WAYSIDE TECHNOLOGY GROUP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS

June 30, 2008

1. The accompanying unaudited condensed consolidated financial statements of Wayside Technology Group, Inc. and its Subsidiaries (collectively, the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to product returns, bad debts, inventories, investments, intangible assets, income taxes, contingencies and litigation. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. In the opinion of the Company's management, all adjustments that are of a normal recurring nature, considered necessary for fair presentation, have been included. Actual results may differ from these estimates under different assumptions or conditions. The unaudited consolidated statements of earnings for the interim periods are not necessarily indicative of results for the full year. For further information, refer to the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K filed with the Securities Exchange Commission for the year ended December 31, 2007.

2. In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" ("SFAS No. 162"), which identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles ("GAAP") in the United States. The FASB believes that the GAAP hierarchy should be directed to entities because it is the entity (not its auditor) that is responsible for selecting accounting principles for financial statements that are presented in conformity with GAAP. The Company does not expect the adoption of SFAS No. 162 to have a material effect on its condensed consolidated financial statements.

In June 2008, the FASB issued FASB Staff Position EITF 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities" ("EITF 03-6-1"). EITF 03-6-1 applies to the calculation of earnings per share for share-based payment awards with rights to dividends or dividend equivalents under Statement No. 128, Earnings Per Share. Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents will be considered participating securities and will be included in the computation of earnings per share pursuant to the two-class method. The effective date of EITF 03-6-1 is for financial statements issued for fiscal years beginning after December 15, 2008, and all interim periods within those years. Early adoption is not permitted. Once effective, all prior period earnings per share data presented will be adjusted retrospectively. The Company is currently evaluating the potential impact, if any, the adoption of EITF 03-6-1 may have on its condensed consolidated financial statements.

In December 2007, the Financial Accounting Standards Board ("FASB") issued SFAS No. 141 (revised 2007) "SFAS No. 141." SFAS No. 141 (revised 2007) establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141 (revised 2007) will become effective for the fiscal year beginning after December 15, 2008.

In December 2007, the FASB issued "SFAS No. 160" "Noncontrolling Interests in Consolidated Financial Statements-an amendment of ARB No. 51." SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 will become effective for the fiscal year beginning after December 15, 2008. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In February 2007, the FASB issued Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS No. 159"). SFAS No. 159 allows entities the option to measure eligible financial instruments at fair value as of specified dates. Such election, which may be applied on an instrument by instrument basis, is typically irrevocable once elected. SFAS No. 159 is effective for our Company beginning January 1, 2008, for financial assets and liabilities, as well as for any other assets and liabilities that are carried at fair value on a recurring basis in the financial statements. The adoption of SFAS 159 did not have a material impact on our consolidated financial position, results of operations or cash flows.

3. Assets and liabilities of the Company's Canadian subsidiary have been translated at current exchange rates, and related revenues and expenses have been translated at average rates of exchange in effect during the period. The revenue from our Canadian operations in the first six months of 2008 was \$11.8 million as compared to \$11.5 million for the first six months of 2007. The revenue from our Canadian operations for the second quarter of 2008 was \$5.8 million as compared to \$5.5 million for the second quarter of 2007.

4. Cumulative translation adjustments and unrealized gains (losses) on available-for-sale securities have been classified within accumulated other comprehensive income, which is a separate component of stockholders' equity in accordance with FASB Statement No. 130, "Reporting Comprehensive Income."

5. The Company records revenues from sales transactions when title to products sold passes to the customer. Usual sales terms are FOB shipping point, at which time title and risk of loss has passed to the customer and delivery has occurred. Revenue is recognized in accordance with Statements of Position ("SOP") 97-2 " Software Revenue Recognition," Staff Accounting Bulletin ("SAB") No. 101 and No. 104, "Revenue Recognition" and Emerging Issues Task Force ("EITF") 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent." The majority of the Company's revenues relates to physical products and is recognized on a gross basis with the selling price to the customer recorded as net sales with the acquisition cost of the product to the Company recorded as cost of sales. At the time of sale, the Company also records an estimate for sales returns based on historical experience. Certain software maintenance products, third party services and extended warranties sold by the Company (for which the Company is not the primary obligor) are recognized on a net basis. Accordingly, such revenues are recognized in net sales either at the time of sale or over the contract period, based on the nature of the contract, at the net amount retained by the Company, with no cost of goods sold.

