer's account balance under our Restoration Plan to which he was entitled. In addition, under our Savings Plan, upon termination, each named executive officer is eligible to receive a distribution of his vested balance thereunder; such balance is not reflected in the table.

Certain of the named executive officers may have elected to participate in our group disability plan, which is available generally to all of our salaried employees and does not discriminate in scope, terms or operation, in favor of executive officers. Any disability benefits paid to any named executive officer who elected to participate in such plan would be paid by a third-party insurer and not by us. The value of such benefits is not reflected in the table.

Certain of the named executive officers may have elected to participate in our group life insurance plan, which is available generally to all of our salaried employees and does not discriminate in scope, terms or operation in favor of executive officers. Any life insurance benefit paid to any named executive officer who elected to participate in

such plan would be paid by a third-party insurer and not by us. We also maintain a travel and accidental death policy for salaried employees, including our named executive officers, that would provide an additional \$1 million death benefit payable to the named executive officer's estate if this death occurs during company-related travel. Such additional life insurance benefit would be paid by a third-party insurer and not by us. Such life insurance and accidental death benefits are not reflected in the table.

DIRECTOR COMPENSATION

The table below sets forth certain information concerning compensation of our non-employee directors who served in 2018.

Director Compensation for 2018

| Name | Fees Earned or Paid in Cash (1) | Stock Awards (2) | All Other Compensation (3) | Total |
|-------------------------------|--|---------------------|----------------------------------|-----------|
| Carolyn Bartholomew | \$78,750 | \$110,000 | \$2,545 | \$191,295 |
| David Foster | \$75,250 | \$110,000 | \$2,545 | \$187,795 |
| L. Patrick Hassey | \$78,250 | \$110,000 | \$2,545 | \$190,795 |
| Emily Liggett | \$67,000 | \$110,000 | \$1,101 | \$178,101 |
| Lauralee E. Martin | \$99,750 | \$110,000 | \$2,545 | \$212,295 |
| Alfred E. Osborne, Jr., Ph.D. | \$103,500 | \$110,000 | \$2,545 | \$216,045 |
| Jack Quinn | \$78,250 | \$110,000 | \$2,545 | \$190,795 |
| Thomas M. Van Leeuwen | \$98,500 | \$110,000 | \$2,545 | \$211,045 |
| Brett E. Wilcox | \$92,250 | \$110,000 | \$2,545 | \$204,795 |

Reflects (a) annual retainer of \$55,000, (b) any additional annual retainer for serving as Lead Independent Director or chair of a committee of the board of directors, and (c) fees for attendance of board or board committee meetings. Each non-employee director had the right to elect to receive shares of our common stock in lieu of any or all of his or her annual cash retainer, including retainers for serving as Lead Independent Director or a committee chair. In 2018: Mr. Hassey elected to receive 250 shares of common stock in lieu of \$27,470 of his annual retainer; Ms. Liggett elected to receive 250 shares of common stock in lieu of \$27,470 of her annual retainer; Ms. Martin elected (1) to receive 318 shares of common stock in lieu of \$34,942 of her annual retainer; Dr. Osborne elected to receive 705 shares of common stock in lieu of \$77,465 of his annual retainer; Mr. Van Leeuwen elected to receive 147 shares of common stock in lieu of \$16,152 of his annual retainer; and Mr. Wilcox elected to receive 284 shares of common stock in lieu of \$31,206 of his annual retainer. In each case, the number of shares received was determined based on a per share price of \$109.88, the average of the closing prices per share of our common stock as reported on the Nasdaq Global Select Market for the 20 trading days prior to the award date of the annual retainers.

