PROXY STATEMENT

GENERAL INFORMATION

This proxy statement is being provided to stockholders in connection with the solicitation of proxies by the Board of Directors of DENTSPLY International Inc. (“DENTSPLY,” the “Company,” “we,” “us” or “our”) to be voted at our 2013 Annual Meeting of stockholders (the “Annual Meeting”). Proxies may also be voted at any adjournment or postponement of the Annual Meeting. This proxy statement, together with the Notice of Annual Meeting and the enclosed proxy card, are first being sent to stockholders on or about April 11, 2014. A copy of the Company’s 2013 Annual Report is provided with this proxy statement.

You are invited to attend our Annual Meeting, which will take place on May 21, 2014, beginning at 9:30 a.m., Eastern Time, at DENTSPLY’s headquarters, Susquehanna Commerce Center, 221 W. Philadelphia Street, York, PA 17405. Stockholders will be admitted to the Annual Meeting beginning at 9:00 a.m., Eastern Time. Seating will be limited so some in attendance may be required to stand, but all stockholders who attend will be accommodated. The building is accessible to disabled persons and, upon prior request, we will provide wireless headsets for hearing amplification.

Whether or not you are able to attend the Annual Meeting, you are urged to vote your proxy, either by mail, telephone or the Internet, which is solicited by the Board and which will be voted as you direct. In the absence of instructions, shares represented by properly provided proxies will be as recommended by the Board.

Information about the Notice of Internet Availability of Proxy Materials

❖ Why did I receive the Notice of Internet Availability of the proxy materials and not the printed proxy materials?

This year, we are pleased to be using the U.S. Securities and Exchange Commission rule that allows companies to furnish their proxy materials over the Internet. As a result, we are mailing to many of our stockholders a notice about the Internet availability of the proxy materials instead of a paper copy of the proxy materials. All stockholders receiving the notice will have the ability to access the proxy materials over the Internet and request to receive a paper copy of the proxy materials by mail. Instructions on how to access the proxy materials over the Internet or to request a paper copy may be found in the notice. In addition, the notice contains instructions on how you may request to access proxy materials in printed form by mail or electronically on an ongoing basis. Continuing to employ this distribution process will conserve natural resources and reduce the costs of printing and distributing our proxy materials.

❖ Why didn't I receive the Notice of Internet Availability of Proxy Materials in the mail?

We are providing some of our stockholders, including stockholders who have previously requested to receive paper copies of the proxy materials, with paper copies of the proxy materials instead of the Notice. In addition, we are providing the Notice by e-mail to those stockholders who have previously elected delivery of the proxy materials electronically. Those stockholders should have received an e-mail containing a link to the Web site where those materials are available and a link to the proxy voting Web site.

Who is entitled to vote at the Annual Meeting?

Each share of our common stock outstanding as of the close of business on March 24, 2014 is entitled to one vote at the Annual Meeting on each matter properly brought before the meeting. As of that date, there were 141,777,636 shares of common stock issued and outstanding and entitled to vote. Shares can be voted at the Annual Meeting only if the stockholder is present in person or is represented by proxy.

TABLE OF CONTENTS

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Most DENTSPLY stockholders hold their shares through a stockbroker, bank, trustee, or other nominee rather than directly in their own name. If your shares are registered in your name with DENTSPLY's transfer agent, American Stock Transfer, you are the "stockholder of record" of those shares. The Notice of Internet Availability of Proxy Materials, or, if you requested, this Notice of Annual Meeting and proxy statement and any accompanying documents have been sent directly to you by DENTSPLY. As the stockholder of record, you have the right to grant your voting proxy directly to DENTSPLY or to vote in person at the meeting. You may also vote on the Internet or by telephone, as described in the Notice and below under the heading "How do I vote?".

If your shares are held in a stock brokerage account or by a bank or other holder of record, you are considered the "beneficial owner" of those shares. This Notice of Annual Meeting and proxy statement and any accompanying documents have been forwarded to you by your broker, bank or other holder of record. As the beneficial owner, you have the right to direct your broker, bank or other holder of record how to vote your shares and are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote these shares in person at the meeting, unless you obtain a legal proxy from the broker, bank or other holder of record. Your broker, bank or other holder of record is obligated to provide you with a voting instruction card for you to use. You may also follow the instructions for voting by telephone or on the Internet as described in the Notice and below under the heading "How do I vote?".

How do I vote?

Your vote is important. You can save us the expense of a second mailing by voting promptly. Please refer to the summary instructions below and those included on your Notice of Internet Availability of Proxy Materials or proxy card or, for shares held in street name, the voting instruction card included by your broker, bank or other holder of record. You may vote using any of the following methods:

By Mail

Complete, sign and date the proxy card or voting instruction card and return it in the prepaid envelope. If you are a stockholder of record and you return your signed proxy card but do not indicate your voting preferences, the persons named in the proxy card will vote the shares represented by your proxy card as recommended by the Board.

By telephone or on the Internet

The telephone and Internet voting procedures established by DENTSPLY for stockholders of record are designed to authenticate your identity, to allow you to give your voting instructions and to confirm that those instructions have been properly recorded.

You can vote by calling the toll-free telephone number on your proxy card. Please have your proxy card in hand when you call. Easy-to-follow voice prompts will allow you to vote your shares and confirm that your instructions have been properly recorded.

The website for Internet voting is www.proxyvote.com. Please have your proxy card in hand when you go to the website. As with telephone voting, you can confirm that your instructions have been properly recorded. If you vote on the Internet, you also can request electronic delivery of future proxy materials.

Telephone and Internet voting facilities for stockholders of record will be available until 11:59 p.m., Eastern Time, on May 20, 2014. The availability of telephone and Internet voting for beneficial owners will depend on the voting

processes of your broker, bank or other holder of record. Therefore, we recommend that you follow the voting instructions in the materials you receive. If you vote by telephone or on the Internet, you do not have to return your proxy card or voting instruction card.

In person at the Annual Meeting

Stockholders of record who attend the Annual Meeting may vote in person at the meeting. You may be asked to present proof of ownership of DENTSPLY common stock and identification. Your proxy card, or a copy thereof if you have already voted, would be considered proof of ownership. You may also be represented by another person at the meeting by executing a proper proxy designating that person. If you are a beneficial owner of shares, you must obtain a legal proxy from your broker, bank or other holder of record and present it to the inspectors of election with your ballot to be able to vote at the meeting.

TABLE OF CONTENTS

What can I do if I change my mind after I vote my shares?

If you are a stockholder of record, you can revoke your proxy before it is exercised by:

- giving written notice to the Secretary of the Company;
- delivering a valid, later-dated proxy, or a later-dated vote by telephone or on the Internet, in a timely manner; or
- voting by ballot at the Annual Meeting.

If you are a beneficial owner of shares, you may submit new voting instructions by contacting your bank, broker or other holder of record.

All shares for which proxies have been properly submitted and not revoked will be voted at the Annual Meeting.

What shares are included on the proxy card?

If you are a stockholder of record, you will receive only one proxy card for all the shares you hold of record.

If you are a DENTSPLY employee, you will receive a proxy or voting instruction card for all the shares you hold in a DENTSPLY employee plan. If you do not vote your shares or specify your voting instructions on your proxy or voting instruction card, the administrator or Trustee of the applicable plan will vote your shares in accordance with the terms of your plan and/or the Trust. To allow sufficient time for voting by the administrator or Trustee of the applicable plan, your voting instructions must be received by May 18, 2014.

If you are a beneficial owner, you will receive voting instructions from your broker, bank or other holder of record.

What is “householding” and how does it affect me?

We have adopted a procedure called “householding.” This is a procedure that reduces the Company’s printing costs and postage fees. Under this procedure, stockholders of record who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of our Notice of Annual Meeting, proxy statement and the 2013 Annual Report, unless we are notified that one or more of these stockholders wishes to continue receiving individual copies. If you participate in householding and wish to receive a separate copy of this Notice of Annual Meeting and proxy statement and the accompanying documents, or if you do not wish to continue to participate in householding and prefer to receive separate copies of these documents in the future, please contact Broadridge, either by calling toll-free (800) 542-1061, or by writing to Broadridge Investor Communication Services, Household Department, 51 Mercedes Way, Edgewood, New York, 11717.

Stockholders who participate in householding will continue to receive separate proxy cards.

If you are eligible for householding, but you and other stockholders of record with whom you share an address currently receive multiple copies of the Notice of Annual Meeting and proxy statement and any accompanying documents, or if you hold DENTSPLY stock in more than one account, and in either case you wish to receive only a single copy of each of these documents for your household, please contact Broadridge. You may contact Broadridge either by calling toll-free (800) 542-1061, or by writing to Broadridge Investor Communication Services, Household Department, 51 Mercedes Way, Edgewood, New York, 11717.

If you are a beneficial owner, you can request information about householding from your broker, bank or other holder of record.

We strongly encourage your participation in the Householding program, and believe that it will benefit both you and the Company. Not only will it reduce the volume of duplicate information that you receive in your household, but it will also reduce our printing and mailing costs.

Is there a list of stockholders entitled to vote at the Annual Meeting?

A complete list of the stockholders of record entitled to vote at the Annual Meeting will be available for examination by any stockholder at the Annual Meeting and for a period of at least ten days prior to the meeting, for any purpose germane to the meeting, between the hours of 8:30 a.m. and 4:30 p.m., at the office of the Company's Secretary, Susquehanna Commerce Center, 221 W. Philadelphia Street, York Pennsylvania 17405.

TABLE OF CONTENTS

What is a broker non-vote?

If you are a beneficial owner whose shares are held of record by a broker, you must instruct the broker how to vote your shares. If you do not provide voting instructions, your shares will not be voted on any proposal on which the broker does not have discretionary authority to vote. This is called a “broker non-vote.” In these cases, the broker can register your shares as being present at the Annual Meeting for purposes of determining the presence of a quorum but will not be able to vote on those matters for which specific authorization is required under the rules of NASDAQ. For the 2014 meeting, your broker does not have discretionary authority to vote on the election of directors, on the advisory Say-on-Pay vote, without instructions from you, in which case a broker non-vote will occur and your shares will not be voted on these matters. Accordingly, it is particularly important that beneficial owners instruct their brokers how they wish to vote their shares.

What is a quorum for the Annual Meeting?

The presence of the holders of stock representing a majority of the voting power of all shares of stock issued and outstanding and entitled to vote at the Annual Meeting, in person or represented by proxy, is necessary to constitute a quorum. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining a quorum.

What are the voting requirements to elect the directors and to approve each of the proposals discussed in this proxy statement?

Proposal	Vote Required	Broker Discretionary Voting Allowed	Effect of Broker Non-Vote	Effect of Abstention
Election of directors	Majority of votes cast	No	Not counted as for or against	Not counted as for or against
Ratification of Auditor	Majority of votes present in person or by proxy and entitled to vote	Yes	Not counted as for or against	Counted as vote against
Advisory vote on executive compensation	Majority of votes cast	No	Not counted as for or against	Not counted as for or against

If you abstain from voting or there is a broker non-vote on any matter for which the vote required is a majority of the votes cast, your abstention or broker non-vote will not affect the outcome of such vote. If you abstain from voting on any matter for which the vote required is a majority of outstanding stock entitled to vote or a majority of votes present in person or by proxy and entitled to vote, your abstention will count as a vote against.

How will my shares be voted at the Annual Meeting?