6. Vendor rebates and price protection are recorded when earned as a reduction to cost of sales or merchandise inventory, as applicable. Cooperative reimbursements from vendors, which are earned and available, are recorded in the period the related advertising expenditure is incurred. Cooperative reimbursements are recorded as net sales in accordance with EITF 02-16 "Accounting by a customer (including reseller) for certain consideration received from a vendor."

7. Investments in available-for-sale securities at June 30, 2008 were (in thousands):

	Cost	Market value	Unrealized Loss
U.S. Government Securities	\$9,013	\$9,011	\$(2)
Certificates of Deposit	760	756	(4)
	\$9,773	\$9,767	\$(6)

The cost and market value of the Company's investments at June 30, 2008 by contractual maturity were (in thousands):

	Cost	Estimated Fair Value
Due in one year or less	\$9,773	\$9,767

Investments in available-for-sale securities at December 31, 2007 were (in thousands):

	Cost	Market value	Unrealized Gain
U.S. Government Securities	\$9,633	\$9,641	\$8

The cost and market value of the Company's investments at December 31, 2007 by contractual maturity were (in thousands):

	Cost	Estimated Fair Value
Due in one year or less	\$9,633	\$9,641

8. Balance Sheet Detail - Other Assets (in thousands):

Other assets consisted of the following at June 30, 2008 and December 31, 2007:

	June 30, 2008	December 31, 2007
Accounts Receivable - long-term	\$4,581	\$3,402
Security Deposits	56	56
Trademarks	10	11
Total	\$4,647	\$3,469

Accounts receivable-long-term result from product sales with extended payment terms that are discounted to their present values at the prevailing market rates. In subsequent periods, the accounts receivable are increased to the amounts due and payable from the customers through the accretion of interest income on the unpaid accounts receivable due in future years. The amounts due under these long-term accounts receivable due within one year are reclassified to the current portion of accounts receivable. The current portion of these long-term accounts receivable included in the current portion of accounts receivable at June 30, 2008 and December 31, 2007 is \$3,875 and \$3,702 respectively.

Accounts payable and accrued expenses consist of the following as of June 30, 2008 and December 31, 2007:

	June 30, 2008	December 31, 2007
Trade accounts payable	\$32,826	\$30,597
Other accrued expenses	1,223	1,503
	<u>\$34,049</u>	<u>\$32,100</u>

9. Basic EPS is computed by dividing net income by the weighted average number of shares outstanding during the period. Diluted EPS is computed considering the potentially dilutive effect of outstanding stock options and nonvested shares of restricted stock. A reconciliation of the numerators and denominators of the basic and diluted per share computations follows (in thousands, except per share data):

	Six months ended June 30,		Three months ended June 30,	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Numerator:				
Net income	\$1,452	\$1,949	\$823	\$959
Denominator:				
Weighted average shares (Basic)	4,429	4,380	4,417	4,407
Dilutive effect of outstanding options and nonvested shares of restricted stock	<u>90</u>	<u>307</u>	<u>88</u>	<u>299</u>
Weighted average shares including assumed conversions (Diluted)	4,519	4,687	4,505	4,706
Basic net income per share	\$0.33	\$0.44	\$0.19	\$0.22
Diluted net income per share	\$0.32	\$0.42	\$0.18	\$0.20

The diluted earnings per share calculation for the six months ended June 30, 2008 excluded 55,640 shares related to options as the exercise prices of these options were greater than the weighted average of the closing prices of our Common Stock for each trading day during the quarter ended June 30, 2008, and excluded 293,000 shares of nonvested restricted stock as such shares were not vested as of June 30, 2008. For the six months ended June 30, 2007 no shares were excluded.