Reflects the aggregate grant date fair value of restricted stock awards to non-employee directors determined in accordance with ASC Topic 718, without regard to potential forfeiture. On June 14, 2018, in accordance with our director compensation policy described below, each non-employee director received a grant of restricted stock having a value of \$110,000; the average of the closing prices per share of our common stock as reported on the Nasdaq Global Select Market for the 20 trading days prior to the award date was \$109.88, resulting in the issuance of 1,001 shares of restricted stock to each non-employee director. For additional information regarding the assumptions made in the valuation of restricted stock awards with respect to our 2018 fiscal year, see Note 6 of the (2) Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018. As of December 31, 2018, each non-employee director held 1,001 shares of restricted stock. The restrictions on 100% of the shares of restricted stock granted to non-employee directors will lapse on June 14, 2019 or earlier if the director's services to our company terminate as a result of death or disability, or in the event of a change in control. The non-employee director will receive all dividends and other distributions paid with respect to the shares of restricted stock he or she holds, but if any of such dividends or distributions are paid in shares of our capital stock, such shares will be subject to the same restrictions on transferability as are the shares of restricted stock with respect to which they were paid.

(3) Reflects dividends received on restricted stock.

Director Compensation Arrangements

We periodically review director compensation in relation to other comparable companies and in light of other factors that the compensation committee deems appropriate and discuss director compensation with the full board of directors. Pursuant to our director compensation policy, each of our non-employee directors receives the following compensation:

- an annual retainer of \$55,000 per year;
- an annual grant of restricted stock having a value equal to \$110,000;
- a fee of \$1,500 per day for each meeting of our board of directors attended in person and \$750 per day for each such meeting attended by phone; and

a fee of \$1,500 per meeting for each in-person board committee meeting attended (\$2,000 per meeting for each such audit committee meeting) and \$750 per meeting for each telephonic board committee meeting attended (\$1,000 per meeting for each such audit committee meeting).

In addition, pursuant to our director compensation policy, our Lead Independent Director receives an additional annual retainer of \$15,000, the chair of the audit committee receives an additional annual retainer of \$15,000, the chair of the compensation committee receives an additional annual retainer of \$10,000, the chair of the nominating and corporate governance committee receives an additional annual retainer of \$7,500 and the chair of the talent development committee receives an additional annual retainer of \$7,500, with all such amounts payable at the same time as the annual retainer. Each non-employee director may elect to receive shares of common stock in lieu of any or all of his or her annual retainer, including any additional annual retainer for service as the Lead Independent Director or the chair of a committee of the board of directors. Our stock ownership guidelines require our non-employee directors to own company stock equal in value to six times their annual base retainer.

The payment of annual retainers, including any additional annual retainer for service as Lead Independent Director or the chair of a committee of our board of directors, and the annual grant of restricted stock is made each year on the date on which we hold our annual meeting of stockholders, unless our board of directors determines such payment and grant should occur on another date. The number of shares of common stock to be received in the grant of restricted stock, as well as the number of shares of common stock to be received by any non-employee director electing to receive our common stock in lieu of any or all of his or her annual retainer, including any additional annual retainer, is based on the average of the closing prices per share of our common stock for the 20 trading days prior to the date such grant and payments are made.

We reimburse all of our directors for reasonable and customary travel and other disbursements relating to meetings of our board of directors and committees thereof, and non-employee directors are provided accident insurance with respect to company-related business travel.

EQUITY COMPENSATION PLAN INFORMATION

The following table provides information as of December 31, 2018 with respect to shares of our common stock that may be issued under our equity compensation plans.

| Plan Category | Number of Shares of Common Stock to be Issued Upon Exercise of Outstanding Options, Warrants and Rights | Number of Shares of Common Stock Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Shares of Common Stock Reflected in Column (a)) |

