Chairman's  
LETTER TO SHAREHOLDERS

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

Photo of: Timothy R. Schwertfeger

Timothy R. Schwertfeger

Chairman of the Board

It is with a variety of emotions that I write my last letter to Nuveen Fund shareholders. For a dozen years, it has been my privilege to communicate periodically with you through these annual and semi-annual reports about the performance and uses of your Fund. Over that time, I've tried to emphasize the central role that quality municipal bonds can play in creating attractive opportunities for current tax-free income, long-term return and portfolio diversification. I firmly believe that all our Fund shareholders, working in conjunction with a trusted financial advisor, have the potential to reach their financial objectives by using Nuveen Funds as a core component of a well-balanced portfolio.

As I noted in your Fund's last shareholder report, Nuveen Investments was acquired in November 2007 by a group led by Madison Dearborn Partners, LLC. While this event had no impact on the investment objectives, portfolio management strategies or dividend policies of your Fund, it did provide a convenient point to begin implementing a long-planned transition in the senior management team at Nuveen. As a part of this process, I will be leaving the Board of the Nuveen Funds on June 30, 2008.

In addition, Nuveen and your Fund's Board determined that Fund shareholders would be best served by having an independent director serve as the new chairman of the Fund Board. Therefore, I am very excited and pleased to report that I will be succeeded as chairman of your Nuveen Fund Board by Robert Bremner. A member of the Board since 1997, Bob is a management consultant and private investor not affiliated with Nuveen. Over the years, he has played a critical role on the Fund Board, most recently as the lead independent director, and I know Bob and the other Board members are determined to maintain the standards and commitment to quality that you have come to expect from your Nuveen investment.

Please take the time to review the Portfolio Managers' Comments, the Dividend and Share Price Information, and the Performance Overview sections of this report. All of us are grateful that you have chosen Nuveen Investments as a partner as you pursue your financial goals, and, on behalf of Bob Bremner and the other members of your Fund's Board, let me say we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Portfolio Managers' COMMENTS

Nuveen Investments Municipal Closed-End Funds | NUV, NMI

Portfolio managers Tom Spalding, John Miller, and Johnathan Wilhelm review key

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

investment strategies and the six-month performance of NUV and NMI. With 31 years of investment experience at Nuveen, Tom has managed NUV since its inception in 1987. John, who has 15 years of municipal market experience, including 12 years with Nuveen, assumed portfolio management responsibility for NMI in 2001. In December 2007, Johnathan, who came to Nuveen in 2001 with 18 years of industry experience, joined John as co-portfolio manager of NMI.

WHAT KEY STRATEGIES WERE USED TO MANAGE NUV AND NMI DURING THE SIX-MONTH REPORTING PERIOD ENDED APRIL 30, 2008?

During this six-month period, the municipal market experienced a great deal of volatility, as issues related to the sub-prime mortgage industry had an indirect, but important, influence on the municipal market's performance. Other major factors influencing the municipal market included tighter liquidity stemming from problems in the credit markets, a flight to quality driven by dislocations in the financial markets, and continued uncertainty about municipal bond insurers. We sought to capitalize on this turbulent environment by continuing to focus on relative value, using a fundamental approach to find undervalued sectors and individual credits with the potential to perform well over the long term.

As the market discounted bonds that were out of favor, such as those with lower credit quality and higher yields, we took advantage of opportunities that we considered overlooked and undervalued to selectively add these types of bonds to our portfolios, especially bonds rated BBB. In addition, we believed that the steepening municipal yield curve began to offer better reward opportunities for purchases made further out on the curve. As a result, many of the additions to our portfolios emphasized longer maturities. Among the credits we added to the Funds were uninsured health care bonds, marking the first time in a while that we found bonds in this sector at attractive levels relative to their credit quality. NUV also purchased zero coupon bonds, which we believed offered good long-term potential at discounted prices. In NMI, we added Ohio bonds issued by the Buckeye Tobacco Settlement Financing Authority as well as non-rated bonds issued for the Tolomato (Florida) community development district (CDD).

Discussions of specific investments are for illustrative purposes only and are not intended as recommendations of individual investments. The views expressed in this commentary represent those of the portfolio managers as of the date of this report and are subject to change at any time, based on market conditions and other factors. The Funds disclaim any obligation to advise shareholders of such changes.

4

Although the market for these CDD, or land-secured, offerings was under pressure due to the housing market slowdown, we used a bottom-up approach to find the strongest credits at attractive prices, adding both yield and price appreciation potential to our portfolio.

