EXHIBIT 99.1 CONTRACT STATUS SUMMARY AT MAY 15, 2003

ITEM 9. REGULATION FD DISCLOSURE

The ATWOOD SOUTHERN CROSS has completed its contract with ENI S.p.A. and is preparing to commence a contract with Edison Gas S.p.A. ("Edison") off the coast of Italy. The contract with Edison provides for work on three plug and abandonment wells which is expected to take 30 to 60 days to complete. The contract provides for a dayrate of \$46,000. Contract opportunities for additional work following completion of the Edison wells are being pursued in the Mediterranean Area.

Edgar Filing: ATWOOD OCEANICS INC - Form 8-K

The ATWOOD FALCON is currently drilling its seventh well of an eight well contract with Woodside. The contract is estimated to be completed in June 2003. Following completion, the rig will be moved to Malaysia to drill one well for Sarawak Shell and one well for Murphy Sabah Oil Co., Ltd. ("Murphy"). The drilling of the wells in Malaysia should commence around July 1, 2003 and should take approximately 100 days to complete, with a dayrate of \$83,300. Murphy has an option to drill one additional well at a later date.

The ATWOOD HUNTER has completed its work in Egypt and is preparing to drill one well for Samedan, Mediterranean Sea off the coast of Israel. This well is estimated to take around 70 days to complete and will have a dayrate of \$80,000.

Additional information with respect to the Company's Contract Status Summary May 15, 2003 is attached hereto as Exhibit 99.1 which is being furnished in accordance with Rule 101 (e) (1) under Regulation FD and should not be deemed to be filed.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors; the Company's dependence on the oil and gas industry; the risks involved the construction of a rig; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism; risks associated with a possible disruption in operations due to a war with Iraq; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company' annual report on Form 10-K for the year ended September 30, 2002, filed with the Securities and Exchange Commission.