- Includes awards made under the Kaiser Aluminum Corporation Amended and Restated 2006 Equity and Performance Incentive Plan (the "2006 Plan") and the 2016 Plan. Our 2006 Plan initially became effective on July 6, 2006. Thereafter, our board of directors amended and restated the 2006 Plan effective as of February 6, 2008, again effective as of June 2, 2009 and again effective as of March 1, 2010; these amendments were not material and did not affect the number of shares available for issuance under the 2006 Plan. Subsequently, the 2006 Plan was amended and restated by our board of directors and approved by our stockholders effective as of June 8, 2010; in this instance, the amendments increased the number of shares available for issuance under the 2006 Plan.
- (1) Following June 8, 2010, our board of directors amended and restated the 2006 Plan effective as of February 8, 2012 and again effective as of April 10, 2013; these amendments were not material and did not affect the number of shares available for issuance under the 2006 Plan. With respect to new awards, the 2006 Plan was succeeded in its entirety by the 2016 Plan on May 26, 2017, the date the 2016 Plan was approved by our stockholders and became effective. Copies of the 2006 Plan and 2016 Plan are attached as Exhibit 10.7 to our Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission on April 24, 2013 and as Exhibit 10.1 to our Current Report on Form 8-K filed with the Securities and Exchange Commission on May 26, 2016, respectively.
- (2) Reflects restricted stock units covering 185,504 shares of our common stock and performance shares covering 426,360 shares of our common stock, in each case outstanding as of December 31, 2018, and does not include 34,009 shares of restricted stock that remained subject to forfeiture as of December 31, 2018 because such shares are already outstanding.

Subject to certain adjustments that may be required from time to time to prevent dilution or enlargement of the rights of participants, a maximum of 1,045,000 shares of our common stock, less any common shares subject to (3) awards granted under the 2006 Plan between December 31, 2015 and May 26, 2016, plus any common shares that become available under the 2016 Plan as a result of forfeiture, cancellation, expiration or cash settlement of awards under the 2006 Plan after December 31, 2015, may be issued under the 2016 Plan.

PRINCIPAL STOCKHOLDERS AND MANAGEMENT OWNERSHIP

The following table presents information regarding the number of shares of the company's common stock beneficially owned as of April 12, 2019 by:

• each named executive officer;

• each of our current directors and director nominees;

• all our current directors and executive officers as a group; and

• each person or entity known to us to beneficially own 5% or more of our common stock as determined in accordance with Rule 13d-3 under the Exchange Act.

Unless otherwise indicated by footnote, the beneficial owner exercises sole voting and investment power over the shares noted below. The percentage of beneficial ownership for our directors and executive officers, both individually and as a group, is calculated based on 16,128,768 shares of our common stock outstanding as of April 12, 2019.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Our corporate governance guidelines require that our board of directors conduct an appropriate review of all related-party transactions. The charter for the audit committee of our board of directors requires that any related-party transaction required to be disclosed under Item 404 of Regulation S-K must be approved by the audit committee. Neither our board of directors nor the audit committee has adopted specific policies or procedures for review or approval of related-party transactions.

AUDIT COMMITTEE REPORT

The audit committee charter requires the audit committee to undertake a variety of activities designed to assist our board of directors in fulfilling its oversight role regarding our independent registered public accounting firm's independence, our financial reporting process, our internal control over financial reporting and our compliance with applicable laws, rules and regulations. These requirements are briefly summarized under "Corporate Governance - Board Committees - Audit Committee" above. The audit committee charter also provides that the independent registered public accounting firm is ultimately accountable to our board of directors and the audit committee, not our management.

Our internal accountants prepare our consolidated financial statements and our independent registered public accounting firm is responsible for auditing those financial statements. The audit committee oversees the financial reporting processes implemented by our management but does not conduct any auditing or accounting reviews. The members of the audit committee are not company employees. Instead, the audit committee relies, without independent verification, on our management's representation that the financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and on the report of our independent

registered public accounting firm on our financial statements. The audit committee's oversight does not provide it with an independent basis for determining whether our management has maintained appropriate accounting and financial reporting principles or policies or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the audit committee's discussions with our management and its accountants do not ensure that the financial statements are presented in accordance with accounting principles generally accepted in the United States of America or that the audit of our financial statements has been carried out in accordance with auditing standards of the Public Company Accounting Oversight Board or that our independent registered public accounting firm is in fact "independent."