At the meeting, the proxy (the persons named in the proxy card or, if applicable, their substitutes) will vote your shares as you instruct. If you sign your proxy card and return it without indicating how you would like to vote your shares, your proxy will be voted as the Board recommends, which is:

FOR the election of each of the director nominees named in this proxy statement;

FOR the ratification of the appointment of PwC as our independent registered public accounting firm for the 2014 fiscal year; and
FOR the approval, on an advisory basis, of the executive compensation of the Company's named executive officers.

Could other matters be decided at the Annual Meeting?

At the date this proxy statement was printed, we did not know of any matters to be raised at the Annual Meeting other than those set forth in this proxy statement.

If you return your signed and completed proxy card or vote by telephone or on the Internet and other matters are properly presented at the Annual Meeting for consideration, the proxy appointed by the Board, as noted on the proxy card, will have the discretion to vote on those matters for you.

Can I access the Notice of Annual Meeting, proxy statement and 2013 Annual Report on the Internet?

TABLE OF CONTENTS

This Notice of Annual Meeting and proxy statement and the 2013 Annual Report are available at www.proxyvote.com. Instead of receiving future proxy statements and accompanying materials by mail, stockholders can elect to receive an email that will provide electronic links to them. Opting to receive your proxy materials online will save the Company the cost of producing documents and mailing them to your home or business, and will also give you an electronic link to the proxy voting site.

Stockholders of Record: If you vote on the Internet at www.proxyvote.com simply follow the prompts for enrolling in the electronic proxy delivery service. You also may enroll in the electronic proxy delivery service at any time in the future by going directly to American Stock Transfer and following the enrollment instructions.

Beneficial Owners: You also may be able to receive copies of these documents electronically. Please check the information provided in the proxy materials sent to you by your broker, bank or other holder of record regarding the availability of this service.

Who will pay for the cost of proxy solicitation?

DENTSPLY will pay the cost of soliciting proxies. Proxies may be solicited on our behalf by directors, officers or employees in person or by telephone, electronic transmission and facsimile transmission. We also may hire a proxy solicitation firm to solicit proxies, and, if so, we will pay them a fee, plus reasonable expenses, for these services.

Who will count the vote?

Representatives of Broadridge will tabulate the votes and act as inspectors of election.

What is the deadline to submit a proposal for the 2015 Annual Meeting?

Stockholder proposals that are intended to be presented at the Company's Annual Meeting to be held in 2015 must be received by the Company no later than December 6, 2014 and must otherwise comply with Rule 14a-8 under the Securities Exchange Act, as amended, in order to be included in the proxy statement and proxy relating to that meeting. See "Corporate Governance — Nominating Candidates for Election to the Board" for more information regarding procedures for stockholders seeking to nominate persons for election to the Board, or to propose other business to be brought before an Annual Meeting of Stockholders.

Where can I get additional financial information about the Company?

Stockholders may obtain an additional copy (without exhibits) of the Company's annual Form 10-K for the year ended December 31, 2013 as filed with the Securities and Exchange Commission (the "SEC") without charge by writing to: Investor Relations Department, DENTSPLY International Inc., Susquehanna Commerce Center, 221 West Philadelphia Street, Suite 60W, York, Pennsylvania 17401-2991. Director Independence

The Board has determined that the following directors are "independent" under Rule 5605 of the NASDAQ Stock Market LLC (NASDAQ Rule 5605): Michael C. Alfano, Eric K. Brandt, Paula H. Cholmondeley, Michael J. Coleman, Willie A. Deese, William F. Hecht, Leslie A. Jones, Francis J. Lunger, John L. Miclot and John C. Miles, II. In determining the independence of Mr. Miles, a former Chief Executive Officer of the Company, the Board took note of the fact that Mr. Miles left employment with the Company in January 2004, over ten years ago.

The Board's Role in Risk Oversight

The Board oversees the management of risks inherent in the operation of the Company's businesses and the implementation of its strategic plan. In this regard, the Board seeks to understand and oversee the most critical risks relating to the Company's business, allocate responsibilities for the oversight of risks among the full Board and its committees, and see that management has in place effective systems and processes for managing risks facing the Company. Risks falling within this area include but are not limited to general business and industry risks, operating risks, financial risks and compliance and regulatory risks. Overseeing risk is an ongoing process and is inherently tied to the Company's operations and overall strategy. Accordingly, the Board considers risk throughout the year and with respect to specific proposed actions. While the Board oversees risk, Company management is charged with identifying and managing risk. The Company has robust internal processes and a strong internal control environment to identify and manage risks and to communicate information about risk to the Board. Risk management is not allocated to a single risk management officer within the Company, but rather is administered by management in an approach that is designed to ensure that the most significant risks to the Company, on a consolidated basis, are being managed and monitored appropriately. This process includes:

- identifying the material risks that the Company faces;
- establishing and assessing processes for managing that risk;
- determining the Company's risk appetite and mitigation strategies and responsibilities; and
- making regular reports to the Board on management's assessment of exposure to risk and steps management has taken to monitor and deal with such exposure.

The Board implements its risk oversight function both as a whole and through delegation to the Board committees. These committees meet regularly and report back to the full Board. In performing this function, each committee has full access to management, as well as the ability to engage advisors. See "Committees of the Board" below for more information regarding the roles and responsibilities of the Board committees.

Also, the Company's leadership structure, discussed in the "Board Leadership" section of this Proxy, supports the risk oversight function of the Board. The Company has a combined Chairman of the Board and CEO who keeps the Board informed about the risks facing the Company in general and with respect to specific activity or decisions. In addition, independent directors chair the Board committees involved with risk oversight and there is open communication between senior management and directors.

Board Leadership

The Board's current leadership structure consists of a Chairman, who is also the Company's CEO, and a Lead Director, who is an independent director designated by the independent members of the Board. Currently, the Lead Director is William F. Hecht. The role of the Lead Director is generally described in the Company's Corporate Governance Guidelines and includes the following:

- (a) call for Executive Sessions of the independent directors;
- (b) preside at Board meetings in the absence of the Chairman and at Executive Sessions of the independent directors; provide the Chairman with input into the agenda for Board meetings, and on other matters as deemed appropriate
- (c) by the Board, or on behalf of the independent directors, and recommend the agenda for Executive Sessions of independent directors, to the extent deemed necessary;

TABLE OF CONTENTS

- (d) be available for consultation with other directors, act as the principal liaison between the independent directors and the CEO, and apprise the CEO, as appropriate, of activities of the Board in Executive Sessions; and
- (e) be available for consultation with the CEO and communicate the expectations of the Board to the CEO.

The Board does not have a fixed policy on whether the Chairman should also be the Chief Executive Officer. The Board periodically evaluates its leadership structure to determine what it believes is the optimum structure at any point in time.

In general, the Board believes the combined role of Chairman and CEO promotes unified leadership and direction for the Company, which allows for a single, clear focus for management to execute the Company's strategy and business plans. This leadership structure has served the Company well and has resulted in the continued progress on the Company's strategic plan and growth and financial success of the Company. The Board believes that these results are, in part, the product of the unified and focused leadership of its Chairman and CEO.

The Board's independent directors regularly meet in executive session without the presence of management and the CEO. The Lead Director presides at these meetings and provides the Board's guidance and feedback to the Chairman and the Company's management team. Further, the Board has access to the Company's management team. On a regular basis, the Board and its committees receive valuable information and insight from management on the status of the Company and the Company's current and future issues.

Given the leadership roles of the Company's Chairman and CEO and the Lead Director, and the existence of a Board comprised of strong and independent directors, the Board believes its current leadership structure is in the best interests of the Company and its stockholders.

Meetings and Attendance

The Board held six meetings during 2013, one of which was a telephone meeting. The independent members of the Board meet regularly without management present, and these executive sessions are led by the Board's Lead Director. No directors attended fewer than 75% of the total number of meetings of the Board and the meetings of any committee of the Board on which a director served during the year ended December 31, 2013.

Committees of the Board

The Board has an Executive Committee, an Audit and Finance Committee ("Audit Committee"), a Corporate Governance and Nominating Committee ("Governance Committee") and a Human Resources Committee ("HR Committee"). Each Committee regularly reports on its activities and actions to the full Board. Each Committee (other than the Executive Committee) acts according to a written charter approved by the Board. The table below shows Board Committee membership in 2013. The Charters of our Board of Committees are available on the Company's website at www.dentsply.com under Investor Relations - Corporate Governance - Committees.

TABLE OF CONTENTS

Audit and Finance Committee

The Audit Committee is responsible for selecting and retaining the independent registered public accounting firm, setting the independent registered public accounting firm's compensation, pre-approving all auditing and permitted non-audit services by the independent registered public accounting firm, reviewing with the independent registered public accounting firm the scope and results of the audit, reviewing the adequacy and effectiveness of the Company's system of internal control and performing the other duties set forth in the Audit Committee Charter.

All of the Audit Committee Members are independent as defined in NASDAQ Rule 5605. The Board has determined that Mr. Lunger is an Audit Committee Financial Expert under the rules and regulations of the SEC. The Audit Committee held ten meetings during 2013, five of which were telephone meetings.

Corporate Governance and Nominating Committee

The Governance Committee is responsible for identifying and recommending individuals as nominees to serve on the Board, reviewing and recommending Board policies and governance practices and appraising the performance of the Board, managing risks associated with the independence of the Board, potential conflicts of interest and overall corporate governance, and performing the other duties set forth in the Governance Committee Charter. All of the Governance Committee members are independent as defined in NASDAQ Rule 5605. The Corporate Governance Committee held five meetings during 2013, one of which was a telephone meeting.

It is the policy of the Governance Committee to consider any candidates for nomination to the Board who are recommended and submitted by stockholders in accordance with the Company's by-laws. No such candidates were submitted to the Company for consideration. The Governance Committee's policy is to evaluate any proposed candidates under the criteria utilized by the Governance Committee to evaluate all potential nominees, including, at a minimum, the following attributes:

- the proven ability and experience to bring informed, thoughtful and well-considered opinions to corporate management and the Board;
- the competence, maturity and integrity to monitor and evaluate the Company's management, performance and policies;
- the willingness and ability to devote the necessary time and effort required for service on the Board;
- the capacity to provide additional strength, diversity of view and new perceptions to the Board and its activities;

When the Governance Committee engages in a process to identify director candidates, other than directors standing for re-election, the Governance Committee polls the existing directors for recommendations and sometimes utilizes the service of a search firm to identify potential candidates. All potential candidates are screened relative to their qualifications and go through an interview process with the Governance Committee and, if desired, by other members of the Board. When the Governance Committee uses a search firm, a fee is paid for such services.

Diversity Considerations

The Board recognizes the value of having a Board comprised of individuals who have varied experience and can bring different perspectives to Board discussions and activities. For this reason, when considering nominees for Board seats, the Governance Committee considers the diversity of nominees or candidates for election to the Board. Included in the criteria the Governance Committee considers in evaluating candidates for the Board is to identify candidates who have the capacity to provide additional strength and diversity of view to the Board and its activities.

Human Resources Committee

The HR Committee is responsible for evaluating and administering compensation levels for all senior officers of the Company, reviewing and evaluating employee compensation generally and employee benefit plans, overseeing and evaluating the risks associated with the Company's compensation philosophy and programs, and other activities as set forth in the HR Committee Charter. The role of the HR Committee with respect to executive compensation is to oversee DENTSPLY's compensation plans and policies, administer its equity incentive plans, including review and approve all compensation decisions relating to executive officers, (including the executive officers named in the Summary Compensation Table other than the Chief Executive Officer ("CEO"), whose compensation is established by the independent directors of the board). All of the HR Committee members are independent as defined in NASDAQ Rule 5605. The HR Committee held six meetings during 2013, one of which was a telephone meeting.

