-

**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On September 29, 2005, Cott Corporation (the Company ) announced a plan to realign the management of its Canadian and United States businesses to a North American basis (the Realignment Plan ). Under the new structure, Mark Benadiba, currently the Executive Vice President of Canada and International, will lead North American operations and supply chain functions, and John Dennehy, currently the Vice President of New Business Development for Cott Beverages USA, will lead North American sales and marketing. Gil Arvizu will lead the U.S. sales organization and report to Mr. Dennehy.

The Company anticipates that, in connection with implementing the Realignment Plan, it will record certain pre-tax charges of \$60 to 80 million over the next 12 to 18 months. It is expected that the largest of these charges will be related to asset impairment and that there will also be charges for severance, termination and other costs. The actual amount of the charges and the allocation of these charges to specific categories will depend on the final plan and the performance of the requisite detailed financial analyses.

When the detailed plans are finalized and the requisite analyses have been prepared, the Company will file an amended Form 8-K after making a determination of its estimates or range of estimates of total charges and the allocation of those charges to specific categories.

A copy of the press release announcing the Realignment Plan is filed as Exhibit 99.1 to this report and is incorporated herein by reference.

---
