FOR IMMEDIATE RELEASE

**WALTER HEWLETT COMMENTS ON
GROWING PUBLIC OPPOSITION TO MERGER**

Palo Alto, CA, March 15, 2002 Walter B. Hewlett, on behalf of The William R. Hewlett Revocable Trust and its trustees, today made the following statement regarding the decision to vote against the merger of Hewlett-Packard (NYSE: HWP) with Compaq (NYSE: CPQ) by The New York State Teachers Retirement System, the Public Employees Retirement Association of Colorado and Parnassus Investments. These announcements follow statements of opposition made earlier today by The New York State Common Retirement System Fund and the State of Michigan Retirement Systems:

We continue to believe that the proposed Compaq merger is *not* in the best interests of HP stockholders and has already destroyed stockholder value and would further destroy value if the transaction is approved. In addition to the significant integration risk of the proposed merger, HP would be selling 35% of its crown jewel Imaging & Printing business to acquire a much worse business PCs and commodity computing.

We are delighted that the New York State Teachers Retirement System, the Public Employees Retirement Association of Colorado and Parnassus Investments have announced their intention to vote against the proposed Compaq merger. Together, these institutions control almost 8.5 million HP shares.

This morning, The New York State Common Retirement System Fund and the State of Michigan Retirement Systems also announced their decisions to vote against the merger. We would like to thank all those stockholders, customers and employees who have publicly or privately supported us in opposing this transaction.

We are also pleased that today the LEX column of *The Financial Times* stated that HP shareholders would be advised to vote no next week. . . The potential cost synergies are attractive. But the execution risk is huge. And HP shareholders are being asked to pay 47 times Compaq's 2002 earnings for the privilege. . . Were Compaq the perfect partner, it might be worth taking the risk. Yet buying Compaq will turn HP into the world's biggest PC manufacturer.

Additionally, IDG Computerworld yesterday said that the proposed Hewlett-Packard buy-out of Compaq Computer Corp. is a merger of desperation. Citing results of two Computerworld surveys of IT leaders, IDG warn[ed] that HP/Compaq customers stand to be [the] biggest losers in HP/Compaq mega-merger.

The significant public opposition and the real opportunity to stop this transaction is a clear victory not just for HP stockholders, but for all stockholders. Together, we will demonstrate that accountability is not a platitude and that stockholders, the true owners of a company, can and should have a say in the decisions that are made by management and the Board.

We urge you to vote against the proposed merger by signing, dating and mailing your **GREEN** proxy card today. **Only your latest dated proxy counts you have every right to vote against the merger now by returning a GREEN proxy card even if you have previously delivered another proxy card.**