Communications with Directors

TABLE OF CONTENTS

The Company's by-laws require that stockholders seeking to nominate persons for election to the Board, or to propose other business to be brought before an Annual Meeting of Stockholders, comply with certain procedures. Advance notice of stockholder-proposed business to be brought before an Annual Meeting must be given to the Secretary of the Company not less than 90 days and not more than 120 days prior to the anniversary date of the immediately preceding Annual Meeting. To propose business for an Annual Meeting, a stockholder must specify in writing the business desired to be brought before the Annual Meeting and the reasons for conducting such business at the Annual Meeting, the proposing stockholder's name and address, the class and number of shares beneficially owned by the stockholder, and any material interest of the stockholder in such business.

The Company's by-laws also provide that a stockholder may request that persons be nominated for election as directors by submitting such request, together with the written consent of the persons proposed to be nominated, to the Secretary of the Company not less than 90 days and not more than 120 days prior to the anniversary date of the immediately preceding Annual Meeting. To be in proper form, the nominating stockholder must set forth in writing, as to each proposed nominee, the nominee's age, business address, residence address, principal occupation or employment, number of shares of Common Stock of the Company beneficially owned by such person and such other information related to such person as is required to be disclosed by applicable law, and, as to the stockholder submitting the request, such stockholder's name and address as they appear on the Company's books and the number of shares of Common Stock of the Company owned beneficially by such person.

The Company has no policy regarding the attendance of Board members at the Company's Annual Meeting. In 2013, all Board members attended the Annual Meeting.

Related Person Transactions

No related person transactions were noted for the year ended December 31, 2013.

The Company has a written policy and procedures with respect to the review and approval of Related Person Transactions (“Transactions”), as defined below. The Governance Committee reviews the material facts of all Transactions that require the Governance Committee’s approval and either approves or disapproves of the entry into the Transaction, subject to certain identified exceptions described below. In determining whether to approve or ratify a Transaction, the Governance Committee takes into account, among other factors it deems appropriate, whether the Transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the Related

TABLE OF CONTENTS

Person's interest in the Transaction. The Chair of the Governance Committee is delegated the authority by the Board to approve Transactions that, because of timing or scheduling, are not feasible to be approved by the full Governance Committee.

The policy applies to any transaction, arrangement or relationship in which the Company (including any of its subsidiaries) will be a participant and in which any Related Person (as defined by SEC Rules) will have a direct or indirect material interest, and the amount involved exceeds \$120,000 (a "Related Person Transaction").

The Governance Committee has pre-approved, under the policy, the following Transactions without regard to the amount involved:

1. any Transaction involving the compensation, employment and/or benefits of an executive officer of the Company if the compensation arising from the Transaction is required to be reported in the Company's proxy statement;

any Transaction involving the compensation, employment and/or benefits of an executive officer of the Company that is not a "Named Executive Officer" (as that term is defined in Item 402(a)(3) of Regulation S-K) if (a) the executive officer is not an immediate family member of another executive officer or director of the Company, (b)
2. the compensation arising from the Transaction would have been reported under Item 402 as compensation earned for services to the Company if the executive officer was a "Named Executive Officer", and (c) such compensation had been approved, or recommended to the Board for approval, by the HR Committee of the Board;
3. any Transaction involving the compensation, services and/or benefits of a director if the compensation arising from the Transaction is required to be reported in the Company's proxy statement;
4. any Transaction where the Related Person's interest arises solely from the ownership of the Company's Common Stock and all holders of the Company's Common Stock received the same benefit on a pro-rata basis;
5. any Transaction with a Related Person involving the rendering of services as a common or contract carrier, or public utility, at rates or charges fixed in conformity with law or governmental authority;
6. any Transaction with a Related Person involving services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture, or similar services; and
7. any Transaction in which the interest of the Related Person arises solely from such person's position as a director of another firm, corporation or other entity that is a party to the Transaction.

Except to the extent pre-approved, as noted above, Transactions are subject to the following procedures. The Related Person notifies the General Counsel of the Company of any proposed Transaction, including: the Related Person's relationship to the Company and interest in the proposed Transaction; the material terms of the proposed Transaction; the benefits to the Company of the proposed Transaction; and the availability from alternative sources of the products or services that are the subject of the proposed Transaction.

The proposed Transaction is submitted to the Governance Committee for consideration at the next Governance Committee meeting or, if the legal department, after consultation with the CEO or the CFO, determines that the Company should not wait until the next Governance Committee meeting, to the Chair of the Governance Committee acting pursuant to authority delegated by the Board. Any Transactions approved pursuant to delegated authority by the Chair of the Governance Committee, is reported to the Governance Committee at the next Governance Committee meeting.

To the extent the Company becomes aware of a Transaction that was not previously approved under this policy, it shall be promptly reviewed as described above and be ratified, amended or terminated, as determined appropriate by the Governance Committee.

ELECTION OF DIRECTORS

The Restated Certificate of Incorporation and the by-laws of the Company provide that the number of directors (which is to be not less than three) is to be determined from time to time by the Board. The Board is currently comprised of eleven persons.

The proxy named in the proxy card and on the Internet voting site intends to vote for the election of the four nominees listed below unless otherwise instructed. If a holder does not wish his or her shares to be voted for a particular nominee, the holder must identify the exception in the appropriate space provided on the proxy card or on the Internet site, in which event the shares will be voted for the other listed nominees. If any nominee becomes unable to serve, the proxy may vote for another person designated by the Board or the Board may reduce the number of directors. The Company has no reason to believe that any nominee will be unable to serve.

Set forth below is certain information with regard to each of the nominees for election as directors and each continuing Class II and Class III director.

PROPOSAL 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee appointed PricewaterhouseCoopers LLP (“PwC”), independent registered public accounting firm, to audit the financial statements of the Company and to audit the Company’s internal control over financial reporting for the year ending December 31, 2014.

In connection with the audit of the Company’s financial statements, it is expected that PwC will also audit the financial statements of certain subsidiaries of the Company at the close of their current fiscal years. A representative of PwC will be present at the Annual Meeting and will have the opportunity to make a statement, if such person desires to do so, and to respond to appropriate questions.

Following is a summary and description of the fees billed to the Company by PwC for professional services rendered during 2013 and 2012 (in thousands):

	2013	2012
	(\$)	(\$)
Audit ⁽¹⁾	3,590	3,560
Audit related ⁽²⁾	98	127
Tax ⁽³⁾	3,115	2,161
Other ⁽⁴⁾	6	7
Total	6,809	5,855

Audit fees were for professional services rendered for each of the indicated fiscal years in connection with the audits of the Company’s annual consolidated financial statements included in Form 10-K and review of quarterly (1) consolidated financial statements included in Form 10-Qs, or for services that are normally provided by the accountants in connection with statutory and regulatory filings or engagements, including professional services related to the audit of the Company’s internal control over financial reporting.

Audit related fees were for assurance and related services that are reasonably related to the performance of the (2) audit or review of the Company’s consolidated financial statements. Such services include consultations on financial accounting and reporting standards and acquisition-related due diligence services.

(3) Tax fees were for tax compliance related to tax audits and professional services rendered for international tax consulting in each of the indicated fiscal years.

(4) Other fees were for access to certain research services of PwC.

The Audit Committee reviewed summaries of the services provided by PwC and the related fees and determined that the provision of non-audit services is compatible with maintaining the independence of PwC.

The Audit Committee has adopted procedures for pre-approval of services provided by PwC. Under these procedures, all services to be provided by PwC must be pre-approved by the Audit Committee, or can be pre-approved by the Chairman of the Audit Committee subject to ratification by the Audit Committee at its next meeting. Management makes a presentation to the Audit Committee (or the Chairman of the Audit Committee, as applicable) describing the types of services to be performed and the projected budget for such services. Following this presentation, the Audit Committee advises management of the services that are approved and the projected level of expenditure for such services. All of the fees reported above were approved by the Audit Committee in accordance with their procedures.

The proposal to ratify the appointment of PwC will be approved by the stockholders if it receives the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the proposal. If there is an abstention noted on the proxy card for this proposal, the abstention will have the effect of a vote against the proposal, as it is a share represented by proxy and entitled to vote. Broker non-votes will be treated as shares not capable of being voted on the proposal and, accordingly, will have no effect on the outcome of voting on the proposal.

The Audit Committee and the Board of Directors unanimously recommend a vote FOR ratification of the selection of PwC as independent registered public accounting firm for the Company for the year ending December 31, 2014.

REPORT OF THE AUDIT AND FINANCE COMMITTEE

The Audit Committee was comprised of three directors, all of whom are independent as defined by NASDAQ Rule 5605. In addition, Mr. Lunger has been designated by the Board as “Audit Committee Financial Expert” under applicable rules and regulations of the SEC. The Audit Committee operates under a written charter adopted by the Board. This charter is reviewed at least annually by the Audit Committee and the Board and amended as determined appropriate.

The Audit Committee reviews the Company’s financial reporting process on behalf of the Board. In addition, the Audit Committee approves and retains the Company’s independent registered public accounting firm.

Management is responsible for the Company’s internal controls, including internal control over financial reporting, and the financial reporting process. The independent registered public accounting firm is responsible for performing an audit of the Company’s financial statements and an audit of the Company’s internal control over financial reporting in accordance with standards of the Public Company Accounting Oversight Board (“PCAOB”); and to issue a report thereon. The Audit Committee’s responsibility is to oversee these processes.

In this context, the Audit Committee has met and held discussions with management and PwC. Management represented to the Audit Committee that the Company’s financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the audited financial statements with management and PwC. The Audit Committee discussed with PwC the matters required to be discussed under the rules adopted by the PCAOB.

In addition, the Audit Committee has discussed with PwC the firm’s independence from the Company and its management and has received the written disclosures and the letter from PwC required by applicable requirements of the PCAOB regarding the independent accountant’s communications with the Audit Committee concerning independence.

The Audit Committee discussed with PwC the overall scope and plans for their audits. The Audit Committee meets with PwC, with and without management present, to discuss the results of PwC’s examinations, their evaluations of the Company’s internal controls, and the overall quality of the Company’s financial reporting.

Based upon the Audit Committee’s discussions with management and PwC and the Audit Committee’s review of the representations of management and the report of PwC to the Audit Committee, the Audit Committee recommended that the Board include the audited financial statements in the Company’s Form 10-K for the year ended December 31, 2013 filed with the SEC.

PROPOSAL 3

ADVISORY VOTE ON EXECUTIVE COMPENSATION

In accordance with the Dodd-Frank Act, the Company seeks a non-binding advisory vote from its stockholders to approve the compensation of its Named Executive Officers as disclosed in this proxy statement. This proposal is also referred to as the “Say-on-Pay vote.”

The Human Resources Committee of the Board of Directors (“HR Committee”) has overall responsibility for evaluating and determining the Company’s executive compensation (other than for the Chief Executive Officer which is determined by the independent members of the Board). The HR Committee is comprised of all independent directors. The Compensation Discussion and Analysis (“CD&A”) in this proxy statement provides an extensive description of the process and substance of the activity of the HR Committee in determining executive compensation.

