PRESS RELEASE

GRUPO SIMEC ANNOUNCES RESULTS OF OPERATIONS FOR THE FIRST SIX MONTHS OF 2006

GUADALAJARA, MEXICO, July 19, 2006- Grupo Simec, S.A. de C.V. (AMEX-SIM) (“Simec”) announced today its results of operations for the six-month period ended June 30, 2006. Net sales increased 231% to Ps. 11,822 million in the first six months of 2006, compared to Ps. 3,574 million in the same period of 2005, primarily due to the inclusion of net sales of Ps. 8,270 million generated by the newly acquired plants of PAV Republic, Inc. (“Republic”). On July 22, 2005, Simec and its parent company Industrias CH, S.A. de C.V. (“ICH”) acquired 100% of Republic’s stock. Simec, ICH’s largest subsidiary, acquired 50.2% of Republic’s stock, and ICH purchased the remaining 49.8%. Simec recorded net income of Ps. 1,239 million in the first six months of 2006, versus net income of Ps. 601 million in the first six months of 2005.

Simec sold 1,369,352 metric tons of basic steel products during the six-month period ended June 30, 2006 (including 851,752 metric tons sold by the newly acquired plants of Republic), an increase of 162% as compared to 523,501 metric tons in the same period of 2005. Exports (including sales by U.S. subsidiaries) of basic steel products were 908,283 metric tons in the six-month period ended June 30, 2006 (including 851,752 metric tons sold by the newly acquired plants of Republic), versus 74,692 metric tons in the same period of 2005. Additionally Simec sold 1,388 metric tons of billet in the six-month period ended June 30, 2006, as compared to 12,870 metric tons of billet in the same period of 2005. Prices of finished products (excluding sales by Republic) sold in the six-month period ended June 30, 2006, increased 2% in real terms versus the same period of 2005.

Simec’s direct cost of sales increased 313% to Ps. 9,612 million in the six-month period ended June 30, 2006 (including Ps. 7,391 million relating to the newly acquired plants of Republic), compared to Ps. 2,327 million in the same period of 2005. The average cost of raw materials (excluding the production of Republic) decreased 2% in real terms in the six-month period ended June 30, 2006, versus the same period of 2005, primarily as a result of decreases in the price of scrap and certain other raw materials.

Indirect manufacturing, selling, general and administrative expenses (including depreciation) were Ps. 650 million in the six-month period ending June 30, 2006 (including Ps. 299 million relating to the newly acquired plants of Republic), compared to Ps. 375 million in the same period of 2005.

Simec’s operating income increased 79% to Ps. 1,560 million during the first six months of 2006 (including Ps. 580 million relating to the newly acquired plants of Republic), from Ps. 872 million in the first six months of 2005. Operating income was 13% (28% excluding the operating income of Republic) of net sales in the first six months of 2006, compared to 24% of net sales in the first six months of 2005.

Simec recorded financial income of Ps. 25 million in the six-month period ended June 30, 2006, compared to financial expense of Ps. 35 million in the same period of 2005.

Simec recorded other income, net, from other financial operations of Ps. 82 million in the six-month period ended June 30, 2006 (including the amortization of the deferred credit of Ps. 67 million), compared to other income, net, of Ps. 8 million in the same period of 2005. In addition, Simec recorded a provision for income tax and employee profit sharing of Ps. 255 million in the six-month period ended June 30, 2006, versus a provision of Ps. 244 million in the same period of 2005.

At June 30, 2006 Simec repaid substantially all of its consolidated debt, which at December 31, 2005 totalled approximately \$38 million.

All figures have been prepared in accordance with Mexican generally accepted accounting principles and are stated in constant Pesos at June 30, 2006.

Simec is a mini-mill steel producer in Mexico and manufactures a broad range of non-flat structural steel products and is the largest producer of special bar quality (SBQ) steel in North America. Republic is the leading producer of SBQ steel in the United States.

