Comments on long distance financial results

The long distance income statement prepared in accordance with accounting separation principles shows that long distance revenues decreased 2.8% in the second quarter. The decrease in revenues was due to 32.7% lower traffic volume of international long distance traffic and the reduction of domestic and international long distance rates in real terms.

Operating costs and expenses in the second quarter decreased 3.2% compared with the same period of last year. This reduction is the result of lower costs of sales and services as well as commercial, administrative and general expenses of 32 million pesos and to lower interconnection costs and special projects because of the decrease in traffic of 70 million pesos. Depreciation was 40 million pesos lower than the second quarter of 2002.

Operating income decreased 1.9% and EBITDA decreased 2.8% in the second quarter totaling 1,674 and 2,495 million pesos, respectively. For the six months, operating income decreased 12.8% and EBITDA decreased 10.1%.