DENTSPLY’s compensation philosophy is designed to align each executive’s compensation with DENTSPLY’s short-term and long-term performance and to provide the compensation and incentives needed to attract, motivate and retain key executives who are crucial to DENTSPLY’s long-term success. Consistent with this philosophy, a significant portion of the total compensation opportunity for each of our executives is directly related to DENTSPLY’s stock price performance and to other performance factors that measure our progress against our strategic and operating plans. Below is a summary of some key points of our executive compensation program.

We emphasize pay for performance and tie a significant amount of our Named Executive Officers’ pay to performance. Consistent with our performance based compensation philosophy, we reserve the largest portion of potential compensation for performance and equity based programs. Our performance based annual incentive program rewards short-term performance; while our equity awards, in the form of stock options and restricted stock units, coupled with our mandatory stock ownership guidelines, reward long-term performance and align the interests of our executives with those of our stockholders. The performance goals under our bonus program and performance restricted stock units focus on objectives that the HR Committee believes can drive the Company’s performance.

We believe that our compensation programs are aligned with the long-term interests of our stockholders. We believe that equity awards coupled with our stock ownership guidelines serve to align the interests of our executives with those of our long-term stockholders by encouraging long-term performance. As such, equity awards are a key component of our executive compensation program. Stock options, restricted stock units, and performance restricted stock units more closely align the long-term interests of our executives with those of our stockholders because the recipient will realize a higher level of compensation if our stock price increases over the life of the option and restricted stock unit.

We provide competitive pay opportunities to attract and retain talented executive management. The HR Committee consistently reviews our executive compensation program to ensure that it provides competitive pay opportunities. We target the 50th percentile of the market for base salary, annual target cash compensation levels, and our equity compensation. This positioning places greater emphasis on long-term risk-based pay, alignment with stockholder interests and long-term retention.

Stockholders are urged to read the CD&A, which discusses in detail our compensation policies, procedures and practices, and the accompanying Executive Compensation Tables. The HR Committee and the Board believe that these policies, procedures and practices are effective in implementing our compensation philosophy and in achieving the Company’s goals.

This advisory stockholder vote gives you, as a stockholder, the opportunity to endorse or not endorse our executive pay program and policies through the resolution below. We believe the philosophy and approach described in the CD&A and summarized above has worked well for the Company, as historically the Company has delivered solid performance and returns to its stockholders.

TABLE OF CONTENTS

The Board strongly endorses the Company's executive compensation program and recommends that the stockholders vote in favor of the following resolution:

“RESOLVED, that the compensation paid to the Company's Named Executive Officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.”

Although the advisory vote is non-binding and will not require the Company to take any action, the HR Committee and the Board will consider our stockholders' vote and take any concerns into account in future determinations concerning our executive compensation program.

The Board of Directors unanimously recommends a vote FOR the approval of the compensation of the Company's Named Executive Officers.

Roles in Executive Compensation

The HR Committee is assisted in its work regarding executive compensation by the Company's Corporate Human Resources Department. In addition, with respect to the compensation established for the NEOs in 2013, the Committee engaged an independent compensation consultant, Exequity LLP ("Exequity"), to advise on matters related to the compensation of the Chief Executive Officer ("CEO") and other executives. The Committee also considers recommendations from the CEO regarding compensation for other executive officers.

Compensation Philosophy and Objectives

The Committee's compensation philosophy is to provide a compensation package that is designed to satisfy the following principal objectives:

- to align the interests of management and employees with corporate performance and stockholder interests. This is accomplished by rewarding performance that is directly linked to achievement of the Company's business plans, financial objectives and strategic goals, as well as increases in the Company's stock price;
- to tie components of executives' compensation to the Company's performance by providing incentives and rewarding individual, team and collective performance, such as through the execution of actions that contribute to the achievement of the Company's strategies and goals, including accomplishments within assigned functional areas and successfully managing their respective organizations;
- to both attract and retain executives and key contributors with the skills, capabilities and experience necessary for the Company to achieve its business objectives. This requires that the Company's compensation programs be competitive with market compensation practices and performance-based; and
- to balance risk and reward to motivate and incentivize business performance without encouraging inappropriate risk taking.

In furtherance of the philosophy and objectives discussed above, the compensation program for executive officers in 2013 consisted of the components outlined in the chart below:

The Committee believes that compensation paid to the Company's executive officers should be competitive with the market, be aligned with the performance of the Company on both a short-term and long-term basis, take into consideration individual performance of the executive, and assist the Company in attracting and retaining key executives critical to the Company's long-term success. The Company's executive compensation program balances a level of fixed compensation with incentive compensation that varies with the performance of the Company and the performance of the individual executive's areas of responsibility. The Company's base pay and benefit programs for executives are intended to provide basic economic security at a level that is competitive with the market for executive management for companies of similar size and scope. The annual incentive compensation programs rewards performance measured against goals and standards established by the Committee, and the long-term incentive compensation is designed to encourage executives to increase stockholder value by focusing on growth in revenue and earnings, generation of cash flow and efficient deployment of capital.

Other objectives of the total compensation program are to provide: the ability for executives to accumulate capital, predominantly in the form of equity in the Company, in order to align executive interests with those of the stockholders; a competitive level of retirement income; and, in the event of certain circumstances, such as termination of employment in connection with a change in control of the Company, special severance protection to help ensure executive retention during the change in control process and to ensure executive focus on serving the Company and stockholder interests without the distraction of possible job and income loss.

TABLE OF CONTENTS

The expected value of equity grants is determined by the Committee or Board, as applicable, at its first meeting of the year. When granted, stock options are granted with an exercise price equal to the closing price on the day of the grant, and with restricted stock units ("RSUs") the recipient is granted a right to a specified number of shares. The grant date in 2013 for equity grants was the third trading day after the Company filed its Annual Report on Form 10-K for the year ended December 31, 2012, and the number of shares subject to such grants was determined at that time based on the previously established expected values, and the closing stock price on such grant date.

Pay for Performance Review

Pay for performance is an important component of our compensation philosophy. Our compensation approach, which is described in greater detail below, is designed to motivate officers, including the NEOs, to substantially contribute individually and collaboratively to the Company's long-term, sustainable growth. The Annual and Equity Incentive components are tied directly to the performance of the Company and shareholder value. The Company designs its compensation programs such that there is a correlation between level of position and degree of risk of obtaining target compensation. Based on this principle, a higher percentage of the total compensation of the Company's more senior executives with the highest levels of responsibility is variable and subject to performance. The table below shows the percentage of each NEO's total compensation which is variable.

NEO	Short-Term Incentive Compensation as Percentage of Total 2013 Compensation	Long-Term Incentive Compensation as Percentage of Total 2013 Compensation	Total Incentive Compensation as Percentage of Total 2013 Compensation
Bret W. Wise Chairman of the Board and Chief Executive Officer	15.2%	64.1%	79.3%

Fiscal 2012 Performance

Information regarding the Company's performance in 2012 was taken into consideration by the Committee when it established the 2013 base salaries for the NEOs. Once again, DENTSPLY experienced above market internal growth across most all of its market segments and regions. For the year ended December 31, 2012, sales were a record \$2.928 billion, increasing by 15.4 percent on a US GAAP reported basis, and 16.4 percent excluding precious metal content. The sales growth was driven by acquisition growth of 16.2 percent and internal growth of 4.0 percent, outpacing the

global dental consumable market. During 2012 the Company established DENTSPLY Implants, combining the Astra Tech implant business acquired in 2011 with the Company's previously owned implant brands. In addition, the Company continued with its strong record of innovation and commercialization of new products in 2012.

The following table reflects the Company's growth in fiscal 2012 in sales and earnings relative to fiscal year 2011.

	2011 (\$ in millions, except EPS)	2012 (\$ in millions, except EPS)	Change (%)
Net Sales	2,537.7	2,928.4	15.4
Net Sales (excluding precious metal content)	2,332.6	2,714.7	16.4
Adjusted Diluted EPS	2.03	2.22	9.4

In this table, the Company is providing GAAP information for Net Sales and non-GAAP information for the other measures, as it believes that this presentation of non-GAAP information, for purposes of this CD&A, provides a better measure of performance for comparison purposes. Please see Appendix A to this Proxy for a reconciliation of non-GAAP information to GAAP information.

Relationship between Company Performance and CEO Compensation

As part of the review of the CEO's compensation, the Committee reviews and approves goals and objectives for the Company which are relevant to the compensation of the Company's CEO and evaluates the CEO's performance with respect to those goals and objectives. The Board then determines the CEO's total compensation level based on such evaluation and the other information described in this report. The Committee also reviews and approves compensation and incentive arrangements (including performance-based arrangements and bonus awards under the Annual Incentive Plan) for the Company's other NEOs (as well as such other employees of the Company as the Committee may determine from time to time to be necessary or desirable) and the grant of awards pursuant to the Company's Equity Incentive Plan.

The following table illustrates the relationship between the Company's performance, based on the performance metrics deemed most important and applied by the Committee, and CEO compensation.

	2011 Annual Incentive Target Achievement & Annual Incentive Comp			2012 Annual Incentive Target Achievement & Annual Incentive Comp			2013 Annual Incentive Target Achievement & Annual Incentive Comp		
	At 100%	Achieved	Incentive Comp Earned	At 100%	Achieved	Incentive Comp Paid	At 100%	Achieved	Incentive Comp Paid
	Bret W. Wise Chairman & CEO	\$860,000	104.8%	\$901,300	\$910,000	105.0%	\$955,500	1,034,000	82.6%

Say on Pay Vote in 2013

In 2013 at the Annual Stockholders' meeting, stockholders of the Company had the opportunity to vote, on an advisory basis, on the Company's executive compensation. Ninety-six percent (96%) of the stockholders who voted on the matter approved, on an advisory basis, the Company's executive compensation. The Committee views this as support of the Committee's approach to the determination and setting of the compensation of the Company's executives.

II. Determination of Executive Compensation

The Company's intention in developing total annual compensation for executives is to be externally competitive and meet the Company's compensation objectives. Salary ranges, annual bonus plan targets and equity compensation targets are developed using a "total compensation" perspective which considers all components of compensation.

Review of Pay Relative to Peer Groups

In establishing the Company's executive compensation, compensation programs and awards for 2013, the Committee reviewed and considered market data and a report from Exequity on the Company's overall executive compensation program. For purposes of market comparison, the Committee considered the levels of current compensation at companies of similar size as the Company, using a broad compensation survey provided by Towers Watson, and the proxies of a smaller group of companies (collectively the "Peer Group"). With respect to the Towers Watson survey, the

Committee tried to identify companies of similar size and complexity to be included. The primary Towers Watson database used in 2012 was comprised of forty-three comparator companies generating annual revenues of \$1 billion to \$5 billion (“Primary Survey Peer Group”). The Primary Survey Peer Group is identified in Appendix B to this proxy statement. Where insufficient data was available from the Primary Survey Peer Group to make adequate comparisons to certain positions in the Company’s executive team, the Committee considered a secondary Towers Watson group comprised of an additional seventy-seven comparator companies with revenues of \$1 billion to \$5 billion. To complement the Towers Watson survey data, the Committee, with assistance from Exequity, identified a peer group comprised of sixteen organizations intended to be more closely aligned with the size and nature of operations of the Company’s business, for which a more detailed compensation review was done based on those organization’s 2012 proxies (“Proxy Peer Group”). This Proxy Peer Group is identified below:

TABLE OF CONTENTS

Proxy Peer Group

Becton, Dickinson and Co.	Mettler-Toledo International Inc.	Teleflex Inc.
CareFusion Corp.	Patterson Companies Inc.	Varian Medical Systems Inc.
Cooper Companies	PerkinElmer Inc.	Waters Corp.
C.R. Bard Inc.	ResMed Inc.	Zimmer Holdings Inc.
Edwards Lifesciences Corp.	STERIS Corp.	
Henry Schein Inc.	St. Jude Medical	

Data from the Peer Groups are considered by the Committee and compared with the compensation of the Company's executive officers in evaluating the amount and proportions of base pay, annual incentive pay and long-term compensation, as well as the targeted total compensation value. Exequity also provided a report to the Committee that analyzed the Peer Group data and provided commentary with respect to the Company's overall executive compensation program, including executive compensation pay, the annual and long-term incentive program design, common share usage and burn rates from the Company's equity incentive programs and a fair value transfer analysis of the Company's long-term equity incentive compensation.