10. The Company had two major vendors that accounted for 29.2% and 10.1% of total purchases during the six months ended June 30, 2008 and 31.8% and 10.6%, respectively, for the three months then ended. The Company had one major vendor that accounted for 46.6% and 40.9%, respectively, of total purchases during the six and three months ended June 30, 2007. The Company had one major customer that accounted for 10.2% and 9.6% of total net sales, respectively, during the six and three months ended June 30, 2008, and 13.8% of total net accounts receivable as of June 30, 2008. That same major customer accounted for 13.5% and 7.2% of total net sales, respectively, during the six and three months ended June 30, 2007.

11. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and in various state and foreign jurisdictions. With a few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years prior to 2004. The Company's policy is to recognize interest related to unrecognized tax benefits as interest expense and penalties as operating expenses. Accrued interest is insignificant and there are no penalties accrued at June 30, 2008. The Company believes that it has appropriate support for the income tax positions taken and to be taken on its tax returns and that its accruals for tax liabilities are adequate for all open years based on an assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter.

The provision consists of the following (in thousands):

	Six months ended		Three months ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Current:				
Federal	\$539	\$310	\$323	\$149
State	96	55	61	26
Canada	128	115	59	54
	763	480	443	229
Deferred tax expense	195	818	104	408
	\$958	\$1,298	\$547	\$637

Edgar Filing: Wayside Technology Group, Inc. - Form 10-Q

The effective tax rate for the six and three months ended June 30, 2008 and June 30, 2007, respectively, was 40%.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

	Federal, State and Foreign Tax
Balance at January 1,2008	\$230
Additions based on tax positions related to current year	-
Gross Unrecognized Tax Benefit at June 30,2008	\$230
Net Unrecognized Tax Benefit at June 30,2008	\$78

The net Unrecognized Tax Benefit is included as a component of Other Liabilities within the Consolidated Balance Sheet.

12. In accordance with SFAS No. 123(R), "Share-Based Payment," recognized compensation cost for the six months ended June 30, 2008 and 2007 includes 1) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123; and 2) compensation cost for all share-based payments granted on or after January 1, 2006, based on the grant date fair value estimated in accordance with Statement 123(R).

At the annual stockholders' meeting held on June 14, 2006, the Company's stockholders approved the 2006 Stock-Based Compensation Plan (the "2006 Plan"). The 2006 Plan authorizes the grant of Stock Options, Stock Units, Stock Appreciation Rights, Restricted Stock, Deferred Stock, Stock Bonuses, and other equity-based awards. The total number of shares of Common Stock initially available under the 2006 Plan was 800,000. As of June 30, 2008, the number of shares of common stock available for future award grants to employees and directors under this plan is 413,500.

During 2006, the Company granted a total of 315,000 shares of restricted common stock to officers, directors and employees. Included in this grant were 200,000 restricted shares granted to the Company's CEO in accordance with his employment agreement. These 200,000 restricted shares vest over 120 months. The remaining 115,000 shares granted vest over 60 months.

During 2007, the Company granted a total of 30,000 shares of restricted stock to officers, directors and employees. These shares vest over 60 months. A total of 12,500 shares of restricted common stock were forfeited as a result of employees and officers terminating employment with the Company.

In February 2008, the Company granted a total of 57,500 shares of restricted stock to officers and directors. These shares vest over 60 months. A total of 3,500 shares of restricted common stock were forfeited as a result of employees terminating employment with the Company.