To generate cash for purchases, we selectively sold some holdings with shorter durations,<sup>1</sup> including pre-refunded bonds,<sup>2</sup> at attractive prices resulting from high demand. Selling shorter duration bonds and reinvesting further out on the yield curve also helped to improve the Funds' overall call protection profiles. In NMI, the majority of our new purchases were funded with cash generated by bond calls.

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

As mentioned earlier, over the course of the entire reporting period, we saw the municipal yield curve steepen, as municipal bond interest rates at the short end of the curve declined and longer rates rose. In this environment, we continued to emphasize a disciplined approach to duration management. As part of this strategy, we use inverse floating rate securities,<sup>3</sup> a type of derivative financial instrument, in both NUV and NMI. Inverse floaters typically provide the dual benefit of bringing the durations of the Funds closer to our strategic target and enhancing their income-generation capabilities.

### HOW DID THE FUNDS PERFORM?

Individual results for these Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Total Returns on Net Asset Value\*  
For periods ended 4/30/08

	Six-Month	1-Year	5-Year	10-Year
NUV	-0.95%	-0.60%	4.75%	5.00%
NMI	-0.15%	0.06%	4.88%	4.29%
Lipper General and Insured Unleveraged Municipal Debt Funds Average(4)	-0.70%	-0.40%	4.39%	4.59%
Lehman Brothers Municipal Bond Index(5)	1.47%	2.79%	4.03%	5.16%

\*Six-month returns are cumulative; returns for one-year, five-year, and ten-year are annualized.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.

- (1) Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.
- (2) Advance refundings, also known as pre-refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.
- (3) An inverse floating rate security is a financial instrument designed to pay long-term tax-exempt interest at a rate that varies inversely with a short-term tax-exempt interest rate index. For the Nuveen Funds, the index typically used is the Securities Industry and Financial Markets (SIFM) Municipal Swap Index (previously referred to as the Bond Market Association Index or BMA). Inverse floaters, including those inverse floating rate securities in which the Funds invested during this reporting period, are further defined within the Notes to Financial Statements and Glossary of Terms Used in This Report sections of this shareholder report.

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

- (4) The Lipper General and Insured Unleveraged Municipal Debt Funds Average is calculated using the returns of all closed-end funds in this category for each period as follows: six months, 8; 1 year, 8; 5 years, 7; and 10 years, 7. Fund and Lipper returns assume reinvestment of dividends.
- (5) The Lehman Brothers Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.

5

For the six months ended April 30, 2008, the cumulative returns on net asset value (NAV) for NUV and NMI underperformed the return on the Lehman Brothers Municipal Bond Index. The six-month return for NMI outperformed the return for the Lipper General and Insured Unleveraged Municipal Debt Funds Average, while NUV trailed this average.

Key factors that influenced the Funds' returns included yield curve and duration positioning, the use of derivatives, credit exposure and sector allocations, and holdings of bonds backed by certain municipal bond insurers.

During this six-month period, bonds in the Lehman Brothers Municipal Bond Index with maturities of eight years or less, especially those maturing in two to six years, benefited the most from changes in the interest rate environment. As a result, these shorter maturity bonds generally outperformed credits with longer maturities. Bonds having the longest maturities (22 years and longer) posted the worst returns. As previously noted, one of our strategies during this period focused on adding longer maturity bonds to our portfolios as the yield curve steepened, based on our belief that these bonds offer good long-term potential. This purchase activity helped to extend the Funds' durations, which generally had a negative impact on performance. However, despite extending its duration, NMI remained short of our strategic duration target, which meant that its duration positioning was more beneficial during this period.

As mentioned earlier, both NUV and NMI used inverse floaters as part of our duration management strategies. These inverse floaters negatively impacted performance due to the fact that they effectively increased the Funds' exposure to longer maturity bonds during a period when shorter maturities were in favor in the market. However, the inverse floaters also benefited the Funds by helping to support their income streams.

Generally, bonds rated BBB or below posted poor returns. The underperformance of the lower credit quality sectors was largely the result of risk-averse investors' flight to quality as disruptions in the financial and housing markets deepened. As of April 30, 2008, NUV had allocated approximately 14% of its portfolio to bonds rated BBB and 2% to non-rated bonds. NMI had heavier exposure to these two categories, with 30% allocated to BBB rated bonds and 11% to non-rated bonds. Both Funds had allocated

6

7% to subinvestment-grade bonds (those rated BB or lower). The Funds' weightings in these credit quality sectors were higher than those of the Lehman Brothers Municipal Bond Index and the negative impact of this greater exposure to credit risk accounted for some of the performance differential between these Funds and

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

the index.