We have engaged Deloitte & Touche LLP as our independent registered public accounting firm to audit and report to our stockholders on our financial statements for 2019 and the effectiveness of our internal control over financial reporting as of December 31, 2019. The audit committee reviews annually the independence and performance of Deloitte & Touche LLP in connection with the audit committee's determination of whether to retain Deloitte & Touche LLP or engage another firm as our independent registered public accounting firm. In the course of these reviews, the audit committee considers, among other things:

- the historical and recent performance of Deloitte & Touche LLP on our company's integrated audit;
- an analysis of known risks and significant proceedings involving Deloitte & Touche LLP, if any;

external data relating to the audit quality and performance, including recent Public Company Accounting Oversight Board reports on Deloitte & Touche LLP and its member firms;

the appropriateness of Deloitte & Touche LLP's fee;

Deloitte & Touche LLP's tenure as our independent registered public accounting firm and its familiarity with our operations and businesses, accounting policies and practices and internal control over financial reporting;

Deloitte & Touche LLP's capability and expertise in relation to the breadth and complexity of our operations; and

Deloitte & Touche LLP's independence.

Based on its review the audit committee believes that Deloitte & Touche LLP is independent and that it is in the best interest of our company and our stockholders to retain Deloitte & Touche LLP to serve as our independent registered public accounting firm for 2019.

In accordance with rules of the Securities and Exchange Commission and Deloitte & Touche LLP's policies, audit partners are subject to rotation requirements to limit the number of consecutive years an individual partner may provide service to our company. For lead audit and engagement quality control review partners, the maximum number of consecutive years of service in that capacity is five years. The process for approval of the lead audit partner for our company pursuant to this rotation policy involves a meeting between the chair of the audit committee and the candidate for the role, as well as discussion by the full committee and with management.

The audit committee has discussed with management and Deloitte & Touche LLP significant accounting policies applied by us in our financial statements as well as alternative treatments and significant judgments and estimates, including (1) revenue recognition, (2) accounting for the acquisition of Imperial Machine & Tool Co., (3) our income taxes, (4) lease accounting, including the impact of the new leasing standard, and (5) estimates in regard to environmental commitments and contingencies. For a more detailed discussion of these accounting items, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2018. During the year ended December 31, 2018, there were no disagreements with Deloitte & Touche LLP on any matter of accounting principle or practice, financial statement disclosure or auditing scope or procedure, which, if not resolved to the satisfaction of Deloitte & Touche LLP, would have caused them to make a reference to the subject matter of the disagreement in connection with its reports.

The audit committee read and discussed the company's audited financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2018 with our management. The audit committee has also discussed with our independent registered public accounting firm the matters required to be discussed pursuant to applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's

communications with the audit committee.

The audit committee also received and read the written disclosures and the letter from Deloitte & Touche LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence, and has discussed with Deloitte & Touche LLP its independence.

The audit committee discussed with our internal accountants and Deloitte & Touche LLP the overall scope and plans for their respective audits. The audit committee meets with management, our internal accountants and our independent accountants

67

periodically in separate private sessions to discuss any matter that the audit committee, our management, our internal accountants, the independent accountants or such other persons believe should be discussed privately.

Based on the review and discussions referred to above, the audit committee recommended to our board of directors that our audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2018, as filed with the Securities and Exchange Commission.

The audit committee considered whether, and concluded that, the provision by Deloitte & Touche LLP of the services for which we paid the amounts set forth under "Independent Public Accountants - Tax Fees" and "Independent Public Accountants - All Other Fees" below is compatible with maintaining the independence of Deloitte & Touche LLP.