Changes during 2008 in options outstanding for the Company's combined plans were as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value (\$000's)(1)
Outstanding at January 1, 2008	442,890	\$7.85		
Granted in 2008	-	-		
Forfeited in 2008	(5,000)	\$12.85		
Exercised in 2008	(15,000)	\$2.13		\$0.1
Outstanding at June 30, 2008	422,890	\$8.00	5.3	\$0.3
Exercisable at June 30, 2008	422,890	\$8.00	5.3	\$0.3

(1) The intrinsic value is calculated as the difference between the market value on the last trading day of the quarter June 30, 2008 and the exercise price of the shares. The market value as of June 30, 2008 was \$7.82 as reported by The NASDAQ Global Market.

A summary of nonvested shares of restricted stock awards outstanding under the Company's 2006 Plan as of June 30, 2008, and changes during the six months then ended is as follows:

	Shares	Weighted Average Grant Date Fair Value
Nonvested shares at January 1, 2008	267,250	\$13.47
Granted in 2008	57,500	10.68
Vested in 2008	(28,250)	13.00
Forfeited in 2008	<u>(3,500)</u>	<u>14.85</u>
Nonvested shares at June 30, 2008	293,000	\$12.84

As of June 30, 2008, there is approximately \$3.8 million of total unrecognized compensation costs related to nonvested share-based compensation arrangements. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 6.17 years.

For the six months ended June 30, 2008 and 2007, the Company recognized share-based compensation cost of approximately \$367,000 and \$302,000, respectively, which is included in general and administrative expense.

13. SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information," requires that public companies report profits and losses and certain other information on their "reportable operating segments" in their annual and interim financial statements. The internal organization used by the Company's Chief Operating Decision Maker (CODM) to assess performance and allocate resources determines the basis for reportable operating segments. The Company's CODM is the Chief Executive Officer.

Edgar Filing: Wayside Technology Group, Inc. - Form 10-Q

The Company is organized into two reportable operating segments -- the "Programmer's Paradise" segment, which sells technical software, hardware and services directly to end-users (such as individual programmers, corporations, government agencies, and educational institutions) and the "Lifeboat" segment, which distributes technical software to corporate resellers, VARs, consultants and systems integrators.

As permitted by SFAS No. 131, the Company has utilized the aggregation criteria in combining its operations in Canada with the domestic segments as they provide the same products and services to similar clients and are considered together when the CODM decides how to allocate resources.

Segment income is based on segment revenue less the respective segment's cost of revenues as well as segment direct costs (including such items as payroll costs and payroll related costs, such as profit sharing, incentive awards and insurance) and excluding general and administrative expenses not attributed to a business unit. The Company only identifies accounts receivable and inventory by segment as shown below as "Selected Assets"; it does not allocate its other assets, including capital expenditures by segment.

The following segment reporting information of the Company is provided (in thousands):

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under the heading "Certain Factors Affecting Operating Results" and elsewhere in this report. The following discussion should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2007.

Overview

The Company is organized into two reportable operating segments -- the "Programmer's Paradise" segment, which sells technical software, hardware and services directly to end-users (such as individual programmers, corporations, government agencies, and educational institutions) and the "Lifeboat" segment, which distributes technical software to corporate resellers, VARs, consultants and systems integrators.

The Company's sales and results of operations have fluctuated and are expected to continue to fluctuate on a quarterly basis as a result of a number of factors, including: the loss of any major vendor, condition of the software industry in general; shifts in demand for software products; industry shipments of new software products or upgrades; the timing of new merchandise and catalog offerings; fluctuations in response rates; fluctuations in postage, paper, shipping and printing costs and in merchandise returns; adverse weather conditions that affect response, distribution or shipping; shifts in the timing of holidays; and changes in the Company's product offerings. The Company's operating expenditures are based on sales forecasts. If revenues do not meet expectations in any given quarter, operating results may be materially adversely affected.