In general, bonds that carried any credit risk, regardless of sector, tended to perform poorly. Revenue bonds as a whole and especially the industrial development and health care sectors that had ranked among the top performers in the Lehman Brothers Municipal Bond Index over the past few years, underperformed the general municipal market. The housing sector also performed poorly, as did bonds backed by the 1998 master tobacco settlement agreement. Among the worst performers in the market were zero coupon bonds, which have longer durations and greater exposure to interest rate risk. The performance of NUV, which had a large position in zero coupon bonds going into this period, was adversely affected by these holdings.

Sectors of the market that generally contributed positively to the Funds' performance included general obligation bonds, water and sewer, electric utilities and special tax issues. Pre-refunded bonds performed exceptionally well, due primarily to their shorter effective maturities and higher credit quality. Of these two Funds, NUV had a significantly heavier weighting of bonds that had been advance refunded. NMI continued to see positive contributions from advance refunding activity, which benefited the Fund through price appreciation and enhanced credit quality. Some of the larger advance refundings included bonds issued by California's Golden State Tobacco Securitization Corporation.

Another factor that had an impact on the performance of these Funds was their position in bonds backed by certain municipal insurers. As concern increased about the balance sheets of municipal bond insurers, prices on bonds insured by these companies declined, detracting from the performance of the Funds. On the whole, the holdings of all of our Funds continued to be well diversified not only between insured and uninsured bonds, but also within the insured bond category.

7

### RECENT DEVELOPMENTS REGARDING BOND INSURANCE COMPANIES AND FUND POLICY CHANGES

The portfolios of investments reflect the ratings on certain bonds insured by AMBAC, FGIC, MBIA and XLCA as of April 30, 2008. During the period covered by this report, at least one rating agency reduced the rating for AMBAC-insured and MBIA-insured bonds to AA and at least one rating agency further reduced the ratings for FGIC-insured and XLCA-insured bonds to BB. Subsequent to April 30, 2008, and at the time this report was prepared, at least one rating agency further reduced the rating for MBIA-insured bonds to A. As of April 30, 2008, at least one rating agency has placed XLCA-insured bonds on "negative credit watch" and one or more rating agencies have placed each of these insurers on "negative outlook", which may presage one or more rating reductions for such insurer or insurers in the future. If one or more insurers' ratings are reduced by these rating agencies, it would likely reduce the effective rating of many of the bonds insured by that insurer or insurers. It is important to note that municipal bonds historically have had a very low rate of default.

### RECENT DEVELOPMENTS IN THE AUCTION RATE PREFERRED MARKETS

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the preferred shares issued by these Funds than there were offers to buy. This meant that these auctions "failed to clear" and that many or all auction preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction preferred shares did not lower the credit quality of these shares, and auction preferred shareholders unable to sell their shares received distributions at the

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

"maximum rate" applicable to failed auctions as calculated in accordance with the pre-established terms of the auction preferred shares. At the time this report was prepared, the Funds' managers could not predict when future auctions might succeed in attracting sufficient buyers for the shares offered, if ever. The Funds' managers are working diligently to refund the auction preferred shares, and have made progress in these efforts, but at present there is no assurance that these efforts will succeed. These developments generally do not affect the management or investment policies of these Funds. However, one implication of these auction failures for common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future common share earnings may be lower than they otherwise would have been.

For current, up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at:

<http://www.nuveen.com/ResourceCenter/AuctionRatePreferred.aspx>.

8

### Dividend and Share Price INFORMATION

The dividends of NUV and NMI remained stable throughout the six-month reporting period ended April 30, 2008.

Due to capital gains generated by normal portfolio activity, common shareholders of NUV received a long-term capital gains distribution of \$0.0283 per share and an ordinary income distribution of \$0.0017 per share at the end of December 2007.

Both NUV and NMI seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of April 30, 2008, NUV and NMI had positive UNII balances, based upon our best estimate, for tax purposes and positive UNII balances for financial statement purposes.

As of April 30, 2008, NUV was trading at a premium of 2.25% to its NAV, and NMI was trading at a share price equal to its NAV. For the six months ended April 30, 2008, the average discounts for NUV and NMI were -2.64% and -1.35%, respectively.

Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
- Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of 28%. When comparing the Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

Floating Rate Obligations - (3.3)%

Other Assets Less Liabilities - 1.2%

Net Assets - 100%

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Optional Call Provisions: Dates (month and year) and prices

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

- (3) Ratings: Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by AMBAC, FGIC, MBIA and XLCA as of April 30, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.

