#### Item 1.01 Entry into a Material Definitive Agreement

On March 14, 2014, the Registrant's wholly owned subsidiary ESCO Technologies Holding LLC ("Seller") entered into a Securities Purchase Agreement (the "Agreement") with Meter Readings Holding, LLC ("Buyer"), an affiliate of Sun Capital Partners, Inc. ("Sun"). Pursuant to the Agreement, Buyer will acquire Seller's wholly-owned subsidiary Aclara Technologies LLC as well as two related business entities, Aclara International LLC and Distribution Control Systems Caribe, Inc. (collectively, "Aclara"). Other than in respect of the Agreement itself, there is no material relationship between the Registrant or its affiliates and Buyer or its affiliates. Since the third quarter of Registrant's 2013 fiscal year, Aclara has been reflected on the Registrant's financial statements as discontinued operations/assets held for sale.

The Agreement provides for a purchase price of \$130 million in cash, plus or minus certain customary adjustments to Aclara's working capital specified in the Agreement. In addition, approximately \$20 million of specified Aclara receivables will be paid to the Registrant when collected by Aclara.

The Agreement contains representations, warranties and covenants of the parties (including a non-competition covenant) typical in sale contracts of this kind and scope. The representations and warranties which relate to the state of Aclara's business will generally expire at the Closing, while the representations and warranties relating to the existence, power and authority of the parties, the validity and enforceability of the Agreement, the capitalization and ownership of Aclara, taxes, and brokers and finders, will survive until the expiration of the respective statutes of limitations. The representations, warranties and covenants contained in the Agreement were made only for purposes of that Agreement and as of specific dates; were solely for the benefit of the parties to the Agreement; and may be subject to limitations agreed upon by the parties, including being qualified by confidential disclosures made by each contracting party to the other for the purposes of allocating contractual risk between them, which may differ from those applicable to investors.

The consummation of the sale (the "Closing") is expected to occur by the end of March 2014, as promptly as practicable after the satisfaction or waiver of customary closing conditions, including termination of applicable waiting periods under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended. The Closing is also subject to the execution of certain ancillary agreements and releases by the Registrant or its affiliates and the Buyer, including a Transition Services Agreement between the Registrant and the Buyer, and a Guarantee Reimbursement Agreement among the Registrant, Aclara Technologies LLC and Sun. The Guarantee Reimbursement Agreement provides that, because the Registrant's existing guarantees of Aclara's performance obligations under a limited number of Aclara contracts will remain in effect following the Closing, Aclara will reimburse the Registrant for any amounts that the Registrant may be required to pay under those guarantees. The Registrant will receive regular reports on the status of the contracts, will retain its rights to assert Aclara's defenses as well as certain rights to cure defaults, and in the event of a breach will be entitled to notification and to access to customer technology escrows. Sun, Aclara and their successors are not permitted to expand the guaranteed contracts beyond their original scope.

On March 17, 2014 the Registrant issued a press release (furnished as Exhibit 99.1 to this report) announcing the Agreement.