The analysis by Exequity reflected that in general, the targeted total direct compensation (base salary, annual incentive and annualized expected value of long term incentives) of the Company's executive officers is typically around the 50th percentile of the market, as reflected in the Peer Group data. This, of course, is affected by the performance and experience of each executive officer and the performance of the Company relative to the performance targets established in the annual incentive plan and can be higher or lower than the expected percentile depending on performance.

The Committee does not consider the overall wealth accumulation of executives in establishing the current level of compensation, except as it relates to meeting the Company's stock ownership guidelines for officers, to the extent the prior year's compensation is considered in the comparative analysis described above, and in recognition that the Company's compensation program provides the opportunity over time for executives to build additional wealth.

The Committee also annually reviews the specific components and a comprehensive aggregation of the entire executive compensation pay and programs.

Determination of Annual Base Salaries

In establishing base salaries of the Company's executives, the Committee strives to reflect the external market value of a particular role as well as the experiences and qualifications that an individual brings to the role. The primary purpose of the Company's base salaries is to pay a fair, market competitive rate in order to attract and retain key executives. Base salary adjustments are generally made annually and have in the past been awarded based on individual performance, level of responsibilities, competitive data from the Peer Group reviews, employee retention efforts, annual salary budget guidelines and the Company's overall compensation philosophies discussed above. Base salaries are targeted to a range around the 50th percentile of the base pay paid by the Peer Groups for a comparable role in order to ensure that the Company is able to compete in the market for outstanding employees without unduly emphasizing fixed compensation, but may be higher or lower based on individual performance and experience level.

The starting point for the Committee in establishing base salaries and annual incentive awards is to review the total annual cash compensation of the executive officers with the total annual cash compensation for comparable positions in the Peer Groups. In determining the total annual cash compensation of the executive officer, the Committee establishes a comparative base salary and what the annual incentive awards for the executive officers would be at the 100% target achievement level (as described in the Annual Incentive section of this report), relative to comparable

positions reflected in the Peer Groups. Once the Committee establishes the appropriate range for base salaries, the Committee adjusts the base salary of the individual executive officer based on consideration of several factors, including individual performance, Company performance, the experience level of the executive, the nature and breadth of the executive's responsibilities, and the desire to minimize the risk of losing the services of the executive to another company. Total direct compensation in relation to other executives, as well as prior year individual performance and performance of the business lines for which the executive is responsible, are also taken into consideration in determining any adjustment.

The base salaries of the executive officers were reviewed in December 2012 in connection with this review of total compensation. The Committee believed that the Company performed better than the global dental industry as a whole

based on data provided to and reviewed by the Committee. Based on its overall review, at its meeting in December 2012, the Committee and the Independent members of the Board, with respect to the CEO, approved base salaries for the NEOs for 2013 as follows:

Bret W. Wise, Chairman of the Board and Chief Executive Officer - \$940,000
Christopher T. Clark, President and Chief Financial Officer - \$600,000
William R. Jellison, Senior Vice President and Chief Financial Officer - \$435,900
James G. Mosch, Executive Vice President and Chief Operating Officer- \$535,000
Robert J. Size, Senior Vice President - \$402,500
Albert J. Sterkenburg, Senior Vice President - €318,900

Note: Mr. Jellison left the Company on April 5, 2013. Mr. Clark was named President and Chief Financial Officer, and Mr. Mosch was named Executive Vice President and Chief Operating Officer, on April 5, 2013.

Determination of Annual Incentive Awards

As discussed above in the section on Compensation Philosophy and Objectives, the Committee believes it is important to have a portion of the executive's total annual cash compensation tied to the annual performance of the Company and its executives. It is intended that this component of the total compensation of executives be competitive with the market, but also reward executives for good performance and reduce the targeted compensation opportunity for performance that fails to meet the objectives established by the Committee. The Committee believes this helps to align the compensation and objectives of the executives with the Company and its stockholders. Target annual incentive awards are determined as a percentage of each executive's base salary. The Committee determines the general performance measures and other terms and conditions of awards for executives covered under the Company's annual incentive program, and the weight attributable to each performance goal for the NEOs. For executives below the level of the NEOs, the CEO and other executives establish the performance objectives and weighting based on direction provided in the Annual Incentive Plan.

The Committee annually reviews and establishes targets for annual bonus payouts to be applicable for the performance year. These targets are generally established at the beginning of the performance year in connection with the approval of the Company's budget for such year. In establishing the target payouts, the Committee evaluated the compensation levels in the Peer Groups. The Committee established performance targets for the executive officers, which if achieved at the 100% level, would result in annual bonuses that, in combination with base salary, would be competitive in the 50th percentile range with the total annual compensation of comparable positions in the Peer Groups. If the Company exceeds the targets established by the Committee, the executives are rewarded with higher annual bonuses and if the Company falls below the targets, the executives' bonuses are reduced below the 100% target level. The general principle in setting targets and measuring performance is that management is responsible and accountable for the financial results of the Company. The annual incentive plan, which is largely based on the financial performance of the Company, provides that the Committee may adjust positively or negatively the net income component of the financial results, based on U.S. GAAP consistently applied, to address the impact of significant or non-recurring unbudgeted income or expenses, that were not considered in the targets set for the year, are not reflective of current operations, or benefit future periods.

As noted earlier, the Committee believes that employees in higher level positions should have a higher proportion of their total compensation delivered through pay-for-performance cash incentives; as a result, their total annual compensation will be more significantly correlated, both upward and downward, to the Company's performance. The variability of the cash compensation of the Company's executives is closely linked to annual financial results of the Company, delivering lower-than-market total cash compensation when financial performance is below targets set by the Committee and higher total cash compensation when the results are above such targets. Consistent with this

principle, for 2013, the bonus targets for the NEOs ranged from 60% to 110% of base salary depending on the executive's position, as set forth below.

TABLE OF CONTENTS

Name	Target as Percent of Salary
Bret W. Wise, Chairman of the Board and Chief Executive Officer	110%
Christopher T. Clark, President and Chief Financial Officer	80%
William R. Jellison, Senior Vice President and Chief Financial Officer	60%
James G. Mosch, Executive Vice President and Chief Operating Officer	70%
Robert J. Size, Senior Vice President	65%
Albert J. Sterkenburg, Senior Vice President	60%

Note: Mr. Jellison left the Company on April 5, 2013. Mr. Clark was named President and Chief Financial Officer, and Mr. Mosch was named Executive Vice President and Chief Operating Officer, on April 5, 2013.

As noted above, the actual annual incentive awards are based on an executive's performance against objectives established by the Committee. Awards may range from no award being earned to 200% of target, although attainment at the maximum award level would be extremely difficult and is not expected. Awards, for the positions of the NEOs over the last three years have ranged from 76.0% to 121.4% of target.

The performance measures established by the Committee for the NEOs at the beginning of 2013, based on the annual budget approved by the Board, were allocated 85% to financial and 15% to strategic objectives. The financial targets for the NEOs were based on the Company's net income and internal sales growth. In the case of operating executives who have responsibility for certain businesses, in addition to the targets for the Company's income and sales growth, a portion of their annual target is comprised of the operating income and internal sales growth of those businesses. The targets for net income are set at levels so that minimal levels of achievement must be met in order for any incentive award to be paid. The Committee establishes objectives for net income and internal sales growth which it believes is challenging but fair and consistent with the executive compensation objectives described above. If the objectives are met, it is believed that the Company's performance should lead to greater stockholder returns.

The financial targets for 2013 for the NEOs, other than Mr. Size and Mr. Sterkenburg, who have direct operating business responsibility, were internal sales growth of 3.7%, with a target zone of 3.2% to 4.2%, and corporate net income of \$349.5 million, net of specific items. The Company's target for internal growth of 3.7% was above what the Committee believed was the expected growth for the global dental consumables market in 2013. Fifty percent of Mr. Size's objectives, and fifty percent of Mr. Sterkenburg's objectives, were based on the same objectives as the other NEOs, and the remaining amount of Mr. Size's and Mr. Sterkenburg's target incentives were based on the sales growth and income from operations of the businesses for which each had responsibility. The components of Mr. Size's and Mr. Sterkenburg's annual incentive compensation related to operating activities is not material and the Company believes it would be competitively harmful to disclose the operating business objectives as that would enable competitors to identify what the financial targets and business strategies are for certain specific operating businesses. The targets for the operating segments are set based on the projected budgets for the operating businesses and are meant to be challenging and which, if met, would result in the operating business meeting its strategic objectives and/or outperforming its competition in the market.

The three strategic objectives which comprise 15% of the NEOs target relate to the accomplishment of important strategic activities of the Company. These objectives are competitively sensitive as they relate to organizational development, strategic objectives and improvements in certain businesses considered important by the Committee and the Board.

Annual cash incentive awards are determined by multiplying the results for each performance objective (i.e., the percentage of that target award payable based on performance) by the target award opportunity for each NEO as described above, and then multiplied by the base salary as of December 31, 2013, the end of the performance period. At its February 2014 meeting, the Committee reviewed the performance of the Company and its executives with

respect to the annual objectives to determine whether the NEOs had met or exceeded the 2013 performance goals. As described above, the target net income used for annual incentive objective purposes is corporate net income, net of specific items consistent with the Annual Incentive Plan. The primary items that were excluded from reported net income for 2013 under this approach were amortization of purchased intangible assets, unbudgeted acquisition- and restructuring-related items, fair market adjustments to certain derivative contracts, certain favorable net tax adjustments, and fair value adjustments on the Company's investment in DIO Corporation. The Committee reviewed the performance of the Company relative to the strategic objectives and concluded that management had slightly exceeded the targets on these objectives in the aggregate. Based on this review, the NEOs were paid bonuses at the percent of target as set forth below:

Determination of Equity Incentive Compensation

The third principal component in total compensation for the Company's executives in 2013 was the award of equity incentives under the Company's Equity Incentive Plan, consisting of stock options, time-based restricted stock units ("RSUs"), and performance-based restricted stock units ("PRSUs").

The Committee believes that equity incentive compensation serves an essential purpose in attracting and retaining senior executives and providing them long-term incentives to maximize shareholder value. We also believe that long-term incentive awards align the interests of the executive officers with those of our stockholders. Long-term incentive awards for executive officers generally are made annually, as part of the "total remuneration" approach to executive compensation, under the stockholder-approved DENTSPLY Equity Incentive Plan. The long-term incentive program is designed to reward mid- and long-term performance and was comprised of three components in 2013:

- Stock option awards designed to reward stock price growth;
- Time based RSU awards (except as noted below for certain NEOs who have performance requirements); and
- PRSU awards based on accomplishment of a specific one year performance objective.