N/R Not rated.

(ETM) Escrowed to maturity.

(IF) Inverse floating rate investment.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

Notes to  
FINANCIAL STATEMENTS (Unaudited)

### 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds covered in this report and their corresponding New York Stock Exchange symbols are Nuveen Municipal Value Fund, Inc. (NUV) and Nuveen Municipal Income Fund, Inc. (NMI) (collectively, the "Funds"). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

#### Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service may establish fair value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. If the pricing service is unable to supply a price for a municipal bond, each Fund may use a market quote provided by major broker/dealers in such investments. If it is determined that the market price for an investment is unavailable or inappropriate, the Board of Directors of the Funds, or its designee, may establish fair value in accordance with procedures established in good faith by the Board of Directors. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.

#### Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At April 30, 2008, there were no such outstanding purchase commitments in either of the Funds.

### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Effective April 30, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the affirmative evaluation of tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether it is "more-likely-than-not" (i.e., a greater than 50-percent likelihood) of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold may result in a tax benefit or expense in the current year.

35

### Notes to FINANCIAL STATEMENTS (continued) (Unaudited)

Implementation of FIN 48 required management of the Funds to analyze all open tax years, as defined by the statute of limitations, for all major jurisdictions, which includes federal and certain states. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). The Funds have no examinations in progress.

For all open tax years and all major taxing jurisdictions through the end of the reporting period, management of the Funds has reviewed all tax positions taken or expected to be taken in the preparation of the Funds' tax returns and concluded the adoption of FIN 48 resulted in no impact to the Funds' net assets or results of operations as of and during the six months ended April 30, 2008.

The Funds are also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

### Dividends and Distributions to Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

### Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). A Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates, as well as any shortfalls in interest cash flows. The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as an "Inverse floating rate investment". An investment in a self-deposited inverse floater, recourse trust or credit recovery swap is accounted for as a financing transaction in accordance with Statement of Financial Accounting Standards (SFAS) No. 140 "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities". In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as an "Underlying bond of an inverse floating rate trust", with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

of Assets and Liabilities. In addition, the Fund reflects in Investment Income the entire earnings

36

of the underlying bond and accounts for the related interest paid to the holders of the short-term floating rate certificates as "Interest expense on floating rate obligations" in the Statement of Operations.

During the six months ended April 30, 2008, each Fund invested in externally deposited inverse floaters and/or self-deposited inverse floaters.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the six months ended April 30, 2008, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Average floating rate obligations	\$27,748,352	\$3,294,341
Average annual interest rate and fees	2.81%	2.88%

### Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

### Indemnifications

Under the Funds' organizational documents, their Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

### Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. Such securities are included in the Portfolios of Investments with a 0.000% coupon rate in their description. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

2. FUND SHARES

Transactions in shares were as follows:

	MUNICIPAL VALUE (NUV)		MUNIC
	SIX MONTHS ENDED	YEAR ENDED	SIX MO E
	4/30/08	10/31/07	4/3
Shares issued to shareholders			
due to reinvestment of distributions	178,602	87,922	6

3. INVESTMENT TRANSACTIONS

Purchases and sales (including maturities but excluding short-term investments) during the six months ended April 30, 2008, were as follows:

	MUNIC VALUE (
Purchases	\$168,911
Sales and maturities	176,611

Notes to FINANCIAL STATEMENTS (continued) (Unaudited)

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investments transactions and the treatment of investments in inverse floating rate transactions subject to SFAS No. 140. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At April 30, 2008, the cost of investments was as follows:

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Cost of investments	\$1,814,152,033	\$81,258,731

Gross unrealized appreciation and gross unrealized depreciation of investments at April 30, 2008, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Gross unrealized:		
Appreciation	\$105,851,075	\$3,885,114
Depreciation	(37,516,531)	(1,737,298)
Net unrealized appreciation (depreciation) of investments	\$ 68,334,544	\$2,147,816

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at October 31, 2007, the Funds' last tax year end, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Undistributed net tax-exempt income *	\$6,237,877	\$529,435
Undistributed net ordinary income **	333,473	--
Undistributed net long-term capital gains	5,504,256	--

\* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on October 1, 2007, paid on November 1, 2007.

\*\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' last tax year ended October 31, 2007, was designated for purposes of the dividends paid deduction as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Distributions from net tax-exempt income	\$91,261,636	\$4,090,431
Distributions from net ordinary income **	132,881	62,951
Distributions from net long-term capital gains	5,325,986	--

\*\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At October 31, 2007, the Funds' last tax year end, Municipal Income (NMI) had unused capital loss carryforwards of \$7,947,268 available for federal income tax purposes to be applied against future capital gains, if any. If not applied, \$6,864,744, \$916,759 and \$165,765 of the carryforward will expire in the years ended October 31, 2011, 2012 and 2013, respectively.