This report is submitted by the members of the audit committee of the board of directors:

|------------------------|-------------|-------------|
| Audit Fees(1) | \$1,781,640 | \$1,827,000 |
| Audit-Related Fees (2) | \$20,800 | \$30,800 |
| Tax Fees (3) | \$16,851 | \$7,233 |
| All Other Fees (4) | \$4,395 | \$4,395 |

Audit fees for 2017 and 2018 consist principally of fees for the audit of our annual financial statements included in our Annual Report on Form 10-K for those years and review of our financial statements included in our Quarterly (1) Reports on Form 10-Q for those years and audit services provided in connection with compliance with the requirements of the Sarbanes-Oxley Act. Audit fees for 2018 also included services provided in connection with the audit of the acquisition of Imperial Machine & Tool Co.

Audit-related fees for 2017 consist principally of fees for statutory audits. Audit-related fees for 2018 consist (2) principally of fees for statutory audits and review of the response letter to a comment letter from the Securities and Exchange Commission.

(3) Tax fees consist principally of fees for tax advisory services related to compliance and payroll and income taxes related to equity grants to French employees and the preparation of tax returns for certain of our subsidiaries.

(4) All other fees for 2017 and 2018 consist of the subscription fee to the Deloitte & Touche LLP Research Tool Library and fees relating to the review of agreed-upon procedures relating to certain environmental matters.

The audit committee charter requires that the audit committee pre-approve all audit and non-audit engagements, fees, terms and services in a manner consistent with Sarbanes-Oxley Act and all rules and applicable listing standards promulgated by the Securities and Exchange Commission and the Nasdaq Stock Market. The audit committee may delegate the authority to grant any pre-approvals of non-audit engagements to one or more members of the audit committee, provided that such member (or members) reports any pre-approvals to the audit committee at its next scheduled meeting. The audit committee has delegated pre-approval authority to its chair. All of the audit-related fees, tax fees and other fees for 2018 were pre-approved by the audit committee.

Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers and directors and persons who own more than 10% of a registered class of our equity securities to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission. Such persons are required by regulation of the Securities and Exchange Commission to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of the copies of such forms or written representations from certain reporting persons received by us with respect to 2018, we believe that our officers and directors and persons who own more than 10% of a registered class of our equity securities have complied with all applicable filing requirements.

OTHER MATTERS

We do not know of any other matters to be presented or acted upon at the Annual Meeting. If any other matter is presented at the Annual Meeting on which a vote may properly be taken, the shares represented by proxies will be voted in accordance with the judgment of the proxy holders.

STOCKHOLDER PROPOSALS

To be considered for inclusion in our proxy statement for our 2020 annual meeting of stockholders, proposals of stockholders must be in writing and received by us no later than January 1, 2020. To be presented at the 2020 annual meeting of stockholders without inclusion in our proxy statement for such meeting, proposals of stockholders must be in writing and received by us no later than March 7, 2020 and no earlier than February 6, 2020, in accordance with procedures set forth in our bylaws. Such proposals should be mailed to Kaiser Aluminum Corporation, 27422 Portola Parkway, Suite 200, Foothill Ranch, California 92610-2831 and directed to the corporate secretary.

¹ Hedged cost of alloyed metal is our Midwest transaction price of aluminum plus the price of alloying elements plus any realized gains and/or losses on settled hedges, related to the metal sold in the referenced period.

² 2016 and 2017 restated to reflect the retrospective adoption of ASU 2017-07.

³ Mark-to-market loss (gain) on derivative instruments for 2018 represents the reversal of mark-to-market loss (gain) on hedges entered into prior to the adoption of ASU 2017-12 and settled in 2018. Operating income excluding non-run-rate items reflects the realized loss (gain) of such settlements.

⁴ NRR is an abbreviation for Non-Run-Rate; NRR items are pre-tax.

⁵ Other operating NRR items primarily represent the impact of non-cash net periodic benefit cost (income) related to the salaried VEBA, adjustments to plant-level LIFO, lower of cost or market, environmental expenses, workers' compensation cost (benefit) due to discounting and impairment losses.

⁶ Adjusted EBITDA = Consolidated Operating Income before non-run-rate plus Depreciation and Amortization.

⁷ Diluted shares for EPS calculated using treasury method.