A stock option becomes valuable only if the Company's stock price increases above the option exercise price and the holder of the option remains employed for the period required for the option to vest, and thus, is a significant performance-based compensation component. This provides an incentive for an option holder to remain employed by the Company and to enhance shareholder value. The Committee believes that equity-based compensation ensures that the Company's executive officers have a continuing stake in the long-term success of the Company and is most closely aligned with the interest of stockholders.

As described in the Executive Summary section of this CD&A, the Company grants stock option awards three days after the Company issues its financial results for the prior fiscal year. Stock options are granted at the closing price on the day of the grant and accordingly, will have value only if the market price of the Company's common stock increases after the grant date. Stock option grants vest and become exercisable over three years - one-third on each of the first three anniversaries following grant - and are exercisable for ten years from the grant date, subject to earlier expiration in the event of termination of employment or retirement. Under the terms of the Company's Equity Incentive Plan, RSUs/ PRSUs and unvested stock options are forfeited if the executive voluntarily leaves prior to exercise, full vesting of RSUs/PRSUs or a qualified retirement.

The Committee believes that the use of RSUs and PRSUs as part of the Company's equity compensation program is consistent with current market practices, provides a greater opportunity for executives to build share ownership in the Company, provides an incentive for executives to remain with the Company and provides an equity vehicle that allows DENTSPLY to attract, motivate and retain the employee talent considered critical for achieving the Company's goals. Currently, RSUs cliff vest after three (3) years (and, for certain executive officers including the CEO, on the accomplishment of certain performance requirements), and PRSUs cliff vest after three (3) years, provided that a one (1) year performance objective is met. With respect to the PRSUs awarded to the NEOs, the Committee established a

performance requirement based on one year adjusted earnings per share growth. For Messrs. Wise and Clark, in addition to time based vesting, the RSUs included a performance requirement regarding the aggregate net income of the Company over the three year vesting period.

Guidelines for the size and type of awards are developed based upon, among other factors, the Committee's review of the Peer Group data, input from Exequity, shares available for grant under the Equity Incentive Plan, the executive's position in the Company, his or her contributions to the Company's objectives, and total direct compensation, as compared to the Peer Groups. Equity awards comprise a larger portion of the senior executives' compensation to more closely

TABLE OF CONTENTS

align the compensation and interests of the senior executives with that of stockholders. The Committee also takes into consideration the Company's performance against its business and financial objectives and its strategic plan, and individual performance, as well as the allocation of overall share usage under the Company's equity incentive plan.

In 2012, the Committee increased the portion of the CEO's equity incentive compensation that consists of PRSUs, and decreased the portion that consists of stock options. This change was carried over in 2013. Equity grants made to the CEO in February 2013 were allocated such that 30% of the annualized expected value of total equity incentive compensation granted in 2013 would consist of stock options, while 20% would consist of RSUs and 50% would consist of PRSUs. For NEOs other than the CEO, equity grants made in February 2013 were allocated such that 30% of the annualized expected value of total equity incentives granted in 2013 would consist of stock options, while 50% would consist of RSUs and 20% would consist of PRSUs. The split between stock options, RSUs and PRSUs was based both on comparisons to the market and the overall risk/reward tradeoff. As the Peer Group data varies somewhat by position, the Committee generally targets the equity incentive compensation at or near the median of the Peer Groups at target performance, with an opportunity for incentive compensation to exceed the median if performance is above target. Typically the maximum incentive opportunity (assuming performance exceeds target and meets the maximum targets in the plan) is in the range of the 50th to 65th percentile of the Peer Groups.

The PRSUs, or the applicable portion thereof, will vest after three years based on the performance of the Company relative to the applicable performance requirement. The Committee determined that none of the PRSUs would be earned unless adjusted (non-GAAP) earnings per share growth ("adjusted EPS growth") was at least 3% in 2013. The actual number of PRSUs earned was based on the adjusted EPS growth achieved from a threshold of at least 3% adjusted EPS growth (earning 25% of the PRSUs) to the maximum of 14% or greater adjusted EPS growth (earning 100% of the PRSUs). The company reported adjusted (non-GAAP) earnings per share growth of 6% in 2013, which resulted in an attainment under the 2013 PRSU grant of 40.7%. Accordingly, 40.7% of the 2013 grant will be subject to the full three year vesting requirement, and the remainder, or 59.3% of the PRSUs granted, was not earned, will not vest under the plan, and have been cancelled. Please see page 31 in the Company's Form 10-K for 2013 for a reconciliation of the non-GAAP EPS information to GAAP EPS information.

While equity awards under the Equity Incentive Plan generally involve no immediate cash cost, the Company does recognize expense for such awards in accordance with Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payment" ("SFAS No. 123(R)").

III. Post-Termination Arrangements

Termination of Employment

The Company has entered into employment agreements with all of the NEOs. Each of these employment agreements provides that, upon termination of such individual's employment with the Company as a result of the employee's death, the Company is obligated to pay the employee's estate the then current base compensation of the employee for a period of one year following the date of the employee's death, together with the employee's pro-rata share of any incentive or bonus payments for the period prior to the employee's death in the year of such death. Each of the employment agreements also provides that, in the event that the employee's employment is terminated by the Company other than in a change of control of the Company (as defined in the agreements) without cause, or by the employee with good reason, the Company will be obligated to pay or provide to the employee, over a period of two years subsequent to termination of employment, (i) all compensation at the base salary rate immediately preceding the termination, and (ii) the payments and benefits that the employee would have received under employee benefit plans, programs or other arrangements of the Company or any of its affiliates in which the employee participated before their termination.

The amounts that each NEO would receive in the event of a termination described above is set forth in the Potential Payment Upon Termination or Change in Control tables set forth below.

Termination following Change-in-Control

The Committee believes executive officers, including all the NEOs, who are terminated or elect to resign for “good reason” (as defined in the employment agreements) in connection with a change in control (as defined in the employment agreements) of the Company should be provided separation benefits. These benefits are intended to ensure that executives focus on serving the Company and stockholder interests during a change in control transaction or activity without the distraction of possible job and income loss.

TABLE OF CONTENTS

The Company's change-in-control benefits are consistent with the practices of companies with whom DENTSPLY competes for talent, and are intended to assist in retaining executives and recruiting new executives to the Company. As of the close of a transaction that results in a change in control of DENTSPLY, in accordance with the Company's Equity Incentive Plan all outstanding equity grants awarded as part of the Company's equity incentive compensation program become available to executives, that is, restrictions on all outstanding restricted stock units lapse and all non-exercisable stock options become exercisable. In the event that a termination of employment is made by the Company without cause or by the employee with good reason within a period of two (2) years after a change in control of the Company, the Company is required to pay to the NEOs, subject to the requirements of Section 409A(a)(2)(B) of the Internal Revenue Code, the benefits described in the paragraph above and the Potential Payment Upon Termination or Change in Control tables below.

IV. Retirement and Other Benefits

The Company also maintains standard benefits that are consistent with those offered by other major corporations and are generally available to all of the Company's full time employees (subject to meeting basic eligibility requirements). The benefits described below are for U.S. employees, however, similar benefits are provided to non-U.S. employees based on local law and benefit programs.

DENTSPLY offers retirement benefits to its U.S. employees through tax-qualified plans, including an employee and employer-funded 401(k) Savings Plan and a discretionary company-funded Employee Stock Ownership Plan ("ESOP"). The Committee allows for the participation of the executive officers in these plans, and the terms governing the retirement benefits under these plans for the executive officers are the same as those available for other eligible employees in the U.S. Similarly situated employees, including DENTSPLY's executive officers, may have materially different account balances because of a combination of factors: the number of years that the person has participated in the plan; the amount of money contributed, and the investments chosen by the participant with regard to those plans providing for participant investment direction. These plans do not involve any guaranteed minimum returns or above-market returns as the investment returns are dependent upon actual investment results. Employees direct their own investments in the 401(k) Savings Plan. The ESOP is a defined contribution plan designed to allow employees, including executive officers, to accumulate retirement accounts through ownership of Company stock, and to allow DENTSPLY to make contributions or allocations to those funds.

DENTSPLY's healthcare, insurance, and other welfare and employee-benefit programs are the same for all eligible employees, including the NEOs. DENTSPLY shares the cost of health and welfare benefits with its employees, a cost that is dependent on the level of benefits coverage that each employee elects. The Company also provides other benefits such as medical, dental and life insurance to each NEO, in a similar fashion to those provided to all other U.S.-based DENTSPLY employees.

The Company maintains a very limited number of benefit programs that are only available to the NEOs and other senior employees qualifying for eligibility based on salary grade level. Such benefits include a Supplemental Executive Retirement Plan ("SERP") and the DENTSPLY Supplemental Savings Plan ("DSSP"). The purpose of the SERP is to provide additional retirement benefits for a limited group of management employees, including the NEOs, whom the Board concluded were not receiving competitive retirement benefits. The Committee annually approves participants in the SERP. Contributions equal to 11.7% of total annual compensation (base salary and any annual incentive awards), reduced by Company contributions to the ESOP and 401(k) plans, are allocated to the participant's accounts. No actual benefits are put aside for participants in the SERP and the participants are general creditors of the Company for payment of the benefits upon retirement or termination from the Company. Participants can elect to have these benefits administered as savings with interest or stock unit accounts, with stock units being distributed in the form of common stock at the time of distribution. Upon retirement or termination for any reason, participants in the

SERP are paid the benefits in their account based on an earlier distribution election.

The DSSP is a deferred compensation plan that allows management employees of the Company to defer a portion of their base salary and annual incentive bonus, for payment at a future time, as elected by the participant. Deferred amounts are not funded by the Company but are a general obligation of the Company to administer and pay as set forth in the DSSP. The Plan is administered by T. Rowe Price, the Administrator of the Company's retirement plans, and participants have the right to elect investment options for the deferred funds (except that Executive Officers may not defer base salary into Company stock because of implications under Section 16 of the Securities Exchange Act), which are tracked by the Administrator.

V. Executive Stock Ownership Guidelines

Because the Committee believes in further linking the interests of management and the stockholders, the Company maintains stock ownership guidelines for its executives. The guidelines specify the number of shares that DENTSPLY's executive management should accumulate and hold within six (6) years of the date of appointment to the executive position. "Stock ownership" is defined to include stock owned by the officer directly, stock owned indirectly through the Company's retirement Plans, including SERP and DSSP, and equity awards pursuant to the equity incentive program, other than stock options. Under the current guideline established by the Committee, executives are required to own Company common stock equal in value to a multiple of their base salary, as set forth below:

Chief Executive Officer	5X
President and Chief Financial Officer	3X
Executive Vice President and Chief Operating Officer	3X
Senior Vice Presidents	2X
Vice Presidents	1X

All NEOs in their current positions were in compliance with the Stock Ownership Guidelines as of the end of 2013.

VI. Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Tax Code"), places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any one year with respect to the NEOs. There is an exception to the \$1,000,000 limitation for performance-based compensation meeting certain requirements. Stock option incentive awards generally are performance-based compensation meeting those requirements, and, as such, are believed to be fully deductible. The Committee generally seeks ways to limit the impact of Section 162(m); however, the Committee believes that the tax deduction limitation should not compromise our ability to establish and implement incentive programs that support the compensation objectives discussed above. Accordingly, achieving these objectives and maintaining required flexibility in this regard may result in compensation that is not deductible for federal income tax purposes. To maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the Committee has not adopted a policy requiring all compensation to be deductible. The Committee has established a performance goal for the Chief Executive Officer and Chief Operating Officer (at the time of grant, Christopher T. Clark was the Chief Operating Officer of the Company) for the vesting of their RSUs granted in 2013, regarding the aggregate net income of the Company over the three year vesting period, consistent with the performance-based requirements established by 162(m).