Results of Operations

The following table sets forth for the periods indicated certain financial information derived from the Company's consolidated statements of earnings expressed as a percentage of net sales. This comparison of financial results is not necessarily indicative of future results:

Net Sales

Net sales for the second quarter of 2008 increased 9% or \$4.1 million to \$48.1 million compared to \$44.0 million for the comparable period in 2007. Total sales for the second quarter of 2008 for our Lifeboat segment were \$35.0 million compared to \$33.7 million in the second quarter of 2007, representing a 4% increase. Total sales for the second quarter of 2008 for our Programmer's Paradise segment were \$13.1 million compared to \$10.4 million in the second quarter of 2007, representing a 26% increase.

For the six months ended June 30, 2008, net sales decreased 3% or \$2.4 million to \$88.6 million compared to \$91.0 million for the same period in 2007. Sales for the six months ended June 30, 2008 for our Programmer's Paradise division were \$24.2 million compared to \$21.2 million for the same period last year. Sales for the six months ended June 30, 2008 for our Lifeboat division were \$64.4 million compared to \$69.8 million for the same period last year.

The growth in revenue for our Lifeboat segment in the second quarter of 2008 was mainly a result of the addition of new product lines. Excluding VMware, Lifeboat's sales increased by \$4.0 million or 21% compared to the second quarter of 2007. On July 30, 2008, the Company received a notice from VMware to terminate the VMware Distributor Agreement, dated September 20, 2004, between VMware and Lifeboat, effective as of December 31, 2008. Further, such notice provided that as of October 1, 2008, Lifeboat will cease distributing VMware-labeled products but VMware will accept orders for distributions of products through Programmer's Paradise.

The growth in revenue for our Programmer's Paradise segment in the second quarter of 2008 was mainly due to our customer service centric sales approach, aggressive pricing and flexible payment options used to win large deals during the quarter.

Gross Profit

Gross Profit for the quarter ended June 30, 2008 was \$4.3 million compared to \$4.3 million in the second quarter of 2007. Total gross profit for our Lifeboat segment for the quarter ended June 30, 2008 was \$2.8 million compared to \$3.0 million in the second quarter of 2007, representing a 6% decrease. Total gross profit for our Programmer's Paradise segment for the quarter ended June 30, 2008 was \$1.5 million compared to \$1.3 million in the second quarter of 2007, representing a 10% increase.

For the six months ended June 30, 2008 gross profit decreased by \$0.8 million to \$8.0 million compared to \$8.8 million in the same period in 2007. Programmer's Paradise gross profit for the six months ended June 30, 2008 was \$2.8 million compared to \$2.9 million for the first six months of 2007. Lifeboat's gross profit for the six months ended June 30, 2008 was \$5.2 million compared to \$5.9 million for the first six months of 2007. This decrease in gross profit was due to competitive pricing pressures.

Gross profit margin, as a percentage of net sales, for the quarter ending June 30, 2008 was 8.9% compared to 9.8% in the second quarter of 2007. Gross profit margin for our Programmer's Paradise segment for the second quarter of 2008 was 11.2% compared to 12.9% in the second quarter of 2007. Gross profit margin for our Lifeboat segment for the second quarter of 2008 was 8.1% compared to 8.9% in the second quarter of 2007. Gross profit margin as a percentage of net sales, for the six months ended June 30, 2008 was 9.1% compared to 9.7% in the same period last year.

The decrease in gross profit margin for both segments as a percentage of net sales was primarily caused by continued competitive pricing pressure as well as several large orders won at lower margins.

Selling, General and Administrative Expenses

Total selling, general, and administrative ("SG&A") expenses for the second quarter of 2008 were \$3.1 million compared to \$3.0 million in the second quarter of 2007. As a percentage of net sales, SG&A expenses for the second quarter of 2008 were 6.4% compared to 6.8% in the second quarter of 2007. For the six months ended June 30, 2008 SG&A expenses were \$6.0 million compared to \$6.0 million in the same period last year. As a percentage of net sales, SG&A expenses were 6.8% for the six months ended June 30, 2008 compared to 6.7% in the same period last year.

The Company expects that its SG&A expenses, as a percentage of net sales, may vary by quarter depending on changes in sales volume, as well as the levels of continuing investments in key growth initiatives.