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

### 5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. ("Nuveen"), a specific fund-level component, based only on the amount of assets within each individual Fund, and for Municipal Value (NUV) a gross interest income component. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

Municipal Value's (NUV) annual fund-level fee, payable monthly, at the rates set forth below, are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL VALUE (NUV) FUND-LEVEL FEE RATE
For the first \$500 million	.1500%
For the next \$500 million	.1250
For net assets over \$1 billion	.1000

In addition, Municipal Value (NUV) pays an annual management fee, payable monthly, based on gross interest income (excluding interest on bonds underlying a "self-deposited inverse floater" trust that is attributed to the Fund over and above the net interest earned on the inverse floater itself) as follows:

GROSS INTEREST INCOME	MUNICIPAL VALUE (NUV) GROSS INCOME FEE RATE
For the first \$50 million	4.125%
For the next \$50 million	4.000
For gross income over \$100 million	3.875

Municipal Income's (NMI) annual fund-level fee, payable monthly, at the rates set forth below, are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL INCOME (NMI) FUND-LEVEL FEE RATE
For the first \$125 million	.4500%
For the next \$125 million	.4375
For the next \$250 million	.4250
For the next \$500 million	.4125
For the next \$1 billion	.4000
For the next \$3 billion	.3875
For net assets over \$5 billion	.3750

The annual complex-level fee, payable monthly, which is additive to the fund-level fee and Municipal Value's (NUV) gross interest income fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of April 30, 2008, the complex-level fee rate was .1855%.

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

Notes to  
FINANCIAL STATEMENTS (continued) (Unaudited)

The complex-level fee schedule is as follows:

COMPLEX-LEVEL ASSET BREAKPOINT LEVEL (1)	EFFECTIVE RATE AT BREAKPOINT LEVEL
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to preferred stock issued by or borrowings by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors has adopted a deferred compensation plan for independent Directors that enables Directors to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

### 6. NEW ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this standard relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of April 30, 2008, management does not believe the adoption of SFAS No. 157 will impact the financial statement amounts; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements included within the Statement of Operations for the period.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities." This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. As of April 30, 2008, management does not believe the adoption of SFAS No. 161 will impact the financial statement amounts; however, additional footnote disclosures may be required about the use of derivative instruments and hedging items.

7. SUBSEQUENT EVENTS

Distributions to Shareholders

The Funds declared dividend distributions from their tax-exempt net investment income which were paid on June 2, 2008, to shareholders of record on May 15, 2008, as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Dividend per share	\$ .0390	\$ .0420

Financial HIGHLIGHTS (Unaudited)

\* Total Return on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period takes place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return on Net Asset Value is the combination of changes in net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

\*\* After custodian fee credit and legal fee refund, where applicable.

\*\*\* Annualized.

(a) Interest expense arises from the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully

Reinvest Automatically  
EASILY and CONVENIENTLY

NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

### NUVEEN CLOSED-END FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

CALL TODAY TO START REINVESTING DIVIDENDS AND/OR DISTRIBUTIONS

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of  
TERMS USED in this REPORT

- [ ] AUCTION RATE BOND: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have "failed", with current holders receiving a formula-based interest rate until the next scheduled auction.
- [ ] AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- [ ] AVERAGE EFFECTIVE MATURITY: The average of the number of years to maturity of the bonds in a Fund's portfolio, computed by weighting each bond's time to maturity (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions unless an escrow account has been established to redeem the bond before maturity. The market value weighting for an investment in an inverse floating rate security is the value of the

## Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

portfolio's residual interest in the inverse floating rate trust, and does not include the value of the floating rate securities issued by the trust.

- [ ] **INVERSE FLOATERS:** Inverse floating rate securities are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.
- [ ] **MODIFIED DURATION:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Modified duration is a formula that expresses the measurable change in the value of a security in response to a change in interest rates.
- [ ] **MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.
- [ ] **NET ASSET VALUE (NAV):** A Fund's NAV per share is calculated by subtracting the liabilities of the Fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.
- [ ] **TAXABLE-EQUIVALENT YIELD:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
- [ ] **ZERO COUPON BOND:** A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

Other Useful INFORMATION

QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

### ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

### ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: See Ex-99.CERT attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: See Ex-99.906 CERT attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