VII. Hedging and Pledging of Company Stock

Short sales of Company securities (a sale of securities which are not then owned) and derivative or speculative transactions in Company securities are prohibited under the Company's insider trading policy. No director, officer or other designated insider is permitted to trade in options, warrants, puts and calls or similar instruments on Company securities. In addition, directors, officers, and other designated insiders are prohibited from holding Company securities in margin accounts or pledging Company securities.

(1) Options granted become exercisable over a period of three years after the date of grant at the rate of one-third per year, except that they become immediately exercisable upon death, disability or qualified retirement. Options generally expire ten years after the date of grant under these plans. The non-exercisable stock options with the following expiration dates will vest as indicated below:

Expiration Date	Vesting Schedules
2/21/2022	One third vested February 21, 2014; the remaining one third will vest February 21, 2015
2/25/2023	One-third vested February 25, 2014; one third will vest February 25, 2015; and one third will vest February 25, 2016.

(2) The Company's stock options are granted at the Board meeting in February each year, with a grant date that is generally three business days after the Company's report of financial results for the prior year, to employees already

in the equity incentive program, and to newly hired executive officers at the HR Committee meeting following the executive officer's employment date. Prior to 2011, the Company's equity grants to employees already in the equity incentive program were made at the December Board meeting each year. The exercise price reflects the closing price of DENTSPLY Common Stock on the grant date.

(3) Stock options generally expire ten years after the grant date.

RSU grants are cliff vested. Restrictions lapse and the units convert to shares of stock three years after the date of grant, except that they become immediately vested upon death, disability or qualified retirement.

(4) RSUs have no expiration date. With respect to Mr. Wise and Mr. Clark, vesting of RSUs is contingent upon the continued profitability of the Company and these are included in the column "Equity Incentive Plan Awards: Number of Unearned Stock Units That Have Not Vested." The RSUs with the following grant dates will vest as indicated below:

Grant Date	Vesting Schedules
2/11/2011	vested on February 11, 2014
2/21/2012	will vest on February 21, 2015
2/25/2013	will vest on February 25, 2016

Wise and Clark, that the Company meets the performance requirement), except that they become immediately vested upon death, disability or qualified retirement. PRSUs are shown at the target amount.

Non-Qualified Deferred Compensation

Supplemental Executive Retirement Plan

Effective January 1, 1999 and amended December 10, 2002 and January 1, 2009, the Board adopted a Supplemental Executive Retirement Plan. The purpose of the SERP is to provide additional retirement benefits for a limited group of management employees, including the U.S. based Named Executive Officers, whom the Board concluded were not receiving competitive retirement benefits. Contributions equal to 11.7% of compensation reduced by ESOP contributions are allocated to the participants' accounts. No actual benefits are put aside for participants and the participants are general creditors of the Company for payment of the benefits upon retirement or termination from the Company. Participants can elect to have these benefits administered as savings with interest or stock unit accounts, with stock units being distributed in the form of Company Common Stock at the time of distribution.

The SERP provides for the possible delay in the distribution of benefits as necessary to comply with applicable administrative or legal requirements. Subject to such provisions, benefits are distributed as set forth below. Upon retirement or termination for any reason, participants in the SERP are paid the benefits in their account based on an earlier election to have their accounts distributed immediately or in annual installments for up to five (5) years.

In the event of a participant's death before his or her account has been distributed, distribution will be made to the beneficiary selected by the participant within thirty (30) days after the date of death (or, if later, after the proper beneficiary has been identified).

In the event of a Change in Control as defined in this SERP, participants will be given the option to receive the value of their accounts in lump sums no later than sixty (60) days after the Change in Control. Optional distributions received subject to a change in control must represent the entire Supplemental Executive Retirement Accounts and will be subject to five percent (5%) penalty reductions.

All distributions under the SERP are based upon the amount credited to a participant's account as of the last business day of the month immediately preceding the date of the distribution. The amount of installments payable to a participant electing distribution through installments is determined by dividing the aggregate balance of the participant's vested account by the remaining number of installments, including the current installment to be paid.

The following table sets forth contributions, earnings and year-end balances for 2013, with respect to non-qualified deferred compensation plans for the Named Executive Officers.

DENTSPLY Supplemental Savings Plan

Effective January 1, 2008, the Board adopted the DENTSPLY Supplemental Savings Plan (DSSP). The purpose of the DSSP is to provide select members of the management of the Company, including all of the U.S. based Named Executive Officers, an opportunity to defer up to 50% of their base salary and 100% of their earned bonuses. Deferred amounts are general obligations of the Company and participant's accounts are unfunded. Participants are able to elect to have their deferred compensation (other than individual salary deferrals by Named Executive Officers to Company stock) tracked relative to investment options that mirror the investment options under the Company's 401(k), including Company stock.

Participation is restricted to a select group of management employees, as determined annually by the Company. The Company maintains a listing of the eligible employees. Participation in the DSSP is voluntary and participants must elect to enroll each year they are eligible to participate.

DSSP payments are made in accordance with participant or employer election, at a specified time, termination for any reason, an unforeseeable emergency, disability or death. Retirement does not apply for purposes of the DSSP. All payments will be distributed in the form of cash at the time of distribution.

All distributions under the DSSP are based upon the amount credited to a participant's account as of the last business day of the month immediately preceding the date of the distribution. The amount of installments payable to a participant electing distribution through installments is determined by dividing the aggregate balance of the participant's account by the remaining number of installments, including the current installment to be paid. It is understood that administrative or legal requirements may lead to a delay between such valuation date and the date of distribution.

The following table sets forth contributions, earnings and year-end balances for 2013, with respect to non-qualified deferred compensation plans for the Named Executive Officers.

Mr. Jellison left the Company on April 5, 2013. Following his departure, Mr. Jellison received distributions of (1) \$100,957 and \$35,867 from the SERP and DSSP respectively in 2013, in accordance with the distribution elections he had previously made.

(2) Participants in the DSSP can elect to contribute a portion of their salary and/or bonus into this plan. The SERP is fully funded by the Company; therefore, participants cannot contribute funds to the SERP.

(3) Amounts represent unfunded credits allocated to participants' accounts for 2013. They are included in the "All Other Compensation" column in the Summary Compensation Table.

(4) Participants in the SERP can elect to have these benefits administered as savings with interest or stock unit accounts, with stock units being distributed in the form of Common Stock at the time of distribution. The amounts represent unfunded interest, depreciation, appreciation, and/or dividend credits allocated to participants' accounts in 2013. Earnings are calculated using market rates. For this reason, these amounts are not reported in the "All Other Compensation" column in the Summary Compensation Table. Earnings are not reported to the Internal Revenue Service until withdrawn.

(5) Deferred amounts are general obligations of the Company and participants' accounts are unfunded. Participants are able to elect to have their deferred compensation tracked relative to investment options that mirror the investment options under the Company's 401(k), including Company stock. All payments will be distributed in the form of cash at the time of distribution. The amounts represent unfunded interest, depreciation, appreciation, and/or dividend credits allocated to participants' accounts in 2013. Earnings are calculated using market rates. For this reason, these amounts are not reported in the "All Other Compensation" column in the Summary Compensation Table.

(6) The aggregate balance represents each participant's vested balance at the end of 2013.

(7) Mr. Sterkenburg is not eligible for the SERP or DSSP since he is not a United States employee.

Employment Agreements

The Company has entered into employment agreements with all of the Named Executive Officers. Each of these employment agreements provides that, upon termination of such individual's employment with the Company as a result of the employee's death, the Company is obligated to pay the employee's estate the then current base compensation of the employee for a period of one year following the date of the employee's death, together with the employee's pro-rata share of any incentive or bonus payments for the period prior to the employee's death in the year of such death. Each of the employment agreements also provides that, in the event that the employee's employment is terminated by the Company without "cause" (as defined in the employment agreements), or, in the case of the US NEOs by the employee with "good reason" (as described in the employment agreements), the Company shall pay compensation and provide benefits for a period (the "Termination Period") beginning on the date of the termination notice and ending on the earlier of (i) the second annual anniversary of the date of such termination notice; or (ii) the date on which the employee would attain age 65. During this period, (i) the Company will be obligated to pay the employee at the rate of salary being paid immediately before the termination, (ii) the employee will be entitled to receive bonus and incentive compensation in accordance with plans approved by the Board, (iii) the employee shall not be entitled to receive any further grants of stock options or equity incentives under any stock option or similar such plan subsequent to the date of termination notice, but equity grants shall continue to be exercisable, (iv) the employee will be entitled to receive the benefits that would have been accrued by him from participation under any pension, profit sharing, ESOP or similar retirement plan or plans of the Company or any affiliate, and (v) the employee shall receive continued coverage during the Termination Period under all employee disability, annuity, insurance, or other employee welfare benefit plans, programs or arrangements of the Company or any affiliate, provided that such coverage shall terminate for any such benefit on the earlier of the following events: (i) the covered person becomes eligible for similar type coverage under another employer's group plans; (ii) the covered person becomes eligible for Medicare health benefits; or (iii) the covered person fails to pay the premium for such coverage by the due date thereof. The US NEOs' agreements further provide that in the event of death of employee during the Termination Period, the Company shall continue to make payments for a period that is the lesser of the remainder of the Termination Period or twelve (12) months, and shall pay any bonuses due on a pro-rata basis until the date of the employee's death, to the employee's designated beneficiary or, if no beneficiary has been effectively designated, then to the employee's estate.

The employment agreements include a non-competition commitment and a commitment against disclosure of the Company confidential information and non-solicitation of Company employees.

The Company has also entered into employment agreements with certain other members of senior management having terms similar to those described above.

Potential Payments upon Termination or Change in Control

The tables below represent the amount of compensation to each of the Named Executive Officers of the Company in the event of termination from the Company under different circumstances. The amount due to each officer upon retirement, resignation, termination by the employee with cause, termination by the Company without cause, termination following a change in control and in the event of the death of the Named Executive Officer is provided. The amounts assume that the date of termination was December 31, 2013 and include actual amounts earned through that time and estimates of amounts which would have been paid as of such date. The stock price of DENTSPLY was assumed to remain at \$48.48 per share, the closing price on December 31, 2013. Actual amounts to be paid may differ and can only be determined in the event of and at the time of the executive officers' terminations from the Company.

Payments Made Upon Termination

Each Named Executive Officer would be entitled to receive amounts earned during his employment, regardless of the reason for his separation from the Company. Those amounts include:

- (1) pro-rata share of non-equity incentive compensation would be paid in February of the year following the year in which earned;
- (2) vested stock options could be exercised within 90 days of termination;
- (3) lump sum distributions would be made for amounts accrued and vested through the Company's ESOP and 401(k) Plan;

- (5) lump sum distributions would be made for unused vacation pay.

TABLE OF CONTENTS

Awards having any performance criteria shall fully vest only upon and when both of the following have occurred: (2)(i) if the qualified retirement occurs no earlier than the one year anniversary of the grant date of the award, and (ii) all of the performance criteria associated with the award are met; and

(3) Options expire the earlier of 5 years from that date or the original expiration date.