Direct selling costs for the second quarter of 2008 was \$1.5 million compared to \$1.4 million in the second quarter of 2007. Total direct selling costs for our Programmer's Paradise division for the second quarter of 2008 were \$0.7 million compared to \$0.8 million in 2007, representing a 9% decrease. Total direct selling costs for our Lifeboat division for the second quarter of 2008 were \$0.8 million compared to \$0.7 million in 2007, representing a 12% increase.

Foreign Currency Transactions Gain (Loss)

The realized foreign exchange gain for the quarter ended June 30, 2008 was \$4,000 compared to \$1,000 for the same period in 2007. For the six months ended June 30 2008 the realized foreign exchange gain was \$7,000 compared to no foreign currency gain or loss in the same period last year. Foreign exchange gains and losses primarily result from our trade activity with our Canadian subsidiary. Although the Company does maintain bank accounts in Canadian currencies to reduce currency exchange fluctuations, the Company is, nevertheless, subject to risks associated with such fluctuations.

Income Taxes

For the quarter ended June 30, 2008, the Company recorded a provision for income taxes of \$547,000, which consists of a provision of \$323,000 for U.S. federal income taxes as well as a \$61,000 provision for state and local taxes and \$59,000 for Canadian taxes, and a deferred tax expense of \$104,000. For the quarter ended June 30, 2007, the Company recorded a provision for income taxes of \$637,000, which consisted of a provision of \$149,000 for U.S. federal income taxes as well as a \$26,000 provision for state and local taxes and \$54,000 for Canadian taxes, and a deferred tax expense of \$408,000.

For the six months ended June 30, 2008 the Company recorded a provision for income taxes of \$958,000 which consists of a provision of \$539,000 for U.S. federal income taxes as well as a \$96,000 provision for state and local taxes and \$128,000 for Canadian taxes, and a deferred tax expense of \$195,000. For the six months ended June 30, 2007 the Company recorded a provision for income taxes of \$1,298,000, which consisted of a provision of \$310,000 for U.S. federal income taxes as well as a \$55,000 provision for state and local taxes and \$115,000 for Canadian taxes, and a deferred tax expense of \$818,000.

The effective tax rates for the six and three months ended June 30, 2008 and June 30, 2007, respectively, was 40%.

Liquidity and Capital Resources

During the first six months of 2008 our cash and cash equivalents decreased by \$1.4 million to \$12.8 million at June 30, 2008, from \$14.2 million at December 31, 2007. During the first six months of 2008, net cash provided by operating activities amounted to \$1.4 million; net cash used in investing activities amounted to \$0.4 million and net cash used in financing activities amounted to \$2.4 million.

Net cash provided by operating activities in the first six months of 2008 was \$1.4 million and primarily resulted from a \$2.1 million increase in accounts payable and net income excluding non-cash charges of \$2.2 million offset partially by a \$2.6 million increase in accounts receivable and an increase of \$0.3 million in inventory.

Net cash used in investing activities in the first six months of 2008 amounted to \$0.4 million. This primarily resulted from \$0.3 million of capital expenditures. The balance was made up of net purchases of available-for-sale securities. These securities are highly rated and highly liquid. These securities are classified as available-for-sale securities in accordance with SFAS 115 "Accounting for Certain Investments in Debt and Equity Securities", and as a result, unrealized gains and losses are reported as part of accumulated other comprehensive income (loss).

Net cash used in financing activities in the first six months of 2008 amounted to \$2.4 million. This consisted of dividends paid of \$1.4 million and treasury share buy-backs of \$1.0 million.

The Company's current and anticipated use of its cash and cash equivalents is, and will continue to be, to fund working capital, operational expenditures, the stock buyback program and dividends if declared by the board of directors. Our business plan furthermore contemplates to continue to use our cash to pay vendors promptly in order to obtain more favorable conditions.