FINANCIAL STATEMENT NOTES

CONSOLIDATED

PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

On July 22, 2005, Simec and its parent company, Industrias CH, S.A. de C.V. (“ICH”), acquired 100% of the stock of PAV Republic, Inc. (“Republic”). Simec, ICH’s largest subsidiary, acquired 50.2% of Republic’s stock, through its majority owned subsidiary, SimRep Corporation, and ICH purchased the remaining 49.8% through SimRep Corporation. Simec financed its portion of the U.S. \$229 million purchase price principally from a loan it received through ICH that has since been repaid in full. At June 30, 2006, Republic repaid in full its outstanding bank debt, which had maturities through 2009. Simec began to operate the plants of Republic on July 22, 2005 and, as a result the operation is reflected in Simec’s financial results as of such date.

According with the rules set forth in articles 35 and 81 of the Dispositions of General Character Applicable to Registrants and Other Participants of the Mexican Stock Market, the following consolidated earning statements from January 1 to June 30, appears pro forma for Simec for the period 2005, in order to be comparable and the consolidated balance sheet appears pro forma for Simec at June 30, 2005 in order to be comparable against June 30, 2006.

s35 Stockholders' Equity:

Effects of inflation - The effects of inflation on stockholders' equity at June 30, 2006 are as follows:

	Historical	Restated	Total
	Cost	Amount	
Capital stock	Ps. 2,048,257	Ps. 1,465,448	Ps. 3,513,705
Additional paid-in capital	788,394	143,031	931,425
Premium on Issuance of Shares	20,000	67,625	87,625
Retained earnings	5,068,774	603,817	5,672,591
Effect deferred income tax Bulletin D-4	(662,340)	(243,758)	(906,098)

On May 30, 2006, the Company effected a 3 for 1 stock split. To maintain trading prices in the U.S., the ADS to share ratio was simultaneously adjusted from one ADS representing one share to one ADS representing three shares.

s39 Premium on Issuance of Shares made in March 29, 2001, April 29, 2005 and February 13, 2006.

s44 In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, "Accounting for Income and Asset Taxes and Employee Profit Sharing", which is effective for all fiscal years beginning January 1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and employee profit sharing that result from enterprise activities during the current and preceding years. Simec's long-term liabilities resulted of the adoption of this Bulletin was Ps. 1,780,322 at June 30, 2006 compared to Ps. 1,326,896 at June 30, 2005. The effect on Simec's consolidated statement of income in the first six months of 2006, was an decrease of Ps. 30,409 in the provision for income tax and employee profit sharing compared to a decrease of Ps. 65,320 in the same period of 2005. These provisions do not affect the cash flow of Simec.

DIRECTOR REPORT

CONSOLIDATED

**INFORMATION CONCERNING LIQUIDITY AND CAPITAL RESOURCES AND DEBT OBLIGATIONS WITH
BANKS AND COMMERCIAL CREDITORS**

Liquidity and Capital Resources

At June 30, 2006 Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest at June 30, 2006 was U.S. \$322,798 dollars. At December 31, 2005, Simec's total consolidated debt consisted of U.S. \$38 million (Ps. 413 million), of which \$33.4 million was debt held by GE Capital, \$4.3 million dollars held by the Ohio Department of Development Loan, and U.S. \$302,000 of 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest at December 31, 2005 was U.S. 309,311 dollars).

On July 22, 2005, Simec and its parent company, Industrias CH, S.A. de C.V. ("ICH"), acquired 100% of the stock of PAV Republic, Inc. ("Republic"). Simec, ICH's largest subsidiary, acquired 50.2% of Republic's stock, through its majority owned subsidiary, SimRep Corporation, and ICH purchased the remaining 49.8% through SimRep Corporation. Simec financed its portion of the U.S. \$229 million purchase price principally from a loan it received through ICH that has since been repaid in full. At June 30, 2006, Republic repaid in full its outstanding bank debt, which had maturities through 2009.