Payments Made Upon Termination for Cause by the Executive Officer, or Termination by the Company without Cause

If a US Named Executive Officer separates from the Company for good reason, or if the Company terminates any of the Named Executive Officers without cause, such Named Executive Officer would be entitled for the Termination Period, to the following:

(1) full rate of salary immediately preceding the date of notice of termination, for US NEOs the first six months to be paid in a lump sum at the end of such six month period, and thereafter to be paid bi-weekly;

non-equity incentive compensation in accordance with the Annual Incentive Plan and based on the rate of salary (2) immediately preceding the date of notice of termination, paid in February in the year following the year in which earned;

the employee shall not be entitled to receive any further grants of stock options or equity incentives under any (3) stock option or similar such plan subsequent to the date of termination notice, but equity grants shall continue to be exercisable;

benefits that would have been accrued by him from participation under any pension, profit sharing, Employee (4) Stock Ownership or similar retirement plan or plans of the Company or any affiliate;

the employee shall receive continued coverage during the Termination Period under all employee disability, (5) annuity, insurance, or other employee welfare benefit plans, programs or arrangements of the Company or any affiliate, provided that for the US NEOs such coverage shall terminate for any such benefit on the earlier of the following events:

a. the employee becomes eligible for similar type coverage under another employer's group plans;

b. the employee becomes eligible for Medicare health benefits; or

c. the employee fails to pay the premium for such coverage by the due date thereof.

Payments Made Upon Termination of Employment by the Executive Officer For Cause or the Company Terminates or Gives Written Notice of Termination to the Employee within Two (2) Years after a Change in Control

If, within two (2) years after a Change in Control a US Named Executive Officer terminates employment for good reason, or the Company terminates or gives written notice of termination of employment to the Named Executive Officer (regardless of whether with or without cause), the Company shall pay the following amounts to the Named Executive Officer in a single lump sum cash payment:

(1) An amount equal to three (3) times the executive officer's current annual salary for Mr. Wise, Mr. Clark, and Mr. Mosch and two (2) times current annual salary for Mr. Size and Mr. Sterkenburg;

(2) An amount equal to three (3) times the executive officer's annual incentive award for Mr. Wise, Mr. Clark, and Mr. Mosch, and two (2) times the annual incentive award for Mr. Size and Mr. Sterkenburg, for the year in which the

termination occurs based on the target achievement of 100%; and

An amount equal to the benefits that would have been accrued by the Named Executive Officer for the three (3) year period from the date of termination for Mr. Wise, Mr. Clark, and Mr. Mosch, and two (2) years for Mr. Size and Mr. Sterkenburg, from participation by the employee under any pension, profit sharing, ESOP, SERP or

(3) similar retirement plan or plans of the Company or any affiliate in which the employee participated immediately before the termination, in accordance with the terms of any such plan (or, if not available, in lieu thereof be compensated for such benefits), based on service and compensation the employee would have had during such period.

Continued coverage for a two (2) year period from the date of termination under all employee disability, annuity, insurance, or other employee welfare benefit plans, programs or arrangements of the Company or any affiliate in which the Named Executive Officer participated immediately before the notice of termination, plus all

(4) improvements subsequent thereto (or, if not available or if required in order to comply with Code Section 409A, in lieu thereof be compensated in monthly cash payments for the premium-equivalent amount of such coverage and then be permitted to purchase such coverage, if available, by paying 100% of the premium cost for such coverage on an after-tax basis).

TABLE OF CONTENTS

Certain Adjustments in Payments to US Executive Officers

In the event that it shall be determined that any payment or distribution by the Company to or for the benefit of the executive officer as described above, whether paid or payable or distributed or distributable pursuant to the terms of the employment agreement or otherwise (a “Payment”), would constitute an “excess parachute payment” within the (1) meaning of Section 280G of the Code, the Company shall pay the executive officer an additional amount (the “Gross-Up Payment”) such that the net amount retained by the executive officer after deduction of any excise tax imposed under section 4999 of the Code, and any federal, state and local income tax, employment tax, excise tax and other tax imposed upon the Gross-Up Payment, shall be equal to the Payment.

If the net after-tax benefit to the executive officer of receiving the Gross-Up Payment does not exceed the Safe Harbor Amount (as defined below) by more than 10% (as compared to the net after-tax benefit to the executive officer resulting from elimination of the Gross-Up Payment and reduction of the Payments to the Safe Harbor (2) Amount), then (i) the Company shall not pay the executive officer the Gross-Up Payment, and (ii) the provisions of paragraph (3) below shall apply. The term “Safe Harbor Amount” means the maximum dollar amount of parachute payments that may be paid to the participant under section 280G of the Code without imposition of an excise tax under section 4999 of the Code.

If the Company is not required to pay the employee a Gross-Up Payment as a result of the provisions of Paragraph (2) above, the Company will apply a limitation on the Payment amount as follows: The aggregate present value of the benefits paid to the executive officer (the “Separation Benefits”) shall be reduced (but not below zero) to the (3) “Reduced Amount.” The “Reduced Amount” shall be an amount expressed in present value which maximizes the aggregate present value of such Separation Benefits without causing any Payment to be subject to the limitation of deduction under section 280G of the Code.

Payments Due Upon Death

If a Named Executive Officer separates from the Company due to death, the Named Executive Officer’s beneficiaries would be entitled to the following:

- (1) salary at the rate immediately preceding the date of death for a period of one year from the date of death;
- (2) pro-rata share of non-equity incentive compensation based on the rate of salary immediately preceding the date of death, paid in February of the year following the year in which earned;
- (3) all outstanding stock options would vest as of the date of death and would be exercisable until the earlier of the stated expiration date of the option, or one (1) year from the date of death; and
for the US-based NEOs, contributions would be made to the Employee Stock Ownership, 401(k) and Supplemental
- (4) Executive Retirement Plans for the year of the death and lump sum distributions would be made to the beneficiaries.

The following tables contain estimated potential payments that may be due to a Named Executive Officer should termination or change in control occur. Although the calculations are intended to provide reasonable estimates of potential payments, they are based on assumptions and may not represent the actual amount a Named Executive Officer would receive if a change occurred. The payments listed represent the incremental amounts due to the Named Executive Officer that exceed what the Named Executive Officer would have received without the termination, change in control or death. Not included in these tables are the following payments to which the NEOs are already entitled and have been reported in previous sections of this proxy:

- amounts already earned under the Non-Equity Incentive Compensation Plan
- the exercise of outstanding vested options (reported in the Outstanding Equity Awards at Fiscal Year End table)

Outside Director compensation framework is as follows:

Element		Comment
Equity component ⁽¹⁾	\$130,000	50 – 50 split between stock options and restricted stock units
Annual cash retainer	\$45,000

(1) Represents the expected annual value of grants to Outside Directors, using the Black-Scholes method of calculation.

Directors are reimbursed for travel and other expenses relating to attendance at Board and committee meetings.

Effective January 1, 1997, the Company established a Directors’ Deferred Compensation Plan (the “Deferred Plan”). The Deferred Plan permits Outside Directors to elect to defer receipt of directors’ fees or other compensation for their services as directors. Outside Directors can elect to have their deferred payments administered as a cash with interest account or a stock unit account with dividends. Deferred payments that are administered in a stock unit account are converted into RSUs at the closing price of the Company’s common stock on the date of allocation. Distributions to a director under the Deferred Plan will not be made to any Outside Director, and restrictions on RSUs granted in the Deferred Plan do not lapse, until the Outside Director ceases to be a Board member.

The following table shows the compensation awarded to, earned by or paid to the Company’s Outside Directors for the year ended December 31, 2013.

APPENDIX A

RECONCILIATION OF NON-GAAP INFORMATION TO GAAP INFORMATION

The presentation of net sales, excluding precious metal content, is considered a measure not calculated in accordance with US GAAP, and is therefore considered a non-US GAAP measure. The Company provides the following reconciliation of net sales to net sales, excluding precious metal content. The Company's definitions and calculations of net sales, excluding precious metal content, and other operating measures derived using net sales, excluding precious metal content, may not necessarily be the same as those used by other companies.

(in millions)	Year Ended December 31,				
	2012	2011	\$ Change	% Change	
Net sales	\$2,928.4	\$2,537.7	\$390.7	15.4	%
Less: Precious metal content of sales	213.7	205.1	8.6	4.2	%
Net sales, excluding precious metal content	\$2,714.7	\$2,332.6	\$382.1	16.4	%

In addition to the results reported in accordance with US GAAP, the Company provides adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share. The Company discloses adjusted net income attributable to DENTSPLY International to allow investors to evaluate the performance of the Company's operations exclusive of certain items that impact the comparability of results from period to period and certain large non-cash charges related to purchased intangible assets. The Company believes that this information is helpful in understanding underlying operating trends and cash flow generation. The adjusted net income attributable to DENTSPLY International consists of net income attributable to DENTSPLY International adjusted to exclude the impact of the following: (1) acquisition related costs which include costs related to integrating recently acquired businesses and specific costs related to the consummation of the acquisition process, These costs are irregular in timing and as such may not be indicative of past and future performance of the Company and are therefore excluded to allow investors to better understand underlying operating trends, (2) restructuring and other costs. These adjustments include both costs and income that are irregular in timing, amount and impact to the Company's financial performance. As such, these items may not be indicative of past and future performance of the Company and are therefore excluded for the purpose of understanding underlying operating trends, (3) amortization of purchased intangible assets. This adjustment excludes the periodic amortization expense related to purchased intangible assets. Beginning in 2011, the Company began recording large non-cash charges related to the values attributed to purchased intangible assets. These charges have been excluded from adjusted net income attributed to DENTSPLY International to allow investors to evaluate and understand operating trends excluding these large non-cash charges, (4) income related to credit risk and fair value adjustments. These adjustments include both the cost and income impacts of adjustments in certain assets and liabilities that are recorded through net income which are due solely to the changes in fair value and credit risk. These items can be variable and driven more by market conditions than the Company's operating performance. As such, these items may not be indicative of past and future performance of the Company and therefore are excluded for comparability purposes, (5) certain fair value adjustments related to an unconsolidated affiliated company. This adjustment represents the fair value adjustment of the unconsolidated affiliated company's convertible debt instrument held by the Company. The affiliate is accounted for under the equity method of accounting. The fair value adjustment is driven by open market pricing of the affiliate's equity instruments, which has a high degree of variability and may not be indicative of the operating performance of the affiliate or the Company, (6) Income tax related adjustments. These adjustments include both income tax expenses and income tax benefits that are representative of income tax adjustments mostly related to prior periods, as well as the final settlement of income tax audits. These adjustments are irregular in timing and amount and may significantly impact the Company's operating performance. As such, these items may not be indicative of past and future performance of the Company and therefore are excluded for comparability purposes.

Adjusted earnings per diluted common share is calculated by dividing adjusted net income attributable to DENTSPLY International by diluted weighted-average common shares outstanding. Adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share are considered measures not calculated in accordance with US GAAP, and therefore are non-US GAAP measures. These non-US GAAP measures may differ from other companies. Income tax related adjustments may include the impact to adjust the interim effective income tax rate to the expected annual effective tax rate.

The Company believes that the presentation of adjusted net income attributable to DENTSPLY International and adjusted earnings per diluted common share provides important supplemental information to management and investors seeking to understand the Company's financial condition and results of operations. The non-US GAAP financial information should not be considered in isolation from, or as a substitute for, measures of financial performance prepared in accordance with US GAAP.