We believe that the funds held in cash and cash equivalents will be sufficient to fund our working capital and cash requirements for at least the next 12 months. We currently do not have any credit facility and, in the foreseeable future, we do not plan to enter into an agreement providing for a line of credit.

Contractual Obligations as of June 30, 2008 were summarized as follows:

(Dollars in thousands)

Contractual Obligations	Payment due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years

(1) Operating leases primarily relates to the leases of the space used for our operations in Shrewsbury, New Jersey, and Mississauga, Canada and our former sales office (net of sublease income), in Hauppauge, New York. The commitments for operating leases include the minimum rent payments and a proportionate share of operating expenses and property taxes.

(2) In addition to the contractual obligations disclosed in this table, we have net unrecognized tax benefits totaling \$78,000 with respect to which, based on uncertainties associated with the items, we are unable to make reasonably reliable estimates of the period of potential cash settlements, if any, with taxing authorities. As a result, such potential liabilities are not listed in the table.

The Company is not committed by lines of credit or standby letters of credit, and has no standby repurchase obligations or other commercial debt commitments. The Company is not engaged in any transactions with related parties.

As of June 30, 2008, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

Critical Accounting Policies and Estimates

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Company recognizes revenue from the sale of software and hardware for microcomputers, servers and networks upon shipment or upon electronic delivery of the product. The Company expenses the advertising costs associated with producing its catalogs. The costs of these catalogs are expensed in the same month the catalogs are mailed.

On an on-going basis, the Company evaluates its estimates, including those related to product returns, bad debts, inventories, investments, intangible assets, income taxes, contingencies and litigation.

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Company records revenues from sales transactions when title to products sold passes to the customer. Usual sales terms are FOB shipping point, at which time title and risk of loss has passed to the customer and delivery has occurred. Revenue is recognized in accordance with Statements of Position ("SOP") 97-2 "Software Revenue Recognition", Staff Accounting Bulletin ("SAB") No. 101 and No. 104, "Revenue Recognition" and Emerging Issues Task Force ("EITF") 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent". The majority of the Company's revenues relates to physical products and is recognized on a gross basis with the selling price to the customer recorded as net sales with the acquisition cost of the product to the Company recorded as cost of sales. At the time of sale, the Company also records an estimate for sales returns based on historical experience. Certain software maintenance products, third party services and extended warranties sold by the Company (for which the Company is not the primary obligor) are recognized on a net basis. Accordingly, such revenues are recognized in net sales either at the time of sale or over the contract period, based on the nature of the contract, at the net amount retained by the Company, with no cost of goods sold.

Vendor rebates and price protection are recorded when earned as a reduction to cost of sales or merchandise inventory, as applicable. Cooperative reimbursements from vendors, which are earned and available, are recorded in the period the related advertising expenditure is incurred. Cooperative reimbursements are recorded as net sales in accordance with EITF 02-16, "Accounting for Consideration Received from a Vendor by a Customer (Including a Reseller of the Vendor's Products)".

The Company believes the following critical accounting policies used in the preparation of its consolidated financial statements affect its more significant judgments and estimates. The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The Company writes down its inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-offs may be required.

Recent Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board ("FASB") issued SFAS No. 141 (revised 2007) "SFAS No. 141." SFAS No. 141 (revised 2007) establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141 (revised 2007) will become effective for the fiscal year beginning after December 15, 2008.

In December 2007, the FASB issued "SFAS No. 160" "Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51." SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 will become effective for the fiscal year beginning after December 15, 2008. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

In February 2007, the FASB issued Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" (SFAS No. 159). SFAS No. 159 allows entities the option to measure eligible financial instruments at fair value as of specified dates. Such election, which may be applied on an instrument by instrument basis, is typically irrevocable once elected. SFAS No. 159 is effective for our Company beginning January 1, 2008 for financial assets and liabilities, as well as for any other assets and liabilities that are carried at fair value on a recurring basis in the financial statements. The adoption of SFAS 159 did not have a material impact on our consolidated financial position, results of operations or cash flows.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" ("SFAS No. 162"), which identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with GAAP in the United States. The FASB believes that the GAAP hierarchy should be directed to entities because it is the entity (not its auditor) that is responsible for selecting accounting principles for financial statements that are presented in conformity with GAAP. The Company does not expect the adoption of SFAS No. 162 to have a material effect on its condensed consolidated financial statements.