Net resources provided by operations were Ps. 692 million in the six-month period ended June 30, 2006 versus Ps. 761 million of net resources provided by operations in the same period of 2005. Net resources used by financing activities were Ps. 287 million in the six-month period ended June 30, 2006 (which amount includes the prepayment of Ps. 409 million (U.S. \$37.7 million) of Republic's bank debt and a capital contribution of certain minority shareholders of Simec of Ps. 122 million) versus Ps. 158 million of net resources used by financing activities in the same period of 2005. Net resources provided by investing activities (to acquire property, plant and equipment and other non-current assets) were Ps. 334 million in the six-month period ended June 30, 2006 versus net resources provided by investing activities of Ps. 35 million in the same period of 2005.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

Six-Month Period Ended June 30, 2006 compared to Six-Month Period Ended June 30, 2005

Net Sales

Net sales of Simec increased 231% to Ps. 11,822 million in the six-month period ended June 30, 2006 (including the net sales generated by the newly acquired plants of Republic of Ps. 8,270 million), compared to Ps. 3,574 million in the same period of 2005. Sales in metric tons of basic steel products increased 162% to 1,369,352 metric tons in the

six-month period ended June 30, 2006 (including 851,752 metric tons generated by the newly acquired plants of Republic) compared to 523,501 metric tons in the same period of 2005. Exports (including sales by U.S. subsidiaries) of basic steel products increased 1,116% to 908,283 metric tons in the six-month period ended June 30, 2006 (including 851,752 metric tons generated by the newly acquired plants of Republic) versus 74,692 metric tons in the same period of 2005. Additionally, Simec sold 1,388 metric tons of billet in the six-month period ended June 30, 2006, compared to 12,870 tons of billet in the same period of 2005. The average price of steel products (excluding the sales of Republic) increased 2% in real terms in the six-month period ended June 30, 2006 versus the same period of 2005.

Direct Cost of Sales

Simec's direct cost of sales increased 313% to Ps. 9,612 million in the six-month period ended June 30, 2006 (including Ps. 7,391 million relating to the newly acquired plants of Republic) compared to Ps. 2,327 million in the same period of 2005. Direct cost of sales as a percentage of net sales was 81% (63% excluding the cost of sales of Republic) in the six-month period ended June 30, 2006 compared to 65% in the same period of 2005. The average cost of raw materials used to produce steel products (excluding the production of Republic) decreased 2% in real terms in the six-month period ended June 30, 2006 versus the same period of 2005, primarily as a result of decreases in the price of scrap and certain other raw materials.

Marginal Profit

Simec's marginal profit increased 77% to Ps. 2,210 million in the six-month period ended June 30, 2006 (including Ps. 879 million relating to the newly acquired plants of Republic) compared to Ps. 1,247 million in the same period of 2005. As a percentage of net sales, marginal profit was 19% (37% excluding the marginal profit of Republic) in the six-month period ended June 30, 2006 compared to 35% in the same period of 2005.

Indirect Manufacturing, Selling, General and Administrative Expenses

Indirect manufacturing, selling, general, and administrative expenses (which include depreciation and amortization) increased 73% to Ps. 650 million in the six-month period ended June 30, 2006 (including Ps. 299 million relating to the newly acquired plants of Republic) from Ps. 375 million in the same period of 2005; Simec recorded an increase of Ps. 60 million in depreciation and amortization expense, which in the six-month period ended June 30, 2006 was Ps. 191 million (including Ps. 65 million relating to the newly acquired plants of Republic) compared to Ps. 131 million in the same period of 2005.

Operating Income

Simec's operating income increased 79% to Ps. 1,560 million in the six-month period ended June 30, 2006 (including Ps. 580 million relating to the newly acquired plants of Republic) compared to Ps. 872 million in the same period of 2005. Operating income was 13% (28% excluding the operating income of Republic) of net sales in the six-month period ended June 30, 2006 and 24% of net sales in the same period of 2005.

Financial Income (Expense)

Simec recorded financial income of Ps. 25 million in the six-month period ended June 30, 2006 compared to financial expense of Ps. 35 million in the same period of 2005. Simec recorded an exchange gain of approximately Ps. 19 million in the six-month period ended June 30, 2006 compared to an exchange loss of Ps. 36 million in the same period of 2005, reflecting a 5.7% decrease in the value of the peso versus the dollar in the six-month period ended June 30, 2006 compared to a 3.7% increase in the value of the peso versus the dollar in the same period of 2005. Net interest income was Ps. 15 million in the six-month period ended June 30, 2006 versus net interest income of Ps. 8 million in the same period of 2005. Simec recorded a loss from monetary position of Ps. 9 million in the six-month period ended June 30, 2006 compared to a loss from monetary position of Ps. 7 million in the same period of 2005, reflecting the domestic inflation rate of 0.7% in the six-month period ended June 30, 2006 as compared to 0.8% in the same period of 2005.

Other Income (Expense), Net

Simec recorded other income, net, of Ps. 82 million in the six-month period ended June 30, 2006 (including the amortization of the deferred credit of Ps. 67 million) compared to other income, net, of Ps. 8 million in the same period of 2005.

Income Tax and Employee Profit Sharing

Simec recorded a provision of Ps. 255 million for income tax and employee profit sharing in the six-month period ended June 30, 2006 (including a decrease in the provision of Ps. 30 million with respect to deferred income tax)

compared to a provision of Ps. 244 million in the same period of 2005 (including a decrease in the provision of Ps. 65 million with respect to deferred income tax).

Net Income Before Minority Interest

Simec recorded net income before minority interest of Ps. 1,412 million in the six-month period ended June 30, 2006 compared to net income before minority interest of Ps. 601 million in the same period of 2005.

Minority Interest

Simec recorded minority interest of Ps. 173 million in the six-month period ended June 30, 2006 versus no minority interest recorded in the same period of 2005. The minority interest reflects the 49.8% interest in Republic held by ICH.

Net Income

As a result of the foregoing Simec recorded net income of Ps. 1,239 million in the six-month period of 2006 compared to net income of Ps. 601 million in the same period of 2005.

Pronouncements Applicable to Mexican GAAP

In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, "Accounting for Income and Asset Taxes and Employee Profit Sharing", which is effective for all fiscal years beginning January 1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and employee profit sharing that result from enterprise activities during the current and preceding years. Simec's long-term liability resulting from the adoption of this Bulletin was Ps. 1,780 million at June 30, 2006 compared to Ps. 1,327 million at June 30, 2005. The effect on Simec's consolidated statement of income in the six-month period ended June 30, 2006 was a decrease of Ps. 30 million in the provision for income tax and employee profit sharing compared to a decrease in the provision of Ps. 65 million in the same period of 2005. These provisions do not affect the cash flow of Simec.

STOCK EXCHANGE CODE: **SIMEC**

QUARTER: YEAR:
 2 **2006**

GRUPO SIMEC, S.A. DE C.V.

FINANCIAL STATEMENT NOTES

CONSOLIDATED

(1) Operations preparation bases and summary of significant accounting policies:

Grupo Simec, S.A. de C.V. and its Subsidiaries ("the Company") are subsidiaries of Industrias CH, S.A. de C.V. ("ICH"), and their main activities consist of the manufacturing and sale of steel products primarily destined for the construction sector of Mexico and other countries.