In June 2008, the FASB issued FASB Staff Position EITF 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities" ("EITF 03-6-1"). EITF 03-6-1 applies to the calculation of earnings per share for share-based payment awards with rights to dividends or dividend equivalents under Statement No. 128, Earnings Per Share. Unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents will be considered participating securities and will be included in the computation of earnings per share pursuant to the two-class method. The effective date of EITF 03-6-1 is for financial statements issued for fiscal years beginning after December 15, 2008, and all interim periods within those years. Early adoption is not permitted. Once effective, all prior period earnings per share data presented will be adjusted retrospectively. The Company is currently evaluating the potential impact, if any, the adoption of EITF 03-6-1 may have on its condensed consolidated financial statements.

Certain Factors Affecting Operating Results

This report includes "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Statements in this report regarding future events or conditions, including statements regarding industry prospects and the Company's expected financial position, business and financing plans, are forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. We strongly urge current and prospective investors to carefully consider the cautionary statements and risks contained in this report. Such risks include, but are not limited to, the continued acceptance of the Company's distribution channel by vendors and customers, the timely availability and acceptance of new products, contribution of key vendor relationships and support programs, as well as factors that affect the software industry in general.

The Company operates in a rapidly changing business, and new risk factors emerge from time to time. Management cannot predict every risk factor, nor can it assess the impact, if any, of all such risk factors on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements.

Accordingly, forward-looking statements should not be relied upon as a prediction of actual results and readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The statements concerning future sales and future gross profit margin are forward looking statements involving certain risks and uncertainties such as availability of products, product mix, market conditions and other factors, which could result in a fluctuation of sales below recent experience.

Stock Volatility. The technology sector of the United States stock markets has experienced substantial volatility in recent periods. Numerous conditions, which impact the technology sector or the stock market in general or the Company in particular, whether or not such events relate to or reflect upon the Company's operating performance, could adversely affect the market price of the Company's Common Stock.

Furthermore, fluctuations in the Company's operating results, announcements regarding litigation, the loss of a significant vendor, increased competition, reduced vendor incentives and trade credit, higher postage and operating expenses, and other developments, could have a significant impact on the market price of the Company's Common Stock.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

In addition to its activities in the United States, the Company also conducts business in Canada. We are subject to general risks attendant to the conduct of business in Canada, including economic uncertainties and foreign government regulations. In addition, the Company's Canadian business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates or other factors.

The Company's \$9.8 million investments in marketable securities are primarily in highly liquid U.S. government securities. The remaining cash balance is invested in short-term savings accounts with our primary bank, JPMorgan Chase Bank. As such, the risk of significant changes in the value of our cash invested is minimal.

Item 4T. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rule 13a-15(b) under the Exchange Act, our management carried out an evaluation of the effectiveness of the design and operation of the Company's "disclosure controls and procedures" as of June 30, 2008. This evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer (principal executive officer) and Chief Accounting Officer (principal financial officer). As defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, disclosure controls and procedures are controls and other procedures of the Company that are designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including our Chief Executive Officer and Chief Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure.

Based upon that evaluation, our Chief Executive Officer and Chief Accounting Officer concluded that our disclosure controls and procedures were effective as of June 30, 2008. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

Changes in Internal Control Over Financial Reporting. As required by Rule 13a-15(d) under the Exchange Act, our management, including our Chief Executive Officer and Chief Accounting Officer, also conducted an evaluation of our internal control over financial reporting to determine whether any change occurred during the quarter ended June 30, 2008, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation during the quarter ended June 30, 2008 there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