Significant accounting policies and practices followed by the Companies which affect the principal captions of the financial statements are described below:

a. Financial statement presentation - The consolidated financial statements have been prepared in accordance with principles generally accepted in Mexico, which include the recognition of the effects of inflation on the financial information and the presentation in constant Mexican pesos.

b. Principles of Consolidation - As part of the financial debt restructuring agreement into during 1997, Compañía Siderúrgica de Guadalajara, S.A. de C.V. ("CSG") assumed all of the debt of the Company in return for an equity interest in its subsidiaries. As a result of the above, the Company is the principal shareholder of CSG, and CSG is the principal shareholder of the other subsidiaries that Grupo Simec, S.A. de C.V. ("Simec") controlled before the restructuring.

The main subsidiaries of CSG are the following:

- Compañía Siderúrgica de California, S.A. de C.V.
- Industrias del Acero y del Alambre, S.A. de C.V.
- Pacific Steel Inc.
- SimRep Corporation and PAV Republic and Subsidiaries

All significant intercompany balances and transactions have been eliminated in consolidation.

c. Cash and cash equivalents - The Company considers short-term investments with original maturities not greater than three months to be cash equivalent. Cash equivalents include temporary investments and Mexican Government Treasury Bonds, and are stated at market value, which approximates cost plus earned interest. Any increase in market value is credited to operations for the period.

d. Inventories - The inventories are originally stated at average cost and subsequently adjusted to replacement value at the balance sheet date. The replacement values do not exceed market and are determined as follows:

Billet finished goods and work in process - At the latest production cost for the month.

Raw materials - According to purchase prices prevailing in the market at the balance sheet date.

Materials, supplies and rollers - At historical cost, restated by applying the steel industry inflation index.

The Company presents as non-current inventories the rollers and spare parts, which according to historical data and production trends will not be used within a one-year period.

e. Derivative financial instruments - The Company is using derivative financial instruments for hedging risks associated with natural gas prices and conducted studies on historical consumption, future requirements and commitments; thus it avoided exposure to risks other than the normal operating risks. Management of the Company examines its financial risks by continually analyzing price, credit and liquidity risks.

The Company uses futures contracts for hedging risks from fluctuations in natural gas prices, which are based on demand and supply at the principal international markets.

As applicable, the Company recognized the fair value of instruments either as liabilities or assets. Such fair value and thus, the value of these assets or liabilities were restated at each month's-end. The Company opted for the early adoption of Bulletin C-10 "Derivative Financial Instruments and Hedging"; therefore, at December 31, 2003 the fair value of natural gas in force during 2004, 2005 and 2006 and which effective portions will not be offset against the asset risks until consumed, were recognized within the comprehensive income account in stockholders' equity.

f. Property, plant and equipment - Property, plant and equipment of domestic origin are restated by using factors derived from The National Consumer Price Index ("NCPI") from the date of their acquisition, and imported machinery and equipment are restated by applying devaluation and inflation factors of the country of origin. Depreciation recorded in the consolidated statement of income (loss) is computed based upon the estimated useful life and the restated cost of each asset. In addition, Financial expense incurred during the construction period is capitalized as construction in progress. The capitalized amounts are restated using a factor derived from the NCPI cumulative from the date of capitalization through period-end and are amortized over the average depreciation period of the corresponding assets. The estimated useful lives of assets as of June 30, 2006 are as follows:

	<u>Years</u>
Buildings	15 to 50
Machinery and equipment	10 to 40
Buildings and improvements (Republic)	10 to 25
Land improvements (Republic)	5 to 25
Machinery and equipment (Republic)	5 to 20

g. Other assets - Organization and pre-operating expenses are capitalized and restated using a factor derived from the NCPI cumulative from the date of generation through period-end, and their amortization is calculated by the straight-line method over a period of 20 years.

h. Seniority premiums and severance payments - According to Federal Labor Law, employees are entitled to seniority premiums after fifteen years or more of services. These premiums are recognized as expenses in the years in which the services are rendered, using actuarial calculations based on the projected unit credit method, and since 1996 by applying real interest and salary increases.

Any other payments to which employees may be entitled in case of separation, disability or death, are charged to operations in the period in which they become payable.

i. Pension plan - Until 1995, the Company provided pension benefits for all personnel with a minimum of 10 years of service and 35 years of age. The Company had established an irrevocable trust for its contributions, which were based on actuarial calculations. In December 1995, the board of directors of the Company, in agreement with the trade union, discontinued these benefits and related contributions to the trust fund. This decision was made because of the new Mexican pension fund system, Administradoras de Fondos para el Retiro, which establishes similar benefits for the employees. The balance of the trust fund will be applied to the retirement benefits of qualifying employees until the fund is exhausted due to the irrevocable status of the fund.

The Company does not have any contractual obligation regarding the payment of pensions of retirements.

j. Cost of sales - Cost of sales related to sales of inventory items is recorded at standard cost, which approximates the replacement cost at the date of sale.

k. Income tax and employee profit sharing - In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, "Accounting for Income and Asset Taxes and Employee Profit Sharing", which is effective for all fiscal years beginning January 1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and employee profit sharing that result from enterprise activities during the current and preceding years.

The Company and its subsidiaries are included in the consolidated tax returns of the company's parent.

l. Foreign currency transactions and exchange differences - All transactions in foreign currency are recorded at the exchange rates prevailing on the date of their execution or liquidation. Foreign currency denominated assets and liabilities are translated at the exchange rates prevailing at the balance sheet date. Any exchange differences incurred with regard to assets or liabilities denominated in foreign currency are charged to operations of the period and are included in financial income (expense) in the accompanying consolidated statements of income (loss).

For consolidation purposes, the financial statements of the subsidiaries abroad, SimRep and subsidiaries, Pacific Steel and Undershaft Investment, were translated into pesos in conformity with Mexican accounting Bulletin B-15, Transactions in Foreign Currency and Translation of Financial Statements of Foreign Operations.

The subsidiary SimRep was considered as a foreign entity for translation purposes; therefore the financial statements as reported by the subsidiary abroad were adjusted to conform with Mexican GAAP, which includes the recognition of the effects of inflation as required by Mexican accounting Bulletin B-10, applying inflation adjustment factors derived from the U.S. Consumer Price Index (CPI) published by the U.S. labor department, The financial information already restated to include inflationary effects, is translated to Mexican pesos as follows:

- By applying the prevailing exchange rate at the consolidated balance sheet date for monetary and non-monetary assets and liabilities.
- By applying the prevailing exchange rate for stockholders' equity accounts, at the time capital contributions were made and earnings were generated.
- By applying the prevailing exchange rate at the consolidated balance sheet date for revenues and expenses during the reporting period.
- The related effect of translation is recorded in stockholders' equity under the caption Equity adjustments for non monetary assets.
- The resulting amounts were restated applying adjustment factors derived from the NCPI, in conformity with Mexican accounting Bulletin B-10.

The subsidiaries Pacific Steel and Undershaft Investment, were considered an "integral part of the operations" of the Company; and the financial statements of such subsidiaries were translated into Mexican pesos as follows:

- By applying the prevailing exchange rate at the consolidated balance sheet date for monetary items.
- By applying the prevailing exchange rate at the time the non-monetary assets and capital are generated, and the weighted average exchange rate of the period for income statement items.
- The related effect of translation is recorded in the statement of operations as part of the caption Comprehensive financing cost.
- The resulting amounts were restated applying adjustment factors derived from the Mexican NCPI, in conformity with Mexican accounting Bulletin B-10.

m. Geographic concentration of credit risk - The Company sells its products primarily to distributors for the construction industry with no specific geographic concentration. Additionally, no single customer accounted for a significant amount of the Company's sales, and there were no significant accounts receivable from a single customer or affiliate at June 30, 2006 and 2005. The Company performs evaluations of its customers' credit histories and establishes an allowance for doubtful accounts based upon the credit risk of specific customers and historical trends.

n. Other income (expenses) - Other income (expenses) shown in the consolidated statements of operations primarily includes other financial operations.

o. Gain on monetary position - The gain on monetary position in the consolidated statements of income (loss) is determined by applying to net monetary assets or liabilities at the beginning of each month the factor of inflation derived from the NCPI and is restated at period-end with the corresponding factor.

p. Restatement of capital stock and retained earnings (losses) - This is determined by multiplying capital stock contributions and retained earnings (losses) by factors derived from the NCPI, which measure the cumulative inflation from the date when capital stock contributions were made and earnings (losses) were generated, through the latest period-end.

q. Effect of restatement of stockholders' equity - The effect resulting from restating stockholders' equity includes the accumulated effect from holding non-monetary assets, which represents the change in the specific price level of those assets compared to the change in the NCPI.

(2) Financial Debt:

At June 30, 2006 Simec's total consolidated debt consisted of U.S. \$302,000 of 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest at June 30, 2006 was U.S. \$322,798 dollars. At December 31, 2005, Simec's total consolidated debt consisted of U.S. \$38 million (Ps. 413 million), of which \$33.4 million was debt held by GE Capital, \$4.3 million dollars held by the Ohio Department of Development Loan, and U.S. \$302,000 of 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest at December 31, 2005 was U.S. 309,311 dollars).

(3) Commitments and contingent liabilities:

a. Pacific Steel, Inc. (a wholly-owned subsidiary located in the U.S.A.) has been named in various claims and suits relating to the generation, storage, transport, disposal and cleanup of materials classified as hazardous waste. The Company has accrued approximately Ps. 14,712 (U.S. \$1,290,843) at June 30, 2006, (included in accrued liabilities) relating to these actions; the reduction of this reserve from previous levels reflects clean-up activities undertaken by Simec. Management believes the ultimate liability with respect to this matter will not exceed the amounts that have been accrued.

b. The Company is subject to various other legal proceeding and claims, which have arisen, in the ordinary course of its business. It is the opinion of management that their ultimate resolution will not have a material adverse effect on the Company's consolidated financial position or consolidated results of operations.

c. Compañía Siderúrgica de Guadalajara, S.A. de C.V. has entered into a gas and liquid oxygen purchase agreement with Praxair de México, S.A. de C.V., under which it is committed to acquire monthly over a fifteen-year period beginning January 1, 1989, a certain amount of product. At present required purchases amount to Ps. 1,464 per month.

Foreign currency transactions and exchange differences - All transactions in foreign currency are recorded at the exchange rates prevailing on the date of their execution or liquidation. Foreign currency denominated assets and liabilities are translated at the exchange rates prevailing at the balance sheet date. Any exchange differences incurred with regard to assets or liabilities denominated in foreign currency are charged to operations of the period and are included in financial income (expense) in the accompanying consolidated statements of income (loss).

The financial statements of foreign subsidiaries are translated into Mexican pesos in conformity with Bulletin B-15 "Transactions in Foreign Currency and Translation of Financial Statements of Foreign Operations".

Pacific Steel and Undershaft investments are considered to be "integrated foreign operations", as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

- Monetary items at the exchange rate at the balance sheet date.
- Non-monetary items and stockholders' equity at the exchange rate prevailing at the date the transactions occurred.
 - Income and expense items at an appropriate average exchange rate.
- The resulting foreign currency translation differences are included in the financial income (expense) in the statement of income (loss).
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.

SimRep and subsidiaries are considered to be "foreign operations", as defined in Bulletin B-15, and accordingly such financial statements were translated as follows:

- Monetary and non-monetary items at the exchange rate at the balance sheet date.
 - Income and expense items at the exchange rate at the balance sheet date.
- The resulting foreign currency translation differences are included in the stockholders' equity.
- All resulting Mexican peso amounts are restated for the effects of inflation in accordance with the dispositions of Bulletin B-10 using the NCPI, where such effects are considered significant.
